

## MOORE about... EASTLAND by Virgil E. Moore

Aubrey Kincaid stood up on the number nine teebox Sunday afternoon and knocked a beautiful shot out—of—bounds. Kincaid earlier in the day had teamed with Mrs. Andy Taylor to win the scotch foursome tourney. His shot on number nine came in an after-tourney round with the boys. And it prompted one hard loser, Willis Smith, who was watching the Kincaid foursome from the clubhouse, to say, "Now there's the kind of man that wins a scotch foursome."

J. W. Bailey, Junior High principal, dropped us this note: "Just a word of congratulations as to the broad expanse of your reading public. No more than an hour after the paper hit the streets—the one stating that I had bought a new mower—I began to receive telephone calls, telegrams, and cablegrams from my creditors. The general theme was that if I could buy a new mower, I could pay some of my bills."

"And the reputation your column has for truth and variety. You know what happened when I tried to tell these guys that I had just borrowed that mower. No scap!"

Don't know about your creditors, Mr. Bailey, but our wife immediately informed us that you hadn't bought a mower. Will you kindly keep such information as this to yourself in the future?"

We know, we know. We got that First Baptist preacher working for the Methodist again in Sunday's Telegram. It didn't bother Harvey Kimbler so much, but from what he tells us we sure better keep an eye out for Richard Smith."

A couple of Olden High boys and C. E. Bridge, principal, were out on Moss Curve the other day and came face to face with a rattlesnake. We couldn't get any of them to admit they were afraid of the critter, but then it was dead when we saw it. The snake had 11 rattlers. They tell us there are plenty more where it came from."

Spring has finally arrived, we hope. At least it is here at the moment. By the time we get this in print we may wish that we had forgotten the whole subject.

At any rate just about everyone has their garden plot all plowed up by now. We just hope that everyone overplanted, just like they always do. That's our only hope. We just mention the fact they have a whole lot of onion there, and every now and then we get some."

They tell me the Bill Walters family is about to get all the pancakes they want. Bill is going to be chief cook at the annual Lions Club pancake supper, and he has been doing a little practicing on his family. They tell us the Walters family has eaten nothing but pancakes for two weeks. We are on that kitchen committee ourselves, but you can bet your bottom dollar we aren't going to start practicing washing dishes."

G. B. Rush, superintendent of Ranger schools, made some new friends here Monday. His speech before the Rotary club prompted many Rotarians to praise the neighboring school administrator. Rush hit the nail right on the head. In this day and time the employee who does a school, factory or business the best job is the one who doesn't mind doing just a little extra without putting his hand out."

That's about all the nothing we could find for today.

## Local Students Just Enjoy Their Reading

Fiction seems to be the favorite of most Eastland Junior High School students, but a survey by Mrs. Bernice Stephen, librarian, shows that most students agree with David Leach who said, "You can give me a book and I'm happy."

Here are the reports of some more Junior High students:

**Kenneth J. Lee** Participating in Army Maneuvers  
FORT LEWIS, Wash., Pfc. Kenneth J. Lee of Eastland and fellow 4th Infantry Division soldiers are training for Exercise "Indian River," a giant maneuver to be held near Yakima, in May.

"Indian River" will be a 16,000 man "war" fought over the 270,000 acres of Cascade foothills at the Yakima Training Center from May 6 to 20.

Pfc. Lee, the son of Mr. and Mrs. E. H. Lee, Route 2, Eastland is with the division's Btry C, 1st Pa Bn (Rkt/How) 20th Arty.

He is assigned as a wire man. The upcoming maneuver will employ the 4th Division "Saints" and several thousand troops from other posts and Fort Lewis units in one of the first major tests of the Army's new pentomic battle order.

Combat training will include offensive and defensive actions under atomic, electronics, chemical-biological-radiological, guerrilla and psychological warfare conditions.

Simulated atomic blasts will add further battle realism. Also planned are the air lift of a reinforced battle group and use of devices which harmlessly simulate radioactive fallout and its detection.

