200,000 Men Put to Work on Civic Projects

Winds me...

In this section of the county usually about as scarce as teeth, but this morning we had a good one, one would think the Mississippi river was at the door. According to reports that means a balmy day, but not being a direct hit, we could be seriously hurt. We're going to look for a blizzard just the same and to be prepared for it.

Gas Company Has Installed a New Pressure Alarm

Additional precaution against gas pressure fluctuations above or below efficient range has been added to the Community Natural Gas company plant in Eastland by L. E. Gare, fitter foreman, who has installed a new type pressure alarm system recently developed. Alarms are located in the home of Mr. Gare and in the company office.

On guard day and night, the alarm signals the moment pressure goes too high or too low, enabling service men to rectify the difficulty without delay and making doubly certain an efficient and economical burning pressure 24 hours of the day. If the pressure should become deficient or excessive because of leaks, impaired regulators, or for any other reason, an electric contact is automatically closed by the alarm mechanism and a bell rings until the pressure is returned to normal.

"While the alarm may not be called upon to function for months at a time," explained Mr. Gare, "it is just another precaution to give gas consumers the best service humanly possible. If, for instance, zero weather should suddenly strike this winter and freeze up a regulator and reduce the flow of gas, we would be warned in plenty of time to remedy the trouble before it could inconvenience a single consumer because the alarm is highly sensitive to the slightest changes and works unerringly."

\$40,000 Ransom Asked for Son

Ransom of \$40,000—later reported reduced to \$20,000—has been demanded of Alexander J. Hart, wealthy San Jose, Calif., merchant, above, for release of his son, Brooke, 22, held by kidnapers since Nov. 9.

THROUGH PACKS HEARING ON LONG ELECTION

By United Press
NEW ORLEANS, Nov. 16.—While many followers of Senator Huey P. Long, milled around the Scottish Rite temple, Senator Tom Connally, chairman of the committee delving into the operations of the Long political machine, climbed a fire escape and entered the building to continue the hearing.

Doors were ordered locked, barring the public after the announcement announced they feared the balcony would not hold the crowd.

The doors were locked, however, after morning newspapers announced that officeholders in the Long administration had been ordered to "quit work and pack the house."

About 300 persons were congregated outside the temple doors when Senator Connally arrived. Many of them were recognized as Long followers. Because it was feared the crowd might force their way into the hearing room, its doors were opened for Senator Connally, the committee chairman chose to enter by the fire escape.

Mrs. John Abadie, a watcher at the polls for Senator Broussard at the election in which she met defeat at the hands of the Long political machine, told a senate committee that election commissioner told her "to keep my mouth shut."

Another watcher charged five election commissioners "stuffed" 40 ballots into the box. When he went to vote, he said, one commissioner said, "We'll vote you like we want to."

Tragedy Mars Wedding Joy

Tragedy climaxed the leap from one romance to another for Mrs. Merry Fahrney Parker-Pickering, above, Chicago heiress to a patent medicine fortune. Returning from an elopement with Frank Eisner of River Forest, Ill., she was injured and her new brother-in-law killed in an auto crash. Only a week before she had been halted in her plan to fly to Chile to marry Count George Di Giorgio, barred from the U. S. by police.

MANY CITIES HAVE PROJECTS UNDER WAY

More Men To Be Employed Over State As Other Plans Approved.

AUSTIN, Nov. 16.—One hundred thousand men, taken from relief rolls, went to work today in Texas with picks, shovels, axes and rakes in an opening drive against winter unemployment.

They were employed on 1,100 projects approved for participation in the \$20,000,000 civic works administration allotment to Texas.

Coinciding with the starting of the projects came an announcement from relief officers that effective today all persons now on a work relief basis who are performing clerical or other duties should have their budgets raised to \$12 a week. Some of them have been on budgets as low as \$3 a week.

