DRUNKEN DRIVERS

Here is an excellent thought from the Port Umpqua, Oregon, Courier: "If the Courier man were a judge in courts dispensing sentence upon drunken auto drivers, there would only be first offenders. Regardless of race, color, creed or alleviating circumstances, the person who has so little consideration for the lives of innocent people as to drink intoxicants before or after placing himself behind the steering wheel of an automobile should never be allowed to repeat the performance. Revocation of licenses would be fatal and final. Driving a car is a privilege—not a right."

It is impossible to prove what percentage of automobile accidents are caused by drunken driving, for the reason that in many cases where liquor plays a part, arresting officers and prosecutors are unable afterwards to produce sufficient evidence for a conviction. But all the best estimates say that alcohol is the definite factor in a much higher proportion of mishaps than is generally realized. Furthermore, an accident in which a drunk is involved is more likely to be a serious than one involving sober drivers.

The drunken driver should never be allowed to pay a fine and he should be denied the right to use the public streets and highways. If such a program were carried out throughout the country, one of the gravest menaces to life would be greatly minimized.

NATIONAL BARBECUE

During 1936, close to \$35,000,000 more property was destroyed by fire than in 1935. The year's loss is estimated by the National Board of Fire Underwriters at more than \$293,000,000, as compared with \$259,000,000 in the preceding twelvemonth.

The increase can be partly accounted for by a rise in property values. But the fact that ignorance and carelessness cause an annual waste approaching \$300,000,000 should make every citizen stop and think.

The majority of fires are unnecessary. They could have been prevented had someone exercised proper forethought and care. They resulted from human failure.

We take useless chances with fire—all kinds of chances and the inevitable always occurs—a deadly spark, and our lives or property join the endless roster of fire's toll.

Fire can be prevented. Is fire prevention—which means prevention of roasting thousands of men, women and children yearly and waste of property totaling hundreds of millions—worth the little time, effort and thought required to accomplish it?

THE POET'S CORNER

End of the World

It is morning, and when the sunlight drips through the window, as if dew,

I arise, greet the new-born day
Make my bed, and get my key to go—

The brown earth peeps through fallen snow

Grey clouds climb high with dawn,
I think of you and sing a song I know.

It is noon, and when it is noon
I cease from helping tiny hands
Form letter new and for awhile I'm free—

(If the truth were known, breaking in

On the morning's work the long hours thro;

Kept creeping pleasant thoughts of you),

I think of you and sing a song I know.

It is night, Stars in the purple dusk,
Above the roof-tops the moon's a shell of silver.

Four walls encircle me as on every night—

I do not listen for your footsteps, or your knock.

I know you will not come again and so—

All my tomorrows will be the same, yet,

I think of you and sing a song I know.

—Marie Waters.

Whimsy

By M. L. M.

Your correspondent has played with numerous hobbies, but never did settle down to one for very long.

For instance, archery once had a strong appeal. I tried my hand at making a bow and attempted to fletch some arrows.

About the time my education in this sport had progressed far enough that I could talk the lingo, interest waned and I took up something else.

Then amateur photography fascinated me. I planned on using part of my soldier bonus for a highpower camera, but other things were needed worse.

Then of all things, I took to chasing butterflies. And let me say that this is not such a sissy sport after all.

And the little things are pretty! Anybody ought to get a thrill out of the marvelous designs and colorings and the infinite variety of forms with which Nature decorated the butterfly.

But after garnering a dozen or two specimens, collecting of poetry and gems of prose took my fancy. And so forth and so on.

I like to see a man with an interesting hobby and get a lot of fun out of seeing him ride it hard.

I would like to tell you from time to time about the hobbies different Wheeler men are playing with.

Your co-operation in finding them out will be appreciated.

Although I have not interviewed him about it, I am told that Mayor R. J. Holt has just about the finest hobby there is for a man who likes to tinker.

He has an amateur radio transmitter. Really, I have been afraid to bring up the subject, because I don't know the language, and besides both Holt and the writer have too much to do to spend the rest of the day in a gabfest.

Another hobbyhorseman I have mentioned in this column before is Jim Risener, with his collection of historical relics.

Some day, material I hope to get from him should make mighty good reading in special feature articles.

'Missing Link' Again Rapped by Preacher

Merritt Seeks to Disprove Theory Of Organic Evolution.

By C. C. MERRITT

The theory of organic evolution stand or falls upon a demonstration of, or the failure of a demonstration of "the missing link" theory.

Darwin affirmed that the only thing that separated him from the monkeys was the chasm of the missing link. I feel certain that if the evolutionists could find as great a chasm between facts and revelation they would use that as a scientific reason for rejecting revelation. If the testimony of the two great volumes, Nature and Revelation, are accepted they will be seen to confirm each other wonderfully. The spade has not given our modern appetites any clue to that so-called missing link between man and the lower animal kingdom. On the other hand, the spade has utterly failed to disprove one single item of revelation. It has confirmed many things of revelation, things which the infidel once denied.

Let it be understood that up to this date that chasm that separates man from monkeys, called the "missing link," still gapes its mocking facts and utterly disproves the validity of the theory of organic evolution.

"The missing link!" There are many of them. Between every genus there is a missing link as great, and a chasm as impassable, as the one that stands between man and the lower animals. There are also missing links between many species. Even where there has been created an artificial link between species the result has been a hybrid that blocks forever a branch of even a new specie. Yes, "God hath made foolish the wisdom of men," when man has hatched out such a theory as organic as evolution to disprove revelation.

Let us not forget that the organic evolutionary theory affirms that life started with a single cell and, through the millions of millenniums of time, moved up through the various stages of genii and their species. Yet in this list of life stages, there are untold numbers of missing links never yet found!

So, my fellow citizens, do not let that silly gorilla of organic evolution scare you out of your chance for citizenship in that Kingdom that, in its appointed time, will give you new nature, peace, happiness and life everlasting.

Subjects for next Sunday: "Why God is Silent," and "When God Speaks Again."

For used car bargains see Walter Anglin.

Mobeetie Happenings

(By Daisy Crump)

Paul and Walter Brannon were in Elk City Monday.

Mrs. Edna Johnson returned to her home in Eastern Kansas Monday.

Mrs. T. H. Hathaway is visiting her son, Arthur Hathaway in Oklahoma City.

Mr. and Mrs. Dale Low and daughters of Miami attended the program at the grade school Friday night. Miss Esther Morrison returned with them to spend the week-end in Miami and Clarendon. Mrs. Low and Miss Morrison are sisters.

Mr. and Mrs. W. A. Scribner were business visitors in Wheeler Thursday of last week.

Misses Bonnie Cogdell, Lula Mae Cook and Daisy Crump were in Amarillo Saturday.

Mobeetie has raised five times its quota in the Red Cross relief drive.

