## Risner and Chapman Are New Councilmen

Wheeler voters went to the polls Tuesday and picked Adrain Risner and Bill Chapman to serve as city councilmen for the next two years, according to election judge A. B. Crump.

Risner received 87 votes; Bill Chapman, 69 and Robert Denson 56. Crump said it was one of the closest council races he had ever witnessed.

Risner and Chapman will work with Dorris Hutchison, James Verden, W. D. Mitchell and Mayor Thomas Daughtry on the council. They will assume their duties as councilmen Thursday night, April 6th.

## Briscoe Juniors Present Play

"Her Kissin' Cousin", a comedy in three acts, is to be presented by the Junior Class of Briscoe High School in the high school auditorium on Tuesday, April 11th at 8 o'clock. This play centers around the excitement created by Lucy Lee Saunders, a sugar-coated "atom bomb from the South", when she visits her cousin in the north. The Briscoe juniors hope that the audience will have as much fun when they see the play, as the cast is having in rehearsals.

Five Junior boys are preparing musical entertainment for between acts.

The cast is as follows:  
Jennifer Desmond, an attractive girl with "no nonsense" about her — Clea Strawbridge  
Jodie Armstrong, a friend of Jenni's with a little more impudence — Kay Vise  
Mollie Farrell, another friend of (Continued on Page 8, No. 5)

THE WINNERS: The old Easter Bunny was mighty good to this foursome last Saturday at the Easter Egg Hunt. They each found a grand prize egg and received \$10.00 in cash. Bryan Swaim, president of the Wheeler Riding Club, the sponsor of the Easter Egg Hunt, is shown as he presents the cash awards to the kids. Those finding the lucky eggs were: Patricia Jones (sitting on Swaim's knee), Wayne Zybach (also kneeling) Marilyn Nash (standing in the center) and Bruce Hubbard. The grand prize eggs were donated by the Carbon Black Plant, The Riding Club, The Chamber of Commerce and the Paymaster Gin.

## A Readers Opinion

There has been much in the news lately Pro. and Con. of the John Birch Society. So far as I have actually read the Pro. Group are for Constitutional Government, against Communism, against High Taxes and sending the money overseas, or setting up a Welfare State here.

The Anti-Birch Group, say the Birch Society isn't needed that they are a bunch of Pro Nazis and Slanderers, that they make wild accusations and are name callers without reason.

Thank God that people other than Communists have the right to organize, and to petition for redress of Grievances and freedom, even if they are called a bunch of Pro. Nazi Slanderers when they step on a Communist's toes.

I am not now a member of the John Birch Society, but if the Communist will "holler" loud enough, (and they seem to be getting a good start with their bellowing,) I will join. For unlike Mr. Cordell, I don't have any scruples on how the Commies are fought, switches, words or Atomic Bombs are alright with me.

The Communist favorite trick is to accuse their enemies of the very thing they are doing themselves. Now they accuse members of the John Birch Society of things not said in the way the Commies are quoting them. Many people around here must have heard the interview on KFDA TV Channel 10 with Dean Manion, and stories on the John Birch Society in the Amarillo Daily News and can easily see who is calling names and making false accusations.

So, Mr. Earney and Mr. Cordell, I would like my name put up among the top of the list with those who oppose Communist and Anti-Anti-Communist, in any shape form or fashion.

Cecil H. Bailey

## Hundreds Turn Out For Easter Egg Hunt

The Riding Club Easter Egg Hunt drew a big crowd this past Saturday afternoon with ample boys and girls to gather all the eggs hid by the Easter Bunny, according to Bryan Swaim, president of the Riding Club.

The Riding Club and American Legion furnished over three thousand eggs and in addition the business men had 86 prize eggs and each riding club member and others added a dozen eggs each. Swaim said the Riding Club certainly appreciated the businessmen's support as well as the large turnout for the hunt and he thought the Easter Egg Committee Chairman did a good job in planning and holding the hunt.

The boys and girls finding the eggs in each of the four divisions are as follows:  
Age group up to six years old.  
Wheeler Chamber of Commerce, \$10.00 — Wayne Zybach  
Vanpool - Burton Motor Co., \$5.00 — Eugene Weldon

Reids' Barber Shop — Clara Marshall; V & E Real Estate — Jaunita Boydston; Hunt Burial Ass'n. — Linda Laycock; Title Abstract Co. — Linda Beatty; McIlhany Dry Goods — Larry Rives; C. W. ## WEAVER IS NEW OWNER OF DRUG STORE

Mr. and Mrs. Hyland Weaver moved to Wheeler this week and assumed ownership of the Wheeler Drug. Hyland has been employed as a pharmacist at the West Haven Pharmacy in Amarillo for the past three years.

The Weavers have one child, Tommy, a three year old boy. And they are setting up household in the Deward Wofford apartment west of Wheeler.

Hyland is 26-years-old and a graduate of Southwestern State College at Weatherford, Okla. He is originally from Vici, Okla. Betty, his wife, is 24-years-old and a former Altus, Okla., girl. She will graduate from West Texas at Canyon next month. She plans to teach in this vicinity following graduation.

Both Hyland and Betty are members of the Christian Church and Hyland is a member of the Masonic Lodge in Vici, Okla.

