CWE CHAT WITH EDITOR

By Louls C. Stas

Quite a chilly Memorial Day weekend. Then Tuesday morning when I reported for work the temperature at the bank read 46.

Of course I was glad to find the rain gauge containing 2.89 inches of rain. 0.87 of this was from Thursday; the amount received from 7:00 a.m. to 3:00 p.m. Thurs. At 7:00 a.m. I had measured 0.46.

All the better to make the garden grow. Blooms are on the tomatoes, beans, cucumbers and squash; we should be eating out of the garden soon. The potatoes are still pretty small.

The swimming pool opened Saturday—was scheduled to open. I think it would be a little on the chilly side.

School is out and the kids have been turned loose. Do be careful and lets not get any of them run over.

I failed to mention two things last week. Congratulations, Jennifer on your awards received at the end of school awards assembly; she's also listed in the All-A honor roll for the past six weeks. And, Forrest Lee turned 16 last week.

We took an extended weekend and went to Oklahoma on Thursday afternoon. I took Mother Stas to Watonga to visit and decorate graves and we stopped at Sunny Hill cemetery on the way back. No, I didn't get lost, but when you haven't been somewhere in a number of years, landmarks change.

When I complained about the amount of stuff we were taking, Barbara was quick to point out that I had pulled up the crocheted set to take along.

We played several games with everyone winning their share of games. We had to use parts of three lawns, which made for quite a challenging course. Jennifer wants you to know that she managed to win her share.

We had the usual gathering of the Porter clan at different times over the weekend. Sunday afternoon Raymond and Darla Stas from Bartlesville stopped in. Around 7, Guy and Cathi Gillette of Lovelady arrived and joined the fun. Carolyn Bench called to see if there was room for two more and came over with her mother, Mildred Arnold.

The Ronal Wayne family was unable to come for the weekend, due to activities of the youngsters. Yes, they were missed.

Wheeler Chamber To Hold Regular Meeting

The Wheeler Chamber of Commerce will hold their regular monthly meeting Tuesday, June 2 at Maxey's. The main topic of the meeting will be the 4th of July Celebration. The meeting will follow the meal at noon—Dutch treat.

At the May meeting, it was reported that Christmas tree ornaments have been ordered to go on sale July 4. The ornaments will feature the Wheeler County Courthouse. The revenue will go toward the purchase of Christmas lights for the courthouse. The ornaments are limited and numbered; the cost will be \$10 each.

Van Baize reported on the Turkey Hunt held, sponsored annually by the Chamber. The event brought 32 hunters from across the nation into the Wheeler area. Local land owners are paid for the use of their land and the Chamber earned \$1400; one landowner donated his payment to the Wheeler County Livestock Show Association.

The hunt was filmed; the film will be used and will provide good advertising for the hunt.

You are invited to attend the meeting Tuesday. And, bring your ideas.

48 Area High School All-Stars Selected For 43rd Annual Childress D.S.A. Greenbelt Bowl

48 area All-Stars have been selected by the Nominating Committee from a list of some 200 nominees submitted by 100 area coaches.

Numerous All State and Honorable Mention All State high school stars dot the roster of the 1992 North and South squads that will assemble in Childress Tuesday, June 2nd to go into two-day conditioning and training for the 43rd annual Childress D.S.A. Greenbelt Bowl All Star game to be played Saturday, June 6th starting at 6:30 p.m.

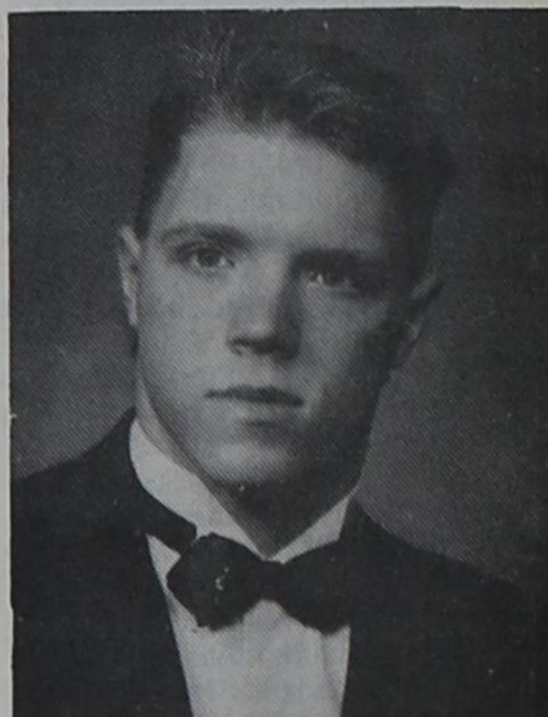

Old timers still talk about high school stars like Frank Ryan from Houston who played in one of the earliest games and went on to Rice and later played quarterback in the pros at Cleveland.