Mr. and Mrs. John Allen Neece are ill this week.

Hampy Dyson ran into the Union school bus which was parked on Main street Monday morning. Parts of the Dyson car were badly smashed, but no damage was done to the school bus.

R. H. Crump was a business visitor in Amarillo Monday.

Mrs. R. E. Compton and daughter Jewel and Louise and Morris Compton of Hale Center are visiting relatives in Mobeetie this week.

Doc Trimble and Frank Totty were in Canyon Sunday.

Mr. and Mrs. Nathan Hunt and Maurine spent Sunday with Mr. and Mrs. Frank Walker in Miami.

P. G. Newkirk of Clinton, Okla., was a business visitor in Mobeetie Tuesday.

Mrs. Ralph Hidgon and children of Canyon are visiting relatives here this week.

Miss Virginia Dyson was visiting relatives here the first of the week.

Mrs. Marie Goodnight of Pampa was in town Tuesday night and Wednesday attending Eastern Star and visiting friends and relatives.

Mrs. Melvin Howe, Mrs. Maloy, Mrs. D. O. Beene, Mrs. George Porter of Wheeler and Mrs. A. B. Pinnell and Mrs. Cordell of Magic City attended Eastern Star in Mobeetie Tuesday night.

SIDELIGHTS

By
HON. MARVIN JONES
Member of Congress from Texas

President Roosevelt stood bare-headed in a steady, cold rain to take the oath of office for his second term. During the delivery of his address, the rain drummed against his face.

After his speech was finished, he rode the length of historic Pennsylvania Avenue to the White House in an open car, waving his hat to the thousands who lined the way.

At the President's own suggestion, the parade reviewing stand in front of the White House was built as a replica of the Hermitage, the home of that earlier day champion of Democracy, Andrew Jackson.

Careful architects had planned a heavy plate glass window to shield the President from the weather while he watched the parade pass, but he asked that the glass be removed.

Even the staunchest of the President's followers grew weary from the strain of activities which left the Chief Executive undaunted.

In his inaugural address, the President outlined the philosophy that will guide him during the next four years. He summed up this philosophy in this statement:

"The test of our progress is not whether we add more to the abundance of those who have much; it is whether we provide enough for those who have too little."

Kidnapping and other startling crimes that shock the nation all too frequently are a challenge to our generation to stamp them out.

One example of the federal government's activity in the field of crime prevention is the police training school which has been established by the Department of Justice. Here representatives of various state and local police agencies receive instruction in the latest methods of crime detection and prevention, and then carry their knowledge home to their fellow officers.

Crime cannot be conquered in a day, but the steps that have been taken are an encouraging indication of the progressive approach which is clearing the way for future results.

I had the privilege of attending a White House conference last week in which emphasis was placed on the need of a long-range program to preserve and utilize water in order to prevent a recurrence of periodic disastrous floods. The present flood, which has reached record proportions has brought this need forcibly to mind.

Engineers now agree that the floods that occur in the main river streams could be largely prevented by utilizing the water in a soil conservation program and in a system of reservoirs, small lakes and ponds.

Such a program would take time to develop fully, but it would be well worthwhile. Water now wasted in floods would become a blessing instead of a curse.

BRISCOE BRONCOS

Accounts of Briscoe School activities, community happenings, personal items and other news as gathered by the faculty and student body.

Honor Roll

First Grade—Donald Ray Byars, Juanita Clepper, Nelda Bess Barry, Iris Clepper, Faye Francis, Irma Jean Lee, Mozelle Wilson, Ruth Zybach, Jovean Moore, Bobbie Rex Zybach, Reta Fae Aderholt.
 Fourth grade—Jamie Morrow, Doyle Ramsey, Lee Vise.
 Fifth grade—Bill Candler, Zane Grey Francis, Melvin Helton, Vernin Sivage, Troice Young, Marian J. Williams.
 Sixth grade—Edris Morrow, Delma Lee Satterfield.
 Seventh grade—R. H. Williams, Harley Vise, Wanda Sanford, Kenneth Walker, Bud McCarroll.
 Tenth grade—Lauverna Evans, Geraldine Wadsworth.
 Eleventh grade—Mary Margaret McCarroll, Maxiene Field.

Band Practice

Last Wednesday night the members of the Briscoe band met and "blew" together awhile. When the rough spots are smoothed out, we'll have a band.
 Somebody in the trumpet section annoyed Mr. Lummus by blowing a note behind time, but aside from such small matters the band is on the road to fame. (If that's a small matter, wonder what a big matter is like).
 Those who were out for practice are: Ewing Barnett, Bobbie Candler, Billie Candler, Bud McCarroll, Elmo Scott, Rubye Lee Williams, Edith Stubbs, James Lewis Smith, R. L. Zybach and Donald Ray Byars.
 Every Monday night the band members will go to Wheeler and on Wednesday night they practice at Briscoe.

Sports

Both boys and girls attended the Canadian tournament last week-end.
 The boys were defeated by Wildorado. Those making the trip were: Ray Sanford, Gene Evans, Earl Simpson, Ford Sollock, Kenneth Douthit, Glenn Field, Red Lane, Marian Clark, Joe Taylor, business manager and Coach James Coney.
 The girls were defeated by the strong Mobeetie lassies, winners of the tournament. Those making the trip were: Margie Vaughn, Laverne Treadwell, Vera McNeill, Vada Vaughn, Geneva McNeill, Gertrude Hudson, Mable Barnes, Lorene Treadwell, business manager and Edith Stubbs, coach.
Hats Off to Mobeetie
 The Mobeetie girls defeated the Briscoe lassies early in the tournament and worked their way to victory by beating Canadian in the finals. We wish to compliment them on their good playing and we are very glad they brought the first place trophy to our county. We say "hats off," because we realize it took a lot of team work and co-operation to obtain this honor.
The Briscoe 4-H Club
 The Briscoe 4-H club met Monday. Mr. Goule gave the condition of judging.
 A finance committee was selected. Many boys are entering in the judging teams; they expect to make a good showing.
First Grade
 Wayne Smith entered school this

Friends Shower Appreciation As Demonstrator Accepts Better Job

By LULA MAE FARLEY

The Panhandle loses one of its most outstanding women when Miss Viola Jones, home demonstration agent of Wheeler county, leaves to accept a similar post in Jefferson county with offices at Beaumont. She will take over her new duties February 15.

Since the news of her resignation has become known hundreds of people have come to her office to express their sorrow over her departure and to congratulate her on her advancement and offer best wishes.

Coming here in June 1927, immediately upon her graduation from West Texas State Teachers college, Miss Jones has established a reputation which is nation wide in its scope. Hundreds of women and girls under her guidance have received state and national recognition in home demonstration and 4-H club work.

