Cooper's Off After Near-Perfect Launch

Final Okay To Be Given After 17th

By ALVIN B. WEBB JR.
United Press International

CAPE CANAVERAL (UPI) — L. Gordon Cooper made a near-perfect leap into space today and after one circuit of the earth was told to keep trying for a full planned mission of 22 orbits in about 34 hours.

Cooper's mighty Atlas booster lifted from its pad at 7:04 a.m. CST. At 7:10 a.m. he was pronounced in orbit in his vital attempt to advance this country's moon flight program a long step forward.

At the end of his first orbit, 8:38 a.m. CST, Mercury ground controllers told the 36-year-old Air Force major he could keep going for seven. At the end of the seventh, if all is still going well, he will get a "go" order for 17th, and then for the full 22.

Slight Modifications

As he swung over the United States at the end of his second orbit, the control center reported some slight modifications in the statistics of the Cooper flight. The velocity was set at 17,346 miles an hour. The low point or perigee of the orbit was set at 100.2 miles above the earth and the high point 165.8 miles.

It was taking Cooper just 88.45 minutes to whirl one time around

Space at A Glance

By United Press International

The astronaut — L. Gordon Cooper, 36, an Air Force major.

The mission — 22 flights around the earth, 373,000 miles, with splashdown planned in the Pacific 34 hours after liftoff. It will be the second attempt.

Tuesday's launch was postponed 13 minutes from blastoff by radar troubles in Bermuda.

Purpose — Further studies of the effects of weightlessness and experiments to be performed by Cooper — also aimed at a trip to the moon in this decade.

The missile — A 95-foot Atlas, the same type that orbited astronauts John Glenn, Scott Carpenter and Wallace Schirra.

The spacecraft — A bell-shaped project Mercury capsule, which Cooper named "Faith."

Textbook Show Due at Library Friday Night

The Gabler High School Textbook Show will be open to the public in Pampa at 7:30 p.m. Friday in Lovett Memorial Library.

Mrs. Mel Gabler, who with her husband has been conducting a drive in Texas to interest parents of high school pupils in the contents of textbooks used in the schools, will speak at the Friday night session.

High school textbooks, marked for omissions and errors, also will be displayed for inspection of the public. Mrs. Gabler stated.

Mrs. Gabler spoke in Dallas last night when at the Colonial Galleria in Amarillo tonight will speak at 8:30 a.m. tomorrow in Hereford, at 5 p.m. tomorrow in Borger, and then will come to Pampa on Friday.

Canadian Woman Guilty; Sentence Is Suspended

(CANADIAN) (UPI) — Mrs. Doris Laverne Julian, 24-year-old mother of three small girls, was found guilty of murder without malice in District Court here Tuesday afternoon.

Mrs. Julian was charged with the Feb. 23 shooting of her brother-in-law, Leonard (Butch) Peters.

The jury assessed punishment at five years in prison, maximum sentence under the charges. A suspension of the sentence was recommended, pending good behavior.

Mrs. Julian waived her statutory waiting period and Judge Lewis M. Goodrich pronounced sentence immediately in accordance with the jury's recommendations.

The defendant was freed after posting \$1,000 personal bond.

Clinax of the trial came Tuesday morning when Mrs. Julian was (See GUILTY, Page 3)

School Taxes Are Hiked 12½ Per Cent Due to Income Loss

The Pampa School Board, in an executive session last night, voted to increase school taxes approximately 12½ per cent on the tax dollar.

Superintendent of Schools Jack Edmondson and Business Manager Homer Craig announced today that the growing loss in revenue in the Pampa Independent School District had necessitated the move.

The tax rate will actually go down from \$1.95 to \$1.65, but the school tax rate will now be computed on the basis of 40 per cent of actual value, instead of the present 30 per cent, boosting tax valuations one-third.

Since 1958, said Edmondson, oilfield activity in the school district has been on a constant decline. There has been very little drilling of new wells to replace the reduction of the old well supply.

"Until 1962 the loss in oil revenue has been replaced by the growth in the city of Pampa and in some of its industries. In the last year or two, however, both growth and industry have leveled off, and the school district has just been barely holding its own."

The school board realized it would have to increase revenue to expand school facilities, and to meet rising salary requirements. This increased revenue, however, will just meet expenses. We are operating on a very close budget. This increase will take care of our current needs, wipe out last year's \$65,000 cash deficit and meet increment pay raises that go up annually.

Edmondson added, "We do not intend to create any cash surplus, but we must have enough tax revenue to wipe out our cash deficit and meet actual operating costs."

Business Manager Craig explained that this was not a sudden measure, that the school board and school officials have realized for several years that they would

have to be a raise. "The decline in revenue started in 1959," Craig said, "and we began to realize in 1960 that it was apparent that we would have to make a readjustment. In 1962, industrial plants in our district were reappraised to equalize the tax structure for all properties. We found that whereas in 1948, the oil industry paid 75 cents of each tax dollar today it pays only 50 cents, with the Celanese Corporation our biggest source of revenue, paying over 10 per cent of our taxes."

Therefore the school board has decided to increase the property values across the board as was done by the city of Pampa in 1958. Our tax rates are still lower than neighboring school districts," Craig pointed out.

Asked whether this situation would take care of future years as well, both Edmondson and Craig explained that the school district was literally living from year to year.

"We will just have to operate one year at a time," said Craig, "because we actually do not know what next year will bring if the oil industry opens up again or if we get more industry, our values will be maintained in future years. If the project fails, or revenue continues to decline, we may have to change our plans again."

Commenting further on the tax situation, Edmondson said, "The board of Education firmly intends to operate in an economic manner, taking into consider-

ation both the needs of the children of the community and in keeping with the financial ability of the community to support the school program, but we shall try to do this without curtailing in any way our school educational program, which we feel is of the highest caliber."

Craig explained that the changed figure had been arrived at by computing tax tables to figure the funds needed to maintain the budget without creating either a cash surplus or leaving a cash deficit. He explained that the change from \$1.90 on 30 per cent of value to \$1.65 on 40 per cent property valuation would amount to roughly 12.5 cents increase on the tax dollar.

Notices will be mailed Friday to all taxpayers in the school district explaining the change, Craig said. Any individual may compute his tax by multiplying the assessed value, as shown on the school tax notice, by \$1.65 on the hundred dollar valuation, the school-business manager explained.

Public hearings will be held in City Hall on May 28 and May 29 for any individual who needs to verify values or present a problem, said Edmondson. The hearings, before the School District Board of Tax Equalization, will be held simultaneously with the city's hearing, for the convenience of taxpayers who need to consult both the city and the School District boards. The hearings on May 28 will be on real property, with the following day's hearings on personal property.

Edmondson reported that board members last night also discussed salary and personnel questions, and agreed on increases in the pay of all school personnel, whose salaries are based on an annual increment raise for length of service.

SHIP DAMAGES SHIP

(LIVERPOOL, England) (UPI) — Fire caused extensive damage Tuesday to the Soviet freighter Tarta as dockers were unloading its cargo of cotton. The wheelhouse and radio room were damaged extensively and deck plates buckled by heat.

Two new city commissioners got a briefing last night on Pampa's water problems in connection with obligations to the Canadian River Municipal Water Authority.

Commissioners Jim Nation Jr. and MacField McDaniel sat in with Commissioners L. P. Fort and Leon Holmes and other city officials as T. Carr Forrest of Forest & Cotton Inc., Dallas consulting engineers, discussed the firm's recent water and sanitary sewage survey for the city. Mayor H. Raeburn Thompson was out of the city.

Forrest used illustrated slides to project over the next 20 years the city's needs for water and sewer improvements and the financial obligations attached to them.

Forrest again recommended that the city employ a fiscal agent to work out the financial problems incidental to Pampa's participation in the CRMWA. He also recommended that the city begin in the immediate future to build a reserve fund to meet the financial obligations for water treatment plant, water lines and the obligations which will begin falling due no later than 1968.

"The city in that way," Forrest said, "can effect a big savings in interest money that will have to be paid if it waits until bonds have to be sold to meet the debt."

Demonstrations Flare In Raleigh, N. Carolina

By United Press International
Racial tensions eased in Birmingham, Ala., and Nashville, Tenn. Tuesday but flared again in North Carolina's capital city of Raleigh.

More than 800 Negroes staged a "freedom march" through downtown Raleigh Tuesday night to back up desegregation demands. Police arrested 34 demonstrators.

There were no incidents during the march but there were some tense moments when the demonstrators passed street corners crowded with white youths. Police charged 15 of the arrested group with assault against Leslie Ferguson, assistant manager of a cafeteria, who was "put in a state of fear" during a sit-in attempt.

Alabama Gov. George Wallace sent another telegram to President Kennedy demanding either the removal of the troops or publication of "the true facts of your military operation."

Wallace said the presence of the troops was an "open invitation to a resumption of street rioting by lawless Negro mobs, on the assumption they will be protected by federal military forces."

Some Optimism Noted
The President was reported to be "cautiously optimistic" he would not have to use the 3,000 troops rushed to military bases at Montgomery and Anniston following racial rioting on Birmingham streets last Saturday night. Kennedy was said to be "very hopeful and very desirous that this matter can be settled on a local level."

Administration sources in Washington said that white Birmingham citizens who took part in working out a desegregation agreement with Negro leaders have been threatened with violence. These sources said the bombings of a Negro house and motel which touched off the rioting were aimed at destroying the agreement.

Negro students at Nashville, in the face of opposition from their own leaders, called off a planned demonstration in the Tennessee capital Tuesday night.

Negro leaders later met with Mayor Beverly Briley who said "we have made progress in areas of understanding the problems of the community."

SHIPWORKERS STRIKE
BARRON-IN-FURNESS, England (UPI) — Three-hundred electricians at the Vickers-Armstrong shipyard here Tuesday began a strike that could cause a delay in work on Britain's second nuclear submarine and affect the nation's Polaris program.

The strikers walked out in sympathy with other electricians fired because of

he didn't believe the city's joining the CRMWA was necessary, "we are in it and can't get out of it."

If it comes from a hardware store we have it, Lewis H. H. Adv.

Mrs. Cooper's Comment: Beautiful

(TAYLOR LAKE VILLAGE, Tex.) (UPI) — "Beautiful," Mrs. L. Gordon Cooper said today of her husband's faultless flight into space.