With temporary employment on 1,000 projects a meeting has been called for Nov. 21 of mayors, county judges, relief administrators and county chairmen to spread information on types of work that can be undertaken and the method of administration.

Figures of men returned to work in Texas cities were: Fort Worth, 1,500, with the total expected to reach 3,000; El Paso, 3,000; Dallas, 3,000; Houston, 4,000; Waco, 600; Cleburne, 400; Ranger, 300; Breckenridge, 100; Cisco, 92; Sweetwater, 350; Mineral Wells, 500.

Interest in "Old Rip" Is Continued

The interest aroused in frogs when "Old Rip," the famous Eastland frog, which slept 32 years entombed in the cornerstone of the Eastland courthouse, was brought to light and life, continues throughout the country.

Ever since the story of "Old Rip's" resurrection was sent around the world, stories of sleeping frogs have been brought forward from all over the country. The latest one is from Schenectady, N. Y.

Donald D. Peddie, Schenectady, who, with his mother, visited Eastland in September, 1932, stopping at the "Horned Frog" courts, writes Carl Hurt, manager of the courts, giving an interesting account of the finding of five frogs found by workmen embedded in clay 10 foot underground where evidence showed they had not been disturbed for 34 years. The unearthing of the frogs, due to the publicity given the Eastland frog a few years ago, caused a great deal of excitement and newspapers carried many stories and pictures connected with the event.

Mr. Peddie stated that when he was visiting in this section that he was very much interested in "Old Rip," and that when he re-visits this section next spring he expects to again stop in Eastland.

DALLAS, Nov. 16.—The missing \$125,000 of the Urschel kidnap ransom is being hunted by Dallas officers and department of justice agents on and near the John A. Morgan farm in Wise county, it was revealed today.

The group made inquiries at the camp of a group of Fort Worth business men Tuesday and, according to the Dallas officer, returned to the hunt yesterday.

Morgan, the owner of the place, was arrested last week by justice agents as the author of two letters to Charles Urschel, Oklahoma City oil man, who was held prisoner on the Shannon farm not far from the Morgan place. Morgan is now in jail at Dallas.

Blacksmiths Make Stand For Recovery Of Their Calling

TYLER—Village blacksmiths, long ago placed in the same category with hard-riding cowboys and dancing Indians, are making a great effort here to prolong their profession.

Although the tractor and other kindred improvements have displaced many of the horses on farms, blacksmiths still are to be found in abundance in Smith county.

Wholly dependent upon the shoeing of horses for a means of earning a livelihood, two swarthy members of the dwindling trade were found here.

Longfellow's "Village Blacksmith" compares favorably with these smithies, citizens say.

They continue to shoe a horse with the deftness born of long experience and claim the ability to do more with a forge and anvil than a modern auto mechanic with all the latest tools.

The explosion and a fire occurred after a scrubber tank fell across two large gasoline vapor and circulation lines, breaking them, as two crews of workers hoisted the tank.

DO YOU REALIZE WHAT A WORLD OF GRIEF Advertising Saves You?

WE KNOW a seed house that proves each season's crop of seeds in their own trial gardens before they offer them to the public. Flowers and vegetables grown from these seeds must measure up to definite standards, or else the entire crops from which the samples were taken are burned.

We know a manufacturer of dry batteries who tested a new product two years before he sold a single battery to a single dealer.

We know a manufacturer of an anti-freeze solution for automobile radiators who spent two years testing his product under all conditions before he said a word in advertising about the merits of his goods.

We know a manufacturer of household pharmaceutical products whose self-imposed standard of purity and efficacy is even higher than that laid down by the United States Pharmacopocia and the National Formulary.

If we mentioned their names you would recognize them immediately. You probably would say, "Why! I plant those seeds," "I use that battery," "I use that anti-freeze," "My medicine cabinet contains those products."

The four instances cited are typical of every reliable manufacturer in America. Millions of dollars are spent annually to develop, to improve, to standardize, and to take the guess-work out of merchandise. Other millions are spent in advertising to tell you about them.

