F-M ROADS MAY BE CAUSE OF MANY DEATHS

Hundreds of Texans are likely to be killed or injured because of the Farm-to-market road program in Texas.

This will happen, the Texas Safety Association and the Texas Highway Patrol said today in a joint statement, unless rural people learn quickly to use these roads properly and to police themselves.

Last year 221 persons were killed in county road accidents in Texas. For the first half of this year, only 77 were killed, for a 37 percent reduction in the death rate.

"This is National Farm Safety Week," said Charles A. Miller of Houston, President of the Safety Association, "and its observance centers attention on rural traffic as one of the most important of farm safety problems."

"As rural roads are improved, rural people must remember that a good farm road is a sub-standard highway, likely to be narrower and to have sharper turns and grades," Miller said. "Another dangerous factor is the tendency people have to think that they have the road all to themselves. This is revealed especially in failure to observe proper precautions at intersections, coming to a full stop and proceeding cautiously when entering a highway."

W. J. Elliott, chief of the Highway Patrol, said his force has more than it can do to patrol 31,000 miles of principal highways and cannot possibly patrol additional miles of farm roads. "We're praying that rural people won't start making race tracks out of plowhoses on these roads," Elliott said. "Our only hope is that the people will be their own safety patrol for the sake of self-preservation. Unless they do, enough blood will be spilled on these roads to paint a red stripe down the center of them from one end to the other."

ENCAMPMENT IS AUGUST 1-4

The stage is set for one of the most important encampments ever arranged for the 4-H club folks of the Texas Panhandle. It will be held August 1st to 4th in the Colfax County, New Mexico 4-H Club Camp, in the Cimarron Canyon. The camp is located in the mountains, at an altitude of 10,000 feet. It is considered one of the most beautiful camp sites in the country, and is entirely unspoiled by concessions and other commercial enterprises.

There will be 125, or more, persons attending this camp. Four-H boys and girls, adult leaders, field agents, district agents, specialists and other representatives of the Extension Service will leave their homes in time to reach the camp site by early evening Monday, August 1st.

The program being arranged for the camp will be of such a nature that the 4-H club members as well as the adults will consider the days used in this camp as time unusually well spent. The event will be a true leadership training camp, but so handled, that all will enjoy every bit of it.

Reservations for the camp have been received from sixteen counties in the Texas Panhandle by H. M. Nichols, secretary of the District One County Agricultural Agents Association and chairman of the finance committee for the 4-H encampment. Those counties are Ochiltree, Dallam, Hansford, Wheeler, Sherman, Lipscomb, Gray, Carson, Sherman, Moore, Hartley, Randall, and Roberts County. Those attending from this county will be Wauwetta Burgess of Wheeler, Glenna Sue Elmore of Allison, Mrs. Bill Owens of Wheeler, Mr. and Mrs. Hastings, Genevieve Morton, and Ralph Wheat. The boys have not been selected as yet.

Rev. and Mrs. Darris Egger and son left Sunday night after the evening service for Okmulgee, Okla. to visit with Mrs. Egger's mother. Rev. Egger returned Wednesday but Mrs. Egger stayed on for a longer visit.

Mr. and Mrs. Carlyle Robison, Sonny and Beverly, of Socorro, N. M. spent the weekend with Mr. and Mrs. C. C. Robison and Mr. and Mrs. Babe Robison.

Of Interest To Legionnaires

By Virgil Jamison

Next Thursday night, August 4, is regular monthly business meeting night at the local post and all members are urged to be present and take part in the transaction of regular business. New officers are supposed to be installed at this meeting but, due to the fact that Charlie Gibson, district commander, cannot be present on that occasion formal installation ceremonies have been postponed until Thursday night, August 18.

The officers are going to be installed in regular fashion, we hope. There will be refreshments, entertainment, and indoor sports. It is hoped that all members will get in training during the next week and bring a stout heart with them. There are some positions on committees yet open so it is supposed this will be taken care of at the meeting Thursday night. I am sure that all of our legionnaires as well as the auxiliary are proud that Jean Lewis was elected President of the Auxiliary last Monday night. We all pledge to you our support Mrs. Lewis for the coming year and hope you have oodles of success in carrying out the Legion Auxiliary program.

By the way, fellows, you should see that new furniture we got in this week. It sure is swell. Commander Garrison STILL insists there was a FIRE but he thinks he wanted everyone to come down to see the furniture. Any way, it is something we have needed for a long time and this writer is really proud of it.

Some of the boys are taking advantage of the new Veterans Land Bill and sending in their applications for loans. It sure is a good deal for anyone wanting to own their own farm. You had better hurry though boys, for the loans have aggregate limit and when the money is gone then no more loans.

Hoping to see you at the meeting Thursday night.

SCOUTING AGES ARE LOWERED

The National Council, Boy Scouts of America, through its National Executive Board, and the recommendation of the Special Committee on Age Study, recently took action providing that, effective September 1, 1949, the age of admission to Cub Scouting be lowered to 8, the age of admission to Boy Scouting to 11, and the age of admission to Senior Scouting to 14 years of age. This action was taken after three years of intensive study, during which the following factors were taken into consideration: practice of other Scout Associations all over the world, scientific opinion, relationship with school programs, recommendations of Local Council and Executives, opinions of Unit Leaders, and the opinion of parents.

The programs of Cub Scouting and Boy Scouting will remain unchanged. However, a new program for Senior Scouts was also adopted. Henceforth all young men fourteen years of age or over in the Boy Scouts of America, whether in Troops or in specialized Units, shall be known as Explorers and the program for them will be called "Exploring". This program will be broad enough in its scope to include land, sea, and air activities as well as life explorations. Explorers in a Troop will be formed into one or more Crews under the leadership of an adult who will be known as the Explorer Advisor. The Explorers in the Crew within a Troop will carry on the Explorer Program with all four of its phases—a vigorous physical and outdoor program, a vocational exploration program, a balanced social program, and a service program. The activities within the Explorer Program will be developed by the Explorers themselves, with suggestions and the active guidance of their Advisor.

Mr. J. C. Shewmaker, missionary from Africa will speak, Tuesday evening 8:00 o'clock at the Wheeler Church of Christ. Everyone is invited.

Missionary To Speak At Church Of Christ

Mr. J. C. Shewmaker, missionary from Africa will speak, Tuesday evening 8:00 o'clock at the Wheeler Church of Christ. Everyone is invited.

GIRL SCOUTS ATTEND CAMP THIS WEEK

Wheeler Girl Scout Troop 213 enjoyed a two day encampment at Camp Sullivan Tuesday and Wednesday under the supervision of Mrs. K. E. Thornton, Pampa Area Scout Official.

The girls left Wheeler at 8:00 Tuesday morning and returned at 4:00 Wednesday afternoon.

The Troop was divided into four patrols and performed the various duties of the camp. Patrol 1 was the Fire Builders; Patrol 2 was the Cooks; Patrol 3 was House Cleaners and Patrol 4 was the Clean Ups.

A Nose Bag lunch was carried and eaten at lunch Tuesday. The cooks prepared the other three meals that were eaten at the camp. The fire builders did excellent jobs of building their fires. A hearty ok was given the house cleaners and the clean ups received due credit work done on the camp yards.

