ET OUT TO VOTE TUESDAY NOVEMBER 8 White Deer Edges Past Mustangs 12-6 POLLING PLACES Light Moheetie, Texas

An aroused gang of Mustangs carried the fight to the White Deer Bucks last Friday night but came up six points shy as the #2 state rated Bucks edged Wheeler 12-6.

The Mustangs, undaunted by the Bucks record, set the pattern for the ball game by holding the mighty Bucks on downs deep in Mustang territory after giving up the pigskin on a fumble on the second play of the game.

Clean, hard-hitting football was the theme of the game as it unraveled before a near capacity crowd at White Deer and one big play by the Bucks proved to be the margin in the contest.

Putting the Bucks in the hole on their 16 with a quick kick the Mustangs had the

Gary Smith, Buck fullback, took the handoff and broke up the middle on a trap play and went 84 yards for the touchdown with 5:09 remaining in the first quarter. The Bucks fumbled the snap on the conversion try and the attempted run failed and the Bucks had the first six points

on the board. The Mustangs nearly broke Vanpool loose on the ensuing kickoff but he was brought down on the Buck 47. A penalty on the first play hurt the local crew and the Bucks defense held and forced the Mustangs to punt.

On the last play of the quarter, Rapp leaped high to intercept a pass thrown by Jamison and the Bucks were in business on the Wheeler 38 as the second period open-

This was the last time the Bucks had the ball out of their own end of the field except for the final series in the game as the Bucks were running out the clock.

Wheeler continued to put the pressure to the Bucks as they drove from their 41 to the White Deer 16 where a field goal try by Hardcastle missed by inches. In this drive, the Mustangs mixed up running with one big pass

BOB PRICE ... the family man

Bob Price is a man whose interests are centered around his family. It's his desire to help create a better America for his children that led Bob Price into seeking the office of Representative to Congress. Bob and his wife Marty, along with their children, Janice, Carl and Grant, are a family we can be proud to send to Washington.

BOB PRICE...

wants to stop inflation

Food, clothing and house payments must be paid out of take home pay after taxes. Inflation makes this more and more difficult for every family in the Panhandle. As a man operating his own business. Bob Price knows the effect of inflation on earnings.

BOB PRICE

a man known for his vital interest in water

Bob Price's family started ranching in the Panhandle in 1907. Following in his father's footsteps as a businessman and rancher, Bob Price knows that we must use greater water conservation to raise food and to attract new industry to the Panhandle. City and County alike are concerned with this problem. Bob Price has the knowledge and experience to plan ahead for our future water needs.

AUTUMN-Time to Rake Leaves By Charles David Jackson

Autumn is here and it is time to get out the old rake and begin the yearly chore Mrs. Eula Markham, Cloyd of keeping our lawns free of the blankets of fallen leavs which a utumn brings. Dead leaves should be

removed from lawns, not only to make the lawn to Mr. and Mrs. Everett Dollar look more attractive but also to prevent damage to

But, all too often the leaves are burned or hauled to the dump. A much better procedure would be to compost them and provide a ready source of composted Race With Rising ready source of composted soil for flower beds, shrub borders, potted plants and for topdressing the lawn.

The simplest way to compost leaves or other vegetable matter is to alternate 4 to 6 inch layers of the vegetable matter with 2 to 4 inches of good garden soil. Sprinkling a commercial fertilizer on each layer of vegetable matter will

hasten decomposition. One. half pound or one cupful o 10-10-10, 10-6-4, 10-20-0 or the equivalent, per ten square feet of vegetable matter is sufficient. Manure may also be added to good advantage to the soil layer.

The compost pile should be 4 to 6 feet wide and of any desired length. The top layer should be soil and the surface should slope to the center forming a basin to catch water. The compost should be watered th. oroughly when it is comple ted and additional water should be added to keep the material moist but not

The compost should be turned or mixed with a pitchfork or shovel every three or four months and within six months to a year it should be ready for use. The process can be speeded up through the use of commercial compost activators which speed up the decomposition process.