## Eastland Scouts to Breckenridge Camp

Hundreds of Boy Scouts and Explorers from a two-county area will pitch tents, cook meals and contest in the skills of Scouting as they enter the spring Camporal this Friday and Saturday at Lake Daniel, three miles south of Breckenridge.

The Scouts will be under the leadership of their Scoutmasters and are to set up camp by 5 p.m. on Friday, cook supper and hold a council fire at night. The parents and friends of the Scouts are invited to attend the program at night. The next day will find the campers busy cooking breakfast and making ready to enter the contests which include fire building by flint and steel and also by friction, pup tent pitching, a potato race, potato race, water boiling, judging, compass, first aid, signaling, pioneering, cooking and

## Humphrey Shows Grand Champion Steer at Show

A record number of people and entrants participated in the annual Eastland County Livestock Show in Eastland Friday and Saturday.

J. M. Cooper, county agent, said entries in all divisions set all-time records for the colorful two-day show sponsored by the Eastland County Livestock Raisers Association.

People jammed the inadequate facilities at the old Municipal Airport. At the completion of the show, Bob Pressley, president of the Livestock Raisers Association, said that new show barns would be ready for the 1959 event.

The entry list in the fat lamb, barrow, beef, and dairy cattle classes were so large that judges had to work overtime to complete all the judging.

All fat stock in the show was judged on a commercial basis, being graded as to prime, choice, good, or medium.

A 17-year-old Eastland FFA boy showed the grand champion steer. The yearling Herford steer shown by C. R. Humphreys was selected from fifteen entries in the fat steer class as grand champion. Ten of these animals were graded prime and five were graded choice.

It was the third consecutive year that Humphreys, son of Mrs. Clinton Ray Humphreys of Eastland, has shown the grand champion steer. His supervisor is Hugh Brown, Eastland VA teacher. The steer was bred by Arthel Henson of Abilene.

Champion Herford bull of the show was shown by 14-year-old David Pickrell of the Ranger FFA. His supervisor is R. S. Dudley, vocational agricultural teacher at Ranger high school. He is the son

# Mavs Cop First In Clifton Track Meet

## PAGE ONE MUST

County Ag Workers are to meet tonight at 7:30 in the Texas Electric building here.

Eastland Dollar Days have been postponed for one week. They will be held April 11-12.

Eastland Legionaires will hold their regular meeting Thursday night.

## Saul Pullman Is Winner Of Top Individual Honors

Eastland's Mavericks brought back three trophies from the Clifton track meet Saturday, winning the first place team trophy, the high point individual trophy and the mile relay trophy. Thus the charges of Coach Carrol Shelton got all the gold around with one exception.

The Mavs edged out a strong Glenrose team by less than one point. Eastland had but eight men

at the tourney, and all won points for the Mavs. Saul Pullman took individual honors at the meet, winning the 220 yard dash, finishing second in the 100 yard dash, running a leg on the relay team and placing in a field event.

Complete results from the tournament were unavailable at press time, according to Coach Shelton. He said a complete tabulation of results would be available for Thursday's Telegram.

Thursday the Mavs will go to Killeen to enter a meet there and Saturday they will be in Glenrose for that meet. Wednesday afternoon members of the track team who will not go to Killeen will go to Cisco for a meet there. Eastland Junior High track and field men will also go to Cisco that day.

Coach Shelton said he was well pleased with members of his team. The Mavs have been hurt by bad weather conditions, and had their earlier track meet in which they were entered called off. Thus this was the first full fledged meet for the locals.

## Oil Interest In County Increases With Six Permits

A noticeable increase in oil activity in Eastland County in wells ranging from 1000 to 1600 feet has created some excitement.

Six new oil tries have been staked since last Wednesday. The No. 1 R. W. Fox is a regular field try being put down by Bob Wagner of Wichita Falls.

