Reservations Being Made By '55 Graduates

Now is the time for 1955 high school graduates to make their reservations for future training. Many graduates have made reservations already at the college of their choice. And many others are learning that they can continue training with the U.S. Army in a "Reserved For You" program that guarantees new recruits a place in one of the Army's technical schools.

"Never before has any service guaranteed a man that he would receive technical training in course of his own choice," Sgt. Edward Lowe of the U.S. Army Recruiting Station, at Breckenridge.

High school graduates or those who pass an equivalency test, may apply for a technical training course. The healing power of true prayer will be set forth at Christian Science services on Sunday in the Lesson-Sermon entitled "Truth." Among the scriptural selections ospital follow:

Mrs. John L. Daniel and infant Jesus' healing of the child with the "dumb spirit" including the answer his disciples received to eir question as to why they did not cure the child: "And he said unto them, This kind can come forth by nothing, but by prayer

and fasting" (Mark 9:29). The practical power of prayer is also brought out in passages to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy including the following (11.27-31): "Prayer Cannot change the unalterable
Truth, nor can prayer alone give
us an understanding of Truth; but us an understanding of Truth; but prayer, coupled with a fervent habitual desire to know and do the will of God, will bring us into all Truth."

USEFUL LIFE CLOSES

The career of a splendid jurist, attorney, and beloved public-spirited citizen came to a close early Wednesday when Judge B. W. Patterson crossed The Great Divide.

Eastland County had been the judge's home many, many years and he had resided in Eastland for twenty-two years. His service on the bench was distinguished and his life, in its entirety, had been useful indeed, as he had served in various valued spheres.

During the judge's lengthy illness, countless folk, near and far, had been solicitious about his condition, day after day, attesting to the universal friendship and esteem felt The world will be a better place, for his having passed

this way and, to our way of thinking-that is the most enduring of all monuments.
