into the arms of Gary Whitefield for six more points. The extra came easy.

Eastland's spunky Mike Graham made a beautiful long punt return which brought the Eastland fans to their feet. But, alas, the whistle blew, ending the half.

Mike Graham, J. D. Ables, Buddy Moser, Manuel Herrera and Gary Graham each showed moments of spark, but the Lions onslaught couldn't be stayed.

The holes just kept opening for the Lions and the Maverick's brave center plunged netted little.

Moser saw two of his nice passes fall incomplete early in the first quarter and M. Graham did likewise, as well as Tomy Beck in the second quarter.

The Dublin eleven added 12 points in the third quarter and 16 more in the last stanza.

It was the fourth in a row for both teams—Dublin's fourth victory and Eastland's fourth defeat. Dublin is a member of District 8-A.A.

Old Majestic Cafe Re-opens Casey's Fine Foods Soon

The interior is being refinished and will be decorated in two shades of adobe, which is a biege tone.

There will be seven booths and seven tables as well as a serving counter which runs almost the length of the front area.

About the only token from the past to remain, Meazell says, will be a giant scenic mural which adorns the back wall of the dining area. It was painted by Jack Askew in 1946.

The new owner-manager will also serve as chef. He has about 35 years of cooking experience, and says that the people of Eastland will find a modern, comfortable restaurant that boosts "home cooking."

The old Majestic Cafe was owned and operated by Ernest Halkias and Sam Diamond for many years. They now operate a restaurant in Wichita Falls.

Meazell, who has taken a long lease on the location, says that he plans to open the eating place at 6 a. m. each morning and will

Ranger Bank Files Suit Against Insuring Company

Commercial State Bank of Ranger filed a suit in 91st District Court in Eastland this week asking \$18,043.58 in judgement against the United States Fidelity and Guaranty Co.

The suit, filed for the Ranger bank by Bidde and Fender, a Fort Worth law firm, claims that the bank was covered by a "Banker's Blanket Bond" for \$100,000, executed by the U. S. Fidelity and Guaranty Co., an insuring agency, effective Oct. 1, 1952.

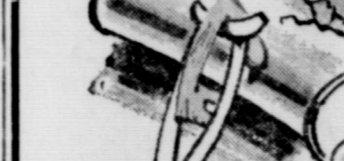

On March 31, 1958, the bank was named, the suit claims, and made a party in a suit filed by Helen K. Algeo and others, against Hall Walker and others, in 29th District Court of Palo Pinto. At that time Walker was a director, vice president and managing officer of the bank.

The suit claims that the Ranger bank's attorneys helped to bring about a settlement of the claim against Hall Walker, Alton Wesley Walker and the Commercial State Bank, whereby Hall Walker and Alton Wesley Walker were to pay \$111,250.

The bank loaned both men \$25,000 to be used as collateral to pay the amount, the suit claims. In the suit filed Thursday, the bank is asking that the insurance company be held for the amount incurred in the previous suit, and for future possible losses incurred should repayments of the loan fail to be made.

For those who might want to do a little flying of their own that day, he's going to offer rides, and plans to have a swarm of his flying friends in here for the day.
He's a man you'll surely want to meet.

He operates a first-class charter service that's economical and a boon to this part of our state.

The people over at Carbon feel that they've been dealt a blow by fate.

Their six-man football team meets a six-man squad from Strawn on Oct. 13th. The way it looks now, three of the Strawn starters are going to be marching away with the 49th Division on Oct. 15th.

Editor M. Duann is wondering if maybe they couldn't get the game rescheduled for sometime after the 15th.

More activity on the square. Mr. Casey Maezell is opening the old Majestic Cafe a few doors down from the Telegram.

Casey says that he's going to offer just about everything, but "grits."

One morning last week, he was telling Truitt Gregory about an experience he'd had in the past, which he attributed directly to serving grits in a restaurant.

He's probably tell you, if you ask him.
At the chance of inciting the ire of some of our readers, we're going to stay neutral.

Grits, we can take or grits, we can leave alone.

Notice over at the courthouse that every drinking fountain has a sign saying "Do not spit in fountain."
No doubt, this serves a good purpose; for those who do, shouldn't; but do you really suppose that those who don't, want to be reminded of those who do?

WITH SOUND & COLOR

Bands and Twirlers To Invade Eastland

The sound of brass and the spin of batons will be much in evidence in Eastland on Peanut Bowl Day.

The Eastland High School Band and the Eastland Jr. High School band will be playing host to bands from Cisco, Ranger, Rising Star, and Gorman, from the county, and to bands from Bangs and Breckenridge, as well as the famous "Marching 100" band from Fort Worth Polytechnical High School.

