Breckenridge is used to playing under adverse conditions too. Thirty years ago Eastland and Breckenridge played an afternoon game that was just as balled up game was in progress. It, by the vay, was an afternoon game. At kow. that time Eastland, or very few other schools for that matter, played no night games.

Sometime during the second he game started it was blowing ut of the South. By the time the rame was over it was blowing out of the North. Everytime our boys hought they had a wind advantige, the wind shifted into their aces. I think this must have been one of the few football games on Hosted by Mrs. ecord where the Mavericks never lid have the winds to their backs at any time during the game. At one point the Buckaroos got

ff a long punt, with the aid of one, thus giving the Mavericks tion of officers. ossession on the 20-yard line, or | Mrs. R. D. Keiley, president, against the poor Mavericks and land led the opening prayer. n the show at Waco.

rame resulted in a 0-0 tie. If my wood Ragland. nemory serves me right this was before the penetration and first-Bucks had to settle for a cohampionship.

Maverick supporters are almost ure that if their team had gotten break at all that day the Mavericks would have won that game If they had, there's no telling where our boys might have wound up the season that year. But as it was they couldn't buy a break against Breckenridge. The wind played tricks on them, the elements worked against them, the wind blew and the sand flew. And right in the middle of it all a small tragedy occurred. Right in the middle of a stir-

ring march, the rain-soaked drumskin on the bass drum burst right down the middle.