Mrs. Cooper sent the one word description of her reaction out by Dave Schwartz, a public affairs officer for the National Aeronautics and Space Administration, almost an hour after her husband's journey started.

She said she would have no more to say for the time being. But Schwartz reported that Mrs. Cooper had a big smile on her face.

Mrs. Cooper and her daughters, Camala, 14, and Janita, 12, went into a bedroom by themselves to watch the liftoff on a television set. Schwartz was in the living room. The family wanted to be alone at a moment when they might have watched Cooper die.

Instead, Cooper's wife and daughters saw him safely soar into space, Schwartz said. Mrs. Cooper and the girls stayed in the bedroom about 15 minutes. Then Mrs. Cooper came out, smiling broadly.

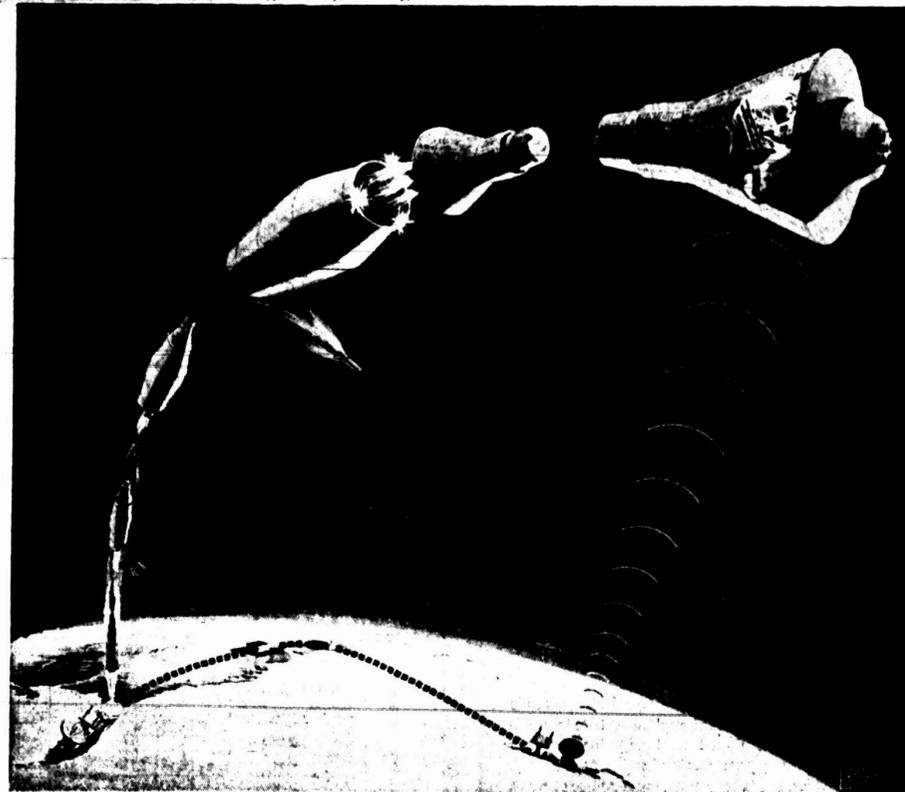

Cooper telephoned about 30 minutes before the launch. About 20 minutes before, Dr. Charles A. Berry, chief of NASA's medical operations, telephoned Mrs. Berry went into the Cooper home about an hour after the liftoff.

Schwartz said that Mrs. Cooper has asked him not to tell about 30 waiting reporters and television men anything not authorized by her.

Mrs. Cooper and the girls were up at 5 a.m. CST. They had a breakfast of hot rolls and grapefruit. The girls drank milk and Mrs. Cooper had a second cup of coffee.

The only sign of life about the house when Cooper rocketed into (See STATEMENT, Page 3)

Fast efficient Tune-ups. Call Lloyd Kuntz Sinclair, MO 4-7181. (Adv.)

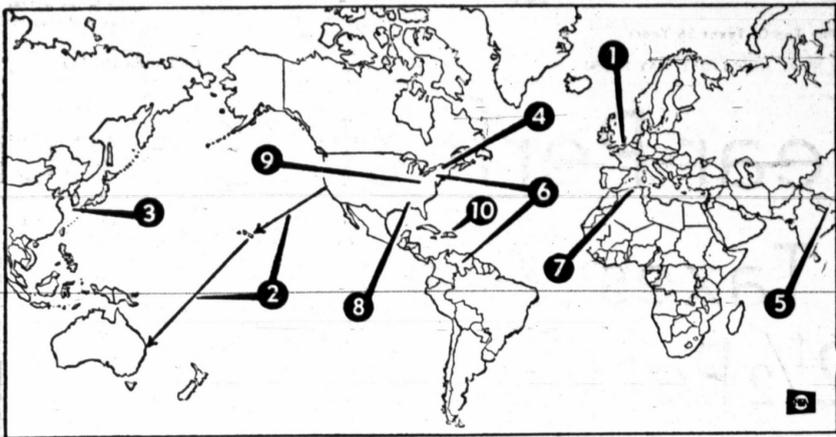

MAN INTO SPACE — The all-important beginning steps in astronaut Gordon Cooper's Mercury flight are shown in this drawing by a NASA artist. Pilot and capsule must be precisely injected into a "keyhole" in space about 100 miles high above Bermuda, 500 miles downrange from Cape Canaveral, Fla. If the aim and speed are wrong, the capsule will fail to go into orbit or may orbit too high. The Mercury and its Atlas rocket are first launched vertically from Cape Canaveral. As the booster rockets drop off and

the sustainer engine takes over, the vehicle tilts into its planned trajectory. Next, the escape rocket tower is jettisoned. The Mercury, still attached to the burned out sustainer engine, now coasts at a speed of about 17,500 miles an hour. If the aim has been correct, the capsule blasts free and goes into orbit. The pilot then maneuvers the capsule to face blunt end forward. Ground radar on Bermuda, connected with the tracking center at Goddard Space Flight Center, Md., confirms that so far the mission is A-O.K.

WHAT AND WHERE? A New News game for readers

In each of the numbered spots marked on this map a newsworthy event occurred recently. As a newspaper reader, check your memory and your knowledge by identifying the event through the location. The accompanying box will help you do it.

MATCH 'EM UP

- | | |
|---|---|
| <input type="checkbox"/> Assassin scores | <input type="checkbox"/> Woman against sea |
| <input type="checkbox"/> End of an era | <input type="checkbox"/> Happy is the bride |
| <input type="checkbox"/> Mass protest | <input type="checkbox"/> On top of world |
| <input type="checkbox"/> Turf upset | <input type="checkbox"/> Numbers game |
| <input type="checkbox"/> Caribbean hassle | <input type="checkbox"/> Sea disaster |

What occurred where? Look at the map and match up the numbers with the events listed in the box at the left. Then turn to the answers on this page and see how well you did. Score yourself 10 points for each correct answer. A score of 20 or less indicates you'd better start reading the papers a bit more. A score of 50—you're fairly hep. A score of 75—you're pretty sharp. A score of 90 or more—congratulations to a real news hawk!

Hemphill County Chapter Honored

CANADIAN (Sp1) — Hemphill County's Red Cross chapter was one of 225 local American Red Cross chapters in a 16-state midwestern area singled out for special recognition at the International Centenary Year convention of the American National Red Cross this week in Philadelphia.

The Hemphill County Red Cross chapter was recognized for an outstanding campaign record in recognition of achieving its 100 percent goal in the recent fund campaign.

A special citation for Hemphill county was presented at the convention by Philip Schenkenberg, area manager for the ARC, and will be forwarded to the local chapter.

Two hundred and twenty-five of the 1500 midwestern chapters received the special recognition.

More than 4,000 delegates from American Red Cross chapters assembled this week in Philadelphia to observe the 100th anniversary of the international Red Cross.

Cheerleaders Are Elected

LEFORS (Sp1) — Head cheerleader for 1963-64 at LeFors High School is Shirree Cable, Miss Cable and Caron Terry were the candidates.

Senior cheerleader is Jeanne Atkinson.

Junior cheerleader is Carolyn Presley. The runoff was between Miss Presley, Phyllis Lamb and Donna Shipman.

The sophomore cheerleader is Charly Gustin. The runoff was between Miss Gustin and Marlene Gates.

The freshman cheerleader is Nita McCoil.

A thought for the day—Greek playwright Epictetus said: "No man is able to make progress when he is wavering between opposite things."

ANSWERS WHAT, WHERE?

- In London, Churchill, 88, says he'll retire from Commons.
- Mrs. Betty Miller, 36, flying Pacific solo from Oakland, Calif., to Brisbane, Australia.
- Japan-bound Red China freighter sinks off south tip of Korea after hitting reef or being torpedoed.
- New Hampshire adopts state lottery to raise revenue.
- First American scales Mt. Everest.
- New York Gov. Nelson Rockefeller, 54, weds divorcee Mrs. Margaretta Fitter (Happy) Murphy, 36, at Pocantico Hills, N.Y. They honeymoon in Venezuela.
- Mohammed Khemisti, Algerian foreign minister, dies in Algiers from assassin's bullet.
- Massive racial demonstrations in Birmingham, Ala.
- Chateaugay wins Kentucky Derby at Louisville.
- Dominican Republic threatens to invade Haiti.

Walter Rogers Reports Progress on Local Airlines

Concerning Local Airlines

This week I'd like to tell you of a concrete step being taken by one American industry group to hasten the day when government assistance will not mean the difference between economic survival and bankruptcy. This group is the Association of Local Transport Airlines, an organization of 20 air carriers serving 577 cities having a population of more than 116 million persons and providing the only air service to 341 of these cities.

I was privileged to address the quarterly meeting of ALTA Friday night in Fort Worth on the invitation of Keith Kahle, president of Central Airlines.

The Association of Local Transport Airlines is working through a joint committee of its members to outline specifications for a new aircraft tailored to the unique requirements of small airlines. Never before have these small airlines operated planes designed specifically for short-haul operations over low-density routes. Generally, local carriers have had to employ planes too large for the number of passengers generated by the Nation's smaller cities.

Now, ALTA's "Low Cost Plane Design Committee" is preparing for aircraft manufacturers specifications for a plane that promises not only to improve the quality of service now offered and to expand it to many additional cities but also to improve the incomes of small airlines and thereby reduce the need for federal subsidies.

