Another Fool Trick Is DRIVING AN OLD CAR WITHOUT A SAFETY CHECK-UP

Court records prove that it's foolish and dangerous to drive today's cars without discovering and correcting un-balanced wheels, misaligned frames, bent axles because those conditions cause parts failure, blow-outs, loss of control AND ACCIDENTS. Let us correct your car NOW with our scientific BEAR Equipment.

HI THERE

by Lavell Stephens

You People that have visited Boy's Ranch near Amarillo enjoyed the visit very much, as I did. I am sure, for you that have never been to the ranch—please go.

Boys Ranch was founded in 1939 by Cal Farley. Beginning with the old Courthouse and 120 acres of land on the site of historic Tascosa. The Ranch has continued to grow until today there are more than 1,600 boys from every state in the nation who can look back on Boy's Ranch as their "home".

At present Boy's Ranch covers 1,400 acres, has 30 buildings of all types and boasts its own bank and post office, along with all the service facilities and utilities of a modern city.

We arrived out at the Ranch about 11:00 o'clock—after driving around the grounds, seeing the football field, rodeo grounds—a nice creek that has been dammed up and made into a swimming pool—with swings, slides, diving boards and a small barge. The pond is surrounded on two sides with trees and looked as tho much fun had been had there by many boys.

All of the 261 boys are required to attend church each Sunday morning so we decided to wait for Church to "turn-out" and see all My next mistake being—we had

of the little guys come out. We didn't have very long to wait—the doors opened and here they came—boys, boys, boys little ones, middle size and teenagers—oh yes—I almost forgot to mention—some five or six dogs of Heinz variety were lazily waiting for their masters, and were so happy to get the hugs and kisses they received.

We then followed the boys on to the cafeteria. We were waiting in our car, wishing for a cup of coffee, when one of the teachers came to the car and introduced himself (I'm sorry that I can't remember his name) and ask if we would care to join the boys for lunch. We did—and what a joy it was. The dining area seats 750 people, the tables are round and seat 8 people to a table. The teacher took me to a table introduced me to a young man I'd say to be 16 or 17. Seated at this table were 5 little boys ages 6 and 7 who stood and the older one introduced me to the little guys—and then came around and very graciously seated me. (We had some reading material on the Ranch, which told us that the boys were taught and loved as near to a "real home life" as its possible to have with such a great number) anyway to get back to the food—and my first near mistake) the older boy ask me to "please pass the salt"—this I started to do, by reaching across the table—but the little fellow on my right, had his hand out to take the salt from me. Inturn he handed the salt to the next boy and then on to the boy that had ask for it. My next mistake being—we had

fried chicken. Now mind you, I didn't lie down on the table, but you know the old saying "Mable, Mable, keep your elbows off the table". I looked around the table, all of them had one little hand on their lap and eating with the other. (Home-like this reading material said) guess they didn't mean as long as one foot remains on the floor you were doing O.K.

Directly across from me was my "little honey" of the group. He had 2 teeth gone in front—but he was in their rodeo. He assured me that he did—I ask him what he rode and he told me "my stick horse, and I was sure tired when it was over."

Mr. Farley came—how I wish you could have seen the boys go to him, hug his neck, hold on to his legs—any place they could touch him. Out of the many hours of toil and strain that I am sure Mr. Farley has put into this home to be able to give "a shirt tail to hang on to" for boys that have no place to be—what a wonderful feeling of satisfaction and peace within himself that I'm sure few of us will ever know.

Mr. and Mrs. N. J. Tyson, Mr. and Mrs. Jay Boothe and family and Mr. and Mrs. John Wright and David were Sunday visitors in the Milton Finsterwald home.

Mr. and Mrs. O. W. Pendleton and Opal Reed and daughter were visitors in the Owen Jones home Sunday night.

New '61 Chevy with Jet-smooth ride!

Impala 4-Door Sedan—Jet-smooth traveler that rivals the luxury cars in everything but price

The '61 Chevy loves to go because it goes so well. Purrs along pavements like a happy tabby. Takes rough roads in stride and all roads in style.

