SAFETY SENSE

Beautiful Advice

For a lawn and garden that are beautifully kept, many people are discovering the convenience power of a power edger. The Outdoor Power Equipment Institute has the following safety suggestions for using it.

1. Carefully read the owner's manual and any tags that are attached before using the machine. Make sure you're familiar with all the controls and can turn it on and off with ease.
 2. Never allow any children or pets within your working area.
 3. Before attempting to touch any moving part, shut off the motor and disconnect the spark plug.
 4. Always keep all shields and safety devices in place.
 5. Never start the machine in a garage or closed place, as carbon monoxide fumes are emitted.
 6. Never allow children to operate the edger.
- Follow these rules and you'll be edging your way to lawn and garden beauty—and safety!

Health Tips

Most people are aware of swimming dangers such as drowning. But there is one problem they may hear little about, especially if they have it - ear infections. Swimming can cause ear infections marked by hearing loss, pain, ringing in the ears and more, the Texas Medical Association (TMA) says.

An Atlanta, Ga., study shows swimmers are five times as likely to get ear infections as non-swimmers. Danger of infection increases if people swim in polluted waters or waters above 85 degrees Fahrenheit.

One of the main bacteria suspected of causing ear infections was found in 75 percent of non-polluted swimming waters above 85 degrees Fahrenheit. About 45 percent of swimming waters between about 60 and 85 degrees had the bacteria. Less than 35 percent of waters with temperatures below 60 degrees contained the bacteria.

The bacteria, *Pseudomonas aeruginosa*, is not easily killed by chlorine so swimming pool waters also may cause ear problems. In fact, data shows swimming pools may have more of the bacteria than other non-polluted swimming waters. The study stressed that this particular bacteria is not a proven cause of ear infections but it is highly suspect. Other bacteria also are associated with outer ear infections.

An easy way to avoid some ear infections is to thoroughly dry the ears after swimming. If some water is lodged in the ear, often placing the ear on a warm rock or a heating pad will cause the water to drain out. TMA says. Drugstore variety ear plugs may provide some protection but are not totally effective. One home remedy involves mixing 1 teaspoon of white vinegar with 4 ounces rubbing alcohol. Put a few drops in each ear - only if someone does not have an ear disease. A physician can drain an ear, prescribe medicine to kill infection or relieve pain if there is a more serious problem.

MRS. STEVEN ADAMS
...nee Cynthia Sikes

Miss Cynthia Sikes Becomes Bride Of Steven Adams Friday

Miss Cynthia Grissom Sikes became the bride of Mr. Steven Lynn Adams on June 4, 1976, at 6:30 in the First Methodist Church in Brownwood.

The church was decorated with multi-color spring bouquets on the altar and pews with two candelabras on each side.

The bride was given in marriage by her father, Mr. William E. Sikes.

Mrs. Don Reese provided the music for the wedding.

Rev. John Dowd performed the double ring ceremony.

Miss Sikes chose a wedding dress of princess style with a cameo neckline that was fashioned from candlelight satin with an overlay of French net - embroidered in alencon lace. Matching lace also covered the Camelot headpiece and edged the illusion veil. The wedding dress and veil had a chapel train.

Mrs. Mike Jeschke Lowake was the Matron of Honor. And the maids of honor were Miss Sylvia Ragsdale of Brownwood and Miss Marian Snyder also of Brownwood. They wore melon chiffon capelets with butterfly sleeves worn over A-line dresses of Melanise crepe of the same color. Pastel flowers and butterflies were embroidered in satin stitch on the dress bodices and back of the capelets. They carried flowers of spring colors the same as embroidered on the dresses.

Best man was Mike Scoggins of San Angelo, cousin of the groom. Groomsmen were Monty Bedwell of Stephenville

and Glenn Smith of Brownwood.

William Sikes of Brownwood, brother of the bride, was the usher.

Reception followed at the Brownwood Country Club.

The bride's table was decorated in multi-colored spring bouquet on a white cloth with palms and candles in the background. These made the setting for the wedding cake and punch.

Miss Amy Jennings of Atlanta, Georgia; Miss Merilee Baker of Brownwood; Mrs. R.H. Slaughter of Fort Worth; Mrs. Bruce Smith of Brown-

wood, Mrs. Anthony Williford of Brownwood, and Mrs. W.C. Monroe, also of Brownwood, served in the houseparty.

The bride is the daughter of Mr. and Mrs. William E. Sikes of Brownwood and granddaughter of Mrs. R.E. Sikes and Judge and Mrs. Clyde Grissom.

The bridegroom is the son of Mrs. Virginia Adams of Brownwood and Mr. Roy Adams of Carrizo, New Mexico.

The couple will live in Marble Falls where the groom is employed with General Telephones, following a wedding trip to Kerrville.

