**CORRECTION**

In the last issue of the Times we accidentally switched some prices in Melhany's advertisement. The ad should have read, Children's Long Coats and Car Coats, 25% off and All Boys and Mens Jackets 20% off.

We regret the inconvenience this may have caused our readers.

## There Is A Need

A Chamber of Commerce membership drive is underway, and I personally think it is about time we all stepped back a ways and took a good look at the situation

Wheeler has over 50 business firms, and yet only 12 or 13 business men and women are represented in the Chamber of Commerce... We should be ashamed of ourselves... We think nothing of devoting our time and talent to the PTA, Boy Scouts, Lodge, School, Church and other important social functions... and yet we ignore the only organization in Wheeler which is devoted entirely to the advancement of business and betterment of community life.

The Chamber of Commerce meets ever third Tuesday night, the dues are small and the reward can be very large, if we will only participate in the activities of this organization.

The Chamber of Commerce needs you now.

## TWITTY BAPTIST LOCAL CHURCH HAS NEW PASTOR LETS CONTRACT

Rev. Doran Blessingame of Amarillo, assumed duties last Sunday as pastor of the Twitty Baptist Church, and services will be held regularly in the future. The Sunday schedule includes Sunday School at 10 a.m. and preaching services at 11 a.m. and 7 p.m. Rev. Blessingame succeeds Rev. R. K. Whitaker, who resigned a few months ago after serving the church for several years. The new pastor is the son of an old-time preacher in this area, who formerly served as pastor at Lela and has preached at several churches in this vicinity. The elder Blessingame is now retired.

Rev. Blessingame, who is single, will continue to reside in Amarillo and will be at Twitty every Saturday and Sunday. Brother E. M. Borden, Jr., minister of the Church of Christ in Wheeler, has scheduled a special visual aid sermon for Sunday night. The title of the sermon is, "Value of the Soul" and all of the scriptures will be projected on the screen along with numerous diagrams and pictures. The meeting will begin at 7:00 P.M. and everyone is invited to attend.

## February 13 Is Date To Remember

We can't tell you the exact nature of the event to take place February 13, but we can tell you it will in part be an observance of Founders Day. It could change the course of thinking and events in this community.

You will gain information, more than likely you'll be entertained and if you desire you can eat while you're there. Also you can have a save-so in events and projects that affects most of us, sometime.

Watch for the revealing announcement next week.

Are you planning to go Feb. 13? Will you be there Feb. 13? Not long now, Feb. 13

## Coates Is Sentenced To Huntsville Prison

Leroy Coates, 24-year-old, was sentenced this week to serve 5 to 10 years in Huntsville Prison for the part he played in the rape and robbery of two Oklahoma women on highway 66 near Shamrock on September 29 of 1960.

Sheriff Bur Dorman picked Coates up in El Paso Sunday, he is now being held in the Wheeler County jail awaiting his removal to Huntsville.

Coates and two other men, Elton Hale and E. J. Miner were convicted of the same crime. Hale is serving 5 to life in Folsom Prison, California and Miner is serving 5 to life in San Quentin Prison, California. Miner will also be tried in Wheeler County following their release from prison.

**17 YEARS LATE:** Hiram Whitener, co-owner of the Title-Abstract and Insurance Company, and postoffice employee, is shown as he looks over one of the highest awards ever presented during World War II. Hiram recently received the Distinguished Flying Cross for extraordinary achievements in 1944. The award was presented to Hiram by Brig. Gen. Jerry Lee of Amarillo at the Annual Chamber of Commerce banquet held in Wheeler recently.

## Whitener Received DFC After 17 Years

Hiram Whitener is a quiet man, he has very little to say, in fact, I doubt that many of his close friends know anything about his service career... Hiram was in the service for 37 months and during that time he flew 41 missions, baled out over enemy territory twice and received credit for shooting down two FW-190 German fighters. He was a turret gunner on a B-24.

The following article appeared in the August 29, 1944 issue of the Wheeler Times.