Perhaps the most outstanding recognition of her 4-H club work came with the awarding of two college scholarships and two Washington trips for her club girls. Edith Renuca (now Mrs. Paul Stauffer) was the first to receive a Washington trip. In 1932 Leila O'Neal was awarded a college scholarship. Exie Creekmore, now a student in Texas Tech at Lubbock, won the scholarship award in 1935. In the same year Olie Marie Erskine won a trip to the National Congress of 4-H clubs at Washington.

In the last seven years Wheeler county has had 19 Gold Star girls. The most outstanding recognition in this line came in 1932 when four from Wheeler county were selected out of the 25 chosen from the entire state.

The record of club women under Miss Jones's supervision is also outstanding. Farm food supply has been emphasized every year. A large number of the prizes given at the Amarillo and Dallas fairs have gone to Wheeler county women and girls. Mrs. C. T. O'Neal placed third in the state in the tub pantry contest. In four years the club women have raised 548 gardens and canned many thousand quarts of foodstuff. One hundred and nine women have completed pantry demonstrations. Over a three year period 4-H club girls raised 234 gardens and eight completed home food demonstrations in two years.

Mrs. John McCarroll received state recognition in 1929 when she was one of the five women in Texas who were selected by "The Farmer's Wife" as master farm home-maker. In the Centennial farm and home contest last year Mr. and Mrs. J. E. Willard of Wheeler won first place

times for our valentine box. We have also finished our geography and English notebooks.

Total of \$2.45 has been turned in for pictures.

Did You Know?

That the school is taking twenty-three magazines? Here are the names of them:
 Good Housekeeping, Style, American Home, McCall's, Hygiene, Parents, Fore Cast, Popular Science, Correct English, Children's Activities, Child Life,

American Boy, Literary Digest, Grade Teacher, Instructor, National Geographic, Industrial Arts, Popular Mechanics, Popular Home Craft, Practical Home-Economics, Scientific American, Junior Red Cross.

Aids to Success

Keep your body physically fit. Train your mind. Study hard. Knowledge commands respect. Choose a life work, big enough to challenge your greatest efforts—a work that you thoroughly enjoy. Work hard. It may be necessary to trade your wrist watch for an alarm clock but begin on time and do not be afraid of working a little overtime. Guard your character—keep it above reproach—be a good moral risk. Be big enough to consider calmly the other fellow's point of view. Be satisfied with nothing less than your best. Be ambitious to serve others. Choose companions that will stimulate you to greater heights. Believe in yourself; believe in others; believe in God.—J. R. Grant.

Things to Think About

Divide a joy and you multiply it; keep it to yourself and you subtract it. Faithfulness is never unrewarded. To be a master, we must first be a beginner. In everything you undertake put forth the best that is in you. Nothing is accomplished with your head in a hole.

Just For Fun

Gene: "Here's some candy for you. Sweets for the sweet."
 Bernice: "Thanks." "Here are some nuts."
 Warren Clepper—"I dreamed last night that I had invented a new type of breakfast food, and was sampling it when—"
 Dow—"Yes, yes, go on."
 Warren—"I woke up and found a corner of the mattress gone."

in the district and placed in the state contest.

Mrs. Olin Davis placed second in the state wardrobe contest one year. Mrs. Frank Westmoreland received honorable mention twice in the state wardrobe contest. In six years 94 women have completed wardrobe demonstrations. Thirty-five girls completed wardrobe demonstrations over a period of four years.

The club women entered 635 dresses in the clothing contest in an eight year period. In 10 years the girls made 420 dresses for the clothing contest.

Last year twelve women completed kitchen demonstrations. Fifty living rooms have been remodeled. The women have completed 42 bedroom demonstrations and the girls have completed 38 bedroom demonstrations over a period of four years. Seventy yards have been landscaped by the women and six by the girls. One hundred and ninety-eight girls finished their poultry work. One hundred and sixty-seven women have completed poultry demonstrations.

In the last 10 years 157 women and 114 girls have attended the farmers short course at College Station as a result of their outstanding club work.

There are now 15 women's clubs

News From Center

(Josephine Poole)

Mrs. George Beaty and small son, Duane, are visiting with her parents, Mr. and Mrs. A. L. McCray of Gageby this week.

J. R. Burke visited in the home of his son, W. E. Burke, Tuesday.

W. P. Green is on the sick list this week.

Mr. and Mrs. W. W. Poole visited in the home of Mr. and Mrs. I. W. Rives Sunday.

Charley Brittan was a visitor in the home of Mr. and Mrs. Wilburn Rives Sunday afternoon.

Miss Frankie Beaty spent Thursday night with Lavern Williamson.

Miss Imogene Beaty spent Tuesday night with Lorene and Morene Clay.

Mr. and Mrs. Frank Shadden had as guests Sunday, Mr. and Mrs. Tom Forest and children and Imogene Beaty.

Mr. and Mrs. L. C. Beaty and son Lloyd visited in the home of their daughter Mrs. Lee Lackey and family of Lutie.

Miss Bobbie Nell Henderson spent Monday night with Merl Kuykendall.

and 9 girls' clubs in Wheeler county. The home improvement phase is always a dominant one in this work. Farm food supply is emphasized at all times. Gardening, making pantries, and learning the adequate use of foods are topics which Miss Jones has stressed.

The various county wide unions of clubs has proved to be very successful. The county council of women's clubs is a strong working group and helps put over the county program. Mrs. Jim Trout is beginning an exceptionally successful second term as chairman of the county council.

The quarterly meetings of the 4-H county councils are happy meeting places of the young folk and tend to create good will among the various communities. The boys, under the supervision of Jake Tarter, county agent, and E. Goule assistant agent, meet with the girls in all county council meetings. The morning sessions of these meetings is devoted to recreation. After a picnic lunch a business session is held. It is followed by stunts presented by the clubs. The high light of the year is

the summer encampment. This council is one of the most notable of Miss Jones's many successes.

A comparatively new group is the recreation association which was organized in March 1936. New and entertaining games are played at this meeting.

"Teaching people to play is one thing we have not given enough consideration," Miss Jones stated. "We hope to correct this with the recreation association."

A county wide organization of club reporters meets quarterly and is a material aid to better publicity for the clubs.

Aside from her noteworthy work in the home demonstration field, Miss Jones is a tireless church and civic worker. She is an active member of the Business and Professional Women's club and was elected district director of district 1 to become effective in July.

Richard Carter, of Wellington, who has been visiting his sister, Mrs. Melvin Howe and Mrs. Glenn Williams, returned home Thursday.

WHEELER, TEXAS

Edited Weekly by Journalism Students of Wheeler High School.

