Pall bearers were Bill Begert, Ernest Begert, Forace Evans, Glen Elmore, Bob Markham and M.H. Smith.

## Local Baptist To Hold Revival

You are invited to attend the revival services at the First Baptist Church April 30-May 7. Services are at 10:00 a.m. and 7:00 P.M.

Dr. Strauss Atkins will be preaching and Bro. Gene Kitterman will be leading the singing.

Dr. Atkinson graduated from Hardin-Simmons University, received his Doctor of Divinity from Wayland Baptist College and attended Southwestern Baptist Theological Seminary. He has been pastor of the First Baptist Church in Canyon for the last fifteen years.

Bro. Kitterman is a graduate of Wayland Baptist College and Southwestern Seminary. He is presently minister of music at the First Baptist Church, Paris, Texas. His combined choirs number 420. His youth choir has made tours of more than 10,000 miles. They will make a singing tour to San Francisco this summer.

Come and Worship With Us.

## 4 Area Students Place at Regional

Three students placed in the Regional Interscholastic league meet held at Lubbock over the past weekend. Placing were Linda Moore, Ronald Rives and Bob Stiles.

Linda Moore took second in Prose Reading. In Poetry Interpretation, Ronald Rives placed second. Second place honors does not afford the students a trip to Austin for state competition. Bob Stiles placed third in Extemporaneous Speaking.

Other students competing in the literary events at Lubbock were Mike Holt, Janice Ware, Debbie Cooke and Frankie Rogers.

The Briscoe high school one act play cast traveled to Lubbock last week to compete in interscholastic league competition.

Also traveling to Lubbock was Joey Keelin, who competed in the regional golf tournament. Briscoe is very proud of Joey, as he placed 4th in the competition.

## Ice Cream Supper

An ice cream supper and game night will be held in the Briscoe cafeteria Tuesday night, May 2 at 8 P.M.

Admission will be a penny per inch of height. The money will be used to help fix the community tennis court.

Everyone is invited to attend and enjoy the ice cream and game.

## NOTARIES TO BE RE-APPOINTED

Secretary of State, John L. Hill, announced that all qualified Notaries Public desiring re-appointment for the new term which begins June 1, 1967 and ends June 1, 1969, must pay the required fee and file a new application oath and bond with the County Clerk of his residence between May 1, 1967 and May 15, 1967 inclusive.

Mr. Hill emphasized that Notaries Public should not send request for re-appointment or for commissions directly to the Secretary of State inasmuch as the law specifically requires that the County Clerks approve Notary

Bonds and forward copies of the Application to the Secretary of State.

Each person applying for a commission as Notary Public must be at least 21 years of age, a citizen of the United States and of Texas and a resident of the county for which he is appointed. The required Application forms may be obtained from the County Clerk.

Secretary of State Hill further stated that any person not now a Notary Public who desires appointment for the beginning of the new term should apply to his County Clerk before May 20, 1967.

## Co. 4-H's Take Thursday Review Honors at District Book Wins 1st

By Vivian Warminski

Wheeler County took top honors at the District Food Show, Saturday at Canyon. Judy Finsterwald, daughter of Mr. and Mrs. Milton Finsterwald of Mobeetie won first in the senior division of the fruits and vegetables class. ## BILLY GRAHAM'S FILM TO BE SHOWN

Evangelist Billy Graham's feature-length dramatic film, "Shadow of the Boomerang," will have its Wheeler showing Friday, April 28, at 7:30 p.m. at the Wheeler school and is sponsored by the North Wheeler Co. Ministerial Ass'n.

Starring vivacious Georgia Lee and television's Buffalo Bill Jr., Dick Jones, "Shadow of the Boomerang" is an outdoor action picture with all of the excitement and breath-taking scope of the land, "Down Under." Setting for the screen drama is Australia's "Outback," the continent's vast interior region where some of the world's largest cattle stations are located.