## S-Sgt. H. Whitener Missing In Action

Mr. and Mrs. C. A. Whitener were notified Tuesday night that their son, S-Sgt. Hiram Whitener, has been missing in action over Yugoslavia since August 7.

S-Sgt. Whitener, who is a gunner on a B-24, was recently awarded the air medal upon completing his 25th mission over enemy occupied territory. Hiram's crew was based in Italy. He has been in service for two years and left the states for overseas duty last March.

## S-Sgt. H. Whitener Is Well And Safe

Mr. and Mrs. C. A. Whitener received a telegram Wednesday of this week from their son, Staff Sergeant Hiram A. Whitener, stating that he was well and safe. S-Sgt. Whitener was reported missing in action over Yugoslavia since August 7. The telegram received this week by Mr. and Mrs. Whitener was headed "Sansorignine" and sent via RCA. It stated: "All well and safe. Please don't worry. Letters sent."

S-Sgt. Whitener, who is a gunner on a B-24, was recently awarded the air medal upon completing his 25th mission over enemy occupied territory. Hiram's crew was based in Italy. He has been in service for two years and left the states for overseas duty last March.

At that time Hiram never thought about receiving any honor or awards for his accomplishments, and in the 17 years that followed he has all but forgotten about his narrow escape from death. Until recently he received a large kraft envelope from the president of the United States of America. And the citation inside read as follows:

The President of the United States of America, authorized by Act of Congress July 2, 1926, has awarded the Distinguished Flying Cross to STAFF SERGEANT HIRAM A. WHITENER.

For extraordinary achievement as a gunner while participating in aerial flights against the enemy in Germany on 7 August 1944. Throughout many long hazardous combat missions against vital strategic targets deep in enemy territory though confronted by heavy enemy opposition from highly aggressive fighters and intense and accurate anti-aircraft fire, Ser-

## To the people of the 18th District: - The Mail Bag -

The mail in the office of a Member of Congress brings many and varied items. It would be impossible to include in one newsletter a discussion of all of the subjects touched in in one day's mail. Usually, this mail increases tremendously during the first part of a session of Congress. Some letters have to do with the problems of veterans; others have to do with the problems of the farmer, perhaps the general farm problem, or the trials and tribulations encountered under one of many facets of the government farm program. Others have to do with the many segments of commerce, both domestic and international. Passport problems are always plentiful. Matters concerning the many, many problems which beset the Social Security system always make up a large part of the mail. The several military services are always high on the yardstick of problems affecting the people of this country. There are many, many more items which could be mentioned, but I want to discuss one particular item which always holds a high place in the concern of the people of this country. That is the mail concerning Communism and the Communist movement in this nation. We are all deeply disturbed by any activities which might appear Communist-inspired or advocated.

During the last several weeks, I have received much mail concerning a report that a Communist march on Washington was to be held during Inauguration week, to impress the Congress and the Executive Branch of the government that Communism is very strong in this country, and to pressure Congress into abolishing the Committee on Un-American Activities, curtailing the activities of the FBI, and getting rid of Mr. J. Edgar Hoover. I do not know where this report started, but I have made every attempt to run down any information concerning the report or a proposed march. If such a march is to take place, it is one of the best-concealed secrets in the Capital. And, I might add, with all of the columnists, newspaper reporters, television and radio commentators who are continually on the go in the Nation's Capital, the keeping of a secret by anyone or any group is quite an achievement. If such a march develops, it will be a surprise to many Washingtonians if the Washingtonians notice that a march is in progress. The truth of the matter is that there are quite a number of "marches" on Washington each year. Most of these are about as bona fide as a wooden nickel and about as valuable, before or after inflation they are usually made up of a sorry-looking bunch of questionable characters who are more interested in getting their own names in the paper or pictures on the television screen than they are in some cause. In fact, I would dare say that 95 per cent of them would not know what they are supposed to be marching in favor of or against. But they are exercising a right guaranteed them under the Constitution of the United States under Amendment I which I quote as follows:

"Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble and to petition the Government for a redress of grievances."