Local people might remember Ray McKown, the "Dumas Dandy" who came to Childress without a scholarship but Abe Martin took him to TCU where he made All American. The best story is that Ray was just an ordinary player until he was backed up in his own end zone facing a 30 mile per hour wind....whistled a 60 yard low driving punt that got the Horned Frogs out of danger. Coach Martin said, "Ray can't pass....he can't punt....he's slow....all that kid can do is beat you!"

Others will remember Mike Hargrove from Perryton....the most valuable player in the game who threw the winning touchdown pass to Craig Smith of the Jacksboro Tigers. Mike now manages the major league Cleveland Indian baseball team. Five or six years ago, Mike sent \$100 check to Childress with the note "playing in the Greenbelt Bowl was a highlight of my young life and I will never forget meeting the other young men who have remained friends in my memories. Thanks for giving all of us the chance to play."

Craig's father, Don Smith is now with D.S.A., the sponsor of the Greenbelt Bowl, who fondly remembers that proud moment. And, in fact, Ray Williams, Cliff Holden and Don, when asked why they would sponsor the "smallest bowl game in the world" simply said in unison, "the game might be small compared to the pros and college bowl games....but it's the biggest thing that ever happened to those eighteen year old youngsters."

Similar stories are too many to share in this article, but the men listed on the attached rosters are going to be the

Brandon Chick

Mack Marshall

leaders of their respective communities some ten years from now....and this football game will live in their memories forever.

The Greenbelt Bowl game is a civic undertaking by the citizens of Childress. We have only 2800 seats in our beautiful rock stadium with perhaps the best grass turf of any high school stadium. We take pride in the fact that, as a community, we touch the lives of the parents and players and we are glad to share in their glory.

Mack Marshall: 5'11", 205 lbs., parents are Darrel and Maggie Marshall of Wheeler.

Brandon Chick: 6', 180 lbs., parents are Roy Don and Dixie Chick of Wheeler.

Heritage Beef, B3R Join In Beef Production

Heritage Beef Cattle Company, Wheeler, Texas and B3R All Natural Beef, Childress, Texas announce the joint venture in the production of high quality All Natural Beef.

B3R President, M. L. Bradley, in making the announcement, says this gives B3R the opportunity for growth that was needed to fill the ever growing demand for B3R Branded Beef and in a feedlot setting complementary to the production of All Natural Beef.

Beef Cattle President and Founder, Joe Weatherly, stated that his company is excited about their new roll in a production of a branded beef product. "We have expanded to include a targeted market that demands a superior product," stated Weatherly.

In making the announcement both Bradley and Weatherly expressed their excitement and enthusiasm of each of their companies ability to now offer the ranchers incentives to produce better genetics. Retained or reserving a part ownership is now possible for those cattle people who want to feed their superior genetics and get paid for it. Through the feedlot and on to the rail, each calf will be identified and priced according to its merit. All information will be returned to cooperating breeders. B3R Natural Beef purchases on the rail on a Value Based System. Premiums run from plus .08 cents per pound hot carcass weight to plus .02 cents.

B3R, an All Natural Branded Beef, is a five year old company, started by the Bradley Family. The Bradley's have ranches in Texas for generations and the younger ones saw a growing demand for beef for the nation's tables like "Ranchers Feed Their Families" and the concept has grown from serving the local Childress area to a nation wide business in 1992.

Beef Cattle Company is also a Texas Family operation that has evolved from a 10,000 head lot in 1971 to its present capacity of 30,000 head. It has long been known for its reputation as a top quality lot in both management and facilities.

TOUR: The Mobeetie Jail Museum was teeming with activities Saturday the 23 of May. There were a large group of Square Dancers camped for the weekend who enjoyed a long weekend of dancing and visiting the museum. At noon, a bus load of Canadian River Museum enthusiasts, brought their lunches; after eating under the arbor, out of the rain, a leisurely time was spent by everyone going through the museum. The caretaker Al Caviness, was there and also Kelley and Edith Cross, Melba Corcoran and Sallie Harris and Nellie Horton to greet each one and answer questions we enjoyed having Bob Izzard as host of the Canadian group.

I'm sort of with Dan Quayle on the baby deal. Children deserve a father too. We know that in the animal world, most of the males do nothing to help care for the offspring but we are supposed to be a notch or two above animals. My idea is that when a baby is born, the father's name should go on record plus his social security number, blood type, finger prints, etc.. Part of his salary should go to support his child.

Memorial services were Saturday in the Tecumseh Church of Christ for Opal Fuchs. Burial was in the Macomb Cemetery. She and Gilbert lived many years in the Grimes community.

