Moore... ABOUT Eastland

By Virgil E. Moore

Just about time for Ben Hamner's roses to start being the number one attraction around town. We park the old car down that way everyday, and plan to keep a close eye on them this year.

County Agent J. M. Cooper tells us that it looks like the county pecan crop is going to make it okay. That's good news, and we will keep our fingers crossed along with Cooper.

He tells us that plans are just about complete for the pecan field day to be held May 1. Brown County will take part in the day this year for the first time.

This A.C.A. day camp sounds like a wonderful deal to us. It will give Eastland boys and girls a chance to enjoy camp life for a mere fraction of what a normal two-week's stay would cost at a private camp.

Drove down to Fort Worth late Saturday afternoon with the Norman Guesses and really ran into the rain and hail. They weren't kidding about the size of that hail either. We saw plenty of it that was at least the size of a golf ball. Hated to miss that rain here in Eastland, but we can sure do without the hail.

We would like very much to know the names of all living pioneers of Eastland County. Would certainly appreciate it if you would send in your name and address, or the names and addresses of any others who have lived in the county for a long time.

Rotarians have a strange sense of humor. In their weekly "Gusher" they put this note: "Dear Ole Jim Horton. We miss your glum-ous personality very much. Hope you and your wife are having a wonderful and expensive trip."

Understand new improvements at West Ward School include new closets with locks in the teachers' room, two record players and built in hangers for the students' coats and hats.

That's gonna have to be it for today. See you Thursday.

Don Webb Is Pi Kappa Alpha Pledge At NTS

DENTON — Don Webb of Eastland has been named to pledge Pi Kappa Alpha social fraternity at North Texas State College.

Dean of Men William G. Woods has announced the names of 158 men who were chosen to become pledges in the ten social groups on the campus after several weeks of rushing activities.

Webb, the son of Mr. and Mrs. Dewey E. Webb, Route 1, is a junior business major.

Higginbotham Bart Adds New Department

A complete new department featuring a full line of fishing tackle and supplies has been installed at Higginbotham - Bartlett Co., at 301 W. Main, Jack Elliott, manager, has announced.

"The brands we carry in stock is like a 'Who's Who' among fishing tackle manufacturers," Elliott said. "We've got nearly everything under the sun, a fisherman needs, and one of the most complete lines of lures in this part of the state."

Elliott invites local anglers to come into his place and look around.

Odell Christian Free On Bond

Odell Christian, Fort Worth Negro who is charged with assaulting an elderly Ranger Negro woman, was free on \$1500 bond Tuesday.

Christian made bond late Monday night in an appearance before Justice of the Peace J. M. Boggs. He is expected to go before the Grand Jury Wednesday.

Dr. Wellborne Praises United States System

"The American system has exceeded the dreams of all the people in the world for the previous 6000 years," Dr. W. L. Roy Wellborne, dean of Ranger Junior College, told Eastland Rotarians Monday at their regular weekly luncheon held in the Roof Garden of the Connellee Hotel.

Speaking on the subject, "The Place of Our Nation in World Affairs," Dr. Wellborne said, "World power came before we realized it! Starting on the east coast, we soon found ourselves covering the whole central portion of a continent, constantly expanding our control without any real consciousness of what we were doing so that now we are concerned with every place in the world."

The guest speaker told the group that although Americans are only one-fifteenth of all the people in the world and that the United States is only one-sixteenth of the land surface of the world, Americans own three-fourths of all the automobiles in the world, one-half of all the world's telephones, and one-half of all the world's radios.

He said, "Russia forces people to work. Russia today is one of the two big power nations of the world. Now there are only two ways to get people to work so the group have the goods and services it needs to maintain its existence. We can reward them with money, new homes, automobiles and education or we can force them as Russia does. There is no other way to get the group to work. We chose rewards and Russia chose force."

Dr. Wellborne pointed out that Americans have more housing per person than Russia, 410 compared to 40; Americans eat better; earn more money and are better educated.

"We live the richest life on earth. We are healthier and live longer. We earn more than people elsewhere and are better educated," the speaker declared. "And yet, we could lose all of this if we do not take part in world affairs — As a great nation, we have the responsibility of developing the wisdom and ability to work successfully with allies to maintain that power."