The accomplishment of this goal would have important consequences for the Panhandle area. Air service could, as a result, be extended to more of our cities. Up to now, the trend toward large, high-speed, long-range jet aircraft as used by trunk airlines has meant that U.S. cities even larger than Amarillo have had to sustain a curtailment in commercial air traffic. No longer is it economically feasible for these giants of the air to be landed frequently. Amarillo enjoyed its heyday of air passenger service during World War II when 26 TWA flights stopped daily at the municipal terminal—many of them because they had to be refueled on the Albuquerque - Amarillo-Wichita leg. Now, only four TWA flights stop each day at Amarillo. I cite this not to criticize the airline, as a trunk carrier, TWA is meeting its responsibilities to Amarillo in line with the nationwide pattern.

But as the large trunk airlines have curtailed service in smaller cities, local airlines, constituting an industry born in the postwar period, have come along to fill the gap. One of their big jobs in the U.S. air transport pattern is to move passengers and cargo from small to large cities for transfer to trunk airline connections. In the past four years, local air service has been added to more than 8,300 route miles—23 percent of the total.

Recent Visitors: Loula Grace Erdman (the novelist) from Amarillo; Honorable F. V. Wallace (new mayor), Frank Storm (airport board chairman) and Sterling Kinney (the corporation counsel) from Amarillo; and Mr. and Mrs. Clyde Barber (he's the school principal) with some 30 senior students and their escorts from Gruver High School.

RICHMOND, Va. — Undersecretary of Commerce Franklin D. Roosevelt Jr., puzzled as to why Sen. Barry Goldwater wants the Republican presidential nomination:

"I think he enjoys his work in the Senate and knows he cannot beat President Kennedy."

mileage served by small airlines—and 3,700 of these-miles have been added in the last year and a half. Passenger traffic has grown fourfold in the past decade and increased 130 percent in the last five years.

The new airplane being planned by the ALTA committee has, as its primary justification, the prospect of continued and expanded economic service to smaller communities. A preliminary report from the committee concludes that the airplane "of fully acceptable safety and comfort requirements" should have capacity for 18 passengers, including luggage, plus 1,000 pounds of cargo; that, probably under turbine power, it should be capable of operation at a direct cost of 40 cents per statute mile, substantially below cost figures which have been achieved; that it should have an operating range of 500 statute miles non-stop with full payload; and that it should require a runway no longer than 3,500 feet for takeoff.

"The alternatives to producing an aircraft designed for a small city, short-haul operation must inevitably be either the ultimate elimination of scheduled services to many cities, or further increases in the nation's subsidy bill. Elimination of service is clearly not in the public interest, and increased subsidy for whatever reason is undesirable," concludes the ALTA committee report.

The proposed new plane is not alone the answer to eliminating the need for subsidies to an industry whose economic health is very much in the national interest. Continued improvements in route structures and further relaxation of operation restrictions can also help reduce the level of public payments, which dropped \$1.5 million in the past year. But prospects for the new plane provide heartening evidence of this industry's desire to be self-sufficient and progressive in keeping with the ideals of our free enterprise system.

Officers Elected At Canadian High

CANADIAN (Sp1) — Canadian High School students, in special assembly Monday afternoon, named a junior, sophomore and a freshman to top offices in the student government.

Eddie Synder defeated fellow junior Wade Adams for president of the student body.

Bill Grist, a sophomore this year, was elected president of the Student Council without opposition. Mike Cullender of the freshman class defeated Janie Jackson for election to the post of Councilman-at-Large.

Class representatives to the Student Council were elected at class meetings on Wednesday, winding up "political week" at the high school.

The senior class re-elected Wade Adams, Jimmie Kay Owens and Patsy McCormick and named Bill Owens to replace Kenny Koch. Janet Greene was also a candidate.

The junior class re-elected Keith Yarnold and Joyce Thorne; and named Charles Kessie and Mary Rutledge to posts which had been held by Sheila Foster and David Cook. Others in the race were Janie Wilson and Cathy Smith.

The sophomore class re-elected David Whitefield, but two incumbents, Janie Jackson and Susie Owens, were defeated as Tony Steidle, Janice Selby and Barbara Clark were elected to council posts.

The informing freshman class elected Howard Sanders, Johnny Walker, Belinda Tepe and Denise Adams to the Council. Other nominees were Jane Bartlett, Dana Dempsey, Diane Adams, Ruth Forrest, Georgia Newell, Gary Jahnel and Flavius Killebrew.

Jaycees Hear Program on Americanism

A talk on Americanism and freedom, highlighted by excerpts from historical speeches, and recordings of speeches by former President Franklin D. Roosevelt and other great Americans, was the feature program at the Jaycees weekly luncheon yesterday.

The program was presented by the officers of the Pampa High School Key Club, Raymond Nance, Don Sears, Jim Shellhammer, Joe Fischer Jr. and Hank Henry, and their sponsor, Melvin Munn.

Three new members of the Pampa Jaycees were introduced yesterday, Bill Trout, Herb Hester and Charles Reding, with Trout being sworn in by president Gary Frasier.

Frasier also reported on the state convention held in San Antonio last week. Pampa won three awards, for Ways and Means projects, for Youth and Sports projects and for Internal Affairs projects.

Frasier reported that Pampa had backed the newly-elected state president, Larry Tate of Longview, strongly, with Pampa past president A. J. Carubbi nominating Tate.

Pampa also put in a bid for the Region One summer convention, to be held in July or August. Next year's state convention will be held in Corpus Christi.

The "Mystery Jaycee" yesterday was Lynn Thames.

Current project reports on the junior tennis program, Clean-Up Week, light bulb sales, the nursing home campaign and radio day were also given.

Ted Everhart was named Jaycee of the Month for his work on the installation banquet.

41,000 Die in Automobiles During 1962

CHICAGO (UPI) — More than 41,000 persons were killed in auto accidents last year, reports the Journal of American Insurance. One and a half million persons were injured.

The death rate was higher than at any time since 1941, when 39,969 persons died in traffic accidents. "Ultimately, motorists will pay the price for 1962's shameful road record," the Journal predicts. "Inflated jury awards and other auto insurance cost factors combined with high accident rates press auto insurance rates up."

Insurance payments for auto accidents climbed to a record \$3.8 billion last year while economic losses from such accidents totaled more than \$8 billion, including lost worktime and other costs not fully compensated by insurance payments.

TIMELY TIPS FOR TRAFFIC

NEW YORK (UPI) — Pedestrians should be seen and not hurt.

That's one of half a dozen "Tips for New Drivers" that local employees of the firm that makes the Swedish Volvo car came up with in a recent contest.

The others are: —Drive so that the only time you lose control of your car is when you forget to make payments. —Remember that people who live near railroad crossings seldom have to buy automobile parts.

—An ounce of prevention should be added to every 10 gallons of gas.

—When driving for recreation, don't change it to wreck-recreation.

—Bear in mind that a reckless driver is an accident going somewhere to happen.

"For insurance companies, rapidly mounting claims mean underwriting losses," since companies must pay each year's claims out of the previous year's premiums," says the Journal.

In Illinois, a majority of auto insurers based in the state expect to show underwriting losses for 1962. Accidents have more than doubled in the past 10 years, and bodily injuries in traffic accidents are up 59 per cent.

The Journal urged adoption of eight key traffic safety measures as the best solution to the nation's mounting traffic toll and the consequent rise in auto insurance costs. They include: stiffer motor-vehicle laws, improved law enforcement, increased driver education, more school safety patrols, uniform traffic signs, modern traffic engineering, wider use of safety belts and tighter driver licensing procedures.

Italian Scientist Accused of Being Spy for U.S.S.R.

SOUTHEND, England (UPI) — The British government charged today an Italian-born physicist who worked at a British atomic research laboratory was a Russian spy.

The government said Dr. Giuseppe Martelli, 39, was caught with all the tools of the spy's trade—shoes with hollow heels, false-bottomed cigarette cases, mysterious diary notes and coding equipment.

But prosecutor E. J. P. Cussen indicted Martelli was caught before he had time to pass on Britain's nuclear secrets to Moscow. This was expected to provide a needed morale boost for Britain's security service, currently under criticism after a series of sensational spy cases in the past two years.

Cussen asked a magistrate's court to hold Martelli for trial on charges that he had prepared to break the official secrets act — Britain's spy law.

Although the state claimed Martelli had not actually passed any secrets, the charge said he had made preparations to do so between Sept. 23, 1960, and last April 4—a period of more than two and a half years.

Martelli was the European Atomic Energy Community's (EURATOM) representative to the British nuclear research laboratory at Culham. While there, the government said, he worked on non-classified "atoms for peace" projects.

Cussen said, nevertheless, the physicist "is a spy working for the Russian intelligence service."

Martelli was picked up in April when he stepped off a plane from Brussels, EURATOM headquarters.

SARA HAHN ... Valedictorian

DONNA REED ... Salutatorian

CHARLES HAMMONS ... High ranking boy

DARYL NENSTIEL ... Salutatorian

PAMELA MARTIN ... Valedictorian

Junior High Students Receive Honor Awards

Pamela Martin was named the valedictorian of the freshman class at Robert E. Lee Junior High School Friday with a scholastic average of 96.833. Sara Hahn received the honor at Pampa Junior High School.

The salutatorian at Robert E. Lee was Daryl Nienstiel, who had an average of 95.583. At Pampa Junior High Donna Reed was named the salutatorian, and Charles Hammons was named the high ranking boy.

Other awards presented to junior high students were: Best All Around Girl: Dorothy Davis, Lee; Linda Hubbard, Pampa; Best All Around Boy: Doug Altom, Lee; Ricky Muxey, Pampa; Girls Citizenship Award: Venita Turcotte, Lee; Glenna Brown, Pampa; Boy's Citizenship Award: Billy Quarles, Lee; Billy Turner, Pampa; Business and Professional Award: Jo Ann Craig, Lee; Deloris Mangus, Pampa; and Hobart Award: Mike Wise, Lee, and Larry Bowerman, Pampa.

Medals were also presented to the mayors and vice-mayors of the two schools. For the first semester David Cain and Doug Altom, received awards for Lee, while Sara Hahn and Billy Turner received them from P. J. H.

