### Library Receives New Books

The Texas State Library System books have been arriving this past month and many are processed and ready to be checked out. New books are: "Women of Value", "Men of Renown" by Weiner; "Turquois" by Pogue; "The Vanishing Race"; "The Last Great Indian Council" by Dixon; "Audubon's Western Journal" by Audubon; "Hopi Katinas"; "Drawn by Native Artists" by Fewkes; "The Boat Who Wouldn't Float" by Mowat; "Pomo Indian Basketry" by Barrett; "Navaho Weaving"; "It's Technique" and "History" by Amanden; "A Journal to the Rocky Mountains in the Year 1839" by Wislizenus; "Mémorial of A Tour to Northern Mexico" by Wislizenus; ten volumes of "Life History of the United States" by Time Life Books; nine books in Sports Illustrated Series; "Skiing" by Jerome; "Volleyball" by Robinson; "Table Tennis" by Miles; "Tennis" by Tulbert; "Skin Diving and Snorkling" by Allen; "Powerboating" by Gibbs; "Football Offense" by Wilkinson and "Football Defense" by Wilkinson. Other books will be listed later on.

Two other books were sent to us because we are a Library System member. They are: "Alvin M. Owsley of Texas"; "Apostle of Americanism" donated by Mrs. Am. M. Owsley and "Texas Sampler" donated by the Governor's Committee on aging.

Books have also been received from local donors. Six adult fictions were donated by Mrs. Bill Owens, one adult fiction by Mrs. Carroll Adams, 44 adult fiction donated by Mr. Ray Alexander, three children's fiction by Mrs. Guthrie, 74 juvenile and adult fiction were donated by Steve Gaines and 28 paperbacks from an anonymous donor.

Do come in and check some of these books out. We know you will find several you can enjoy.

### Management Cuts Wind Erosion

For most of the Texas Panhandle, this has been a poor fall for wheat pasture. A combination of factors has contributed to this slow start, among them early freezes and too little moisture. Both dryland and irrigated wheat appears to be about two months behind in its normal growth. But cattle are being packed onto some of these same wheat pastures in about the same concentrations as in good years. This can lead to a few problems.

To begin with, the roots grow in about the same proportion as the tops. If the tops are short, the roots will be shallow. Heavy grazing of wheat in this early stage can decrease grain yields to a certain extent, and the shallow root growth can hamper the water uptake of the plants.

Another problem that will be showing up on these areas for the next few months in wind erosion. Wheat is one of the best wind erosion protection crops known, if proper height is maintained. But when wheat is grazed heavily it can't hold the soil in place and the resulting sandstorms rob the land of tons of valuable topsoil. It is not unusual for an unprotected field to lose fifteen to twenty tons of soil each year from wind.

If wheat is not grazed until it begins to stool, and a minimum two to three inches height is maintained while grazing the wheat, the soil will be adequately protected from wind erosion, and grain yields will not be affected.

**TODAY'S YOUTH:** Pictured above are the youth of today; they are named left to right and top to bottom. Julie and Melinda Davidson are the 2 and 7-year old daughters of Mr. and Mrs. Charles Davidson. Clint, 2 1/2, and Shirlee, 8 mo., are the children of Mr. and Mrs. Jerry

Glazner. Shawn, 2, and Shelly, 10 mo., are the children of Mr. and Mrs. Melvin Hunt. Casey, 2 1/2, and Craig, 11 mo., are the children of Mr. and Mrs. Kenneth Lovell. James Brent Babb is the 6-year-old son of Mr. and Mrs. James Babb.

### Telephone Excise Tax Reduced

Telephone customers across the nation will get another of continuing tax breaks this year as the excise tax on telephone bills will be reduced another 1 percent during 1977, from 6 per cent to 5 as a result of the fifth step of a 10 year reduction.

The tax elimination was enacted as part of the Excise, Estate and Gift Tax Adjustment Act of 1970 which called for successive one percent reductions in the excise tax on telephone bills on the first of each year until the tax expires on December 31, 1981.

General Telephone customers paid an estimated \$2.5 million less in Federal Excise Tax on telephone bills during 1976 because of the 1 per cent reduction in the tax beginning Jan. 1, 1976. Based on the 1976 excise tax on 6 per cent, General Telephone will have collected for the Federal government an estimated \$15 million from customers by the end of 1976.

Telephone customers across the nation will save approximately \$275 million at the lower 1977 rate, compared to what they would have paid had the tax remained at the 1976 level of 6 per cent, according to estimates by the U. S. Independent Telephone Association. Some \$51 million of that amount will be saved by customers of the Independent telephone companies.