Of course, there are different views as to what constitutes the right of people peaceably assemble and to petition the government for a redress of grievances. Some believe that this gives them the right to picket the White House. Certain rules and regulations have been adopted which do not violate this right, but do provide certain lines beyond which the pickets cannot go. Many times great publicity has been given these White House pickets. In Washington, very little if any attention is paid to them. I remember one particular instance where pickets were supposed to have been marching in front of the House for a number of days. I had driven by the White House no less than three or four times each of those days, and had never noticed these pickets. The other Members of the Congress are equally impressed, or perhaps I should say unimpressed, with these activities.

As I said before I have tried to run down all of the reports and stories about this alleged march on the Nation's Capital and the White House. I have checked with the FBI, I have checked with other security agencies, I have checked with the newspapers, the radio and television, as well as many Members of Congress, but have failed to find any information from any of these sources indicating that any mass march of any kind was even contemplated by any groups. I have also checked and re-checked the possible jeopardy to the Un-American Activities Committee, the FBI, and Mr. J. Edgar Hoover, although I was satisfied in my own mind that these groups were in no danger of having their powers or authorities curtailed. I can report to you that I have reassured that the Un-American Activities Committee will continue with full authority to investigate and to ferret out Communism or other subversives; that FBI will continue and even step up its relentless pursuit of Communists, subversives, and criminals of all sorts over whom this body has jurisdiction; that Mr. J. Edgar Hoover will continue to head up the FBI at the instance request, and invitation of President Kennedy. He was requested by President Kennedy to continue in his position and he accepted the appointment.

I bring the information to you in this letter so that you may be assured that vigilance is still the watchword and that every effort is being made to meet every challenge by the Communist menace.

Or take the Secretary of Agriculture. He ought to know something about farming, and about the only way I know to learn something about farming is to own some land, yet clearly a land-owner would run head-on into a conflict of interest if he promoted something for the good of the land or the good of the farmer, although there are people who will say there have been Secretaries of Agriculture who could never be accused of promoting anything like that.

This thing requires considerable study. And to top it off, I understand President Kennedy has converted his possible conflict-of-interest holdings into government bonds. And there you are. Every time he promotes something for the good of the government, isn't he promoting the soundness of those government bonds?

Getting qualified men for government service is getting harder and harder all the time, but I doubt if it'll ever get hard enough to where I'll qualify.

## Department of Public Safety Still Needing Men For Vacancies

"The Texas Department of Public Safety still has an ever present need for young men who are interested in the field of Law Enforcement as a career." Major Hutchison said today.

Major Harry Hutchison, Commander of the Department's 60 County Region No. 5, announced the deadline of February 10, 1961 for applicants who desire to take the next entrance examination.

The next examination to select recruit patrolmen to fill the vacancies now existing in the Department's Field Services will be given in different cities of the State on February 14, 15, and 16.

"Young men between the ages of 21 and 35, who have the other basic qualifications have an opportunity to receive the best police training in the nation." Major Hutchison said. "Our training Academy in Austin offers approximately 14 weeks of training in all of the modern, up-to-date methods and procedures of police work. The salary starts when the recruit starts training, and upon graduation from the school all of the proper working tools are furnished each man."

Young men who are interested in becoming a patrolman with the DPS should contact the nearest Field Office of the Department of Public Safety or the Department's State Headquarters at Box 4087, North Austin Station, in Austin.

## SOIL TESTING FOR AVAILABLE NITROGEN

The new Soil Testing Laboratory being operated by the Extension Service in Lubbock is now chemically processing soil samples to determine the plant nutrients that the soil can supply the crops to be grown in 1961 and 1962. Each sample is analyzed for reaction, (PH), organic matter, available phosphate, available potash, available calcium, and soluble salts, according to Bryan Swaim, County Agent.

Swaim said it should be kept in mind that nitrogen as such cannot be practically determined by a soil test. Nitrogen fertilized recommendations are based primarily on the

amount of organic matter the soil contains, the crop to be grown along with anticipated yields, and the amount and kind of nitrogen carrying fertilizers applied.