Just why does a Jet-smooth Chevy treat riders as royally as the high-priced luxury cars? It all came about through a delightful blend of Full Coil suspension, precision-balanced wheels, unique chassis cushioning, and a superb Body by Fisher insulated to hush away road sounds. All this adds up to less sway, less bounce, less dip, less rattle, less tilt, less noise, less... well you name it.

Now combine this Jet-smooth ride with conveniences to pamper you and roominess to relax in. Add a full measure of quiet good looks. Voila, you've got Chevy's formula.

And the proof is in the riding. When you sample a Jet-smooth Chevy at your Chevrolet dealer's we think you'll find it just to your taste.

THESPIAN CLUB ORGANIZED HERE

Students of Wheeler recently organized a Thespian Club which is a dramatic organization affiliated with the National Thespian Society with headquarters in Cincinnati, Ohio.

The officers are President, Bill Green; Vice President, Dorothy Hall; and Secretary, Richard Hampton. The Thespians are planning a spring program which will include the presentation of the Jeanne King Award to the student who has contributed the most to dramatics this year and awards to the best actor and actress of the year.

To qualify for membership in the Thespian Club, a student must have maintained a "C" average in each subject during the preceding semester, must be interested in dramatics, and must have earned sufficient points by previous participation in dramatic productions. Other members of the club are Sharon Farris, Carolyn Sims, Kathleen Garrison, Frances Alexander, Barbara Barton, Bob Riley, Bobby Adams, Ruby Barton, Fran Borden, Frances Cole, Kelly Bowles, Troyce Hunter, Jerry Burgess, Mickey Pride, Bill Pearce and Richard Parks. Carroll Killingsworth is sponsor of the club.

DEAR MOTHER

I awake in the morning
To the call of my dear Mother.
She's such a sweet thing,
I know there is no other.
With blue-green eyes sparkling,
Shining hair touched by golden water,
And ruby lips always smiling,
I know there is no one I love greater.
She always seems so cheerful and bright,
I know she lays awake to hear
My footsteps come in at night,
I seldom shed a tear,
Because she never raises her voice
or scolds her tyke,
I know I've been bad
And spoken in rage,
But she understands, I'm only a lad
And will change with age,
She's raised me without the aid
of a dad,
And worked all her life in a daze
So I could have what I've had,
I know I've sometimes been a pill,
And done things I knew weren't
right,
But she's stuck by be through good
and ill,
She has always kept quiet,
Even when against her will,
To let me see what is wrong
and right.

— Kelley M. Boyles

WEALTH

— Wealth is one of the most sought after things in life. Men of nearly every race, creed, and nationality have one big ambition in life. That is to be a financial success. While some people only want enough money to live comfortably, others hoard every penny they can get by fair or foul means.

Some men crave money so much that they become misers spending only enough money to barely live on. Their only joy in life seems to be counting their savings, time and time again.

Men have stolen, lied, killed, cheated, and deceived in their greed for money. They forget there ever was such a thing as the Ten Commandments when money is the subject.

People of the business world, who have made their money legitimately, usually have the same greed money, although few ever go to the extreme of killing for it. With some, the more money they get, the more they want. Their lives seem to be based on the idea of acquiring more wealth. They forget how to enjoy life as it is supposed to be.

Benjamin Franklin's old saying of "He does not possess wealth, it possesses him" seems truer today than it did when he first quoted it.
— Larry Levitt

PTA vs. High School

The local girls' volleyball team made its debut Tuesday night by trouncing the P.T.A. team 2 to 1. Playing on the P.T.A. team were Jodie Johnson, Barbara Baird, Sharon Immel, Margaret Weatherly, Dixie Gaines, and Joan McWhorter.

FHA SWEETHEART BANQUET HELD

It was on the night of February 18, 1961, that the Wheeler F.H.A. girls and the high school faculty escorted their sweethearts to the Wrangler Restaurant in Shamrock for the annual F.H.A. Sweetheart Banquet.

The girls were all dressed in beautiful semi-formal dresses with matching gloves. These dresses were accented with corsages given by their boy friends. The boys all wore suits with white shirts and ties. Each couple was very careful to carry out "good manners" in public places.