## Less Than Two Weeks Remain To Have Autos Inspected

Inspection Sticker! — Deadline? — Saturday midnight, April 15, 1961. Motorists are warned there is less than two weeks for procuring their new 1961 inspection sticker. This announcement was made by Captain Alan Johnson of the Motor Vehicle Inspection Service of the Texas Department of Public Safety.

Johnson pointed out that of the 544,419 vehicles registered in the 60 counties of this region only a little more than half of them have been inspected and approved. This means that in the last few days if inspection there will be long lines of cars and trucks waiting to be inspected.

Motorists are reminded that the inspection law prohibits inspection being made when it is raining on or the streets are wet. So, it is possible that inclement weather could prevent inspection these last few days. "There will be no extension on the April 15 deadline for inspection," Johnson stated.

Anyone operating a motorvehicle after midnight April 15 without displaying a 1961 inspection sticker will be operating in violation of the law and subject to a fine not to exceed \$200.00 plus court cost.

## Wheeler County Spelling Bee Champions

There was more interest and enthusiasm in the County Spelling Bee this year than usual with a total of 24 participating in the contest and a large crowd of spectators including students, parents and teachers from the different schools represented. There were 7 schools entered.

In the Junior Division there were three who were only 10 years of age who made a good race. They were Sharon Wells and Teresa Archer from Lela and Don Tidwell of Kellerville. The good spelling Junior group went for 39 rounds, before the last two standing, who were Kathy Hudson of Mobeetie and Judy Keltner of Shamrock finally was stumped by a word. Kathy misspelled borrowed and Judy spelled it and one more word to become Junior champion.

A record of rounds, for Wheeler County was broken by the senior

group who went for 55 rounds. Two Shamrock pupils and one from Mobeetie went for a long battle of difficult words before Allen Neece was finally champion by spelling Alracadabra, the runner up, Jan Horn was defeated on the word, aborigine, Jackie Barton of Mobeetie gave them a long battle, but missed.

The pronouncer this year was Mrs. C. J. Meek of Wheeler. The three judges were: Mrs. Mary Barnes, Mrs. Margaret Trout and Mrs. Ann Gandy.

The schools represented and their sponsors were as follows:  
Shamrock — Mrs. Price Barrett, with, Seniors: Jan Horn, Allen Neece, Ann Brannon; Juniors: Evelyn Lincecomb, Pat Dodson; Judy Keltner  
Wheeler — Mrs. Harold Nash with, Seniors: Vickie Walker, James Moore;

## Seniors Find Cure For Local Blindness

After an exhaustive study, the Senior Class of Wheeler has found a cure for most of the temporary blindness in Wheeler. They found that the blindness was caused by the lack of light bulbs in the homes. To remedy this, several hundred light bulbs have been ordered and are going on sale Tuesday night at 6:30.

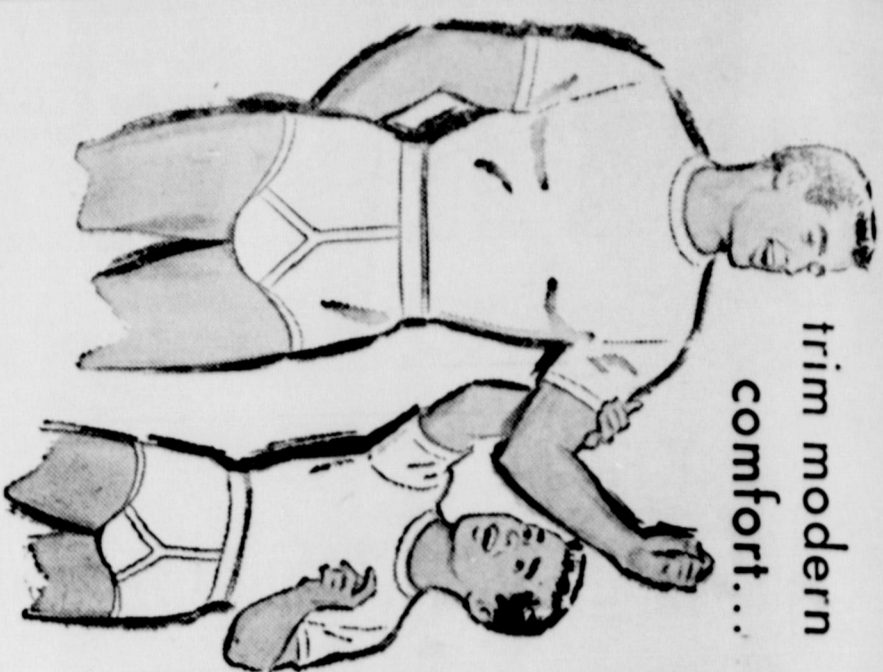

A house to house campaign will start then to help the people of Wheeler and to help the Seniors to finance their annual senior trip. There will be eight bulbs of 60, 75, and 100 watt sizes in every bag. These bags will sell for \$2.00. This is a real savings. These bulbs will not spoil, so everyone be prepared to buy some light bulbs.

## Senior Class Honored With Church Banquet

The Senior Class was honored with a banquet Thursday night at the Baptist Church. The tables were decorated with gold stripes of paper, red roses, and greenery. The meal consisted of fried chicken, potatoes, gravy, green beans, relish, tossed salad, and strawberry shortcake. The favors followed the "Graduation" theme. The place cards were rolled diplomas; the nut cups were hats with tassels; the napkins had a diploma and hat on them; and the programs had two graduating figures on them.