Iona Miller spent the weekend in Amarillo visiting Keith and the boys. She also saw some cousins, Minerva Andrews and three daughters who were there for the state bowling tournament.

The James Maddox family was one of 33 honored in Oklahoma for occupying their land for 100 years or more. And while I am bragging on Roger Mills folks, the Social Security Bank (as David calls it) received a 5 star rating which is the best. Also Donovan Wesner, Vice president, was welcomed into the Oklahoma bankers Ass'n's Fifty Year Club.

Visiting Eileen and Ed Logan this week were Harriett Ann Marshall, Frances Coffin, Aaron Miller, Janie Bruner, Blanche Kuykendall, Gene from San Antonio, Pauline Roberts, Pearl Hughes, Glen and Lando Stewart, Carl Davis, Arlington, VA. They caught up on old times. Carl was here for the 90th birthday party for Ruby Locke. Ruby was really surprised when some 80 of her kith and kin turned up for a whing ding.

Our Daisy Trail is sure pretty, Indian blanket, white and yellow ones. My big double poppies have staged a comeback, have several colors. We have had .7 inch rain while I've written this.

Extension Update

Mildew Prevention "Extension Update"
Joan Gray, CEA-HE
Mildew flourishes in warm, humid weather. Mildew grows best wherever it is damp, warm, poorly aired and poorly lighted, such as in closets, bathrooms and laundry rooms.

Several things help prevent mildew growth. Provide adequate ventilation throughout the house, especially in enclosed spaces. For example, run an electric fan in places that cannot be exposed to outside air easily such as linen and storage closets.

Leave closets and dresser drawers open occasionally to allow moisture to escape. Burning a small electric light bulb in a closed closet will help dry it out. So will heating it with a small, electric heater placed on the floor of the closet. When heating the closet, be sure to follow the directions for safe operation of the heater.

Hang clothes loosely so air can circulate around them. Keep shoes and other articles on shelves, preferably perforated ones, to maintain better air circulation. Be sure things are clean and dry before putting them away.

Dry shower curtains and walls after each shower to reduce moisture in bathrooms. Leave shower curtains open to allow air to circulate in the shower or tub area. Hang wet towels to dry immediately after use or place them in the dryer on air dry to speed drying time and to vent moisture out of the house through the dryer vent.

Commercial products are available that remove moisture from the air in enclosed spaces. Silica gel, activated alumina and calcium chloride absorb moisture from the air. Silica gel and alumina can be dried and reused once they have absorbed as much as they can hold. Calcium chloride is converted to a liquid as it absorbs moisture and must be discarded when it is completely liquified. These products may be available from building supply centers, variety stores, or through catalog stores.

Keeping all surfaces clean and dry will help prevent mildew, too. Washing walls, floors, tile, and other hard surfaces with a chlorine bleach solution will get rid of musty odors and prevent mold spores from growing. Use one-half cup to one cup of liquid chlorine bleach to a gallon of water. Use only on surfaces that are safe to bleach. Rinse with clear water and wipe as dry as possible. Fungicidal products also control mildew effectively.

Care Center Comments

If you know of a teenager that needs something to do for the summer, have them call the Care Center.

God's Talking Mercy

Luke 4:18 tells us that God anointed Jesus to preach the gospel to the poor, that God sent Jesus to heal the broken-hearted, that God sent Jesus to preach deliverance to the captives, that God sent Jesus to preach recovering of sight to the blind, to set at liberty them that are bruised, and to preach the acceptable year of the Lord. **HE'S TALKING MERCY.**

This is the day that God will accept you. This is the day of salvation. I am glad that I can be a "good news" preacher too. God has not anointed me to preach different than Jesus. You can be forgiven today. You can be saved today. No matter how bad or sinful you have been, your life can be changed today. You can become a new person and find the fulfillment in life that you have wanted. You don't have to be bound by bad habits that may take your life eventually. God doesn't want to send judgement on you. If that ends up being your end, it will be because you chose to reject salvation.

If you don't make a definite, conscious decision to accept Jesus Christ, you will exist in the region of the damned forever. However, that is not God's will, and it doesn't have to be. **HE'S TALKING MERCY NOW!** Why not call upon Him for salvation today. Mercy can rewrite your life. Don't turn Him away from your life. He loves you, but He won't automatically save you. You must give your life to Him. I'm not talking about getting religion. I'm talking about receiving Christ as the Lord of your life. Have you done that? **HE'S TALKING MERCY RIGHT NOW!** If you want personal prayer or counseling concerning salvation, call us. We will come to you. We care.

BRISCOE NEWS

By Vetola Parker

If Nona's Aunt Frances Duncan, I

think its Duncan is still in Wheeler, come on out still looking for you don't have your add or telephone. Hope you are still reading Briscoe news.

