## LINDBERGH'S RECORD IS BROKEN

### Texas Rotarian Says Peace Is Goal of the Organization

#### HARRY ROGERS OPENS OSTEND MEET TODAY

Cites Remarkable The Growth of International Club

#### GOOD WILL IS NEED OF WORLD

Business Amity Called Way to Obtain Fellowship

(By The Associated Press.)

OSTEND, Belgium, June 6.—King Albert officially inaugurated annual convention of Rotary International today.

Eight thousand delegates gave the royal Rotarian a prolonged ovation as he appeared for the ceremony.

(By The Associated Press.)

OSTEND, Belgium, June 6.—Efforts of Rotary International for international peace were discussed here today by Harry H. Rogers of San Antonio, Texas, president of the organization, in an address before the eighteenth annual convention.

Mr. Rogers said in part: "It is particularly fitting that this convention should be held in this most beautiful city and in the most interesting historical country. For some years we have been

HARRY H. ROGERS

addressing the sixth object of Rotary, with its ultimate goal—International Peace. What country has stood out more prominently than this, as an advocate of peace? What people are more devoted in its pursuits than this people? So, happy are we to gather here as apostles of good will, fellowship, and friendship, to learn more of Rotary in action, and to receive the inspiration which will send us home to our various countries and clubs with a renewed program of Rotary.

"Six years ago the convention was held at Edinburgh, Scotland, and when we realized the extent to which Rotary has grown since that time, who dares to prophesy what the next few years have in store for us in the matter of extension, especially in Europe.

Many English Clubs

"At Edinburgh there were but seven countries in Rotary, with a total of 975 clubs. At that time there were but 35 clubs in the British Isles, and but two on the continent of Europe. Madrid Spain, has 12 members, and Paris sixteen. Today there are 40 countries in Rotary, with 2,595 clubs. Now there are 251 clubs in the British Isles, and 72 clubs in the continent of Europe, with 2,500 Rotarians.