As stated on the information sheet that must be sent in with soil samples it is extremely important to avoid sampling in the fertilized bands where phosphate and potash were previously applied. However, there is no particular hazard involved in sampling areas where nitrogen fertilizers alone have been applied. The soil test does not determine these nitrogen materials. The nitrogen recommendation given on the Lab. Report is the total amount needed for the particular crop.

This makes it very important for the farmer to show on the information Sheet the amount of nitrogen already applied to the area concerned.

Soil testing affords the quickest and most reliable method available to our farmers for estimating the kind and amount of fertilizer needed for a particular crop. The fee of \$2 per sample could well be one of the most profitable investments in a farm operation, according to Swaim.

For further information on Soil testing contact County Agent Bryan W. Swaim, Court House, Wheeler, Texas or phone 2661.

## Memory Lane

By Lavell Stephens

From THE CORRAL — Dec. 1934

A very interesting and rare collection of old newspapers edited by former high school students was recently given to the journalism class by Mrs. Ha Sue (Merriman) Vansickle.

"The Corral," the oldest paper was published Nov. 2, 1926. Miss Sallie Lee Williams was the editor, Alonzo Wood, assistant and Ralph Randel, instructor. This edition of the paper contained news of the Wheeler-Canadian football game in which the scores were 63 to 0 in favor of the Mustangs.

Another paper was "The Mustang Echo," a mimeographed pa-

per, published Oct. 10, 1928. The editor was Verena Young, Assistant, Curtis Ashley, and T. L. McBride, instructor. This paper was about the organization of the junior and senior classes of '28 of the seniors.

Jerna Young was president, Jennie Bradford, vice president, and Miss Zula Taffierro, sponsor. The seniors elected Olen Johnston president, Doris Wilson, vice president, and T. L. McBride sponsor.

This paper changed its name to "The Touchdown" soon afterwards. It had the same staff as "The Mustang Echo." The edition of Nov. 11, 1928 told of the organization of the Ukelele Club, a football party and English notes.

"The Wheeler News Review" was another of the papers. It was a paper published by J. D. Merriman. On May 24, 1928, it contained pictures of the first, second, third, fifth, seventh, eighth, ninth, tenth and eleventh grade. The faculty, basketball teams and Miss Viola Jones, home demonstration

agent, were also shown. The senior class will, prophecy and history were given.

"The Whirling" was another paper, once published by the high school students. It was not in the collection but it was printed in 1930, the year that journalism became an affiliated subject in the Wheeler schools.

### PTA IS AN OLD IDEA

An Idea, significant in our national growth, was born February 17, 1897.

Two far-sighted women, Alice McLellan Birney and Phoebe Anderson Hearst, dared to insist that the future of our nation must depend upon the health of all people. Their efforts resulted in the organization known as the National Congress of Parents and Teachers, known to most people as the P.T.A.

The objectives of that first meeting in Washington, D.C. were:

1. To promote the welfare of children and youth in home, school, church and community.
2. To raise the standards of home life.
3. To secure adequate laws for the care and protection of children and youth.
4. To bring into close relation the home and the school, that parents and teachers may cooperate intelligently in the training of the child.
5. To develop between educators and the general public such united efforts as will secure for every child the highest advantages in physical, mental, social, and spiritual education. These objectives are still the aim of more than eleven and a half million members today.

On this 64th anniversary of Founders Day, birthday cakes with candles, gifts, pageants, and other special programs will be in evidence as local units pause to pay homage to not only the founders of this great work, but also to pioneer workers in the local Parents and Teachers Associations.

As citizens evaluate the many wonderful achievements of this organization, the P.T.A. members will be planning for future accomplishments.

How far the little candle throws its beams! Founders Day in 1961 will be a celebration of the "birth of an idea" that is vitally important to every child everywhere.

## From the office of the . . . SUPERINTENDENT

**Wheeler Schools**  
Arling Cordell, Supt.

Our school has made a good start toward a successful Second Semester. Enrollment has grown some and so far, our average daily Attendance is good.