Scotty's birthday is 15 of May, Garry's is 31st of May.

Garry and Tish, Jill and JaKyla and little Joe made it to Nebraska and back, attended Jennifers graduation,

no car trouble etc.

Weldon and Diana Marianda and Michelle and I think Florene started to Houston to see Ann Jackson and rest of relatives down there. Ann came up with Cancer, they think they got all of it now her heart is acting up. She is going to have to have heart surgery, they are wanting to see her and rest. Sister Mary Fay went.

Bob and Mary Lou came by from Zybach cemetery Wednesday 19, sure was surprised, been some time since I have seen them.

Peter and Margarets girl Linda Kay and son had been visiting up here. Visited Mable, Linda lives on edge of Louisiana and Texas.

Mable is looking for Jimmy Joe and Family soon.

Clouds in Wheeler going south to Shamrock, Wellington and Dodson, Ok.

Wheeler has got 2 inches and 70/100 of rain Now that a bit of water, here lately. Betti says we received close to 1 1/2 in gage with showers.

Doc got about same We are fairly wet.

We are in thunder storm watch nearly all time now and tornado watch most every day.

Garry and Tish, Jill, Jahayer came Saturday.

Last night Betti was watching T.V. she said do you know a Larry Parker, I said yes in Pampa, Betti said this is Pampa I looked up a man about the size of Larry Dale, Claude's boy was

squatting down holding a white pig. Betti said Larry had furnished the white pigs, the Pampa teachers were kissing these pigs. Making money up to fight dope. I called Mable she did not have T.V. on So I think that was Larry Dale Parker, Claude's boy, their son Allen sent me a picture of him and his white club pig, their pigs are white, I am adding 2 and 2.

Ted and Pauline came a little bit ago. from Dumas, I didn't look for them it was so stormy.

We got a little more rain around 8 p.m. last night., lightening and thunder afraid it was going to get my TV.

Ted not doing so good working to hard or rather putting in to many hours.

Sat. morning real cloudy and some fog. It lightened most all night down Wheeler way.

Helen is going tod see her sister Mary Rose think Shorty is going with her, Mary lives at Blue, Ok. could be well right by Durango, Ok forgot the town how to spell it.

Unice wasn't feeling to good this Saturday morning hope she is feeling better soon. She didn't know how much rain, we got so much.

Ted said we had 8/10 in gage since

"Wheeler, town of friendship and pride."

Betti emptied just before Ted and Pauline came last night. Pauline and Betti went shopping in Wheeler Saturday afternoon.

Nelson and Jane came Saturday night.

Talked to Charles Finsterwald he said his mother was still at home, they were doing fair, he didn't know of any visitors they hadn't been anywhere. It's beginning to get muddy. People afraid to try our dirt roads the rocks and gravel sure help.

Charles said Grady Dodd was about the same. We wish for Grady a quick recovery.

Still so much sickness.

Joey Keelin and family visited Travis and Rosalie Keelin went home today, Darve and Sammie Atherton visited Travis and Rosalie while Joey was down there. Joey and Risa and Matt is all that came.

Joey just called they got home in Houston. Nelson missed him he just got home.

I got a pretty good boast today I received a litter from Bonnie and Frank Koger of Greensboro, N.C.

Dear Mrs. Parker, My husband and I enjoy reading your column. We are not acquainted with many of the people you write about, but we simply enjoy your close-knit community news.

Your column is usually sent to us by my parents, Ace and Edna Johnston, who grew up in Wheeler, but now reside in Louisiana. They continue to subscribe to the newspaper and this is how we became acquainted with you column. Occasionally, we recognize the name of a friend or relative and feel a closeness to the area.

We wish you good health and thank you for the pleasure of your column. Sincerely, Frank and Bonnie Koger.

tired, she said when she got out of car the birds were singing. You don't hear that up there when you get out of your car.

She said from this corner up here the road is to narrow 2 cars could not pass it wet and slick made it worse ditches so deep on sides. She was so afraid she was going to meet someone. She said we got more rain than Pampa.

Mac Purcell and family got 2 2/10 inches rain today Monday. Someone told them Willis Fillingim got 4 inches rain in one day.

Doc called said he received 7/10 inch of rain today Monday and temperature was 54 degrees Monday.

Bettie said we had got 1 inch today, Monday I doubt more than down south it thunders down south before up here.

I have been pestering Doc about the little lamb, keeping it dry and fed, etc. He has him in his garden he can't get in out or coyotes get him when it rains he goes in garage, he can get in yard and eat the grass and Doc feeds him some ground grain. So guess he'll make it. I will stop worrying about him.

Doc says the Lambs don't climb on top of the cars and butane tanks etc. like goats do.