The welcome was given by Mrs. Harold Hill and the invocation was given by Harold Hill. The group singing was led by Rev. Joe Weldon, pastor of the Baptist Church. The Freshmen Trio, composed of Gwen Barnes, Elizabeth Wiley, and

Jane Dee Wofford, sang "Graduation Day" and "Moments To Remember." Gordon Whitener gave the benediction.

Others attending were: Mr. and Mrs. Bill Stiles, Mr. and Mrs. Wallace Johnson, Carolyn Sims, Frances Alexander, Violet Fillingim, Jerry Burgess, Joe Loter, Kenneth Burks, Ed Pitcock, Karen Henderson, David Trimble, Sue Pitcock, Harold Ford, Donald Gandy, Sharon Farris, Wayne Hill, Eileen Moore, Dorothy Hill, Kitty Hibler, David Treadwell, Troy Hunter, Marshall Watson, Clayton Bradshaw, Bob Riley, Kathleen Garrison, Janice Wegner, Mr. and Mrs. Louis Boynton, Mr. and Mrs. A. L. Cordell, Mr. and Mrs. B. Barham, Mr. and Mrs. Ed Trimble, Rev. and Mrs. Frank Ross, Mrs. Harold Lloyd Lee and Mrs. Gordon Whitener.

## Home Ec Style Show Attended By Club

"Popping Out Into Spring", dresses made and modeled by Home Ec girls, under the direction of Mrs. Gordon Whitener Home Making Instructor.

Our Girls and Fashion, the work of the hand is as honorable as the work of the brain.

After the program a reception in the Home Ec Cottage for the girls and mothers.

The Easter theme was used for table decoration. Refreshments were served during the social hour to about 85 guests. Hostesses were Zinnie Bailey, Joyce Edwards, and Norelle Vanpool.

Members present were Mrs. Bill Owens, Mrs. Orma Dyer, Mrs. Cecil Ford, Mrs. Opal Daughtry, Mrs. Lewis Lancaster, Mrs. Arling Cordell, Mrs. Irene Dyer, Mrs. Lynn Sims, Mrs. Raymond Byers, Mrs. Ebb Farmer, Mrs. C. B. Kirk, Mrs. Jess Moore, Mrs. J. C. Moore, Jr., and a guest, Mrs. Nonan Faulkner.

## 'MEASURE' UP

Come to class while the second bell is ringing. If you are counted late, declare loudly that you were in before the bell had completely stopped ringing. Teachers appreciate students like that.

Why should you bring pencil and paper? You have enough trouble just getting there.

Wad up paper as often as possible, that lets everyone know you are there.

Go to the pencil sharpener as often as you can. Make sure everyone sees your dream shirt.

When you find yourself in the hall with nothing to do, open and seal a few lockers. No one really cares if their books stay in the locker anyway.

See how many classes you can crash during the last period. The day is just about gone and you haven't been called down yet.

The point is, you must see how much you can get away with in one day.

Remember, you are young and not responsible for the things you do. Blame the teacher, your friends and your parents for your behavior!

Then at the end of the day, see how you really "measure" up!

## 'TWEEN YOU AND ME

Greetings and salutations "and all fluff". Just between us, those kids who went to the PHSPA convention had a blast with a Capital B. Dot wasn't sure she would enjoy the trip since there were only some silly underlings and dull Mr. K. going. But before the jaunt was over, Dot said that she wouldn't have missed it for the world. Don't know if it was the wit she enjoyed, or the fact that she missed a day of school!

Our poet Kelley seems to be composing again. I heard her going down the hall the other day muttering, "The maid was in the garden hanging by her toes. 'Lard came a north wind and there she froze."

Just heard the Williams the Beard had a birthday Tuesday. Maybe he is old enough to shave now!

Speaking of birthdays, Monroe Page and Fran Borden also added another candle to their cakes recently. Many happy returns to all three.

## Key Club Held Meeting

Monday, April 3, the Wheeler Key Club met with the local Kiwanis Club to hear Day Hutchinson, Lt. Governor-elect of division Six from Pampa, speak. The subject of his speech was Confusion. He pointed out how Communism has added to the confusion of the world and the United States. He also pointed out how the communists were ever trying to add more countries and people to their kind if government. The talk was enjoyed by all who attended.

## Sophomore Class

The sophomores had a class party Tuesday night in the gymnasium. The students brought refreshments of sandwiches, cokes, pickles, and potato chips. After a short basketball scrimmage, the group played folk games and then listened to records.

Adults present were Mrs. Davis, class sponsor, Mr. Killingsworth, game leader, Mr. Parks and Mrs. Bradstreet. Most of the class members were present and all those present reported a wonderful evening.

## Local Students Have Hot Political Campaign

One of the hottest political campaigns in recent history has been staged the past week in the Whigs and Tories, the two political parties of Wheeler High School, have been engaged in a mud-slinging, name calling contest that would lay the most talented politicians in the shade.