This year of 1961 will be very crucial not only to our Country as a whole but especially to our schools. We are facing a complete reorganization of our courses of study which has come about through study groups over the state for the past two years. Our school is now carrying forward on intensive study by its faculty of ways and means to be ready for these changes.

Your Superintendent attended a very important meeting in Lubbock on Tuesday dealing with Guidance and Counseling and testing. The opinion of the men from the State Agency was that this field will be strengthened a great deal by September 1, 1961.

Our own program of testing which was begun last year and is now going on well is a real advantage to us in working toward new goals for the future.

The rare and unusual was the order of the day last week for boys and girls who are enrolled in Agriculture and Homemaking. Classes were interchanged in those departments. Boys learned about the kitchen, cooking, household budgets, etc.; girls learned about the many problems that confront the modern farmer in this area of diminishing farm income, as well as other phases of agriculture. From all reports it seems to have been an interesting and enjoyable experience for all concerned.

The ball game scheduled with Booker for last Friday evening was postponed at Booker's request. It will be played Friday night, February 17, in the Mobeetie gym — the last game of the season.

Attention at the time is directed to the next P.T.A. meeting, Feb. 20. The occasion is the Annual Chili Supper sponsored by the P.T.A.

### NEWSPAPERS TRY TO AVOID TYPO

Newspapers try constantly to avoid typographical errors, known in the trade as "typos." In order to explain to readers what is meant by a "typo," the Rockville (Ind.) Tribune ran the following explanation:

"One of my newspaper friends relates that recently there was a discussion, with perhaps some ugly words, going on in his office concerning a 'typo.' A customer overheard some of the remarks and wanted to know what it was.

"The answer is that it is an abbreviation of the words 'typographical error' — an ugly mixing of letters or words in a line that is as annoying as it is unintentional.

"The Law of Typo works like this:

- "1. Most of the time, the typo will appear in a story or ad that is important. Typos rarely appear in stories or ads you don't care about.
- "2. Typos are sneaky. Sometimes four or five will appear in one issue of a publication. After much swearing, checking, probing, detective work, you'll have the typos so frightened that they go away. You think they are gone for good. But they are not. When you've forgotten all about them, back they come.

BOB SEEDS, left is congratulated by Joe Fortenberry, center, and Blair Cherry, past winners of the Panhandle Sports Hall of Fame honors. A former major league outfielder, the Shamrock man was installed Sunday as the third member during a banquet held in the Amarillo YMCA. Seeds, who started his baseball career as a and lot player in Shamrock and went to the big league, is now a stock farmer south of town.

### BOB SEEDS IS MEMBER OF PANHANDLE HALL OF FAME

Several Shamrock residents were in Amarillo Sunday afternoon to see Bob Seeds, former major league baseball player, installed as the third member of the Panhandle Sports Hall of Fame.

The honor was bestowed on the local resident at a banquet held in the YMCA.

"In all my 30 years of baseball, this honor brought me more satisfaction and I will cherish it as long as I live," Seeds told the crowd of approximately 200.

The Shamrock man received a standing ovation when he was introduced. He was deeply touched, and talked slow and easy.

"The football coaches talk about having ulcers. I have butterflies in my stomach," said the 53-year old former outfielder, who now operates his stock farm 7 1/2 miles south of town.

"I never expected this honor. I'm sure there are men in the Panhandle who deserve it more than I do, but I am very humble.

"At this time, I can't help but remember Sled Allen. He has passed away but I can't get him off my mind. He had the most to do with my baseball career.

"I also remember Bill Walker of Shamrock at this time. When I was 14 years old he straightened me out and delivered me to Sled Allen.

"Sled was managing the Amarillo team in the Western League in 1928. Allen sent me on my way to the big leagues."

In thanking his many friends he singled out Harry Gilstrap (former News-Globe sports editor), George Locke (veteran fan), Cal Farley, Windy Nicklaus, Lefty Middle on and Thad Ansley, former player.

Even opening Sr. Amarillo attorney and a former player, presented the Texas-shaped plaque to Seeds.