The mayors and vice-mayors for the second semester were Doug Altom and Mike Wise of Lee and Rick Muxey and Irene Burke of P. J. H.

Slippo was struck about 7:30 p.m. by a car traveling south on an extension of farm road 294 within the city limits of Skellytown. The automobile was driven by Charles McCloud also of Skellytown.

The youngster has extensive facial lacerations, contusion of the head and skull fractures.

Highway Patrolman Paul Little of Panhandle investigated the accident.

President (Continued From Page 1) early Wednesday when constitutional government ends, but now we are forced to postpone it," Jacques Cassagnol said.

In New York, a spokesman for Pan American World Airways said Tuesday night that "a party of four registered in the name of Duvalier" had booked passage on a Pan Am flight from New York to Paris tonight.

The spokesman said there was no indication the "Duvalier" on the passenger manifest was the Haitian president.

Both Pan Am and the Dutch airline KLM have direct flights to New York from Willemstad, Curacao, about 500 miles southeast of Haiti off the coast of Venezuela.

All indications in Port Au Prince were that Duvalier, whose legal six-year presidential term ended today, was still inside the massive white presidential palace in downtown Port Au Prince with his wife and two teen-aged children. He has been seen out of the palace only once since April 21, when Haitian exiles announced in pamphlets air-dropped on Port au Prince that they would remove him by May 15.

The palace was guarded by all five of the army's tanks, the palace guard which is believed to be fanatically loyal to Duvalier, and about 2,000 troops from the nearby Dessalines barracks.

Correction The address for Sally Paden, recipient of an M. K. Brown scholarship should have read 509 N. Starkweather in yesterday's article.

Band Banquet Tickets Are Still Available

Tickets still are available for the annual High School band banquet to be held at 7 p.m. tomorrow in the school cafeteria.

The banquet will honor the nearly 100 members of the Harvester band and will be followed by a dance.

Tickets are \$1.75 each and may be obtained at Tarpley's Music store downtown, at the High School or from any member of the Band Boosters Club, according to Mrs. Jack Nichols, chairman in charge of the committee on arrangements.

Calvin Whately, president of the Boosters Club will act as master of ceremonies at the banquet. Invocation will be given by Dr. Hubert Bratcher of First Methodist Church, and dinner music will be played by James Chenoweth.

Members of the Harvester Band will be introduced by Fred Stockdale, band director.

Skellytown Boy Injured in Bike, Auto Mishap

James Slippo Jr., 8, son of Mr. and Mrs. James Slippo of Skellytown is listed in satisfactory condition in Highland General Hospital this morning, after being struck by a car while riding his bicycle yesterday.

Slippo was struck about 7:30 p.m. by a car traveling south on an extension of farm road 294 within the city limits of Skellytown. The automobile was driven by Charles McCloud also of Skellytown.

The youngster has extensive facial lacerations, contusion of the head and skull fractures.

Highway Patrolman Paul Little of Panhandle investigated the accident.

Hub Cap Thefts Continue Here

Police said today hub cap thieves have stepped up their activities in Pampa in recent days. Latest to report thefts were Larry Killgo, 501 N. Warren, who said his car was stripped on the High School parking lot yesterday, and John McGuire, who said four hub caps were taken from a car parked on a used car lot at 811 W. Wilks.

Total value of the stolen hub caps was \$54.50, according to the police report.

Cooper (Continued From Page 1)

Cooper was pronounced in orbit at 7:10 a.m. Fourteen minutes after the Atlas climbed off its pad in orange flame and smoke, Cooper did something no other American astronaut had ever done.

As his 3,000-pound spacecraft soared toward the Sahara Desert in Africa, he turned on a 16-pound television camera which transmitted pictures of himself and the interior of his cabin.

They were relayed from Grand Canary Island to Cape Canaveral. They were described as fuzzy on home television. Later in his flight, if all goes as planned, TV pictures received at the case will be relayed to Europe.

The space agency's relay communication satellite will be in position to transmit pictures overseas between 10:25 and 10:31 p.m. CST and again at 4:55 and 5:17 p.m. CST.

The American Telephone and Telegraph Co.'s Telstar 2, also capable of relaying television, won't be in position for a satisfactory transmission until about 7 p.m. EST.

Astronaut Walter M. Schirra Jr., Cooper's "communicator" at the cape, told him after he went into orbit that "You're looking beautiful." Cooper's first report had been to announce everything aboard Faith 7 was in "go" condition.

About the thrill of riding through the moments of greatest vibration and acceleration force, Cooper remarked, "It felt real pretty."

House Damaged By Fire, Smoke

Firemen extinguished a fire in a divan at the home of G. R. Davidson, 316 Doyle at 9:30 p.m. yesterday.

The blaze also damaged the living room and caused smoke damage throughout the house, firemen stated. Origin of the fire was undetermined.

A run also was made at noon today to the McAndrews Pontiac Agency, 800 W. Kingsmill, where fire caused slight damage to a car in the garage.

Neutrals (Continued From Page 1)

tion of testing by either side. When the United States this week cancelled its plans to explode three test bombs, they said most delegates welcomed the decision with "profound relief."

Moscow Radio had hinted before the cancellation that the Soviets might follow the planned Nevada tests with tests of their own.

Several neutral delegations have let it be known that if the major powers further prejudice test ban agreement now, they will show their disapproval by walking out of the conference.

The United Arab Republic and India strongly favor such a protest, the sources said.

Check Seminar Slated for Pampa

A "bad check" seminar will be held at 7:30 p.m. Thursday, May 23, in Robert E. Lee cafeteria, it was announced today by Arthel Gibson, president of Pampa Credit Executives.

The program is being arranged by County Atty. Don Cain, who will discuss "How Bad Checks are Handled in Gray County."

Dist. Atty. Bill Waters will discuss how the district court handles bad check cases, and Sheriff Rufe Jordan will give information pertinent for subpoena of bad check artists.

Other speakers on the program will be Texas Ranger Bill Baten and Gordon Shanklin, area FBI officer, who will discuss hot checks and their prosecution.

Dave Duvall spoke on "Hospital Credits" at the last meeting of the credit executives groups at a luncheon meeting Monday in Court House Cafe.

Infectious Disease To Be Studied in Amarillo Meeting

AMARILLO (SpI) — An intensive one-day seminar on Infectious Diseases will be held Sunday at the Holiday Inn (West) here for physicians of the Panhandle area.

The course is sponsored by the Texas Academy of General Practice with the co-operation of the Education and Research Institute of General Medicine.

The guest speakers, from Dallas, will be Dr. Reuben H. Adams, Dr. Albert D. Roberts Jr., and Dr. Robert Louden.

Dr. Joe H. Knowles, of Borger, will act as program chairman and moderator of the panel discussion.

Mr. and Mrs. Club Install Officers At Dinner Meeting

New officers for the Mr. and Mrs. Garden Club were installed at a recent dinner meeting held in the Black Gold Restaurant.

Mrs. Waldon Moore of the Pampa Garden Club conducted the installation of Ira Carlton as president; Mrs. John Hall, first vice president; Robert Coley, second vice president; Mrs. John Kelly, secretary; Jay Mitchell, treasurer.

Aubry Ruff gave the invocation before dinner.

During the business meeting conducted by Mrs. W. A. Spoonmore, retiring president, it was announced that trees and shrubs were set out Wednesday at Highland General Hospital and more will be planted later.

The next meeting will be with Mr. and Mrs. Ira Carlton, 331 N. Faulkner on June 4 at 7 p.m.

Members attending were, Messrs. and Mrs. Robert Coley; Ira Carlton; John Kelly; John Hall; Dick Higginbotham; Jay Mitchell; W. A. Spoonmore; Elmer Tinnin. Guests were Mr. and Mrs. Waldon Moore, Mr. and Mrs. Roy Hopkins.

Mrs. Roy Kilgore Feted By Friends

Mrs. Roy Kilgore, Pampa High School cafeteria employe, was honored by a group of friends with a retirement party recently in the school cafeteria.

Hostesses were Mrs. Ellen Swindle, Helen Lunsford, Janie Becker, Joyce Shoulders, Ann Allbritton, Neva Ayres, W. L. Fletcher, Ola Isbell, and Winnie Slaton.

A Spring garden arrangement appointed a white linen cloth. The cake was decorated in the high school colors of green and gold. Mrs. Allbritton and Mrs. Lunsford presided at the punch and cake service.

Cameron Marsh, high school principal and Bill Cooper, assistant principal, in brief talks, expressed appreciation to Mrs. Kilgore for her loyalty and service to the school.

Mrs. Grover Austin, who is Mrs. Kilgore's daughter, friends and cafeteria ladies of the school system were among the guests.

The H. P. Taylors Feted On Golden Nuptial Day

The golden wedding anniversary of Mr. and Mrs. H. P. Taylor, 511 N. Russell, was observed with a reception on April 14 in the Citizens' Hospitality Room.

Hosts for the occasion were their children, Mrs. Hugh Wilson, Mrs. Canadian; Mrs. Quaya (Eose) Martin of Broken Arrow, Okla.; H. E. (Ernest) Taylor of Denver, Colo.

In the receiving line were the honorees, Mr. and Mrs. Taylor; Mr. and Mrs. Hugh Wilson; Mr. and Mrs. Quay Martin.

Miss Janie Wilson, granddaughter of the honorees, was guest registrar.

Mrs. Taylor was presented with two golden and brown orchids arranged with gold ribbon; Mr. Taylor wore a gold boutonniere.

The hostesses wore white carnation corsages arranged with gold ribbon and the hosts white carnation boutonnières.

The refreshment table was appointed with a white brocade damask cloth trimmed in white satin with a gold bow and cascading rib-

bon in centerfront, designed and fashioned by Mrs. Martin.

The three-tiered anniversary cake was decorated with gold flowers and leaves topped with bridal figurines. The cake was flanked by large white and gold styrofoam rings with double wedding bells suspended in the center and arranged with gold and white flowers.

Favors were tiny gold rings tied to white cards inscribed "Henry to Lou Emma, 1913-1963."

Presiding at the punch and coffee service were Mrs. Fern Kercheval of DeSoto, Kan., Mrs. R. E. Warren and Mrs. G. C. Stark, both of Pampa.

Serving from the tiered cake were Mrs. C. S. Tiffany of Abilene; Lee Reed of Mansfield; Quenton Nolte.