The occasion was enjoyed by twenty-five Sweethearts. Our special guests were Rev. and Mrs. Bob Ely, our speaker for the evening, and our F.H.A. parents, Mr. and Mrs. Bill Chapman and Mr. and Mrs. Leon Fillingim, Mr. and Mrs. Lewis Lancaster, also F.H.A. parents, were unable to be with us.

Rev. Bob Ely gave a talk on how he and his wife met and were married, and about some of their happiest moments together. Everyone enjoyed his talk. To show our appreciation to him and his wife for helping out with the program, we presented them with the bouquet of flowers that was used as the centerpiece at the head table.

Those attending the banquet were: Mr. and Mrs. Gordon White-

ner, Mr. and Mrs. Leon Fillingim, Mr. and Mrs. Bill Chapman, Mr. and Mrs. Harvey Davis, Mr. and Mrs. Arling Cordell, Mr. and Mrs. Earl Barnes and Rev. and Mrs. Bob Ely.

Kenneth Farris and Violet Fillingim, Jan Porter and Kathleen Garrison, Troyce Hunter and Frances Alexander, Bill Green and Elizabeth Wiley, Bill Pearce and Vicki Maek, Richard Hampton and Catherine Lancaster, Gary Grimes and Frances Cole, Luther Dyer and Charlotte Hess, Jimmy Hill and Bobby Adams, Sue Pitcock, David Treadwell and Kitty Hibler, Mickey Pride and Lee Nell Gunter, Richard Parks and Marilyn Nash, Estelle and Mozelle Fillingim, Joe Miller and Dorothy Hall, Bob Riley and Gwen Barnes, Ruby Barton, Ray Owens and Carolyn Page, Harry Garrison and Mary Holt, Tommy Carr and Loria Gaines, Jerry Hefley and Jane Wolford, Jim Jolly and Carolyn Sims, James Henderson and Annie Riley, Buck Holcomb and Jo Ann Chapman, Larry Levitt and Dianne Gregg, Stanley Baker and Eileen Moore, Donald Gandy and Sharon Farris.

Everyone reported that this was one of the nicest banquets they had ever attended.

HOME EC GIRLS REDECORATE

The interior decorating classes and the summer homemaking students have completely redecorated the homemaking cottage during the last four years. All of the walls and woodwork have been repainted, drapes have been made for all the windows and chair backs for all the chairs in the sewing room have been made. The drapes and chair backs were made of government surplus material. A gift from an interested person enabled us to buy a new Early American living room suit plus a new slantomatic Singer sewing machine.

The F.H.A. has bought material and re-upholstered a divan and chair for the living room plus two chairs for the bedroom. One of these chairs was donated by John Manning and reupholstered by the girls. They also added two early American end tables and three Early American lights. An old manel was purchased by the F.H.A. and completely refinished by the girls. A log stove was obtained from Mr. and Mrs. Earl Barnes to be used in the fire-place. A new Early American rug was purchased to go in front of the fireplace.

The clubs of Wheeler have given the following items to the depart-

ment: Two electric motors for two treadle sewing machines, two lace tablecloths, one linen table cloth with napkins, one stainless steel table ware set for eight, a set of crystal glassware, two stainless serving trays, a steam iron, four stainless steel aluminum bottom pans, two portable electric mixers, one dozen glass service trays with cups, sixteen china service trays with cups, and one outside flood light.

The Southwestern Public Service Company has installed two new electric stoves. One is a General Electric from the H. & B. Appliance Company and one is a Frigidaire from the Ernest Lee Hardware Company.

The P.T.A. bought one new Nechi automatic sewing machine on which all the drapes were made. The Board of Education bought a new hot water heater and has bought all paint used and has refinished all the floors including new vinyl tiling for the kitchen.

The girls of the homemaking department and their instructor, Mrs. Gordon Whitener, are always happy to have visitors and extend a special invitation for you to visit anytime.

Comings And Goings

Jerry Moore visited with us recently. She spent most of her time in the homemaking department & seemed to thoroughly enjoy herself. Come again, Jerry.

