Homespun Symphony Music

Where you'd least expect it, a symphony orchestra has sprung up.

It grew right out of the soil, among farmers and traveling salesmen and housewives and factory workers who thought they'd never again get around to picking up the old oboe or the dust-caked cello.

The musicians are people who like to play from sheer enjoyment, and whose composite talent is appreciated by everyone in the neighborhood.

It is the kind of project that can spring up anywhere. Big cities need have no monopoly on symphony music.

They Tell It to Diaries

It was scarcely surprising to learn that Londoners have been buying more diaries since the war began—locked ones, at that.

During the war, all citizens, even in democratic Britain, are expected to be of one mind. And, people being what they are, can never be unanimous in thought.

It would be interesting to open all those diaries after the war to learn what people were really thinking.

SERIAL STORY

\$15 A WEEK BY LOUISE HOLMES

YESTERDAY: Saturday comes at last and Ann dresses in her best. She conquers a mental warning not to keep the date, plus on her gardenia and hurried to the library. She intends to keep hidden until she discovers "Lonely."

CHAPTER VI

Ann darted a glance at the bench which faced the Blasfield painting. It was unoccupied. She went to the reading room and selected a magazine. About to sit down where she could keep an eye on the painting and bench, she suddenly dropped the magazine. A young man was walking across the foyer with a pile of books under his arm. With stazing eyes, Ann watched him dump the books on the circulation desk and turn away.

There was nothing strange in this procedure. The astounding, unbelievable thing was that he wore a white gardenia and—he was the selfsame young man whose window faced Ann's room across the alley.

Ann actually gasped. It couldn't be. You met this sort of thing in fiction—coincidence, they called it—but not in real life. It simply couldn't be—but it was. The young man had stopped at the Blasfield painting, he was regarding it. Ann, propelled by a delighted urge, crossed the foyer and joined him.

"Hello," she said. He jerked his head around, his eyes darkening. "Hello," he returned shortly.

A little laugh rose in Ann's throat. His evident embarrassment eased her tense nerves. It all fitted perfectly. Of course he was lonely. Hadn't she seen him find solace in books night after night? She glanced at his gardenia, almost as if she waited for it to find voice and make the introductions. The young man had returned his gaze to the canvas.

"Shall we sit down?" Ann asked. She was not affronted by his lack of co-operation. The personal had been his idea, not hers. Now that the time had come, he was speechless with diffidence, or so she reasoned.

He looked at her strangely. "I have to pick out my books and get going," he said.

Ann wanted to say, "Don't be afraid. We had to get acquainted some way, didn't we?" Instead, she smiled shyly. "We might sit down for just a little while."

"All right."

THEY sat down on the bench, both raising their faces to the painting. Ann waited for the young man to speak. She kept reminding herself that the meeting

was at his invitation. He said nothing. He turned his head and, although he frowned, she was sure that he was not disappointed in what the newspaper item had brought forth.

"Chicago is a big city," she began, "and lonely. Don't you find it so?"

"I most certainly do," he agreed brusquely. "So what?"

"Well—if some of the lonely persons could get together—then they wouldn't be lonely any more."

"Is that your game?" She slanted a side glance at his profile and received a definite impression that he was hiding a smile with difficulty. She took heart again. He was merely trying to determine her intentions before committing himself.

"I have no game," she assured him. His eyes slid down to her very nice little shoes. "Looks to me as if you might have the world by the tail," he said. "Are you doing a little slumming?"

"I make my own clothes," she told him patiently. "I sew evenings at the Center on Hibbard street."

"Oh."

All at once Ann was fighting tears. He was so dreadfully standoffish. Why didn't he help her?

"I guess I'll go now," she said faintly. "Wait a minute. You've got me confused. Do you think you know me? Do you think we've met somewhere?"

"No—I've seen you—" About to tell him of his lighted window, she stopped in dismay. A man had rounded the bench. He was near-sightedly peering at the painting. He was a small, oldish man, he wore thick lensed spectacles. He stooped as if he were peering from a window. A white gardenia blazed on his lapel.

"WHERE have you seen me?" Ann's companion asked. She did not reply. She was beginning to have a queer feeling in the pit of her stomach. The oldish man, obviously satisfied as to the identity of the painting, seated himself on the far end of the bench.