Assisting were Miss Pamela Moore of Dumas; Miss Connie Wilburn, a grand-niece, of Wichita Falls; Rusty Wilson of Canadian; Brent Martin of Broken Arrow, both grandsons of honorees. Miss Debby Wilburn of Wichita Falls, Miss Kathy Henderson of Ft.

Worth, grand-nieces of the honorees.

Among the 85 guests attending were Mr. and Mrs. C. A. Wilburn and family of Wichita Falls; Mr. and Mrs. R. A. Henderson and family; Mr. and Mrs. C. A. Bauer, Mr. and Mrs. C. M. Taylor, all of Ft. Worth; Mrs. C. S. Tiffany of Abilene; Mrs. Fern Kercheval of DeSoto, Kan.; Mr. and Mrs. William L. Ferguson of Beaver, Okla.; Mr. and Mrs. Curley Owens; Mr. and Mrs. Herbert Moore of Dumas; Mr. and Mrs. Lee Reed of Mansfield, Mr. and Mrs. H. E. Streehan of Amarillo.

A noon luncheon was held in the Courthouse Cafe banquet room for 24 members of the family, preceding the reception.

For the reception, Mrs. Taylor wore a dress beige-on-beige silk brocade rose with a sash belt, scalloped neckline, and beige satin trim. A beige leather hat complemented her costume.

The Mature Parent Parent Is A Person Child Should Remember

By MRS. MURIEL LAWRENCE

I therefore suggest that you say to your daughter: "What's the matter with you? Why do you complain about me to your friends when I have a right to know what it is you resent in me? Speak up. If you don't like what I've done, say so — and I will tell you why I did it."

You are not a child psychologist. It is not your responsibility to "understand" the psychological dynamics of adolescence. It is your responsibility to be what you are. If you think it's silly and wasteful for your child to scatter her resentments at you all over the lot, when it's possible to acquire more knowledge of her by asking her to express them to you, it is your business to say so. And you should say it with such conviction that your child will sit up and take notice.

It is not a parent's business to tolerate and excuse behavior he considers foolish — just because the child happens to be 16. That's the child's problem. Our problem is being our age.

Your daughter has every right in the world to complain about you to her friends. You have every right to demand that she refer her complaints to you, not only because they belong to you, but because they will increase your knowledge of her.

Wake up rarin' to go

without nagging backache

Now! You can get the fast relief you need from nagging backache, headache and muscular aches and pains that often cause restless nights and miserable tired-out feelings. When these discomforts come on with over-exertion of stress and strain — you want relief — want it fast! Another disturbance may be mild bladder irritation following wrong food and drink — often setting up a restless uncomfortable feeling. Doan's Pills work fast in 3 separate ways: 1. by speedy pain-relieving action to ease torment of nagging backache, headache, muscular aches and pains. 2. by soothing effect on bladder irritation. 3. by mild diuretic action tending to increase output of the 15 miles of kidney tubes. Enjoy a good night's sleep and the same happy relief millions have for over 60 years. For convenience, ask for the large size. Get Doan's Pills today!

POLLY'S POINTERS

Liquid Starch Helps
Rugs Stay Clean

By POLLY CRAMER

DEAR POLLY—I have found that by spraying braided rugs with liquid starch they stay clean longer. After washing a cotton braided rug, I spread it flat on clean paper on the cement driveway. When completely dry, I thoroughly spray it with liquid starch on one side and, in about 15 minutes, turn it over and spray the other side. Rugs not only stay clean about three times longer but the colors stay brighter.—R. H.

DEAR POLLY—When I was going on a trip, a friend gave me a small purse filled with five dollars in quarters to use for tips. It proved to be a most thoughtful and useful gift. Another friend gave me three dollars' worth of stamps in a box of correspondence cards.—MRS. E. K. S.

GIRLS—These really useful going away gifts are so much nicer than the little gimcrack things we may be tempted to buy for lack of an original idea. Little zipper top cloth bags from the dime-store would make practical containers for gifts of money.—POLLY

DEAR POLLY—Write a new word, its pronunciation and meaning on a small slip of paper and include it in the children's and your husband's lunch boxes. At the dinner table that night, every one tells his word, what it means and uses it in conversation. This is a good way to build vocabularies.—H. K.

GIRLS—Don't you agree that such dinner discussions will pay dividends?—POLLY

DEAR POLLY — To lengthen infants' and small children's creepers, remove the straps at the waist in the back and sew on one-

Play Day Plans For Riding Club

A review of the Play Day held April 28 was given at a recent meeting of the Leather 'N' Lace Riding Club held in the home of Mrs. Betty Phillips.

Members voted to include barrel race, wagon race, pole bending, flag and keyhole racing as games for the next Play Day.

Members also approve to replace poles in the pole-bending games in order to meet national specifications for the National Play Day to be held in Pampa soon.

During the business meeting, Helen Danford and Betty Phillips were elected corresponding secretaries.

All members were urged to attend the Spearman Rodeo, which was held May 11.

The next regular meeting will be held in the home of Mrs. Bill Caswell, 324 Henry on June 5.

Dear Abby....

Just Simply Wants
...A Flashlight!

By ABIGAIL VAN BUREN

DEAR ABBY: I am getting a little sick of all those deep-rooted psychological reasons why children do this and that. One, for instance, is the theory that when a child steals something it is a symptom of an unfulfilled need. They say the child who steals a flashlight really wants his mother's love and is not getting it. Couldn't there possibly be another more obvious reason why a child steals a flashlight?

DOUBTING THOMAS

DEAR DOUBTING: Yes, I suppose the child could simply want a flashlight.

Gabfest Enjoyed By OES Members

OES Past Matrons Gavel Club met Thursday evening in the home of Mrs. W. M. Voyles, 1001 S. Hobart with Mrs. J. S. Fuqua, Wood Osborne, Katie Vincent and Rose Crocker as co-hostesses.

Following the covered-dish supper, instead of the usual table games, the evening was spent in an "old-fashioned gabfest" centering mainly on conditions when members were growing up as compared to now and the early days in the Panhandle.

Secret Pal gifts were exchanged. Mrs. J. L. Burba, vice president, presided during the business meeting in the absence of Mrs. O. A. Davis, who is visiting in Columbus, Ill.

It was reported that Mrs. Emma Lee Gray was ill in Highland General Hospital and that Mrs. Sweet Shearer had been dismissed on Saturday and is doing nicely.

A card was received by one of the members from Ruth Sewell, who is on a trip around the world. Mrs. Sewell was in Palestine at the time the card was mailed.

The next meeting will be with Mrs. W. A. Rankin with Mrs. J. H. Warner co-hostess in Mrs. Rankin's home, 1617 Charles, on June 13 at 7 p.m.

Opti--Mrs. Club To Conduct Joint Installation With Evening Optimists

Discussion of the joint installation of officers with the Evening Optimist Club comprised a portion of the meeting of the Opti-Mrs. Club held recently in the Citizens' Hospitality Room.

The joint installation is to be held May 25 at 7 p.m. in Pooler's Steakhouse.

During the business meeting, conducted by Mrs. Bill McDonald, plans were made to start operation of the concession stand at Optimist Ball Park on May 14.

Mrs. C. C. Hill was welcomed as guest from Durant, Okla.

Roll call was answered with the number of hours members had worked during the past month.

Door prize was won by Mrs. William Leonard.

Hostesses during the social hour were Mrs. Newt Secrest and Mrs. Bill Stephens.

It was announced that the club will be guests of the Lefors Optimist Club at their next meeting.

Members attending were Mrs. Cecil McCarrell, Bill McDonald, William Leonard, Newt Secrest, Bill Stephens, Homer Hollars, Vir-

Leach Circle Meets With Mrs. Johnson

The Eunice Leach Circle met recently with Mrs. Delbert Johnson for a program "Laborers Together With God" presented by the Edith Dial Circle.

Mrs. Charles Tingle read the prayer calendar followed by a business meeting conducted by Mrs. Leslie Gist.

Closing prayer was offered by Mrs. Sharon Clark. Refreshments were served during the social hour.

Approximately 10 members and four visitors attended.

The Lighter Side How to Run a Country

By DICK WEST
United Press International
WASHINGTON (UPI) — If I told you that a book had just been published under the title "How to Run a Country," who would you guess to be the author?

written to members of Congress. Now let me tell you at the outset that when anyone mentions bright sayings of children, my inclination is to laugh, not walk, to the nearest exit.

I hold with the old adage that "out of the mouths of babes oftentimes comes wisdom."

Kids Met, Erudite
But I find that when kids are writing to their congressmen they display far more erudition and perspicuity than when they are talking to their parents, or Art Linkletter.

For instance, no one who has ever engaged in a sibling rivalry could help but admire the little girl who wrote to Rep. Paul A. Fino, R-N.Y., asking him to "send me the form to disinherit sisters."

This shows that civilization has made real progress in the last few decades. In my day, we would have asked for rat poison.

It also is reassuring to note that tattle-telling has become a great deal more sophisticated than it was when I was a boy.

The kids apparently no longer squeal on each other to parents or teachers—Now they turn each other in to the Senate internal security subcommittee.

Informs On Jan
A letter received by Sen. Thomas J. Dodd, D-Conn., of that group reads as follows: "Jan keeps her fingers crossed when she sings the Star Spangled Banner."

A child's world in respect to sex likewise has changed considerably, as witness the letter a schoolgirl addressed to the "birth control section" of Congress.

The book doesn't say to whom it was delivered, but the text of the missive went like this: "For my class project I am to get all the information I can about birth control. Can you help me or am I too expectant?"

A juvenile constituent named Gilbert wrote to Rep. Thomas M. Pelly, R-Wash., seeking the congressman's opinion on China. Gilbert added that he had already formed his own opinion "so don't give any facts."

If Gilbert continues to refuse to be influenced by facts, he probably will be elected to Congress himself some day.

Although their letters are characteristic of the modern generation, the book makes clear that there is one area in which kids haven't changed a bit. They still can't spell worth a dime.

Herbert Pitches Fourth Shutout

By United Press International
Ray Herbert wants to rewrite baseball's official scoring rules but first he may rewrite the American League's pitching records.

The 33-year-old Chicago White Sox right-hander insists some of the rules governing pitchers' earned run averages "don't make sense" and adds, "my earned run average is my bread and butter."