Fran Borden visited with her sister, Lou, in Lubbock, recently. We were sorry to hear of Lou's illness.

Mr. and Mrs. A. W. Brown and daughter, Mr. and Mrs. Dennis Wilford and baby were recently Wheeler visitors.

The story is going round that Bill Pearce, Mickey Pride, and Charles Willard were lost in Shamrock Sunday night. Thought you boys knew your way 'round better than that!

Buck Holcomb and Dale Wofford were home from College last weekend.

Stanley Baker and his mother from White Deer visited school Thursday, Stanley and Cherry plan to enroll in school here Monday.

Dorothy Hall rushed to Pampa Tuesday night to visit with Joe Miller who was in the hospital with pneumonia. We are glad that he is recovering nicely.

Guess Who?

Jerry Burgess was the first to submit the correct answer to last week's quiz and by unraveling the clues to name Donald Gandy as the Guess Who.

Here is another jingle, so rack your brain, unravel the clues, and give your answer in a letter to Bill Pearce.

"It's spring so soon
With flowers in bloom,
So meet a new lass,
From the know-it-all class.
Amusement parks are her favorite sport,
She loves round wheels and all that sort,
Of thrills and spills
To cure her ills.
Now sit right down and tell us
her name,
And in you go to our Hall of Fame."

—LARRY LEVITT

Addition To Library

Mr. Bailey and Mr. Mann have been busy remodeling the high school library. The front has been closed to provide additional shelves and storage and the library will now be closed when a librarian is not on duty. We have several new books to put on the shelves as soon as the word is completed. We are very proud of the eleven books which were donated to the library by Mr. and Mrs. Harrison Hall.

The Joy Of Being Editor

Getting out this newspaper is no picnic. If we print jokes, people say we are silly.

If we don't, they say we are too serious.

If we stick close to the office all day.

We ought to be around hunting material.

If we go out and try to hustle, we ought to be on the job in the office.

If we don't print contributions, we don't appreciate genius.

And if we do print them, the paper is filled with junk!

If we edit the other fellow's write-up, we're critical!

If we don't we're asleep.

If we clip from other papers, we are too lazy to write them ourselves.

If we don't, we are stuck with our stuff.

Now, like as not, some guy will say "We swiped this from some magazine."

"WE DID!"

SCHOOL NEWS

Arling Cordell, Supt.

Most of our State College and universities will require entrance examinations next September for all Freshmen. As a preparation for these tests, our Juniors and Seniors took Preliminary Scholastic Tests last fall. This week, on Saturday, these seniors will take the American College Tests in Canyon. Kitty Hibler, Eileen Moore, Frances Alexander, Kathleen Garrison, Violet Fillingim, Marshall Watson, and Bob Riley; Jerry Burgess, Wayne Hill, and Joe Loter will go to Amarillo for their tests. These students have studied long and hard in order to be ready and we feel that they will be a credit to our school, to their parents, and to themselves.

Texas Public Schools Week, sponsored by Wheeler Lodge No. 1999, and planned by a committee of Masons composed of Bill Owens, Archie Butler, and will get off to a fast start on Monday, March 6th with a combined school visitation and P.T.A. program at 7:30 P.M. More details will be announced later.

Only 12 weeks of this school year are left. Six weeks tests are being given this week. Parents do you know how your children are doing in their studies? Look closely at their report card grades. Visit their teachers and find ways to help them.

JUNIOR CLASS TO PRESENT PLAY

The Junior Class play, "The Bus Stops Here," a 3-act comedy-drama by Robert St. Clair, will be presented Thursday, March 2, in the school gymnasium. The play which includes a cast of seven men and seven women takes place in a bus station in a small midwest town. Fran Borden plays the part of Martha Baker, the proprietress of the station. She is a sweet, work-worn woman of forty-five with a gentle, kindly disposition.

Jerry Wald, played by veteran actor Bill Green, is a young boy who works around the station. He is an even-tempered, sometimes shy little fellow who is always willing to do more than his share.

Ruby Barton plays the part of Jenny Simms, a young waitress, rather dumb, giggly sort of girl who constantly chews gum. She is the type who gets "mad crushes" on most every good looking young man who pays any attention to her.