The speaker concluded, "We need to wake up and start training people for diplomatic work."

One new member of the club was introduced. His name is Charles Turner.

Four Find Trouble In Ranger Jail

Generally speaking, a person placed in jail stays pretty much out of trouble, but such is not the case of three DeLeon men and a fourth man from Eastland who were placed in the Ranger clinic shortly after midnight Monday morning for being drunk in the city.

After the four were jailed, they attempted to affect a jail break by tearing huge portions out of the jail's ceiling. Standing on top of the bunk in the cells, the four pulled out sections of tin from the ceiling.

Mrs. Johnson In Charge Of Refugee Program In County

The appointment of Mrs. A. H. Johnson of Eastland as local representative for the Governor's Committee for Refugee Relief Program has been announced by John H. Winters, Committee chairman.

Mrs. Johnson will act on behalf of the State Committee in Eastland County.

Under the Refugee Relief Act of 1953, 214,000 displaced persons were declared admissible to this country. Recent figures show slightly over 43,000 have obtained sponsors and have migrated to the United States.

Of this number it is estimated that less than 500 have been brought to Texas.

To be successful in helping displaced persons get a new start in life, the Refugee Program will need assurances from 30,000 to 40,000 sponsors by April 30, 1956.

A sponsor is required to give assurance that the refugee will be provided with employment, a home and housing and will not become a public charge.

The refugee's qualifications to fill the job provided him are certified by overseas officials. The Governor's Committee noted that a large percentage of the refugees are classified as agricultural workers who could be absorbed easily in the farming and ranching regions of Texas. Many skilled craftsmen are also looking for new homes in America.

"These refugees have escaped, in many instances, from prisons and concentration camps to wind up spending years in refugee camps waiting for resettlement," said Mr. Winters. "Texas is lagging in doing its part in this humanitarian program to which our nation has committed itself."

Mrs. Johnson, as representative of the Governor's Committee for Refugee Relief Program in Eastland County, will give the details of the program to any employer or citizen interested in providing a new opportunity to a refugee.

Mrs. Johnson has been informed that the Dutch Government will pay the Ocean Transportation and the inland transportation to Eastland. They will provide the refugee's a moderate sum of money for use upon arriving in this country. They will protect all of them with hospitalization and medical care insurance for 90 days after their arrival.

"Don't delay," stated Mrs. Johnson, "it takes four or five months to issue a visa and the Bill terminates Dec. 31, 1956. Any American citizen may sponsor a refugee if he will give assurance that job and housing will be available upon arrival, and that the refugee will not become a burden or a community obligation."

The Staff community has set an all-time high in their 1956 contributions to the County Red Cross financial drive, it was announced Tuesday.

Mrs. Wayne White, chairman, reported that Staff residents have given \$26.40.

NO RESERVATION—JUST TESTIN—Specialist Second Class Edwin I. Various noises are broadcast from behind Weston; his reaction time and accuracy of identification is being recorded by Corporal Richard Kalla, Pittsburgh, Pa.

Rangers To Rebuild In Spring Training

With football as scientific as it has become today and with so much responsibility shifted from the coach to the quarterback, Ranger Junior College will add a new twist with the opening of its spring training May 1, for they will be without the services of a single tested field general.

In fact, right now, new coach Tom Hestand, is beating the West Texas bushes for a proven quarterback to break the Ranger Junior College famine.

The quarterback problem began with the graduation of Floyd Hacker and the shift of Lonnie Wood to halfback. Both of these nearly evenly divided the signal calling chore last year.

Even though the problem could be more than critical, Hestand says, "We have our eyes on a couple of boys now."

So possibly before the training opens, the problem could be solved.

While the serious problem exists at that position one of a more pleasant nature has risen at the two halfback slots. For there, J. D. Hanson, one of the fastest con-

tenders in the entire Pioneer Conference, Wood, who also possesses and abundance of speed, powerful Ronald Darnell, James Kennedy and Harold McCurry will be vying for starting positions.

Also wide open is the center position, vacated by Jim Bob Roberts and Don Wiggins, who passed on with graduation. Eddie Joe Jones, a 225-pound Ranger product seems certain to fill one of the vacant tackle holes, but the graduation of both Bill McCurry and Joe Rosentritt have left one stall open.