The two young Americans head an All-Australian supporting cast, playing brother and sister roles in a turbulent story of homestead life. Their arrival in Australia to manage newly acquired family holdings, plunges the couple into strange surroundings and situations with which they find it difficult to cope. His sister is much more democratic, readily accepted by her

new friends with whom she joins in an attempt to instill understanding and tolerance in her brother.

Filmed against the backdrop of the Billy Graham Australian Crusades, "Shadow of the Boomerang" seeks to underline the Godly reaction

to human crises and conflicts. Spokesman for the Christian position is Billy Graham, seen in dramatic Crusade footage photographed at the site of the Evangelist's record-breaking crowds in Melbourne and Sydney. An authentic landline relay meeting

which shared the big city Crusades with the stockmen of the "Outback," is used as an effective dramatic device in the story climax.

There will be no charge for admission. A free-will offering will be taken for expenses.

## 400 ATTEND PCA BANQUET

Over four hundred people stockholders of the Canadian Production Credit Association and members of their families and guests attended the 33rd annual stockholders meeting of the farmer-owned credit organization Saturday morning in Canadian.

Members were present from all of the six counties served by the Association--Gray, Hemphill, Wheeler, Lipscomb, Ociltree and Roberts.

Featured speaker at the meeting which was held in the Canadian high school auditorium, was W.N. Stokes, Jr., President of the Federal Intermediate Credit Bank of Houston.

Two members of the board of directors, H.H. Keahey, White Deer and Hugh F. Parsell of Canadian were re-elected to three year terms on the board. Hold-overs members of the board are M. Lawrence Ellzey of Perryton, C.B. Henderson of Wheeler, Dale Nix of Canadian and Wallace Hamker of Booker.

Named to the 1968 nominating committee were John L.B. Johnson and Wilson W. Boyd of Gray County Ellis Locke and J.T. Rogers of Roberts County.

M. Lawrence Ellzey gave the report for the board of directors and Erbin L. Crowell Secretary and General Manager of the Association, gave the secretary's report to stockholders.

The Leonard Barlow family of Perryton entertained with a half hour program of music before the start of the business session.

Random drawings were held throughout the meeting with \$200.00 being given in prizes. After the business meeting, members and guests were served a barbecue buffet luncheon in the high school gymnasium. The barbecue was prepared by the Shrine Club of Pampa.

Following the meeting the Board of Directors met in executive session and elected the following officers:

Canadian, Secretary-Treasurer and Larry Albin, Canadian, Assistant Secretary-Treasurer.

## SCHOOL YEAR NEARS END

By Arling Cordell, Supt.

Here we are - only three weeks and two days remaining in this 1966-67 term of school. Please mark your calendars (correction) - last day of school will be Monday May 22. This occurred because we dismissed school for an extra day (St. Patrick's Day). No other dates will change. The Baccalaureate will be on Sunday, May 14; Eighth Grade Graduation on Tuesday May 16; and Senior Commencement on Friday, May 19.

Everyone is proud of the fine showing made by our students in this, our first year in Class 2-A. We missed being the District winner in Football, Basketball and Track and Field by only a hair's breadth, and we did win the High School Literary and Academic Meet. Next year, I'm sure, we shall do even better.

Parents, now is the time to take a close look at your children's achievement thus far, determine which areas are the weakest, help them to do extra studying, confer with their teachers in order to be sure just what they need to work on - above all, encourage them to act now.

The last week of school will be too late, for this is when the final 6-weeks tests and examinations are to be given. Parents of all children, of whatever age and grade

they are, should be helping them to plan for their future education beyond the High School. If this is to be a College Career, be sure the student is mastering all the preparatory subjects which he is capable of doing. The 16 credits plus units of P.E. and Health are a minimum for a diploma, and most, if not all our students should graduate with at least 20 units.

Perhaps College is not what you and your child want. Then you should be looking into many other vocations and the training needed for these. Also you can be learning about the many sources of funds which are available to College students in the form of loans and scholarships.

