FDR ASSAILS 'MISUSED POWERS OF CAPITAL' Judge Flays Pool Halls Which Allow Boys To Play

GRAND JURORS TOLD TO STOP PRACTICE HERE

A blast of strong criticism against local pool halls for allowing high school students to play in them was hurled by Judge W. R. Ewing this morning in his charge to the grand jury.

JUDGE W. R. EWING

'Pool halls cannot be legally run in this state. A pool hall is defined as a place where pool tables are exhibited for hire. There is nothing wrong in members of bona fide clubs playing pool or billiards, as in cases of organizations that have pool tables, where members and their friends may come and play billiards or pool. In these cases, the cost of playing is included in the club fees,' Judge Ewing said.

20 Daily Newspapers And 13 Weeklies Read By NEWS Reporters

By BROWNWOOD EMERSON
Newspapermen often are accused of not reading their own papers. This has long been the subject of numerous jokes...

What would the average reader think, however, of being assigned to scan 50 pieces of mail daily, including 20 daily newspapers? On certain days of the week, the number of newspapers is increased to 43 with the addition of the weekly publications.

Even though little of this material can be used, it must be checked for possible angles on stories. Texas newspapers, of course, are best represented among the exchanges. The Pampa Daily NEWS receives the following Texas dailies: Big Spring Daily Herald, Abilene Reporter-News, Amarillo Daily News, Fort Worth Star-Telegram, Dalhart Texan, Amarillo Times, Childress Index, Shamrock Texan, Lubbock Journal, Borger Daily Herald, and Orange Leader...

4 DOUBLE HOLIDAYS IN STORE FOR '38 IN 'IDEAL' CALENDAR

In case you haven't taken a peek, the 1938 calendar is as nice an "arrangement" job of holiday dates as you've ever had to look forward to.

There will be four double holidays this year—legal rest days falling on Mondays or Saturdays—and Thanksgiving day will come on the earliest day possible, Nov. 24.

Memorial day, May 30, and Fourth of July, fall on Mondays. Christmas day will be on Sunday in 1938 with the next day being observed as a legal holiday. Labor day, of course, is the first Monday in the month, Sept. 6, which will mean a fourth "double-header" for those who toil.

Ed Neil, AP Writer, One Of Three Killed By Shell At Teruel

ZARAGOZA, Spain, Jan. 3 (AP)—Edward J. Neil Jr., Associated Press war correspondent with the Spanish insurgent armies, died yesterday of shrapnel wounds he suffered Friday while reporting the insurgent counter offensive on the Teruel front.

The 37-year-old, white-haired war correspondent failed to rally after blood transfusions administered at the Red Cross hospital here, 100 miles north of Teruel.

He was the third to die of wounds caused when a 75-millimeter shell struck an automobile in which four correspondents were seated at the village of Cauda, five miles from Teruel.

Bradish Johnson, Harvard graduate and correspondent of the magazines "Sport" and "News Week," was killed outright and E. H. S. Sheepshanks of Reuters (British News agency), also brought to Zaragoza, died Friday night. Harry Phibby of the Times of London was injured slightly.

For a time Sunday Neil had seemed out of danger. He had been given one blood transfusion at Cauda before being brought to the hospital here. Other transfusions followed, including one from a Catholic priest who was with the newspaperman when he died.

Specialists who had done their utmost to save him, fellow journalists, and insurgent press department officials were with Neil at his death. He had suffered 34 wounds in his legs and abdomen and fracture of one leg.

Franco Generalizes

Insurgent Generalissimo Francisco Franco, who had telephoned Zaragoza to inquire of Neil's condition, expressed deep sympathy when informed of his death.

The correspondent, who earlier in his career became known to millions of sports fans for his vivid accounts of sports events, had covered the Ethiopian war and, since May, Spanish insurgent battlefronts.

With the other three correspondents he had gone to Cauda for a first hand view of the insurgent offensive which resulted in recapture of Teruel in the greatest battle of the Spanish civil conflict.

Two days before he was injured, Neil had cabled what was to be his last story, telling of successful defense of the Teruel seminary by a garrison of beleaguered insurgents. He had told how "foreign newspaper men circulating freely" on the insurgent front saw warplanes assault the government lines.