The Troop took two hikes and enjoyed a camp fire service along with the regular duties of the camp.

The following Scouts attended: Annrose McCormick; Paula Green; Sharon Green; Patsy Burgess; Wauwetta Burgess; Pam Anglin; Janice Jacob; Billie Owens; Barbara Revis; Mary Black; Nancy Lee; Wanda Topper; Janet Bowerman; Donna Speck; Janet Russ and Kathryn Ann Whitener.

The leaders, Mrs. Carroll Pettit, Mrs. W. A. Goad, Jr., Mrs. Roy Ford, and Miss Vendell Starkey; Den Mothers Mrs. Paul Green, Mrs. Maurice Burgess, Mrs. Buster Black and Mrs. Coy Revis; Mrs. K. E. Thornton, Supervisor accompanied the girls.

Now that Camp Sullivan has been visited more information can be given concerning our Scout set-up. The Pampa Scout Area voted to let us come into their area, therefore giving us more benefits than if we were a lone area. Bill Owens was voted by the Kiwanis Club to serve as our Council Representative to the Area Council which meets the first Friday in each month. By being in the Pampa Area we have access to Camp Sullivan located about three miles from Lefors. Camp Sullivan has a very nice club house with every thing in the way of beds and dishes ready for use. It has recently been wired with electricity and a large kitchen added. It is a very nice spot for camping and the local Troop is indeed glad that it can have such a place to go for their encampments.

Troop 218 would like to take this opportunity to again thank everyone for their cooperation in the loaning of cars for transportation to and from the camp; and for all their help in getting the troop started and for the splendid boots that it has received thus far.

Mobeetie Lions Honor Past Boss J. Miller

The Mobeetie Lions Club met Thursday night, July 28. There were twelve members present and one guest, W. K. Frey, the Wheeler County Agent. Mr. Frey made a very interesting talk on "Youth". The club presented the Past Boss Lion, Jack Miller, with a birthday cake topped with one candle. The cake was baked by Mrs. Elnita Atkins.

A nice chicken dinner was served by Mrs. C. M. Nixon and Mrs. Herk Atkins. Those Lions enjoying the dinner were: L. D. McCauley, Jim Hathaway, Boyd Beck, Aubrey Ruff, Jim Williamson, C. R. Brown, A. A. Burch, Herk Atkins, Jack Miller, N. J. Tyson, C. M. Nixon, Buck Scribner and the guest, W. K. Frey.

If you are looking for lots of fun and plenty to eat, meet with the Lions Club their next regular meeting, Tuesday night, August 9.

C. L. Herd Promoted To Grade Of Sergeant

Chester L. Herd, son of Mr. and Mrs. H. H. Herd of Wheeler, has been promoted to the grade of sergeant, officials at MacDill Air Force Base, announced today. Sergeant Herd enlisted in the U. S. Air Force in December, 1947, at Pampa, Texas. He is now engaged as a supply clerk with the Headquarters Squadron of the 307th Air Base Group at MacDill.

Smothering with earth is not a sure method of putting out a fire.

Famous War Dog Pays Visit To Wheeler In Company With Owner

Members of the Nash Appliance and Supply Co. staff were entertained briefly last Friday morning by a famous war dog, Prince, a veteran of the K-9 Corp who saw action in the Pacific campaigns. Prince was with the Marine Corp and Coast Guard for 21 months.

Prince, a registered German Sheppard, 6 years old last March, belongs to Charlie H. Smith, an appliance salesman, of Three Rivers, Texas and travels with his master and mistress a great deal of the time.

The dog demonstrated many of the jobs he learned to perform as a member of the armed services, for instance, his master laid an article on the floor and gave Prince the command, "guard", and it would have been disastrous for anyone to touch the article. In another instance the dog's owner laid a cracker on the floor and he would not go about it until his master gave the command, "chow", at which point he devoured the cracker.

Last winter a 2-year old boy was lost in the woods at Colville, Washington and after a posse of 100 men had hunted all night without success, Prince was flown to the scene and he led searchers to the boy within a few minutes.

Prince was wounded in action on Palau. He is now a member of the Army Reserve Corp.

ND COUNCIL IN MEETING SAT.

The Wheeler County Home Demonstration Council met July 23. Mrs. E. E. Sheegog, council chairman, was in charge of the meeting.

There will be no council meeting in August and the September meeting will be September 3. The meeting date was changed in order to make final arrangements for the County Fair.

The council exhibit committee is to be in charge of arrangements for club exhibits at the Fair and a committee from each club is to be responsible for the exhibit from their club.

Mrs. Wesley Leake gave the treasurer's report and it revealed that several clubs haven't turned in their council fees, T.H.D.A. fees on their year book fees.

Mrs. O. T. Glasscock, County T.H.D.A. chairman, read the "Score Your Club" reports. All club's scores were good and four of the clubs had scores of 4000.

Miss Myrtle Murray, Marketing specialist from the Texas Extension Service will meet with the marketing chairman from all the clubs in Wheeler at 9:30 a. m. August 18. The public is invited to attend the meeting at 2:30 in the afternoon with Miss Murray.

Recreation School To Be Held At Cafeteria

Attention 4-H Club Boys, Girls and adult leaders! Miss Dorothy Brightwell, Recreation Specialist from A. and M. College will be in this county August 8, 9, and 10 to conduct a recreation school. The main purpose of this school is to train boys and girls to go into their communities and clubs as good recreation leaders, so it might also be termed a leadership school.

The school will be held at the school lunchroom in Wheeler with the sessions beginning at 9:00 a. m. each day and continuing throughout the remainder of the day.

All boys and girls who are over 12 years of age, and would be interested are invited and urged to attend this school.

Wheeler Co. Singers Hold Meeting Sunday

The Wheeler County Singing Convention met in the Methodist Church in Kellon Sunday and they reported a large attendance. Among those present were: the Wellington Quartet, the Shamrock Quartet, and the Morrison Trio from Oklahoma.

The next Convention will meet in the Missionary Baptist Church in Shamrock, Sunday, August 28. Officers will be elected for the coming year. Everyone is invited to attend.

Half-Inch Rain Brightens Hopes For Good Row Crop

LOCAL DOCTORS HOSTS TO MEET

Dr. H. E. Nicholson and Dr. H. E. Nicholson, Jr. were hosts to the Top O' Texas County Medical Society at their regular monthly meeting which was held at the Wheeler American Legion Building Tuesday evening, July 19.

The meeting was called to order by society secretary Dr. Wilder since the president and vice-presidents were absent and Dr. H. E. Nicholson was asked to preside.

Dr. Nicholson then called on Dr. H. E. Nicholson, Jr. to introduce State Representative Grainger McIlhany, who was a guest of the society at the meeting.

Dr. E. P. Reed of Amarillo lectured on "Surgery in Peptic Ulcer". The lecture was profusely illustrated with excellent lantern slides. The discussion was opened by Dr. M. C. Overton, Jr. who was followed by Drs. Elder, Hatchett, Nicholson and Pieratt.

The doctors enjoyed a delicious chicken dinner which was prepared and served by the local American Legion Auxiliary. Watermelon was served as dessert.

