

HUGHES HURLS 'LIE' AT BREWSTER

Pampa News

VOL. 46, NO. 108. (14 Pages) PAMPA, TEXAS, THURSDAY, AUGUST 7, 1947. Price 5 Cents AP Leased Wire

DUNKING POND—Ray Salmon, city health inspector, gets a dose of the Jaycees dunking pond when he shows up in downtown Pampa without the necessary cowboy regalia. The dunking pond was a part of the punishment given violators of Top o' Texas and Western Week, sponsored by the Jaycees.

Top o' Texas Rodeo Goes Into Second Day

Today marks the second eventful day of the Top o' Texas Rodeo and Horse Show. The second day got under way this morning at Recreation Park when judging began in the American Quarter Horse Show. Today at noon, Queen Helen, along with 40 cowgirl sponsor escorts, was guest at the Lions Club at its regular weekly luncheon in the basement of the First Methodist Church.

Thousands View Colorful Parade Opening Rodeo

From roof-tops, the streets, and even the top of the Santa Fe underpass on South Cuyler Street, thousands of people witnessed the colorful parade yesterday afternoon that opened the second largest amateur rodeo in the U. S., the Top o' Texas Rodeo and Horse Show.

Leading the parade, her first time on a horse, was Queen Helen, Mrs. Helen Heaver, who was selected on the Mutual Broadcasting System's August 1 Queen for a Day Broadcast from Hollywood to reign over the four-day rodeo.

An estimated crowd of 6,000 witnessed the coronation of Mrs. Heaver at the first performance of the rodeo last night, and thrilled to the wild antics of the cowboys and wild horses, bulls, and calves. The coronation took place as part of the grand entry of last night's rodeo performance.

Immediately following Her Majesty in the parade was the Majestic Hardin-Simmons University Cowboy Band, the official band for this year's rodeo. The band will play at all rodeo performances.

Four of the outstanding roping and riding clubs of the area were seen in the parade. They were the Famosa Roping Club, the Range Riders of Amarillo, the "66" Rope and Saddle Club of Phillips, and the Shamrock Riders.

Floata from outlying counties, local civic clubs, and commercial floats added to an estimated 800 to 1,000 horses made up the parade, that wound through 25 city blocks.

Following the parade, approximately 1,500 people stuffed themselves at the Jaycee-sponsored John Snider barbecue held in the City Park.

The grand entry of last night's rodeo was led by the Will Rogers Range Riders of Amarillo. This group of riders was the official posse at the recent inauguration of Governor Jester in Austin.

Mrs. Heaver was crowned "Queen of the Top o' Texas Rodeo and Horse Show" by Wade Thomson, president of the rodeo association. She was escorted by O. W. Hampton and Wiley Reynolds.

The Junior Chamber of Commerce and the rodeo association were sponsors of the western and modern dances that were held in the Junior High School Gym and the American Legion Hall. Music for the western dance was by Jay Wiley and music for the modern dance was by E. E. Smith and his orchestra. Approximately 250 couples danced to the music of both bands.

ON BORDER TOUR
McALLEN—(AP) The United States Ambassador to Mexico, Walter Thurston, was to arrive at Tampico by air today after leaving here for Brownsville last night. He is on a tour of border consulates.

We Saw...

Queen Helen at the Court-house Cafe last night following the rodeo performance, too tired to make further scheduled appearances. She made apologies to her escorts explaining her first air-journey plus her first experience at horseback riding had left her exhausted. After a night's rest the Queen expected to be ready for all her remaining activities.

Legislators Asking That Taylor Resign

Greeks Plead For Action On Balkans

LAKE SUCCESS, N. Y.—Spurred on by Greece's warning that she would be swept into the Russian sphere unless the United Nations acted, Security Council delegates today explored new avenues in efforts to reach agreement on quelling Balkan disorders.

Greek Ambassador Yassil Dendramis said Russia's veto of the American plan for a watch-dog commission in the troubled Balkans clearly indicated Moscow's aim.

"The object is to give the appearance of a solution and to lull the world into a false sense of security until it is too late—until the newspapers have reported it is all over and that one more country has been reduced to vassalage," Dendramis told the delegates last night in one of the bluntest attacks ever made on Russia in the council chamber.

"The moment will come when there will no longer be any frontiers between Greece and her Northern neighbors," he concluded.

With an air of pessimism delegates set up a sub-committee of seven nations to go over all proposals submitted and try to find a common ground. The first meeting was set today, with a deadline of next Monday for a report.

The council set another meeting for this afternoon to continue debate on the Balkans, considering Bulgaria's application for membership and turn again to Indonesia.

U. S. Will Revert To Strict Wartime Controls on Steel

WASHINGTON—(AP) The United States will revert October 1 to its strict wartime controls over steel exports.

These require government approval of both the country to receive the metal and the use there to which it is to put.

M. E. Sweeney, chief of the commerce department's export control division over general products, told a reporter today the return to the wartime allocation method is necessary because of the large sums the United States is spending on foreign reconstruction.

First consideration in issuing export licenses, Sweeney said, will be given to requests for shipments aimed at rebuilding basic industries most likely to move the purchasing nations back into financial good health.

In explaining the decision to clamp tighter controls over steel products, Sweeney said:

"For the basic industries of Europe we would rather ship them, for instance, can making plants that tin-plate with which to can their perishable foods. On the other hand, we'd rather send them tractors to produce their own food. Our whole drive is to get them back to producing for themselves."

Army Takes Sick War Bride Home

WESTOVER FIELD, Mass.—(AP) A British war bride was homeward bound today aboard an army transport plane when crowded trans-Atlantic schedules threatened to leave her only a few months to live.

The former Nina Maude Williams of Norwich, England, wife of an American Air Forces veteran, took off late yesterday for Frankfurt, Germany, accompanied by her husband, Charles Billie Delcours, 23, Magnolia, Texas, sawmill worker, and their four-months-old daughter, Carol.

Government officials arranged the army transport flight when crowded trans-Atlantic schedules threatened to leave her only a few months to live.

Acting on the advice of physicians that his wife would be "happier" at her Norwich home, Delcours induced her to make the trip on the pretext her father had obtained a job for him there.

Physicians decreed she should not be told the nature of her illness. They said she is suffering from cancer.

Owen Brewster

British Blame Rising U. S. Prices for Crisis

LONDON—(AP) A British official blamed rising American prices and "the rapidly increasing surplus of U. S. exports over U. S. imports" today for the sudden worsening of Britain's economic crisis.

Britain's plight is linked to a "worldwide dollar famine" caused by America's selling to foreign countries more than twice as much as she buys, the chancellor of the exchequer, Hugh Dalton, told the House of Commons.

Dalton was replying to criticisms by Conservatives and Leftwing Socialists that the Labor government "squandered" the \$3,750,000,000 U. S. loan and that Prime Minister Attlee's new work-more-and-less program promised "too little, too late."

The Leftwingers were discontented because the announced reduction in Britain's armed forces under the new plan would leave more than 1,000,000 men under arms by next spring—far more than the reduced number they have been advocating ever since they attacked Foreign Secretary Bevin's foreign policy last November.

The Conservative opposition blasted the Attlee program on the ground that it was "too little, too late." They made three specific points in their criticism:

- 1. They said the government was dealing with the crisis too hurriedly.
- 2. They said the plan was not detailed enough.
- 3. They said the government had failed to give the country a full statement of the peril it faces.

Several London newspapers predicted the Conservatives would vote against the government tonight on the adjournment motion under which the crisis debate was being held. Such a step would constitute a protest without involving a vote of censure.

The Daily Express said dissenting Laborites had called on Hugh Dalton, chancellor of the exchequer, after a post-midnight meeting and added that Dalton "will try to appease these critics" when he speaks late today.

Attlee, in his grim and gloomy speech yesterday, told Britons that his program would mean less food, less gasoline, less wood for new houses, less goods in the stores, fewer Hollywood movies, and longer hours of work. He said it entailed "limited" labor controls, "some sacrifice" of personal liberty and Spartan hardship.

This puts him in the position of influencing the public schools both as a public servant and as an employer of a private interest group. I believe the public school must be kept free of party influence. . . and I don't believe Senator Taylor should accept the public trust to guard the welfare of the public schools while accepting private employment to use the schools for the gain of a lobbying organization.

"No man can serve two masters. I do not believe that Senator Taylor can serve the public interests with one hand on the T. M. A. with the other.

The people of Texas do not want their public school influenced by a man in public office who owes allegiance, also to a private employer. Senator Taylor has placed himself in an untenable and indefensible position, and as a representative of the same people that he represents, I believe that he should resign immediately from his seat in the Senate."

Ranchers Checking On Damage from Fire

BURNET—(AP) Ranchers in this area today began checking damage resulting from a fire which swept an area of ranch land six miles wide and 15 miles long.

First reports were that no cattle or buildings were lost. The fire was kept away from the town of Burnet by a brisk wind.

Starting south of the Llano-Burnet highway, the fire jumped across the highway once to burn 300 acres of pasture.

For a while yesterday, the sun was blotted out by cinders, ashes and smoke from the fire, and special efforts were made by fire fighters to save the several houses in the burned area.

The blaze started shortly after noon and was brought under control about 10 p. m. last night.

Dr. Joe Sheppard, Burnet mayor, said the fire apparently started from a carelessly tossed cigarette or match.

Services Set Today For Powers Infant

The infant son of Mr. and Mrs. James H. Powers of Lefors died in a local hospital at 3 p. m. yesterday. Burial will be in the Baby Garden of the Lefors Cemetery at 3 p. m. today by Duengel-Carmichael Funeral Home.

Surviving besides his parents are his grandparents, Mr. and Mrs. Joe Parks and Mr. and Mrs. Hubert Powers, both of Lefors.

Bear front end alignment, complete brake service. Pampa Safety Lane, 511 S. Cuyler. Phone 101. (adv)

Ferguson Rushes To Defend Senate

WASHINGTON—(AP)—In an angry clash, Senator Ferguson (R-Mich) accused Howard Hughes today of "trying to discredit" the Senate committee investigating Hughes' warplane contracts.

The outburst from the chairman of the Senate War Investigating Subcommittee came after Hughes during a turbulent session in the witness chair:

Accused the committee of being "unfair" by firing cross questions at him but not at Senator Brewster (R-Me) whom Hughes charges once attempted to "blackmail" him into agreeing to an airlines merger.

Called a "pack of lies" Brewster's denial that there is any truth in the "blackmail" story.