Mosquitoes kept coming in house. I saw some on boys back coming in on boys back. They are thick here since the rains.

We had the heaters going Saturday night and fire Sunday felt good to me. I could use some on this Tuesday morning.

I thought of a dozen questions to ask them after they left. Lewis and Georgia Cain from Calif.

Ruby Zybach was to call me with her news, she never did.

We welcome Debbie and Kenny
Beck to our community. At present
they are living in a trailer house near
Jim and Wanda, Debbie's folks. Kenny
is an experienced mechanic and wants
to work on vehicles and heavy ma-
chinery.

Leslie Meadows graduated at W.T.
May 10 and plans to teach school at
Midland in the fall.

There was a very large crowd of
relatives and friends out to graduation
at Briscoe Tuesday night. Wayne
Zybach gave a history of Briscoe
School from about 1930 when it
started. Randy McCurley gave a history
of Mobeetie school that started
back in 1882. Interesting speeches by
Elizabeth Hale, Danny Nelson, Misty
Walker and Collin McCurley.

Don't forget Briscoe Community
Vacation Bible School will be next
week: Monday, June 1 through Fri-
day, June 5, 8:30 to 11:30 a.m. Come!

there were Boyce, Jodie, Londa and
Terri Crownover, Evelyn Meek, Jackie
Dukes, Doug, Matt and Mark Helton,
Samantha, Cody and Matt Helm,
Tamera and Aaron Hartline, Jocelyn
Meek and Keith Ratliff. They had a
great time taking turns riding the lawn
mower, riding burro, jumping on tramp-
oline, playing with rabbits, chickens
and snake. Boyce put Willa's tramp-
oline back together—a pretty hard job.

Good News: Beulah Grimes got to
come home from St. Anthony's Hospi-
tal Saturday. Son Gary brought her
home from Amarillo while Doyle rustled
up a wheelchair and straightened up
some. Beulah had been 31 days in the
hospital since her wreck. Keep pray-
ing that she will continue to heal and
improve. Son Jerry and family from
Stratford visited Sunday and brought
Kentucky Fried Chicken. Daughter
Phyllis Tucker and grandson from
Elkhart, Kan. came Sunday afternoon
to stay a few days. Good to visit a little
Monday morning.

Good News: Mary (Riley) Mitchell
was looking so good Monday morn-
ing. She was moved to room 573 in St.
Anthony's and eager to go home, but
they were starting chemo. Pray that
she will be able to handle that without
too much sickness. Praise the Lord for
all the prayers answered in her behalf.
Nice to see her husband Joe there.
Also saw young friend Maria Toten
from Pampa there visiting someone.
Mary had a malignant brain tumor
removed about 2 weeks ago.

Jack and Pat Morgan will probably
start June 1 to work at the Amarillo
prison system temporarily. Good luck!
We will miss you two and your boys.

Mack and Patty Ann Shields went to
Oklahoma City for Mack's eye check-
up Wed. Sorry the pressure was up
again. Mack will have to have more

Amarillo Thursday for his check-up on
his leg where he broke a bone in it.

Property Tax Protest and Appeal Procedures

The law gives property owners the right to
protest actions concerning their property tax
appraisals. You may follow these appeal proce-
dures if you have a concern about:

- * the value placed on your property
- * any exemptions that may apply to you
- * the cancellation of an agricultural appraisal
- * the taxable status of your property
- * the local governments which should be
taxing you property
- * any action taken by the appraisal district
that adversely affected you.

Informal Review

REAL ESTATE—CONTACT LARRY
SCHOENHALS, CHIEF APPRAISER, 806/
826-5900. MINERALS—CONTACT BOB
KEY, 806/358-8186.

Review by the Appraisal Review Board

If you can't resolve your problem informally
with the appraisal district staff, you may have
your case heard by the appraisal review board
(ARB)

The ARB is an independent board of citizens
that reviews problems with appraisals or other
concerns listed above. It has the power to order
the appraisal district to make necessary changes
to solve problems. If you file a written request
for an ARB hearing (called a notice of protest)
before the deadline, the ARB will set your case
for a hearing. You'll receive written notice of
the time, date and place of the hearing. The
hearing will be informal. You and the appraisal
district representative will be asked to present
evidence about your case. The ARB will make
its decision based on the evidence presented.
You can get a copy of a protest form from the
appraisal district office at 101 E. Texas (Court-
house square) Wheeler, Texas.

Note: You shouldn't try to contact ARB mem-
bers outside of the hearing. The law requires
ARB members to sign an affidavit saying that
they haven't talked about your case before the
ARB hears it.