J. M. Kepler, a wealthy manufacturer, is played by Richard Hampton. He is a distinguished looking forty, an even-tempered, down to earth man with humanitarian learning. He likes people and they like him. Irene Kepler, J. M.'s wife, is played by JoAnn Chapman. Irene is a beautiful society woman, something of a snob, often impatient and sharp-tongued. However, this unattractive manner is merely a shell which she has built around herself to compensate for a deep hurt she feels inside.

Irma Smith is an old lady with a glamorous background played by Frances Cole. Lyla Graham, a sweet, pretty, inhibited girl of eighteen, is played by Bobby Adams. At first, she has a breathless nervous, almost frightened manner which melts under the friendliness of a certain young man. She is truly a lovely girl, with a great problem on her mind.

Jack Freeman, a young sailor, is played by Jim Jolly. He is the breezy sort of chap whom everybody take an instant liking to. However, he has a serious side, and can be very sympathetic and understanding when the occasion demands.

Harold Jones and Ted Smith, played by Bobby Treadwell and Jerry Hefley, typical Greyhound bus drivers who are always friendly and courteous and have never met a stranger in their lives.

Glady's Caldwell, Mary Ann Bradstreet, is the mother of Robert Caldwell, Kenneth McCasland, a college student. He is hot-tempered and rather disagreeable. Later, he has occasion to be very sorry for this. Larry Levitt plays the role of Donald Webster who is frantic because his fiancee has run out on him the day before their wedding. Trudi Lynn, Donald's fiancee, is played by Karen Henderson. Although she loves Donald, she has had her head turned by the offer of a possible motion picture career.

It all adds up to an evening of good entertainment and everyone is invited to share it with the Junior class Thursday, March 2. Curtain time is 7:30.

A Test For Your Vocabulary

How is your vocabulary? I stopped several students in the hall and asked them what they would do with a dromedary. Here are the answers I received. Annie Ritzley would burn it, Marshall Watson would eat it, Ronnie Smith would play with it, and Mary Ann Bradstreet would teach it better. Randy Callan and Mary Holt would give it away and Bill Pearce would kill it before it multiplied. When I asked Carolyn Page she said, "Golly I don't know!"

What would you do with a dromedary?

Annette Hutchison Is On Dean's Honor Roll

Annette Hutchison, daughter of Mr. and Mrs. Dorsie Hutcheson of Wheeler, Texas is one of the 83 McMurry College students who have been named to the Dean's Honor Roll, released by the registrar's office of the Abilene college. In order to make the list, students have to have at least a 2.5 grade average for the past semester, with only the top ten percent of the student body being eligible.

Miss Hutchison is a business education major and an English minor at McMurry where she is a sophomore. She had a 3.00 grade average during the fall semester.

In Your Home Stores YOUR THE BOSS

to the stores in other towns

you're just gravy

YOU rank FIRST around here . . . your wants and needs are the blueprint for your home business men when making all of their plans . . . YOUR wishes rule their decisions on the kind, quality and prices of the goods and services they offer.

Because you are the day-to-day customer who keeps this town's conomy going . . . the one who MUST be pleased and satisfied.

The MORE you trade with your home merchants, the better they can tell what YOU like and need . . . and the better able they will be to offer WHAT YOU WANT WHEN YOU WANT IT.

ON THE OTHER HAND . . . in other towns . . . you are NOT one of the folks the business people in those towns are most interested in serving.

True, they like to see you coming . . . because none of the profit made off you has to be spent helping to run YOUR school, pay YOUR preacher, or contribute to the support of your community.

Which makes your business real gravy to them . . . but you are still the customer most likely to get the chipped dish . . . not because maybe you live too far away to bring it back . . . but because the BEST is for their regular customers who keep the ball bouncing for them.

HIGH LIGHTS AND SIDE LIGHTS FROM YOUR STATE CAPITOL

Austin, Tex.—Legislature moved toward early show-downs as the House Revenue and Taxation Committee scheduled controversial bills in swift one-two-three order.

Coming up early on the committee calendar were three of the four measures in Gov. Price Daniel's special deficit-erasing program.

