SCHOOL VOTING WILL BE HELD **HERE SATURDAY**

Voters in Wheeler County will go to the polls Saturday, April 7. to select school trustees.

The position of school trustee is

one which needs only interested qualified individuals that will serve schools to the best interest of those most concerned . . . the students. Therefore, each voter is urged to not only go to the polls and cast his vote, but to do so with a ral earnest desire to place the best men in such responsible places.

Names appearing on the ballots for School Trustees, according to petitions signed and filed with County Judge George Hefley, are as follows:

Clifton Boydston, Carl Giddins, Roy Morse (Two to be elected)

Kellerville — Clarence Drum, Earl Tarbet (one to be elected) Briscoe — Roy Meadows, Jeff Puryear, Melvin Helton, Thurman Horn (two to be elected)

Wheeler-Lewis Lancaster, Lindsey McCasland (two to be elected) Lela—Dale Wells, Dan Macina, John Archer, Jack Wardlow, Har-ry Funk (two to be elected) Kelton - David Britt, Leonard

"THE DEATH OF THE CROSS

There are four words which every one of us should consider in connection with Christ's death at Calvary if we would fully appreciate what our Savior did for us there.

CRUCIFIXION

It is doubtful whether man has ever conceived a more 19, 1912 in Kirkland. After their cruel and humiliating way to execute even the vilest criminals. The physical agony alone must have been horrible to even hang there, writhing in the most intense pain until, fevers wracking his body, he died. And then think of the humiliation they still live. Since retiring from Mr. and Mrs. Mansel Williams for the hospital and doing very well. Boys Ranch as preferred by the wracking his body, he died. And then think of the humiliation as he was nailed there, stripped and naked, to suffer shame ployed by the Mobeetie school and disgrace before the public gaze. Little wonder Phil. 2:8 board. says that Christ humbled Himself to become obedient "unto death, even the death of the cross.'

SUBSTITUTION

We have not even begun to understand the cross if we both lived near Dodson at the time do not understand that Christ died there as our Substitute, of their marriage. paying for our sins.

"Christ died for our sins" (I Cor. 15:3. "His own self pare our sins in His own body on the tree" (I Pet. 2:24).

REPRESENTATION

But Christ was more than our Substitute; He was our voluntary Representative at Calvary. He had taken on Himself human form that He might represent man before God and die as a Man for men.

"As it is appointed unto men once to die but after this the judgement, so Christ was once offered to bear the sins of has been quite ill but is improving caster and son Ernest back to her many . . . " (Heb. 9:27, 28).

"(He) was made . . . lower than the angels . . . that He by the grace of God should taste death for every man" (Heb. 2:9)

IDENTIFICATION

It follows from this that if Christ represented me at Calvary, He became identified with me there, and I am identified with Him as I accept this by faith. Hence Paul exclaims:

"I am crucified with Christ, nevertheless I live; yet not to visit his mother and other relatives Saturday and Sunday. The christ lives in the life which I now live in the life which I now l L but Christ liveth in me: and the life which I now live in the flesh, I live by the faith of the Son of God, who loved me and gave Himself for me" (Gal. 2:20).

Let's Talk Politics

LESTER A. JONES

Democratic Candidate

STATE REPRESENTATIVE 87th District

PROGRESS

I am a Democratic Candidate for State Representative from the 87th District. This is the fifth in my series of newspaper columns and radio speeches.

Texas receives more Federal Aid per capita than any other State in our nation. Only New York and California receive more total dollars in Federal Aid than does Texas.

In Texas 90% of our Federal Aid goes to highway construction and our State Welfare Program. I am for receiving these Federal Aids. Our Defense Highways must be constructed to accomodate military weapons during time of war. Our Federal Government is responsible for the defense of this country. Therefore, their specifications must be met. Our State Welfare Program and the acceptance of Federal Aid to this program is provided in amendments to our Texas Consti-

A vigorous economy in this State must be encouraged. We have releied on a colony type economy in this State by placing emphasis on exporting our raw materials. We must encourage the converting of these raw materials into the finished product within our State and export the finished product. We must encourage major development of our deep water ports and provide for a vigorous export trade in our finished products and our surplus raw materials.

We must develop an economy based on a solid foundation which will weather any storm. Many of you will say that we have a good economy now. Let's assume world peace and total disarmament are obtained and our military establishments, defense plants and all dependent industry suddenly stopped. Our present good life would collapse overnight. We need to rely upon solid economics and every attempt at that goal should be encouraged by our State Government.

A detailed discussion will be made on radio, Friday of this week.