He had seen the conflict in many parts of Spain. In June, on the night of the fall of Bilbao, he scored a beat of two hours by sending his story from a cable station which then was under fire.

While in Zaragoza hospital, before there was any indication of how seriously he was wounded, Neil said: "Well, I guess the war is over for me."

A mass was arranged for Neil in Zaragoza cathedral today. His body will be taken to the United States. Dwight L. Fitkin of the Associated Press Paris bureau will accompany the casket out of Spain.

Claude G. Bowers, United States ambassador to Spain, sent his personal secretary here from Handaye, France, to facilitate transportation of the bodies of Neil and Johnson.

Edward J. Neil Jr. won a national reputation for vivid, colorful sports writing before he was assigned to the foreign field in the fall of 1935.

Aboard, he covered three outstanding news events for the Associated Press—the Italian-Ethiopian war, the Arab uprising in Palestine and the Spanish civil war.

Covered Coronations

On his way to his last assignment in Spain, he sent characteristic, graphic stories on the coronation of King George VI of England.

In 1932 he won honorable mention in Pulitzer prize awards for newspaper writing through a description of his own experience in a hair-raising bobbed ride at Lake Placid, N. Y.

During his seven months with the Italian army in Ethiopia, Neil flew in a bombing plane over Ethiopian lines and later suffered a leg injury in a plane crash.

After suffering a chest hemorrhage, caused by over exertion in

EDWARD J. NEIL

the high altitude, he was bedridden for weeks.

In Palestine, Neil narrowly escaped capture by British troops when he accompanied Arabs on a night shooting raid.

The son of a retired Associated Press telegrapher, Neil was born Jan. 17, 1900, in Methuen, Mass., mill town suburb of Lawrence. He was educated at Phillips academy at Andover and at Bowdoin college in Maine.

Neil is survived by his widow, the former Helen Nolan, and a five-year-old son, Edward J. Neil, III, living in New York; his parents, a brother, Dr. Richard J. Neil, and two sisters, Mrs. Mabel Reardon of Methuen, Mass., and Mrs. Dorothy Traynor of Oriental Park, Cuba.

The Associated Press' vast network of wires carrying the news to every corner of the United States was silenced for two minutes today in tribute to Neil.

The flow of news was halted at 6:30 a. m. (eastern standard time), the moment mass was being said for Neil in the Cathedral at Zaragoza, Spain.

KAI-SHEK NOW HEADS TROOPS

SHANGHAI, Jan. 3 (AP)—China's crack military leader—Generalissimo Chiang Kai-shek—stripped himself of civil administrative responsibilities today and concentrated his efforts on effectively resisting the Japanese invaders.

It was made known simultaneously that China is training, behind the lines, a new army of 800,000 men to support the 90 divisions—approximately 900,000 men—trying to hold back the Japanese horde today.

Chiang Kai-shek became commander-in-chief of the army and temporarily took charge of the navy while Finance Minister H. H. King, succeeding him as president of the executive yuan, assumed the nation's highest civil administrative functions. Other important changes in key posts and ministries were made.

On far-flung battle fronts the Japanese were still smashing relentlessly ahead, resisted but not halted in their campaign to hammer China into submission.

Latest Japanese gains were in rich Shantung province, where the invaders captured the important city of Tai'an on the Tientsin-Pukow railway. Chinese troops blew up a bridge and with drew across the Wen river, establishing a new defense line to Tawnkow.

Chinese air activity, resumed after a long lapse, was marked by an attack on Nanking. Only vague details were learned. The Chinese said they bombed a Japanese air-drome outside the former Chinese capital, destroying two planes on the ground.

TWO ANTI-WAR BILLS PUSHED BY SENATORS

WASHINGTON, Jan. 3 (AP)—Two measures backed by Texas Senators and intended to lessen chances of this nation's becoming embroiled in war probably will come up early in the regular session of Congress opened today.

One is the war profits bill of Senator Connally. The measure would hike both personal and corporation income taxes upon declara-

tion of war, making it impossible for profiteering in food and clothing commodities as well as munitions.