All of which is to say that in putting your trust in advertised merchandise you save yourself the bother, the expense, the disappointment—yes, the danger—of experimenting and discovering for yourself which make of soap, breakfast food, radio tubes, lingerie, gasoline, tea, electrical device, stationery—or what-not—gives you the most service for your money.

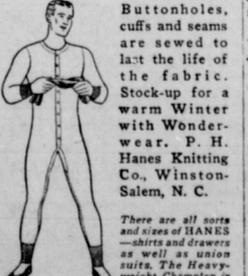

The news columns of this paper keep you informed of the latest international, national and local happenings. The advertisements inform you of the newest, most advantageous, most reliable merchandise that America's most progressive makers are producing.

Civic League of Eastland Holds Business Session
The Civic League of Eastland held their first business session of the season 1933-34 on Tuesday afternoon, in community clubhouse, with the president, Mrs. W. K. Jackson, in the chair.

The meeting was opened with an informal address by the presiding officer who stated that this was a regular meeting, necessarily postponed from accepted date of second Wednesday of the month through courtesy to Sixth District Federation of Music Clubs in convention on Civic league day. That hereafter the sessions will be held the second Wednesday of each month at 3 p. m.

The permanent Civic league work in the past was mentioned and the invitation given the league members to make personal suggestions along civic league work lines that would be of benefit to the community.

New ideas for the year's work were requested. The chair stated she will add one feature to each Civic league program, prepared by the year-book committee, Mmes. J. M. Perkins, James Horton and Carl Springer; and that Mrs. A. F. Taylor would present three musical numbers, by her students at the next league meeting on Wednesday, Dec. 13.

Co-operation with the cultural interests of the city will constitute this added feature to the program.

The resignation of Mrs. W. E. Stalter as recording secretary was regretfully accepted. The opening meeting of the Civic league in the form of tea on Oct. 25, at the home of the president was announced and that the honor guests were incoming officers of the Sixth District T. F. W. C., Mmes. J. M. Perkins and James Horton, and that the Civic league members previously announced were the hostesses for the tea.

Mrs. E. Hinrichs was appointed a member on finance committee. The announcement that Mmes. Perkins and Horton were acting as delegates to the state federation was made.

The treasurer, Mrs. Eugene Day, read the membership list to which several new names were added.

Bills during the summer months were allowed in addition to that for the wreath for the soldiers' fountain on Armistice day; \$25 for clubhouse annual dues, and \$150 for County Federation dues, leaving a balance of about \$14 in treasury.

The league voted to co-operate as hostess with the other clubs for Eastland County Federation, on Saturday, Nov. 18, 3 p. m., in community clubhouse.

At the suggestion of Mrs. O. C. Funderburk, sent the league, literature will be ordered from the state sanatorium and distributed by the league health chairman, Mrs. J. C. Patterson, in schools, and other places.

The chair announced Mrs. Joe C. Stephen had been appointed a member of publicity committee to notify clubs, schools, churches and organizations of Civic league entertainments and projects; and that Mrs. J. Frank Sparks had been added to the hospitality committee.

The Civic league part on the Thursday Afternoon stunt program of recent date was praised in the fine number presented by Mrs. Agnes Harwood Doyle and arranged by Mrs. J. C. Patterson.

Projects for year's work were suggested, and the following for near use adopted: The league will sponsor a home, yard, and business house lighting, for the Christmas

season, providing co-operation with necessary factors is assured; committee appointed to arrange this contest was named Mrs. Joe C. Stephen, Mrs. E. E. Layton and Mrs. F. V. Williams.

The league will foster a community Christmas tree on the square for entertainment of all little children of Eastland including the colored and Mexican children, with program at 6 p. m., and distribution of gifts from tree on Friday, Dec. 22.

All other clubs, the Boy Scouts, the firemen, churches, and lodges, will be asked to co-operate in Christmas tree project.