Ends life halfbacks are fairly plentiful with Buddy Hightower, Jim Mangum and Don Mitchell returning for service, but then again at guard replacements will be sought for both starting positions.

Coach Hestand summed up the two-week spring training period like this, "We will stress the fundamental skills of football such as blocking, tackling, etc., and physical condition. We will be trying to develop more of a forward pass offense to supplement the split-T running attack."

Probably one of the traits sought most in the quarterback

WASHINGTON, D.C. — Since most of us have just made our income-tax report, we might like to know how our hard-earned money is being spent. We might even receive some consolation in knowing that 62 percent of the entire Federal Budget goes for National Security.

A breakdown of the President's proposed budget for the fiscal year beginning July 1 is as follows:

Major National Security	62c
Procurement (Planes, Ships, Tanks, etc.)	18
Pay & Support for Military Personnel	15.6

Although Congress annually appropriates more than \$100 million for agricultural research of all kinds, only 1 percent of this huge amount has been used to get the scientific facts about soil and water, which are the foundation for everything else.

A greater emphasis should be put on this important phase of agriculture.

Jesse James To Seek Treasurer Seat Again

Jesse James, Texas' colorful State Treasurer, today officially announced his candidacy for re-election, subject to the action of the Democratic primaries.

"I made no elaborate promises when I first asked the people of Texas to elect me to this office," James modestly noted. "In seeking re-election, I advance only my record of service and experience as my principle qualification."

The record which Jesse James

asks voters to review, however, is an imposing one. For example, he has handled over \$8 Billion Dollars of the people's money without loss of so much as one cent. This is repeatedly proven by a continuous audit of the Treasury's accounts by the State Auditor.

The record further reveals that during Jesse James' administration, the income earned from the States current funds on deposit with Texas banks has grown from the rate of \$105 Thousand Dollars per year when he became Treasurer, to its present rate of almost \$2 Million Dollars per year. This represents an increase of almost 2000 percent, and this income is now over seven times the actual cost of op-

erating the State Treasury Department.

Cadillac

Giving In...To His Practical Side!

We will tell you, in all honesty, that this gentleman was a little dubious when he first walked into the showroom.

There was no question, to be sure, about his wanting a Cadillac.

But, quite frankly, he wondered whether or not he was in a position to purchase a motor car as wonderful as the 1956 Cadillac.

But now he is learning some facts about this distinguished motor car that are removing the doubt from his mind.

First of all, he is learning that a Cadillac is relatively modest in its initial cost.

He is finding out about Cadillac's extraordinary dependability and freedom from repairs.

He is discovering the remarkable facts about

Cadillac's traditionally wonderful resale value.

And, lastly, he is being told that, at this time of the year, his dealer is able to make Cadillac ownership even more practical than usual.

That's why we suspect that—having given in long ago to his heart—he is now giving in to his practical side. And that's a combination no man can resist!

If you have considered Cadillac the car in your future—but have postponed making the move for reasons of economy—we urge you to stop in soon.

As an experienced Cadillac dealer, we have established a wonderful relationship with fine-car motorists throughout the community. Our reputation for integrity is positive assurance of your satisfaction as a customer.

Ford goes First!

In Performance

At Daytona, Ford won the Manufacturer's Trophy for best all-around performance. And Ford's 225-h.p. engine smashed 30 world records at Kingman, Ariz. Truly, Ford goes first!

In Safety

The editors of "Motor Trend" voted Ford's Lifeguard Design "the top car advance" of 1956. It's a whole family of safety features to help protect you from injury in case of accident.

In Economy

In the Mobilgas Economy Run, a Ford V-8 won over all cars in its class. It carried more weight with greater gasoline economy per pound than any competitive car... "sixes" as well as "eights"!

The way a Ford performs, the way it saves, the way it protects you, go hand-in-hand with the way it looks and lasts. Ford's look was inspired by America's most exciting car, the Thunderbird. Its rugged K-bar frame and carefully-built body give it the endurance and reliability traditional with Ford. These are the facts behind Ford's reputation as the car that's worth more when you buy it... worth more when you sell it, too! Come in and let us show you!