Review by the District Court

After it decides your case, the ARB must send
you a copy of its order by certified mail. If
you're not satisfied with the decision, you have
the right to appeal to district court. If you choose
to go to court, you must start the process by
filing a petition within 45 days of the date you
receive the ARB's order. If the appraisal district
has appraised your property at \$1,000,000 or
more, you must file a notice of appeal with the
chief appraiser within 15 days of the date you
receive the ARB's order.

More information

You can get more information by contacting
your appraisal district at Wheeler County Cen-
tral Appraisal District, P.O. Box 1200, Wheeler,
TX; PH 806/826-5900. You can also get a
pamphlet describing how to prepare a protest
from the appraisal district or from the State
Comptroller's Property Tax Division at 4301
Westbank Drive, Building B, Suite 100, Austin,
Texas 78746-6565.

Deadline for Filing Protests with the ARB*

Usual Deadline

On or before May 31 (or 30 days after a notice
of appraised value was mailed to you, which-
ever is later).

Late protests are allowed if you miss the usual
deadline for good cause. Good cause is some
reason beyond your control, like a medical
emergency. The ARB decides whether you
have good cause.

Late protest are due the day before the appraisal
review board approves records for the year.
Contact your appraisal district for more infor-
mation.

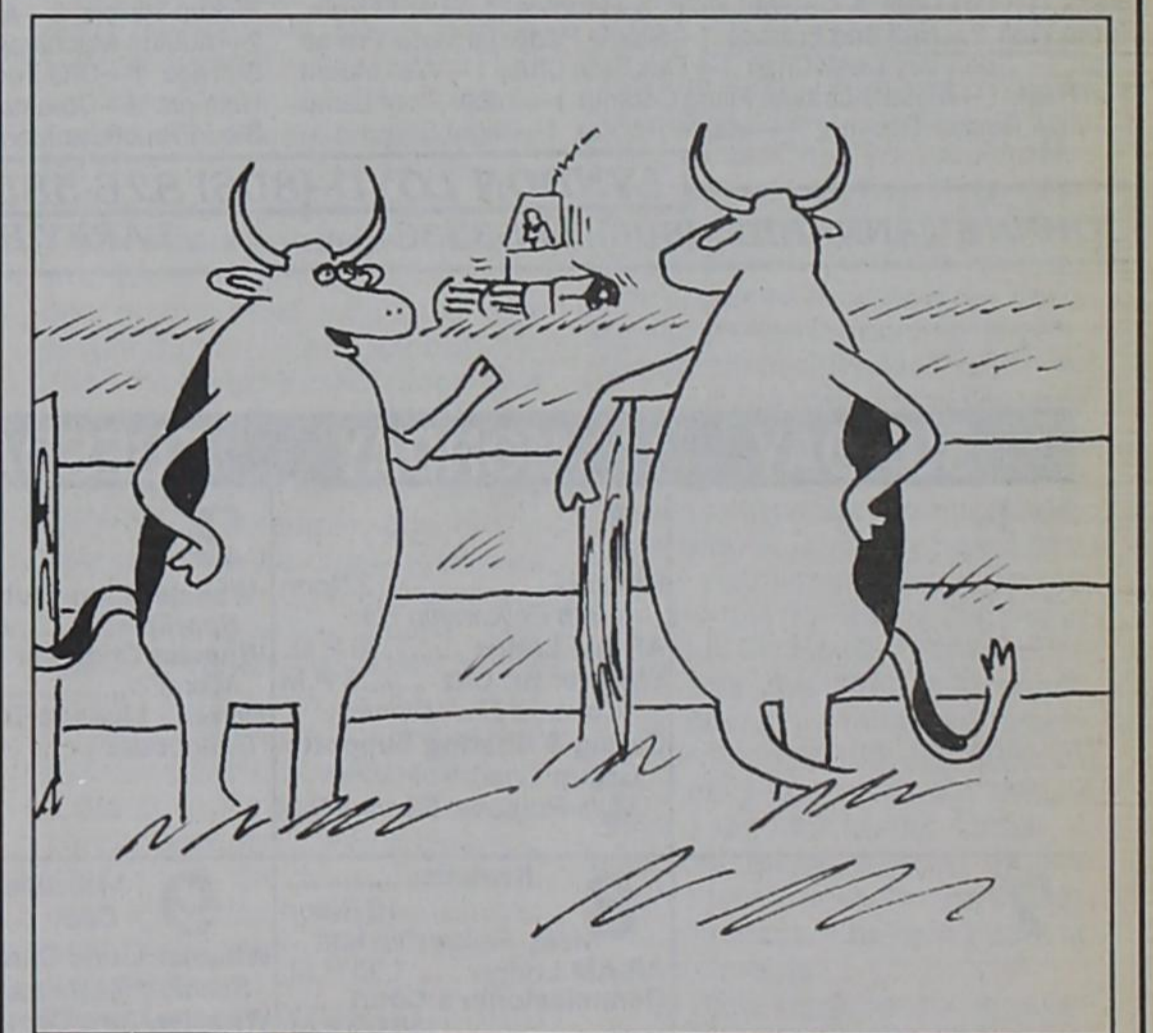

Special Deadlines

For change of use (the appraisal district in-
formed you that you are losing agricultural
appraisal because you changed the use of your
land), the deadline is before the 30th day after
the notice of the determination was mailed to
you.