Congress first imposed the tax on telephone bills during World War I as a "temporary" measure. Although repealed briefly after the war, it was reinstated during the Depression and at one time rates were as high as 25 percent on long distance calls and 15 per cent on local service.

The Independent Telephone Association says the tax has cost consumers billions of dollars and estimates the U. S. Treasury will receive almost \$2 billion from the levy in 1977.

On behalf of its customers the telephone industry fought the tax, calling it regressive and citing the unfairness of taxing a basic necessity—especially for the poor and elderly.

## 24-HOUR DISPATCH TO HANDLE ALL EMERGENCIES

The Wheeler County Sheriff's Department is now operating a 24 hour dispatch system for

Wheeler and surrounding communities. The system, which has operation of the Sheriff's De-

partment as its main purpose, is also intended for use by the public.

The system is presently located at the Sheriff's office in the courthouse. The operation is manned by five people, three full time and two part time. As soon as possible, the entire dispatch office will be moved to the jail.

The number for the dispatch office is 826-3211. This number can be called for any reason; you will be given the assistance you need.

Working full time on the system in Myrtle Doman, Jack Hiett, and Carrol Delderman. Steve Gaines and Gary Davis are the weekend operators.

## Council Meets, April 2 Election Called for Wheeler

The Wheeler City Council held their regular monthly meeting Monday evening, January 17. TML meeting, TV Franchise, Library, Water and Sewer Department, Budget, and upcoming election were the topics of discussion.

The Texas Municipal League will meet Thursday, January 20 in Amarillo. Members of the Wheeler City Council were invited to attend.

The council approved the assignment of a 15-year TV franchise to N. D. Ware, Jr. Ware recently purchased the system and began operation shortly before January 1.

A progress report on the Library was presented. The council gave the front part of the Old Hospital to the Library Board in the summer of 1976 for the purpose of relocating the Wheeler Public Library. The board has succeeded through a fund drive and donated labor in clearing unwanted partitions, rewiring and replacing deteriorate floors. They are now ready for paneling, the new ceiling and carpeting. Additional money is needed to continue the project; the group continues to accept donations.

Jerry Hefley reported on the operation of the Water and Sewer Department. The main difficulty in the department has been the thawing of water lines.

The report on receipts and disbursements for the month of December was presented. Richard Wallace went over the account with the council and explained how it affected the budget.

The council adopted a resolution to set order of election

Saturday, April 2. Three councilmen and the mayor are to be elected. The elected mayor will serve only one year; he will be filling an unexpired term. Council positions to be filled will be Places 1, 3 and 5. Place 1 is presently vacant due to the resignation of Charlie Wagner; no one was appointed to fill this place. Place 3 and 5 are presently occupied by Bill Owens and Delbert Thomas respectively.

Filing deadline is March 12. Anyone interested in filing for Mayor or any of the three places on the council may do so at the City Office.

### Here & There

By Laura Guthrie

There is one word that will describe all the weather that we have had for several weeks. COLD! And did you hear what I heard on TV last night? Some scientist is thinking that we are drifting back into the Ice Age, getting on with it since 1945. Well, what can we do about it? I've always understood that we can't do anything about the weather.

I still have trouble with my arm and hand. I believe typing is about as painful a job as I do. Then my typewriter has been out of order. (I must thank Dolores at the News office for the use of hers.) But I drove to Pampa Tuesday and got mine fixed. Now I have no excuse for dilly dallying with this job. I'm going to get fired if I miss another issue of the paper.

But really I don't have much to report. We are having post holiday slump. There are just a few things that I must report.

Soon after Christmas Mary Finsterwald and Grace Porter took a bus tour to California. A group of people on such a tour can have a lot of fun. They stopped over night in Las Vegas and saw a show. In California they went to the Rose Bowl Parade, then saw a Lawrence Welk performance in Hollywood. (I'll let you in on a little secret. They said that it is much better to watch it on TV.) Then on return trip they traveled through Nevada and to El Paso, Texas. They felt wonderful when they got home.

Florence George is another one who has had a flight to California. She visited with her sister at Santa Rosa for over three weeks. On her arrival in Amarillo Monday her twin brother, O. L. Rankin, who lives in Hereford and his wife met her. A stepdaughter and her husband, Mr. and Mrs. Bob Curlee of Canyon also came to the airport so they had a short visit before the Rankins brought Florence home. They spent the night.