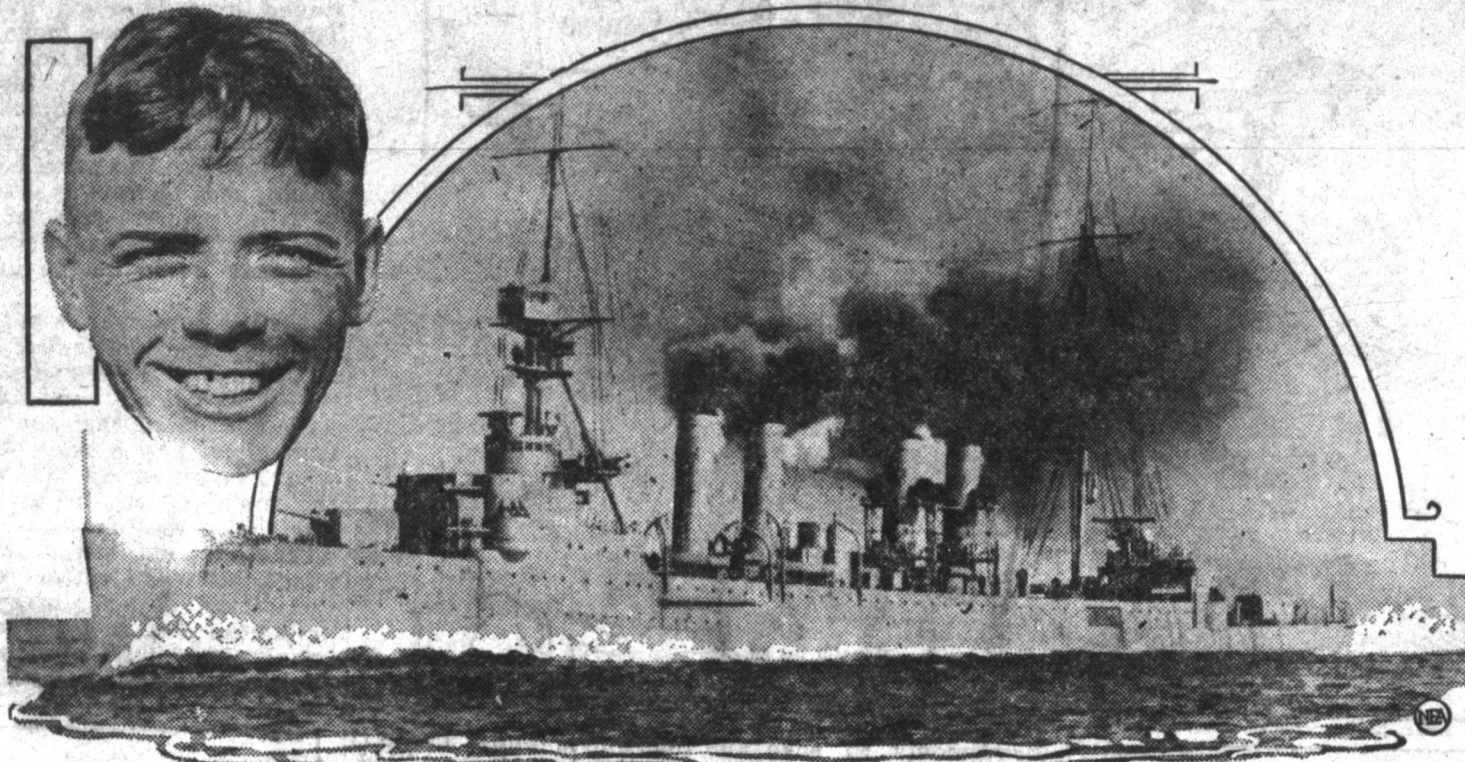

"In presenting the program of the past year at the International Council meeting, your president said:

"We believe it is particularly fitting that you bring this to your attention that you may carry to the entire Rotary world our high aims and noble purposes—

The advancement of understanding, good will and interna-

#### The Warship That Brings Lindbergh Home

"Appreciating the honor of the invitation and accepting," Captain Charles A. Lindbergh will arrive in Washington June 11 aboard the U. S. scout cruiser Memphis, shown above. He will be the guest of President Coolidge for two days before the president's departure for his vacation in the Black Hills. The inset gives a closeup of the famous Lindbergh smile.

#### CHAMBERLIN IS SENT MESSAGE BY PRESIDENT

Bellanca Plane Lands Near Berlin Out Of Gas

#### MISSED GOAL BY DIRECTION

American Ambassador Flies to Greet Airmen

NEW YORK, June 6.—A new long-distance flying record of approximately 3,790 miles was hung up today by Clarence Chamberlin and Charles Levine when they landed at Eisleben, Germany. The former record of 3,610 miles was established by Captain Charles Lindbergh.

Chamberlin and Levine traveled more slowly than Captain Lindbergh, but their flight was 180 miles longer. They landed at 5 o'clock this morning when gasoline ran low and motor trouble developed.

Taking the air again, the fliers made a brave attempt to reach Berlin, but apparently lost their way in the cloud banks and came down again in a marshy field near Klinge, about 70 miles southeast of the capital.

In alighting, the propeller hit the earth as the wheels settled into the ground. Further progress was impossible. The plane had traveled 120 miles from Eisleben and if it had headed in the right direction would have landed in Berlin. It is believed the aviators will fly here tomorrow.

WASHINGTON, June 6. (AP)—Ambassador Schurman of Berlin advised the state department today of (See CHAMBERLIN—Pg. 4, Col. 5)

#### WORLEY HOME IS DESTROYED

#### Lightning Strikes House During Heavy Rain In Vicinity

The home of Mrs. P. A. Worley on section 60, block 3, burned to the ground yesterday when struck by lightning.

Mrs. Worley heard the lightning strike, but thought it at some distance. When the rain ceased she went outside to see about her chickens, and noticed smoke rising from the roof.

People of Wilcox, who saw the flames before Mrs. Worley did, helped to save most of the furniture. There was no insurance. The house is being rebuilt.

A heavy downpour of rain Sunday morning brought the heaviest deluge of many weeks, flooding the streets and making travel difficult for motor vehicles for several hours.

The rainfall in Pampa was approximately two inches. This was near the average for a large part of the Panhandle, according to reports from many points.

Late wheat will be benefited as the grain fills out, it is believed, and row crops greatly needed the moisture.

Cool, partly cloudy weather portends further rain, many believe.

#### Promising Wildcats Top Pay—Fishing Is Present Activity

Most of the casing dropped in the Riley-Heck No. 1 Mrs. J. M. Hopkins, section 66, block 3, has been removed by the drillers.

The well had a showing of oil at 3,020 feet. There the bradenhead parted, dropping a long string of 6-inch casing. Drillers have been fishing for several weeks.

The Rensaul Petroleum company's No. 1 Mark Huselby, section 55, block 25 Gray county, has a fishing job at 2,470 feet with a showing of oil. It is expected the well will be drilled in sometime during the week. The Nabob Oil company is reported to be preparing to offset the Rensaul company's well.

Pampa Production company's No. 1 Mary Leopold, section 141, block 3, has topped the pay at 3,550 feet and will be drilled in this week according to a statement from members of the company. If this well strikes at that depth it will open much new territory in the Pampa field.

#### DISTRICT COURT OPENED BY JUDGE SMALL TODAY

Judge C. C. Small of Wellington today opened a session of the 84th district court at LeFors, taking the place of Judge Newton P. Willis, who was detained by urgent personal business. Judge Cole of the Vernon district is taking Judge Small's place at Childress this week under the arrangement. Judge Small will serve through Thursday, he said this morning. He is judge of the 100th district, but is disqualified in several cases now being heard by Judge Cole.