VOLUME XII—NUMBER 21

THURSDAY, FEBRUARY 4, 1937

WHEELER, TEXAS

Miss Holbert Takes Senior Sponsorship

Entertainment Committee Is Chosen To Plan Activities.

Miss Imogene Holbert, head of the English department, was selected to sponsor the seniors at a meeting held last Wednesday. The class had been without a sponsor since Robert Mayne left.

An entertainment committee consisting of Orveta Puett, Bonnie Adams, Marthabys Wiley, Raymond Badley and Guy Robison was appointed to work with the president.

The class is planning an entertainment to raise funds for senior day but has not yet decided what type it will be. They are also considering presentation of a play entitled "The Night Owl" but do not know whether they will use it.

Journalism Class Not to Attend Meet

As contest material and dues were not submitted before the deadline early in January, members of the journalism class will not attend the third Panhandle High School Press association meet to be held in Amarillo this week-end.

The Corral ranked high at the two sessions of this organization, having been awarded the trophy for the best newspaper in 1935 and second place last year, competing against Amarillo, Borger, and Lubbock.

In 1935 Faye Ficke won first on her news story of the home economics dress contest. Orveta Puett, editor, was vice-president of the association last year and gave the response to the welcome address at the convention.

An all-day trip to Amarillo to visit the News-Globe plant and other places of interest in Amarillo will probably be taken by the Wheeler journalism students in the spring, since they are missing the press meet.

18 VOLLEYBALL GIRLS START REGULAR WORKOUTS IN GYM

The volleyball girls under the direction of Miss Winona Adams began regular workouts Monday morning in the gymnasium.

Those reporting were Evelyn LaFon, Clorene Morgan, Florence Wright, Bernice Williams, Cleo Sewell, Inez Hunter, Lillie Myrl McClain, Mable Hyatt, Maxie Lee Wilson, Marion Smith.

Lois Walker, Helen June George, Ira Joe Derryberry, Gayle Wilson, Mary Edna Patterson, Elva Belle Crouch, Mildred Plattner and Dena Fae Whorton.

Irene Hunt Chosen Junior Vice-President

Program Committee Is Appointed By President.

In a called business meeting last Wednesday week the junior class elected Irene Hunt vice-president. Fern Davis, former vice president, was married recently.

Irene is editorial editor of the Corral, a member of the Homemakers' club and district song leader of this organization. She was one of the leaders of the pep squad and a candidate for football queen last fall. The president appointed Imogene Jamison, Lavell Jacob and R. J. Puckett on the committee for arranging the assembly program. Howard Nations, Mildred Plattner and Mary Genes on the finance committee. Purple and white were selected as the class colors.

"In all probability there will be a junior play this year," stated Amos Page, president.

Boxing Holds Spot For Activity Period

The activity period seems to be in full swing with all the games in progress. In the boy's division boxing seems to be holding the spotlight.

Those who wish to enter boxing are asked to see Ray Norman, who takes the name and brackets it off with someone in that weight.

Winners in the different weights as heavyweight, featherweight, etc., will probably meet opponents from some other school when Coaches Bob Clark and Stina Cain start teaching wrestling and boxing.

Other games played in the gymnasium during activity period are ping pong, shuffle board and basketball.

HOME ECONOMICS STUDENTS WILL ATTEND DISTRICT MEET

Wheeler's Home Economics club will participate in a program at the district home economics meet which will be held at McLean on Saturday, February 13. Someone from the Wheeler classes will talk on hobbies. The program will begin at 10 o'clock in the morning and will dismiss at 3 o'clock in the afternoon. Twenty-five cents will be charged for lunch which will be served at the noon hour.

BOY SCOUT TRIP POSTPONED DUE TO SUB-ZERO WEATHER

The Scout trip to Palo Duro canyon was postponed last Saturday because of the sub-zero weather and because there were not enough going to pay the expenses for the trip.

Scoutmaster Bob Clark stated that a trip will be made in the summer when the weather is better.

Three Teachers Get Names in Daily Paper

C. B. Witt, Mrs. Gordon Whitener, Stina Cain Mentioned.

Three teacher's names were found in the Amarillo Daily News during the week-end.

In the section "Meet Your Neighbor" Principal C. B. Witt's picture and a short sketch of his life was given.

Mr. Witt has spent most of his life in the Panhandle. After attending a country school he entered Wheeler high school. He earned a teacher certificate from the Denton State Normal.

After receiving his degree Mr. Witt taught in a little school near McLean. He joined the army in 1918 and was placed at Camp Travis.

He attended West Texas State Teachers college and after finishing there was made superintendent of Briscoe High School. The past five years Mr. Witt has been principal of the Wheeler school.

Another story from the Amarillo Daily News gives due credit to the local home economics teacher, Mrs. Gordon Whitener. Miss Ruth Hughey, head of the vocational home economics division of the state department of education, said the graduates of Canyon were doing outstanding work in home making and mentioned Mrs. Whitener as being one of them. The only others praised were teachers at Canyon and Amarillo.

In the column on college activities that appears each Sunday, the following was from the W. T. S. T. C. news: "Stina Cain was back on the campus for a short visit."

JOURNALISM READING ROOM IS MOVED TO NEW LOCATION

In order for all journalism students to have access to daily newspapers in the reading room it was moved last week to the little room on the left of the stage in the high school study hall.

In the column on college activities that appears each Sunday, the following was from the W. T. S. T. C. news: "Stina Cain was back on the campus for a short visit."

Corral assignments will also be posted in this room.

SUPT. J. L. GILMORE SPEAKS AT GRAMMAR ASSEMBLY

Acting as chairman of the grammar grade assembly Monday, Assistant Coach Stina Cain introduced Supt. J. L. Gilmore, who spoke on the value of good conduct.

He asserted that it is better for one to be remembered for something he has done rather than to have to carve his name on school property in order to leave an impression with the student body.

\$40.85 Raised For Red Cross Funds By Students, Teachers

Contribution Is in Addition to the Many Donations Made Earlier in Drive.

Sum of \$40.85 was contributed to the Red Cross sufferers by students and teachers of Wheeler school in answer to an appeal made last week by Supt. J. L. Gilmore. This was in addition to contributions made earlier by many faculty members and pupils.

The honor roll which follows does not include those who gave money earlier through various other channels.