Larry Levitt was selected as standard bearer for the Tories while the Whigs placed their hopes on G. C. Baker as their presidential candidate. In the special assembly held for campaign speeches, Jerry Burgess, Tory manager, stated, "There's no use telling you what all Larry has done, because most of you have been with him and have seen him do it." "It doesn't matter what party you belong to," Jerry continued, "just so long as you vote for Larry for President, Bill Green, manager for the Whig presidential candidate proved that dynamite does demerol in small packages when he bounded to the platform and demanded of

the voters, "What kind of student council will Larry Levitt make for Wheeler High School when he is always in Shamrock!" Presidential remarks with "I suppose you're aspirant, Baker, closed his brief know how important this position is." And quickly from somewhere in the audience came the unheeded reply, "Yeah, that's why we want Levitt!"

Whig Gwen Barnes was given a boost in her bid for song leader by her campaign manager, Jane Wofford, and an old pro at political speechmaking, Annie Riley, Tory candidate for song leader, was over come by bashfulness after being introduced by Peggy Henserson and was unable to make her speech.

Tory Elizabeth Wiley and Whig Carol Gandy were introduced by Fran Borden and Dorothy Hill respectively and each used all the persuasive powers at her command in an attempt to "brain wash" the voters.

## Senio. News

The Seniors are going to be selling light bulbs Tuesday night April 11 at 7:00. The money will be used to help finance the senior trip.

At a recent class meeting, the seniors decided to go to Rockaway Beach, Missouri, rather than to New Orleans as previously planned. They will leave on May 19 and will be accompanied by Mr. and Mrs. Louis Boynton and Mr. and Mrs. Harrison Hall.

The seniors also voted to leave a gift of one-hundred dollars to the school to be used to build a trophy case in the gymnasium.

Dorothy Hill entertained eight members of the senior class and seven guests in her home recently. Refreshments of snacks and cokes were served after the group had an enjoyable evening of fun.

**THRIFTY WEST COOK IN TOWN!**

That's you — when Reddy's your helper. The real cooking economies come from an electric range. Because electric roasting needs no air, it doesn't draw the moisture from your oven when you're roasting. Result? Less meat shrinkage — more for your meat dollar.

Again — because electric heat is accurately measured — you use less water when cooking vegetables. Result? More minerals and vitamins stay in the food — less heat is used to bring the smaller amount of water needed to a boil. Savings for you once more.

And finally — the big economy from the cleanliness of electric cooking. You won't have to wash your walls and curtains as often — and you'll stretch out the time between painting and decorating expense.

Thrifty cooking? Of course, it's electric.

### Hefley Is Candidate For Area I President

David Hefley, son of Mr. and Mrs. Loyd Hefley of the Briscoe Community will be a candidate for the office of Area One Future Farmer President. The first election will be held in Pampa, April 18 at the high school. David has been an outstanding student according to his Vocational Agriculture Teacher, Mr. Jacobs. David has attended the National FFA convention in Kansas City, and also plans on applying for his Lone Star Farmer Degree this spring. David also has been on the Live-stock Judging teams, Master of Ceremonies at the FFA and FHA banquet. This year he is serving as District President of the 13 schools in this area. David also has been on the basketball team and active in track work. The District Seward will also be chosen at the District Meeting. Briscoe has entered Miss Kay Vise as the chapters entry.

### Allison FFA Boys Go Shop Training

The second and third year agriculture students in the Allison Vocational Agriculture Department are at the present time engaged in practical farm shop work that of painting farm tractors. It cost approximately ten dollars for materials, and according to a local implement dealer it will raise the value of the tractor from one to two hundred dollars. The students that have their tractors in the farm shop at the present time are Donnie Evans and Roy Duke. Other students plan on painting their tractors when these first ones are finished. The school has a paint gun and air compressor which makes the work very satisfactory.

## TWITTY NEWS

By J. Lloyd Rice

We had a lot of visitors at the Church of Christ in Twitty Sunday, and a very interesting service at 7:30 Sunday evening.

Please note a change in the time of our summer meeting. It will be from Aug. 21 to 27 inclusive.

Brother Grandol Forehand, a fine young preacher from the 13th and 16th Congregation in Wellington will be our evangelist.

