THDA Members To Attend Meet

Three members of home demonstration clubs in Wheeler County will attend the annual Texas Home Demonstration Association (THDA) conference September 20-22 in Galveston. Those attending from Wheeler County are Mrs. Porter Rogers, Briscoe H. D. Club; Mrs. Jack Winslett, Shamrock H. D. Club and Mrs. Sam Schaffer, Wheeler H. D. Club.

Among highlights of the meeting are keynote addresses, educational workshops and social

Education workshops during the meet will include sessions in health, safety, family life, citizenship, cultural arts and 4-H.

From those workshops, members will bring background, teaching methods and actual subject matter for developing local programs in Wheeler County.

Organized home demonstration and Extension Homemakers Education (EHE) clubs now have 22,000 members in Texas. A 1973 national survey reported national membership at 600,000 -to total a larger membership than any other women's organization in the United States.

According to home demonstration guidelines, members are organized to improve family and community life through the study of health, food, clothing, housing furnishings, money management and family life.

In 1973, they shared that information with 100 million youth and 200 million adults nationwide by serving as volunteer instructors of individuals and community groups in their own counties.

In Texas they also donated time and services to 50 different projects. Most of these projects were in health and safety and community improvement along with programs for 4-H and other youth and older adults.

In addition, they contributed more than \$10,000 to improve community centers-and they provided \$8,700 in scholarship funds for youth.

COUSINS REUNION

Mr. and Mrs. Gwyn Edwards spent the weekend of the 28th August visiting friends and relatives in Missouri. They attended a cousins reunion of Mrs. Edwards Cousins. 108 attended and there was lots of good food. They reported really enjoyed getting away for a few days.

What is

WELLNESS?

It's a lot more than not being sick.

"The preservation of health is a duty. Few seem conscious that there is such a thing as physical morality."

> Herbert Spencer 1900

An important message to our customers.

The House of Representatives has just voted to raise the price of your electricity! And the Senate is looking at the same Legislation. These bills are going to cost you plenty - nearly \$50,000,000 a year for the next ten years. That's almost

Who cares? Of course you care. And we care. That's the reason we want you to know what's happening in Washington Not only did the House vote to raise your electric bill, there's a strong chance you'll get less reliable service, too. The Government is trying to take over regula-

tion of your electric company. That's right! A Washington bureaucrat will decide who gets electric power and how much instead of your state and local officials. That means your electric company will lose control over how we operate our own power transmission lines and facilities. We might not be able to give you our customers - first priority. The Federal Government could use some of the money you pay for your electric service to make your electric company build a transmission line for a government-subsidized utility. You pay twice that way

in your electric bill and in your taxes. And you don't even get to use the line. Let's not beat around the bush. The cost of doing business is going up. It costs you more for your electric service than it used to. But now when you pay your electric bill, you pay only what it costs to serve you, plus a controlled profit, so that we can keep updating our generation facilities and our technology to keep serving you better

Well, if some Congressmen have their way, some people will pay less than their fair share of the electricity cost. Who will decide who gets the special rates? You can bet it won't be you . . . or us . . . or our state and local government who know our needs best.

It will be some government official in Washington! There's a whole lot more bad news in this legislation that has passed the House and is now being considered in the Senate. It's all part of Senate Bill 1469, Part E. . . and . . . Now for more bad news . . . Senate Bill 1472!

That's a dandy. It's the one that taxes you because some of your electricity is generated with natural gas. The gas users' tax is a case of the Government telling us to build coal-fired power plants faster than you can afford them

there was an energy crisis and decided to try to right all the wrongs over night. The facts are that your electric company has been doing something about our diminishing natural gas reserves for more than six years. We haven't planned of constructed a gas-fired generation facility since 1971. And since that same time we've been planning to use coal as our primary generation fuel. We've just completed and put into operation Harrington Station - a coal-fired Generation plant But we need the opportunity to phase out the gas-fired facilities at a savings economical to you, our customers. New power plants cost money . . cost you

It's as though the folks in Washington just woke up one day and decided

money, because you are our only source of money. We have a program that makes it possible for us to stop using natural gas to make electricity by 1995 at It's a program you can afford. It's a program that will help alleviate rising costs. Sure, you'll pay more for electricity in the future. You'll be paying more

for everything, but under our plan you'll pay a lot less than you'll have to pay if Senate Bill 1472 passes. \$423,000,000 less between 1983 and 1990. Why? Because Senate Bill 1472 says that even though we are building

coal-fired power plants as fast as you can afford them, you're still going to be penalized, by almost a half billion dollars. Just because some staff member in Congress thinks you should build them faster. And remember it is your money

The Good News in all this is that your Congressman voted against raising your electric bill, voted against giving you poor service . . . but he was outvoted. Now what you can do is write your United States Senator (His name and address are printed below for your convenience) and tell him to vote against Part E in Senate Bill 1469 and against the gas users' tax in Senate Bill 1472. Why? BECAUSE YOU CAN'T AFFORD THESE BILLS. And that's a darn good reason. Let the people in Washington know that YOU CARE what they're doing with YOUR MONEY!

Thank you

MIAMI LIONS GARAGE SALE The Miami Lions Club, on

Saturday, September 10, is having a garage sale, lightbulb, and broom sale for the Caravan for the Blind. The sale will be at the fire station in downtown Miami. Anyone having an antique or rare item which you would like to sell may be sold through this sale by the Lions for a commission of the selling price. Anyone wanting information on this sale may contact President Charles Bailey, or Cecil Gill. All proceeds from these projects are used on community imrovements, the Hi-Plains Eye Bank, Girls Town and Care Program. The past year the Club worked on the football bleachers, Little League baseball equipment, and uniforms. A Marquee sign was purchased for \$1,200, and placed on a downtown building for citizens to use for announcing activities of the community.