Committee for tree, entertainment and gifts, Mrs. Agnes Harwood Doyle, chairman; Mmes. E. O. Hunter, P. L. Crossley, D. J. Jobe, and Mrs. Richard Jones to see the lodges.

Mrs. Hunter will be chairman of the carol program by children and adults.

On motion the offices of corresponding and recording secretary were combined, and Mrs. Lola Mitchell will serve in both capacities.

The new members were called upon to stand and are warmly greeted. Many new members who have signed the league roll were unable to be present at this time. The announcement of the illness of Mrs. Frank A. Jones, a new member, was made.

The session was closed with a brilliant talk on Book Week, and what a county library can do for the rural population, presented by Miss Joyce Johnson, president of Junior Thursday club.

The chair announced that January session would be given to plans for a benefit of an unusual nature that would finance the league.

Adjournment was taken to Dec. 13. Mrs. N. N. Rosenquist was temporary recording secretary for the session, attended by 15 members.

Miss Marie Maule Weds East Texas Attorney
Miss Maule formerly of this city and a grand-daughter of Mr. and Mrs. C. B. Jenkins of Cisco, was recently married in Mulagon, Mich. The following announcement was taken from the Muskegon Chronicle:

A pretty home wedding was solemnized at the residence of the bride's parents, Mr. and Mrs. C. E. Maule, 126 Delaware avenue, Wednesday, Oct. 28, when their daughter, Miss Marie E. Maule, became the bride of Atty. W. Ford Chauncey, son of Judge W. B. Chauncey of Longview, Texas.

That Reminds Me

should be good. It should get better, and no doubt it will. Merchants of Eastland will not be disappointed in their desire to serve and the big stocks now on hand denote their confidence in the people of this entire trade community to respond to the wonderful values they have and the high quality merchandise that they carry. Trade in Eastland. It will pay you in the long run and you will feel better.

Make all your plans to go to see the Mavericks and the Abilene Eagles play football at Maverick field Saturday, Nov. 18. The game starts promptly at 2:30 p. m., and the price of admission is 50 cents. Those who have season tickets will as usual have the choice of the 50-yard line seats. Maybe the jinx that has followed the Mavericks will lay off this time. Anyway, it will be worth seeing. So let's all go.

There has been some controversy as to the future possibility of getting a federal postoffice in Eastland. This was due to the fact that the local postmaster announced that bids would be in order for a building for the postoffice as the lease on the present location expires next July. However, a letter from the fourth assistant postmaster at Washington to the Chamber of Commerce stated that this move was purely from a standpoint of protection. To house a

postoffice, and that any lease that was made would be subject to cancellation in the event a new federal building was built. So there is still hope and all we have to do is to keep after it.

The big hardware and furniture sale now being staged is gaining in popularity each day, according to J. J. Mickle, president of the firm. Mr. Mickle states that the sale will be continued indefinitely until the big stock is reduced to a much lower level and that this opportunity is one that can well be appreciated due to the constant advances on the merchandise offered for this event. It pays to trade in Eastland and this sale is an example.

"Master of Men" Is Powerful, Dynamic Jack Holt Vehicle

"Master of Men" Jack Holt's latest starring vehicle which opens today at the Lyric Theatre, is as powerfully dramatic a film presentation as the most red-blooded picture audience could desire in a month of Sundays. Holt, who seems to endow each film in which he appears with his own refreshing vitality and strength, turns in a splendid individual performance in a picture that bristles with brilliant acting.

Fay Wray, as Holt's devoted and far-seeing wife, is as lovely and competent as usual. Her portrayal stands out as one of her finest, and certainly as one in which she has a greater opportunity to display her dramatic talents.

The supporting cast is small, but Walter Connolly as Holt's friend, Theodor von Eltz as his rival in financial and amorous pursuits, and Berton Churchill as Miss Wray's father, all contribute outstanding performances.