Location is six miles south of Eastland on a 213 acre lease, 810 feet from the north and 1920 feet from the west lines of the McLenna CSL Survey 30. Proposed depth is 1500 feet with rotary.

Gary Shults of Rising Star has spotted the No. 1 W. V. Clark as a regular field try 2 1-2 miles northwest of Rising Star on a 33 acre lease. Location is 2100 feet from the south and 1960 feet from the east line of Section 26, Block 2, ETRR Survey, Elevation s 1685 feet.

A 1200 feet rotary try is being drilled by Thomas J. Carter of Dallas two miles northwest of Rising Star on a 34-acre lease. It is the No. 1 E. L. Burkler. Location is 1150 feet from the south line of Section 26, ETRR Survey.

Charles R. Barrington of Dallas is drilling the No. 1 W. E. Tyler three miles northeast of Rising Star on a 139 acre lease. Location is 1755 feet from the north and 1666 feet from the east line of Section 1, Block, GC&SF Survey. Proposed depth is 1400 feet with rotary.

The No. 3 Pauline Roberts is a regular field try being put down by Graokla Gas Corp of Wichita Falls. Location is 450 feet from the north and 150 feet from the east lines of the southeast of Section 26, Block 2, ETRR Survey, two miles northwest of Rising Star. Proposed depth is 1100 feet with rotary.

The No. 1 De lan Bender is a D. M. Evans, Cisco, regular field try. Location is one mile south of Rising Star on a 100-acre lease. Proposed depth is 1006 feet with rotary.

The polls will remain open until 7 p.m. Candidates are Cyrus Frost, seeking re-election, and Tom Wilson, running for his first term. Two men will be elected.

G. B. RUSH ... faith is important

## Rotarians Told Faith Is Most Important Thing

"One of the most difficult things today is to get a man to give of his time."

With these words, G. B. Rush, superintendent of schools, set the pattern for his talk before Eastland Rotarians Monday.

Rush stepping out of his role as an educator, pointed out a problem that faces most of the nation today.

He said today it was hard to get anyone who would give a little beyond what is expected in their contracts.

"I challenge you to give a little more of yourself not only in your work, but in community work a well," the speaker told his listeners.

Rush also lashed-out at individuals with loose tongues. He said the loose tongue is one of the most vicious weapons we have today. He urged Rotarians not to repeat rumors, and to face up to the man yourself instead of repeating gossip.

In concluding his talk, Rush called for a renewal of faith. This, he emphasized, is the "most needed thing" today.

The speaker was introduced by Frank Deaton program chairman.

## Funeral Rites Are Held Sunday For L. H. Davis

Funeral services were held Sunday at 2 p.m. in the Killingsworth Funeral Home Chapel for Lemuel H. Davis, 51, former Ranger vicinity resident who died Friday in St. Joseph Hospital in Fort Worth.

The Rev. Harley Pruett and Rev. Howard Thomas, of Olden, officiated. Interment was in the Bullock Cemetery.

Born September 26, 1906 in Anson, he was employed by the Brumbull Nursery in Fort Worth. He had lived in the Oakley community near Ranger from 1939 to 1954. He was a veteran of World War I.

Survivors include one brother, Thomas of Arizona; three sisters, Mrs. Lillian Dixon and Mrs. Charles Monroe, both of Fort Worth, and Mrs. Pauline Honea of Long Beach, California.

## Father of Local Woman Is Buried in Royse City

Funeral services for A. A. Reese, 98, father of Mrs. Jeanette Harris of Eastland, were held in Royse City last week.

Mr. Reese died in his home last Tuesday. He was born Oct. 6, 1859 in Kaufman County. He had made his home in Royse City for 78 years. When he moved to Royse City there was nothing but dry thickets and broad prairies in the area. He and Royse, for whom the city was named, built the town's first store.

He helped organize two banks in Royse City. He was a member of the Baptist Church and a Mason. Survivors include his wife, Jeanette, three daughters, 27 grandchildren, one great-grandchild and eight great-grandchildren.