#### Santa Fe Crew To Commence Local Switch Work Soon

The Santa Fe railway company reports a steady business in the Pampa district for this season and expects increased activities in the near future.

Rails have been placed for the double line of track to about five miles east of Panhandle. The grading is practically complete to Pampa. When finished the double-track will be from Canyon to Pampa. The double line is now being used for traffic from Canyon to Amarillo.

Within the next 10 days a crew of Santa Fe men will arrive in the city to commence the building of tracks and switches in Pampa. The crew will also work from this end to meet the crew from the west.

After the completion of the double track, it is the intention of the company to beautify the depot and the property along the platform on both sides of Cuyler street with flower beds, shrubs and trees.

Miss Nellie Warren, a teacher in the State school for the deaf in Olathe, Kans., is here visiting her sister, Mrs. B. E. Finley, for several weeks.

#### Kimes Escapes In Commandeered Car In Chase Today

PAWHUSKA, June 6.—Matthew Kimes, notorious outlaw, was sighted here today, and the sheriff's department was notified.

The deputies followed the bandit across a field. The fugitive finally commandeered a car driven by Red Carter, a rancher. He put his arms about Carter's neck, and officers were afraid to fire for fear of killing Carter.

#### HOTEL WORK RAPID

Carpets have been laid and furniture placed in the top four stories of the new Schneider hotel. The main floor will be completed this week. Mr. Schneider has placed sidewalks around the hotel and improved the street at his own expense. A large sign, electrically lighted, has been placed on the roof.

#### Travels 700 Miles To Meet Classmates

Miss Agnes Roberts, Pampa girl who is making a fine reputation in home demonstration work in Crockett county, recently made a trip of more than 700 miles to attend the reunion of her graduating class at the West Texas State Teachers college of Canyon. She spent a short time in Pampa before returning to her work.

Miss Roberts took her A. B. degree at the Teachers college in 1925, after doing special work in home economics. Her rural club teams have won several honors at A. & M. college in connection with the cooperative extension work in agriculture and the home.

#### LEAGUE REBATES MAILED

AUSTIN, June 6.—A total of \$8,000 has been mailed out in rebate checks to Interscholastic league contestants over the state, according to Roy Bedichek, chief of the League Bureau. All contestants at the state meet at Austin were reimbursed for any amount over \$7 spent for transportation. There were between two and three hundred checks mailed. The amount of this year's rebate was the same as for last year, said Mr. Bedichek.

#### C. A. VERNON SHOWS OPEN HERE TONIGHT

The C. A. Vernon shows, offering a big variety of attractions, will open for a week's engagement two blocks south of the tracks tonight. A cannibal from the South Sea Islands, a minstrel show, a five-year-old girl who does the Charleston and Black Bottom, a syncopated orchestra, and many other features are combined to make the show.

The Vernon shows are known throughout the country for their cleanliness.

#### PLANE WHICH CARRIED CHAMBERLIN

#### Material for Gas Line Is Arriving Daily In Pampa

Several car loads of 20-inch pipe have arrived in Pampa and is now being hauled to the Empire Gas and Fuel company's location on the C. C. Dodd property, about two miles from Pampa on the LeFors road where a booster station is to be erected. More pipe is arriving daily on the Santa Fe.

Material is also being placed on the ground for the large booster station and residences to be erected immediately. This booster station will be the center of activity in the Pampa field for the company's gas line to run from here to Kansas.

#### Send Lindbergh Air Mail Greeting

You may not be able to be present in person at the national reception for Captain Charles Lindbergh at Washington, but for 10 cents you may help make this reception the most impressive in history by sending him a personal expression of appreciation for his great exploit.

And of course the message would be sent by airplane, via the service in which he served for several years. Uncle Sam's post office department has arranged the details. Such mail should be addressed:

Capt. Charles A. Lindbergh, Care Postmaster-General, Washington, D. C. It should carry the air mail postage, which is 10 cents per half ounce. The envelopes, marked "Via Air Mail Only", may be placed in any postoffice box.

Pampa Daily News

Published every evening except Saturday, and on Sunday mornings by the Nunn-Warren Publishing Company, Inc., at 155 West Foster Avenue.

The only newspaper adequately covering Pampa and Gray county events and the Pampa oil field.

TEXANS WIN ESTEEM IN FINE ARTS EXHIBIT

Texas, noted for its abundance of most anything you care to mention, is becoming well known for the growing literary excellence of its people.

It is gratifying to note that 31 Texans won prizes or honorable mention in connection with an art exhibition in Nashville, Tenn.

The exhibit will be shown over the state after being on display in San Antonio during June.

Texas offers all the conditions that any artist could wish and the state should encourage the development of the finer senses among its people.

WHAT MOVEMENTS ARE MOST TO BE WATCHED?

