STORM REPORT

As Reported by...
Stormie Meriwether,
Second Grade Student

Dear Friends, "The Nutcracker" was wonderful! My big family came to see me. First we went to dinner at Soto's in Weatherford.

Then it was time for my program. I am so happy Miss Penny let me do "Nutcracker" this year. I was almost too late, because I was in Maryland for a long time. We had to do all the rehearsals.

The dress rehearsal was fun. I loved to watch Clara and the party girls! My very favorite is Mother Ginger. That is Miss Dawn. She is so beautiful! She is very say, very tall! I remember when I was just a little gingerbread, then I was a clown. Now I'm a Pastry Chef. We all come out from under Mother Ginger's big skirt. That is so fun!

We did the show Saturday and Sunday and Monday. Monday was for all the school kids. That was great!

Now I don't know what I will be next year. I think I would like to be Clara or a party girl, but I very want to be a mouse and a Chinese and maybe a Pastry Chef again. Oh, well, Miss Penny will decide and I will be happy to do my part!

I have to tell you something. (Continued Page 8)

ALLISON NEWS

By Juanita Boydston

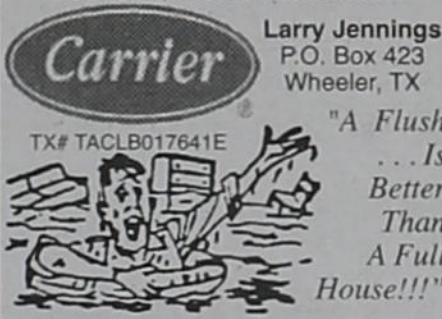

(Editor's Note: Last weeks news was not received in time for publication.)

Beloved, let us love one another: for love is of God; and every one that loveth is born of God, and knoweth God. He that loveth not knoweth not God: for God is love, not that we loved God, but that he loved us, and sent his Son to be the propitiation for our sins. Beloved, if God so loved us, we ought also to love one another. No man hath seen God at any time. If we love one another God dwelleth in us, and his love is perfected in us. Hereby know we that we dwell in him, and he in us, because he hath given us of his Spirit. And we have seen and do testify that the Father sent the Son to be the Saviour of the world. Whosoever shall confess that Jesus is the Son of God, God dwelleth in him and he is God. And we have known and believed the love that God hath to us. God

is love; and he that dwelleth in love dwelleth in God, and God in him. Herein is our love made perfect, that we may have boldness in the day of judgment: because as he is, so are we in this world. There is no fear in love; but perfect love casteth out fear: because fear hath torment. He that feareth is not made perfect in love. We love him, because he first loved us. I John 4:7-19

PRAISE ye the Lord. Praise God in his sanctuary: praise him in the firmament of his power. Praise him for his mighty acts:

praise him according to his excellent greatness. Praise him with the sound of the trumpet: praise him with the psaltery and harp. Praise him with the timbrel and dance: praise him with stringed instruments and organs. Praise him upon the loud sounding cymbals: praise him upon the high sounding cymbals. Let every thing that hath breath praise the Lord. Praise ye the Lord. Psalm 150

THE Lord is my shepherd; I shall not want. He maketh me to lie down in green pastures: he leadeth me beside the still waters. He restoreth my soul: he leadeth me in the paths of righteousness for his name's sake. Yea, though I walk through the valley of death, I will fear no evil: for thou art with me; thy rod and thy staff they comfort me. Thou preparest a table before me in the presence of mine enemies: thou anointest my head with oil: my cup runneth over. Surely goodness and mercy shall follow me all the days of my life: and I will dwell in the house of the Lord for ever. Psalm 23

The weather in Allison, Texas this Tuesday morning is very COLD and snow on the ground, but the sun is shining altho its not to get above twenties or not much above if it does. But thank the Lord for his blessings. We have a roof up above us and we have food to eat and a warm place to sleep and live. I could go on and on, but am thankful for his blessings and goodness to us. Praise the Lord!! Praise be to Jesus for keeping us thru the good days and bad days. I praise the Lord that we didn't get any ice or sleet this time, just blowing snow. But not really that much. The Lord is good to us and we should be thankful.