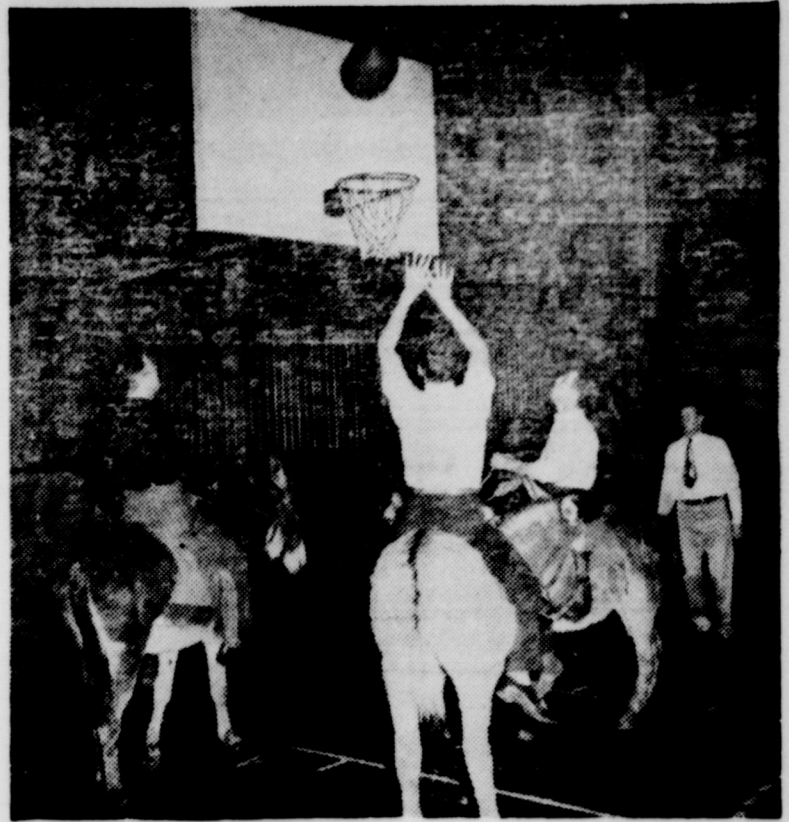

Mark that date on your calendar so you won't forget to be there. Mr. and Mrs. Virgil Clay, old timers of Twitty, were visiting us Sunday morning. With them were one son and two daughters and their families.

Haskell Sammons and Edgar Baker started to For" Worth Sunday night after church on a cattle buying expedition, but we learned that they failed to buy any cattle down there Monday and were heading for Lubbock to have a look up there.

Mrs. Rice is still in San Angelo (at this writing Tuesday. At noon.) She reported by telephone that the doctor had decided that her father did not need surgery, and would be able to leave the hospital maybe Tuesday of this week.

We, Sherry and me, especially, hope so.

## Troy Jones Is Released From Rehabilitation Center

Troy Jones, son of Mr. and Mrs. Harold L. Jones, Route 1, Wheeler, was discharged March 27 from the Texas Rehabilitation Center, Gonzales Warm Springs Foundation. He is now a member if the Former Patients Association made up of the more than 3,000 persons who have undergone rehabilitation treatment at the Center. This is the only such organization in the United States.

In comprehensive rehabilitation at TRC, a skilled medical staff seeks to treat the entire person.

An individual program is prescribed for each patient, utilizing the types of therapy suited to his needs. The goal is maximum rehabilitation — physically, emotionally, and socially — so the person can live and work to the best of his abilities.

The Texas Rehabilitation Center depends mainly upon public contributions to maintain its program of treating persons left handicapped by such diseases and accidents as cerebral palsy, multiple sclerosis, polio, muscular dystrophy, spinal cord injuries, arthritis and strokes.

Any Texan who can benefit from TRC's medical program is eligible for admission, regardless of age, race, or beliefs.

Guests in the home of Mr. and Mrs. Marvin Pierce over the weekend were their daughters, Mr. and Mrs. Tom Whilson and family, Miss Ader, and Patricia Pierce of Amarillo.

Mr. and Mrs. Earl Smith from Silvano Springs, Ark., a teacher in John Brown University visited Dr. and Mrs. C. C. Merritt.

Mr. and Mrs. Louis C. Stas and Ronald Wayne spent Sunday in the home of their parents, Mr. and Mrs. Eugene Stas of Calumet, Okla., and Mr. and Mrs. Francis Porter of Hinton, Okla.

### Executive Committee Met Monday Evening

Ten members of the executive committee of the Wheeler County Chapter of the National Foundation met Monday evening at Nora's Cafe in Wheeler. Mr. Harry Wolford made arrangements for a good meal for all present. After the food had been properly taken care of the committee got down to business.

Mr. Wolford, the chairman explained the purpose of the meeting, and the great need that the Wheeler Chapter of the National Foundation keep operating. The first business was the election of officers.

The present chairman, Mr. Wolford was elected by acclamation. He then explained that we must elect a vice chairman. Mr. Paul Macina, Sr., was quickly re-installed in the position.

Mr. Flake George has served the organization in the past as treasurer, but Mr. George is seriously ill, and some one else had to be elected to relieve him. The vote fell unopposed on Mr. John Cullers, assistant Post Master of the Shamrock office.

Lloyd Rice of Twitty was elected secretary.

There are at present four victims of Polio in Wheeler County that the local chapter has helped, and will continue to help as the need arises. It is imperative that work be done. The fight against Polio still goes on, for people still have that dread disease.

### To All Law Enforcement Officials:

America, historically in impenetrable fortress against tyranny, is engaged in a mortal struggle with both communism. It is time for both citizens and governmental authorities to confront this threat in a calm, realistic, rational, law-abiding manner.

The ingredients for communist coups in nations which have fallen under its spell always include a populace shaken with fear, hysteria and confusion. Above all, however, is the danger of irresponsible counteraction by citizens who lead to communism through inept attempts to fight this insidious menace.

The leaders of worldwide communism proclaim that even America can succumb to the "rules of revolution" conceived by Karl Marx and galvanized into the first successful communist revolution by V. I. Lenin.

Lenin said, "The more powerful enemy can be conquered only by exerting the utmost effort and by necessity, thoroughly, carefully, attentively and skillfully taking advantage of every, even the smallest, rift among the enemies."

There exists today in our land a vital "rift" which communists are exploiting. Unfortunately, this involves certain people across the country who engage in reckless charges against one another. The label of "communist" is too often indiscriminately attached to those whose views differ from the majority. Those whose lives are not led according to what one segment of society might decree to be the "norm" are too frequently challenged as "Red's".