WASHINGTON—(AP)—Howard Hughes contended to Senate investigators today that Senator Brewster (R-Me) "made many statements which are obviously untrue" when denying Hughes' charges the senator once made an airline merger proposition.

One "untruth," Hughes declared, was Brewster's disclaimer of any connection, direct or indirect, with Pan American Airways.

"Most people in the aviation industry know that is untrue," Hughes declared.

Previously, in testimony to the Senate War Investigating Committee, Hughes had called "a pack of lies" Brewster's denial of Hughes' story of the "proposition."

Brewster is chairman of the War Investigating Committee.

Senator Ferguson (R-Mich), head of the subcommittee conducting the inquiry, broke in to ask Hughes for the source of his information about Brewster's "trick shot" capabilities.

Hughes replied that he had heard Jack Frye, former head of TWA, make the statement that Brewster was a trick shot artist.

Hughes volunteered these comments as to his reputation and that of Brewster at the start of an afternoon session.

During the forenoon, he had directed to Brewster a series of pointed questions, most of them obviously aimed at developing what relations there have been between Brewster and Pan American.

The Maine Senator acknowledged friendship with some Pan American officials and said he had visited a residence maintained here by Pan American.

Brewster went back to the chair to answer a series of written questions Hughes gave to Chairman Ferguson (R-Mich) of the Senate subcommittee.

In his replies, Brewster:

- 1. Acknowledged that he had eaten at least "three breakfasts in the last few months" at a special residence maintained here by Pan American Airways as a guest home for officials and employees.
- 2. Said that he had reported this could not be termed the "Pan American Palace" and instead awarded photographs of what Brewster called "TWA's palatial" home and swimming pool.
- 3. Said it was true that he had spent two Thanksgiving vacations of about one week each at a home Frye has at Hobe Sound, Fla. Brewster said Frye was not there and he (Brewster) had purchased his own food and borne all expense.
- 4. Acknowledged that he once accepted free transportation in Pan American's special private airliner from Washington to Raleigh, N. C. He said he went to Raleigh to confer with the late Senator Bailey (D-NC) at Bailey's request about aviation legislation.

Brewster also repeatedly hit at Hughes' story of a "proposition" for a merger.

"The suggestion that I held a whip of Mr. Hughes is ridiculous," he declared.

When Brewster had replied to Hughes' series of written questions, the plane manufacturer shouted that the committee was being "unfair" by its procedure.

Hughes told Ferguson:

"The answers he gave were evasive and in many cases it was not possible to get a direct answer. "Not having his replies challenged—

Polio 'Break' Is in Sight For Nation

WASHINGTON—(AP)—After four bad polio years, a break is in sight for 1947, a U. S. Public Health Service official reported today.

At that same time, however, he urged the public to observe the usual precautions during the rest of the infantile paralysis "season" which runs from June through September.

Reporting a total of 1,955 cases this year up to August 2, compared with 5,450 for the same period last year, the official told a reporter: "It is really not too late for a sharp rise—that is, a fairly limited explosive outbreak—in a particular locality of the country."

"But from the figures to date this year, the indication is that the high incidence of the past four years for the country as a whole will be broken."

Full year case totals for those four years were:

- 1946, record—second worst epidemic year on record—25,247. (In 1916, there were approximately 30,000.)
- 1945—13,619 cases.
- 1944—19,029.
- 1943—12,449.

This year, since March 15 (the approximate average date of lowest incidence) there have been 1,344 cases, compared with 4,083 for the same period a year ago.

For the week ended August 2, there were 219 new cases compared with 167 for the preceding week, and 1,284 for the corresponding week last year.

In 1946, the "peak" of the outbreak—that is, the week with the highest number of new cases—was reached in mid-August.

States which have reported the largest number of cases so far this year, together with comparative figures for last year, are:

- California—467 this year, against 411 last year; New York, 147 against 223; Texas, 105—547; Illinois, 97—277; Ohio, 63—155; Michigan, 62—63; Pennsylvania, 59—62; Florida, 55—399; Nebraska, 53—108; and Minnesota, 49—623.

Girl Sets Record On Solo Flight

DENISON—(AP)—17-year-old Pat Sittel of Denison soloed today, after only two hours and 55 minutes of instruction in flying.

Miss Sittel started lessons at Gray Field here Sunday. The previous shortest time in which a woman learned to fly was reported as three hours and 45 minutes.

TWO DIE IN WRECK

LOS ANGELES—(AP)—Charley Rampey, 22, and Robert Mace, 20, both of Waco, Texas, were killed early today when their automobile and a Southern Pacific passenger train collided, police reported.

CRASH VICTIM HELPED FROM SCENE—A passing motorist carries one of the victims of a highway crash from the scene of a collision between a gasoline truck and a truckload of Negro construction workers near Waxahachie. The burning gasoline truck and wreckage of the other vehicles are in the background. Nineteen persons died in the wreck.

CARNIVAL BY DICK TURNER

"Yes, son, India has wanted self-government for a long time, and so has your father!"

THE LOW DOWN
from
HICKORY GROVE

Today I will step on some toes, but my heart is in the right place, and no offense is meant. But anybody taking my remarks to heart, maybe after all it will be good for him. There is nothing up my sleeve—I am just trying to stir up the natives. I am not running for any kind of job, like "uplift director" or "play-ground supervisor" or any other nice or easy or soft but not very necessary kind of payroll attachment. (Stop beating around the bush, says Henry. Okay, I says, the lecture then, will be on "Suckers, and why not to be same.")

Some of our biggest suckers are amongst our best people. Take folks who thought they would have everything they would need, and for evermore, or life, if they could have just "4 freedoms"—their toes are maybe being stepped on. But who is happy—and free from fretfulness. Henry, I says, name me a couple—or even one, I says. He couldn't.

And now comes flood control—but hidden in its skirts is a powerhouse full of nice Govt. jobs. To run an electric generator, you gotta have high pressure from a dam chuck full of water, but if the dam is full and turning out kilowatts, and you have a nice rain up-stream, nothing is going to stop the excess water. Plain, everyday horse-sense—no PhD needed to figure it.

Being a sucker with your vote makes a nice paying job—but for the other guy.

Yours with the low down,
JO SERRA.

FIRST BALE OF COTTON

SHREVEPORT, La. (AP)—A tenant on the plantation of L. S. Frierson at Gales, Caddo Parish, produced the first bale of cotton from the 1947 crop in this section. The 505-pound bale was sold here yesterday to the First National Bank for 51 cents a pound.

Sixteen million tons of rain and snow fall upon the earth's surface every second of the day and night.

Hughes
(Continued From Page 1)

ed in any way by the chairman is unsatisfactory, so I shall not submit any further questions in this way."

The hanky multi-millionaire told the senators "my reputation has been ruined."

Ferguson asked Hughes whether anyone else was present at a luncheon in Brewster's Mayflower Hotel apartment last February at which Hughes charged the Senator offered "in so many words" to call off the inquiry into Hughes' plane contracts.

"You don't think Senator Brewster would have made that proposition in front of anyone else, do you?" Hughes asked in reply.

The hearing was thrown into an uproar soon after the committee convened.

As the hearing recessed for lunch, Ferguson told newsmen the committee is going to stop being courteous.

"The courtesies end now," he declared. "We are going ahead with this hearing and nothing is going to stop us."

"I have had experience with this kind of fellow, and the courtesies end now."

At one point, Hughes told the committee the Juan Trippe, president of Pan American Airways, discussed him and the airline merger and the investigation "as though Brewster worked for him."

Complaining of "unfairness," Hughes said Brewster, while on the witness stand, had been allowed to "proceed in leisurely manner" and had not been subjected to a fire of cross questions.

Chairman Ferguson snapped back that the committee would run its own affairs, that any member would ask any questions he considered "pertinent."

Williams wanted to know why Hughes had not gone to "the proper authorities" at the time the plane builder says Brewster made the offer.

"When a proposition like that is made to you in front of no witnesses, what good would it do to go to the authorities?" Hughes demanded.

"Where do you think it will get you now?" Williams asked.

"That is very simple, Senator," Hughes replied. "I have nothing to lose. My reputation has been ruined."

Chairman Ferguson (R-Mich.), presiding at the hearing under control of a subcommittee, first of Hughes and then of Brewster if they had any written questions

ready for each other.

Hughes, having some difficulty understanding Ferguson, asked his attorney, Tom Shuck, what had been said.

Then Hughes asked to make a statement to "clarify my position."

Ferguson cut in, saying that under rules of the subcommittee questions must be submitted in advance and in writing.

Hughes flushed. He reached into an envelope and pulled out several long sheets of writing.

"I want to make it very clear these are not all," Hughes began. "Furthermore the testimony yesterday of Senator Brewster is a pack of lies and I can tear it apart if I am allowed to cross question him."

In separate appearances on the witness stand yesterday, Hughes charged and Brewster denied that the Maine senator once offered "in so many words" to call off the investigation of the plane contracts if Hughes would agree to a merger of Trans World Airlines with Pan American Airways.

Hughes holds a controlling interest in TWA.

After Hughes' outburst, Brewster waived any right to cross examine the plane manufacturer.

"As far as I am concerned, I am willing to let the matter rest with the subcommittee," the senator said.

Hughes and Ferguson argued for about five minutes over the course the hearing would take.

Hughes contended that he could not submit all his questions, to be put to Brewster by the committee, in writing in advance because one question would be predicated on the answer to the preceding one.

The audience, packing the Senate caucus room, applauded when Hughes demanded to know whether Ferguson would submit in advance to him (Hughes) any written questions Brewster supplied.

Banging on the table, Ferguson ordered the room cleared of spectators.

A tall youth, wearing a sweater, jumped up in the audience. He spoke out clearly.

"I speak for the audience." Then, on its behalf, he promised that those attending the hearing would remain quiet.

"We want to hear this as American citizens," he declared.

The young man said he was Leonard Small, of Brooklyn, N. Y., a student of George Washington University here.

Then Ferguson said he was re-lying of Small's promise; the audience would remain quiet and recalled his instructions for police to clear the room.

Ferguson last night had asked both Brewster and Hughes to submit their questions in writing this morning, and had called a subcommittee meeting prior to the hearing to consider them.

No questions from either party were submitted, he said.

When the hearings convened, Ferguson told Hughes:

"The subcommittee did meet, and I will now ask, are there any questions on your part, Mr. Hughes?"

"Senator Brewster—excuse me, Senator Ferguson," Hughes said. "May I make a brief statement?"