This reporter doesn't have much to write about, but wanted to let people know that she is thankful for being alive and healthy. With all the sickness and illness in our land and our community, that is truly something to be thankful for. Praise God!!

Opal and Juanita Boydston accompanied Louise Boydston and Debra Boydston to Reydon, Oklahoma on Friday to enjoy a delicious meal of Mexican Pile On and Crispy Cream donut for dessert. Eddy and Shiela Walker was there and sat with Louise, Opal and Debra and Juanita. Reta Grayson and Virginia Puryear were also there enjoying the meal. It was a very cold and windy evening and was threatening to rain but altho it sprinkled on us all the way, we are very thankful that it didn't get slick or freeze while we were out.

Louise Boydston visited her mother, Pearl Harrison in Elk City Nursing Home Sunday after Sunday School. Received a call from Opal's grandson Tony Boydston who works at Alpine, Texas and he said it was snowing and very cold there as well. Good to hear from him. Still need to pray for my Aunt Billy June Brown who is still in hospital in Clinton, Oklahoma with chest pains. Also Vance still needs our prayers, the doctor found the cancer they thought was in his kidney isn't its on the outside of his kidney and Vance said the doctor plans on taking care of it first of next year. He is still receiving treatments on the masses on his back. So please keep him in your prayers!! We serve a God that is able to heal him completely. For there is nothing that my God can't do. Praise God!! AND seeing the multitudes, he (Continued Page 6)

OLD TIMES NOT FORGOTTEN

By Roland Miles

WASTE YOUR TIME WISELY

If you ever find yourself with a lot of time on your hands, here's several good ways to waste it. This thought occurred to me as I was drinking coffee the other morning, right after a hard freeze. It was starting to warm up, and the tree leaves began to fall. Looked

kind of like they were jumping off the tree. I decided to pick out a particular leaf and stare at it, to see if I could be looking right at it when it turned loose. Good idea, but no luck. I've tried the same thing, starting at icicles, with pretty much the same results.

Did you ever pick an area in the sky and keep looking there, hoping to see a meteorite go streaking across? I have and it's a long wait, usually for nothing. As you can figure out...I'm pretty easily entertained. Maybe, you are too. Anyway, these were some of my "time killers."

Watching...
A gopher pushing dirt up into a mound.

A hailstone on the ground, getting hit by a falling hailstone.
Baby chicken pecking it's way out of the egg.

Hen laying an egg.
Snake shedding it's skin.
Momma rabbit fighting a bull snake that had caught one of her babies and making it turn the baby loose.

A ball of snakes.
Catching a mole, as it was digging along just under the ground.
Turtle sticking it's nose up for a breath of air.

Fish catching a bug in the water.
Doodle bug flipping sand.
Baby lizard hatching out of the egg.

Honey bees swarming.
A horse scratching an ear with a hind foot.
Horned toad eating red ants.
Coyote catching a chicken.
A turtle swallowing a cigarette butt.

Did you ever see a baby buzzard up close, or a coyote catching a chicken?
Last, but not least, did you ever find an arrowhead, and if you did, how long did it take before you gave up on finding a second one? I wouldn't consider any of these to be world-shattering events, but at least worth mentioning.

Small Heater Safety

Often, small heaters are just the right appliance to take the chill out of a room without turning on the central heat. Of course, many people don't have central heat and have no choice but to use these heaters for whatever warmth they can get. Small space heaters are convenient and do the job well in most instances, but they can also pose a dangerous threat to your home and family. Following some basic safety advice can help keep you safe through the cold months.

Statistics
Using a small heater may be convenient, but safety must always be a top priority. Statistics show that these heaters can be very dangerous when used without caution. According to the U.S. Consumer Product Safety Commission, there were nearly 10,000 residential fires each year between 2008 and 2010 due to electric space heaters in the home. This correlated with approximately 190 deaths per year. In addition to these figures, an estimated 6,000 people have to go to the emergency room each year to take care of burns suffered when accidentally coming in contact with hot surfaces on these small heaters.