Those donating in the high school were:

Alice Hardin, Bill Noah, Dorothy Myrtle Beth Moody, Imogene Jamison, Lois Walker, Alvyn Jolly, Eric Manney, Mrs. Gordon Whitener, Coach Bob Clark, Elva Willard, Everett Cole, Robert Guynes, Audrey Warton, Marcel Farmer, H. E. Cole, Lois Kirby, Mal Wynne, Roscoe Morgan, Principal C. B. Witt, Parilee Clay, Ira Jo Derryberry, Lillie Myrl McClain, Chandos Robertson, Alton Nations, Harrison Hall, Duard Parker, Inez Hunter, Miram Prince, Cleo Sewell, J. N. Tucker, Ferrol Ficke, Caroline McEe, Arthur Red, Lilla Map Crawford, W. C. Zirkle, Supt. and Mrs. J. L. Gilmore, Earl Gilmore, Ray Holley, Ray Mason, T. J. Cole, Jr. Mr. and Mrs. T. J. Cole, Helen Flynn, Arlie Cole, Clarice Robertson, J. E. George, Miss Winona Adams, Wanda Lee Hyatt, Miss Bernice Addison, J. D. Badley, Laverne Cox, Velma Hestlow, Presley Guynes, Mable Hyatt, Donald Hunt, C. Pendleton and Wallace Pendleton.

Those in grade school who contributed were:

Geraldine Williams, Paul Johnston, Lawrence Johnston, Mabel Lamb, Imogene Crowder, Naomi Merritt, Mrs. Allen I. Smith, Clyde Guynes, Louise Whitener, LaVerne Gill, Vera Lee Jones, C. W. Shaffer, Joe Page, Robert Goad, Mrs. Roscoe Morgan, Norris Walker, W. L. Carver, Ross Etrington.

Glenn Van Pool, Nadine Bremley, Junior Braxton, Wanda Jean Shaffer, Louise Gill, Sammy May, Carl Pierce, Louise Tillman, Gene Hall, Tommie Joe Pendleton, Annie Bowers, Jack Perryman, Junior Richardson, Sidney Lamb, LaBee Cole, Lois Anglin, Virginia Lowrie, Junior Pendleton, Jeanelle Crowder.

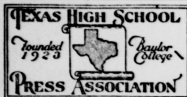

Connie Pierce, Wanda Sewell, Ruby Reid, Lois May, Wanda Jean Shaffer, Oleta Carver, Maurine Willard, Nathan Barr, Maggie Davis, Loretta Ahler, Jaye Brewer, Doris Miefcheil, Wynne Sandifer, Violet Crowder.

Aim: To record accurate accounts of school happenings interestingly.

THURSDAY, FEBRUARY 4, 1937

CONDUCT AT GAMES

Conduct at any sort of a game between schools demonstrates the type of person one is and the conduct of the students will reflect on the school.

To yell for one's team shows school spirit. When slurs are thrown at the opposing team, that is not sportsmanship.

When there is too much noise the players become excited and cannot play so well.

Many people who enjoy sports may stay away because a few ill-mannered people throw peaches, oranges, peelings, and anything that can be thrown. Such action tends to weaken school conduct.

USE THE DICTIONARY

Who is your best friend? It is the dictionary?

One goes to the dictionary for almost any kind of information. If he is in doubt how a word should be spelled or pronounced, or if he wishes to know the meaning of some word, it is always found in the dictionary.

When some student is writing an English paper and wishes to know the plural of some word, the dictionary is always willing to help. Many times if a student consults a dictionary when writing themes and such like he will make a better grade than the student who does not.

A MENACE TO SOCIETY

A menace to society is the person who, when a fellow student passes down the aisle in the study hall, perpetually allows his feet to protrude into the passage and to trip the passerby.

This practice is very dangerous and is likely to injure someone severely. It is liable to cause a serious head or even a back injury. He always steps into the passage and it might inflict upon some student.

THE LIBRARY FEST

The most annoying person to a librarian is the one who can never make up his mind. He always steps to the rail and stands there until someone asks him what he wants. The usual answer is: "Just anything" or sometimes "I don't know." Wh-a-n there is a long line of pupils

SNUBBING POST

A very amusing basketball game the tussle between the eligible and ineligible football players to a bystander it appeared they were playing by football rules—they reminded of one of knights in armor. The game was refereed by Coach Clark Stina Cain was a twelfth person on the court—perhaps he was headlineman.

A popular English teacher was chosen by the senior class to sponsor those dignified students. Their former sponsor had a gift of making you be as any statement he made. He not only proved that the moon was made of green cheese but also that it was raining when there wasn't a cloud in the sky.

Have you noticed the '35 and '36 class rings on the fingers of Willie Dee and Ethel Claire, respectively?

It happened in plane geometry. It seems that Guy wished to know the definition of intersection. Miss Kirby obliged by saying it was the cutting off of something. Guy replied that he had—almost intersected his finger indicating his bandaged forefinger. Cute?

A true example of learning young—A small fourth grader was seen sinking at a popular high school girl. Perhaps it was her little brother, (or do I know my brothers and sisters?)

"Stowaway" is said by several students to be Shirley Temple's best picture. A desire expressed by a member of the cast on Uncle Ezra's broadcast as you slide down the banister of life remember me as a splinter in your career.

The direct question "One Never Knows, Does One?" is more truth than song.

Wooden Hand Is Cue for Reporter To Follow Clue

Wandering into the office Friday and seeing a wooden hand hanging from the trophy case, a reporter became curious to know what it belonged to.

After investigating he found it to be the hand of a marionette, a large doll which has strings tied to different joints of its body. The other end of the string is fastened to a cross-piece above the doll's head.

By taking the crosspiece and moving it and the strings in a certain way one is able to make the doll dance and perform gymnastics.

Coach Bob Clark is the owner of this puppet and is teaching the fifth grade section B how to operate it.

waiting, matters are complicated and time is wasted. The best method of seeking for either magazines or books is to find out the name of it before going into the library. This would be a good help to the one who is checking the books and would also save much time and trouble.

INTRODUCING

Virginia Burgess, queen of Wheeler high school, was born Oct. 29, 1922, in Wheeler. She has brown curly hair and blue eyes. Her height will not exceed five feet and four inches.

This young woman is classified as a freshman and is quoted as having gone to only one other school. That school is Magic City where she was football queen.

"Gummy" likes pink and white. Her sport is basketball and she has played two years. Ruby Keebler, Dick Powell and Shirley Temple prove favorite stars for her.

Soft music over the radio brings out the finer nature of Virginia and inspires her to blend her voice in the song. She takes pride in admitting that she can sing three different parts; soprano, alto and tenor.

Being secretary of her class, added to all her other activities, makes Virginia a very busy girl.

SAGE BLOOMS

Why I Should Like to Have Lived in Franklin's Day

(Mary Genthe)

I should like to have lived in Franklin's day because I could have gone to the quilting-bees that were customary in that day. I could have helped in the arranging of things in the small one-roomed-home which my father would probably have owned; as it is, I must let mother do it all because she doesn't have anything else to do. I would more than like to see my father would probably have owned; as it is, I must let mother do it all because she doesn't have anything else to do. I would more than like to see my father would probably have owned; as it is, I must let mother do it all because she doesn't have anything else to do.