Whatever the decision is, it is a certainty that the student beyond High School will need to read and to comprehend well, to speak correctly, to listen, to take notes and to write well plus a strong background in English, Mathematics, Science, the Social studies. No one should fail in college or vocational school who prepares themselves well, and then has enough ambition to study hard and long hours - for this there is no substitute.

## FHA Receives Study Grant

A \$5,000 grant has been approved for a comprehensive Area Plan for Water and Sewer of Wheeler County. This grant is made available through Farmers Home Administration to officials of local governmental units and other official public bodies who need FHA assistance in the preparation of such plans.

The basic objectives of grants for official comprehensive area water and sewer planning are: to facilitate the preparation of such plans by local public bodies and similar agencies which do not have funds available for the immediate undertaking of such a plan; to promote efficient and orderly develop-

ment of rural communities; to provide the information necessary to avoid overlapping, duplication, underdesign or overdesign of the community water and sewer facilities that may be constructed in the area covered by the plan.

The plan will be made by Biggs and Mathews Engineering firm of Wichita Falls, Texas.

Members of the Wheeler County planning commission are G.W. Hefley, County Judge; R.L. Roberts, Mayor of Shamrock; and Don Earney, Mayor of Wheeler with the assistance of John L. Manning, Farmers Home Administration County Supervisor.

## From the Postmasters Desk:

An increase in international surface and airmail rates will go into effect, Monday, May 1, Postmaster Jamison announced today.

The new international rates, he said, will not apply to mailings for members of the Armed Forces overseas. Domestic postage rates are applicable to mail addressed through APO's and FPO's.

The rate increases for both surface and airmail-averaging 13%--were first proposed on January 14 and publicly confirmed on March 1. The Department explained at that time that they were needed to help offset a deficit of about \$16 million in international mail operations.

Specific information on the new international rates can be obtained from the service window at the post office.

Postmaster Jamison said. This was the first increase in international rates since July 1961.

The increases are: 1. Airmail letters to Central America and Caribbean area from 13¢ a half ounce to 15¢.

2. Airmail to the rest of the Western hemisphere remains 15¢ a half ounce, except for Canada and Mexico.

3. Airmail to Europe and Mediterranean Africa from 15¢ a half ounce to 20¢.

4. Airmail letter rates to the rest of the world remain unchanged at 25¢ a half ounce.

5. Aerogrammes and Air post cards increased 2¢ from 11¢ to 13¢ each.

6. Items sent by air, other than letters and parcels, such as small packages, books, periodicals and other printed matter increased 10¢ per

### McClelland-Tacker Exchange Vows

On the evening of March 18, the Princess Suite in the Warwick hotel, Houston, was the site for the wedding of Miss Martha McClelland, daughter of Mr. and Mrs. Robert McClelland of Park Rapids, Minn., and W.A. Tacker, Jr., son of Mr. and Mrs. Virgil Helton of Wheeler, Tex. Officiating at the double ring ceremony was Dr. Kenneth Pepper, professor in pastoral counseling, institute of religion, Texas medical center, Houston.

The ceremony was performed in a setting of multi-colored spring flowers with emphasis of French blue and pink. Placed on either side were two pair of candles decorated with ivy.

Nuptial selections were presented by Linda Stone, soloist, who sang, "The Greatest of These Is Love," and Bob Brewer,

pianist, played selections from Bach.

Given in marriage by her father, the bride wore a candlelight wedding gown of silk shantung. The slightly scooped neckline and empire bodice had an overlay of silk.

The shoulder length veil of silk illusion was held by a satin Dior rose headpiece.

The bride carried a bouquet of white orchids with stephanotis and English Ivy. Carolyn Sue Leach, of Houston, was maid of honor and Carrie Palmer of Houston served as bridesmaid. They wore identical kelly green, floor length dresses of chiffon with empire bodice trimmed in satin. Each carried a bouquet of pink and blue spring flowers.

Don Kaiser, was best man and Harry Adams ushered.

