Dear Sir:

In regard to giving the Texas Electric Service Co. a new franchise, I think the main issue right now is does the present county council have the moral right to make a new contract seven or eight years before the old one expires? I say they don't have that right because this should be left to the city council of 1967.

Does the present council think they have a corner on brainpower and future commissioners won't

**Jehovah's Witnesses**  
 JOE WATTS, Minister

"Why Are There So Many Religions?" will be the subject of a Bible lecture to be held at the Kingdom Hall of Jehovah's Witnesses, 204 North Dixie Street, Sunday, Nov. 8, at 2 p.m.

The guest speaker will be Harold Green, Minister of Jehovah's Witnesses of Abilene. Other questions to be scripturally answered are, "Are there many ways to worship God, What is the right way?"

Joe Watts, presiding minister, announced that the public is invited to hear this message. "Knowing God," Mr. Watts said, "involves much more than knowing his literal name. It requires that we know what that name stands for, the acts that he has associated with it, the promises that he has given over his name. To do this requires that we study his word, the Bible. To this end Jehovah's Witnesses world-wide attend five Bible classes weekly to which all interested in Bible education are invited."

Other meetings for the week are as follows: Sunday at 3:15 Watchtower Bible Study. Subject, "Finding the Truth That Makes Men Free." Caption text, "You will know the truth, and the truth will set you free," John: 8:32. Tuesday: 8 p.m. Bible Study. Subject "Earthly Blessings When His Will is Done." Friday: 8 p.m. Service Meeting: 9 p.m. Theocratic Ministry School as follows. Written review on material, studied for past five weeks. Second Student talk, Psalm 18:34 to 19:14. Third Student Talk, Psalm 20:1 to 21:13.

Also at the Service Center, 308 West Third Street in Cisco, Bible Study each Tuesday evening at 7:30. Textbook being studied, "Your Will Be Done On Earth."

YOU HAVE NEWS TIPS?

**CONSTIPATED?**  
 Medical reports show how folks over 35 can establish regularity

After 35, irregularity often becomes a problem. What you need is something that aids nature and helps establish regularity. Such an aid to regularity is the daily use of SERUTAN. Here's medical evidence: A group of men and women took SERUTAN daily under medical supervision. In case after case SERUTAN, taken daily, helped establish regularity. So, for real relief from constipation after 35, try SERUTAN, powder or granular.

### Ordering In A Restaurant

Dear Mrs. Post: Recently I took friends out to dinner. The waiter came over to me first to take my order and I gave it to him. I have been told that I was wrong to do this and that as hostess, I should have been the last to order.

Answer: I am sorry but you most certainly were wrong to order before your guests. You should have asked your guests what they liked and then given the order for all to the waiter.

### When A Lady Rises

Dear Mrs. Post: Is it necessary for a lady to get up to shake

hands good-bye with another lady who is leaving earlier? Does she ever rise for a man?

Answer: She usually stands if she is much younger than the one leaving, or if the latter is a stranger and crosses the room in order to shake hands. She doesn't rise for an intimate friend except in her own house or if the friend is very much older. In her own house, a lady always rises to greet a guest and bid one good-bye, even though she is sixty and her guest a young man of twenty. One who is not a hostess does not rise for a man.

### Celebrating An Adoption

Dear Mrs. Post: My husband and I adopted a little girl about a year ago. The final papers will be coming through very soon making her our own daughter. We are so happy about this that we would like to give a party for friends and relatives to celebrate the occasion. Would such a party be in order, and if so, will you please tell me how the invitations should be worded?

Answer: A party certainly would be in order—in fact, sounds very happy. Some such wording as this could be used: "At last Mary is ours! Will you come in to afternoon tea to celebrate with us."

### Difficulty In Seeing the Cards

Dear Mrs. Post: Several weeks ago I played cards at a friend's house. The lighting was very poor and I had to strain my eyes to see the cards and as a result went home with a splitting headache. The bridge club meets at her house again this week and I don't expect the lighting will be any better. Would it be proper for me to ask her to turn on more light, or does good manners demand that I keep silent and struggle through the evening?

Answer: You can quite properly say as you look at your cards something like, "My eyes must be getting weak. I can hardly see the cards. Could I have another light turned on?"

### Lump or Granulated Sugar?

Dear Mrs. Post: I have just heard something that is brand new to me and would very much like to hear what you have to say about it. A friend of mine told me the other day that it was not proper to serve granulated sugar with coffee and that one should always serve lump sugar. Can she be right about this?

Answer: I do not think it at all important, but according to correct custom, lump sugar is served with hot tea and hot coffee. Powdered or granulated sugar is served with iced tea and iced coffee because it melts more quickly.

### Only Separate Seats Available

Dear Mrs. Post: Is it considered better manners, when there are only a few single seats in a bus, for a boy to stand near the girl he is with or should he take a seat at some distance away? Some of the boys always stand nearby and there are others who sit no matter where the place happens to be. Which way is correct?

Answer: If the distance they are going is short and a boy is actually accompanying her he ought to stand nearby. But if the distance is very long he would naturally sit wherever there is a place.

Mrs. Post offers readers leaflets on a variety of subjects concerning etiquette. If you would like to have her booklet No. 504, entitled, "Etiquette of Table Setting," send 25 cents in coin to Dept. E. P., care of the Newspaper to P. O. Box 99, Station G, New York 19, N. Y. Mrs. Post is sorry she cannot answer personal mail.

# OUR CUSTOMERS IN EASTLAND

This company is now operating in Eastland under a franchise granted our predecessor Company 40 years ago. Because we are required to continually add to our facilities serving the people it is not practical to run close to expiration of our present franchise before requesting a renewal. That is why we have made the request at this time.

The franchise requested by us is simply a permit to continue in business and is not exclusive and would not prevent the granting of a franchise to a competing plant or prevent the City from voting bonds to go into the electric business on its own account.

The franchise requested does not in any way limit the right of the City to regulate electric rates and service. We have many fifty year franchises.

We sincerely regret that a report has been circulated that the Company's Monahans franchise is for ten years. The person in Monahans who gave the information in response to an inquiry confused the franchise with a contract under which the Company supplies the City with street lighting and water pumping. The City of Monahans in 1929 approved a fifty year franchise to the Company.

We should have a long term franchise to justify our investment in new and additional facilities as Eastland grows and time goes on. We want you to have the facts as stated here so that you will not have any erroneous ideas about this franchise.

The more than 120 employees of the Company in this area will be affected by the granting of the proposed franchise. We have a large payroll at (1) the Leon Power Plant and (2) the Division Headquarters of the Transmission Department and (3) at the District Office located in Eastland. Because of the unusually large concentration of employees here our payroll is three times our revenue from sale of electric service to all of our customers in the City of Eastland and our taxes are a substantial source of income to the City, County and School districts.

We hope that our record for citizenship and good service deserves your support and your continued confidence through the years to come.

### Christian Science

The meaning for today of the book of Genesis will be set forth in the Lesson - Sermon entitled "Amm and Fallen Man" at Christian Science services Sunday.

Opening selections to be read from the Bible present these verses: "God created man in his own image, in the image of God created he him; male and female created he them. . . . And God saw every thing that he had made, and, behold, it was very good" (Genesis

1:27, 31). From "Science and Health with Key to the Scriptures" by Mary Baker Eddy this citation will be read (183:21-23). "Divine Mind rightly demands man's entire obedience, affection, and strength. No reservation is made for any lesser loyalty. Obedience to Truth gives man power and strength. Submission to error superinduces loss of power."