Attributing every adversity to communism is not only irrational, but contributes to hysteria and fosters groundless fears. Communism is, indeed, our paramount adversary, and it leans on its credo of invincibility and a concept of historical inevitability to accomplish its ends. The way to fight it is to study it, understand it, and discover what can be done about it. This cannot be achieved by dawdling at the pring of knowledge; it can only be accomplished by dipping deeply into thoughtful, reliable and authoritative sources of information.

The job of curtailing and containing communism is one for legally constituted authorities with the steadfast cooperation of every loyal citizen. This is neither the time for inaction nor vigilante action. We must unite as a people, we must understand our basic American heritage under law, and we must face the communist menace with deliberation, quiet courage, and knowledge. These are the qualities which communism shrinks from. These are the qualities against which communism can never succeed.

Very truly yours  
John Edgar Hoover,  
Director

# Did you know Gasoline is Taxed at a Rate 5 Times as High as Diamonds?

## IN TEXAS, YOU PAY 90¢ TAX ON 10 GALLONS OF GASOLINE

Gasoline taxes will be lowered— if the latest temporary Federal gasoline tax increase expires on June 30th as scheduled by the 1959 Federal Highway Act.

Along with all good citizens, we are in favor of building the roads that the motoring public needs. But, in the last 10 years alone, Federal and State taxes nationwide on gasoline have skyrocketed 51%—skyrocketed to a point where gasoline, a basic commodity, is actually taxed at a rate five times as high as luxuries like diamonds and mink coats.

Must gasoline taxes be so high? Most people believe that gasoline taxes are high because the money is needed to pay for our national highway program. This is not so.

The fact is that out of every highway-user tax dollar collected last year by the Federal government, more than 40 cents was diverted to non-highway purposes.

If these highway-user tax revenues were spent for highways—as they should be—gasoline taxes could be lowered, and the highway program given a boost.

In fact, the Federal-Aid Highway Act of 1959 provides that when the added temporary Federal gasoline tax expires on June 30th, 1961, as scheduled, some \$802 million a year in highway-user taxes—now diverted to the U. S. Treasury's general fund—will instead be deposited in the Highway Trust Fund.

As a result, if the latest Federal temporary gasoline tax

increase expires on June 30th as scheduled—the national highway program will actually get \$225 million more each year than it now receives from the latest Federal temporary gasoline tax increase.

In January of this year, after an exhaustive 2-year survey of national transportation policy, a special U. S. Senate study group confirmed the wisdom of this decision.

This will be good news for you. You will be able to enjoy a steadily improving highway system, at a lower gasoline tax-rate.

### HERE ARE THE FACTS ABOUT TODAY'S HIGH GASOLINE TAXES

- In Texas, you pay 90¢ tax on 10 gallons of gasoline.
- You pay 9¢ tax a gallon—4¢ in Federal taxes plus 5¢ in State taxes.
- Gasoline is taxed at a rate 5 times as high as diamonds.
- The average Texas motor vehicle owner pays \$78 a year in gasoline taxes.
- Since 1951 there have been three increases in the Federal gasoline tax alone.
- In the last 10 years, gasoline taxes nationwide have skyrocketed 51%—yet the national average price of gasoline itself has risen only 5.5% during the same period.

# - The Feed Grain Program -

Voluntary. Each producer decides whether to cooperate. 1961 only. This program applies only to 1961 crops.

Corn and grain sorghums. The program applies to all field corn and grain sorghums whether for grain, fodder or silage.

Divert at least 20 per cent of acreage. Cooperators will divert at least 20 per cent of their 1959-60 average acreage of corn and grain sorghums to soil conserving uses, and they may divert additional acreages.

Price supports and payments. In return, cooperators are eligible for price supports on corn and grain sorghums and on each acre diverted. The payments will be in the form of negotiable certificates for which producers may receive grain or a cash equivalent of grain. The national average support prices for feed grains are as follows: Corn, \$1.20 per bushel; grain sorghum, \$1.93 per cwt.; barley, 92¢ per bushel; oats, 62¢ per bushel; rye \$1.02 per bushel. Support prices will be established for each county.

Advance payments. Half of the estimated total payment for a farm will be offered to the producer as soon as he signifies that he will cooperate in the program.

No price support for non-cooperators. The non-cooperator will not be eligible for price support on corn, grain sorghum, oats, barley, or rye of the 1961 crop. The non-

cooperator cannot depend on the government price support and his neighbor's production adjustment to hold up the market price for his corn or grain sorghum production. On the contrary, as cooperators receive payments in the form of negotiable certificates which represent grain from Commodity Credit Corporation stocks, this grain becomes available for market and farm use in competition with grain from 1961 production. It works like this: Cooperators who wish to receive the cash equivalent of grain at the support price may ask the Commodity Credit Corporation to act as their agent in marketing their grain. As agent for the producer, Commodity Credit Corporation will advance the payment to the producer in cash through the county ASC office and subsequently market the grain.

The non-cooperator will get nothing but the market price, whatever it may be. The non-cooperator is not only ineligible for feed but foregoes the usual price benefits of a production adjustment grain price support and payments program as Government stocks of grain are marketed.