George Horace Lorimer, famous editor of the Saturday Evening Post, broke away from his usually serene attitude recently to point out 10 movements which he believes are not in line with the best interests of the United States.

These projects are backed by minorities, which are energetic, although small. Lorimer's 10 "ill-advised" movements are:

To abandon our citizens and permit the confiscation of their property in Mexico.

To withdraw from the Philippines and abandon our constructive program there.

To withdraw from Nicaragua and set up a government unfriendly to the United States.

To permit any of the southern republics to develop revolution and chaos regardless of our interest in the Panama Canal.

To get out of China and leave Americans to their fate.

To get into Russia and let down the bars of their propagandists.

To kill our immigration laws and give us a flood of undesirable immigrants.

To cancel the war debts.

To substitute pink tea socialism for American patriotism.

To hamstring our army and navy in the name of peace.

Advocates of the above doctrines cannot, however, be grouped together, for that would put the college professor with the alien and the anarchist, the unnaturalized radical with the foreign-born patriot, the Rotarian with Fascist, conservative pacifist with the Soviet destructionist.

Martin W. Littleton, speaking before a group of patriotic societies in New York recently, essayed to pick out certain brands of undesirable doctrines and their advocates. For advocating government ownership (Socialistic control) he condemned Senators Borah, Norris, Frazier, Howell and

Now for a Nice Quiet Vacation in the Great Open Spaces

WASHINGTON LETTER

BY RODNEY DUTCHER, NEA Service Writer.

WASHINGTON.—"If Governor-General Leonard Wood sells the public utilities now owned by the Filipinos, it will mean worse oppression than our people endured during the Spanish regime."

This surprising assertion was made in a recent interview by Pedro Guevara, one of the two Filipino resident commissioners in Washington.

Latest advices are that Wood intends to place upon the auction block some \$50,000,000 worth of public utilities developed or acquired by acts of the Filipino legislature with the express intention of freeing the islands from foreign economic and financial domination.

This development has emphasized Wood's autocratic powers—including his right to veto even a unanimous decision of the legislature—and has intensified the hatred of many Filipinos against Wood in particular and the system of an appointed governor in general.

The Filipinos, or at least an apparent majority of the 11,000,000 inhabitants of the island, are hot for independence. But just now, although their leaders won't admit it, they would be mollified if this country permitted them to elect their own governor and enjoy some semblance of autonomy.

According to Guevara's explanation, the public utilities Wood intends to sell include the Manila Railroad company, the Philippine National bank, various sugar centrals, coal mines and a cement factory. The stock in these enterprises is now owned by the Philippine government, and they are operated by Filipinos and Americans.

The railroad was bought from a British firm and the bank and other corporations were organized by special statute. All this cost money and the Filipinos point out that they deprived themselves of roads, new schools, buildings and

Congressman Huddleston. Closely bordering upon Sovietized beliefs are, he thinks, Senators Johnson, Harris, Norbeck, Nye and Congressman Swing, in addition to Governor Pinchot. Abetting influence is represented by such "radicals" as head various Communist groups, Socialist organizations, Civil Liberties unions, and industrial fraternities.

Those who believe in leaving all things to take their own way may find something to think about in the above facts.

other improvements to save themselves from foreign economic control. The bank, for instance, was established to rescue Filipino farmers from foreign bankers who refused to loan to anyone regarded as in competition with their nationals in the islands. These foreign banks are alleged to have held a money monopoly and it was to meet the same sort of intolerable condition that the other national public utilities were developed.

Guevara says all these ventures are making money, but that, even if they were losing, the people of the islands would still be ahead of the game.

He admits that if Wood sells out the Filipinos and is backed up by the administration here, the Filipinos can do no more than howl in protest.

Some Americans who know this man Guevara say that he is the most brilliant politician in Washington. That may not be true, but he is an able citizen.

PRESS FORUM

Pampa News: Birmingham dispatches contain the information that Texas and the southwest consume two and one-third times as much steel as is made in that district. Texas does not have to send away for steel and in the future likely will make her own. She has ample quantities of iron and lignite—both of the highest quality. Texas could ship out more steel than is now being sent into the state.

Texas has the raw materials for any number of great industries. But until capital ventures into them they must lie fallow. Capital ventures where the profit seems surest. Therefore in all the south there is no other such iron and steel center as Birmingham. Birmingham occupies its leading position, in that case, by virtue of its fundamental raw materials, iron ore and bituminous coal in close proximity. The ore can be mined close by the coal needed for refining it, and these two bottom necessities are found so near together in few other localities. The result is that Birmingham is becoming a very important steel-making center. The United States Steel Corporation owns great works here, and can manufacture and fabricate steels of some descriptions more cheaply at Birmingham than at Pittsburgh. As the south and the southwest grow in population and wealth, new and greater industries will develop within their borders.