I would not have had to go to school; rather, I would have stayed at home while by brothers went. While they were at school I would have helped my mother with the soap-making, washing, ironing and in my leisure time I would have spun thread and woven cloth for my dowry.

P. S. I could have used bad English without being criticized by my superiors.

FROM OTHER BRANDING IRONS

The law will never hold for:

Stealing a kiss
 Shooting the works
 Eating an egg
 Cutting a friend
 Killing time
 Hanging a picture
 Murdering a song
 Slashing a salary
 But just try talking back to a teacher.

—The Prairie, Canyon, Texas.

An Estes Park, Colo. woman reported that a large bear and a small cub have raided her ice box several times. She had better check up on her hubby and Junior.—The Prairie.

A pessimist is a person who has a choice between two evils and takes them both.—The Brand, Hardin-Simmons University, Abilene.

This literary gem was originally printed in the Pampa Daily News and then as an exchange in the Shamrock.

Little boy ink don't blow your horn.

There ain't no cows and there ain't no corn.

Where is the little boy that tends the books and

He's on a relief job fast asleep.

Caught in The Lasso's Noose

What is the big rumor about Aubrey Warren going to see Ruth Frazier?

We wonder by whom Ray Holly sits down on the bus every morning? Cleo Sewell should know.

While Mildred Plattor was discussing a top in history III she declared the automobile quickly took the place of the "old fashioned horse." Since when did the horse become old-fashioned?

It has been rumored that Rena Mae Wharton is "pretty good" when it comes to keeping everyone on the bus laughing.

Herbert Green thinks it's about time he is getting a letter. At least he told some of the boys he thought so.

We wonder why Irene Hunt sits down by Amos Page when she comes to journalism class late.

Dorothy Winkler seems to be very unhappy these days. She surely couldn't be still grieving for her boy friend in Arizona, Louis Havenhill.

Why is it that Huffman Walker is always writing Maxie Wilson's name on every one's books? He has been married recently.

R. J. Puckett has explained Clowes "Jeep" Jones as: see nothing, hear nothing, do nothing, is nothing.

Perhaps last week you noticed the new title cut on the sport page. The editor of the Wheeler Times procured it.

The Corral carried a story about the marriage of Fern Davis to V. S. Johns of McLean in last week's issue. In the column next to it was the story about over due library books and spoke of her as Fern Davis.

It seems that we journalists should get together on our stories.

We also had "Amos Page Hunt" instead of Amos Page on one of the "Song Hits" and left Irene's last name off. This was caused by the lines getting switched.

A group of girls was knitting in the typing room at the noon period when someone in the hall mistook it for an old maid's room.

On Monday March 1st Mildred for some candy then said, "I surely ain't glad I'm not bashful."

Ferrol, Lilla Mae and Lois really stepped out over at the tournament, so it is heard.

Do you know whose name is written in ink on Edwin Robertson's jacket? We will tell the secret. It is a little blonde haired freshman named Joyce Faust.

Claudia Stinson Wins In Home Ec. Contest

Dresses of Marion Smith and Viola Lamb to be Sent To State Meet.

Claudia Stinson, freshman, won the high honor of taking first place in the home economics I dress contest last Tuesday afternoon.

Marion Smith received second place and Viola Lamb got third position. Fernnie Williams and Leode Evisons tied for fourth place.

Claudia will attend the state home economics meet at Fort Worth in the spring. She will model her dress there and the other dresses winning places will be shown for exhibit.

The costume winning first place is black with a white figure in the material. It is made sport style with a stitched collar.

All dresses winning places are on display in the home economics cottage at the present.

Members of the class who competed in the contest were: Ruby Ayres, Elizabeth Balch, Virginia Barron, Mella Hyatt, Marilyn Johnson, Caroline Melce, Leode Evisons, Marion Smith, Lena Fae Whorton, Fay Webb, Marcel Farmer, Viola Lamb, and Ethel Claire Roney.

Evelyn Ray Benge, Meta Bruton, Rosaline Bradstreet, Elva Bell Crouch, Stella Cooper, Arlie Cole, Presley Guynes, Louise Genth, Frances Noah, Merle O'Gorman, Bernice Williams, Claudia Stinson, Norma Webb, and Aimee Coleman.

Miss Viola Jones, county demonstrator, was one of the judges for the contest. She was assisted by Miss Ruby Machlaurin of College Station, Miss Lavell Cook, Breese home economics teacher, and the Kelton home economics teacher, Miss Flora Gordon.

The dresses were judged by the following scale: 50 points for general appearance, 25 for construction, and 15 for cost of the garment.

Miss Gordon brought her home economics class to the contest. They also looked over the cottage. There were 10 or 12 mothers present for the occasion, according to Mrs. Gordon Whitener, Wheeler home economics teacher. Several teachers and students from high school also attended.

Janell Perryman won first place in the home economics I dress contest last year. She went to San Angelo. Nerine Young won year before last and went to Corpus Christi.

Ten Junior Wristslets Arrive

Ten ten junior wristslets arrived Friday. The cost was \$3.80, a dollar of which was paid when the order was sent and each student is now urged to bring the remainder of the money plus 4 cents for postage, according to Miss Winona Adams, sponsor.

Texas Leads in Sulphur

Although Texas and Louisiana mines produce nearly 99 per cent of American mined sulphur, on the world market competition from government-subsidized foreign producers and from by-product sulphur in 1931 reduced America's share of world sulphur production to less than 26 per cent, reports the All-South Development Council.

The secret of happiness is not in doing what one likes but in liking what one has to do.

Lincoln Found To Be Popular In Interview With Faculty, Pupils

That Lincoln was a great man and leader as well seems to be the general opinion of the teachers and students. Each one holds dear his memory and regards him with respect and admiration.

On February 12, our country celebrates the birthday of this man so worthy of our praise. He served his best with unflinching courage and served it well.

Of his character volumes have been written and every true American is familiar with the life story of Abraham, "the rail-splitter," and his struggle for education and a place in this world.

Several students and teachers have commented as follows on Lincoln:

Miss Ruth Ewing: "I think that he was the greatest man that ever lived."

Mrs. J. L. Gilmore: "I think he was a great man because he stood for his ideals and did not bow to any one party. He believed that slavery was wrong and that the United States should be made up of it."

Miss Imagine Holbert: "I admire Lincoln because he was thoroughly human and forgot himself in the

passionate desire to lift and elevate mankind. He was humble, sincere and honest."

Supt. J. L. Gilmore: "Yes, Lincoln was a great man. But one reason was that he was at the right place in history at the right time. He was not any greater than any other of the presidents; he handled that particular situation in the right way. That made him outstanding."

Miss Winona Adams: "He was a character worth studying. I think he was above reproach and that he was a genius and was well suited for his time and age."