In the meantime, however, he's taken the matter into his own hands with a string of four consecutive shutouts and a 1.80 ERA that makes him the pitching sensation of the year. He needs just one more shutout to equal the major league mark of five in a row set by Doc White of the White Sox in 1904. His current string is the longest run of consecutive shutout innings in the major leagues since 1930.

Hold First Place
The curve-and-control artist who yielded only eight walks while striking out 28 batters in 50 innings—beat the Detroit Tigers 3-0 Tuesday night enabling the White Sox to retain their one-game first-place lead. He's allowed a total of 15 hits in scoring consecutive shutouts over the Tigers, New York Yankees, Washington Senators and Baltimore Orioles. His first victory of the season—back on April 17—was a three-hit shutout over the Kansas City Athletics.

Herbert has been hit pretty hard in other starts but even so has allowed only 34 hits and 10 earned runs this year.

Jim Landis provided Herbert and the White Sox with all the

runs they needed with a leadoff homer in the first inning and a two-run single in the fifth. The unlucky loser was Jim Bunning, who allowed three hits and struck out eight but suffered his fourth defeat.

The Yankees shaded the Minnesota Twins 2-1, the Athletics topped the Cleveland Indians 5-2, and the Orioles beat the Senators 4-1 in other AL games. Los Angeles at Boston was rained out.

Pitches Five-Hitter
Whitey Ford pitched a five-hitter and won his fourth game of the season when Hector Lopez' eighth-inning single snapped a 1-1 tie. Ford fanned eight and walked two while loser Dick Stigman was tapped for six hits. It was the ninth loss in 12 games for the Twins.

Jerry Lumpe's two-run double and run—producing singles by Chuck Essegian and Bobby Del Greco sent the Athletics off to a 4-0 lead in the first inning and Ed Rakow protected it with a six-hitter for his fourth victory. Jack Kralick suffered his fifth loss against one win.

Robin Roberts, comeback player of the year in 1962, finally posted his first 1963 triumph with a four-hitter. Jim Gentile and John Pohl homered to lead the 10-hit Orioles—attack that dealt Dave Stenhouse his third defeat. Larry Osborne homered for the Senators.

McKinley Not on Davis Cup Team
NEW YORK (UPI)—The United States will open its 1963 Davis Cup competition against Iran with a three-man team consisting of Allen Fox of Los Angeles, Don Dell of Bethesda, Md., and Eugene Scott of St. James, N.Y.

This is not the strongest possible lineup the United States wished to send, but it is believed strong enough to take the series at Teheran June 15-15, and advance the Yanks to the American Zone finals.

Bob Kelleher of Los Angeles, non-playing captain of the U.S. team, had hoped to use collegians Dennis Ralston of Southern California and Charles Pasarell of UCLA, but the two youngsters are committed to represent their schools in the NCAA championships at Princeton, N.J.

Also missing from the squad is top-ranked Chuck McKinley, a student at Trinity (Tex.) University. Fox is the nation's fourth-ranking player. Dell ranks seventh and Scott eighth.

Gene Freese Sent Down To San Diego

CINCINNATI, Ohio (UPI)—The break that hustling Gene Freese received when he slid into second base in a Cincinnati Reds intra-squad game on March 5, 1962, may have been the most costly of his career.

It sent him back to the minors Tuesday as the Reds optioned him to San Diego of the Pacific Coast League on 24-hour recall.

That was quite a comedown for the eight-year major league veteran who smacked 26 homers and drove in 87 runs as the Reds' third baseman in 1961 when they won their first pennant in 21 years.

The optioning left Freese uncertain about his future. "I may go (to San Diego) and I might not," he said when contacted in Chicago.

Freese, 29, had hit just .151 in 17 games this season with the Reds. While not exactly graceful around third base he did play creditable defensive ball this season.

But he was sidelined almost the entire season in 1962 and his timing is still off. Manager Fred Hutchinson hopes he can find the answer to San Diego.

Kats to NAIA

WACO (UPI)—Sam Houston State's Bearkats wanted to go to the National Association of Intercollegiate Athletics baseball playoffs so had Tuesday they beat Southwestern University 6-2 to do it.

HANDOFF—Quarterback Larry Johnson socks the ball to Eugene "The Bandit" Madrid as they get set for Friday afternoon's spring football feature game. "El Bandido" was the leading ground-gainer and Johnson starred at quarterback for "Brownie's Bandits" in last Saturday's intrasquad game. (Daily News Photo)

Wednesday's Probable Pitchers

Philadelphia at Los Angeles (night) — Short (0-4) or Mahaffey (2-4) vs. Koufax (4-1).

Major Leagues Change One-Second Balk Rule

NEW YORK (UPI)—It's now official. Major league pitchers no longer will have to come to a full-second stop in their delivery with men on base.

Instead, they must pause just long enough to satisfy the umpires before delivering the ball.

This revision in the controversial balk rule was announced Tuesday by Charles Segar, secretary for baseball, who said the change had been approved unanimously by the nine-man Rules Committee in a special telegraphic poll.

Segar notified all leagues in professional baseball that the phrase "at least one second" has been deleted from rules 801-F and 803-M governing pitchers' deliveries with men on base.

The balk controversy was touched off this spring by President Warren Giles of the National League, who directed his umpires to interpret the balk rule strictly and insist that pitchers come to a full-second stop.

American League umpires meanwhile, were ignoring the full-second requirements and insisting only that a pitcher pause in his delivery.

When the number of balks called in the National League passed the 100 mark last week, compared to only 10 in the AL, Commissioner Ford Frick called Giles and Joe Cronin, the American League president, to his office.

The three men agreed that the rule should be interpreted uniformly in both leagues. Then Frick proposed elimination of the one-second stop.

Babe Ruth Loop Opens Local Play

The Tampa Babe Ruth League opened the local baseball season last night with a six-and-one-half hour marathon doubleheader which saw 32 runs scored. Ideal outslugged the First National Bank in the opening game, 13-10, after which the Lions literally "outwalked" Enco to a 15-14 victory as the two teams received a total of 31 bases on balls.

Tonight's games see Hardware vs. Krist as the 5:30 opener and Furr and Cree tangling in the nightcap.

First Game

Bankers 0 0 1 0 6 2 1—10 9
Ideal 1 0 7 4 0 1 X—13 13
Batteries—Lin Engle, Larry Kidwell (3) and David Martindale; Jimmy Cornutt (3), Jimmy Stroud, Johnny Marsh (5) and Larry Daniels

Winning pitcher—Stroud, SO 3 BB 2 Hits 3. Losing pitcher—Kidwell, SO 5 BB 2 Hits 10. Leading batter (s)—Larry Daniels; Ideal, 2 doubles, triple; Ron Bray, Ideal, 3 hits 3 stolen bases; Larry Cotten, Bankers, HR double, HR—Cotton (inside the park).

Ideal got seven runs in fifth inning, led by Daniels' double, Bray two singles and held lead all the way.

Second Game

Enco 2 1 1 5 3 0 2—14 11
Lions 2 4 2 4 1 1 1—15 5
Batteries—H. D. Larve, Jerry Wright (4) and L. D. Rowden; Johnny McLean, Dickie Henley (1) and Corky Dodd. Winning pitcher—Henley, SO 5 BB 8 Hits 11. Losing pitcher—Wright, SO 1 BB 7 Hits 1. Leading batter (s)—Corky Dodd, Lions 2 hits, Larry Eckroat, Richard Mackie, Enco 3 each.

Lions got only 5 hits, but 20 bases on balls. Ronald Heasley scored winning run as he walked and scored on errors.

'Ageless' Warren Spahn Wins Fifth Game of Year

By United Press International
That new contract looks mighty good to Milwaukee manager Bobby Bragan, but old Warren Spahn looks even better to him.

Bragan was signed through the 1964 season shortly before Tuesday night's game with the St. Louis Cardinals and what should have been a festive occasion nearly turned into a nightmare.

Stan Musial threw a damper on the proceedings with a wicked second-inning liner that struck Spahn

in the pit of the stomach and knocked him to the ground.

Acting instinctively, the 42-year-old Milwaukee southpaw groped for the ball, came up with it and threw out Musial but then fell back on the ground.

The game was delayed for several minutes before Spahn finally got up and went on to pitch the Braves to a 4-3 victory that snapped their three-game losing streak. The victory was Spahn's fifth in seven decisions.

Bury Big Daddy

DETROIT (UPI)—A crowd of more than 500 was expected to attend the funeral today of football star Gene Big Daddy Lipscomb.

Lipscomb, a native of Detroit who went on to his greatest fame with the Baltimore Colts—before being traded to the Pittsburgh Steelers, died last Friday in Baltimore from an apparent overdose of narcotics.

Flowers sent by all of the National Football League's clubs were crowded around his casket at a local funeral home. Many of his former teammates and opponents were in town for the funeral.

Spahn was touched for 11 hits, including a homer by Julian Javier, but he was in front from the third inning on and personally singled home what proved to be the winning run in the seventh off loser Bob Gibson.

The San Francisco Giants lengthened their National League lead to 1 1/2 games with a 3-1 victory over the Pittsburgh Pirates, the Houston Colts shaded the New York Mets 4-3 for their sixth straight, the Philadelphia Phillies downed the Los Angeles Dodgers 5-1, and the Chicago Cubs ended a four-game losing streak with a 2-1 win over the Cincinnati Reds. Dick Farrell survived a two-run

ninth inning rally by the Mets to post his fourth victory for the Colts and helped them equal their longest winning streak in history. Farrell allowed five hits while striking out eight.

Cal McLish stopped the Dodgers on five hits—in gaining his first victory of the season for the Phillies. The 37-year-old McLish, who helped his own cause with two doubles, had beaten the Dodgers only once before in his career. We s

Covington started Don Drysdale on the way to his fourth defeat with his eighth homer in the first inning.

Ken Hubbs' two-run homer off Joe Nuxhall in the eighth inning gave the Cubs their winning margin over the Reds. Dick Ellsworth, credited with his fourth victory in six decisions, held the Reds to five hits before bowing out in the ninth in favor of Lindy McDaniel, who gave up one more.

The Pampa Daily News

AN INDEPENDENT FREEDOM NEWSPAPER

We believe that all men are equally endowed by their Creator, and not by any government, with the gift of freedom, and that it is every man's duty to God to preserve his own liberty and respect the liberty of others. Freedom is self-control, no more, no less.