Each renews controversies of last session. They are:

1. A new two-factor formula for figuring the franchise tax owed by interstate corporations based in Texas. At present the franchise tax is computed on the basis of receipts from sales in Texas.

"A firm which sells all its output in Texas," the governor points out, "pays at a 100% rate. A Texas-based company selling all its products outside Texas pays none."

New formula would hit these interstate corporations. Governor Daniel calls it "closing a loophole." Industry spokesmen contend it would drive business from Texas.

2. A measure providing for enforcement of the escheat law. This is known as the abandoned property act, which was defeated in 1959 despite the governor's vigorous efforts.

Governor Daniel says he will call a special session if the bill isn't passed in regular session.

3. A temporary increase for one year from 7 to 10 per cent on natural gas production. Governor Daniel says this is to fill the revenue gap while the natural gas severance beneficiary tax is being thrashed out in court.

A new tax bill introduced in the House would levy a two per cent tax on all real estate transactions. It is by Rep. George Hinson of Minocla.

Referendum Stalls—House members refused to take a beat-the-clock short cut toward getting a tax referendum on the ballot at the April 4 special election.

Rep. Wesley Roberts of Lamesa, sponsor of the bill, asked the House to instruct the State Affairs Committee to consider the bill immediately and report to the House.

Proposal was defeated 81-65, with the vote dividing approximately on the same line as the one by which Speaker James Turman was elected.

Referendum would, in effect, have given the public an opportunity to say which of three possible broad-based taxes they would prefer—payroll, income or sales. Bill would have had final passage before the end of February for the question to be printed on the ballot. Without hurry-up procedures, the schedule will not be met.

Now the matter is left entirely to the legislators to determine. As most ran on platforms that called for no sales or income tax, these two taxing methods doubtless can be eliminated from further consideration.

Horse Racing Argued—Legalized horse racing is still a live issue after a committee hearing that ran into the small hours of the morning.

Rep. V. E. (Red) Berry of San Antonio is sponsor of the proposed constitutional amendment that would allow race tracks and pari-mutuel betting on a local option basis.

Opponents, mostly ministers and lay church leaders, called gambling a parasite on the economy, and a producer of fewer jobs for "the money spent than is possible in any other business."

Supporters called it a clean, popular sport to which Texas climate is ideally suited. And they declared a job, less revenue raiser.

Re-Cutting the Pie—Two congressional re-districting bills have been introduced, one of which could cause anguish howls from the neighborhood of the potinac.

Rep. Ben Lewis of Dallas has introduced a proposal to give Dallas County the extra congressional district Texas and leave other districts as they are.

Rep. Malcolm McGregor has introduced a bill which gives Dallas two congressional districts.

McGregor's proposal is based strictly on population, with no thought to personalities or poli-

tics. In some instances it would result in two congressmen being put in one district. Some districts would be enlarged, some reduced.

Raise Proposal Aged—County school superintendents are a touchy subject with the Legislature.

County Superintendent George Corse has come back to work for a bill to abolish the county superintendent's office in counties with few or no pupils in county schools.

Under this year's plan, abolishment would be on a local option vote. Supporters say it could save the state \$1,500,000 to \$2,000,000.

In this same atmosphere is a bill by Rep. R. A. Bartram of New Braunfels. However it would raise the salaries of assistant county superintendents. Money-hungry House members killed the bill.

Old Rules Re-Adopted—Teachers pay raise advocates were disappointed when both House and Senate adopted the some rules of procedure as they used last session.

These rules prohibit passage of any new spending measure until the general appropriations bill is passed.

Last session passage of the general appropriations bill was virtually the last act before adjournment. Teacher raises and other new spending proposals died without ever coming to a vote.

Also Running—Among other measures in the legislative churn are bills that would: exempt from state license fees farm trailers that farmers borrow from cotton gins and grain elevators; provide procedure for acquittal, and erasure of the blot of a criminal record, if persons found to have been convicted of crimes for which they were innocent; set up statewide, rather than countywide, licensing of notaries public; provide for licensing and regulation by State Health Department of persons engaged in the exterminating business; allocate \$1,800,000 more for assistance to the needy aged and blind; raise the maximum age for receiving a drivers' license from 14 to 16.