This will tend to make agriculture more profitable, herefore, lands more valuable. Everything usable is increasing in quantity except one,

and that one is land. There is no more land being added. Whatever change there may be is decrease, from erosion. The Mississippi river has recently subtracted from the available farm land and added the difference to the Gulf of Mexico and the contiguous swamps. The present is a bad time to sell land, yet there never was so much land for sale. — State Press in Dallas News.

Kansas ranks as one of the greatest wheat states in the union, but it has attained that position through great tribulation. It has been a case of "ad astra per aspera." For during all the years, Kansas wheat has had to contend with just about all the difficulties that can assail wheat. For with hot winds and drouth, grasshoppers and chinchbugs and greenbugs and Hessian fly, it would seem that there was nothing new left to be dreaded.

Yet, something new has happened. Fortunately, the new thing is rare, so rare that so far as anyone knows it never happened before, and it may never happen again, but it happened once, ergo, it may happen again. Some two weeks ago, wheat

was looking fine in western Kansas in the vicinity of Liberal and Protection. On May 13, the wheat received just the kind of rain that wheat likes along about the middle of May. Everything was lovely. In view of what followed, some may recall that May 13 was Friday, but maybe that had nothing to do with the case.

Sunday, May 15, dawned fair and bright on the territory around Liberal and Protection. Later in the day, the atmosphere became hazy, as though filled with dust, but experiments showed that the air was free from dust. There was no hot wind. On the contrary, the air was rather cool. The haze in the atmosphere continued over Monday, but by Tuesday conditions were apparently normal. Aside from the haze, there was nothing to attract general attention.

But in the newspaper office at Protection, the press had to be stopped. There was so much of what printers call "static" that the sheets of paper for the press could not be handled.

On Wednesday, it was noticed that the wheat looked wilted. Soon it was more than wilted—it was dead—and examination revealed that the roots were dead and black. When wheat is killed by hot wind, the roots do not die at once. But this was different. The wheat was not killed by hot winds. It was electrocuted.

And that is something new under the sun, at least in the annals of wheat growing in Kansas.—Blackwell Tribune.

TWINKLES

Wonder if rabid 100-per cent Americans are overlooking the trace of ancestry in Lindbergh's name?

June is slipping by, girls, only 23 more days left to become a bride of the month.

A birdie in hand is worth scores of prospective ones on the tee.

The population of the world is estimated at 1,000,000,000, most of whom think they are pretty important individuals.

The Lindbergh hop is a new dance, but not, we hope, of the non-stop variety.

Our good business is picking up, according to informants, and recent graduates entering the business world may claim the credit.

The fire boys should be congratulated that they have such enthusiasm for their department. These fellows will be heard about town—the siren's loud enough, eh?

And now comes Mark Sullivan and tells us a lot about the old McGuffey reader. His syndicated article will reach a very large number of newspaper readers, many of whom learned to read in the old blue-back spelling book. The editor of Free-Lance pleads guilty to both charges. — Henryetta Free-Lance.

GOLF ENVOY OF IRELAND NEW YORK (AP)—George Duncan's latest role is an ambassador of Irish golf.

SPORT TALK

The Pampa Grays are looking forward to the Amarillo tournament July 24 to 31, and with the addition of a couple of pitchers and a change of two in the field the Grays should be in the money.

"Oa" Eckhardt and his Canyon nine again jinxed the Amarillo Metros in a ten-inning battle.

Big Bob Clarke is having a hard time with the Texans. He pitches winning baseball and then his support cracks and he loses a good game.

EXTRA—A ball team composed of members of the fats and leans will have a friendly game of baseball with the Oilers Wednesday afternoon at 4 o'clock at the Grays park.

Grover Cleveland Alexander, that oldtime baseball pitcher, won another shutout victory when his team defeated the Robins 8 to 0.

Lubbock's baseball team will be in Pampa for a two-game series June 25 and 26. The Lubbock team is one of the fastest in Texas, and the Grays will be out to get revenge for the double defeat in Lubbock.

Gober Hits Homers But Grays Lose Again To Borger

Ed Gober's two home runs with the bases loaded was the feature of yesterday's ball game when the Grays again bowed to the Borger team 11 to 9 at Borger.

The Grays started a ninth-inning rally, and again the Pampa manager was in the limelight as he lifted another homer over the fence with the sacks loaded.

USE BUZZARD AS TARGET

SAN ANGELO, (AP)—Menard county ranchmen feel no envy for the sportsmen who shoot the live, heavy-winged pigeons at Monte Carlo.

A germ carrying bird, the buzzard is the particular enemy of stockmen. Hence traps are built to catch them. Two thousand were caught in one trap during two years.

After a number have been collected they are released before a squad of shotgunners in the hands of the ranchmen. Regular meets are held.

OLYMPIC BIKE TRACK DONE AMSTERDAM (AP)—The cycling track is the first part of the Olympic stadium to be completed for next year's Olympic meet.