Some of the accomplishments of the 55 homemakers market carries 6,000 to 8,000 for 1966 are as follows: The number pounds of beef and poultry frozen this year was 17,295 lbs. The women of Wheeler County are continuing to freeze and can fruits and vegetables, 3,064 pints of fruit and vegetables were frozen, 3,619 pints of fruits and vegatables canned and 2,381 pints of jams, jellies, relishes and pickles.

Besides doing homemaking skills the women had time to do community services. All of the home demonstration show that some convenience clubs prepared fruit and visited the Shamrock nursing home once a month. Each club contributes to the Cancer Fund and two clubs send gifts and they have a longer shelf to the boys from Wheeler County at the Travis State School in Austin.

An 'A' for Oofie . . In Gov't.

EDITOR'S NOTE: This endorsement was taken from the Canadian Record. It was written by Ben Ezzell an ardent democrat. Ezzell is ditor of the Record

One of the hardest-running candidates we know for public offis this fall is Canadian's Malouf Abraham.

As we have previously declared in these columns, we intend to vote for and support Oofie Abraham in November for the post of State Representative from this district....not because he is running on the Republician ticket, but simply because, in our opinion, he is the best qualified candidate in this election for this office.

He is, we believe, the kind of informed, concerned and public-spirited citizen which this country always has been for ... and too seldom elects...in its positions of

public trust. He has proved himself in this community, both in public office and in private business. He was, by all odds, the most effective Mayor which the City of Canadian has had, and at a time when this

city most urgently needed effective leadership.

That he has been highly successful in his own private business endeavors is obvious...but it is also worth noting that his private success has been attained in conjunction with...and never at his community. Canadian owes no small debt of gratit-

the expense of...the good of ude to this public-spirited citizen for the measurable growth and progress of the past decade. We commend Oofie Abra-

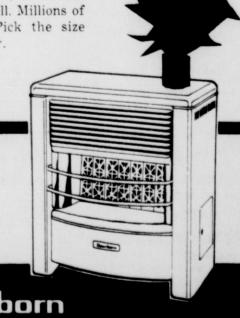

ham to the voters of the other counties in the 84th legislative district as a man who knows who to get things done and does them always to the best of his ability, with an eye to the public interest as well as his personal benefit. Malouf Abraham is one

man who is truly convinced that what's good for the country is also very probably what's best for him...and this sort of enlightened self-interest is what the county needs. (Pol. Adv. pd. for by Wheeler

MALOUF ABRAHAM TUESDAY IS THE DAY!

I hope that by now you have decided to vote for me for your Representative in Austin. I also hope that you are helping me with your friends.

Several folks are a little confused about splitting a ticket. It's all very simple. Regardless of how you have voted in the primary or who else you want to vote for in this election, all you have to do is draw a line through my opponent's name and leave mine.

Friday is the last day you can vote absentee. I have enjoyed this campaign very much and want to thank all of you who have been helping me.

Little is known about the Groom club with Lefors being the only mutual opponent and the Bandits whipped them early in the season.

Coach Gaines said that several boys would be back in action for this final game and he hoped that the boys could end the season on a winning note.

Colts Lose To Clarendon Team

Clarendon's Ponies handthird defeat of the season last Thursday night as they blanked the local Jr. High Club 14-0 at Nicholson Field.

After a scoreless first quarter, the Ponies broke the scoring ice with a 78 yard drive climaxed by a 24 yard scoring dash to put six points on their total with 2:08 to play in the half.

Wheeler had one scoring threat in the first half as they moved to the Ponie 26 for a first down. Two penalties cost them ten and the threat vanished as Britt's pass on fourth down fell in-

The visitors drove 53 yards midway of the third quarter for their final touchdown and they added two points to put the game a little farther out of reach of the Colts.

Although behind by two touchdowns, the Colts fought back and took the kickoff and drove to the Ponie 20 where the ball was lost on a fumble. This drive took the remaining time in the game exceet for just four plays run by Clarendon after recovering the fum-

As in the McLean game, the Colt ball carriers got good vardage with three boys ending up on the plus side. Britt got 73 yards, Weatherly 32 and Cole 26 yards for the night's work. Clarendon picked up 10 first downs in the game to 8 for Wheeler.