WHEELER COUNTY SOIL CONSERVATION NEWS

Grass planting for 1961 should be planned now. Early seedings of the permanent grasses will usually get better stands in the Wheeler Soil Conservation District.

Grass should be seeded in a dead cover such as sorghum or sudan stubble. Ordinarily, no seedbed preparation is needed. If the seedbed is very weedy it can be worked with a sweep so that the stubble remains on the surface.

The tillage should be as shallow as possible so that the seed may be placed on firm ground.

A grass seed drill with depth gauges is best for planting. It is very easy to get the seed too deep. Very little covering is needed on early seedings.

Federal cost-sharing is available for grass seeding through the Great Plains Conservation Program and through the ACP Program. Seeding rates, adapted grasses and cost sharing information will be furnished by a Soil Conservation Service technician upon request.

Mr. and Mrs. Geo. Fulks and Dolly, Mr. and Mrs. Ronny Weathers and Garland from Amarillo visited the B. N. Fulks.

Staff Sgt. Maxie Herd and family from San Angelo, Tex. visited in Wheeler with the Fred Waters and the H. H. Herds. Little Jeffery is spending two weeks with his grandparents.

James Madge and Brock Horton of Amarillo spent Saturday evening and Sunday with Mr. and Mrs. Grady W. Harris of Mobeetie. They celebrated their sixth anniversary and Grady's birthday.

4 Rural Accidents Investigated in County

The Highway Patrol investigated four rural accidents in Wheeler County during the month of January, according to Sergeant E. G. Albers, Patrol Supervisor of this area.

These wrecks have accounted for one person killed, two injured, and a property damage of \$2,025.00

The Highway Patrol Supervisor pointed out that the motoring public has begun the new year with an improved traffic record over last year. You can continue to help keep it that way by doing two things, he added. Know and obey traffic laws and defensive driving.

Defensive driving is the ability to recognize an accident producing situation and compensate for same by your own driving, being careful to commit no driving violations yourself. In other words, simply drive ahead of yourself, and be prepared for the other man's actions.

One of the greatest faults of the American driver today is that he hides behind the false security of the fact: I have the right-of-way. Just because you have the right-of-way does not necessarily mean that you will not have an accident; so give the right-of-way, don't take it. And you will help in the reduction of traffic accidents.

LAND LOANS UP

Demand for the type of loans made by the Federal Land Bank of Houston is up 30% over the 1960 requests, according to Hal Weatherford, President of the bank. He said the demand, among other things, reflects an adjustment which farmers and ranchers are making in their operations by switching heavy short-term debts to long-term land loans. This gives them a better balanced debt load and more freedom in their operations, Weatherford said.

The Federal Land Bank of Houston has more than 237 million dollars of loans in force, which is an all-time high. It is one of twelve such banks in the Nation and serves the state of Texas. Its loans are made through 73 Federal Land Bank Associations, and it secures its loan funds through the sale of bonds to the investing public.

Mr. Rayburn L. Smith is the manager of the local Federal Land Bank Association which serves this area.

Mr. and Mrs. Ed Flynt and son from Pampa visited the Kenneth Franks Sunday.

Sandra and Jim Wright were visiting in Wheeler Saturday night with Mr. and Mrs. Owen Jones.

Mr. and Mrs. R. C. Taylor from Tulsa, Okla., are visiting Mr. and Mrs. Bob Taylor.

MOORE MUSES ON MANAGEMENT & MANIPULATION

"Children ought to be taught early to work so that they will be able to take care of themselves later in life," says J. C. Moore, the sage of Wheeler, who bears strong resemblance to the late Will Rogers. "And thrift is built right at home where every individual ought to be shown that if he is to be a success he has to learn to save money."

And the sage knows whereof he speaks. He has reared nine children with the aid of his wife, whom he praises highly, and any one who knows the stock of J. C. Moore will tell you that he handed success to his children, although it wasn't on a gold platter. It was in the form of an organized family enterprise, in which every member was and is considered a director until he leaves to go on his own hook.