Construction on the stadium is proceeding even ahead of expectations and the football field has been laid out and covered with sod, while the tunnels beneath the spectators seats and leading from the cloak rooms to the field also have been completed.

COBB "TOO CAPABLE?" DETROIT (AP)—After watching the Tigers under a new manager Detroit fandom has concluded that Ty Cobb was too good a ball player to succeed as a manager.

The same team, which Cobb sought vainly to pull to the top, has shown improved play under George Moriarty. Cobb always was an intense player. Shrewd and lightning fast in judgement, he found it difficult to realize that other players lacked some of these qualities.

Moriarty, on the other hand, without playing worries, has employed diplomacy in handling the team, seeking to avoid ruffling the sometimes temperamental players.

COYLER—LYCETT TEAM AGAIN LONDON (AP)—When Miss Evelyn Coyle, English tennis player, appears in various British tournaments this year, she will be partnered in "Women's doubles" by Mrs. Randolph Lycett.

This partnership revives memories of the great Wimbledon tournament of 1923, when Miss Coyle and Mrs. Lycett, then Miss Joan Austin, won their way to the final of the women's doubles after English tennis enthusiasts had dubbed them "The Children." They met defeat, however, at the hands of Miss. Lengen and Miss Ryan in the finals.

RHIEL PLEASES CRACKERS ATLANTA (AP)—When the Brooklyn Robins passed Atlanta on their spring trek east they dropped young Billy Rhief with the Atlanta Crackers who needed a second baseman.

Since then Rhief either has been leading the Southern Association or has been among the leaders in hitting in addition to playing a jam-up game at the keystone. Last season, as a member of the Greenville, South Atlantic team, he was one of the greatest hitters in the league.

WOMEN GOLFERS BETTER PARIS (AP)—As a class, the women of France do better in golf than their men-folk, in the belief of Percy Boomer, who, as a professional of the St. Cloud Country Club, has been looking them over for several years.

"The French women will work hard to improve their golf," Boomer said. "And they are great fighters. It won't be many years before the French women will be able to put up a good show against the British in team matches."

"But it will be a long time, if ever, before the Frenchmen produce enough good players for international team matches outside the continent as they won't work at the game as the women do."

Offer Air Prizes

Following Lindbergh's successful hop from New York to Paris, prizes for long flights are on the boom. William E. Easterwood (above) of Dallas, Tex., has put up \$25,000 for a two-stop flight from Dallas to Hongkong, China in 144 hours or less.

James D. Dole (below) of San Francisco, head of a pineapple company, offers \$25,000 for a non-stop flight from the Pacific coast to Hawaii.

**Sheppard On Final Commencement Program of Texas U.**

AUSTIN, Texas, June 6.—Commencement exercises at the University of Texas will be concluded this evening with the awarding of degrees by President W. M. W. Splawn. Senator Morris Sheppard of Texarkana will deliver the annual commencement address.

Saturday was Alumni Day at the university with quinquennial reunions of the classes of 1887, 1892, 1897, 1902, 1912, 1917 and 1922. At the annual meeting of the ex-student's association Tom Connolly of Marlin addressed the members.

Sunday evening the Rev. H. O. Pritchard, general secretary of the board of education of the Disciples of Christ, preached the baccalaureate sermon.

**ATHLETIC CLUB IS OPEN HERE DAILY**

The Pampa Athletic club, located south of the tracks on Cuyler street, is open from 4 to 6 p. m., daily.

Another boxing card, to be presented next Monday, is being arranged. A speedy man for the last preliminary is being sought.

Participants in coming bouts will work out at the club several days preceding the matches.

**NO ELECTION PROBE**

AUSTIN, June 6. (AP)—Then Senate today killed, 15 to 14, a resolution by Senator Love calling for the appointment of five senators to investigate the campaign expenditures and practices of candidates prior to the 1928 election.

George Woodhouse has returned from a business trip to Gage, Okla.

**SOCIAL NEWS (Phone 72 Mornings)**

Mrs. Maude Hall and Mrs. R. L. Studd of Denton have arrived to spend the summer with Mrs. W. Purviance and family.

Mr. and Mrs. Clinton Henry of Canadian are visiting Mrs. Henry's parents, Mr. and Mrs. Dave Pope.

Mrs. Tom Rose has returned from an extended visit in Bentonville, Ark. Mrs. Inez Barrett accompanied Mrs. Rose on the trip.

Mr. and Mrs. W. L. Woodward have returned from a trip to Daihart.

Clifford Soloman has returned home after attending school at Simmons college at Abilene.

Miss Eurytha Henry has returned from Canyon, where she has been in school.

Miss Susie Pitkin, who has been visiting Mr. and Mrs. Harvey Haynes, has returned to her home in Canyon.

Mr. and Mrs. Robert Holt of Wheeler were guests at the E. S. Carr home Friday.