Those present at the Wheeler meeting were: Drs. W. Purviance, J. R. Donaldson, M. McDaniel, K. W. Pieratt, J. F. Elder, D. P. Bonner, O. Huff, M. C. Overton, Jr. and H. L. Wilder of Pampa, D. E. Hampton, Borger, J. W. Gooch, Shamrock, D. B. Pearson, Perryton, H. E. Nicholson and H. E. Nicholson, Jr. of Wheeler. Visitors Drs. C. S. Hatchett and E. P. Reed of Amarillo and R. M. Hampton of Pampa. Public relations director Harry Kelly and Representative McIlhany.

INDIANS TO BE AT PAMPA SHOW

Yes, the Top o' Texas Rodeo and Horse Show Association is giving this country back to the Indians during the annual Top o' Texas Rodeo and Horse Show to be held here on August 2-3-4-5-6.

Arrangements have been completed with the U. S. Indian Reservation Offices at Anadarko, Oklahoma, for the appearance of a group of Indians from the United States Indian Reservations to appear in this year's show. There will be three tribes represented in the delegation, the Kiowas, Comanches and Apaches. The oldest Indian, Frank Bosin, is a Kiowa and is 89 years old. George, who is Frank Bosin's son, is a descendant of Tohauasan (signer of the Medicine Lodge Treaty). George's wife, Beauty Aspermy is a Comanche, a descendant of Chief Quana Parker. The group of dancers will range in age from 9 to 90.

This group of dancers are nationally famous for their Indian War Dances, and will dance at each night's rodeo performances in full costume and ceremony. The costumes of the Indian girls are buck skin and beads valued up to \$500.00, and are treasured very highly by them as it is almost impossible to obtain the materials to make these dresses. The War Bonnets and Head Dresses of the men are Eagle feathers and are also very expensive and hard to obtain. They will be equipped with tom-toms or war drums plus the colorful University Hardin-Simmons Cowboy Band in the background.

These dancers are experts in their tribal dances and do such dances as the war dance, shield dance, Indian round dance, Indian two-step, Eagle dance and many others.

These dancers are experts in their tribal dances and do such dances as the war dance, shield dance, Indian round dance, Indian two-step, Eagle dance and many others.

Rev. Hamilton To Be At Mobeetie Sunday

Rev. W. E. Hamilton, District Superintendent of the Clarendon District, will preach at the Mobeetie Methodist Church at the eleven o'clock hour Sunday morning, July 31, Rev. Vernon Willard, pastor, announced this week.

Rev. Hamilton will also be in charge of the First Quarterly Conference to be held at 2:30 in the afternoon. Definite plans will be made at this meeting for the year's work and the pastor wishes to urge all members and friends to join with us for the services of the day.

Miss Sue Farmer left this week for a trip to Connecticut.

PROSPECTS FOR A GOOD COTTON AND ROW CROP

Prospects for a good cotton and row crop in the vicinity of Wheeler were brightened late Tuesday afternoon when the area was blessed with approximately a half-inch of rainfall.

Crops in this vicinity had not begun to suffer too severely from the extremely hot weather of the past three weeks, but would have begun to show drought signs in the next few days. Flowers, gardens, and lawns in the city have brightened up considerably since the rainfall.

Row crops in this vicinity had been doing very well so far this year due to the abundance of moisture which fell late in the spring, but had grown so rapidly that it was almost imperative that they have moisture in order to survive the summer heat and grow to maturity.

Apparently the peach and fruit crop in this locality was not as badly damaged by hail early in the spring as was first thought, judging from the amount and quality of the peaches for sale at roadside stands in and around Wheeler and there is much of the crop which has not as yet begun to ripen.

Where the wheat crop was short this year due to excessive spring rains, it is quite probable that farmers will harvest bumper cotton and grain sorghum crops this fall if the weather continues as favorable as it has been thus far.

MIAMI MINISTER KILLED IN CRASH

Funeral services for the Rev. Alan Harvey-Brooks were held in the First Methodist Church of Miami at 10:00 a. m. today (Thursday). The Rev. W. E. Hamilton, superintendent of the Clarendon district and the Rev. Luther Kirk, superintendent of the Perryton district, conducted services.

The minister, 54, was killed Monday, when his car apparently went out of control and crashed three miles from Kingsmill on Highway 60. He was enroute to Amarillo and was supposed to be there at 9 a. m.

When the minister started to leave Miami about 8 a. m. he told a service station attendant he was late for an appointment and didn't believe he was going to be in time. A R. Walberg of Kingsmill said he saw the 1947 Frazer ahead of him begin weaving slowly across the road and then turn over several times. The minister's body beaten badly around the head and face, was found 45 feet from the wrecked car. The accident occurred shortly after 9 a. m.

For four years prior to his appointment to the Miami pastorate in June he had been pastor of the Bunavista Methodist Church, Borger. He was a member of the Borger Kiwanis Club and adjutant of the Borger American Legion Post.

Survivors are his wife, one son, Alan, Jr., and two daughters, Mrs. Jeannette Prim of Lubbock and Miss Betty Harvey-Brooks of Miami.

Military services were held by the Miami American Legion post with burial in the Miami Cemetery. Pallbearers were Bill Hewitt, Haskell Cutesch and Jim Woody of Bunavista and J. K. McKinzie, W. K. Carr and Clyde Loter of Miami.

**LEADER OR DRIVER
ON ARMS PLAN?**

The President's insistence on his full

\$1,450,000,000 arms for Europe program is not at the moment a testimonial to political acumen on his part. The only real opposition to his proposal is in the ranks of those who dislike the Atlantic Pact and arms for Europe at all. But in friends of both propositions there is a serious question of timing. Under the circumstances, Mr. Truman could make greater progress by abandoning his effort to drive Congress in favor of conciliation and persuasion.

Majority congressional hesitation is not ill based. Most of the fears can be met by argument. But Mr. Truman seems indisposed to argue.

We propose, for instance, to earmark in the Truman plan \$155,000,000 to aid arms production within the pact countries. But, point out the hesitants, if Russia invades those countries, we will lose that investment. Now this is, of course, true, but it is a hazard that must be accepted with the pact commitments. There is nothing to be gained by asking the signatory nations to refrain from arms manufacture lest Russia grab their plants. Our wisest course is to make all of our potential allies as powerful in self-defense as possible. We can do that by withholding the means of achieving the status.

Perhaps the biggest point of difference in current congressional thinking and that of the White House is in whether it is worth while to underwrite the bill before there are testworthy plans of unified action. If the blueprint should come first, Mr. Truman is still sound in arguing that the means to make it practical should already have been provided so far as our part is concerned. On such practical measures as American arms production for Europe, technical military assistance and training, radar equipment and education, the means to resist aggression can and should be initiated even before the method has been planned and approved.

Nearly a billion and a half dollars is a bale of money in anybody's company. Congress, aware of sharp public criticism of federal extravagance, does not want to rush into hurried expenditure. But the fact remains that the one-sided majority that voted for the pact will not extract the teeth from the document. Congress will listen to reason—but not to whip-cracking.

Unfortunately, when it comes to matters of policies, Mr. Truman has a large proportion of the stubbornness attributed to that eccentric hybrid so often associated with his native state of Missouri.

Crisp Cotton

Pink and black resort dress.