Use of Surplus. Through the payment-in-kind feature of this program, reduction in the acreage and production of grain sorghums will be accomplished by a reduction of Government stocks. These stocks are so large that, at the current rate of disposition, it would take CCC nine years to

move them into use. Thus, on a first-in first-out basis, grain acquired by the CCC in 1961 crops would be stored nine years before CCC could begin to dispose of it. Under the old program, with corn price support at a national average of \$1.05 estimated cost to the taxpayers would have been approximately \$600 million for acquisition of 1961 and prior crop released and \$959 million for storage, handling, transportation and interest costs during the 9 to 11 years prior to disposition, a total outlay of \$1-1/2 billion. The Commodity Stabilization Service estimates that between \$400 and \$600 million of the carrying charges that would be paid on acquisitions under the old program before ultimate disposition will be saved under the new program through reduction of net acquisition by the CCC from 1961 crops.

Related statistics: Government loan and inventory stocks of feed grains total approximately 3 billion bushels and represent an all-time record high investment of over \$4 billion. The total supply of feed grains this marketing year is at a record high of 244 million tons. The heavy stocks, plus the prospect of further excess production under the previous legislation, threatened to cut net farm income, which has already fallen from \$16 billion in 1951 to \$12 billion in 1960, and to bring about a chaotic expansion in hog, poultry

and other livestock production. Wide swings in grain prices and livestock production have in the past proved costly to both producers and consumers.

## What the Cooperator Does

To be a cooperator, the producer does the following:

1. Reduces his acreage of corn and grain sorghum below his 1959-60 base by a minimum of 20 per cent, and he may elect to divert additional acreage within certain limits where the minimum amounts to less than 20 acres, the producer may elect to divert for payment actual computed minimum or up to 20 acres. If the farmer has a 1959-60 base of 20 to 100 acres he can divert as much as 20 acres plus 20 per cent of his base. The producer who has 1959-60 average acreage of 100 acres or more may divert for payment as much as 20 per cent more than the minimum 20 per cent, making a total of 40 per cent.

2. Devotes the diverted acreage to a conservation use and certifies that this is in addition to the 1959-60 average acreage devoted to a conservation use on the farm. Approved conservation uses of the diverted acres will vary by areas. In general, such uses include approved cover crops, trees, water storage and wildlife practices. The diverted acreage may not be harvested or pastured.

3. Controls weeds, insects, and rodents.

## What the Cooperator Receives

The cooperator receives the following benefits:

1. Price support on the normal production of his 1961 corn or grain sorghum acreage. The national average corn support price will be \$1.20. In most counties the support price will be about 14 cents a bushel more than 1960. The national average support price for grain sorghum is \$1.93 per cwt., 41 cents a cwt. higher than in 1960.

2. Payment for each acre diverted to a conservation use. The payment rate per acre for the first 20 percent diverted will be established on this basis:

50% of the normal production of the acreage diverted X the county support price.

(For farms on which the base is less than 100 acres there may be additional diverted acres to which this rate applies.)

As an additional incentive, for an additional 20 per cent of acreage diverted, the rate will be established on this basis:

60% of the normal production X the county support price.

Normal production for the purpose of making the payment will be calculated by adjusting the county average yield according to the productivity of the farm.

Example: Where the county support price for corn is \$1.20 and a farm's normal production is 70 bushels per acre, the payment rate per acre for the first 20 per cent diversion would be:

50% of 70 or 35 X \$1.20 or \$42

County ASC officers will notify farmers of the rates to be used in making payments.

3. Advance of partial payment. The producer may be paid prior to "determination of performance" 50 per cent of the total payment of which he will become eligible by carrying out the program. Wherever possible, these advance payments will be made at the time the producer signifies his intention of cooperating. This advance payment will help the producer meet his production expenses and is expected to be an important incentive for cooperation.

4. Effective protection in case of crop failure. The payment on the diverted acres is income regardless of what the weather does to crops, and this is a measure of income insurance. Price support for corn and grain sorghums at rates considerably above current market prices also has an income insurance effect.

## What the Non Cooperator Misses

The non-cooperator will forego the benefits received by cooperators as follows:

1. He will not be eligible for price support on any feed grain (corn, grain sorghum, oats, barley, rye) of the 1961 crop. He will get only the market price, whatever it may be.

2. He will receive no payment under this special program. With payments-in-kind adding to marketable supplies of feed grains, the non-cooperator should not count on the advantage he might otherwise derive from staying out while others participate in a production adjustment program.

## Problem or Solution

The feed grain problem is serious. Recognizing this, the producer may ask: "Am I part of the problem? Or am I part of the solution?" By cooperating, the individual producer can:

1. Help raise farm income for himself and other cooperators.
2. Reduce government costs.
3. Start working off the CCC's excessive inventories of feed grains.

Note: The non-cooperator should not expect to build up his acreage base for future programs either. The Department of Agriculture will strongly recommend to the Congress that any legislation involving establishment of base acreages for production adjustment should give no advantage to producers who fail to cooperate in the 1961 feed grain program.

Mr. and Mrs. Howard Cruise and Mr. and Mrs. Ervin Patterson of Pampa were visitors in the home of Mr. and Mrs. Bob Patterson over the weekend.

## HIGHLIGHTS AND SIDELIGHTS FROM YOUR STATE CAPITOL

Austin, Tex.—Texas Senate now has a tax bill — one designed to wipe out about half the deficit that is expected to be about \$63,000,000 when the new fiscal year starts Sept. 1.