"No," Ferguson shot back. "Do you have any questions in writing which you desire the subcommittee to ask Senator Brewster?"

Hughes said he would submit some, and he started to ask, "will it be understood I can follow with more questions as we agreed last night..."

"There will be no agreement," Ferguson interrupted.

Hughes finally turned over to Ferguson a sheet of what he called "preliminary questions and by no means all."

Ferguson called for Brewster to take the stand, but before the Senator could get there Hughes broke

used him the same privileges that Brewster would have. In view of this, Hughes continued, would Ferguson turn over to him (Hughes) in advance the questions the committee intended to put to him (Hughes).

The audience broke into loud applause and it was at this point that Ferguson ordered the room cleared, then changed his mind.

Split Leather
Leather soles are made from thick, unsplit hides, but a hide is split into various thicknesses to produce most other leather goods.

Parental Cooperation Solves Juvenile Problems

By RUTH MILLETT
 NEA Staff Writer

At last I can stop asking why parents don't get together on some standards for the social life of their teen-agers.

Reason: In Dubuque, Iowa, they are trying out parental cooperation. Parents of students in one of the junior high schools have gotten together and decided on such matters as when their youngsters' parties should start and what time the kids should be in. They have agreed that either one or both parents should chaperone home parties instead of running off to the movies so as not to be in the young folks' way. The parents have even ruled upon their children's allowances.

That is a small start on the problem of juvenile delinquency. But it is the right kind of start. It's simple and practical. And there is no reason in the world why parents all over the country can't follow suit.

Parents like to blame "the times" for the fact that junior high and high school students so often go in for unchaperoned parties. don't get in from their dances until two or three in the morning, and start drinking liquor.

But the real truth is that parents can have the say as to what "the times" are like so far as their children are concerned, if they care enough.

With the kind of co-operation between parents that is being tried out in Dubuque, Iowa, parents don't have to be bullied by the argument: "All the other kids get to do so-and-so."

They're "Naval Stores"

"Naval stores" consists of rosin, turpentine, pine oils, wood tar, and pitch, and had its origin in the days of wood sailing ships. The pine tree products were used for caulking seams, treating ropes, painting, etc.

Medical Test Proved This Great to Relieve MONTHLY FEMALE PAINS

Are you troubled by distress of female functional monthly disturbances? Does this make you suffer from pain, restlessness, nervousness, restlessness, weakness, at such times? Do you try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms? In a recent medical test Pinkham's Compound proved remarkably helpful to women troubled this way. It's what doctors call a uterine sedative. It has a grand soothing effect on one of woman's most important organs. Taken regularly—Pinkham's Compound helps build up resistance to such distress. Also a great stomachic to help Lydia E. PINKHAM'S VEGETABLE COMPOUND

Mrs. Maddox Honored At Pink-Blue Shower

MIAMI — (Special) — Mrs. Bruce Maddox was honored with a pink and blue shower in the home of Mrs. J. M. Arrington, Monday afternoon, by the members of the Gleamers' Class of the Baptist Church.

Mrs. Lorene Locke presented the large array of gifts, and the guests were served frosted drinks.

A large number sent gifts and those present were Mesdames Mark Arrington, P. G. Gorbet, C. Carmichael, Edna Mahle, W. C. Scott, Wallace Locke, W. F. Locke, C. T. Locke, J. E. George, L. A. Maddox, Jr., Tom O'Loughlin, Walter Coffey, Eldon Saul, Spence Parker, J. W. Thompson, Misses Leona Parker, and Euretha Putaski.

Mrs. Nash Hostess To Merten HD Club

Mrs. A. M. Nash was hostess to the Merten HD Club recently when they had Miss Ann Hastings, County Home Demonstration Agent, present a demonstration on cleaning a sewing machine.

During the short business meeting, Mrs. D. A. Rife was welcomed as a new member of the club. The hostess exhibited several pieces of crochet and fancy work.

Refreshments of cake and punch were served to Mesdames L. C. Hagemann, H. H. Threatit, V. Smith, John Brandon, F. B. Warriner, E. E. Ehrbridge, V. S. Day, T. G. Groves, and two visitors, Mrs. W. A. Bell of Breckenridge and Mrs. J. T. Haney of Mississippi.

The next meeting will be August 19 in the home of Mr. Allen Say.

A swarm of bees is made up entirely of females—a queen and several thousand of her spinster daughters.

Reigning as 'Queen for a Day' Is Thrilling Experience for Pampan

"Winning Queen for a Day was a wonderful experience and one which I won't easily forget," was Miss Elise Donaldson's reply to a News' reporter's question asked at an interview with Pampa's own Queen for a Day, Miss Donaldson won the much sought after Queen for a Day role on July 8, while vacationing in California.

The popular radio show, emceed by Jack Bailey, is carried by Station KPND and is a favorite with women listeners here.

Ex-Queen Elise, whose home address is 1220 Mary Ellen, returned to Pampa Sunday by plane after spending six weeks visiting and vacationing in Los Angeles, and found awaiting her here a huge watermelon, Queen for a Day gift from the Rush Springs, Okla., Chamber of Commerce. The melons, one each week during season, were promised Queen Elise by Miss Dona Knollenburg, Miss Tinker Field of 1947, when she flew from Oklahoma City to Hollywood to make the presentation pledge.

When further quizzed by The News reporter, Queen Elise stated luck was with her when she attended the popular radio show for she entered without a ticket (which incidentally she stated are very hard to get). She laughingly admits she was about the most surprised woman in the great studio audience when she was called to the stage, and after a slight pause added that she was the most frightened. She smiled when pressed about stage fright and admitted she had a good case of it.

Miss Donaldson, who has taught piano in Pampa six years and in Kentucky and Tennessee before coming here, had announced that if she won Queen for a Day she would request to hear Jose Iturbi practice a couple of hours and ask him for a few pointers on teaching technique. That request and Miss Donaldson's good personality and fine sense of humor won the coveted prize.

"When they announced that I was grand prize winner... oh, that was wonderful," said Queen Elise with one of her quick smiles.

Miss Donaldson and Queen Helen Heavner, Hollywood, were special guests at the Lion's luncheon today.

Miss Donaldson is leaving this weekend for a visit in Celina, Tenn., with her brothers, Cordell, Hubert, and Lester, and in Frankfort, Ky., with her sister, Mrs. Herman Taylor.

It's Going to Get Worse Before It's Better in Europe

BY JOHN M. HIGHTOWER
WASHINGTON—(AP)—All evidence, including Prime Minister Attlee's report to Commons, indicates today that Western Europe faces a tight squeeze between now and the time the Marshall Plan becomes effective.

It is equally evident that no new American financial aid will be forthcoming—barring economic disaster abroad—until Congress can pass early next year on the Marshall Recovery Program.

Attlee's report yesterday evidently was well received here because of the way in which it emphasized Britain's intention to survive the next few months on her own dwindling resources with a minimum of help from the United States.

This was regarded as dovetailing with the Truman Administration's promise to Congress that there will be no further foreign financing on a peace-meal basis and that the only workable solution is to try to promote European recovery as a whole.

Officials here are sensitive to the fact that this country's initial postwar economic policy for Europe was based on a bad miscalculation: that the multi-billion dollar credits authorized for the British, French and Italians last year would be sufficient to get all of Europe back on its feet.

shall program of a continental approach. Hence once again the government is staking its judgement on a promise to Congress that this time Europe really will be restored and that further American loans for straight-out recovery purposes will be unnecessary.

A second miscalculation in this connection—even one concerning the ability of the Europeans to carry on with what they have until the new program can become effective—might have extremely serious results for any future aid proposals.

The immediate help Britain requires for the United States involves only relaxing the American-British Loan Agreement to permit Britain to conserve her supply of dollars.

Attlee's prediction that the original \$3,750,000,000 American loan to Britain will be all used up by the end of this year reflects an economic condition that exists in greater or less degree in most of the countries which hope to benefit by the Marshall Plan.

Some American informants say the situation in Italy is typical. The Italians since the end of the war have received a variety of American relief and financial assistance amounting to well over \$1,000,000,000. Yet they have indicated informally that they face a dollar deficit of about \$150,000,000 by the end of the year. How they will meet it is still a question.

The French situation apparently will be somewhat better than the Italian, assuming the French are successful in putting through their financial plans for the latter part of the year.

Including relief supplies and credits, France has received around \$2,000,000,000 from this country since the end of the war.

The term horsepower was invented by James Watt, who experimented with dray horses and concluded that the average amount of work done by one horse was equal to the force required to raise 33,000 pounds to a height of one foot in one minute.

Foot, Mouth Disease Stamped Out in Three Of the Sixteen States

MEXICO CITY—(AP)—The Joint U. S.-Mexican Commission to combat foot and mouth disease among Mexico's cattle reported that the infection has been stamped out in three of the sixteen states on the quarantine list.

The states of Aguascalientes, San Potosi, and Chihuahua have been freed of the disease by slaughtering and burying all fected or exposed animals. Federal troops enforcing quarantine zones in those states will be moved to guard other infected areas.

Indemnities based on the local market price for beef are being paid for slaughtered animals. Payments have averaged 238 pesos (\$48) per animal.

Indemnities may be paid in cash or in credit toward new animals or modern agricultural machinery.

Both the U. S. and Mexican governments are contributing funds for indemnity payments. U. S. funds going to pay for cattle slaughtered, and Mexican funds for sheep, swine and goats.

The U. S. appropriated \$10,500,000 to initiate the campaign and prevent spread of the disease to the U. S.

Leaves From a Correspondent's Life Note Book

BL HAL BOYLE
ANNAPOLIS—(P)—Midshipman "Joe Gish"—the U. S. Naval Academy's equivalent of "Joe College"—has a slangue of all his own. It's an argot for his off hours, made up of old and new slang phrases, nautical terms and ordinary words that have developed a special flavor and meaning at the Academy.
 Here are some samples, as taken from the "Reef Points," the annual handbook of the brigade of midshipmen:
 Anchor man—the lowest ranking man in the class. There, but for the grace of God, walks a civilian.
 Bidge—to flunk out, to be return-

ed to "civilian duty."
 Brick—the blind date who was supposed to have looks, personality and money—and turned out only to have money.
 Bucket—someone mentally dull.
 Collision Mat—pancakes a la Boneroff Hall.
 Flake Out—Take a nap, same as the Army's "Hit the Sack."
 Flower Pot—A girl who is both a "brick" and a "bucket," as described above.
 Gravy Train—A rich girl friend.
 Greasor—One who "oils the wheels of his own progress" with grease which means pull or influence.
 Hair Tonic—Steak sauce.
 Lost Battalion—Those who have to stay for re-exams while the others are on leave.
 Monthly Insult—"That very small part of \$65 on which we get our hands."
 Red-eye—"That great disguise, ketchup."
 River—A final exam.
 Sea Gull—"Various types of bird served in the mess hall under the general classification of "chicken."

