## DO YOU OWE PARKVIEW?

Would you believe that 310 people in this area are in debt to Parkview Hospital for over \$64,000...? Citizens, you better believe it, the're names are on the books.

If this keeps up, we are going to have to use tax money to pay our own accounts. This hospital is supposed to be able to operate on its own revenue. This month it did not.

We have people in this county who have no way in the world of paying for medical bills when they come up and we understand and can go along with these citizens. Its the guy who CAN pay and DOESN'T that gripes the bookkeepers. Their names are at the TOP OF THE LIST and this Hospital intends to do something about it.

Its a little known fact that Parkview Hospital is represented in Austin by an attorney who serves the Texas Hospital Association exclusively. I have taken the liberty of contacting this man in regards to the problems we have had in collecting our debts.

We have been assured that as A Hospital District, we may take any methods available in our collections. This men is just what we intend to do. Effective July 1st, Any and All accounts here at the Hospital that are 90 days old and older and we are receiving no payments on or have no actual agreements on, are going to be sent to Small Claims Court, Collection Agencies, Credit Bureau, etc., and any other legal path we can take.

Parkview Hospital has the reputation in Texas as one of the lowest daily charge rates in the state. This includes rooms, lab and X-ray and drug prices. If our accounts receivable list continues to grow however, these rates are not going to be low for long.

Whether you are going to have to pay more for your hospital bill in the future, depends on what you decide now about your hospital account.

Signed: Glen Rumley  
Administrator, Parkview  
Hospital

The identity of the second person involved in the robbery is known, but no arrest has been made at this time. The last week's paper it stated that Mr. Swetnam had the pair money. It was learned since that Swetnam did not refuse money. They jumped him and he was taking his change out to get some money. Swetnam has cracked versus as a result of the attack in Parkview Hospital. A check and \$7.00 was taken in the robbery.

## TEXAS POLITICS

**By Rep. Malouf Abraham**

The Regular Session of the 61st Legislature has ended and we are real happy to be back home. We are going to Canada to a convention for a few days, but hope to get a chance to visit with you soon. It takes a while to get readjusted and start finding out something about your business after a five months absence.

We will soon know what Governor Smith's decision will be on the One Year Budget. I still think that we will find ourselves back in Austin before the summer is over. We had over 1,450 bills in the House and about 850 in the Senate to consider. Most of these bills died for various reasons and we passed less than half of the remainder. A few we passed should have been killed.

However, I think we passed a great deal of much needed legislation. The new Medical School at Texas Tech will be a tremendous thing for all of West Texas. We created another Medical School in Houston and have contracted with Baylor Medical School for doubling their enrollment over the next ten years. We created new Dental Schools and additional Nursing facilities. Several new Junior and Senior Colleges were approved to help take care of the big increase expected over the next several years.

The Vocational Training School at Amarillo Air Force Base will be another big thing for our area. This is badly needed to take care of the big demand for trained people in our various industries. Texas has been way behind on Vocational and Technical training in all areas. Bi-lingual instruction the start of a kindergarten program, the teacher pay raise bill and many other improvements in all phases of education should go a long way towards raising our standard of living in Texas. You will recall that we are one of the lowest states in per capita income. All of this takes a lot of money and I hope that we have made a wise investment.

During the summer, I would like to have an opportunity to discuss our overall problems of State Government with you. We are faced with many challenges and most of them are difficult and expensive to solve. There are no easy ways out, and it will get worse before it gets better. In spite of some of the things I don't like, I am convinced that we here in Texas can find the answers better and cheaper than Washington. There are two sides to every

## 4-H Roundup State Winners

Three 4-ers from Wheeler County placed at State 4-H Roundup at Texas A&M University. Miss Janice Parrish, daughter of Mr. and Mrs. Sterling Parrish of Shamrock, placed 3rd and won a blue ribbon in the 4-H Public Speaking Contest. Janice has been a member of the Shamrock 4-H Public Speaking Club for three years. Mrs. Everett Smith is the 4-H leader for the club.

Brenda McCasland, daughter of Mr. and Mrs. Lindsey McCasland of Wheeler placed 4th and won a blue ribbon for her demonstration in the 4-H Clothing Educational Activity. Brenda has been a member of the Wheeler 4-H Cloverleaf Club for seven years. Mrs. Lindsey McCasland is the 4-H leader for the club.

Kevin Hefley, son of Mr. and Mrs. J. R. Hefley, Jr. of Twitty, placed 8th and won a blue ribbon in 4-H Public Speaking contest. He has been a member of the Shamrock 4-H Public Speaking Club for three years. Kevin was coached by Mrs. Everett Smith.