He removed his spectacles and polished them with a clean handkerchief. His eyes were weak and red rimmed, they squinted against the light. With the spectacles back in place, he pulled a letter from his pocket and carefully read it. Horrified, Ann recognized the letter as her own. Replacing the single sheet in its envelope, the oldish man leaned forward to peer at Ann's gardenia.

She got hastily to her feet. In

turning her back on the oldish man, she faced the foyer. Her eyes grew perfectly round, an amazed exclamation came softly from parted lips. The foyer was filled with white gardenias. Backed by masculine or feminine lapels, they swarmed everywhere. To Ann's overwrought imagination the gardenias seemed to float about in a disembodied fashion. The young man had also risen and her dazzled eyes fled to the flower in his buttonhole.

"My gracious—" she murmured weakly. He watched her, puzzled.

ANN put out a finger and gingerly touched his gardenia. "Where did you get it?" she asked, sick with humiliation.

"I went into Ward's drugstore on the corner for a pack of cigarettes—they're having an opening—giving away gardenias—isn't that where you got yours?"

"No," she said blankly. "No, I bought mine."

"That's too bad. Fifty cents gone to the bow-wow."

"A dime—just a dime—" She was unable to co-ordinate her whirling senses. Her cheeks were hot, her hands cold. By this time the oldish man was wandering about the foyer, peering hopefully at each gardenia. Ann saw him speak uncertainly to a girl, saw the girl laugh disdainfully. Refined gentleman—lonely—for an instant Ann's sympathy went out to him.

She turned to the young man. "I owe you an apology," she said. "I've made a terrible mistake."

"You were to meet someone here," he deduced, "someone whom you did not know. He was to wear a white gardenia—"

"That's right. Please forgive me for speaking to you."

"Oh, that's all right." He shrugged lightly. "Fraid you're going to have trouble. The gardenias seem to have picked on this place to hold their annual convention."

He was laughing at her and Ann turned furiously away. She almost stumbled over the oldish man who was making for her bewilderedly. Ann heard the young man chuckle as she fled from the building. At the corner she stopped to snatch the gardenia from her lapel and fling it into the gutter.

"A sap," she wailed to herself, "just a poor sap, that's all I am. He did everything he could to discourage me but I kept right on being a sap. He thought I was trying to pick him up and he didn't like it. Oh, oh!"

FRECKLES and HIS FRIENDS

BRUCE CATTON IN WASHINGTON

NEA Service Staff Correspondent

WASHINGTON, Feb. 26.—After all that "let's see" said out of England's dire need of American munitions, export license figures show she is cutting down on her purchases.

During 1939, Britain took out licenses for American munitions (including airplanes) worth just less than \$71,000,000.

Actual exports during the year ran to \$31,000,000—much of this presumably, going on licenses taken in 1938. Just incidentally, licenses issued to Britain in 1938 amounted to \$26,600,000, or better than five and one-half millions above the 1939 figure.

In September and October the arms embargo was on, and no arms licenses were issued to Britain. In November, Britain got \$14,000,000 worth of them.

But in December, the total fell to \$66,840—about 1/47th of the total issued to Finland, which took \$3,150,000, and a much smaller fraction of the French December total of \$15,000,000. (For the full year, France got \$122,000,000 worth of licenses.)

British purchases of American staples like cotton, tobacco, apples, and so on, have fallen heavily; common explanation is that Britain has only so much cash to spend in America, and must put it all into munitions. So far, however, it hasn't shown up in the export license tables.

OHIO'S presidential candidate, Senator Robert A. Taft, is a bit of a farmer on the side; has 60 acres near Cincinnati, and grows (among other things) prize raspberries.

Mrs. Taft is in on it; she raises prize dahlias, remarks, "Bob takes care of the farm part—my job is the flowers. Since dahlias where, in soil enriched by other crops, you're apt to find hers all

over the farm; she doesn't try to keep them in separate beds. If abundant energy is a qualification for the first lady's job, Mrs. Taft can pass all of the tests. In his senatorial campaign last year she stumped Ohio for him, visiting all but three counties to organize Republican women.

She has been active in leadership of the Girl Scouts, the National League of Women Voters, the Cincinnati Children's Hospital, and a civic group which collected supplies for the unemployed.

She expects to go right on being busy. Says: "I see no reason for a woman to change because her husband is President. If she is a hombody she will continue to be one; if she has been active, she will go on that way."

Incidentally, call the Taft home here when Mrs. Taft is out and the maid will tell you: "No, I don't know when she'll be in. When Mrs. Taft goes out you never know when she's coming back."