Nine bands, in all will definitely be here, and others haven't yet decided whether they can make it or not.

Twirlers from all around will be here for the big contest Saturday morning.

Judging the contest will be Norma Kniffen Dozier, a native of Chicago, who started twirling in 1942.

She served four years as a high school majorette in Chicago, as well as being featured with a V. F. W. drum and bugle corps and being affiliated with Vandercook School of Music.

In competition she won two City high school championships, two Illinois State V. F. W. championships, and two national V. F. W. championships, as well as numerous other awards.

She enrolled at Hardin-Simmons University in the fall of 1947 on a scholarship and served as the first featured twirler with the Cowboy Band from that time under her graduation with honors in 1951.

During the summer months she was active in teaching twirling and drum majoring at clinics across the county. She also traveled extensively with the Cowboy Band during the school terms.

Thoughts for the Sabbath

Rev. Bill Penland, Harmony Baptist Church, Morton Valley

Stop the rain or solve the problems? In Genesis we find the story of a fearful catastrophe that brought with its great opportunity. It was the kind of situation we face today: the modern parallels are startling.

God, we read, was about to vent his wrath upon the world. He directed Noah to prepare an ark and to take into it two specimens of every living creature.

Noah built the ark. God sent the rain upon the earth and for forty days and forty nights the rain descended until "every living substance was destroyed."

Finally the rain ceased; the floods went down; and Noah, his family and all the animals in the ark came out upon dry land. God then made a covenant with Noah never again to destroy all flesh by flood and as a sign of that covenant He placed a rainbow in the sky. Through this experience Noah was given the choice to build a new world. Here was man faced with great opportunity, so

She later taught school in Lubbock one year and then moved to Abilene in 1952, where she also taught a year.

Since 1954 she has been active in the West Texas area as a twirler teacher and judge and has also sponsored several twirling contests.

He drank of the wine and was drunken. Here we have an example of the individual who failed in his responsibility and missed his great opportunity.

Of the group that reads this, some of you will have the chance to solve the problem in the new era, but you can instead, if you are not careful, become part of those problems.

II. What will you have; Sedative for yourself or solution for the problem. The answer will depend largely on your view of the meaning of life. What does life mean to you? Get what you want; satisfy your own needs; gain position, power, wealth, or will you recognize the challenge of the needs of others. Your view of the meaning of life includes, for you as an individual, for the family, or the city, or the world.

III. What do you think? Conclusion—Are you blinded by the rain of the world? If so, why don't you look to Jesus. He can give you your sight. Are you drunk on the cares of the life? We need to wake up and shoulder our task.

Ranger Junior Enrolls 166

Total enrollment at Ranger Junior College to date is 166 students with a record enrollment of students. There are 84 students living in dormitories on the Ranger Junior College Campus.

Both the W. P. Newell dormitory for boys and the Athletic dormitory are full with three boys in many space will be needed if more boys register as resident students. The only way college officials can accommodate further registrants is to place three boys in a room.

Mary Frances Jameson dormitory for girls is three-fourths full. It has been necessary to divide several classes due to the large number of students taking the same course.

Thirty-seven local students are enrolled at the college this year as well as students commuting from Olden, Strawn, Eastland, Gorman and Breckenridge.

Students are enthusiastic and have begun the year's work with seriousness and interest. Everything points to a good year on the RJC Campus.

Improvement program continues at the college. Work on the girls dormitory and Student Union Building is nearing completion, and curbing and paving projects is moving along on schedule.

McMurry "B" Taps RJC Rangers With 7-6 Win

Game at a Glance McMurry "B" Ranger First Downs 14, Rushing Yds. 165, Pass Yds. 90, 6 of 26 Passes Comp. 6 of 14, 7 for 36 Punts, Avg. 5 for 42, 4 for 40 Penalties, Yds. 11 for 90

The Ranger Junior College Rangers lost to McMurry "B" of Abilene Thursday by a slim one-point margin. A strong south wind and the passing arm of McMurry's Manley Denton made the score read 7-6 in the final quarter.

Ranger College Rangers, showing much improvement this week, played hard the entire game. The defense team was especially good for the night, breaking through the McMurry offense and tackling would-be McMurry runners for a total of 39 yards lost. Defensive Rangers on the job were: Joe Morrow, William McAlister, Jerry Buerfer, Winfrey Shipp, Johnny Valeadez, Humberto Romero, Stanley Kirk, Jerry Key, and Sam Wiest. In the backfield for the Rangers were Gilbert Ramirez, William McAlister, Humberto Romero, Dub Higginbotham, Robert Moore, Stanley Kirk and Dwayne Thompson.