In Hollywood

(While Erskine Johnson is on vacation, outstanding Hollywood personalities are "pinch-hitting" for him.)
BY JACK L. WARNER
HOLLYWOOD—(NEA)—Erskine Johnson, who conducts this column with true reportorial curiosity and zeal, confesses that a recent announcement by Warner Bros. has set him to wondering why a smoothly running motion picture company should suddenly choose to assume the multiple problems of the news-reel business.
 For the most important but least tangible of reasons why we are going into the news-reel business, Mr. Johnson might as well have asked himself why he became a newspaperman, and likes being one. News-reels have pretty much the same purpose and responsibility as the press. It is their job to present the news factually, forthrightly and interestingly. When dealing with controversial issues, both sides must be presented fairly. Truth can and should be offered dramatically—and in some cases—amusingly—to make it acceptable as screen entertainment. But subjects of importance must never be treated with the overemphasis or distortion which can turn news into propaganda.
EARLY FILMS HISTORICAL
 The newsreel is a mirror of history. Before motion pictures learned how to tell a story they were used to record events such as the inauguration of President McKinley and the funeral of Queen Victoria, and such films were shown as amusements for years thereafter. Spectacular fires were the first unscheduled happenings to be put on film, but cameramen were on the lookout for stories as early as 1900, when a couple of them risk-

ed their necks in shooting the Galveston hurricane.
 Warner Bros. participated in what probably was the greatest of planned scoops in the early history of screen reporting. When Woodrow Wilson was inaugurated President in Washington on March 4, 1913, a film of the event was rushed aboard a baggage car which was converted into a laboratory. It was processed while the train was en route to New York, and shown on Broadway that same evening. Our collaborator in the venture, which attracted wide attention, was Edward Patrick, who is still in the newsreel business.
 In 1910, by which time motion pictures were becoming a true medium of entertainment, the first newsreel company was started by Pathe. Lacking the large organization which now make thorough news coverage possible, the early companies padded out their product with specially-arranged stunts, such as blimps landing on roofs and daredevils roller-skating on skyscraper ledges.
RIGHTS TO A REVOLUTION
 Sometimes legitimate news was

made by prior arrangement. It's said that during the Mexican border troubles a newsreel representative paid Pancho Villa \$30,000 for exclusive picture rights to his revolution—with a proviso that a certain percentage of the battles must be fought in good light and in scenic locations.
 Warner Bros. introduced talking pictures in 1926, but it was 1930 before sound equipment became sufficiently portable for use in adding vitality to newsreels. Since that time newsreel journalists have richly documented history with the voices and faces of leaders in world events. But no less important has been their recording of the triumphs and tragedies, resolutions and fears, of people everywhere.
 There is a long way to go in the creation of true understanding between peoples. But that is one of the missions of motion pictures, and we at Warner Bros. want to have a larger part in it.

A uranium ore, recently named **Clarkite**, was discovered near Spruce, N. C.

Two U. S. Soldiers Killed Near Manila

MANILA—(P)—The slaying of two more men of the U. S. Army by unknown assailants was announced today by the Philippines-Ryukyus Command.
 The announcement said two Philippine Scouts of the Army's 45th Infantry Regiment were shot and killed in a daylight attack Wednesday while on guard duty at Ordnance General Supply Depot at Camp Batangas, 60 miles southeast of Manila.
 Attacks on U. S. Army personnel since June 28 have resulted in a dozen casualties. The Philippine military command and the U. S. Criminal Investigation Division are investigating.
 England's cat population has been estimated at 10,000,000.

Doctors say your kidneys contain 15 miles of tiny tubes or filters which help to purify the blood and keep you healthy. When they get tired and don't work right in the daytime, many people have to get up nights. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't neglect this condition and lose valuable, restful sleep.
 When disorder of kidney function permits poisonous matter to remain in your blood, it may also cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, swelling, puffiness under the eyes, headaches and dizziness.
 Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 60 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Tired Kidneys Often Bring Sleepless Nights

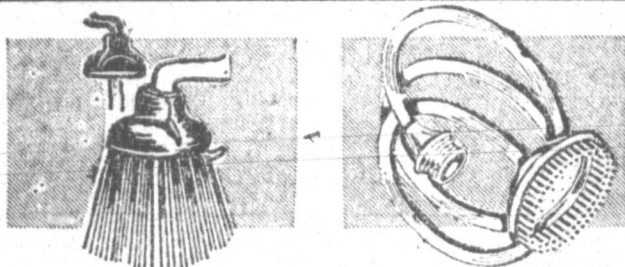

Doctors say your kidneys contain 15 miles of tiny tubes or filters which help to purify the blood and keep you healthy. WALL STREET STOCKS
NEW YORK, Aug. 6—Efforts to keep the stock market on its recovery path were successful in spots today although timid offerings depressed main leaders in another one of the slow sessions of the past month or longer.

The directions were indefinite from the start, the ticker tape frequently halting. There was a brief sell-off in the fourth hour. Quotations then stiffened here and there with the pace reverting to a crawl. While modest plus signs persisted at the close, declines of fraction to a point or more were in the major stocks. Transfers totaled to around 500,000 shares.

Ahead most of the time were Sears Roebuck, Packard Motors, Caterpillar Tractor, Boeing, Glenn Martin, Public Service of N. J., General Electric, Chesapeake & Ohio, Nickel Plate Preferred (on hopes a possible merger with Wheeling & Lake Erie would eliminate sizable dividend accumulations), Standard Oil (N.D.), American Sugar, National Container, and Exchange Buffet.

Largely included Bethlehem, Youngtown Sheet, U. S. Rubber, Montgomery Ward, American Telephone, American Water Works, Du Pont, American Can, Allied Chemical, American Smelting, U. S. Gypsum, John-Manville, Texas Eastern, Southern Pacific, Nickel Plate Common, Erie Railroad Common, Paramount Pictures, Twentieth Century-Fox and Coca-Cola.

Bonds moved over a slim course.

PORT WORTH GRAIN
PORT WORTH, Aug. 6—(AP)—Wheat—No. 1 hard, according to protein and billing 2.37 1/2-2.42 1/2; barley—No. 2, 1.75-1.80; oats—No. 2 red 1.05-1.10; corn—No. 2 yellow 2.47-2.49; sorghams—No. 2 yellow mto per 100 lbs 2.19-2.21.

CHICAGO GRAIN
CHICAGO, Aug. 6—(AP)—A new record; price as hung up by corn on the board of trade today, but profit-taking toward the close caused a substantial decline from the day's best levels. Peak for September corn, was for any corn delivery in history, was \$2.24 1/2.

Continued hot, dry weather was the main support for corn. Cash corn sold as high as \$2.34, new peak since 1917.

Export circles heard reports that Mexico purchased 500,000 bushels of American wheat, comprising 300,000 for export allocations.

Wheat closed 1/4 lower to 3/4 higher, September \$2.37 1/2-2.42 1/2, corn was 1/2 lower to 3/4 higher, September \$2.25 1/2-2.30 1/2, and oats were 1/4 lower to 1/2 higher, September 2.11 1/2-2.16 1/2.

General Amnesty for Hukbalahaps Opposed
MANILA—(AP)—Brig. Gen. Mariano, Military Police Commander, indicated today he would strongly oppose any move to grant a general amnesty for Luis Taruc and his armed Hukbalahap Partisans, for whom Military Police have been hunting for nearly a year.

"I do not promise anything to Taruc, a common bandit and outlaw who is out to overthrow the government," Castenda told interviewers.

Castenda's remarks followed a statement today by Pablo Angeles, New Orleans spot cotton.

"FROZEN" BREAD
In the fall, Yellowstone National Park rangers freeze their winter bread supply. They thaw out the loaves as needed in the oven, and the bread cannot be distinguished from fresh.

Early American colonists did not weed their crops until the Indians showed them how to do it.

Wichita Falls Is Rated Top; Sandies Favored in District

EL PASO—(AP)—Wichita Falls, Highland Park (Dallas) and Corpus Christi are the top-rated teams of Texas school football for 1947.

Coaches Joe Golding of Wichita Falls, Herman Moran of Highland Park and Chester (Chatter) Allen of Corpus Christi can blame their colleagues for putting them on the spot. But that's the way those attending the annual Texas Coaching School see it.

Many were interviewed and in virtually every instance those three teams were mentioned first.

There were sizable votes for Odessa 1946 state champion, Lufkin and Thomas Jefferson (San Antonio), 1946 finalist. Also prominently mentioned were Amarillo, Paris and Austin.

The general opinion is that the semi-finals will match Wichita Falls with Highland Park and Lufkin with Corpus Christi. But Odessa is not overlooked despite the fact that the Broncos have only three 1946 starters back.

There are some who think Corpus Christi should be rated below Thomas Jefferson in the District 15 race. Jefferson, although losing heavily from last season's team, still has a fine nucleus and apparently more material than Odessa, its opponent in the 1946 finals.

Here's how they look by districts in the race that opens in mid-September:

District 1—Amarillo favored; Pampa rated next.

District 2—Wichita Falls, with most trouble from Childress and Verman.

District 3—Odessa, with Abilene offering terrific resistance.

District 4—Ysleta and Bowie (El Paso) to fight it out.

District 5—Paris, with Sherman and Denison either likely to beat out the Wildcats.

District 6—Highland Park (Dallas) with Denton very dangerous.

District 7—(Fort Worth)—Arlington Heights, Paschal and Northside in a dog fight.

District 8—(Dallas)—Forest, with Adamson likely to upset.

District 9—Brownwood, with Mineral Wells and Cisco the leading contenders.

District 10—Corsicana, with Hillsboro, Waco and Waxahachie all very strong.

District 11—Tyler No. 1, with Marshall, Longview and Kilgore each capable of beating out the Lions.

District 12—Lufkin, with Conroe and Bryan next in line.

District 13—(Houston)—John Regan and Jeff Davis to battle it out.

District 14—Port Arthur, with strong competition from Beaumont and Pasadena.

District 15—Corpus Christi, Thomas Jefferson and Austin in that order.

District 16—Harlingen, with Brownsville likely to succeed.