Revenue-raising measures must be passed by the House before they can be considered by the Senate, and the upper chamber has waited with polite impatience for the House to send it something to work on.

Passed 85-to-60 by the House was the so-called "loophole bill" by Rep. Charles Ballman of Borger.

It is a sort of catchall bill that (1) plugs some leaks in the revenue bill passed last session, taxing central air conditioners, juke boxes, etc.; (2) provide for a transfer of 1 per cent of the permanent school fund to the available school fund; (3) sets up a two-factor formula for corporate franchise taxes and (4) levies a state gift tax of one-half the federal gift tax.

Captain of the Ballman bill is broad enough that a variety of other money raising plans could be added to it should legislators be able to agree to them. Meanwhile, the House Revenue and Taxation Committee still has a lot of other tax bills in the mill. Three sales tax bills were sent to subcommittee, as well as a hotly debated proposal to levy a 10 per cent tax on trading stamps.

A trading company spokesman said there is only a three percent profit on the operation and that a 10 per cent tax would put them out of business.

On the other hand, stamps were attacked as "counterfeit money" and an unnecessary burden on both merchant and consumer.

Strike Three — Texas Supreme Court made short work of a 1959-passed tax law that many lawmakers had hoped would be a potent future revenue raiser.

Without issuing an opinion, the high court agreed with the trial court and civil appeals court that the severance beneficiary tax on gas is unconstitutional.

Although three state courts have turned thumbs down on the gas tax, the last chapter remains to be written by the U.S. Supreme Court. As passed in 1959, the gas tax was low (1 1/2 per cent of market value), but supporters had indicated that if the law survived its court battles, the rate would be raised to bring in more money.

Ladies Score In House — House has passed and sent to the Senate a proposed constitutional amendment that would automatically erase all statutes that treat women differently from men.

Rep. Ben Atwell's very brief amendment states that: equality under the law shall not be denied

or abridged because of sex." It passed the House 135-to-10.

Senators have misgivings about causing such sweeping changes in the law. Some 44 statutes would be affected.

Loan Fight Shapes Up — House members are coming to grips with one of the session's touchiest issues — regulations of small loan companies.

House Committee on Banks and Banking reports to the floor a bill authored by Rep. Criss Cole of Houston. It is being subjected to widespread criticism, but Cole, long-time veteran of the loan regulation effort, declared that no bill was going to satisfy all the interested fractions.

Cole's bill sets up a sliding scale that would allow interest rates of just under 40 percent on loans of \$100 and dropping gradually to about 11 percent on a \$3,000 loan. It also allows for "reasonable insurance charges," at rates set by the State Board of Insurance.

Albion McCall of Waco, spokesman of a statewide committee for sound loan laws, said the interest rates were too high and that the limit on credit insurance charges should be clearly defined.

Breweries (Pro & Con) — Legal restrictions on breweries and the desirability of having breweries at all came up for spirited discussion before the Senate Affairs Committee.

Rep. Don Kennard of Fort Worth is author of the House-passed bill that would give brewers of ale the privilege, as beer makers, to continue their operations in a territory after it is voted dry. It would also increase from one year to three the time allowed a brewery to begin production after it got its license.

A large out-of-state manufacturer of ale is planning to build a \$20,000,000 plant in Tarrant County. Any change, would affect the whole state.

Supporters of the bill would create the new jobs and permit ministers and church leaders to clarify it would contribute to the problems of alcoholism.

Phone Rates Studied — The State Affairs Committee is studying a bill by Rep. Ray Strawn of Campbellton that would regulate the rate of telephone service in the state's borders, in the case of the Texas Railroad Commission.

Representative Struve says as is one of two states that have this sort of regulation, that other states have lower rates.

Other witnesses testified long distances call within the borders costs more than the same distance that crosses the state line.

Pre-Paid Funerals Debated — Funeral directors and crematorium operators clashed before both the House and Senate committee bills to restrict pre-paid funeral arrangements.

Funeral directors declared their only desire was to protect the public by requiring that money paid in advance for funeral services be put in a trust fund.

Cemetery and mortuary operators wanted to discourage paying of funeral expenses. They contended that families who make funeral arrangements at the time of bereavement spent more money than if arrangements are made in advance.

Short Sniffs — A last minute Senate indication that Sen. Tom Hardeman's proposal to change the Court of Criminal Appeals transfer its duties to the State Supreme Court, is short of support for passage.

Corvair 700 Lakewood Station Wagon

Monza Club Coupe

One of these Chevy Corvairs wants

# YOU

(in a friendly way, of course)

Either of these Corvairs would make you a wonderful traveling companion. (Any of Corvair's ten budget-priced models would, for that matter.) The Lakewood Station Wagon earns its keep with a solid 68 cubic feet of cargo space, 10 of it under that lockable hood. And the Monza Club Coupe, with its bucket-type front seats, lets you in on some ultra-comfortable driving.

And they both handle and brake and perform beautifully. (Proof of the pudding is the way the '61 Corvair manhandled the recent Canadian Winter Rally, winning outright and taking the first five places in its class in this rugged 1,265-mile test.) Look 'em over at your dealer's. And if you can't decide which one you want, feel free to take both.