The bride's mother wore

a pink dress of lace and chiffon, a rose pill-box hat with bone-colored accessories. The groom's mother wore a green dress of bonded crepe with black accessories.

The guests were received at a reception dinner held in the ElMorocco room in the hotel. A spring floral arrangement of blue and pink extended the length of the bride's table. Other tables provided for the guests held silver candleabras with pink candles entwined by ivy. Carol Baker, registered the guests.

The guests were Mr. and Mrs. K.L. Wood of Baytown, Texas; Mr. and Mrs. Curtiss Massey, Daniel and Cynthia of Waller, Texas; Mr. and Mrs. T.L. Prentice of Pasadena, Texas; Mr. and Mrs. Archie Hibler and Lee of Wheeler, Mr. and Mrs. C.A. McClelland, Michael and Nancy of Irving, Texas; Miss Mary Ann Kelly of Houston; Mr. Michael McClelland of Park Rapids, Minn.

The bride wore an orange dress on departing for the wedding trip to Mexico City and Guadaluajara, Mexico. The couple will live at 5709 Winsome, Houston. They will continue their studies at Baylor medical school.

**Begert Hostess For Allison WSCS**  
 Allison WSCS met April 18th with Mrs. Bill Begert as hostess.  
 "Jesus Calls Us" was sung by the group and the president presided at the business session.  
 A letter from Mrs. Elsy was read describing the "Day Apart" meeting in Mobeetie April 25th. Mrs. Donaldson led the group in prayer.  
 Topic for the program, "Food For Journey," was directed by Mrs. Powlidge. She brought out the thought that a church at rest isn't making progress.  
 Those taking part on the program other than the leader were Meses. Donaldson, Begert, Lee and Richard Kiker, Rainey and Parker.  
 Others present were Meses Lois Richardson, Glisan, Dollar, Black, Duke and one visitor, Mrs. Fred Begert. Mrs. Glisan dismissed the group in prayer and the hostess served a lovely plate of sponge cake, crackers, ice cream and punch to all present.  
 Next meeting will be May 3rd in Ernest Begert home at 8:00.

## Mobeetie Crossroads

The Tops Squareshooters met on April 25 with Mary Nixon as hostess.  
Meeting was opened with prayer and pledge. Roll call was answered by relating interesting facts about weight loss.  
Some facts about Tops of Texas we learned in Austin were very interesting. The new mens club called Sir Tops from Plainview took the day. The King for Texas was Gene Davis with 140 1/2 lb. loss. They also received six charter awards. The Queen was Sammy Smith from Corsicana with a weight loss of 132 1/2 lbs. There were over 900 members at Austin with a weight loss for Tops of Texas of 4,083 1/2 lbs. of fat.  
Hostess for next week are Dorothy Nixon and Margaret Trout.  
The Mobeetie Jr. Girl Scout troop 191 spent Saturday on the Ernest Gordon Creek on an all day hike. They used vagabonds stoves and cooked hamburgers. They spent the day catching frogs, wading, hiding leaders shoes and etc. Those enjoying the day were Liz Ann Allen, Shelia Barton, Ruby Knight, Mrs. Nancy Shelton, Sallie Jo and Tresa and Mrs. Melba Burch.

## SLIDE SET ON WEED CONTROL

By Charles David Jackson  
Slide Set Dramatized Weed  
Problem:  
A slide set depicting the  
weed problem in West Texas  
is expected to arouse already  
noted interest.

Titled "Billion Dollar  
Bandits," the set of 52  
slides was developed for  
the Texas Weed Control Ass-  
ociation by Dr. Allen F.  
Wises, professor of agronomy  
(weed control) at Texas A&M

University's Agricultural Ex-  
periment Station, Bushland,  
and by Gaines C. Franks,  
Potter County agricultural  
agent.

The slide set produced  
by professional artists, for-  
cifully dramatizes the econ-  
omic impact of weeds to  
farmers and businessmen in

the western part of the state,  
points out Wises. Weed loss-  
es run up to \$48 million  
annually in the High Plains  
and this amounts to about  
one-third of the losses  
on all crop land in the state.