By VERA WINSTON

PINK AND BLACK checked sheer cotton is the timely choice for a nice day-into-evening dress and jacket for informal summer wear. The frock has a strapless top with crossed-over draped bustline. The skirt is gathered all around. The black velvet belt has a swashbuckle flared end. The tiny jacket is lined in black and has cap sleeves. It closes with three black buttons. This is a good little resort number too.

DOUBLE DISILLUSIONMENT

The distinguished poet, Louis Untermeyer, was attending a gay party, his wife gleefully reports, when he had a most unsettling encounter with a member of the younger generation.

It was a costume affair, and Untermeyer was wearing a silly-looking paper hat and blowing like mad on a cheap tin horn. At the height of the festivities a young college girl walked up to the poet, coolly surveyed him from head to foot, and turning on her heel, snorted: "Heck; and you're Required Reading."

Deficiency of Vitamin A is said to cause night blindness.

Portland cement is named for Portland, England.

WATERED

An English housewife was complaining to her dairymaid the quality of his milk.

"Short o' grass feed at this time of the year," said the dairymaid. "Bless you, them cows are just as sorry as I am, because they feed on grass because they feel some of their milk don't do 'em no good. You don't believe me?"

"Oh, yes, I believe you, the woman coldly, "but I'm the future you'd see they get all the tears go into my tea."

Sanitation is the number one item in any successful fly program. Insecticidal treatment of little or no value unless a thorough clean-up job is done. There is no substitute for cleanliness.

*Make your own weather
this summer with the
Deerborn Evaporative Cooler*

No need to suffer in stifling rooms this summer when the Deerborn Evaporative Cooler can bring you cool comfort at small cost. The Deerborn cooler is easily installed and constructed to give you many years of trouble-free service. Its smart good looks and quiet operation add to your pleasure. You'll thank yourself again and again as you enjoy cool comfort in weather you want all summer long!

We also have 8, 10 and 12-inch fans in stock, if you need them. We can install air conditioners if you desire.

REASON ENOUGH

Buzzards were lazily soaring over the desert when a jet plane zipped out flame and smoke. As it whizzed out of the sky the buzzards reared up in a hurry, too," said the pilot. "If your tail was on

JUST A SLIGHT DIFFERENCE

In a glow of triumph after making a small slam at bridge, Al Cowan was amazed by his wife's scathing comments. "What's wrong, honey?" he inquired. "I made it, didn't I?" "Yes," she retorted, "but if you'd played it the way you should you wouldn't have made it!"

LIBRARY NOW AVAILABLE TO FARM FAMILIES

One hundred and fifty of Texas' 254 counties have no public library, and 3 1/2 million Texans are not getting adequate library service, says Wayne Rohrer, assistant professor, department of agricultural economics and sociology of Texas A. and M. College. It's assumed that a large number of these are members of farm and ranch families.

Rohrer gives two suggestions that should be helpful to those families who are interested in better library facilities. He says the Texas State Library, Austin, will loan books to any person who lives in a county that is not adequately served by a free public library. As many as six books may be borrowed at one time. The borrower pays the postage to and from the library and agrees to return the books within three weeks from the mailing date. Time extensions will be granted if asked for before the deadline date. This plan continues Rohrer, is known as the Service to Individual Borrowers.

The other plan is known as the Family Service plan. It is a continuous and automatic service. Families registered for the service may receive at definite intervals a collection of books selected to

meet the particular interests of each reader in the family and books may be kept for as long as two months. Rohrer says more than 50 different subjects are listed and they range from sewing and house plans to farm machinery, histories and special books for the younger members of the family.

The Texas State Library makes it easy for the farm family to borrow books. The fact sheet that is filled out by the family shows the age, grade in school and the interests of each member of the family and this information is used by the librarians at Austin to help them make the best possible selections for the family. Rohrer adds, that the family may select the kind of service it desires; that is, they can get another collection of books each time they return a collection or they can write for a collection when one is desired.

This is an excellent service and it gives rural people the advantages of a conveniently located free library. Here is a tax-supported service that is waiting to be enjoyed by anyone who is interested enough to write to the Texas State Library, Austin for complete details of the two borrowing plans. Rohrer concludes.

Many of the major sports employ the use of a ball. Football, baseball, tennis, and basketball are examples. But none is used in badminton, boxing, wrestling, fencing and ice hockey.

THE ROAD BACK

HEALTH OFFICER WARNS OF TB

There is no more emphatic proof of the power of ignorance and carelessness to spread disease than is shown by the continued ravages of tuberculosis, which is responsible for more deaths between the ages of fifteen and forty-five than any other disease.

Despite the knowledge of its cause, spread, and curative procedures, tuberculosis continues to be a grave public health problem, and today it holds fifth place among the killing diseases in this state. This fact exists even though the majority of tuberculosis patients could have their condition arrested, if it were recognized and early and proper treatment applied.

These facts are disclosed by Dr. Geo. W. Cox, State Health Officer, who says, "Treatment of the early recognized case is essential to recovery. It is of equal importance, from a public health viewpoint, that the spread of this devastating infection be prevented. A more widespread appreciation of this fact would result in the saving of thousands of lives."

The State Health Officer added: "When a diagnosis of active tuberculosis has been made, examination of all other members of the family, not because of any special susceptibility, but because it is communicable and easily transmitted from one member of the family to others."

To reduce the number of deaths caused by tuberculosis, Dr. Cox urges periodic examinations of all adults, including chest X-rays; frequent check-ups by physicians where active cases and their contacts are known; isolation or hospitalization of active tuberculosis cases; and a more intelligent application of hygienic living principles.

If all the insects in Africa were weighed together they would outweigh all the animals in Africa.

SOCIETY

Mrs. Clepper Hostess To Wheeler HD Club

Mrs. James Clepper was hostess to the Wheeler Home Demonstration Club, Wednesday, July 20, at her home. A report was given on the recent Home Demonstration Club Council meeting.

After a short business meeting on "Home Nursing," a pink and blue shower was had for Mrs. Everett Cole.

The traditional pink and blue color scheme was carried out featuring a gift table where gifts were arranged on the table around a large plastic stork.

Lovely refreshments were served to Mesdames H. J. McCormick, Emma Hastings, Cole, Wayde K. Frey, Barney Teague, Bill Rushing, R. L. Bradley, Lyndon Sims, Spud Moore, and Mrs. Everett Cole and the hostess, Mrs. James Clepper.

Mrs. I. M. Passons sent a gift. The next meeting of the club will be August 3 at the court house to go to Kellan and put on a program.

Mt. View Quilting Club Holds Meeting

The Mt. View Quilting Club met July 19 to complete four quilts for Mrs. Bert Welch of Amarillo whose home was completely demolished by the recent tornado. Mrs. Welch is the daughter of Mrs. E. V. Herd of the Mt. View community.

Mrs. Frank Totty presided over the business meeting. The next meeting will be August 2 with Mrs. T. M. Hathaway as hostess.

Rathjen's Entertain Sunday School Classes

Mrs. J. F. Rathjen and Mrs. Leonard Rathjen entertained the primary class and the Sunbeam Band of the Kellon Baptist Church with a picnic Wednesday afternoon at the Reed lake. Those present were: Nancy and Evelyn Graham, Bill Stiles, Beth and Marie Rathjen, Curtis and Karen Henderson, Phyllis, Currie Dell, Alene and Vernell Aternathy, Don Hill, Bennie Graham, Jerry Killingsworth, Mrs. Ben Graham and Mrs. Wilson Hill.