## Early Voters In City Election Few, Far Between

Voting in today's city election got off to a typical quiet start this morning.

Eastland's city elections in recent years have become partially non-existent. There has not been a contested race in years and voter apathy here is apparent.

## The Telegram Speaks

### Telegram Would Like To See Bands Of County Participate In Parades

(An Editorial)  
The Telegram would like to pay special thanks to members of the Gorman High School band for coming to Eastland for the County Livestock parade. Of course that same things go to the Rising Star Riders Club and the other out of town entries, as well as to our local citizens who took enough time out to participate. Especially do we want to commend Anderson's Dress Shop for their very outstanding float. But we are talking about bands at the moment. We were disappointed that the other county bands did not show up. High school bands more or less represent their communities. They usually get a lot of extra help from their citizens. We think that when a county affair such as the Livestock Show or the Gorman Peanut Festival is held, every band in the county should participate. Bands make a parade, and certainly we in Eastland County want every parade in the county to be a big success. It seems strange to us that our county school bands can go to Abilene, Fort Worth and other places to help make parades in those cities successful, but they cannot participate in a home county parade. If there is a parade in Eastland, Ranger, Cisco, Gorman, or Rising Star it seems to us that every county band should march in it!

(Editor's Note: This is the fourth in a series of articles compiled by C. M. Vaden, Jr., Field Representative of the Abilene Social Security Office.)

Your earnings count toward social security payments only if you are employed or self-employed in work covered by Social Security. Today this includes almost everyone who works for a living. Federal government employees under the civil service retirement system, most policemen and firemen with their own retirement systems, doctors of medicine, some state and local government employees, and people who do not make the minimum amounts necessary to qualify still are not covered.

First, you're covered in most jobs in stores, banks, factories, office or any job where the employ-

Fabrics of man-made fibers rate high in popularity with today's homemakers. Their so-called easy-to-care for qualities are in great demand. However, unless you

read the labels and interpret them as the the manufacturer intended, you may be expecting too much from some of the fabrics. Here are some interpretations from manufacturers of labeling terms often used with reference to these fabrics:

Wrinkle resistance, a term often used, should not be confused with wrinkle-proof. Manufacturers remind us that no fabric is wrinkle-proof.

There is a difference between permanently and durably pleated fabrics. Nylon can be permanently pleated. Fabrics of orlon and dacron can be durably pleated. Manufacturers tell us that after 10 to 15 washings, it is best to take Garments of these fabrics will require more careful handling and will perhaps be more expensive in the long run.

Altering nylon fabrics may present some problems. Once creases and pleats are set in 100 percent nylon they are very hard to remove. In buying a dress where alteration will be needed, choose the larger size. It is easier to take in seams than to let them out.

Fabrics of man-made fibers are often labeled as moth-resistant. However, manufacturers remind us that moths are attracted to some dyes or finishes on the fabric and to some blended fabrics. For example, if dacron is blended with wool, the moths will be attracted, as always, to wool.

Directions for pressing are often misinterpreted. Most man-made fibers require little pressing if they are drip-dried. They must be ironed as usual if they are wrung or twisted after rinsing. Check the label or tag to determine washability of the fabric. If the garment is not labeled washable, or if the shoulder pads or finishes of the garment are not washable, have it drycleaned.

A final reminder—when buying fabrics of blended fabrics, always read the labels for percentages of fibers used. The pre-dominating fiber will largely determine the wearing qualities and care of the fabric.

## Diplomas Are Received by Green Kindergarten Students Thursday

Green Kindergarten closed the spring term Thursday with each child displaying their "Degree of Bachelor of Rhymes and Elaborate Kindergarten diploma" with their name engraved on each in gold English type.

The group took home their work book, a project they started in January. The closing day was climaxed with a big Easter party given by Roy Brickman, Mrs. Roy Brickman, his mother, and Mrs. Beulah Halcomb, his grandmother. The Easter theme was carried out in all appointments.