Mrs. Elizabeth Hunter and Miss Blanche Campbell of El Paso spent Sunday as the guests of Miss Wilkin of the Crystal Palace confectionery.

Mrs. Cliff Vincent and Mrs. E. S. Carr went to Claude Friday to attend a shower given in honor of Miss Faye Rogers.

Miss Helen Luthi of Gage, Okla., is here visiting her uncle and aunt, Mr. and Mrs. George Woodhouse.

Mrs. Henry Goodman will arrive Tuesday from Houston to visit with Mr. and Mrs. S. A. Fienberg.

Miss Allie Lee Bolton of White Deer spent Saturday here shopping.

C. W. Stowell, who underwent an operation on the nose Sunday, is improving rapidly.

Mrs. M. C. Ferguson of Oklahoma City and Mrs. O. L. De Fur of Memphis, Tenn., are expected to arrive today to visit with their son and brother, O. W. Ferguson, and family. Mrs. De Fur will spend two days and then go on to California to spend the summer.

Mrs. A. E. Stowell has gone to Oklahoma City to nurse.

**Former Pampa Man Marries In Claude**

Chester Carr, former resident of Pampa, who has been residing in Claude for several years, was united in marriage Sunday to Miss Fay Rogers at her home in Claude. The ceremony was performed by Rev. Hitchcock of the Methodist church.

Mrs. Carr was a teacher of music in the College of Music at Amarillo. Mr. Carr has charge of the Pierce Oil company at Claude and has many friends in Pampa.

The young couple left for a honeymoon trip to Amarillo, Pampa, and other nearby places before returning to Claude to make their home.

Mr. and Mrs. E. S. Carr, Mr. and Mrs. Cliff Vincent of Pampa, and Mr. and Mrs. Robert Holt of Wheeler attended the wedding.

**Eastern Star Club Postpones Meeting**

Instead of meeting at the usual time this week, the Eastern Star study club has moved the time forward to June 14, at 3 o'clock.

The session will be held at the Masonic hall.

**HARRY ROGERS**

tional peace through a world of friendship of business and professional men united in the Rotary ideal of Service.

"Good will as a valuable term in every sense. In many business organizations one of the large items under the column of assets is good will. If we have good will toward our neighbor, our school, churches, cities, states, and nations, how impossible it will be to entertain hatred and jealousy, always poisonous and destructive.

"International peace! Here is the goal, for this point we strive, that our man-power may be used for constructive rather than destructive purposes, that our resources may be utilized for worth while endeavor. This should be our chief desire.

**World Fellowship, Aim**

"How are these ideas to be advanced? By fellowship. What kind of fellowship? World fellowship. Fellowship of whom? Business and professional men. No longer shall this work be left to kings and congresses, to courts and armies, to treaties and diplomacy. All these have failed. We are trying a new plan. Business and professional men from every nation, who know that without this, all for which they strive will come to naught, are sitting down with their fellows to try to devise a plan which means safety and permanency. They know if they become acquainted, fellowship one with the other and become friends, there should be no desire for anything but peace.

"All else has failed. Here there is a ray of hope. This is not to be single-handed, but unitedly. It is no one man's job. The single-handed days are over. The leading men of all business and professions and from all countries must join hands. We cannot be united unless we have a common ideal. This we find in the Rotary motto 'He profits most who serves best.' This is true or should be true in a material sense although none of us would put in on that low basis. Your salaries and income are very largely in proportion to the service you render but the Rotary ideal is something more.

"It is that within us that makes us know that when we are serving others we are building ourselves. It is the same ideal that the Master had when He said 'It is more blessed to give than to receive.'

**Extending Friendships**

"So united in this ideal, we are going forward, extending acquaintance, intensifying friendship, giving up selfishness, unfair practices and shameful personal habits, seeking to advance the thought and activity of the world along proper lines and toward a worthy goal."

"There is certainly universal interest in high standards in business;

obviously Rotarians believe that business can be permanently successful only when conducted along right lines. If so, it must be conducted so that a study of the best standards in the business and professions of the world, will profit all. Let us see in what countries and in what lines of business the highest standards obtain, and set these as the goal for Rotarians of every country engaged in every known business and profession. I feel quite sure that the standards in all countries and in all lines of business are much higher than we have been led to believe. Our task is, first, to ascertain the best, and secondly, to try to bring our membership as nearly as possible in its everyday living to the best in business life.

**Better Working Conditions**

"Likewise, we feel that there is an evergrowing interest in the relationship of employer and employee. Any plan to improve and strengthen this relationship must appeal to both the reason and the imagination of our entire membership.

"We are business and professional men and certainly we are desirous of attaining success. We cannot do this unless we have the sympathetic interest of all those whom we expect to aid us along the way. What country is the best example and what Rotarian has been a leader in this field. Will not a careful study contribute greatly toward the realization of better relationship?