For ARB changes (the ARB has informed you
of a change that increases your tax liability and
the change didn't result from a protest you
filed), the deadline is before the 30th day after
the notice of the determination was mailed to
you.

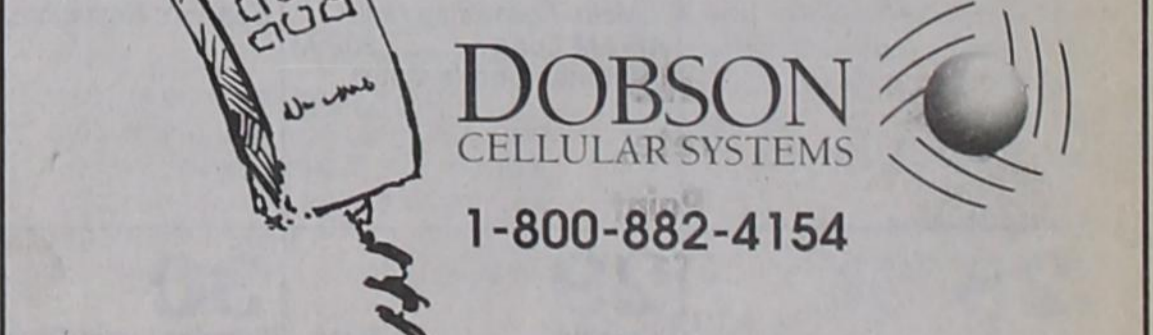

If you believe the appraisal district or ARB
should have sent you a notice and did not, you
may file a protest until the day before taxes
become delinquent (usually February 1). The
ARB decides whether it will hear your case
based on evidence about whether a required
notice was mailed to you.

*The deadline is postponed to the next business
day if it falls on a weekend or holiday.

Ant it The Truth
 By Ab Gunter
 Seems like every time you turn around something is happenin that shouldn't have been. I can't hardly figer how we gain anything by lootin an burnin no matter what our feeble reason or excuses. Mama and two of our children just happened to be very near the burning an lootin and shootin there at Watts in 65. Both Mama and I have Cherokee Indian blood in our veins and I have heard of our folks in Alabama that had quite a bit of property but seems like they wuz run off their land and even traveled the Trail of Tears and put on some little spot just cause they wuzn't Republicans or Democrats. I don't ever remember my great granddad burnin or lootin because of this treatment but maybe he did. Seems like I have heard where my great grandad did trade Old Chief Bushyhead five sacks uv salt fer his daughter who became my great grandma. I don't know if this wuz true er not but so the story goes.
 Mama had got our garden planted and with any luck it won't be long till we will be eatin grub from it. Matter ux fact we have already had onions and asparagus from it. She will be doin some cannin from all the stuff one of these days, she can do more with a tiny little garden than you would imagine. She wuz shore lucky to get such a fine upstanding bird like me fer a husband. I even brag on her burned toast. One time I sort of objected to it but anyway I know better. Henpecked? Heck no but I got some henhouse ways, believe me I do. She's part Irish, Indian and part mean when you go to fussin bout her cookin.
 All our little humminbirds are back and we enjoy seein them at the feeders. One thing I can't understand is why them roosters will fight over who's next at the feeders. But to be fair, some of the little lady birds also fuss over who will have priviledges at the feeder. Maybe some bird sikologist can figer it, on a government program that is.
 I feel sort uv flattered. Our son called and said A.J. wuz wonderin how I wuz doing. Rite off the bat I couldn't believe such a prominent person would worry bout my health an well bein but I happened to think, I owe that Old Coot five bucks fust last year. Durn his hide anyway. I did sort uv get a thrill. A feller from Enumclaw, Washington called an said he wuz a nephew of a friend I had written about in one uv my doins in the paper. That is a long way from here ain't it? What, you don't know where Enumclaw is, well it is about 20 mi E uv Tacoma on state rd 164, that's where it is. Very beautiful country around there. Shore hope I don't owe this gent any money.
 I been watchin all that stuff about L.A. on tv and noticed where some uv the big shots in Europe are fussin about the way we do things over here. One Englishman wuz fussin and I thought about Ireland an other things they did and the German folks shucks they can't fuss about anybody and most uv them other countries have had many of the same sort uv problems. How can you tell a feller how to raise his kids if you have had trouble with yores???