THE American Youth Congress managed to convince practically all the law-makers here that it really is a "front" outfit. Not result: a terrific blow to the Congress's greatest interest, a program for the relief of unemployed youth.

This program is embodied in the Murray bill, and could have been presented on a persuasive, non-radical basis—its essentials having been urged last fall by a commission of citizens including such conservatives as Owen D. Young.

Instead, the Youth Congress contrived to make just about everyone on "the hill" feel that all of the charges of Communist dominance are fully justified. Consequently it will get nowhere, not when it goes to bat for the Murray bill.

## Abilene Minister Is Speaker At Meeting Of Eastland Rotary

Dr. F. M. Warren of Abilene, who is conducting a revival currently at the First Christian Church in Eastland, was a guest speaker Monday at the weekly luncheon of the Rotary club at the First Methodist church. Dr. Warren discussed the life of Will Rogers.

Glenna Johnson played a violin solo and the Harmony Girls of Eastland sang during the musical portion of the program. In the harmony group was Miss Johnson, Mava Lou Crossley and Nancy Seaberry, Clara June Kimble was at the piano.

J. B. Johnson served as program chairman at the meeting at which Grady Pipkin presided.

Next week T. P. Johnson will be in charge of the program.

## Eastland Church Revival Attracting Many Each Evening

The revival now in progress at the First Christian Church in Eastland is attracting many persons each evening, it was reported today by officials of the church.

The meeting began Sunday evening and will continue for two weeks. Dr. F. M. Warren of Abilene is leading the church services.

Monday evening several from Abilene attended the services in addition to those from Eastland. Rev. J. B. Blunk is pastor of the church at which the revival is being held. Services are held each night at 7:30.

## Army's 'Flying Motorcycle' Hovers in Mid-Air

Called a "flying motorcycle," but looking, and acting, more like the "darning-needles" that hover over streams is this new 420-horsepower plane, pictured in U. S. Army test at San Diego, Calif. It takes off in only 50 feet at high speed, ascends almost vertically and can hover practically motionless in mid-air. It descends as sharply as it takes off, stops almost instantly on landing.

## Committee Group Thanked For Help

Members of the commissary committee who have been thanked by officials of the American Legion at Eastland for their aid in a district convention Saturday and Sunday were listed today as Mrs. M. H. Kelly, Mrs. C. W. Hoffmann, E. H. Jones, H. M. Hart, Jess Richardson, Mrs. George I. Lane and Mrs. Henry Pullman. A list published Monday was incorrect, it was pointed out.

## Thank You Letters Begin To Arrive

First of what probably will be a series of "thank you" letters expressing appreciation for the hospitality extended delegates at the American Legion district convention Saturday and Sunday in Eastland are being received by Chamber of Commerce and Legion officials.

Among the first to write commending Eastland on the convention was George D. Barber of Sweetwater, district commander, and Jack Armstrong, band leader, also of Sweetwater.

James Eppler, University of Texas student, was an Eastland visitor this week-end.

## Dickinson Won't Oust Prosecutor

Governor Dickinson of Michigan, left, refused to remove Wayne county prosecutor Duncan C. McCrea, indicted with Detroit police for an alleged baseball pool conspiracy. The governor, shown in conference with Judge Homer Ferguson, the "one-man grand jury" who returned indictments, said he will not act until after the trial.

The cost of State government in Texas in 1924 was \$50,519,819. By 1938 it had more than trebled, being \$157,747,878.

## 6500 Firms Handle Products Made In Other Communities

AUSTIN, Texas—Handling of products processed outside Texas and imported for wholesale distribution occupies approximately 6,500 firms, University of Texas Bureau of Business Research of officials said today.

Released today, the bureau's Directory of Texas Wholesale Firms counts that number of distributing agencies handling about 175 varieties of products and operating in 145 Texas cities and towns.

The directory, edited by Mrs. Clara H. Lewis, supplements the bureau's Directory of Texas Manufacturers. It does not include firms which distribute only products which they manufacture in this State.

Ranging from boats and marine supplies, calms, explosives, hats and hosiery to such commodities as leather goods, textiles and costume jewelry, the directory lists 374 concerns wholesaling oil well and refining machinery to serve Texas' vast oil industry, and 583 companies distributing petroleum and its products, including oils and greases.

Dallas is shown as the largest distributing center of the State, with 2,263 firms operating from that city, while Houston lists about 700, Fort Worth about 500, and San Antonio about 400.