To discharge this responsibility, free men, to the best of their ability, must understand and apply to daily living the great moral guides expressed in the Ten Commandments, the Golden Rule and the Declaration of Independence.

This newspaper is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessings. For only when man understands Freedom and is free to control himself and all he produces, can he develop to his utmost capabilities in harmony with the above moral principles.

SUBSCRIPTION RATES

By carrier in Pampa, 35c per week, \$1.50 per 2 months, \$3.00 per 6 months, \$15.00 per year. By mail paid in advance at office, \$10.00 per year in retail trading zone, \$15.00 per year outside retail trading zone. \$1.25 per month. Price per single copy, 10c daily, 25c Sunday. No mail orders accepted in localities served by carrier. Published daily except Saturday by The Pampa Daily News, Atchison at Sumnerville, Pampa, Texas. Phone 350 4-2325; all departments. Entered as second class matter under the act of March 3, 1879.

Step By Step

Speaking before the International Association of Machinists, President Kennedy expressed astonishment that programs for Federal "benefits" were not accepted at once by everyone, but had to be "forced, step by step."

We are astonished that the President is astonished, because the reason is very evident. It is only a highly prosperous nation that can afford any such "benefits," and no nation today is prosperous enough to pay for all the "benefits" our politicians can think up to propitiate.

One freshman senator, a few years back, introduced "benefits" in his first session which would have cost over \$30 billion. There are 100 senators.

Furthermore, to distrust political promises is as American as apple pie. For instance, Mr. Kennedy in campaign speech after speech promised a balanced budget except in time of war or depression. The political promises for such programs as already exist we now know to be overblown.

The TVA was to have brought everlasting prosperity to the Tennessee Valley, but after a quarter of a century most of it is officially classed as "depressed."

The Railway Retirement Fund, which was to bring security for railroad workers, is running a terrific deficit and causing informed observers to worry about the similar Social Security program.

Last year's free trade legislation was supposed to alleviate our balance of payments problem, but the balance has worsened.

The farm program was to save the family farm, but farmers go out of business by the tens of thousands each year.

Subsidies were supposed to maintain the health of our sea commerce, but other nations are forging ahead of us.

The list could go on and on. Only a rich nation can stand the drain of such expensive and ineffective programs.

So of course we have been able to assume the load only "step by step." If all present benefit legislation had been put on the books when the Constitution was adopted in 1789, the United States would have been bankrupt in 1799.

The Flow of Life

Funny thing about life. The more you expand your life energies in keen interest in your surroundings and your activities, the more of life's energies you have for the spending.

Business Service Stations

Most of us find it pretty tough to dig up enough dollars to pay our bills and taxes, but at least we are dealing with just one kind of money. It's been a depreciating kind these past 20 years and is not likely to improve by the looks of the projected federal budget and deficits. It may be a comfort to realize that things were worse in the old days when Americans had about ten thousand different kinds of paper money of varying and usually uncertain value. It's hard to believe that such a condition actually existed prior to February 25, 1863, when Abraham Lincoln signed the National Currency Act establishing our first sound and uniform currency and setting up the basis for our present commercial banking system.

This legislation provided for a network of national banks to operate side by side with the state chartered institutions and so established the basic financial framework which helped implement the imagination of Americans who developed the resources and built the industries that turned a continental wilderness into the world's greatest land of plenty. Additions have been made to this framework through the years, as for example, central regulation of the supply of money and credit establishment by the Federal Reserve Act of 1913. Banking today is as different from a hundred years ago as is everything else.

Modern banking concepts and practices enable today's "supermarkets of finance" to offer services undreamed of a century ago—so that they now offer more services, more conveniently, for more people than any other banking institutions in the world.

Private commercial banks are service stations to lubricate the workings of business and industry. They are in the best tradition of American private enterprise and can help the individual with a good idea turn a dream into a productive reality.

Withdrawal of Sanction

The funny thing about artificial government is that it is so hungry for your good will. One of the most serious steps you can take to diminish the power of government is to refuse to accept a proffered helping hand.

It's Up To You

by HOWARD KERSHNER L. H. D.

Vast numbers of people manning our welfare agencies at every level of government all over our country are contradicting the law of God that men should live by the sweat of their own brows and are teaching tens of millions of people that they can live partly or wholly from the seat of other people's brows.

As Joseph McDowell Mitchell so well says: "The only thing the welfare people have proved in 25 years is that government hand-outs are not the solution to problems of indolence and immorality. Wherever the government steps in with welfare, the churches and private charity agencies step out, the public welfare theorists sign in, and the free loaders climb aboard. Wherever there are slums, wherever there is crime and violence, wherever there is illegitimacy and disease, there is welfare, and where there is welfare, these problems increase, steadily and inevitably. The presence of the government welfare philosophy in slum areas is a contributing factor to slums, because the incentives for self help are destroyed and the inhibitions toward immorality are eliminated."

Mr. Mitchell has well said, "Welfare has lost effective contact with the wishes of the electorate." Continuing his pungent comment, Mitchell states: "The trouble with our welfare leaders today is that they have never had to look at the practical side of life. The problems of slums, of violence, of illegitimacy, of disease, of cities fighting for social and economic survival, have no meaning to them, because they have not had to manage or regulate cities, or to solve these problems. They disclaim any responsibility for the causes or solutions to the very problems they deal with. They see only the symptoms. They live in a fairytale that has no relation to real life."

The basic wrong in our modern welfarism is its defiance of the command of God that we be self-reliant and live from our own labor. Our government has systematically taught the people that it is possible to live largely from the labor of others. We have now become an intricate mass of pressure groups each striving to see how much it can get from the production of others. This is both coveting and stealing. A society which countenances it cannot long continue to prosper. One may defy God and disobey His laws, but he cannot in the long run avoid paying the penalty therefor.

Our liberty, our prosperity, and our self-government come from obedience to the moral law of God. When we defy Him, we are laying the foundation for the loss of these priceless blessings. If we do not repent and return to the worship of the one true God, including obedience to His laws, we shall bring upon ourselves low standards of living, slavery, tyranny, and the secret police.

The Kaiser plan was negotiated with United Steelworkers Union beginning in 1959, but it was put in final form only last December and became effective March 1.

From here on, the company and the union will in effect be negotiating every month for a new supplementary wage. It will be payable from savings on current production as compared to the cost of making a ton of steel in the base year—1961.

As one industry spokesman comments, "This is practically eliminates strikes at Kaiser on economic issues." The company could still have strikes on working conditions or fringe benefits, but economic issues are the principal cause of all labor disputes.

The big question is: What effect will this have on all other American labor relations and negotiations?

More specifically, what effect will it have on the Steelworkers' reopening their contract with big steel?

Democrat Party, thus depriving the people of the means of opposing the establishment of a socialist state.

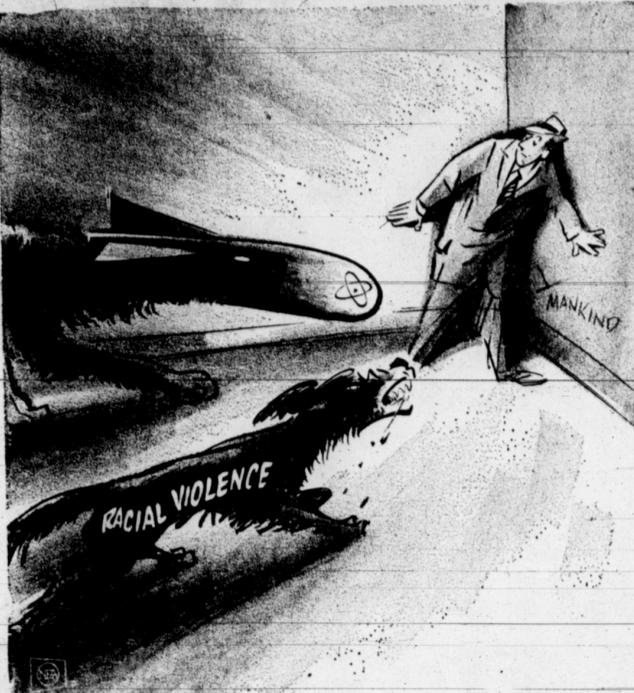

Conclusions
The independent reader of "It Is High Time" might well make up his mind that both parties are controlled by internationalists who are intent upon creating a one-world socialist system and making the United States a part of it. The author declares that the purpose of the book is to expose the Invisible Government; to awaken the people to the disastrous effects of the conspiracy against their freedom and independence; and to prescribe an effective means to resolve the problem.

The title comes from the author's contention that it is high time for the Republican Party to be forced into the Conservative position or out of existence... either permit the Conservatives to have confidence in the Republican Party or give them a party of their own to which they can honestly belong and for which they can honestly work.

The goal seems to be a worthy one. Whether it is a practical goal is something each Conservative must decide for himself as he reads the book.

Commander Walter Schirra who completed almost 6 orbits around the earth in space capsule Sigma 7 last October, received a total of \$35.31 of naval pay for his day's work, including \$7.42 of "hazardous duty" pay, according to facts on file.

More Than One Way to Go to the Dogs

Edson in Washington Kaiser Plan Could Stoke Fire Under Steel Furnace

By PETER EDSON

WASHINGTON (NEA)—There's an important new factor in United States labor relations.

It's Kaiser Steel's announcement of an \$80 payment for March to 3,900 Fontana, Calif., plant workers who already receive an average of \$340 a month.

This amounts to paying 46 cents an hour on top of a \$3.14 hourly average wage for a 173-hour work month.

The Kaiser plan was negotiated with United Steelworkers Union beginning in 1959, but it was put in final form only last December and became effective March 1.

From here on, the company and the union will in effect be negotiating every month for a new supplementary wage. It will be payable from savings on current production as compared to the cost of making a ton of steel in the base year—1961.

As one industry spokesman comments, "This is practically eliminates strikes at Kaiser on economic issues." The company could still have strikes on working conditions or fringe benefits, but economic issues are the principal cause of all labor disputes.

The big question is: What effect will this have on all other American labor relations and negotiations?

More specifically, what effect will it have on the Steelworkers' reopening their contract with big steel?

Democrat Party, thus depriving the people of the means of opposing the establishment of a socialist state.