Senator Connally said the measure would tend to reduce our chances of war by eliminating the opportunities such as some persons seized in 1918 to become millionaires, and in addition, would help finance the struggle.

The other bill is one before the Senate military affairs committee, over which Senator Sheppard presides. It would place an embargo on the shipment of scrap iron to foreign countries.

For the last two years an enormous amount of scrap iron has been shipped from Texas ports, eventually to be used to a large extent for the manufacture of armaments in the Orient. The metal was and still is being gleaned from junk heaps.

The work of Rep. Mansfield of

Columbus, Texas, will determine largely the fate of the administration's regional planning bill for conservation of natural resources. Mansfield is chairman of the rivers and harbors committee, which concluded hearings on the bill in the special session. It should be acted upon early this session.

Of much importance to Texas is the tax measure which is to come up soon. The ways and means committee has been considering including in the bill provisions to invalidate community property rights in estimating federal income tax returns, and reducing the oil depletion allowance in figuring returns.

Rep. Sanders of Canton is a member of the ways and means committee and has pledged himself to oppose inclusion of these provisions in any bill that is submitted to the House for action.

CENSUS WILL BE BASIS FOR FUTURE RELIEF

WASHINGTON, Jan. 3 (AP)—Administration leaders surveyed the unemployment problem anew today in the light of census figures that between 7,822,912 and 10,870,000 Americans were out of work in November.

John D. Biggers, Ohio glass manufacturer who supervised a voluntary registration of the unemployed, said the number out of work had increased since the count was made.

The Biggers census and surveys made by the Works Progress administration and other agencies will form the basis of decisions on the future of federal relief.

Biggers said 7,822,912 persons, returning cards distributed by postmen, signified that they were out of work and wanting employment. A house-to-house canvass of certain "test" areas showed this report to be 72 per cent complete, and thus the higher figure of 10,870,000 persons actually unemployed was projected.

State totals showed, in general, that unemployment was less in the middle-west than elsewhere.

Of the total reported wanting work in Texas, 163,223 were males

and 66,031 were females. Reported working at WPA, NYA, CCC or other emergency occupations were a total of 76,358, of which 55,643 were males and 20,712 were females.

Although census officials did not attempt an immediate analysis of the figures, one said informally that occurrence of larger numbers of jobless in the South was affected by a large percentage of unemployment

among negroes.

"Many people consider themselves unemployed who are financially not compelled to work," said Biggers. "Respective of their need, when they seek employment, they enter the labor market and compete with others who have jobs or vitally need jobs. They are therefore a factor in the unemployment problem though they may never seek relief."

Beware The Cough From a common cold That Hangs On

No matter how many medicines you have tried for your common cough, chest cold, or bronchial irritation, you can get relief now with Creomulsion. Creomulsion not only contains the soothing elements common to many cough remedies, such as Syrup of White Pine Compound with Tar, and fluid extract of Licorice Root, but it also has fluid extract of Ipecac for its powerful phlegm loosening effect, fluid extract of Cascara for its mild laxative effect, and, most important of all, Beechwood Creosote, perfectly blended with all of these so that it will reach the source of the trouble from the inside. Creomulsion can be taken frequently and continuously by both adults and children with remarkable results.

Thousands of people, who really know their drugs, use Creomulsion in their own families, realizing that this excellent preparation also has nature to soothe the inflamed mucous membranes, to heal the irritated tissues, and to loosen and expel the germ-laden phlegm. Druggists also know the effectiveness of Beechwood Creosote and they rank Creomulsion "tops" for coughs because you get a real dose of Creosote in Creomulsion, emulsified so that it is palatable, digestible, and active in going to the very seat of the trouble. Creomulsion is generally found satisfactory in the treatment of coughs, chest colds and bronchial irritation, especially those stubborn ones that start as just a common cold and hang on for dreadful days and nights thereafter. Even if other remedies have failed, your druggist is authorized to refund every cent of your money if you are not satisfied with the relief obtained from the very first bottle of Creomulsion. Don't worry through another sleepless night—use Creomulsion.

Creomulsion is one word—not two, and it has no hyphen in it. Ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product, and the relief that you want. (Adv.)