Refreshments of fruited jello, molded in nests with marshmallow bunnies in the center, ice cream and home made bunny cookies were served on pastel plates with colorful Easter napkins from tables centered with arrangements of pink and blue daisies. Individual favors of Easter egg cars were given to each child.

After the party Roy Brickman took the bouquets to Mrs. A. F. Cushman, teacher at Kindergarten, who is a patient in the Eastland Memorial Hospital.

Mrs. Holcomb took movies of the group and made a tape recording of the graduation exercises. Other pictures were taken by others.

Earl Thomas served home made cookies, made by his grandmother, Mrs. Anna Grace Bumpass, to his classmates.

## Horseradish Sauce Puts Kick in Vegetables

Vegetables dressed up with fluffy pimento horseradish sauce provide an agreeably different taste.

By DOROTHY MADDOX

To give simple and familiar vegetables added appeal, serve them with this special horseradish sauce.

It's light and fluffy and far lower in calories than sauce made with cream. The secret is whipped instant nonfat dry milk crystals, the new crystalline form of nonfat dry milk that whips when mixed with an equal amount of ice water.

This sauce is equally good hot or cold. Try it heated with canned or fresh asparagus and potatoes; or chilled and served

over deviled egg and cucumber salad.

**Egg and Cucumber Salad With Fluffy Dressing**

Arrange halves of deviled hard-cooked eggs and slices of cucumber on crisp salad greens. Serve with chilled fluffy pimento horseradish sauce.

**Pimento-Horseradish Sauce (about 4 cups)**

One-half cup instant nonfat dry milk crystals, 1/2 cup ice water, 2 tablespoons lemon juice, 1 1/2 cups mayonnaise or bottled salad dressing, 1 tablespoon prepared horseradish, 2 teaspoons onion salt, 2 canned pimentos, drained and diced.

Mix instant crystals with ice water in a bowl. Whip until soft peaks form (3-4 minutes). Add lemon juice; continue beating until stiff peaks form (3-4 minutes, longer).

Lightly fold mayonnaise into whipped milk to blend. Blend in horseradish, onion salt and pimentos. Heat in top of double boiler over hot water to serving temperature.

**Quick Corned Beef Hash Dinner**

Cut 1 1/2-pound can corned beef hash into 4 cross-wise slices. Broil 3-4 inches from source of heat until thoroughly heated, about 5 minutes. Top each slice with poached egg and 1/4 cup fluffy pimento sauce.

## The daring young lady in the flying juice box

She started something — this winsome chauffeurette of 50 years ago! She sometimes scorched down the road at 20 m.p.h. (except against a strong wind or when the batteries needed recharging).

But daredevil that she was, our fair heroine would pale to see her darling daughter as she pilots the family station wagon through 1958 traffic on her daily rounds to school, supermarket and train.

And her housewifely duties don't end there. Today's young mother is also cook, nursemaid, social secretary and purchasing agent. Sometimes she even helps earn

the family income — always has a big say in spending it. And whether or not a family has a regular savings program usually depends on her.

That's why so many women are the instigators of a regular investment program in U. S. Savings Bonds. They appreciate the feeling of security that such a program guarantees. They know that U. S. Series E Savings Bonds are one of the best investments a family can make. The principal invested in Bonds is safe. The returns are sure. And now every Series E Bond pays a new, higher interest — 3 1/4% when held to maturity!

If you're one of today's daring young ladies of the flying horsepower, you undoubtedly take an active interest in your family's future financial security. Remember — one of the best ways to do something about it is to encourage your husband to start investing regularly in Savings Bonds today!

Here's another thrifty idea! To see how fast small change can add up, put it into Savings Stamps. 10¢ and 25¢ denominations available at your post office along with handy albums to keep them in. Start a book today.

Part of every American's savings belongs in U. S. Savings Bonds