I've been very fortunate to have my family near by for such a long time. But now that Gratification is being broken up, Corky left this week to work with the City Police Department at Perryton. The family will follow as soon as a house is available. Now don't ask me how I feel about it. I try to be unselfish. What is good for them should be good for me.

## Good In West Point Expose

James Treadwell, son of J. A. Treadwell, shift supervisor at Cunningham Station, graduated from the United States Military Academy at West Point last spring.

After his graduation furlough, he reports to Fort Benning, Georgia, for the Infantry Officers Basic Course and the Ranger Course. Then he will be assigned to Fort Bragg, North Carolina, as a member of the 82nd Airborne Division. He already has his airborne "wings", having completed the airborne course in the summer of 1974. "Everyone in the Airborne is a volunteer," he says, "so I think they might be a little more motivated than non-volunteer outfits."

James says the currently publicized cheating among students at the academy will hurt for awhile, but he believes the military training center will "come to better in the end". His class of 1976 was not involved in the scandals at the academy, a fact for which he is grateful; and he says he is glad he will not be there when the girls come in. Not that he has anything against girls being given the opportunity, nor against girls in general, he is just enough of an academy traditionalist to deplore the fact that venerated customs are disappearing.

James says theirs was the last class to have mandatory chapel attendance, and the last to "sit up" in mess hall. He approves of the dropping of the mess hall hazing to which plebes were subjected until this year. He says, "I'm glad they are letting everyone eat. A man could lose 75 or 80 pounds under the hazing regime."

Even the slang at the academy

is being cleaned up in deference to the women who will be enrolled this year. Junior classmen no longer will be "cows", and they are trying to eliminate the decades-old reference to dates as "drags".

He says that in his four years at the academy, he saw no cheating among his own classmates, but that he had too little personal acquaintance with members of other classes to know whether cheating was going on. It is the class of 1977 which is under the current cloud of disgrace, he says.

Commenting upon the intensive work of the honors committee in its involvement in the cheating scandals, James voiced special admiration for Bill Anderson, the committee chairman, who, he said, missed two weeks of classes. "I don't know how he managed to graduate, but he did, and he received a standing ovation when he received his commission."

Among his class of 885 men James ranked 219th in general order merit, rating 170 militarily and 230 academically. He ran track two years, was active in mountaineering and ski clubs, and on the dean's list academically for five of the eight semesters he was enrolled. Beginning in his sophomore year, he was on the commandant's list, which is based on leadership, physical education and conduct. He was president of the Debate Council and Forum, which has the largest membership of any of the academy's extracurricular activities.

Our congratulations to James upon his graduation and we wish him much success in the career he has chosen.

## Beta Sigma Phi Presents Program

The Thursday Review Club of Wheeler enjoyed an informative program presented by Alpha Mu Alpha Chapter of Beta Sigma Phi on January 13th in the Production Credit Association Meeting Room. The program, the first of several exchange programs by the two clubs, explained the goals of Beta Sigma Phi. Two very handsome scrapbooks were passed around, looked through, and admired by the members and guests. Presenting the program for Alpha Mu Alpha were Lynda Wallace, Jane Thomas, Nina Walker, Sally Ledbetter, Bonnie Lightfoot and Margaret Dorman. Refreshments were served by Mrs. Glenda Abernethy, hostess. Following refreshments a business meeting was conducted by Mrs. Billye Wheeler, Club president. It was announced that the next meeting would be at the home of Mrs. Kathleen Cross.

Besides the guests from Beta Sigma Phi, we were happy to welcome Mrs. Denise Ware.

## Mrs. Bailey Hosts Study Club

Mrs. Zennie Bailey was hostess to the Progressive Study Club on January 13th. Novella Vanpool called the meeting to order and the group sang "Old Folks at Home". Roll Call was answered with an outstanding memory from childhood. After a business session Ida Farmer gave a Federation report and read "What America Means to Me". "The American Family" was the topic of the program. Curtis Moore presented "The American Family". Willie Mae Stevens gave "Whose Raising the Children?" and Ruby Lee Sandifer gave a humorous tribute

to fathers. Meeting closed with the Club Collect. Lovely refreshments were served by the hostess to Ida Farmer, Leola Farris, Anna Green, Pauline Hefley, Irma Kirk, Curtis Moore, Doracee Owen, Mildred Porter, Ruby Lee Sandifer, Amelia Sims, Willia Mae Stevens and Novella Vanpool.