Clella Beth Moody: "Oh, he was a great guy."

Bob Tillman: "He was a darned good feller even if he was tall, lank and ugly like myself."

Junior Jamison: "He was a guy that had enough determination to do what he wanted to."

And so it goes—each one to his own opinion. This has not dented our sense of appreciation for great deeds and outstanding leadership. Thus Lincoln lives on in our memories.

COLTS

The youngsters in Mrs. John Fickel's first grade have been learning to write their names in long-hand during the past week. If one will notice, the children are very fond of their few story books. The proceeds of a play to be given by the Mother's club will go to buy more story books for the first grade library.

Visitors in the second grade of Mrs. C. C. Crowder during the past week were Mrs. Bob Rodgers and Mrs. Bennie Westendorp. The second graders are studying farm life and have made several posters pertaining to it.

Because of their study of transportation, the blackboard in Mrs. John Hood's third grade boasts a picture drawn in colored chalk of the first airplane and the first train. The following poem is a fine example of the poetical talent in that room.

"The Kayak"

(By Joanne Hilgers)

The kayak is a boat.
The Eskimos use it up north
To keep them afloat
When they go back and forth.

An interesting project of Mrs. Roscoe's Morgan's fourth grade is the opening of a grocery store. The cash registers for the rushing business were made by Glyn VanPool and Charles Ray Liley.

Mrs. C. J. Moeck, teacher of the fourth grade, stated that Lewis Craig had been out of school because of illness. This room has made a picture show during geography class of various scenes in Holland.

Upon entering the sixth grade one immediately notices the new pictures decorating the room. These were won by the pupils saving wrappers from notebook paper. Miss Ruth Ewing, room teacher, stated, "The class received a letter this week from Miss Ceotile Pace of Hereford, Texas. It was so neatly written that they expressed a desire for the study of penmanship. The last period in the afternoon has been set aside as penmanship period."

Health Officer Warns Of Pneumonia Danger

Always a Serious Disease, It Often Follows a Common Cold.

AUSTIN.—Pneumonia is always a serious disease, and early treatment is of paramount importance to lessen its severity and prevent death, is the warning issued by Dr. George W. Coe, State Health Officer.

"A person previously well may develop pneumonia suddenly," he said, "but most often it occurs in persons who have, or who recently have had, a cold. Yet many people do not take the cold seriously enough. Suspect every cold. Go to bed immediately if you have fever with a cold, call your physician, and do exactly what he says. By intelligently following your physician's advice at the beginning of the attack, you may ward off the after effects which so often follow neglected colds—pneumonia among them."

"Almost any part of the air passage may sometimes be attacked by bacteria. When the nose is affected we call the condition a cold. The tissues of the nose react to such infection by a profuse mucous discharge of mucous liquid. This discharge is really an attempt on the part of the body to get rid of the germs and their poisons. If the infection is lower down, it causes a sore throat. If the voice box is affected, the condition is called laryngitis. If the germs get down to the lungs, the person affected has pneumonia."

"These respiratory diseases may be avoided many times by establishing individual health measures. Help prevent colds and pneumonias by proper personal hygiene. Eat moderately, drink plenty of pure water, and sleep eight to 10 hours every night with windows open. Do not allow the temperature of your home or working place to exceed 70 degrees Fahrenheit. Wash your hands frequently, especially before eating. Take some exercises out of doors every day, but avoid fatigue and unnecessary exposure to cold weather and rain."

"Watch your health habits and avoid a cold if possible—but if colds develop, take care of them and avoid complications of pneumonia."

FUTURE FARMERS OF AMERICA

Conducted by W. C. Zirkle Vocational Agriculture Instructor

W. C. Zirkle, Joe Forrest, Chandos Robertson, Jackie Lee Glenn and T. J. Cole attended the Pampa district Future Farmers of America and Vocational Agriculture meeting held in McLean last Saturday. Wheeler, McLean, White Deer, Claude, Perryton and Panhandle were represented. A delicious barbecue was served at the room hour.

The F. F. A. will have the distinction of being the first school club to present a chapel program next Friday, when the following program will be given:

"The History of F. F. A."
"Why I Take Vocational Agriculture."
"Rope Making Demonstration."
Mr. Zirkle stated the F. F. A. may put on a small play.

Chandos Robertson was the only member of the local chapter entering the essay contest sponsored by Swift Packing Co. This contest is open to all F. F. A. boys. Swift and Co. is offering 200 prizes for these essays ranging from \$100 down to \$5. The subject of the essay written by Chandos was "Our Marketing and Distributing Agencies."

Each member of the F. F. A. has entered the Hoard's Dairyman dairy cow judging contest in which he places the five classes of cows as he thinks they should be arranged. The 12 prizes for the contest range from \$80 to \$1. Each member in addition to the chance of getting a cash prize will receive valuable information and practice in the judging of dairy cows.

The F. F. A. Motto is:
"Learning to do,
Doing to learn,
Earning to live,
Living to serve."

UP TO TEN— AND THEN SOME

One more senior basketball tournament to attend this year.

Two games were won by the girls at the Canadian tournament.

Three girls seemed to have a very nice time during the tournament. What do you think, Lilla Mae, Ferrel and Loris?

Four more months until school is out.

Five in solid geometry counting the teacher.

Six days Wava worked in Harold's store last week.

Seven more typewriters could be used by the journalism students.

Eight pupils were enjoying themselves in the library the last period Monday afternoon—studying.

Nine periods each day seem to get longer except the lunch period.

Ten minutes to wait for lunch is hard for the English IV students to do.

Work is the touchstone of progress and the key to success.

Boys Start Training For Boxing In Gym

Coach Clark to Teach Wrestling Winners to Receive Trophies.

Coach Bob Clark announced this week that all boys wishing to take boxing could begin training in the gym afternoons after school.

He motored to Amarillo Saturday and brought back two pairs of boxing gloves, one striking bag and one pair of gloves with which to punch the striking bag.

Coach Clark stated that sometime in April Wheeler school would hold a boxing tournament just for the schools. To the school that wins the tournament a large trophy will be given and gold gloves will be awarded to individuals.

Mr. Clark will teach wrestling and Coach Cain will give boxing instruction. A 20-by-20-foot wrestling mat is being made.

Girls in Semifinals At Canadian Tournament

Wheeler Lads Defeated in First Game By Miami Warriors.

With some 38 teams entered, the annual Canadian basketball tournament ended with the Mobeetic lassies winning first place, defeating first the Allison girls, then the Canadian team.

The strong Lakeview boys took top honors in their division and the Samnorwood lads won second place. Coach Garson Rish helped referee the games.

The Wheeler lads were defeated in their initial game by the Miami boys, 38 to 23. Wheeler girls defeated the Berger team 33 to 22.