"When business is on the right basis, buyer and seller can both prosper and competitors will be friendly.

"The past has taught us the necessity of attendance. If Rotary has a program worth while it ought to reach the entire membership. This cannot be done unless the members attend. They must be present to understand the program and to receive the inspiration necessary to make the program a success. It has been well said, 'It is impossible to fellowship with the absentees.' Many Rotarians who think they are good members feel that there is nothing

but irritation in connection with the attendance rules but the truth is that where such Rotarians are found Rotary is not in as healthy a condition as in the clubs where attendance is stressed along reasonable lines.

**Select Membership**

"The past has taught us the necessity for greater care in the selection of members and the importance of aiding new members in catching the vision of Rotary.

"Every member can and must be induced to do something. Rotary can never be a one-man organization and it is just as strong as the participation of its members is active and universal. Every member of every club has been chosen because of outstanding qualifications.

"It is not enough to organize and fraternize. Out of organization and fellowship must come accomplishment. We have a skeleton program in the Six Objects but it must be further developed and enlarged so that it will be applicable to and useable by all Rotarians. Rotary has taught, or at least emphasized, the importance of cooperative effort. Where the membership has learned to work together community development is the rule.

"Lastly Rotary has taught that we each have an obligation to serve.

"I shall close by saying that if I recognize my obligation—it is that I shall serve:

**Spirit of Rotary**

"Intelligently. Nothing less than the most intelligent service upon the part of every Rotarian in his business or profession will suffice in this day and time.

"Enthusiastically. If a thing is worth doing at all it is worth doing in such a way and manner that all will be impressed with the zeal of the doer.

"Cooperatively. The greatest good will be accomplished when men of the various clubs learn to work together. It is the combined efforts of all that insure success.

"Optimistically. If there is a group of men in the world who ought to have an optimistic view of life and believe in the worth-whileness of the best in human endeavor, it should be successful business and professional men, gathered together in Rotary."

**CHAMBERLIN**

his intention to fly at once from Berlin to the landing point of the Bellanca plane to meet Chamberlin and Levine.

WASHINGTON, June 6. (AP)—A telegram of congratulation to Clarence Chamberlin on his flight to Germany was sent today by President Coolidge.

Chamberlin and Levine were credited with a flight of 3,905 miles today by the geological survey, which measured the distance from Roosevelt field to Elseleben.

NEW YORK, June 6. (AP)—Giuseppe Ballanca, designer of the monoplane Columbia, today announced that a flight to Rome from New York in a single-motored plane will be made, probably in October. He refused to make public other details of the proposed flight.

(By The Associated Press.)

KLOTTBUS, Germany, June 6.—Clarence Chamberlin and Charles Levine arrived here by motor this afternoon from Klinge, where their trans-Atlantic plane was forced down.

They went immediately to a hotel, where they ordered a good meal. The airmen were in a happy frame of mind and gave no indication of weariness.

They freely admitted disappointment over failure to reach Berlin, especially when informed that Berlin crowds kept an all night vigil and arrangements were made for a big reception.

The village of Klinge, where the Columbia landed, is only about 9 miles from Klottbuss, and the airmen were brought here a few minutes after landing.

BERLIN, June 6.—(AP)—The Bellanca monoplane, Columbia, carrying Pilot Clarence Chamberlin and Charles Levine, owner of the ship, finally ended its trans-Atlantic flight at Klinge with a broken propeller 70 miles from Berlin, after having been forced down by lack of fuel at Elseleben, 110 miles from Berlin. This distance was approximately 180 miles more than Captain Charles Lindbergh made on a non-stop basis. Chamberlin and Levine were offered a special plane to take them on to Berlin.

NEW YORK, — June 6. (AP)—Death and injury removed two contenders from the New York to Eu-

rope flight competition, ten days apart in April.

Lieut. Commander Noel Davis and Lieut. Stanton Hall Wooster were killed April 26 and their plane, "The American Legion" wrecked at Mes-sick, Va., as they were conducting an experimental flight.

On April 16, "The America" was damaged and Commander Richard E. Byrd, Floyd Bennett, and Lieut. George O. Noville were injured when it overturned at Hasbrouck Heights, N. J.

The Bellanca plane suffered a narrow escape just before it was put in final shape for the start of the flight when it lost a part of its landing gear and for a time was in serious danger as it landed without the necessary equipment. Only slight damage resulted and this was speedily repaired.

Two deaths followed a fire which destroyed Capt. Rene Fonck's giant Sikorsky plane as it took off from Roosevelt Field last year. Jacob Islamoff, mechanic, and Charles Clavier, radio operator, lost their lives. Captain Fonck and Lieut. Lawrence Curtin, pilots, escaped. A duplicate of the ill-fated aircraft will be ready for another attempt soon, although Captain Fonck will not essay the flight until autumn.