## LINES FROM LINDA

LINDA HORTON—CEA

Too much of anything can be bad—that even applies to a high protein diet, according to findings by U. S. Department of Agriculture—funded studies at the Wisconsin Agriculture Experiment Station.

In experimental tests (65-day periods) high-protein diets ad-

versely affected the calcium balance in the body of college age males, even though the body had consumed extra calcium.

How much calcium is needed in the daily diet? Even that is in question in the scientific community. According to this report, the common assumption that retention of calcium is improved by high-protein diets is based on meager data.

College men in this survey who consumed experimental diets high in protein content lost excessive quantities of calcium. Such a loss of calcium, if continued long enough, could result in osteoporosis. This disease is the development of hollow areas in the bones which causes weakness in them and increases the risk of breaks or fractures.

Studies, directed by Dr. Hellen M. Linkswiler, at Madison, Wisconsin, showed that students consumed 800 milligrams (mg.) of calcium and 142 grams (about five ounces) of protein daily. The Daily Recommended Dietary Allowance (DRDA) is about 56 grams of protein for men and 42 for women. The protein in this diet was consumed in ordinary foods—lean beef and minor quantities in fruits, vegetables, and grain products. As needed, added protein in the form of casein, lactalbumen, gelatin, and wheat gluten was included to bring the protein content to 142 grams. The 800 mg. of calcium consumed is the DRDA for this nutrient.

During this test period, except for one participant, the 800 mg. of calcium was sufficient to achieve and maintain calcium balance in the body. The extra calcium did not help much—only 20 per cent of the students achieve calcium balance when they consumed 1,400 of calcium daily.

A low-protein diet (47 gram) however, showed no adverse effects on calcium balance in the body. The students consumed the same food in this diet as in the high-protein diet minus the supplemental sources of protein.

Students on the 47-gram diet maintained their calcium balance when they consumed 500 of the DRDA of 800 mg. of calcium.

Scientists cite the dangers of following a high-protein diet for long periods of time—such as a diet "freak" might consider—could cause a loss of one-third to one-half of the calcium in their bodies. This, of course, would be an extreme case.

Diets of low or high protein content normally cannot be balanced because of the losses of calcium that occur during consumption of high-protein diets. Moderation is the watchword for any diet—and especially a high-protein one.

A study concerning the effect of high-protein diets on the health of premenopausal women is scheduled in the fall of 1976, under the direction of Dr. Linkswiler.

## MEADOWS-BURNS NUPTIAL VOWS EXCHANGED JAN. 15

Wedding vows were read January 15, 1977 at 6:30 P.M. in the Chapel of the First Baptist Church in Amarillo for Pamela Darlene Burns and Larry Roy Meadows. Rev. Bobby McMillian, of the Friona United Methodist Church read the ceremony using the double ring vows. The altar was decorated with a sunburst arrangement of white and bronze chrysanthemums on a white Grecian Pedestal. Center aisle pews were draped with candlelight ribbons and bows. The wedding music included "Twelfth of Never", "More", "We've Only Just Begun", "Today" and "Annie's Song". The Pianist was Deanna Watson of Lubbock, the organist Margaret Say of Lubbock.

The Brides parents are Mr. and Mrs. T. L. (Pete) Burns of Andrews, Texas. The parents of the groom are Mr. and Mrs. Roy Meadows of Briscoe, Texas.

Given in marriage by her father the bride was dressed in a formal candlelight gown, traditional style, of Qiana knit and Venice lace. The fitted bodice featured a Queen Ann neckline, and long fitted sleeves. A circular skirt swept into a graceful chapel train. The silk illusion veil edged in matching lace, fell from a lace Juliet headpiece. The bride's bouquet was a Colonial nosegay of white sweetheart roses and baby's breath, with streamers of ivory and brown. For tradition she wore a candlelight garter with a blue bow, also wore a penny, bearing birth dates of the bride and groom, in each shoe.

The Maid of Honor was Ms. Lynn Gill, the Bridesmaid was Ms. Cheryl Cook, both of Amarillo. They were dressed in long brown dresses of Qiana knit with fitted bodice and sleeveless. Their gloves were candlelight, the nosegays were of golden bronze pom pom chrysanthemums with streamers of ivory and brown. The attendants were escorted by groomsmen during processional as well as recessional. The flower girl, Molly

Keating, of Hereford wore a dress styled as the other attendants and carried a candlelight basket of bronze mums. The ring bearer was Larry Gatlin, cousin of the groom. He was dressed in a rich brown tuxedo, ruffled candlelight shirt and rust mums boutonniere. He carried the ring on a candlelight pillow edged in lace.