Allen-Scott Report

That \$7.5 Million in U.S. Bonds Stolen, Not 'Accidentally Burned,' House Probers Believe

WASHINGTON—Those \$7.5 million in negotiable U.S. bonds that vanished from the Federal Reserve Bank in San Francisco were stolen and not "accidentally burned" as claimed by bank officials.

That is the belief of the special House Banking subcommittee investigating this still-unsolved mystery.

The probers will not formally pronounce this judgment in their preliminary report later this month. All they will say is, "There is not enough evidence now to know what happened to the bonds... They were either stolen or burned."

But privately the House investigators are leaving no doubt they are convinced the securities were pilfered.

The Senate Internal Security Committee, which also is digging into this affair, is checking information that some of these bonds are in an American-owned "numbered" account in a Swiss bank. Reputedly they were deposited around the time of the Cuban missile crisis last fall.

While the three House probers, headed by Representative Henry Reuss, D-Wis., will withhold their verdict on what happened to the seven \$1 million and five \$100,000 bonds, they will blister both Treasury and Federal Reserve officials for the lackadaisical and inept handling of the search for the securities.

The Treasury will be rapped for inexplicably failing to promptly and forcefully use all federal and local resources to uncover what had happened to the bonds.

The Federal Reserve Board will be castigated for (1) secreting the loss of the bonds for more than six months, and (2) failing to notify other banks to be on watch for them. San Francisco Federal Reserve Bank officials will be blasted for the astonishing lack of security that prevailed there in the handling of bonds running into the hundreds of millions.

A retired custodian of the bond vault told the investigators he could have walked out with half its contents.

At the time the securities disappeared, he was vacationing in Reno, Nev.

COME AND GET IT — This startling disclosure was brought to light by Representative Charles Vanik, D-Ohio, in questioning Clarence Bertram, vault custodian who retired last November after more than 41 years' service. Following is their revealing discussion:

Vanik: "When you left your vault every day, were you subject to any examination or scrutiny by anyone in the bank?"
Bertram: "No."

Vanik: "You could walk out of the bank with almost anything?"
Bertram: "With half of the vault in my pocket."

Vanik: "And no one would have stopped you or questioned you?"
Bertram: "No."

Vanik: "There was no one on duty to question you or scrutinize you?"
Bertram: "No."

Vanik: "So you could walk right out of the bank without any inquiry at all?"
Bertram: "Yes."

Eliot J. Swan, president of the San Francisco Federal Reserve Bank, placed the disappearance of the \$7.5 million in negotiable federal bonds as between May 29 and August 8 — the dates when they were deposited and then asked for by another Reserve bank.

But the loss was kept secret until this March. Several weeks ago this column revealed that the story was then leaked by the Federal Reserve to a hand-picked San Francisco newspaperman when Representative Wright Patman, D-Tex., chairman of the House Banking Committee, got wind of the affair and demanded a full explanation.

During a routine study of the minutes of the New York Federal Reserve directors, Patman came across a notation that the bank was absorbing part of a \$7.5 million loss caused by the destruction of government securities in the San Francisco bank. This write-off was approved by the New York directors as Reserve bank prober members' losses.

BAFFLING NONCHALANCE — The probers have ascertained that when the Treasury and Federal Reserve finally "invited" the Secret Service into the case, only three agents were assigned to it.

Also that a private company was employed by the Secret Service to give lie detector tests to 18 bank employees. These polygraph examinations took place between August 27 and September 25, and drew a blank, according to the report of Thomas Hansen, special agent in charge of the San Francisco office.

That was the end of the Secret Service inquiry.

The FBI has never been brought into the case — although it has followed it closely.

Even before the House investigators have submitted their preliminary report, Chairman Reuss has bluntly told Federal Reserve officials he is unable to understand their seeming casualness. He made no bones of being highly critical of their lack of concern and action.

"I am not at all impressed with the investigation that was made by the Secret Service," Reuss told the Reserve bankers. "I feel that any loss involving the very considerable amount of \$7.5 million in securities requires that every resource of both the federal government and local police authority be brought in."

"The help that local authorities, the FBI and other agencies might have provided in tracing a possible solution of the disappearance of these bonds could have been extremely helpful. I cannot feel satisfied that the brief and casual investigation that was made was complete or handled in a manner I would consider satisfactory on the basis of the testimony that was submitted."

Since the mysterious disappearance of the \$7.5 million in negotiable bonds from its vaults, the San Francisco Reserve Bank has issued written instructions on how securities are to be handled. Previously, no instructions existed.

As retired custodian Bertram testified, it was possible to walk out of the vault "with half of it in my pocket."

SOCIAL WHIRL — Three of the four American officers who commanded in the historic Battle of the Coral Sea, first U.S. naval victory in the Pacific in World War II, were honor guests at Australian Ambassador Beale's garden party commemorating the 21st anniversary of the famed battle. They were Admiral Frank Fletcher, who commanded the U.S. Task Force, Admiral Thomas Kinkaid and Vice Admiral William Ward Smith. . . . Peruvian Ambassador Berckemeyer has been in Washington so long (15 years) that he had to give two parties to take care of his large host of friends. He gave one party on Tuesday and the other on Thursday and both were "sell-outs," with throngs of diplomatic, congressional and other guests. Special display for both occasions was hundreds of tulips of all colors in the spacious garden of the Peruvian embassy. . . . A one-time White House daughter spent a busy weekend in the Capital. Mrs. Margaret Truman Daniel and her husband, a New York editor, were guests at one of the gayest parties of the spring season — for Letitia Baldrige, departing social secretary of the First Lady. The lively party was given by McGeorge Bundy, special assistant to the President on foreign affairs, and Representative and Mrs. Tom Moorehead, R-O.

Today is Wednesday, May 15, the 135th day of 1963 with 230 to follow.

The moon is approaching its last quarter.

The morning stars are Venus, Jupiter and Saturn.

The evening star is Mars.

On this day in history: In 1763, Parliament enacted a statute making it mandatory for American colonists to supply housing and supplies for British troops.

In 1930, the first stewardess was employed on a United Air Line flight from San Francisco to Cheyenne, Wyo.

In 1942, wartime gasoline rationing started in 17 Eastern states.

In 1948, Israel was attacked by Egyptian planes and invaded by troops from Lebanon and Transjordan.

Question Box

(We invite questions on economic and proper functions of government which will not incur answer.)

QUESTION: "Is the cause of so many believing in some form of socialism because they do not know what private property is?"

We believe that is the cause of most people believing in some form of socialism. They do not know what private property is, they cannot respect or honor or revere private property if they do not know what private property really is. Most people think of private property as being tangible things, like houses, automobiles, clothing, food, etc.

But the most important private property is a man's life, his ideas, and his right to make decisions. And when socialism interferes with men's rights to make decisions as to how they use their energy to create wealth, they are advocating some form of socialism. Of course, making decisions is limited to making constructive or positive decisions that do not interfere with other people's rights in property, with other people's rights to make decisions as to how they want to use their creative energy.

So it would be a good thing to ask a person who is advocating some kind of socialism, to define what he means by private property. He undoubtedly thinks he believes in private property. Most people think they are capitalists and believe in private property, but they do not know what it is. And they also think that anybody who gets a lot of wealth gets it by depriving other people of their wealth rather than getting it by adding to the total and benefiting every one.

The people who are really wealthy are those who benefit their customers the most. That's the reason they grow and make more profit. The man who tries to take short cuts and cheat in order to make a temporary profit, eventually ceases to grow. The customer takes care of that.

It is most important that more people begin to know what private property really is and respect and honor and revere property of others that is obtained on a voluntary basis. And if it isn't obtained on a voluntary basis, it is not honestly secured. But the remedy is to get people to see that they will get more property and it will be more to their advantage if they get it on a voluntary basis by benefiting others rather than by getting it by trickery and deceit.

HOW TO ADDRESS OUR LAW MAKERS
You may wish to write your senators and representatives in Washington and Austin. Here are their addresses:

(FEDERAL)
Rep. Walter Rogers, House Office Bldg., Washington 25, D. C.
Sen. Ralph Yarborough, Senate San. John Tower, Senate Office Bldg., Washington 25, D. C.

(STATE)
Rep. Grainger McIlhenny, House of Representatives, Austin, Texas.
Sen. Grady Hazelwood, State Senate Bldg., Austin, Texas.

A thought for the day—American patriot Patrick Henry said: "I have but one lamp by which my feet are guided and that is the lamp of experience. I know no way of judging of the future but by the past."

Between the Bookends

THE CASE FOR A THIRD POLITICAL PARTY
Third political parties of a minor nature have come and gone many times in the history of our country. The tradition of a two-party system is so strong, however, that none of them has ever gained and held much positive influence for very long. Now, it seems, there is again a large and growing movement for the establishment of a third major political party.

The case for this party is carefully detailed and strongly worded by Harold Poeschel, President of the New Jersey Conservative Club, in "It Is High Time" (Independent Publishers, Inc., Box 506, Short Hills, New Jersey; \$2.00). Mr. Poeschel bases his case on the contention that true Conservatives—who he believes hold the balance of political power—have virtually no common ties with the Republican Party as presently constituted.

Definition
He starts his book with his definition of a Conservative (here edited for space): A self-responsible person who believes in God, loves his country, respects the original concept of the Constitution of the United States, believes in the free enterprise system, . . . in balancing the books, . . . and that loyalty to country is more important than party loyalty.

On the premise that principles, not politicians, make parties, he then claims that while it is within the American concept for one party to create a socialist state, the Democrat Party has pre-empted this position. But, he claims, the Republican Party has also adopted, extended and promoted socialist programs embraced by the

Democrat Party, thus depriving the people of the means of opposing the establishment of a socialist state.

Conclusions
The independent reader of "It Is High Time" might well make up his mind that both parties are controlled by internationalists who are intent upon creating a one-world socialist system and making the United States a part of it. The author declares that the purpose of the book is to expose the Invisible Government; to awaken the people to the disastrous effects of the conspiracy against their freedom and independence; and to prescribe an effective means to resolve the problem.

The title comes from the author's contention that it is high time for the Republican Party to be forced into the Conservative position or out of existence... either permit the Conservatives to have confidence in the Republican Party or give them a party of their own to which they can honestly belong and for which they can honestly work.