Types
Not all small heaters are created equally. Some of the most dangerous include gas heaters, portable kerosene heaters and portable electric heaters. Many states have outlawed the use of portable kerosene heaters for use in the home. Small heaters not only carry the risk of fire but are also responsible for a number of carbon monoxide deaths each year.

Purchase
Safety begins with the purchase of a small heater. Shoppers should look for the (UL) symbol on their small heater, meaning it has been inspected by the Underwriter's Laboratory for electric specifications and safety. When this symbol is not present, consumers are unable to determine with any degree of certainty whether the heater in question has been through rigorous safety testing.

Heating Guard
Don't purchase a heater that has an open heating element. As mentioned earlier, many of the injuries concerning small heaters occur from accidental contact with hot elements. Look for small heaters with a guard around the heating element such as a wire grill. Not only will this prevent accidental touching, it may help in preventing fabrics and other firestarters from touching the element.

Sleeping
It can be tempting to use a small space heater as a source of warmth while you drift off to sleep, but this is a bad idea. No small heater should be left unattended and this includes sleeping while it's on. Even with this said, try purchasing a heater that has a tip-over switch, meaning it will shut down automatically if the unit falls over.

Medcat
Don't let your dreams go up in smoke - practice fire safety.

There was a good crowd out to Wheeler Care Center Tuesday night, December 6, to enjoy the good music and singing. Playing guitars were Jim Jackson Joel Brownlee, Gene Keelin and Robert Jones. Sounded great! Also singing were Winnie Gilmer, Joel Brownlee and Jim Jackson and this sounded great, too!
 The Country Band plans to be back to Wheeler Care Center Tuesday night, December 20, at 6:30. See you there!
 We welcome Betty Turnbow back to Wheeler Care Center after some time at Amarillo. God bless you, Betty. Glad you are better and nice to see some of your family.
 In spite of the cold weather, there was a big crowd out to Wheeler Baptist Church Sunday after morning worship. Mr. Bar-B-Que (Steve Walker) and wife, Joyce, prepared the good meat dishes with others bringing goodies and desserts.
 Lindsey Criswell and Amanda Mayfield surprised their sons, Blain & Dagen Criswell and Hayden Mayfield with a Thanksgiving vacation they'd never forget!! The night before they were all set to fly out, Lindsey and Amanda put the boys thru a scavenger hunt with hints of their destinations. They spent two days at the Disney's All Sport Resort in Orlando, FL then boarded the Disney Cruise Line Magic ship for their week long cruise. They visited St. Maarten, St. Thomas, St. John and Castaway Cay, Bahamas. All boys had never seen the ocean much less a ship of that enormity! Two amazing excursions they did were, swimming with the dolphins and snorkeling with the stingrays. The boys loved playing in the beach sand, ocean, searching for sea shells, the Mickey pool, basketball courts, Oceaneer Club and Oceaneer Lab activities for kids. They also enjoyed all the shows on the ship. The activities were endless! They came home feeling they needed a vacation from their vacation!

"Thanks to Accolade, everything in Dad's life is better."
Speaking from the heart

Dad was diagnosed with Parkinson's disease 10 years ago. Recently, he started suffering from arthritis in his knees, extreme shaking and stiffness. The problem wasn't that he couldn't move, it was that his movement was too small to get anything done. That's when I talked to him about getting treatment from Accolade Homecare.

- Accolade Home Health Services**
 Include:

Just a couple of weeks into the program and his muscles feel stronger. He's taking bigger steps, walking up and down the stairs and getting into bed without any problems. He can even bend over to pick up the remote. Thanks to the help from Accolade, everything in his life is much better.

Blessed are they that mourn: for they shall be comforted. Blessed are the meek: for they shall inherit the earth. Blessed are they which do hunger and thirst after righteousness: for they shall be filled. Blessed are the merciful: for they shall obtain mercy. Blessed are the pure in heart: for they shall see God. Blessed are the peacemakers: for they shall be called the

Blessed are ye, when men shall revile you, and persecute you, and shall say all manner of evil against you falsely, for my sake. Rejoice, and be exceeding glad: for great is your reward in heaven: for so persecuted they the prophets which were before you. Matthew 5:1-12

GOD be merciful unto us, and bless us; and cause his face to shine upon us: Selah. That thy way may be known upon earth, thy saving health among all nations. Let the people praise thee, O God: let all the people praise thee. O let the nations be glad and sing for joy: for thou shalt

Santa letters will be published in
the December 22 issue of the
Times. We need them in the of-
fice by December 16.