ALL-STAR INJURED

EL PASO—(AP)—Stanley Clayton of Sherman, an end on the North football squad that will meet the South in an All-Star game at the Texas Coaching School Friday night, may not be able to play because of an injured knee.

His left knee was twisted when he was blocked during scrimmaging yesterday afternoon and he had to leave the practice field.

We must find a way to bridge the torrent of doubt and suspicion between the eastern and western powers or the eventual result would be conflict.

—Eric Johnson, president, Motion Picture Producers Inc.

Sports Round-Up

By CHICK BOSCH

(For Hugh Fullerton, Jr.)

ATLANTA—(AP)—Paul (Bear) Bryant, Kentucky's young football coach, at first glance appears to have scored the South's greatest victory since Bull Run.

A tentative roster of 48 freshman gridgers lists 27 "Yankees," including nine from Pennsylvania and ten from West Virginia. In fact, he got an entire "All-State" backfield from the latter state and a dozen others made various "honor" teams.

A passing combination to make Southern's forgotten Alabama's Dixie Howell to Don Hutson combine is shaping up at the University of Mississippi with Charlie Conery doing the throwing and Barney Poole, ex-Army star end, the catching. Conery had 65 completions in 124 attempts last year. Another prospect getting raw notices in the track-and-field is Dick Dignelino, a 5.7 sprinter who made the Mississippi Junior College all-star team last year as a high school senior. He's 22, an army veteran.

Tennessee has 32 of its 45-man Orange Bowl squad returning. But LSU has practically an all-veteran squad including an intact first string backfield ready for the fourth year of play. Bernie Moore's Tigers are heavy favorites in most quarters to gobble up the title without much of a struggle. Florida has 35 war vets on its tentative roster.

Mississippi State plays in Chattanooga, East Lansing and San Francisco on successive weekends to open the grid season. Besides those tilts and the usual Southeastern and Southern Conference foes, other opponents to meet Southeastern's camp are Texas Tech, North Texas College, Cincinnati, Northwestern, North Texas State Teachers, Xavier of Cincinnati, Duquesne, Oklahoma A & M, Hardin-Simmons, West Virginia, Navy, Notre Dame, and Kansas State.

Until Shelby Kinney pitched a no-hit, no-run game against New Orleans Sunday, no Atlanta pitcher had done it since 1921 when Johnny Suggs, father of Louise Suggs, the golf star, accomplished it.

CHICAGO—(AP)—There is plenty of grumbling around the Windy City about the second-division floundering of the Cubs and White Sox, but the popular pilots of both clubs, Charley Grimm and Teddy Lyons, still appear to be out of sniping range.

For one thing, both Grimm and Lyons stand solid with the boys who write pieces for the papers, because both are genial fellows who disdain double-talk and alibis.

If either has felt that a couple of real professionals would help his club considerably—which is only too obvious in both camps—he has remained dumb from publicly putting the squeeze on his front office.

Grimm's Cubs still are virtually the same club which won the 1945 National League pennant against war-desired opposition and it's beginning to creak at the joints. The White Sox have a better blend of youth and veterans, but injuries and erratic pitching have taken their toll.

Babe Didrikzen Zaharias, the queen of American and British golf, has announced that her next major tourney would be the National Women's Amateur at Franklin, Mich., Sept. 22-28, but don't count her out of the Women's Western Amateur at Evanston, Ill., Aug. 11-16. That's the only important title which has eluded her. The Babe was whipped in the 1945 Western Amateur finals by Phyllis Otto, and last year she bowed to unheralded Mary McMillin of Green Bay, Wis., in the semi-finals. Babe may be thinking over those rare defeats while tending her Denver rose garden.

Bewitch, Calumet Farm's unbeaten two-year-old filly who will go after her seventh straight victory in the Princess Pat Stakes at Washington Park Saturday, has the local railbirds looking back to Man o' War for a comparison. Trainer Ben Jones won't say whether she is better than Calumet Farm's Armed or Whirlaway when they were two-year-olds, but he admits she is a juvenile "who never makes a mistake and wins her races by smothering all her opposition with speed."

Dodger Fans Worry as Brooks Bow to Boston

By the Associated Press

The frantic Brooklyn citizenry was wondering today whether the corner would supply an affidavit to the effect that the current Dodger "corpus delicti," which has dropped five of its last six games, is the same very much alive body which boasted a 10-game lead only a week ago.

Last night the Boston Braves made it two out of three with a 7-3 victory over the Brooks, the very same bunch who entered St. Louis last week with a seven game lead and walloped the runner-up Cards three straight times to apparently sew up the National League flag.

While Brooklyn has been getting belted three straight times in Chicago and twice in three starts in Boston, the Redbirds have roared back with six straight victories including last night's 5-3 win over Cincinnati, to trail by five games.

With Larry Jansen, the Pacific Coast League rookie righthander continuing his excellent mound work, the New York Giants knocked off the last place Philadelphia Phillies 5-2 in a daylight game at the Polo Grounds.

The Pittsburgh Pirates snapped a 2-2 tie with a three-run rally in the sixth and added two more in the ninth to defeat the Cubs in Chicago 7-2.

Bob Newsum, the much-travelled veteran righthander, suffered his first setback as a member of the New York Yankees when the Athletics nipped the Bronx Bombers 5-3 in Philadelphia.

The Detroit Tigers moved into second place 13 games behind the American League leading Yankees by taking both ends of a double-header from the Cleveland Indians 13-6 and 7-5.

The Boston Red Sox dropped into third place one game behind the Tigers when Washington beat them for the second straight night 1-0.

The Chicago White Sox bunched five of their 10 hits in the second inning to score five runs and defeat the Browns in a night game in St. Louis 7-3.

Interpretation of the amateur rule of the Texas Intercollegiate League, the major topic of discussion among the coaches for the week; the eight-semester rule that returns to League records next year; and abolition of spring football training, voted to begin in 1947, were expected to be given an airing with Roy Bedichek, director of the Intercollegiate League, on the program for an explanation of the meaning and extent of all these rules.

The amateur rule which prohibits a high school boy from accepting anything of value in an athletic contest will be discussed at length by the League head. Coaches also are seeking an opinion regarding the extent of the recent rule voted into the League that prohibits a school giving the coach part of the gate receipts. This is being construed as also banning bonuses to coaches.

The Browns in a night game in St. Louis 7-3.

Four new directors were elected yesterday at regional meetings. They were: T. E. Shotwell, Abilene; Maco Stewart, Longview, Standard Lambert, Austin; and Joe Coleman, Odessa.

Abilene's Jack Immell pitched an excellent ball game. In fact, the painful realization of Oiler fans, it was the feature of the show. Immell struck out nine batters, allowed nine scattered hits and gave up only one base on balls.

Bailey led the hitting with three singles in three trips to the plate. C'Connell's bunched catch of what would have been an infield hit and his sneak trapping of first sacker Means off third base highlighted defensive play.

GOLF CHAMP TO RETIRE

DALLAS—(AP)—Earl Stewart, Jr. who holds half a dozen Texas golf crowns, is planning to retire from competitive golf Aug. 24.

In making the announcement here he said he would not play for anything but recreation and exercise after that date.

Rainfall in Washington state ranges from 140 inches to 10 inches a year in different areas.

Blue Hose Walk Peacefully Around Base Paths to Defeat Oilers 8 to 3.

Pampa's Oilers dropped back into fourth place, last night when they bowed to the Abilene Blue Sox 8-3, due to a painful sixth inning that saw at least half of the local pitching staff unable to get a strike across the plate. The loss left the Oilers leading the fifth-place Abilene Dukes by a half game.

Leifander Earl Davis, former LeFevre basketball star, started the moundwork for the Oilers and he pitched four innings of fairly effective ball. He got off stride in the second frame and walked three men but allowed only one to come home.

The sixth inning was where the trouble started. With the score tied at 2 up and two men away, one due to a strikeout, Davis pitched himself into a hole, when he walked two batters and hit a third.

Davis was relieved by righthander Panarante who walked a pair. Foster White was flagged to the mound and walked another batter and then gave up a single. Bob Bailey replaced White and he gave up a single but right fielder Ken Queveraux was caught off second on the play and retired the side. And, the Blue Hose has chalked up six big runs.

The Oilers scored once in the eighth frame when third baseman Tony Range doubled and left fielder Ben Gregory grounded out to first base, allowing Range to advance to third. Right fielder T. J. Johnston was given a base on balls and second baseman R. C. Oley paid Range's way home with an out-field fly.

Abilene's Jack Immell pitched an excellent ball game. In fact, the painful realization of Oiler fans, it was the feature of the show. Immell struck out nine batters, allowed nine scattered hits and gave up only one base on balls.

Bailey led the hitting with three singles in three trips to the plate. C'Connell's bunched catch of what would have been an infield hit and his sneak trapping of first sacker Means off third base highlighted defensive play.

The WAY it LOOKS to Bob Bray

Numerous reports from the Texas High School Coaches' School, which is now in session at El Paso, have stressed the strong opposition many coaches have expressed toward the rule recently made by the Intercollegiate League abolishing spring football training. Spokesmen for the coaches association have indicated that a wide majority of the mentors in the state want spring training continued.

The abolishment rule was made in a referendum last year by the League, which was composed of the state's school administrators. Coaches were given no voice in the matter. The new ruling, which will go into effect next year, will allow the start of football training on August 15, instead of September 1.

We feel that the newly made rule will work a definite hardship on high school football from a few angles, but it has more worthwhile aspects. Doubtless, many of the administrators who affirmed the rule did not have athletes in their schools who lived several miles in the country and had to travel to and from school by bus. Many of these boys will have difficulty in getting to town for practice, two weeks or more before school starts.

On the other hand, teams that are brought together and trained just before school begins should be in better condition for the approaching season than in the old days when they got in condition in the spring and then got rusty during the summer vacation.

Too, in the past, spring training collided badly with the many other school activities that arise shortly before school is let out for the summer. Not to mention, the way it detracts from other athletics.

All in all, when the new wears off, we believe that most of the coaches will like the new set up better than the old, once it has been in operation a few seasons. If some one would ask us to throw in our two bits, which nobody ever does, we would suggest that in addition to the rule, the League allow the coaches to hold two or three weeks of skull practice in the spring.

With this in effect, the boys should already know their plays in August after a little re-study, and more time could be had for fundamentals.

Interpretation of the amateur rule of the Texas Intercollegiate League, the major topic of discussion among the coaches for the week; the eight-semester rule that returns to League records next year; and abolition of spring football training, voted to begin in 1947, were expected to be given an airing with Roy Bedichek, director of the Intercollegiate League, on the program for an explanation of the meaning and extent of all these rules.