The groom was dressed in rich brown tuxedo with matching vest, ruffled candlelight shirt, and a boutonniere of a single sweetheart rose. His Best Man was his brother, Eddie Meadows of Briscoe. The groomsmen was Don Kuker of Lampassas, Texas. The Ushers were Bobby Peebles, Odessa, and Rick Lucas of Westport, Ky. They were attired in Lord West formal tuxedos of rustic rust accented in brown, ruffled candlelight shirts and rust mums for boutonnieres.

A reception was held in the Fellowship hall of the church. The table was covered by a candlelight cloth accented with silver punch bowl and coffee service, ivory candles and bronze mums. The three tiered cake was ivory topped with a silver cross with wedding rings engraved with Larry-Pam and the wedding date. Nearby was an ivory tree hung with rice bags tied with brown velvet ribbon.

The wedding trip was an undisclosed destination. The bride was attired in rust and candlelight dress with matching accessories, with corsage of white sweetheart roses.

The couple will be at home at 605 Greene Street, Friona, Texas.

Mrs. Meadows graduated from Andrews High School and attended WTSU. She is employed with Leon L. Hoyt and Co. Mr. Meadows finished Briscoe High School and Texas Tech. He is with USDA Agricultural Marketing Service.

The rehearsal dinner was hosted by the groom's parents, Mr. and Mrs. Roy Meadows at Suthpen's Barbeque.

Would you believe it - the most common cause of deafness is impacted wax in the ear canals. This kind of deafness grows slowly, usually unnoticed by the individual. Most common in the elderly, it can however occur in children. A doctor can readily remove the excess ear wax - it should never be done by amateurs probing in the ear, as a ruptured eardrum can result.

## PUBLIC NOTICE

The Greenbelt Electric Cooperative, Inc. announces that it is making an application for a loan from the Rural Electrification Administration which will provide for the construction of approximately two and one-half (2 1/2) miles of 69,000 volt transmission line. The facilities covered by this announcement will consist of two and one-half (2 1/2) miles of single-pole transmission line running on approximately fifty (50) foot wide right-of-way from Southwestern Public Service Co. substation (substation at southwest side of City) at Wheeler, Texas to a point two (2) miles south of Wheeler. The substation will be a 1000 KVA, 69,000 volt to 7200/12470 volt facility. Such facility normally requires a 2.06 acre site. The transmission line as proposed will consist of wooden pole single-pole structures designed for normal spacing of approximately 400 feet between structures and having an esthetic value exceeding other types of overhead structures requiring two (2) poles, or structures, at each location and greater widths for rights-of-way. The route was selected considering environmental impact, ease of construction and economical advantages, as well as avoiding crossing on or near recorded Historical sites. If there are any comments on the environmental aspects of the proposed construction, they should be submitted to the Cooperative withing thirty (30) days of the publication of this notice. Additional information may be obtained at the Cooperative's office at 706 10th St., Wellington, Texas; Telephone 806/447/2536.

## SOIL EROSION—"IT MUST BE CONQUERED"

It takes natural processes hundreds of years to form an inch of topsoil. This can be lost over a very short period of time if the soil is neglected. We all know that man survives on the thin layer of topsoil that surrounds the earth. Much of this valuable topsoil is being lost for production each time a shower of rain falls or a gust of wind blows. The Earth does not lose this soil, it is just shifted around. Man only loses ability to use it for production as it lays clogging our lakes and streams, blocking our roads and settling in thin layers in our homes. Soil loses have many sinister forms. The most evident of these is gully erosion which can easily be seen and eats tons of soil in a single bite. Sheet erosion is the sneak thief that takes a layer of soil from an entire area and can not be as easily seen but is just as destructive. With these, and our very great problem of wind erosion, stealing our main resource, the natural rebuilding processes can not keep up with mans demand for food, clothing, and shelter. How can we return this valuable topsoil to production? We could haul this topsoil back up a long hill form the bottom of lakes and streams. This has been tried by others including the fathers of our country, George Washington, who found it to be an expensive and losing cause. Our only answer is the prevention of the loss of this valuable and indispensable natural resource. This tragic loss is easily prevented by using our land in a way which will produce our needed food and fiber and still conserve our soil. If you sometimes wonder why the soil at the bottom of a slope is more productive than the soil on the side of a hill just stop and think about soil erosion. The Wheeler County Soil and Water Conservation District, assisted by the Soil Conservation Service, is interested in helping you plan and apply soil and water conservation practices.