Overall, the Texas sit-  
uation looks like this. Weed  
losses amount to \$774 mil-  
lion every year. Losses on  
range land amount to \$367  
million; on field crops,  
\$260 million; and on other  
crops, \$147 million.

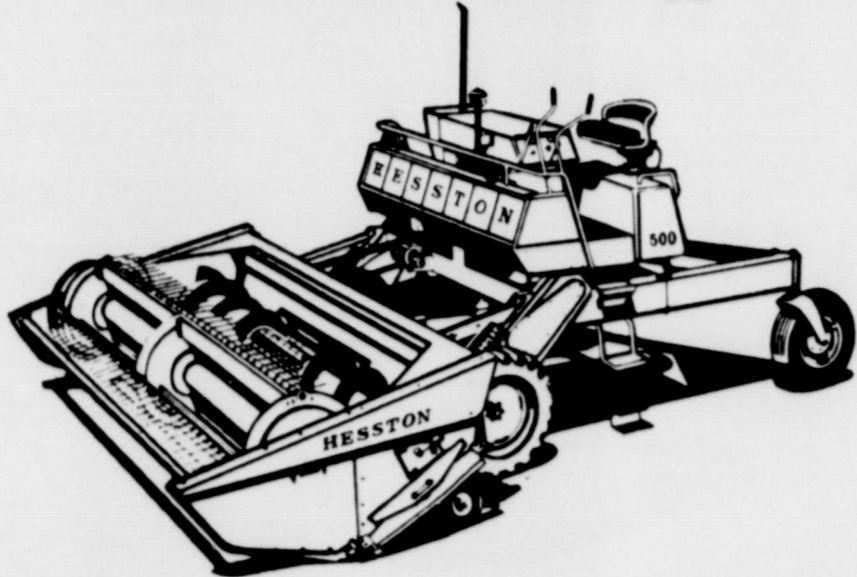

The set illustrates both  
annual and perennial weeds  
most common to West Tex-  
as and how they rob the soil  
of moisture and nutrients,  
the agronomist points out.  
And, in turn, the slides  
clearly show how weeds rob  
the farmer and rancher.

This new approach, in  
lieu of an annual weed con-  
ference, is a joint  
undertaking of Texas A&M  
University and the Texas  
Weed Control Ass'n.

The slide set accompan-  
ied with a 15 minute taped  
narration is noncommercial  
and is available to all inter-  
ested individuals and firms.

Sets are available for  
loan on a one-day basis for  
presentation at public meet-  
ings. They can also be pur-  
chased at \$50 per initial  
set and \$30 for each addi-  
tional order. The slide sets  
plus additional information  
are available from the Tex-  
as Weed Control Association  
Box 828, Amarillo, Texas.

## See new reasons to think big about haying in the new HESSTON 500 windrower

When you think of hay in terms of big tonnage and big acre-  
age, you're bound to think of the Hesston 500. This high  
capacity machine has led the way to faster harvests of better  
cured, high TDN hay for years. Like all Hesstons, it condi-  
tions the hay before it touches the ground! You get uniform  
conditioning and don't have to pick-up hay out of the stubble.  
Add the new 1966 refinements to its proven high-capacity  
features and nimble Trim Steering, and you'll see more prof-  
its than ever! New for 1966: Hydraulic vari-drive with foot  
pedal control; Redesigned tine bars for smoother feeding;  
Replaceable, bolt-in header pan; 9' spacing on sickle hold-  
down clips; 1-pc. forged sickle bar ball studs. They all add up  
to great reliability, easy handling, high performance. Biggest  
value in the big windrower field—the 500!

There's something special about a HESSTON!

