cess has spread like wildfire, because this is the one diet that really seems to work for nost overweight people. A well known Toronto columnist recently praised it to the skies. He reported losing 20 bounds quickly and easily long after he despaired of ver getting down to his wartime weight of 165 pounds, All this without cutting out and girls now enrolled in 4-H the occasional beer. If t is followed exactly the aveoverweight person should lose 10 pounds in 10 days. There will be no weight oss in the first four days. But you will suddenly drop pounds on the 5th day. Thereafter you will lose 11/2 pounds every two days until you get down to your proper weight. Best of all there uld be no hunger Now revised and enlarged. this new diet plan lets you stuff yourself with foods that were formerly 'forbidden' Such as big steaks, trimmed with fat, Southern fried chicken, rich gravies, may-onnaise, lobsters, swimm-ing in butter, bacon, fats, sausages and scrambled eggs. You can eat until you are full, until you cannot possibly eat any more. And still you should lose 10 pounds in the first ten days, plus 11/2 pounds every two days thereafter until your weight is down to normal. The secret behind this new "Quick weight loss"

is not generally known. Fat, it has been theorized, does not form fat. Perhaps fat fights fat. And the grapefruit juice in this new diet might act as a catalyst (the "trigger") to start the fat burning process. You stuff yourself on the permitted foods listed in the diet plan, and still lose unsightly and excess body fluids. When the fat and bloot are gone you will cease to lose weight, and your weight will remain controlled. A copy of this new and startlingly successful diet plan can be obtained by sending \$3.00 to