Mrs. Shumate Honored With Bridal Shower

The T. M. Bradstreet home was the scene of a lovely bridal shower honoring Mrs. Paul Shumate (nee Cordie Gill), Thursday, July 21 with Mrs. T. M. Bradstreet and Mrs. Lloyd Davidson as co-hostesses. The receiving rooms were attractively decorated with garden flowers. The hostess was recipient of many nice and useful gifts.

Those attending or sending gifts were: Mrs. Grady Harris, Mrs.

Sallie Meadows, Mrs. R. G. Russ, Mrs. Willie Wilson, Mrs. Loyd Childress, Mrs. Myrtle Lane, Mrs. Robert Lane, Mrs. C. N. Wolford, Mrs. Bill Wilson, Mrs. T. M. Bradstreet, Mrs. Lloyd Davidson, Mrs. Weldon, Mrs. Cliff Mason, Mrs. W. Mann, Mrs. Cliff Mason, Mrs. W. H. Noel, Mrs. Cliff Weatherly, Mrs. Harry Wolford, Mrs. Vena Hyatt, Mrs. V. H. Richardson, Mrs. Earl Davis, Mrs. Claud Cox, Mrs. Glenn Lane, Mrs. Alma Revis, Mrs. P. A. Dwyer, Mrs. Earl Tucker, Mrs. A. C. Connell, Mrs. Minnie Farmer, Mrs. M. McIlhany, Mrs. Hub Cole, Mrs. Elsie Hood, Mrs. H. F. Krug, Mrs. Frank Wolford, Mrs. Roy Weatherly, Mrs. A. O. Krug, Mrs. G. W. Mason, Mrs. Lloyd Davidson, Mrs. Jess Moore, Mrs. H. E. Nicholson, Mrs. Everett Cole, Mrs. Floyd Fennington, Mrs. Gracie Mize and Mrs. C. O. Killingsworth.

Miss Jackie Clark, Miss Blanche Granger, Miss Lucille Hutchison and Miss Johnette Hood.

Kavanaugh Honored With Farewell Party

Mr. and Mrs. Allen Kavanaugh were honor guests at a farewell party given in the Shelby Pettit home last Tuesday evening. Mr. and Mrs. Kavanaugh have moved to New London where he has been appointed superintendent of schools. Mrs. Pettit, Mrs. J. J. Dyer, Mrs. J. C. Howell and Mrs. Luther Parks were co-hostesses.

Games of forty-two served as entertainment for the evening. Following entertainment and refreshments, which consisted of cake and ice cream and punch or coffee, the Kavanaughs were declared winners of high score and presented some beautiful gifts.

Those present included: Mr. and Mrs. Harry Wolford, Mr. and Mrs. R. H. Forrester, Mr. and Mrs. G. W. Hefley, Mr. and Mrs. Harold Nash, Mr. and Mrs. Thomas Daugherty, Mr. and Mrs. J. J. Dyer, Mr. and Mrs. Luther Parks, Mr. and Mrs. J. C. Howell and Cheryl Kay, Michael Staples, Mrs. Shelby Pettit and the honorees.

CARD OF THANKS

We wish to take this means to express our appreciation for everything that was done for us during our bereavement. Especially do we wish to thank those who brought food and those who made the beautiful floral offerings.

J. I. Johnson and family

WHAT PRICE FAME?

For years a certain man had been absent from his home town. When he returned for a visit, the first four people he met didn't know him and the next three didn't know he had been away.

Venom of the Black Widow Spider is 15 times as potent as that of the rattlesnake.

TRAVELER, HO!

Reason for this charming smile? The lovely lady is taking off on a summer vacation jaunt in a sleek new convertible! For traveling she wears a smart, tailored cotton cord suit-dress designed by Hal-Mar. Cotton is the favorite fabric for summer travelers because it stays cool and fresh over the miles, the National Cotton Council reports.

Summer Fun

Katherine Bassett, Dallas, plays at White Rock Lake, one of her city's summertime diversions, as she urges her neighbors of the Southwest to come to Dallas for a week-end holiday or vacation. "Dallas Invites You" is the name of a civic hospitality program to help visitors to Dallas obtain hotel rooms, go sight-seeing and have fun. The committee, headed by Mayor Wallace Savage, has its headquarters in the Chamber of Commerce building.

Fall Out of Summer

To paraphrase the poet: When summer comes, can fall be far behind? Designer Toni Owen has fashioned this dress to be equally comfortable under September starlight or July parasol. The patio skirt is of Juillard Featheroy (three ounces lighter than corduroy), with side zipper and buttoned waist band. Shepherd Knitwear makes the matching T shirt. The ensemble, chosen by Cosmopolitan magazine's Male-Tested Fashion Jury (Kirk Douglas, Robert Sterling and Louis Jourdan) comes in red caviar, taupe and gold. Its price—about \$15 for skirt, \$2.25 for shirt—leaves budget room for lemons or autumn apple cider.

material from my pit at Lela. Washed sand and rock \$6.00 per yard, 4 yards to load.

MOWING GRASS SERVES TWO PURPOSES

Texas dairymen should take advantage of the abundance of grass that is now growing in most sections of the state. They can make excellent silage from it and at the same time the mowing will improve the pasture, says R. E. Burleson, associate extension dairy husbandman of Texas A. and M. College.

Almost any grass that is palatable as well as nutritious for cattle can be made into silage, he says and Johnson and sudan grass, if properly handled, will make silage almost equal to sorghum and some of the other row crops commonly used.

Grasses or hay crops should be cut for silage at the stage when they make the best hay. In most cases, this would be the boot stage when the first heads are emerging. When grass is cut at this stage it is generally desirable to reduce the moisture content by wilting it a few hours in the field. Harvesting at a later date, warns Burleson, is likely to result in a palatable silage.

With immature grasses only slightly after cutting, advises Burleson. One or two hours on good drying days is usually sufficient unless the crop is very heavy or immature. Grasses approaching maturity need very little or no wilting. During periods of wet weather, two to three hundred

SCOTT'S SCRAP BOOK

By R. J. SCOTT

THE POLAR BEAR IS ONE OF THE FEW WILD ANIMALS THAT REMAINS WHITE ALL YEAR ROUND.

OF WHAT NEW CRIME HAVE COCKROACHES NOW BEEN FOUND GUILTY? THEY HARBOR FOOD POISONING GERMS.

TREES MORE THAN A CENTURY OLD ARE GROWING FROM THE PORCHES AND ROOF OF A NINE-STORY PAGODA AT LINGNAN UNIVERSITY, CANTON, CHINA.

pounds of high quality cured hay should be mixed with each ton of green material to absorb the excess moisture. Run the two through the cutter together.

Grass is wilted to a safe moisture content when you can twist a small bunch and bring moisture to the stems but no free moisture will drip off. A moisture content of 60 to 65 percent is desirable. Burleson adds that no more of the crop should be cut at one time than can be stored in about half a day.

