### FHA Loans Benefit **Rural Families**

About 56,000 rural families in the United States were benefited during 1968 by the Rural Housingprogram administered by the Farmers Home Administration according to John L. Manning, County Supervisor. Funds may be advanced to build, improve or repair existing dwellings and related facilities, or to buy an existing house and lot. Farmers may borrow to build a house for their own use or for farm laborers or tenants. - Formers Home Administration loans are made to families who for various reasons are unable to obtain credit from private sources.

Boy Scout Camp **Open House** 

The Adobe Walls Council

Boy Scouts of America, will hold Open House for the general public at its new Boy Scout Camp Saturday, May 3. Boy Scout Troops from the Comanche District of the Council will provide displays of Scoutcraft and camping skills, for those who visit the Open House. The camp will also be open on Sunday afternoon, May 4. but there will be no displays on Sunday.

In its second year of operation, the 480 acre camp has undergone an intensive buildingprogram since the beginning of development in January, 1968, with many individuals, firms and service clubs from the Texas and Oklahoma Panhandles contributing material, labor

and money to build what has been recognized as an outstanding Boy Scout Camp. The Adobe Walls Council includes a 15-county area in the eastern half of the Texas Panhandle and all of the Oklahoma Panhandle, with headquarters at Pampa, Texas.

The camp is located between Mobeetie and Wheeer, Texas three and onehalf miles north of State 152. A state highway sign indicates the turn off from highway 152.

Waves of green growing wheat can be seen now in Wheeler County. Crop prospects look good if we can get moisture at the critical stage. Farmers in many are-Most research data in our area shows this practice to be more profitable than selling wheat at bargain basement prices.

Preplant cotton herbicides are really hitting the ground now. Our observations have been that Treflan Carter Hostess To put down with a disk harrow is making up the bulk of the applications.

We'll see more herbicides in milo fields this year. Propazine or Milogard gave us good results last year preplant. After the weeds are up, we find that Aatrex, the new tradename for atrazine, will do us a good job on pigweeds if it's mixed with some agricultural oil to increase the intake atrazine. Aatrex doesn't seem to hurt harrah grass. 2-4-D is the cheapest for broadleaved weeds but yields are hurt if milo is in a critical stage. In recognition of the im-

portance of our natural resources of soil and water, Governor Preston Smith has designated the week of May 11-19 as Soil Stewardship Week in Texas.

'Soil and Water Conservation Districts are committed to improving our State through the wise use and development of our soil and water resources and are sponsering Soil Stewardship

Week." SCREWWORM CASES INCREASE - Officials of the Screwworm Fradication Program advise livestock producers to "spray herds. doctor all wounds, and collect larvae samples of all worms found within wounds and send sam des to the Mission Laboratory for posi-tive identification". Twelve cases were confirmed in Texas during the first 12 days in April and conditions continue favorable for further trouble.