Cindy and Joe Smith, daughter and son of Mr. and Mrs. Verbon Smith of Wheeler presented a singing routine in the Share-the-Fun contest. They received a white ribbon.

We are very proud of these 4-Hers. Much work is put forth in preparation for these contests. Each 4-Her must enter and win at the county contest. The county winners compete against 21 other county winners at district. The winners attend State 4-H Roundup and compete against 25-30 district 4-H winners. It is quite an honor to place at State 4-H Roundup.

## Announce Final Notice

The Texas Water Rights Commission announced today that final notice of the recording deadline under the Water Rights Adjudication Act of 1967 has been given. Everyone who is using water from a public stream who does not claim under a certified filing or a permit from the State must record his claim by September 1, 1969. Users of water for domestic and livestock watering purposes are exempt from this requirement.

Failure to timely record the claim will "extinguish and bar" the claim of water right according to Section 4 of the Adjudication Act. All affected water users who have not already filed their claim are urged by the Commission to do so as soon as possible.

Valid claims will be recognized to the extent of maximum use of water without waste during any year between 1953 and 1967. Where the user was in the process of constructing a system or had facilities to use a larger amount of water on the effective date of the Act than he had actually used, use from 1968 to 1970 may be recognized.

Further information and forms for recording claims under the Water Rights Adjudication Act may be obtained from the Texas Water Rights Commission, P. O. Box 12396 Capitol Station, Austin, Texas 78711.

## ACROSS the FENCE

By Max Hatter, CAA  
 Cotton stands look good. The absence of moisture this past week helped us get a lot of cotton in the ground.

Our 4-H contestants represented Wheeler County well at the State 4-H contests held last week at Texas A&M University. We placed more contestants in the top ten than any county in the Panhandle. Janice Parrish, Shamrock, placed third in the Girls Public Speaking contest and Kevin Hefley, Twitty, placed eighth in Boys Public Speaking. Brenda McCasland, Wheeler, won a blue ribbon in the Clothing Educational Activity and Joe and Cindy Smith received a white ribbon in the Share-the-fun contest.

Mrs. Everett Smith, 4-H adult leader in Public Speaking, accompanied her contestants along with Mrs. J. R. Hefley, Jr.

Noticed where the Gray County Agricultural Agent wrote an excellent article in the McLean News on May 15 which was reprinted in Texas Agriculture. The title of the article was "Cattlemen Sizzle" in response to an article written by the Associated Press entitled "Meat Prices Up - Housewife Sizzles."

With only a handful of farmers on the land at present, it's good to see an article written to defend them. Noted that it took 25% of a man's take home pay to buy food in 1949 but it only takes 17% today. With wheat prices \$1.25 a bushel today compared to over \$2 in 1949, it seems that the farmer is the one who ought to be sizzling, not the housewife. We commend Foster Whaley for his article. Hope that all of us in agriculture can continue to hold agriculture proudly in the light that it should have.

Farmers who plant maize and are concerned about greenbugs might want to vome by and pick up a copy of Greenbugs on sorghum and small grains available at

our office. This is a new illustrated brochure with color plates identifying the English Grain Aphid, the Oat Bird-Cherry Aphid, the true Greenbug and the Corn Leaf Aphid.

## MINIGARDENS ARE IN!

**By Brenda Hofmann, CHDA**  
With all the minis in our world, I bet I have a new one - Minigarden for vegetables! This is excellent for people who live in a room, an apartment, or who live alone and need a small amount of food. Growing vegetables in the minigarden can be fun for youngsters as well as the not-so-young. The basic material needed for the minigarden are containers, synthetic soil and fresh and good quality seed.

The containers can be plastic or clay pots, an old pail, plastic bucket, bushel basket, wire basket or a wooden box. The size of container depends largely on what and how many you plant. Six inch pot works well for chives, radishes and onions; whereas a ten inch pot works better for tomatoes. If a solid container is used, allow for drainage by drilling four or more 1/4 inch holes along the sides near the bottom. Don't drill holes in the bottom. Then place 1/2 inch of coarse gravel in the bottom.

Prepare the synthetic soil from a mixture of horticultural vermiculite, peat moss and fertilizer. To do this add one bushel of horticultural grade vermiculite, one bushel of peat moss, 14 ounces of ground limestone, 4 ounces of 20% superphosphate, and 8 ounces of 5-10-5 fertilizer. This material should be mixed thoroughly. The synthetic soil has several advantages over soil because it is free of plant disease organisms, weed seed, holds moisture, light-weight and portable.

Good quality seed will be needed. Don't use last year's seed. When possible select disease and insect