Fine chopping is important in making good wilted grass silage. He advises the cutter so it will make 1/4 inch cuts. Be sure the silo is tight and the walls smooth because mold will develop if air is present. Distribute the silage evenly and pack thoroughly. Two feet of unwilted silage placed on top of the wilted silage will add additional weight and cause the silage to pack more tightly. Extra packing and tramping will keep down spoilage.

Burleson says cattle may not relish grass silage at first, but they will soon become accustomed to it. Make the shift from the old feed to the new gradually and you'll need to feed about three or three and half pounds of silage to replace each pound of hay.

Poultry Raisers Need Market Culls Wisely

Heavy culling of poultry flocks during the summer months calls for extra effort in marketing if farmers are to get the best price for their hens, says C. M. Evans, chief, southwest poultry branch, Production and Marketing Administration, USDA.

To keep their flocks on a profitable basis, most farmers are now selling their broody hens, early molters and marginal layers, Evans said. Altogether these culled birds in any farm flock of average size make up one or more coops to sell.

Here are some hot weather tips that Evans offers to those who may be marketing cull hens soon: Give the hens plenty of clean, fresh water while holding just before marketing. Be sure coops are clean and not over-crowded. Provide plenty of ventilation and shade at all times. Separate hens according to quality and let each lot sell on its own merits, and never use

Penicillin Treatment for Mastitis Now a Matter of Seconds

Easy-to-use tube saves time, is hygienic and painless.

NEW BRUNSWICK, N. J.—Introduction of a new penicillin ointment, which comes in a specially-designed "easy-to-apply" tube, now enables dairymen to treat Mastitis with penicillin easily, effectively, and at relatively low cost.

Mastitis has been one of the dairymen's worst destroyers of profit, for it is an insidious udder infection which makes milk unsalable and progressively reduces milk production, causing losses each year of millions of dollars to the dairy industry.

It was as long as five years ago, in 1944, when it was first discovered that penicillin was effective against *Streptococcus agalactiae*, an organism which was responsible for 80 to 90 per cent of all cases of bovine Mastitis.

In the early days, however, the use of penicillin was restricted by the high cost of the drug and by the complicated procedure of application then obtaining. With the increase in production of penicillin, the price was reduced, but it remained for the veterinary profession and the pharmaceutical industry to perfect a penicillin treatment which would be easy to apply, as well as stable, non-toxic, non-irritating and long-lasting in its curative action.

Working with members of the veterinary profession, scientists at E. R. Squibb Laboratories here were successful in perfecting a penicillin ointment meeting these rigid requirements. It remained, however, to provide a proper dispensing agent, so that the penicillin would get into the infected

quarter of the cow easily, quickly and without pain.

Clinical tests of the ointment in tubes showed that no tube then on the market was of the proper dimensions. Veterinarians envisioned a tube with a long, tapered, smooth nozzle which would be snug-fitting when inserted in the teat opening. Moreover, it must be small enough in diameter to go into the teat opening easily and without injury to the quarter.

Such a tube was finally designed by the Veterinary Division of E. R. Squibb and Sons. Tube manufacturers first thought it impossible to make, but this specially-designed tube is now in mass production and is being used by several manufacturers of penicillin.

The thoroughness with which penicillin ointment acts is largely due to the dispersing agent—petrolatum. After injection into an infected quarter, the ointment floats on the milk and is dispersed throughout the udder. The penicillin is released slowly from the ointment, prolonging effective action for as long as 72 hours after treatment.

"Instant-use" tubes of penicillin are available in most stores where drugs are sold. Injection is simple; the dairyman has only to insert the nozzle in the cow's teat opening and squeeze the tube. Treatment is only a matter of seconds. This revolutionary method of treating Mastitis is saving millions of gallons of milk otherwise lost, and saving thousands of valuable cows from slaughter.

sacks or bags or tie chickens together for the trip to market.

If these precautions are followed concludes Evans, the marketing of the culls will be easier and

shrinkage and other losses will be less.

Don't walk in a daze—Look both ways.

GUAR IS NEW TEXAS LEGUME

Guar, a tall-growing summer legume, isn't exactly a new crop in Texas. Records show that it is only now coming to its own. It is becoming more popular each year and especially in the southern part of the state.

E. B. Reynolds, who has charge of soil and crop management investigations for the Texas Agricultural Experiment Station, says the two strongest points about guar are that it is a good soil builder and that it grows under dry conditions. He says the Station during the past 20 years has tried growing guar in several different sections of the state and it seems to be a valuable soil building crop for certain areas of the state.

Farmers in the Karnes County Soil Conservation District were the first to plant it on a large

scale and they found that just what they needed to their winter flax crop. It grew up well under drought conditions and makes a good growth several different types found in that county.

Reynolds reports that guar has been grown as far south as Brazoria and Galveston counties and as far north as Knox county.

Those familiar with guar know that it is not a miracle plant that it is doing a good job of protecting the soil during the months and that it is a building legume. It is a forage or grazing crop. Livestock do not like it. Experimental results show that seed from guar may prove valuable in the manufacture of certain plastics and adhesives. Reynolds says he will watch this legume crop more closely. He says it may be just what is needed in sections of the state where the first to plant it on a large

ARGUMENT REBUTED

Parents: "How do I know that you aren't marrying my daughter for my money?"

Suitor: "We're both taking a risk; how do I know you won't fail in a year or so?"

Almost any grass that is palatable and nutritious to cattle will make good silage if it is properly handled. In most sections of the state at the present time, there is an abundance of good grass. It should be saved and a silo filled with good silage is mighty good insurance for next winter's feeding operations.

Iced Drinks Help To Beat Summer Heat

You can't do much about the hot summer weather, but you can do many things that might make the heat a little less annoying, says Lucille Shultz, associate extension foods and nutrition specialist of Texas A. and M. College.

One way to beat the heat is to serve the right kind of summer drinks and of course this calls for iced drinks. Fruit and vegetable juices of all kinds are good, but the acid ones are especially good when used alone or in combination with the sweeter juices, adds Miss Shultz. Sweeter foods give more heat so don't use too much sweetening. Tart juices give more flavor to the drink.

Miss Shultz says the bestest who can serve something a little different is almost sure to enjoy a rise in popularity, and here's a tip that may help you. Keep some sugar syrup in the refrigerator at all times for sweetening drinks. It is easy to make. Mix 2 cups of water and 3 three cups of sugar and boil for three minutes then you can add 1-3/8 teaspoons of cream tartar to prevent crystallization.

Don't forget the refreshing drinks that can be made from good cold milk. They are not only nutritious but are also just plain good for you. Chocolate milk is a favorite, others may prefer a milk shake or a good thick malt. Cold milk alone is hard to beat.

Your local county home demonstration agent will be glad to supply you with recipes for making summer drinks that will be enjoyed by the entire family. When you go on that next picnic, fill the thermos jug with a new chilled drink and see just how welcome it will be, concludes Miss Shultz.

Good "Coolers" for Summer

By ALICE DENHOFF

HEALTHFUL drinks start to come into their own as Summer beckons. As the weather warms up, youngsters, old folks and invalids become increasingly difficult to feed, and where a certain nutritional intake must be observed, it becomes a problem difficult to solve. One way is through the medium of good, healthful, refreshing and tasty drinks made with eggs, milk or fruit juices.