## APPLIANCES & MATERIALS

By Vivian C. Warminski  
Today's efficient home-  
makers should be aware of  
the many new time-labor  
saving appliances on the  
market. Many of them cost  
the same - or a little more  
than older models. A group  
could visit several appli-  
ance stores and talk to man-  
agers about new products; or  
hold its own discussion  
about new advances - bud-  
geting time is important, and  
modern appliance help out.  
Solid state electronic  
controls have invaded the  
home appliance market and  
are bringing revolutionary

changes in this field, says  
Mrs. Wanda Meyer, home  
management specialist with  
the A&M University Agricul-  
tural Extension Service.

Some recent develop-  
ments incorporating solid  
state electronics in home  
appliances include:

Speed control for various  
portable mixers to maintain  
desired speed in spite of  
batter thickness.

Programmed blenders  
that automatically combine  
time and speed mixing of  
recipes.

Increased use of cord-  
less appliances using solid

state battery chargers. And  
improved solid state con-  
verters for recharging bat-  
teries will result in more such  
appliances, such as the  
vacuum cleaner.

Laundry equipment fea-  
turing a hand washing set-  
ting, a continuous range of  
speeds all suited to differ-  
ent fabrics. Such speed con-  
trols were difficult before  
solid state.

Permanent press materi-  
als call for new methods  
of washing and drying. The  
new electronic clothes dry-  
ness control on recent mod-  
els provides a means for  
turning off the dryer based  
on actual moisture content  
of clothes, preventing wrin-  
kles.

Solid state thermostats  
for gas, electric and oil  
heat are expected to grow in  
use. They will increase  
comfort by tailoring air  
flow to each room.

### Here's Some Materials For Spring Re-decorating:

Have you ever wished  
for a colorful and exciting  
floor covering for that stain-  
ed or dismal concrete patio  
or porch? Your wish may be  
only as far away as the lo-  
cal floor covering dealer.

Most dealers have color-  
ful, weather-resistant out-  
door carpeting or a new type  
of resilient tile flooring  
designed for concrete patios,  
porches, breezeways and  
other locations subject to  
weather.

The new weather-resistant  
flooring provides an attrac-  
tive, durable walking sur-  
face that requires little up-  
keep. An occasional sweep-  
ing and rinsing with a gar-  
den hose provides a quick  
cleanup.

Installation is similar  
to that of ordinary indoor  
tile flooring, except that an  
extra priming step is involv-  
ed. A new technique of cem-  
ent application and tile  
spacing allows for expan-  
sion and contraction. Appli-  
cation of the resilient tile  
flooring requires no special  
skill or equipment and can  
be done by the do-it-your-  
self enthusiast.

Intensive tests indicate  
that the new resilient out-  
door floor tile is unharmed  
by repeated freezing and  
thawing. Installations were  
subjected to temperatures  
as low as 40 degrees below  
zero and as high as 150  
degrees above without dam-  
age to the tile or loosening  
of the adhesive. The mater-  
ial is also resistant to color  
fading under prolonged ex-  
posure to sunlight.

### Mrs. F. Davidson Hosts '54 Club

The '54 Study Club met  
April 13 in the Floyd David-  
son home. President, Mrs.  
Carol Warren, opened the  
meeting by asking Mrs. Har-

speaker, Mr. Bill Brooks,  
who spoke on the "Sweet-  
water Up Stream Water Shed  
Project." After he spoke,  
the minutes were read and  
music week plans discussed.

Each member reported on  
what she had done toward  
clean-up, fix-up and paint-up  
project.

Those present were  
guest, Mr. Bill Brooks,  
club members Mmes. C.C.  
Crowder, George Weems,  
Pete Burton, Harvey Davis  
Carl Levitt, Cecil Denson,  
R.J. Smith, Carol Warren,  
Clayton Conklin, Carroll

## TORNADO CHARACTERISTICS

By Vivian Warminski

Tornadoes are more likely to occur during April, May or June than at any other time. Quite often, a warning cannot be issued to communities in their path due to sudden development or because they are not reported promptly. For this reason, there is a need in every community and every small town to organize and train a network of storm reporters who live in surrounding areas.