The amateur rule which prohibits a high school boy from accepting anything of value in an athletic contest will be discussed at length by the League head. Coaches also are seeking an opinion regarding the extent of the recent rule voted into the League that prohibits a school giving the coach part of the gate receipts. This is being construed as also banning bonuses to coaches.

This is being construed as also banning bonuses to coaches.

The Browns in a night game in St. Louis 7-3.

Interpretation of the amateur rule of the Texas Intercollegiate League, the major topic of discussion among the coaches for the week; the eight-semester rule that returns to League records next year; and abolition of spring football training, voted to begin in 1947, were expected to be given an airing with Roy Bedichek, director of the Intercollegiate League, on the program for an explanation of the meaning and extent of all these rules.

The amateur rule which prohibits a high school boy from accepting anything of value in an athletic contest will be discussed at length by the League head. Coaches also are seeking an opinion regarding the extent of the recent rule voted into the League that prohibits a school giving the coach part of the gate receipts. This is being construed as also banning bonuses to coaches.

Associated Press Sports Editor

TYLER—(AP)—Swimming in Texas is bound to get a big boost from the National AAU Swimming and Diving Championships held here the past weekend. This state has been the scene of five AAU national championships within a year—the men's track and field and women's track and field at San Antonio, the junior weight lifting and gymnastics at Dallas and the senior men's swimming nationals here. In addition, San Antonio also held the National AAU Convention. The swimming meet offered more color and interest than any of the contests.

That Texas is going to do something about its lack of national stars in the aquatic sport is attested by the fact that out at Shamrock in May there will be a swimming school. It is being sponsored by the Shamrock Chamber of Commerce through the Bob Clark, manager of the Chamber and also swimming coach at the high school.

Clark has obtained Art Adamson, coach at A and M College, as instructor. It will be the first swimming clinic ever held and Clark is calling it the Texas Swimming School, expecting to build it into something approaching the Texas Coaching School which deals with football, basketball, baseball and track.

This state has had some star swimmers but they went elsewhere to gain their fame. The record books show no one from Texas except Billard Kiltress among the women swimmers to have won national titles and set marks. None of the men attained top stature.

A major discussion among the fans and sports writers at the swimming meet was the so-called tempering of the divers. These fellows probably are more susceptible to noise and minor distractions than any athletes including golfers, who can hear a match drop 20 yards away. Camera clicks were barred, the fans were told to keep quiet, no one was allowed in the pool while the divers were competing and at one time swimmers in the bath house 175 yards away from the diving platform were silenced.

But Matt Mann, veteran coach of the University of Michigan, scoffs at noise bothering the divers.

"The divers practice with thousands around the pools making all sorts of noise and it doesn't bother them," he pointed out. "Babe Ruth would go to the plate with 50,000 fans howling at him and slug a home run. Golfers, however, are doing no more than Ruth; they are hitting a ball and it's stationary at that, yet they won't stand for even a pin dropping. I think this business is overdone with regards to the divers."

Jimmy McLane, the 16 year old star distance swimmer from the New Haven (Conn.) Swim Club, a student at Andover Academy and a resident of Akron, Ohio, is one of the marvels of the sport.

Here is a youngster who swims

Three Top Texas Loop Teams Are Given Decisive Beatings

Base Hit Diet

Cincinnati lead-off man Frank Baumholtz sweats his base hit diet with sauerkraut, which he helped his folks make as a kid.

The three top teams of the Texas League had something in common today—decisive lickings. It practically poured runs and hits last night, with Shreveport pounding Houston, 14-3; Tulsa walloping Dallas, 17-5; San Antonio downing Beaumont, 7-3 and Oklahoma City defeating Fort Worth, 8-4.

The league leading Houston Buffs fell apart before the onslaught of fourth place Shreveport—the Sports racking up 12 runs in the second and third innings. Bruce Hammer helped win his own ball game by collecting three singles.

The biggest outburst came at Dallas, with Tulsa picking up 22 base hits. It broke a seven-game losing streak at Dallas' home park.

A big third inning, in which six runs crossed the plate, wrote Dallas' finish. Just for good measure the Oilers came up with two other wild frames, scoring four times in the sixth and five in the seventh.

Al Rosen's 16th home run of the season, and tight walks helped Oklahoma City to an easy victory in the first of three games with Fort Worth. It was Woody Johnson's third pitching win of the season and the third straight defeat for the Cats' Clarence Podbielniak.

San Antonio started in early against Beaumont, making five hits pay off for four runs in two innings—including Jack Louman's homer in the second.

The standings remained the same after last night's play, but were tightened considerably. Just 12 percentage points separate third place Dallas from fifth place Tulsa, while Fort Worth trails Houston by two games.

The same clubs take the field tonight. This puts Tulsa at Dallas, Oklahoma City at Fort Worth, San Antonio at Beaumont and Houston at Shreveport.

Two All-Star Men Are Out of Action Due to Injuries

EL PASO—(AP)—Two players were considered definitely out of action and two others were nursing injuries that probably will mean limited service as the all-star teams went through final practice sessions today before the annual football games of the Texas Coaching School expected to draw 10,000 fans to Kidd Field at Texas College of Mines tomorrow night.

The North squad, made up of players from the upper districts of the Texas Interscholastic League, was hardest hit with two men on the shelf.

They are Bob Matz of Sunset (Dallas) and Stanley Clayton of Sherman, halfback and end respectively. Each has a leg hurt that puts him on the very doubtful list.

Still another North player, Don Cunningham, back from Graham, was nursing a charley horse but should be able to play some.

Bill Repass of Lamar (Houston) center of the South squad, suffered torn ligaments but was expected to be ready for considerable service tomorrow night.

The South continued to rule favorite to win the game because of its apparent backfield superiority. The North was conceded to have the better line but not to be up to the South in all-around brilliance and speed.

Probable starting line-ups are:

SOUTH—Payne, Thomas Jefferson (San Antonio) and Wright, Milby (Houston), ends; Ykukal, Goose Creek, and Weis, Marshall, tackles; Spencer, Pasadena, and Kazanas, Waco, guards; Cochrane, Galveston, center; White, Breckenridge, Moot, Lufkin, Taylor, Hondo, and Rote, Thomas Jefferson, backs.

NORTH—Dupriest, Crozier, Teah (Dallas), and Moorman, Odessa, ends; Dowden, Odessa, and Lowe, Wichita Falls, tackles; Beal, Paschal (Fort Worth), and Foster, Odessa, guards; Lincoln, Sweetwater, center; Fry, Odessa, McPherson, Amon Carter Riverside (Fort Worth), Stuver, Ysleta, and Barton, Fort Stockton, backs.

Adolph Rupp Seeking To Make Basketball Year Round Sport

EL PASO—(AP)—Adolph Rupp, the tobacco farmer who is basketball coach of the University of Kentucky, says his favorite sport has won its fight for top recognition and that he now will show it can be turned into a year around game.

Here to lecture at the Texas Coaching School, Rupp declared that the fans had pushed basketball to its place in the sun.

"It's not a stepchild any longer," he said. "And it never should have been. It has been neglected by the athletic departments which concentrate on football and tie up all the funds in equipment, stadium and recruiting. But the fans showed them they should give basketball its proper place."

Rupp has scheduled six games for next summer to be played in the Kentucky Football Stadium at Lexington. He plans to build a platform in one wing of the stadium and use 14,000 seats.

"Basketball can be played in June, July and August if it is outdoors," he asserted.

"It is a sport the people like as shown by the fact that 140,000,000 saw it last year in the nation," he said, "and there is no reason why it can't be played all the time. What we need to do is to put as much behind it as we do football."

Gulf Coast Sportsmen Seek an Injunction

BEAUMONT—(AP)—Legal counsel will be employed by the Gulf Coast Rod, Reel and Gun Club to seek an injunction against the shooting of explosives in Gulf waters by seismographic crews of oil companies—a controversial subject the past year between sportsmen and commercial fishermen and the oil companies.

Members of the club said a brief probably will be filed in a Jefferson County Court within the next three weeks.

Everett R. Bashear, club president, said finances for the preparation of the brief and for the anticipated court fight are to be raised by the club from among its members, the Commercial Fishermen's Associations and other sports clubs along the Gulf Coast.

The club approved plans to employ legal counsel by a majority vote of members present at a meeting last night.

Marshall Grabs 2nd In Lone Star League

By the Associated Press

Marshall's Comets won a 11-10 ball game from Bryan last night and as a result held second place in the Lone Star League today. While the Comets were squeezing out the Bombers, league leading Longview rumped Lufkin, 8-1, behind the three hit pitching of Okey Flowers. Glenn Blackwood singled home Jacksonville's lone tally and shut out Henderson on the mound. Tyler dropped Kilgore into third place by taking advantage of 11 hits and five errors to win 8-3.

Most of Mexico is a high tableland, ranging from 3,000 to 8,000 feet in elevation.

Turn In Used Cooking Fats!

asks **MARY MARGARET MCBRIDE**, Famous Radio Commentator

One of the finest jobs ever done by American housewives has been in saving used fat! Since 1942, over 800 million pounds have been salvaged. But, as Secretary of Commerce W. A. Harriman points out, the job still isn't over. "Not only the United States, but the whole world still lacks adequate supplies of fats and oils. And we in America are particularly short of industrial fats." These industrial fats, or their products, are needed to make many things we use every day. The used fats you turn in will help tide us over until supplies are normal.

KEEP TURNING IN YOUR USED FATS

New State Junior Golf Champion Is Assured

SAN ANTONIO—(AP)—A new state junior golf champion was assured today after Chester Hauser, Kerrville, defeated Gene Towry of Dallas, the defending titlist, 2 and 1, in yesterday's quarter-finals of the 21st annual meet.

Hauser's opponent in today's 36-hole semi-finals is red-haired Bill Maxwell of Abilene. Semi-finalists in the lower bracket are Joe "Red" Conrad of San Antonio and Palmer Lee Lawrence of Arlington. The Conrad-Lawrence match will be a re-play of a semi-final match last year that went 37 holes before Conrad won.

Drouthy Conditions Grow More Intense

AUSTIN—(AP)—Immature crops everywhere in Texas but along the coast and in the Lower Valley continue to deteriorate as drouthy conditions grow more intense, the United States Department of Agriculture states.

Its crop review for the week ending Aug. 4 noted that the tropical storm that hit the Lower Valley brought much-needed rain, that it also caused extensive damage to cotton in both yield and quality.