Thoughts

From The Living Bible

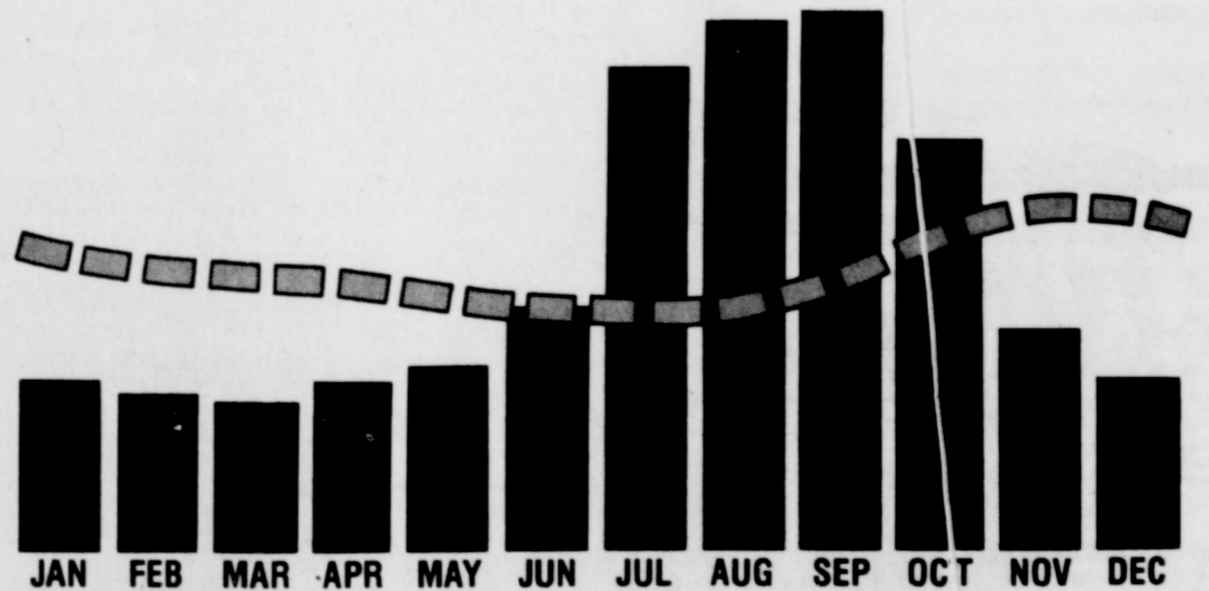

(That, by the way, is what baptism pictures for us: In baptism we show that we have been saved from death and doom by the resurrection of Christ; not because our bodies are washed clean by the water, but because in being baptized we are turning to God and asking him to cleanse our hearts from sin.) And now Christ is in heaven, sitting in the place of honor next to God the Father, with all the angels and powers of heaven bowing before him and obeying him.

**Introducing the Average Billing Plan
from Texas Electric.**

**AVERAGE
BILLING
AMOUNT**

**ACTUAL
USE
AMOUNT**

If you've ever wished the amount of your electric bills could be more consistent every month — instead of changing so much between seasons — here's your chance.

The Average Billing Plan is being provided by Texas Electric to help smooth out the highs and lows that occur in your electric bills. As the name implies, this new plan enables you to pay an "average" rather

than the actual amount used each month. It allows you to pay less during high-use months by paying more during low-use months.

Full details about the plan are in a brochure now being mailed with your electric bill. It should answer any questions you may have.

Although this hole looks big enough to walk a horse through, in fact it's only 27 inches across. And somehow a horse did make it. That's an 1,100 pound quarterhorse standing at the bottom of this Southwestern Bell manhole near Ennis. To get him out, the company had to dig a trench into the side of the manhole, make a horse-sized opening in the eight-inch concrete wall and walk the horse out.

Thoughts

Just When You Think You've Seen It All
 From The Living Bible
 Always be full of joy in the Lord; I say it again, rejoice! Let everyone see that you are unselfish and considerate in all you do. Remember that the Lord is coming soon. Don't worry about anything; instead, pray about everything; tell God your needs and don't forget to thank him for his answers. If you do this you will experience God's peace, which is far more wonderful than the human mind can understand. His peace will keep your thoughts and your hearts at rest as you trust in Christ Jesus.

Nation's Foremost High School Honor Societies Announce '75-'76 From Carbon

One of the nation's foremost high school honor societies announced today its list of 1975-76 members from Carbon High School, announced Fred Tucker, principal.
 The Society of Distinguished American High School Students has tapped the following new members:
 Lee Wood, senior; Randy McGinn, senior; Wallace McDaniel, senior; Quona Newman, senior; Terri Wood, junior; Keith Reynolds, junior; and Candi Bryant, freshman.
 These honor students were nominated because of their excellence in academic and civic activities.
 They are currently participating in The Society of Distinguished American High School Students' annual Awards Program which offers merit awards and renewable college scholarships to well-known colleges and universities throughout the United States. It is one of the largest awards programs of its kind in the nation today.
 "These are exceptional students and the honor they are receiving is one they will cherish the rest of their lives," said Fred Tucker, principal. The Society is continually striving to promote both academic and civic achievement on the high school level. This is accomplished by recognizing student accomplishments in its Membership Registry. The Society of Distinguished American High School Students and by increasing benefits to members through the Society's National Awards Program.

The Light Touch

By Clint Bray

The new computers do everything but think, which makes them almost human.

One thing you can say for greed: It's responsible for some highly imaginative rationalizations.

Politicians are the same all over. They promise to build a bridge even where there's no river.

The only thing that makes us happy to put on old clothes is the fact that we still can.

Executive: one who can delegate all the responsibility, shift all the blame, and take all the credit.

You'll give us credit for helping you select lovely summer sportswear at BRAY'S in Eastland and Ranger.