Committee Sets Up **Good School Board** Member Criteria

As Texans prepare to elect several thousand school board mem-bers on April 7, members of the Texas State Committee on Public Education have finished collaborating on the drafting of a set of Criteria of a Good School School Board Member. Among the 50member citizens group are business and professional men, house-wives, college and public school administrators, former classroom teachers, newspaper publishers college professors and school board

Mrs. Helen J. Bechtel of Corpus Christi, the committee chairman, Saturday released the following composite product of joint ef-

fort of the committeemen: A good school board member is one who has strong belief in public education-its importanto the individual, to the community, to the state and to the

. . . should be sincerely interest-ed in children never forgetting that they are the reason for pub-lic schools and for his trusteeship should understand the differ-

ence between policy and administrative or classroom procedure and should understand but not usurp the teacher's or the superintendent's professional responsibilities... should never forget that the public schools belong to the public and should represent all the lic and should represent all the people of a community, not a par-ticular area, nor vested interest nor special small friendship group . . . should be informed of and sincerely interested in the instructional program and other facts of the school system and willing to accept new developments in each area

should be able to judge th strengths and weaknesses of the school and should endorse improvemenets or changes only after open-minded consideration of all facts.

. . Should be able to work with fellow bo ard members, should support board decisions, regardless of personal views, and have moral in-tegrity and courage to accept cri-

should be able to think independently, objectively and soundly and should always remember that he is a school official only in of-ficial board meetings and at no other time in a position to make a related commitment

give the necessary time to board service to insure he is an informed and effective board member should do his work without

... should be willing to study cur rent literature on school boards and to participate in study group and other activities of school board associations

should be able to recognize the delicate balance between excellance in public education and the expenditure of public funds

TWENTY-FIVE YEARS OF CANCER PROGRESS

loday, millions more Americans have annual checkups than they did 25 years ago. Millions more know Cancer's Seven Danger Signals. Early detection and prompt treatment of cancer is the keynote of the American Cancer Society's public education program.

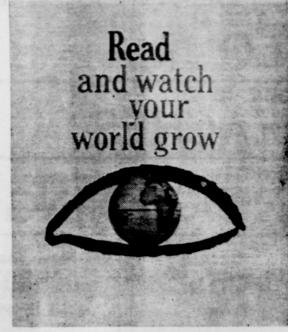

In 25 years, the death rate from uterine cancer has dropped 50 per cent. Dr. George N. Papanicolaou developed the "Pap" smear, a technique for detecting uterine cancer in its earliest, most curable stage. This has helped save thousands of lives.

Research has led to improved treatment by surgery and radiation, and to new lifeprolonging drugs. Today, over 1,000,000 Americans are cured of cancer. Only 160,000 had been cured 25 years ago.

TWENTY-FIVE YEARS AGO ONLY ONE CANCER PATIENT IN SEVEN WAS SAVED. TODAY IT IS ONE IN THREE. IT IS POSSIBLE TO SAVE ONE IN TWO, SAYS THE

AMERICAN CANCER SOCIETY.

THE CHURCH FOR ALL ...

The Church is the greatest factor on

arth for the building of character and

good citizenship. It is a storehouse of

spiritual values. Without a strong Church, neither democracy nor civiliza-

tion can survive. There are four sound

reasons why every person should at-

tend services regularly and support the

Church. They are: (1) For his own sake.

(2) For his children's sake. (3) For the

sake of his community and nation. (4)

For the sake of the Church itself, which

aceds his moral and material support. Plan to go to church regularly and read

Mrs. Topper Host To Kelton HD Club

Mrs. Bill Topper was hostess to he Kelton HD club March 22. The president, Mrs. Leonard Mills, presided over the business portion of the meeting.

Roll call was answered by "One improvement I will try to make."
The hostess gave the devotional and Mrs. Von Dunn led the singing of a song from the club song books. The club prayer was led by Mrs. Charles Lamb.

Mrs. Charles Lamb.

During the business portion of the meeting the club vited to mail an Easter Box to men from Wheler County who are in the Travis State School at Austin.

Members are asked to bring things

Times, who is being succeeded by schools in the district Mr. Jack Shelton of McLean. Good luck, Don, our very best wishes go with you; and Mr. Shelton, best ge wishes to you as new owner and publisher. I feel sure that we can and will cooperate with you in helping to make a better school

helping to make a better school and community.

At the Southwest Regional Conference in Oklahoma City many late resarch facts were given to us. Research shows that by 1980 the Space Program for the Government alone will require the services of 160,000 engineers and technicians or about 25% of those available. Automation in industry by 1980 will provide opportunities for many more jobs than ever but these people will have to be highly skilled. It is estimated that a high Percent of people without educa-Percent of people without educa-tion above the High School level will actually be unemployable in the years to come.