Feed was getting short on most pastures and ranges over the state, except in the Northern high plains counties. Cattle and sheep were showing considerable shrinkage. The grass outlook was greatly improved in southern areas swept by tropical rains over the week-end.

Cotton was still making good progress in the face of a general need for rain. Late planted corn was in bad shape almost everywhere.

Prices Continue to Rise on 1947 Rice

CROWLEY, La.—(AP)—Prices are continuing to rise as the 1947 rice harvest gets under way in Southwestern Louisiana.

The highest price to date this season is \$10.57 per barrel for 1,000 barrels of Zenith variety sold by J. N. Cossen of Rayne, to the Kaplan Rice Mill of Kaplan.

At Gueydan a sale of Magnolia was made Monday on a \$10.50 base. Under last year's controlled GFA prices, the season's first rice was between \$6.20 and \$6.75 per barrel.

The Mayan Indians were proficient as wood-carvers, potters, and weavers.

\$4-BILLION OBJECT-LESSON

Perhaps we should be grateful to the British for furnishing the people of America with an object-lesson. And when we consider what we can learn from the conditions as they exist in socialized England, it is highly probable the three and three-quarter billions of dollars we lent her is a good investment.

The coal mines of that country were nationalized, after it was believed they would not run any other way, but they still can't produce as much coal as we can—even though they do have more people mining coal.

The railroads may be next, but that is not likely to help. Prime Minister Attlee dropped the other shoe yesterday. He told Parliament the country would reduce the armed forces, impose a limited direction of labor and seek relaxation of clauses in the U. S. loan agreement to ease the growing economic crisis.

So, there you have it. A bad situation was aggravated two years ago when the Labor government went into power, imposing socialistic restrictions upon the people. Now, as matters grow worse, more restrictions are clamped on. Of course, that is about the only thing a government can do, if it is to hold onto the reins.

As we said before, perhaps we should be grateful to the British. We should be able to see where the country has made the grave mistake of believing that the economy can actually be planned by imposing restrictions, etc.

The lesson we learn may even be worth the four billions we certainly aren't going to get back.

NEWS NOTEBOOK by Peter Edson

Common Ground

By R. C. HOLES

Membership in the Federal Council of Churches of Christ in America

Since I have so repeatedly pointed out the unchristian acts advocated by leaders of the Federal Council of Churches of Christ in America, I want to give the names of the church denominations which belong to this organization so that the members of these congregations who do not believe in any form of collectivism, and who believe in the American way of life, the Ten Commandments, the Sermon on the Mount and the Declaration of Independence can use their influence in the church organizations to get their church out of this pagan group calling themselves Christians.

Here is the list of Protestant churches now belonging to this organization, according to the latest bulletin of the Federal Council of Churches issued March 25, 1947:

Northern Baptist Convention, National Baptist Convention, Church of the Brethren, Congregational Church, Disciples of Christ, Evangelical United Brethren, Evangelical and Reformed, Friends, Methodist, African Methodist Episcopal, African Methodist Episcopal Zion, Colored Methodist Episcopal, Moravian, Presbyterian Church in the U. S. A., Protestant Episcopal Church in the U. S. A., Protestant Episcopal Church in America, Russian Orthodox Church in N. A., Seventh Day Baptist, Syrian Antiochian Orthodox, Ukrainian Orthodox, United Church of Canada, United Lutheran Church in America, United Presbyterian.

Local Governments Follow Supreme Court

As the Federal government is charged to become more and more a government of men rather than a government of impersonal rules, local governments also become more and more to be a government of men rather than a government of impersonal rules. The United States government guarantees to every state in the union a republican form of government. And as the federal government changes its ideas of a republican form of government, local governments change their ideas.

THE VIEWPOINT CHANGES

In the Senate tax reduction debate, Sen. Joseph C. O'Mahoney of Wyoming quoted President Harding's Secretary of the Treasury Andrew W. Mellon to the effect that the tax reduction was not a tax thing for business, as some people contend. Sen. Millard Tydings of Maryland interrupted to remark, "In those days they used to listen to Mellon. In these days all they want to do is cut a melon."

DIGGING FOR PORK CHOPS

Another side angle on the meat situation came from John L. Lewis' new contract. Coal miners are said to be great pork eaters. Their new wage agreement, guaranteeing good pay for a full year, is expected to result in a sharp increase in the consumption of nearly half-million families in coal mining communities.

INTERVENTION

Secretary Marshall, for instance, has urged the necessity of blocking and discrediting Stalin in asking Capitol Hill Republicans to provide authority and funds for his plan. In most instances to date they have complied.

FASTEST TRAIN

Fastest regular passenger train in the world is said to be that running from Swinton, England, to London at an average rate of 69.3 miles an hour.

DIVIDING LINE

Cape Hatteras, N. C. is the southernmost range of many North Atlantic fish and the northernmost range of many South Atlantic species.

NATIONAL WHIRLIGIG

WASHINGTON

WORLDS

The threatening shadow of a now hostile Russia hangs so darkly and completely over Washington and the non-Communist universe that it influences and distorts opposing nations' decisions on every domestic and international problem—diplomatic, military, political, economic and social.

MOVIE

Every Administration move since March (and most of them have obtained Congressional support from Republicans and Democrats) has been made with its effect on Russia in mind. To wit:

(1) President Truman requested \$400,000,000 for Greece and Turkey, and an additional \$322,000,000 for stricken areas, largely to strengthen them against Communist plots and infiltration.

(2) The Marshall Plan was merely an expansion of the Greco-Turkish scheme. It was an afterthought designed to destroy the impression that we were lining up Western European nations against the Soviet. Russia was invited to participate, but this was only a formal gesture. Her refusal was anticipated.

(3) It was Russian aggression in the Orient which inspired the Wendener mission to China, and a revision of our attitude toward Chiang Kai-shek. We still cannot swallow the Generalissimo's bad manners and undemocratic methods, but we must support him lest his government collapse under northern Communist assaults.

(4) It was Russian aggression in the Orient which inspired the Wendener mission to China, and a revision of our attitude toward Chiang Kai-shek. We still cannot swallow the Generalissimo's bad manners and undemocratic methods, but we must support him lest his government collapse under northern Communist assaults.

Top o' Texas FARM NEWS

Pampa News, Thursday, August 7, 1947 Page 13

County busts itself each year turning out a huge portion of the nation's toothsome tubers. As far as he an his Aroostook constituents are concerned, Long Island can have a monopoly on the golden nematode, a worm-like creature that takes the gold out of potato farming. This is one monopoly that won't call down a Congressional investigation, either.

The bald-topped fighting senator from Canada's closest southeast neighbor has written Secretary of Agriculture Anderson asking that potatoes grown on Long Island, stay right in their own back yard. He wants them condemned. That doesn't mean that Long Island spuds would get the same sort of treatment that Mexico's foot-and-mouth infested cattle get. No burning pits are necessary because humans and livestock aren't likely to be harmed by eating potatoes from alling fields. The big danger is that some of the tubers will find their way to other potato farms; and then, claims Senator Brewster, the American farm economy will take a terrific beating.

Long Island's experience shows why. The golden nematode munches the slender tendrils of the potato

root as eagerly as a bobby-soxer downs an ice cream sundae. It doesn't bother the spud itself. Potatoes from sick plants look like any others; and taste as well. The trouble is that potato yields take a steady downward plunge. Finally, potato growing goes in the red, just as it has already on 3,500 Long Island acres.

It's easy to see what this can mean to Maine, Idaho, and other large potato states like New York and Pennsylvania. These states have already joined the large southern potato areas as victims of the golden nematode's first cousin, the root knot nematode which is a pliker compared to the Long Island pest.

Chester DuMond, New York's commissioner of agriculture, has told the senator from Maine to keep his shirt on. He maintains his department, with the help of USDA experts, has the situation well controlled and that there's no more cause for alarm now than before. New York's nematologists, the fellows who specialize in fighting the whole nematode family, are doing a good job, said Mr. DuMond; and Maine and the rest of the states needn't worry about it. After all, upstate New York raises plenty of potatoes itself, and Mr. DuMond must be confident his Long Island men can handle the problem. Mr. DuMond doesn't want upstate New York potato growers on his neck any more than he wants Federal interference.

APPLES IN A JAM
"Apples for the teacher" will go out of fashion next year if crop prospects don't take a turn for the better. They'll be so high-priced Mom couldn't afford to let little Jimmy do any apple-polishing.