Moore, who came from Fort Worth to Wheeler County 19 years ago, says he made the move because he had so many children he "had to have a range for 'em!" Stressing the need for youth, both sexes, to grasp the meaning of working and saving early in life, Moore asserted that they will not be thrown into the world with no knowledge of making a living.

"Where I've got horses and land out there on the farm," stated Moore, "and if I thought my boys were out there idle, I would go out and find 'em something to do."

In telling the Times reporter some of his experiences & business principles, Moore explained that he is 63 years old and is head of the family firm, at least by title. "Any man who has land, tools and children has a machine and should start and keep that working," says Moore. "And he will bring happiness and money to himself and his family."

Go didn't fix it so anybody could get a corner on happiness," wise cracked the brown faced little man, with a twinkle in his snappy blue eyes, "or the big boys in Wall Street would have already had all of it." But he added, "The trouble with the country today is that there aren't enough big men to tell us little men what to do. We are just labor, and there is a shortage of brain power to keep this whole system going."

When asked what his hobbies or pleasures are Moore replied, "Just living is a pleasure to me. I deal in paper, and I meet a lot of people in playing the game and that's all life really is, a game. In dealing with people I found that you have to know a lot, but no matter how much you know, you'll still lose some money. And you'll find out it's true that the longer you live, the more you realize how little you know."

"A working education is the best education," believes the home spun

philosopher, "and I was a hundred dollars for a location. But then some a literary education and enjoyment out of it, we'd all mine from really working."

Moore is noted for his voice, and he tells himself that happened brother came on a va the street on Bronson got out of a car, away and began holle "Go on down there," said must be your brother enough it was my brother only man I know who er voice than mine."

Speaking of his business, Moore said he paid him \$13, a week, "I learned to be early, and it sho' help said. "Early in my began dealing in paper vouchers), and I've been til now."

In drawing the come ward a close, Moore was just like you've always of my ideas are only opinion. I wouldn't of world if I were asked to fellow's idea might be mine. That is one rea and I get along so well in religion and politics believe anything I tell you want to—it's only a and it ain't worth a d

WHEELER COUNTY SOIL CONSERVATION NEWS

Conservation practice are well underway with several farmers and ranchers as Spring draws near. Several terraces are being constructed, both field and diversion terraces. Some grass seeding has been completed and others are in the process of planting at present. Several ponds are in the process of being constructed.

The Board of Supervisors are proud to announce the progress of the following cooperations. In the Kelton Community L. C. Beatty has completed a terrace system, John Dabery's terraces are being constructed and L. W. Davidson has lines run for terraces. At Lela, a diversion terrace lines have been run for S. E. Riley and Bryan Close. Cecil Tourney is making plans to seed grass with the Great Plains Program. At Mobeetie, Douglas Baird has lines run for a diversion terrace. J. H. Scribner has lines for a diversion terrace and had a pond under construction at present. Willard Godwin has recently completed an erosion control dam with Great Plains Program. At Briscoe, Elbert Zybach has recently constructed terraces and E. E. Rice has a pond staked. Marion Grimes has just completed some grass seeding near Wheeler.

The District Board is behind you 100% and encourage an early start on terraces and other practices so that they can be completed before Spring planting time. See your Soil Conservation Service and A.S.C. office for assistance today.

TWITTY NEWS

By J. Lloyd Rice

Mr. and Mrs. Glenn King returned home from Amarillo, where Mrs. King was under treatment for trouble in her hands. Several specialists worked on her hands, and did give her some relief from the stiffness which affected her fingers. She is able to work with her hands easier now than before.

Ernest Lasater had two large shade trees removed from the front of his yard. One was left standing, the removal of the trees completely changed the appearance of his house and front yard. That is from the road.

Twitty people woke up Tuesday morning and looked out on a wet world. Then huge snow flakes began to fall. Soon the plowed ground was white. We thought we were in for another siege of ice and snow, but by Tuesday afternoon it had all melted off, and farmers rejoiced and thanked God for the fine moisture.

Mr. and Mrs. R. J. Smith visited in Borger Sunday with relatives.