TEXAS IS ON THE MOVE!

In virtually every field of endeavor, our state has made dramatic progress the past four years under the strong leadership of Governor John Connally. His administration's bold, yet sensible programs have helped provide new opportunity and a better way of life for all our people.

IMPROVED EDUCATION - Since 1963, state investment in higher education has doubled, and faculty salaries have increased 40%. State support of local public schools have increased 44% in four years, including a \$100 million teacher pay raise enacted in 1965. Technical and vocational training programs have been vastly increased; junior college enrollment doubled during the current bi-ennium. Special literacy programs for migrant workers and their children have been expanded. A college student loan fund of \$85 million has been established. And a special Governor's Committee on Public Education currently is studying all facets of elementary and secondary education. WATER RESOURCES DEVELOPMENT - Long range planning and development

have been given top priority. \$100 million in bonds have been issued for development of needed storage facilities; authorization has been granted to expand this program to \$200 million for the next two years. CONCERN FOR THE AGED AND NEEDY - Since 1963, assistance to our elderly

has been increased 27%. The Governor's Committee on Aging is continually working for the benefit of our senior citizens. OUTDOOR RECREATION - More than \$2 million has been invested in improving

ten of our most attractive state parks during the past two years to provide additional recreational facilities. INDUSTRIAL EXPANSION - A record 855 new industrial plants have been established the past three years, moving Texas into second place in the nation in

industrial expansion Last year, more than 23,000 new jobs were created in manufacturing alone — the best year ever for the Texas labor force.

INCREASED TOURISM - More than 12 million tourists visited Texas last year, adding more than \$900 million to the state's economy, and creating 140,000 new jobs. The state's tourist advertising program has been sharply expanded. MENTAL HEALTH AND MENTAL RETARDATION - New emphasis on prevention of mental illness and mental retardation has been achieved through establishment of new community centers, replacing the former practice of "warehousing" patients. Investment for research into causes of mental disorders has doubled the past four years.

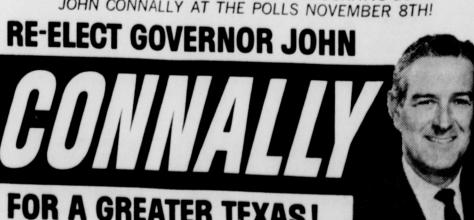

BETTER HIGHWAY TRANSPORTATION — Texas has more farm-to-market roads than any other state - more than 35,134 miles. We lead the nation in construction of interstate highways, at a cost 40 % below the nation's average. COMBAT AIR AND WATER POLLUTION - New legislation for public health, "The Clear Air Act of Texas," provides state action to combat air pollution. Similar

vigorous action has been initiated to control pollution of Texas streams, bays and estuaries. NEW CULTURAL GROWTH -- The Fine Arts Commission was established in 1965 to nurture the cultural enrichment of Texans. The state's cultural heritage will be preserved and portrayed in the state's pavilion at HemisFair '68 in

BUSINESSLIKE ADMINISTRATION - With unprecedented teamwork, our state government has operated responsibly and efficiently. The Legislature has finished its work on time in each session. Following a pay-as-you-go policy. we have maintained a healthy surplus in the general revenue fund without

curtailing essential services. HEALTHY, GROWING ECONOMY — Business activity rose 11% last year, as Texas continues one of the brightest growth areas. Employment and income are at an all-time high, unemployment at an all-time low. Despite increased responsibilities, our state government costs only \$168.78 a year per citizen, fourth lowest in the nation. No broad-based tax has been enacted the past four years. Texas still has no personal income or payroll tax, no corporate income tax, and is one of few remaining states with a limited sales tax of 2%.

LET'S KEEP THIS KIND OF PROGRESS AND PROSPERITY FOR TEXAS! HELP GIVE AN OVERWHELMING MANDATE FOR THE VISIONARY LEADERSHIP OF DEMOCRATIC GOVERNOR JOHN CONNALLY AT THE POLLS NOVEMBER 8TH!