We had a tragic thing happen in Owen county a few days ago. A father and his young daughter were lost in a traffic accident. The young lady was very active in school and sports an her father was doing well in his new business and the family was plannin to visit with the fathers brother who is an astronot in Florida. Apparently they were to make the trip as soon as school is out this year. You wonder how these things happen and why. We see things like this that happen many miles away but near home it brings to mind how quick lives can be snuffed out and how the loved ones that are left behind must suffer on their loss. I hope that each of us can send these folks our sympathy, even if it is mentally. May the Good Lord guide and bless all these folks.
 Ab and Mama

Let us search and try our ways, and turn again to the Lord. Let us lift up our heart with our hands unto God in the heavens.

All the rains have just been real nice and was just what we needed, everything that's growing out is so nice and green and the weeds are growing.

ing in her hand before surgery. Pray for Deleise and her family. Also her left arm was hurting badly before surgery. A wreck in January when a car ran into her, gave her a whiplash.

Nice to have Mack and Patty Ann Shields and Amanda and John and Julie Gilmer meet us for supper at Maxey's Saturday night. From The Minister's Desk:

In the sixteenth century, a religious revival that swept across Europe became known as the Reformation Movement. This religious revival was a reaction to some of the religious practices that characterized the sixteenth century.

While there were several people who were leaders of this revival, one of the most influential was Martin Luther. On October 31, 1517, he nailed a list of ninety-five statements on the door of the Castle Church, challenging some of the practices of the sixteenth century church. For example, one of the practices that he challenged was the selling of indulgences. According to this practice, people who made a financial donation to the church were given an indulgence which was a written guarantee that their sins had been forgiven.

Martin Luther believed that this heresy because it was a clear-cut violation of the New Testament texts which taught that the forgiveness of sin was by faith. Since the forgiveness of sin was by faith, Martin Luther believed that it could not be earned by good works or purchased with financial payments. But there were other sixteenth century preachers who did not share Martin Luther's opposition to the selling of indulgences.

One of these sixteenth century preachers was John Tetzl. According to church historians, Mr. Tetzl preached in villages throughout northern Europe, traveling in an ornate carriage. When he arrived in these villages, he would emerge from his carriage in flowing clerical robes. He then would display a small red cross and say: "This cross I now hold before you has all the forgiving power of the cross on which Jesus died. Think about your sins. The cross even has the power to secure pardon for sins which you will commit in the future. Think about it, my friends. You can receive letters which are properly certified to assure you of the deliverance of your father, your

Here & There

Hain! Who but the Omniscient one could have devised such an admirable arrangement for watering the earth! Ure

I think God did not intend for us to be continuously and constantly grieving for those who have died. Neither should we be so charmed with the living that we fail to pay tribute to those who have departed this world. It need not be a celebration, but we should all take time to pause and be thankful and appreciative of those who have gone. Memorial Day is definitely a good example, but personally it should be often.

Granddaughter Melinda went to Fairview, OK. Tuesday and brought her mother here to stay for a few days. She will be with me while Melinda and husband Tim, take their nieces, LaDonna and Traci Milburn for a few days of vacation. I think we will hear all about Six Flags when they return.

Don and LaJune Alexander went to Okla. City. last week for LaJune to check with her doctor. She is doing fine and was dismissed from further appointments.

Lavelle Stephens went with the Alexanders to Okla. City. They all visited a short time with Lavelle's sister Janet and husband Darrell Marr.

Cuba Mann was taken to the hospital in Pampa last week. It is assumed that some spray she was using in the yard had an adverse reaction.

Lavelle Stephens and Alta Jean Davis took Novella Vanpool to Amarillo airport last week where she took a plane to San Antonio. She will visit her daughter, Becky, while there.

Wave Wallace Meek of Carbondale, Ill., is visiting relatives and friends here. She did some work and decorating at the cemetery on Memorial Day. Clinton Meek was her late husband.

Larry (Buck) Jones and his wife Mary were trimming some trees on their place last week, and Mary had the misfortune of falling and breaking an arm.

Irene Hunt Norman (who was born and reared here in Wheeler) was involved in a family reunion last week. Her parents were Dink and Altha Hunt. Altha's maiden name was Breeding. It seems that a sister of Altha's is the only one of the family living. So it was mostly a reunion of cousins. Irene's two sons, Richard of Abilene, TX and Robert of Reno, Nev. were present. The man who owns the llama ranch north of Pampa is a cousin of the Breedings.

Ed and Patricia Forrester had business in Amarillo last Friday. Also they were scheduled for a trip to visit with their grandson and family. So they drove to Dallas via Amarillo. They returned home on Monday.