Generally a storm cell containing tornadoes moves from the southwest to the northeast. However, DON'T DEPEND ON IT! Tornadoes have been known to travel in every possible direction. They have been known to lash from side to side. For no apparent reason, they may go forward along a track, lift and appear on another track anywhere from 50 yards to 1/2 mile to one side, then move back. They are totally unpredictable in behavior.

Tornadoes are most likely to occur in mid-afternoon, generally between 3 and 7 p.m. But, they have occurred at all times of day.

Precipitation is often associated with a tornado. It generally occurs first as rain, frequently accompanied by hail just preceding the storm and as a heavy downpour immediately to the left of the tornado's path.

If you have no chance to retreat from a tornado, the best protection is to take cover in an open ditch. You might attempt to drive away from one, but this is hazardous since a secondary funnel may form in front of you. Your best judgement might be used as to whether to take cover or try to escape.

The noise of a tornado is loud and distinctive. When nearby, the roar is intense, often described as resembling the noise of several trains moving through a tunnel. When the funnel is well above the ground, a peculiar whine may be heard like the buzzing of many insects or airplane engines. These sounds may forewarn you of an approaching funnel. Don't turn in an alarm just because you hear them, but DO report suspicious noises.

Funnel formation may start several thousand feet above the earth's surface and some never reach the ground. Others touch the ground and rise again. Only the spinning funnel which reaches the ground is termed a tornado.

The official designation of this cloud formation is cumulus mamma. The bottoms of the cloud are marbled due to downward currents of cold air inside. Clouds of this nature are often observed in the vicinity of tornadoes and violent hailstorms. However, the presence of such clouds gives little warning of the appearance of a tornado, since they are generally not formed until after a storm cell has been produced.

Twisted horizontal funnels contrary to popular belief most tornado funnels are not the straight up and down type. They can be crooked, horizontal or in nearly any position. A large number of funnels lying nearly horizontally are often overlooked.

Funnel in front of low clouds - tornadoes are often obscured by clouds and dust. It is rare that a tornado cell will have only one funnel in it. You should watch for more than one, even though only one is on the ground. REMEMBER TO WATCH FOR THE SECONDARY FUNNEL.

If you would like to know more about spotting and reporting tornadoes contact extension service - Bulletin "Tornado Spotters Guide." MP-835

## Federal Land Bank News

The Federal Land Bank Associations were cited by Governor John Connally as he declared April "Federal Land Bank Month." In an official Memorandum, the Governor praised the Federal Land Bank System and called upon all Texans to pay tribute to those engaged in farming and ranching.

The Federal Land Bank System, encompassing 73 local associations in Texas and 700 associations throughout the United States, is observing its 50th Anniversary this year. The Anniversary Year is dedicated to America's Farmers: Providers of Plenty.

The Federal Land Bank Association of Shamrock is participating in the year's activities by recognizing the farmers and ranchers of Collingsworth and Wheeler Counties.

April, 1917, marked the beginning of the Federal Land Banks, this providing the first nationwide means of making private capital investment available to farmers and ranchers so that their holdings could be improved and the productive capacity expanded.

piece to all countries except Canada.

7. Most letters going by surface transportation to nations (excluding Canada & Mexico) increased from 11c to 13c. Postcards raised from 7c to 8c.

8. Most printed matter, including publications, increased one cent a piece. For 2nd class publications to Canada only, the one cent increase will be deferred for six months to become effective November 1, 1967.

Also, the present bundling rate which permits postage to be computed on the bulk weight of packages of publications addressed to Canadian post offices will remain in effect until November 1, 1968, at which time it will be discontinued.

9. Surface parcel post rates to all nations increased 20c a parcel, an average of 7%.

"Postage rates for surface first class letters and air letters and surface 3rd class type printed matter to Canada and Mexico correspond with U.S. Domestic rates, which are set by the Congress, and are not being changed at this time."

Postmaster Jamison said.