"It's always a pleasure to play and always a pleasure to meet you," said Farley.

"Seeds played with some of the greatest baseball players of all time. And you just don't play with those fellows if you aren't one of the best too.

"I also appreciate Bob Seeds for bringing baseball back to this area." Seeds founded the Amarillo Gold Sox in 1939 and served as president until 1950.

Cal Farley, master of ceremonies got in a few good ribs at Seeds. Farley was one of the owners of the Amarillo team in 1928 when Seeds was sold to the Cleveland Indians.

But Farley added, I've never talked to a major league baseball owner or general manager who didn't have a good word for Seeds. They all liked the guy.

First two members of the Panhandle Hall of Fame congratulated Seeds. They were Joe Fortenberry, West Texas State and Phillips 66 All-American eager, and Blair Cherry, former Amarillo High School and University of Texas football coach.

Also honored at the Amarillo YMCA sponsored event were Junior Coffee, Dimmit football player and Ted Hanna, Borger basketball player. Coffee was named athlete of the year and Hanna, Coach of the year.

Other honorees included:

Coaches of the year in various sports: Football — Ed Lehnick, Lefors; Basketball — Hanna; Track — Frontz Myatt, Palo Duro; Golf — John Parker, Palo Duro; Tennis — David Kent, Amarillo High; Baseball — Miller McGahay, Plainview.

Athletes of the year: Football — Coffey; Basketball — Milt Fitts, West Texas State; Track — Jim Parr, SMU and Amarillo; Golf — John Farquhar, Amarillo; Tennis — Triby Townsend-Bettye Gidden, Memphis; Baseball — Larry Stroud, of Pampa.

### LETTER TO THE EDITOR

Date: 1-18-61  
From: Connie Logan  
243 S. E. 41st St.  
Oklahoma City, Okla.

"So This Is The Wild, Wild West"

If you have ever "slurped" buttermilk down on the farm as I did as a child (or perhaps "slurped" your morning coffee in the privacy of your own kitchen) you will have some idea of how I felt when I say I got "slurped" on Hwy 152 to-night between Elk City, Oklahoma, and your town, Wheeler, Texas.

Something happened to me that has never happened before. I had and I have traveled several states (including Kansas, Oklahoma, and Texas) for eight years visiting newspaper editors. I was blown — or perhaps lifted up and eased down again — from one lane to another. I know you won't believe it, but it's true and I drive a big heavy car with gobs of luggage and stuff in it. That's what happened in the high spots. Now let me tell you about the low places in the highway, especially where there was an embankment to the right, or north of me . . .

That's where the "slurping" occurred. Honestly, when I descended a hill adjacent to an embankment on the north, I had the strangest sensation, sort of light and airy, like one imagines the "twilight zone" as if I had no control over my automobile — as if I were caught briefly in a sort of "suction cup" or vacuum. Well, as I said, as if I were "slurped." It ended, thank goodness, as soon as I ascended the next hill, or leveled off, but it did give me the most helpless feeling, sort of like one would feel I suppose, if caught in a Texas or Oklahoma tornado.

Oh, yes! I must tell you about the two little foreign cars that not only changed lanes, but ended up parked very neatly in the ditch across the highway. They had spunky drivers, though, who proceeded back across the highway and headed west again . . . I stopped to see if everything was all right, and it tumbled weeds, I was. But what with the wind, walls of dust blowing across the highway and tumble weeds, I don't know if they will ever reach Wheeler. But I did. I'll bet you Wheelersites are accustomed to this sort of thing and I probably doesn't even bother you. I could get used to it, too if this were home.

### Hints Listed For Non-Sleepers

The supersonic speed of modern life is costing us one of the most vital ingredients of good health—sleep.

Twenty years ago people got plenty of sleep and were better off for it, because sufficient sleep is irreplaceable if denied. People knew about fission in those days, but it was the hook and line variety, rather than nuclear. Things have changed.

Say you stay up for 20 hours a day. If you follow this routine for a week or so at a time first thing you'll notice is your hands jumping from nervousness. A dull ache will begin gnawing at the base of your skull. You'll be picky and indifferent toward food.