Florida Froth, for instance, is delightful for youngsters, good to drink and good for them. To prepare 4 servings combine 3 c. strained orange juice, 2 tsp. sugar, one c. evaporated milk, and 1/2 c. water; chill. Beat well 4 egg yolks; and add to first mixture. Beat 4 egg whites; well; fold in. Serve in tall glasses, and dust with nutmeg.

Grapefruit Foam will add a nice note to a difficult breakfast table, and it is a good way of seeing that folks that refuse to tackle an egg, however nicely served, take their quota. For 2 servings (8-oz. glasses) beat 2 egg yolks until light and lemon colored. Add 2 c. grapefruit juice, and beat well. Beat 2 egg whites until stiff, then beat in 3 tsp. light corn syrup. Mix with grapefruit juice mixture. Pour into tall glasses.

Delightful Egg Nog
Banana and pineapple get together for a delightful and different

egg-nog that youngsters, and adults too, will adore. To prepare one large or 2 medium-sized drinks, slice a ripe banana into a bowl; beat with rotary egg beater or electric mixer until creamy. Or, if desired, press banana through a medium mesh wire strainer with a spoon. Add one c. cold milk, one egg and 2 tsp. unsweetened pineapple juice. Mix thoroughly; serve cold.

A rich coffee-flavored egg flip will be appreciated by the convalescent who has to take plenty of nourishing food, but who doesn't care to stuff. To prepare 4 portions (since we've discovered that one doesn't have to be an invalid to enjoy this concoction) chill 2 c. double-strength, freshly-made coffee. Combine chilled coffee, 2 beaten eggs, few grains salt, sugar to taste, 2 c. milk, 2 tsp. heavy cream. Shake well or beat with rotary beater until thoroughly blended.

And for a wind-up here is a good recipe for those summer gatherings that will be along quite soon now. For 1 1/2 qt. beverage place an un-beaten egg white, 1/2 c. strawberry preserves or jam and dash of salt in bowl; beat with rotary beater 3 to 4 min. or until mixture is thick and creamy. Combine juice of 2 lemons, 4 tsp. sugar and 2 c. ice water. Just before serving, place egg mixture, lemon mixture and 2 c. crushed ice in shaker or tightly-sealed 2-qt. jar; shake thoroughly.

sales during the drive were \$3,293,930.50 more than Series E sales during the similar period of 1948.

Mr. Adams described the Opportunity Drive as "the most successful Savings Bonds campaign since the war" and praised the county chairman, his committee and other local volunteers "for the fine success you have achieved in your county".

He said that results of the drive indicated a sharp increase in the number of employees buying bonds through the Payroll Savings Plan where they work and in the number of persons participating in the automatic Bond-A-Month Plan at their banks.

"This drive has been proof that increasing thousands of our citizens are recognizing thrift as the surest means to economic security," he said. "At the same time, our business and civic leaders are daily becoming more aware that the Savings Bonds program, instead of being merely a wartime expedient, is a powerful and continuing force for stabilizing the business and economic structures of the state and nation.

"Consequently, throughout the state the finest kind of cooperation for the drive came from county Savings Bonds committees, business management, banks and other financial institutions, newspapers, radio stations, organiza-

tions and clubs, and just plain, every-day citizens.

"I think the people of Texas can be proud of their accomplishment in this drive, not only in the large sales total but especially in the increased financial security that their investments in Savings Bonds give to them."

IDENTIFIED

A kindly old soul asked the seven children of an acquaintance to luncheon. The youngsters ranged from three years to fourteen. As they streamed in the old lady's brain reeled and their Christian names failed her.

"And which one are you, dear?" she asked a solemn boy of seven.

"Me?" he said, importantly. "I'm the one with the spectacles."

SLIGHTLY EMBARRASSED

Young Doctor—"I'm afraid I made a mistake in filling in a death certificate today."

Old Doctor—"How was that?"

Young Doctor—"I absent-mindedly signed my name in the space left for 'cause of death.'"

DRIVERS MAY RENEW LICENSE WITHOUT EXAM

Colonel Homer Garrison, Jr., Director of the Texas Department of Public Safety, announced today a temporary relaxation in the policy of renewing expired drivers licenses. Pointing out that the action is being taken because of inadequate field and office personnel to handle the procedure in the normal manner, Colonel Garrison stated that the temporary measure, which becomes effective immediately, will preclude excuses on the part of motorists for not having obtained a renewal of their licenses.

This should come as good news to a half million Texas motorists since the records indicate that there are 3 1/2 million drivers in the State and only 2 1/2 million current licenses are on file. Estimates show that of the one million drivers who do not hold presently valid drivers licenses about half had one at some time but have failed to renew them. The other half million have either moved from the State, ceased driving or died since the records were compiled or have never possessed a license to drive.

Under the new program, Colonel Garrison outlines the following steps for obtaining a renewal of expired Texas drivers licenses. First: if you have a license that was issued since January 1, 1944, you may secure a renewal of same by mail from the Department of Public Safety, without examination. Second: if you have a license that was issued prior to January 1, 1944, you may renew same by presenting the old license to a Drivers License Examiner in your locality and executing an original application. License in the latter case will also be issued without examination.

Formerly, those applicants for renewal who had allowed their licenses to expire were required to stand a re-examination. Now, under the temporary set-up, you may reinstate your permit to drive without taking the test, regardless of how long it has expired, provided it is not now suspended or revoked.

CO. EXCEEDS QUOTA IN DRIVE

Wheeler County exceeded its quota by 49 percent in the Opportunity Drive for the sale of Series E Savings Bonds.

Total sales were \$97,042.50, as compared to the county quota of \$65,000, according to R. J. Holt, county Savings Bond chairman. He received the final report of the drive today in a letter from Nathan Adams of Dallas, chairman of the Treasury Department's advisory committee for Texas.

Harry Owens of Dallas, state director of the Savings Bonds Division of the Treasury Department, said that the Opportunity Drive was an outstanding success throughout the state also. Sales for Texas were \$46,835,896.75, or 126 percent of the state quota of \$36,950,000. The drive was held throughout the nation from May 16 through June 30, with bond purchases through July 18 being counted in the final totals.

Mr. Owens said that Texas

ALLISON NEWS

Mrs. Lester Levitt

A group of young people from the local Baptist and Methodist churches went to Pampa Sunday night and were in charge of the services at the McClennan Methodist Church. David Waldrip delivered the sermon and there was special music. Those making the trip to Pampa were: J. Dean Bassine, David and Kenneth Waldrip, Laura Mae Walls, Jan Pugh, Dorcas Jo and Katie Brown, Bobbie Curlee, Jacki Taylor, Sammy Gene Moore, Johnnie Donaldson, Shirley Jo Levitt and Mrs. Doc Willett.

Claude Dukes and family attended the funeral services for his grandmother, Mrs. Hughes, in Ft. Worth this week.

Grady Lovell and family and Mrs. Rachel Lovell of Phoenix, Ariz., Mrs. Claud McMillan and Mrs. Sandy Parsons and daughter of Wellington and Mrs. Rex Miller visited the A. E. Dillons last week.

Otis Hamilton and family visited relatives in Dumas over the weekend.

Mrs. Lew Ramsey and Lynn Ann of Canadian spent a few days this week with Lois Curlee.

Mr. Holbrook of Darnison, Texas visited in the Walter Holbrook home this weekend.