The first half, a defensive ballgame all the way, was scoreless. Early in the third period, the Rangers, on their own 25 yard line with a fourth down situation, were

forced to punt. The ball, pushed along by a strong south wind, traveled to the McMurry two yard line where it was fumbled and rolled over the goal line.

A host of Rangers made a scramble for the free ball and James Potts, end, came up with the ball and a 6 pointer. The try for extra point was no good.

Ranger held their 6-point lead until the last two and one-half minutes of the game. McMurry took to the air and with wind to their back completed three straight passes for 60 yards, placing the ball on Ranger's nine yard line. Fred Kiddwell for McMurry scooted ground end for the needed yardage and a score. The winning point after was from the toe of Doug James.

PHONE SERVICE NEAR NORMAL AFTER HURRICANE CARLA STRIKES

Carla has come and gone, and I know we will see her go. Even though we were not directly in Eastland, I like to tell you a little bit of telephone service on the Gulf Coast and Western Bell did about it. It's an interesting story.

Headed northward after her terrible blow at the left behind:

Installing \$6 1/2 million to telephone facilities knocked out along a 500-mile coastal front and inland points.

Telephone lines and poles flattened in a twist of wire and splintered wood.

Western Bell exchanges completely isolated, Freeport, Bay City, and El Campo, along other communities.

People were ready for the emergency. Before rains had subsided, Southwestern Bell had equipment rolling to the disaster area to restore service.

5,400 telephone men from many cities and counties assembled in the Galveston - Corpus Christi area. More than 900 came from points in Oklahoma, Arkansas, Kansas, and Missouri.

Equipment Flown In

At the time, the company flew emergency generators for electric power in to the storm area in our five-state territory. From other Texas, special mobile radio trucks converted to help bridge the gap left by the phones, relay emergency messages, and maintain the "outside world."

Forces with the men, trucks, and other equipment which Southwestern Bell already had in the area as a precautionary measure when warnings were first issued.

Operators From West Texas

As crews began the work of restoration, 150 operators from Lubbock, Amarillo, Abilene and other Texas points were sent to Houston and other cities to help handle the tremendous volume of calls... many of them vital messages from health, civil defense, and other agencies.

Determination, and co-ordinated teamwork

Western Bell people worked 'round the clock until service was restored and all telephones back in service (condition of homes and business permitted).

Service in the disaster area is now back to normal. A tremendous job, carried out under trying conditions here were also affected to the extent that long distance operators in Cisco handled 3,522 calls normal from Sunday, September 10th through Saturday, September 16th. Also, to provide faster service of working a normal five day week, we have available operator to work six days during emergency.

Sally Victor Hats to be Fair Favors

Dallas, Texas — Sixteen lucky Texas ladies will come home from the State Fair of Texas wearing \$80 Sally Victor original hats, Miss Elizabeth Reed, fashion director of the Sperry and Hutchinson Company, announced here today.

"We are repeating our last year's program in the Woman's Building at the State Fair because it seemed to please everyone," Miss Reed said. "Our exhibit, created by Sally Victor herself, is a graphic history of the development of ladies' millinery styles, during the past 66 years, starting with the year 1895, which was the same year S & H Green Stamps were founded. Last year, to add fun for the thousands of ladies who visited the exhibit, we held drawings, and gave away a new \$80 Sally Victor original every day."

"We've had so many letters and inquiries about this year's Fair that we've decided to do the same thing, and Sally Victor is hard at work in New York right now in order to deliver us 16 new originals by October 6."

THE READERS WRITE

Dear Editor:
 Thought you might like to know that there is a minor national furor in which we, as Eastland florists, are interested but in which we are not taking any active part.

It concerns the practice "P. O." (as floral people refer to it) which means "please omit flowers and contribute to such-and-such charity."

This, of course, affects us because we're in the flower-selling business, but even if we were in some other business, we feel that the sacredness of traditional funeral services, accompanied by an atmosphere of nature's beautiful handiworks, are customs which we'd hate to see pass from our civilization.

In a recent issue of "Time" magazine, an article tells about a letter from a Pennsylvania Lutheran minister who was very outspoken on the subject.

He told his congregation that he wanted flowers at his funeral and added:

"Don't paste my casket with certificates for charities, and professional chair endowments and the hundred-and-one dogooder agencies ghoulishly squeezing through the door of the funeral parlor for a handout. If you are going to be big-hearted, do it on your own time, and don't wait for death to open up your heart to the needy and the sick."

"I believe flowers are proper and right at the time of death, beautifully symbolic of the brief human life, grown by God and thereby so precious to Him, even at its fading. So no matter what others may say, send ME flowers and don't use my last mortal remains as a charity income tax deduction."

We agree.