The Wheeler Lassies then beat the Wellington quintet by nine points but met the Canadian girls and were defeated 17 to 24. Timney, star forward, fouled out just before the first half ended.

If the Canadian schools had given consolation, Wheeler girls would have played the Allison girls for that honor.

Girls Win, Boys Lose Contests at Mobeetic

The Wheeler boys lost a fast and exciting game to the Mobeetic Hornets last Thursday night in the local gymnasium to the score of 31 to 26. The girls came out on the top side of a 39 to 38 score for the first win in several tries over the Mobeetic sextet this year.

Jolly, ace guard, was out of this game because of an injured lung. This was probably one reason for the defeat.

Timney, forward of the Wheeler girls' team was playing her last game for this school. From here she plans to go to Texas Tech.

After these two games a battle was waged between the eligibles and ineligibles in football at Wheeler. The ineligibles emerged on the top of a 16 to 1 score. The boys played in basketball shoes but they had on their football uniforms.

The Scout

Scoutmeeting was held Tuesday night in the Methodist church with Scoutmaster Bob Clark, in charge. They passed the time going over text and getting membership cards ready to send to Pampa.

The court of honor will be held in the high school gymnasium, Feb. 18 with B. F. Robinson, Pampa, in charge. Boys from Kellerville, Shamrock and Kelton will go before the court of honor here at that time.

All parents are invited to attend the court of honor so as to get the correct idea of what Scouting is.

Mr. Clark attended a Scout banquet at Pampa last night. He will attend one in Kellerville on Feb. 9.

GRADE SCHOOL BOYS' TEAM DEFEAT MOBETIC 20 TO 10

The grade school boys basketball team played the Mobeetic grade school team at Mobeetic last Thursday night and defeated them 20 to 10. These lads under the coaching of Stina Cain have been working out this season and up to this date have not lost a game.

They have defeated Lela and Mobeetic, both by large scores. The starting lineup for the Mobeetic game was:

Tillman and Glenn, forwards; Ford, center; Adams and Hampton, guards.

\$40.85 RAISED FOR RED CROSS FUNDS BY STUDENTS, TEACHERS

G. Griffin, Claudine Sparlin.

Boys, Girls to Play Two Games Friday

Second Teams to Meet Lefors At Same Time There.

The Wheeler high school boys and girls have a double-header game scheduled for Friday night. There will be a game at Lefors and the Briscoe boys and girls will be here to play.

The Briscoe games are expected to be hotly contested. Briscoe girls seem to have a slight margin over the Wheeler lassies. However, the Wheeler girls have been practicing regularly and are preparing for this game according to Coach Bob Clark. This will probably be the closest game the local girls have had.

The tussle between the local boys and the Briscoe Brones is also expected to be bitter. In the Kelton tournament the Briscoe boys beat the Wheeler boys one point. The locals have been practicing regularly and hope to put up a stiff opposition to the Briscoe boys.

Boys making the trip to Lefors are Puckett and Groves, forwards; Ford, Markham and Compton, centers; Alton Weeks and Derryberry, guards.

Girls making the trip to Lefors are Fieles, Hunt, Wiley, Johnson, Swan, Bowers, Burgess and Roney.

The boys who will stay here to play the Briscoe Brones are Young, Page, Tillman, Norman, Jolly, Green, Empler and Stephens.

The girls who will stay here to play the Briscoe girls are Jaco, Lewis, Timney, Durham, Hampton, Johnston, Maxwell and Whorton.

County Tourney to Be Here Feb. 12 and 13

The Wheeler County basketball tournament is to be here Feb. 12 and 13.

According to Coach Bob Clark the game receipts will go to the interscholastic league to pay the officials and other expenses. Wheeler will get the consolation prize.

Clark stated that there would positively be no smoking allowed. The boys' games will be straight eliminations. Wheeler's first game will be with Lefors and if the boys win that they will go to the finals. The winner of Shamrock and Kelton will play Mobeetic and the victors of this clash will play in the finals against Wheeler or Briscoe.

The girls' first game is with Shamrock and the second is with Briscoe. If they win either of these, they will then play Mobeetic. The method of elimination to be used is called the round robin and is on the percentage basis; when a team loses two games it is eliminated.

Girls' teams entered are Wheeler, Mobeetic, Briscoe, Shamrock and Kelton. Coach Francis Smith of Lefors will referee the games. Wheeler has a game scheduled at Miami Saturday for both the boys and girls.

On Feb. 9, Lela seventh grade boys and girls will play Wheeler seventh grade teams on their own court. The high school senior girls' teams of both schools will play and the Wheeler B boys team will battle the Lela high school boys.

SPORT SLANTS

By a Mustang

AMAZING—If you were to watch the Wheeler lassies play basketball now you would see a different team from that on the basketball floor the first of the season.

They have developed teamwork, have learned to pass the ball better, and have begun to hustle. All this combined helped the Wheeler girls to advance to tie for consolation honors in the Canadian tournament.

THRILLING—We now have a tradition in our school. The grade school boys have not lost a game of basketball this year. They have played Lela and Mobeetic and have defeated them both by large scores.

HOT CHA!—It's here again folks! The grand old sport boxing! The boys who wish to punch each other on the mats have begun to practice in the gym after school.

Guessing who will be football coaches of the different schools over the country seems to be holding the spotlight. Dana X. Bible and Blair Cherry have accepted positions at Texas U. "Biff" James resigned as major in the army to be named head coach at the University of Nebraska. The University of Iowa is trying to acquire the services of Matty Bell of S. M. U. as head coach.

The golden gloves tournaments held over the country seem to be holding quite a bit of excitement. The winners of tournaments in the state of Texas will go to Fort Worth and from there the lucky fighters will go to Chicago.

It seems that the Wheeler girls sextet is improving greatly in our basketball. They took a game from Mobeetic, 39 to 38. This was their first victory over that team in several tries this year.

Practice for Spring Football to Start Soon

Coach Bob Clark has announced that spring football practice will probably start about the first of March. Clark stated there will be some good material out this spring, as about 40 boys are expected to report. According to him there will be two games played in April.

Lettermen that will be back are: Alton Weeks, Troy Shipman, Bob Noah, Amos Page, Herbert Green and Buford Emmer. Those that are not lettermen but will strengthen the team are: James Passons, Joe Markham, Jack Pitcock, Douglas Groves, Dempsey Davis and R. J. Puckett.

Among the grammar school boys who will be in high school next term to make some of the boys hustle are Alvin Hampton, Carroll Adams, J. R. Glenn, Homer Jones and John Wright.

OVERDUE LIBRARY BOOKS

Ranson's Folly—Deaverne Coleman.
Plains of Abraham—Fern Davis.
The Little Lame Prince—Junior Asher.
Stories of Lather Burbank—Inez Hunter.