Rena Brown and family of Dumas visited relatives here over the weekend.

Frank Candler and family were dinner guests in the Dave Candler home Sunday.

Mr. Fish and family spent Sunday with Willie Boydston and family.

Mrs. James Hall underwent minor surgery Thursday in the Wheeler Hospital. She is recovering nicely.

Mrs. Billy Ray Jones spent several days last week in the Pampa Hospital while receiving treatment. Those visiting her while she was there were: Mr. and Mrs. L. L. Jones, Mrs. L. S. Adenhold, Billy Ray Jones and Mrs. Allene Jones.

Mrs. David Kiker and son, Leonard spent several days in Canyon last week with her mother and sister.

Pat Huff and family left Sunday for a two week's trip through Wyoming, Colorado and New Mexico. They will attend the big Cheyenne, Wyo. rodeo while they are gone.

J. L. Warren and family of Kansas City, Mo. and Mrs. Chic Cox and children from Amarillo visited in the H. R. Warren home the first of the week.

F. L. Langford and Mr. and Mrs. Dave Crenshaw of Hollis, Okla. visited relatives here last week.

COLD SHOULDER

When the chill is in the air, when I feel the lures of the crisp outdoors...

I stay in my rocking chair.

Yellow fever, elephantiasis, malaria and dengue are the four maladies earned by the mosquito.

Home Sweet Home

By Mary House

Jim and I are firm believers in a safe and sound July 4th. Maybe it betokens the advancing years, but we stay at home to declare our independence from holiday crowds, jammed highways, and sheer nervous exhaustion.

It's not that we don't realize what happened in 1776 and give thanks. We do, and I'm sure our little celebration has real patriotic significance for the youngsters, Peter and Prudence.

Secretly, Jim mourns the lack of firecrackers, but settles on another method of ushering in the holiday. It's a record of "Yankee Doodle," loud and brassy, and put on right at breakfast time.

There's a lot organized for the day, but I suspect that the most fun is decorating for the buffet supper. The trimmings cost little, most are homemade or out of the dime store.

Our party is centered around the window because the big Venetian blind plays a starring role. We get a gala effect by winding its tapes with red-white-and-blue ribbon or pinning on lots of tiny flags. (I use this ribbon idea for other occasions that need that "extra touch.")

Then Peter, the family artist, pins his big cardboard cut-out of the Liberty Bell to the center tape. Jim has even rigged a spotlight to illuminate our Venetian blind backdrop.

Next, we swing the lowboy server into place under the window. It's long surface is ideal for a buffet supper. (No one would guess that underneath is a cedar chest. When Jim gave me this chest for our anniversary, I decided its Queen Anne lines keyed right in with my dining room pieces, that it offered ideal storage for my best linens, and would be handy as a server. That's why we have a cedar chest in our dining room.)

Bunting, swagged and pinned to the tablecloth, lends a patriotic air to my server. The salt and pepper shakers, wearing red cardboard sleeves, masquerade as firecrackers. And Prudence is right proud of her creation—a red-white-and-blue waving flag dessert.

It consists of strawberries, blueberries, and whipped cream, served on a platter. The blueberries form the field of the flag, the strawberries, wearing wavy lines of whipped cream, make up the stripes. Specks of cream serve as stars on this star-spangled concoction.

SO DON'T LOOK!

Middle age has been defined as that period when looking backward makes one sad and looking forward makes one miserable.

An irresistible force can never meet an immovable object since the terms are mutually exclusive.

"Selling Short" means selling something you don't own, but which you expect to buy.

THE WHEELER TIMES

Society

A. R. Meek Home Is Scene Of Reunion Sun.

The annual reunion of the Meek families, which has been a tradition for the past twenty years met in the home of Mr. and Mrs. A. R. Meek of Mobeetie, Sunday, to celebrate the birthday of A. R. Meek. The families have been meeting in their home of the past twenty years for these reunions on Mr. Meek's birthday, with an average attendance of from fifty-five to seventy-five relatives and friends. Each family brings a basket dinner which is spread under the trees in the yard or on the river bank, and after the dinner, the group enjoys an afternoon of visiting and gospel singing, and since there are many gifted singers in the crowd, this is a very enjoyable occasion.

Mr. Meek has one son and two daughters who were present with their families, and six brothers, four of whom were present with their families, and the oldest of whom is Mr. J. P. Meek, of Childress, 82-years-old.

From Mobeetie, those present were: Mr. and Mrs. C. C. Dyson and sons, Billie Joe and Dale, Mr. and Mrs. Richard Dyson, and daughter, Janice, Mr. and Mrs. R. H. Dyson, and daughter, Jane Lee; Mr. and Mrs. Perry Martin, and Bob Martin.

From Gagby, those present were: Mr. and Mrs. E. E. Meek, Mr. and Mrs. Jack Meek, and children, Sandra and Michael, Mr. and Mrs. Clyde Meek and son, Grant, Mr. Carnes Meek, and son, Kenneth, Mr. and Mrs. Bill Helton, Mr. and Mrs. Roy Meadows, and son, Larry.

Present from Wheeler were: Mrs. Wendell Meek and daughters, Phyllis and Melinda Kay, Mrs. G. L. Wren, Mr. and Mrs. Roy Bailey, Mrs. Fred Farmer and daughter, Marcellie of Amarillo, Mr. and Mrs. P. L. Farmer, Mr. and Mrs. Winona Adams Kong and son, Erick, from San Pedro, Calif. are visiting Mrs. Kong's parents, Mr. and Mrs. W. W. Adams.

Charles Clark, an employee of the Lawrence Hatensry, left this week to attend a month's poultry and dairy school at St. Louis.

Miss Nancy Baker of Amarillo is visiting in the home of her sister, Mrs. Don Curl and family.

Mr. and Mrs. R. G. Russ and son, Phil, were in St. Louis on business last week.

Mrs. M. McIlhany and son, Rep. Grainger McIlhany, were in Amarillo on business Monday.

Mr. and Mrs. Clyde Adams and daughters, Patricia Ann and Eva, of Tulsa and Mr. and Mrs. Carroll Adams and family are visiting in the W. W. Adams home this week.

Mrs. E. E. Farmer, Mr. and Mrs. Don Farmer, and daughter, Marguerite; Mr. and Mrs. C. J. Meek.

Others present were: Mr. and Mrs. J. A. Meek, and son, John David and Mr. and Mrs. Foy Farmer, of Pampa; Dr. and Mrs. L. E. Petty of Borger, Mr. A. G. Box of Shamrock; Mr. Ray Box and son, Ray Lee of Amarillo, Mr. and Mrs. George Trimble ofovina; Miss Eulalia Jones of Amarillo; Miss Jo Ann Childress of Briscoe; Mrs. A. R. Teague of Gould, Okla.; Mr. and Mrs. C. R. Teague of Nocona, Texas, and son, J. W. Teague of Ft. Worth. Those who travelled farthest for the reunion were Mr. and Mrs. B. W. Anders of Costa Mesa, California. Mrs. Anders is a sister of Mrs. A. R. Meek, whom she had not seen for several years.

Seven presidents of the United States reached the high office through the death of their predecessors—Tyler, Fillmore, Johnson, Arthur, Theodore Roosevelt, Coolidge, and Truman.