For many people, decorating the Christmas tree is a favorite part of the holiday. The National Safety Council offers some safety tips to make sure a mishap doesn't spoil your holiday season.

Christmas Trees

Natural and artificial Christmas trees start an average of 250 home structure fires each year, according to the National Fire Protection Association. These fires cause approximately 14 deaths, 26 injuries and \$13.8 million in property damage yearly.

Try to select a fresh tree by looking for one that is green. The needles of pines and spruces should bend and not break and should be hard to pull off the branches. On fir species, a needle pulled from a fresh tree will snap when bent, much like a fresh carrot. Also, look for a trunk sticky with sap.

Cut off about two inches of the trunk and put the tree in a sturdy, water-holding stand. Keep the stand filled with water so the tree does not dry out quickly.

Stand your tree away from fireplaces, radiators and other heat sources. Make sure the tree does not block foot traffic or doorways.

If you use an artificial tree, choose one that is tested and labeled as fire resistant. Artificial trees with built-in electrical systems should have the Underwriters Laboratory (UL) label.

Line-voltage holiday or decorative lights start an average of 170 home structure fires each year, according to the National Fire Protection Association. These fires cause approximately 7 deaths, 17 injuries and \$7.9 million in property damage yearly.

Tree lights

Only use indoor lights indoors (and outdoor lights only outdoors). Look for the UL label. Check lights for broken or cracked sockets, frayed or bare wires, or loose connections. Replace or repair any damaged light sets.

Also, use no more than three light sets on any one extension cord. Extension cords should be placed against the wall to avoid tripping hazards, but do not run cords under rugs. Always use the proper step stool or ladder to reach high places.

Turn off all lights on trees and decorations when you go to bed or leave the house.

Medcat

Never worry about the size of your Christmas tree. In the eyes of children, they are all 30 feet tall.

 Barbara, Jennifer, Seth and Melinda Fisher and I traveled with the rest of the Meriwether clan for dinner and theatre at Weatherford Saturday evening.

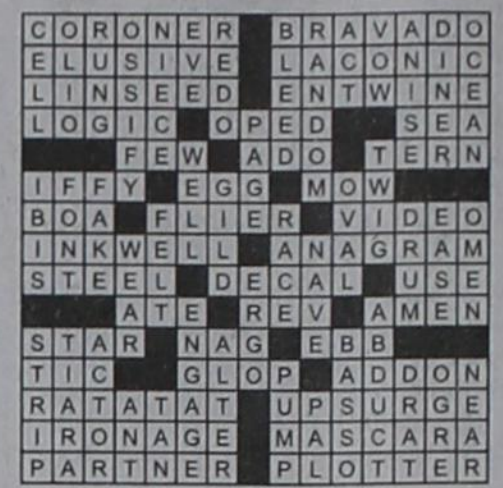

Storm (from Page 1)
 We went to my Hinton house in Oklahoma. It is closer to my ballet. I went to my bathroom and you can't believe it, I saw a snake! I yelled to my mom. "There is a snake in my bathroom!" Mom said, "let me check it". She thought I saw a little worm or something. My mom looked. She said, "You are right! It was a snake, but it crawled out and left the skin." We had to check it to see if it was a nice snake or a

mean snake. It had a pointy tale and a little head. That is a good snake. Now the problem is, where is the snake? She is snuggled down somewhere and I don't know where. I looked in all my covers and I slept in my footy pajamas. I don't want the snake on my leg! Oh, well, I just named the snake Princess and quit looking for it. Someday Princess will come out to see us again, but now she is my pet snake so I won't be afraid, but I really want her outside! That's it.

Bundle up and exercise those vocal cords. The Baptists and Methodists are gathering for a hayrack ride and go Christmas Caroling Wednesday, Dec. 21. Come join in; it will be fun. Additional information is available elsewhere in the paper.