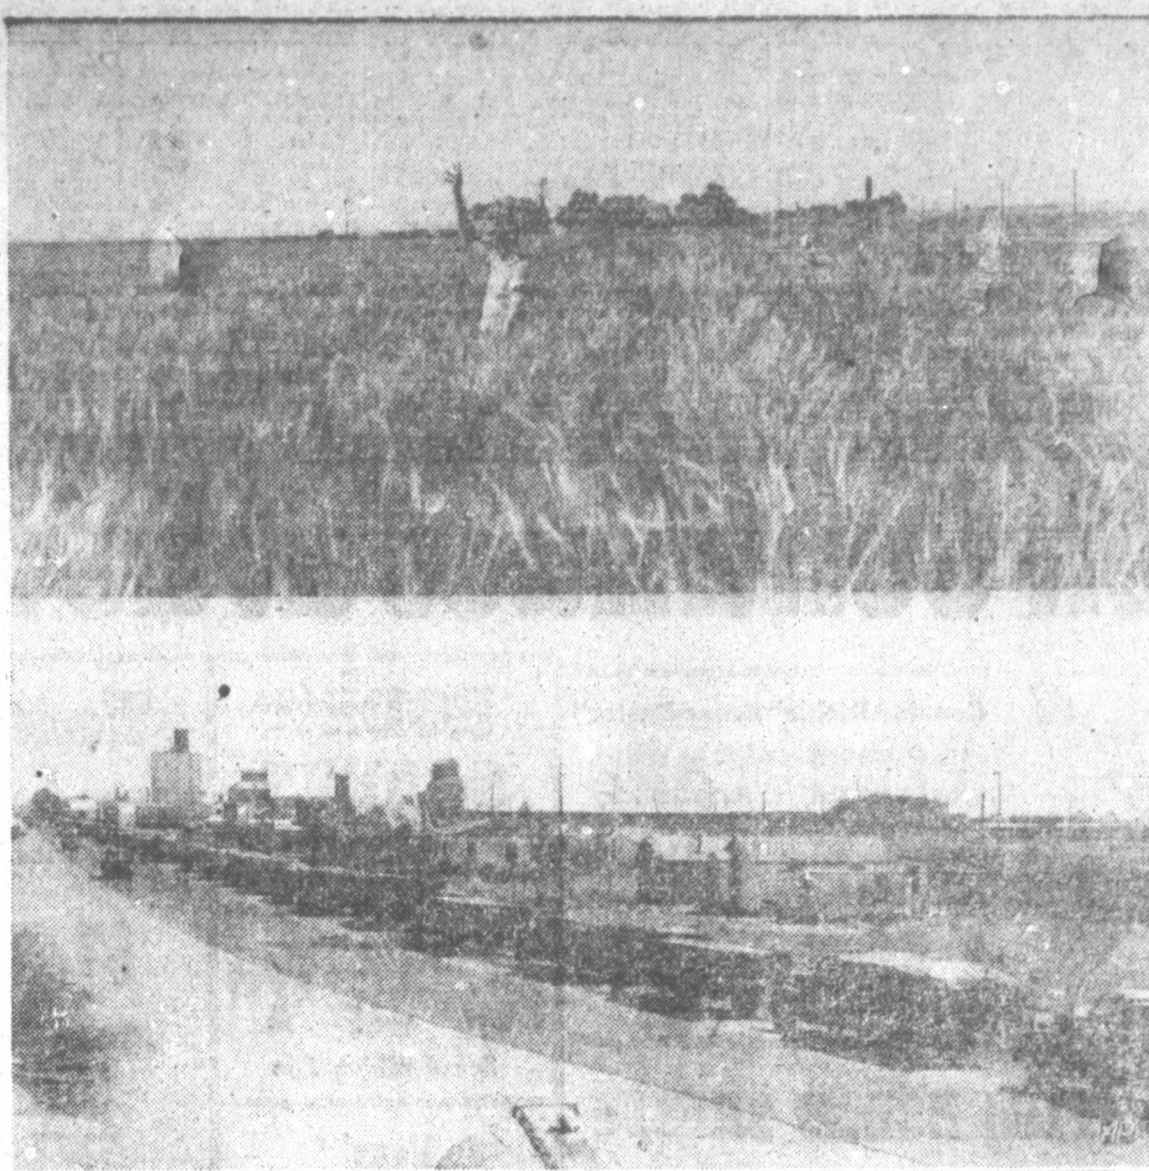

Late frosts in the Eastern apple belt, sometimes called the Appalachian Area, have growers plenty worried. They are expecting only half of last year's output. So, scarcity plus skyrocketing costs of production may price apples right out of the market. Present prices are so high already that some of last year's crop may be left over. Apple orchardists are losing sleep over the fear that the wary consumer may rebel at the apple-counter.

If those same consumers expect to keep their doctors away by having their apple a day from cans and jars, they're liable to be disappointed, because this same Appalachian Apple Axis, which runs from Virginia, through Eastern Maryland, West Virginia and Pennsylvania, produces 60 percent of the country's

apple by-products—juice, jelly, applesauce—and applejack. Shifting production over to the Far West's famed Yakima Valley, Wash., or to any other apple area, isn't likely because most processing plants are near the Eastern sources of supply; and you don't just pick up an applesauce works lock, stock and barrel and move it to another part of the country.

The big question is: Will production costs be so high that orchardists won't be able to sell profitably at a price the consumer is willing to pay? After all, producers can't squeeze apple profits out of exhausted consumer-pockets. If the top price that consumers will pay doesn't come up to the cost of production, the apple industry will have the kind of sickness that apples can't cure. The whole industry will be in one big apple stew.

WHEAT STORM FOLLOWS SANDSTORM—A sandstorm early in the year struck Swisher County and a lot of people felt sorry for the "destroyed" wheat crop. But a few months later, a record crop was being harvested. The picture at top showing chest-high wheat was taken at almost exactly the same spot a "destruction" picture was taken earlier—a picture showing utter devastation. Below, a part of a string of 125 trucks waiting their turn at the Tulla, Texas, elevators with the record crop.

New Crop Being Studied For Farms of Southwest

By NEA Service
TUSCON, Ariz.—(NEA)—Farmers in southern Arizona and the adjacent corner of California are beginning to plant a new crop which they hope will add to their cash income and, at the same time, improve their soil for other crops.

This is guar, a drought-resistant legume from India, which was introduced to this country as a green manure and cover crop, but now is considered as a possible major domestic source of vegetable gum.

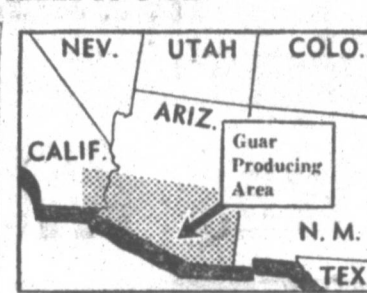

Vegetable gums have become increasingly important, during the past ten years, for various purposes. They are used to stabilize and thicken salad dressings, ice cream mixes, bakery products; they appear in textile warp sizes; printing pastes and finishes, and are used in sizing

paper and hydrating cellulose fibers. Locust bean flour, the most widely used, has to be imported. The supply has been uncertain. No domestic source has been developed. Guar is believed to show promise of furnishing a consistent, easily-regulated supply of gum-containing seed.

A major milling company has been promoting cultivation in this area, and working on processing problems for four years now. One advantage of guar from the farmer's standpoint is that it can enable him to use his land the year around. Barley and wheat, for example, are planted here between the middle of December and the end of January, and harvested between May 15 and June 15. Flax is planted from the first of June to the middle of July.

The same land can be used for guar, planted between the middle of June and the middle of July and harvested between Nov. 1 and the end of the year.

The new crop utilizes surface water to advantage; its tap root stirs up and benefits heavy soil, to the advantage of the next crop. It is resistant to insects and diseases. Experiments will be made to determine whether guar can be grown

In other parts of the South. Thus far, however, it has been achieved only in the irrigated areas of highly productive valleys, where the growing season is long, the mean annual temperature ranges from 69 to 74 degrees F. and rainfall is so low that moisture can be controlled rigidly. It prefers loamy to sandy soil and is allergic to both weeds and high alkalinity.

Over 584 Billion Pounds of Grain Shipped Overseas

DALLAS—(AP)—During July approximately 584,173,000 pounds of feed grains, flour and dry milk were lifted from six Southwest ports for foreign shipment.

T. T. Miller, chief, Production and Marketing Administration's Shipping and Storage Branch, U. S. Department of Agriculture, said grains, mostly wheat, totaled 449,043,000 pounds and were scheduled for shipment to India, Finland, Greece, France and Norway. Other

shipments included 113,701,404 pounds flour and 21,428,600 pounds dry milk for American and British zones of occupation.

The six ports are Galveston, Beaumont, Houston and Port Arthur in Texas and New Orleans and Lake Charles in Louisiana.

Belgium has a population of 8,361,600 persons and an area of 11,755 square miles.

Leaves From a Correspondent's Life Note Book

By HAL BOYLE
 NEW YORK—(AP)—Jeanie is a girl that success can't spoil. She has made good in the big city. She did it by doing little things well. She still comes back

half-a-day each week for old times' sake and makes our house loud with her laughter. I think she has the gladdest heart of anyone I ever knew.
 Jeanie is a maid, a husky friendly Negro with white teeth, dark eyes and a complexion as soft as the patina on old rosewood. She isn't just an ordinary maid. She's the kind the housewives fight and scheme against each other for. Most any woman would risk losing her dearest friend to lure Jeanie away.
 She first started coming to our house when the depression was lifting. She got fifty cents an hour

then and worked for half a dozen people. The first day she came she read all the newspaper accounts.
 "She works so fast," said Frances. "I can't tell her enough things to do to keep her busy."
 When she left, the place was spic-and-span in a new way. She has been coming ever since. Each time before leaving she accepts a good tip of something to keep her warm on the subway ride up to Harlem. I think she rubs some of her own warm,artin into the household brass and silver, for they gleam as they never did before.
 Jeanie gets so much fun out of her work it makes some people envious. Her hobby is baseball. I don't think she has ever gone to a game,

but she listens to them on the radio and reads all the newspaper accounts.
 During the war she got a maid's job on the staff of a ritzy downtown apartment hotel, and ever since she's been in the big money. The rich people there have really taken care of her. A girl like Jeanie doesn't come their way often. They like to tell her their tangled marital troubles, and they like the luster she leaves behind. Whatever she lifts her work-worn hands from shines.
 But in the evenings and on her day off Jeanie still cleans back-tireless and merry—to clean for friends who helped her in leaner days. One old lady in financial straits for whom Jeanie still labors

an entire evening for one dollar in remembrance of past kindnesses said:
 "I'll bet you've got a few hundred dollars hidden beyond a picture somewhere."
 Jeanie laughed and laughed—because she's probably got thousands. All these years she's been saving for the time when she could have a home of her own to stay in and keep clean. She's cleaned so many homes for other people.
 She laughs all the time now. For soon her boy friend is getting out of the Navy.
 There are usually about 3000 volumes in the library of a battleship.

Special Gas-Oil Ratio Set for Field

AUSTIN — (AP) — The Railroad Commission today issued an order allowing a special gas-oil ratio of 10,000 cubic feet of gas per barrel produced from the Vicksburg sand in the Tynan field, Bee County.
 Wells producing with a gas-oil ratio in excess of 10,000 cubic feet of gas per barrel of oil will be allowed daily production of the volume of gas obtained by multiplying the daily oil allowable by 10,000 cubic feet. Oil allowables of such wells shall then be determined by divid-

ing the daily gas limit by its producing gas-oil ratio-in-cubic feet per barrel of oil produced.
 The special ratio rate was allowed because of the high percentage of salt water production in two wells of the Producers Corporation of Nevada and inability to lower the gas-oil ratio.
 No waste will be caused by adoption of special rules, said the commission.
GREW UP IN TRANSIT
 A few years ago when transportation facilities were lacking in Brazil, beef cattle here were started to market as calves, so they would be mature upon arrival.

SHAKESPEAREAN PRODIGY

The British House of Commons once adjourned to see 11-year-old William Betty, boy prodigy, play in Hamlet. Betty could master the heaviest Shakespearean parts with ease.
GANGSTER HOARDS
 There are approximately 125,000 dead accounts in American savings banks today. They are believed to be secret deposits of misers and gangsters.
 Meohlin in Belgium formerly noted for lace, still carries on a large trade in linen, needles, furniture, and oil.

Western Week Continues at Levines