You'll be quarrelsome—projecting casual remarks all out of proportion. It will sound like an insult when someone says hello. You might think a good night's sleep will fix you up. Maybe it will — on the surface. The nervousness might leave you and the headache might disappear. It could be that a single night of sleep will give you the sweet disposition that was formerly sour grapes.

But it's all on the surface. During the stretch of sleeplessness your heart may have been strained, your blood pressure increased, your digestion upset.

Sleep gives the human body a chance to recover from the fatigue of one trying day before the assault of the next. And it has to be natural to be beneficial. That's why sleeping potions are undesirable as a steady diet.

A few hints may help you get a better night's sleep. Do your heavy thinking before supper. Make it a rule that after the evening meal your brain gets a rest. Subdue the lights around the house. Lights keep you alert, besides being tough on the power bill.

Get lots of fresh air. Sitting quietly in the porch might encourage the relaxation so necessary for dropping off into sound sleep. So might a short drive—if you avoid main traveled roads. Reading light fiction is also relaxing, but stay away from the nifty pin-a-eye stuff.

geant Whitener, as a member of the 762nd Bombardment Squadron consistently displayed outstanding courage, aggressiveness and intense devotion to duty throughout all engagements. With aircraft frequently severely damaged by heavy enemy fire, he courageously remained at his station to aid materially in the utter destruction of vitally important enemy installations and supplies. The conspicuous and extraordinary achievements of Sergeant Whitener throughout the many missions against the enemy in which he participated were of inestimable value to the successful combat operations and reflected great credit upon himself and the Armed Forces of the United States of America.

# SWEETWATER PHILOSOPHER SAYS HE HAS NO PLANS TO MODERNIZE HIS OLD DILAPIDATED DIGGINGS

Editor's note: The Sweetwater Philosopher on his Shinygrass farm stands up for his principles this week, which is hard to do from a sitting position.

Dear Editor:

A town friend of mine I hadn't seen in a long time dropped by to see me out here the other day and he got to looking the place over and finally he said, "why don't you modernize things around here a little? This is 1961 we're living in, not 1932."

Well, I know what year it is, I've got a calendar, that's one of the splendid things about democracy. One man's calendar is just as good as another's and the man with 500 is no better off than the man with only one, but I did not say anything, just sort of laughed apologetically as though maybe I would, although the truth is this place suits me like it is.

Well, maybe not exactly like it is, but the amount of work it'd take to make it more modern isn't worth the difference.

Moreover, what's modern is something that's hard to put your finger on. At the very moment you buy a new model, branded 1961 and made only two hours ago, engineers are off in a corner somewhere scheming up a newer model to replace the one you just bought.

Sometimes it seems to me there

The manager of the Shamrock Lanes, Geo. Dotson, has scheduled several other leagues to play on other nights of the week. However, more men and women are needed for additional leagues. If you are interested, contact George Dotson at the Shamrock Lanes.

## Students Receive Scholarships From Health Foundation

At this moment more than 800 young Americans are being trained in the health professions under The National Foundation Health Scholarship program, Para. 100-100-1.

Wheeler County's 1961 New March of Dimes, announced today.

Judy Mundy, Oklahoma State University, is being educated under the program.

These students, from every section of the nation, are attending more than 100 colleges and universities under scholarships of \$500 annually in the fields of medicine, nursing, medical social work, occupational therapy and physical therapy, he said.

For the third consecutive year, The National Foundation will offer at least 515 Health Scholarships during 1961 to qualified high school and college students in all 50 states, Puerto Rico, the Canal Zone and the Virgin Islands.

"Funds to finance these vitally needed scholarships in the understaffed fields of health must come from the public through the March of Dimes," Sivage emphasized.

These National Foundation Health professions, informing communities of the importance of maintaining educational standards and opening new professional schools, as well as helping young people to prepare at an early age for careers in the health professions and thus increase the number of potential teachers, scientists and other health leaders, he explained.
