

Pampa Sunday News-Post

VOL. 1, No. 51.

(Full AP Leased Wire)

PAMPA, GRAY COUNTY, TEXAS,

SUNDAY MORNING, SEPTEMBER 27, 1931.

PRICE FIVE CENTS

LUBBOCK POLICY GROUP CHARGED

BILL TO DRILL IN RIVERS FAVORED DALHART MAN KILLED IN CAR CRASH

AUTO STRUCK HIM WHILE HE REPAIRED TIRE

THREE WOMEN SITTING
IN CAR INJURED
CRITICALLY

ALL LIVE AT DALHART

DRIVERS OF OTHER VE-
HICLE SURRENDER
TO SHERIFF

DALHART, Sept. 26. (AP)—An automobile collision on the highway west of here last night killed Clarence Williams, 35, and injured three women.

Williams was repairing a tire when struck by another automobile. His car, in which the women were sitting, was wrecked.

Miss Isabelle Rowley, 19, was injured critically, but physicians expected her to recover. Mrs. Williams and Mrs. Roe husband were slightly injured.

Newt E. Smith and Rogers Cornett, occupants of the other vehicle, surrendered to Sheriff H. D. Foust and were detained while an investigation was being made. Smith was driving.

All of the motorists involved resided at Dalhart.

EXHIBIT PRODUCE WILL BE GIVEN TO FEED NEEDY

Fruit and vegetables from the Gray county booth at the Amarillo Tri-State fair which closed yesterday will be brought to Pampa and given to the Pampa Welfare board to be distributed among the poor of the county.

Ralph R. Thomas, county agent, and George W. Briggs, manager of the Board of City Development, will return the exhibit to Pampa. The booth took twelfth place in an entry of 23 at the fair. The booth attracted much favorable comment.

"We certainly appreciate the donations of fruit and vegetables given after the Gray County Free Fair and the booth at the Amarillo fair and will make good use of the stuff," Mrs. W. H. Davis said yesterday.

Four Men Are Indicted On Charge Of Cattle Theft

Ralph Denman, Homer Maynard, Roy Brown, and A. C. Lamar were arrested on indictments charging theft of cattle. Denman has been released on bond of \$1,000. The others were being held in the county jail Saturday. Their trials will probably be set for next week. District Attorney Raymond Alfred said yesterday.

Ernest Savage, the other man indicted on the same charge, has not been arrested.

W. O. Hayden made bond of \$1,000 yesterday when arrested on an indictment charging him with possession of intoxicating liquor for the purpose of sale.

D. L. Siler was brought to Pampa hospital late Friday night following an automobile accident near White Deer. His injuries were not serious.

The town crier won't be by your house to tell you of the bargains in the classified ads. Neither will he tell the people what you have to sell or rent. It's the classified columns of the NEWS-POST that tells the story to the people of this community!

PHONE 666

WOMEN SEEK NEW SPEED MARK

Mrs. Chubbie Keith-Miller, shown in the cockpit, Australian aviatrix, and Mary Adams, right, New York actress, are preparing to hop off from Los Angeles soon in an attempt to set a new transcontinental air record. They will fly a "mystery" ship, capable of more than 250 miles an hour.

JOBLESS MEN URGED TO TAKE FIRST EMPLOYMENT AVAILABLE

COTTON PICKING WILL
BE OFFERED AT
MEETING

When one is broke and unemployed he should take the first job offered him, Clyde Garner, employment agent, believes, and for that reason he is of the opinion that local jobless persons should help farmers of the Panhandle and Western Oklahoma pick their cotton.

In every mail, Mr. Garner receives requests for cotton pickers from all parts of the Panhandle-Broncos country. Wellington, Estelina, Paducah, Memphis, Mobeetie, Clarendon and Roger Mills county, Oklahoma. The office of the Welfare Board has been flooded this week with requests for cotton pickers.

Hardly an hour in the day passes during which several farmers do not come in asking for pickers. Prices range from 25c to 35c for snapping cotton, and 40c and 50c for picking. Some farmers are paying 50c when one boards himself and 30c when he is boarded at the farm.

Mr. Garner says it does not take a person less than a week to pick 400 pounds of cotton, and that 400 pounds is a very ordinary day's work for the beginner.

Mr. Garner pointed out that in Western Arkansas and East Texas police are forcing unemployed loiterers to help pick this year's bumper crop. He said no such action was contemplated here at this time, but that those who refuse to accept cotton picking jobs cannot expect any aid here or later on. The Welfare Board decided on that point last winter. When one refuses to accept available jobs, he cannot expect any sort of aid from the board.

Paving Bids Will Be Opened Monday

County commissioners will open bids at 10 o'clock tomorrow morning for the paving of approximately two and one-quarter miles of highway 33A, north of Pampa, which is all that remains of the unpaved road in Gray county. The commission reserves the right to refuse all bids. They declared at a recent meeting that contractors would have to "get right" or the contract would not be let.

The bids will be for Bates type of paving, the same as used on other highways around Pampa. No bids had been received yesterday afternoon.

Pampa Families To See World Series

Mr. and Mrs. Paul Kasishke and Mr. and Mrs. D. J. Gribbon and 6-month-old son, Bill, will leave in the morning for Chicago where they will join Mr. and Mrs. Mel Davis, Eddie Dunningan and a number of other Pampans who will form a party to witness the world series baseball games.

Bill Gribbon will probably be the youngest Pampan in attendance at the games.

HE WAS TIRED OF EVERYTHING BUT YE OLD SHUTEYE

ALBANY, Sept. 26. (AP)—Excitement of a spectacular escape from a deputy sheriff on the streets of Albany, this afternoon did not upset W. H. (Slim) Wise to such an extent that he could forego his afternoon nap and tonight he is back in the county jail putting away "shuteye" in copious quantities.

Slim, under a two-year prison term for disposition of mortgaged property, pleaded the need of a dentist and was being taken to the doctor's office when suddenly he pulled a pistol, covered the unarmed deputy, backed around a corner and was gone.

Heavily organized posses immediately started search for him and just two hours after the escape he was discovered sleeping peacefully on the banks of a creek a short distance from town.

MAN IS HANGED AT ABILENE

ABILENE, Sept. 26. (AP)—Abilene police tonight were seeking relatives of a man identified as S. P. Meshew, 48, of Holdenville, Okla., whose body was found hanging from the rafters of a vacant house at Abilene, near here, this afternoon. A verdict of suicide was returned by a coroner.

Meshew, driving an old Ford roadster, drove up to a grocery store in the little community last Tuesday, made himself at home for the next several days, sleeping at night on the ground beside the store. Friday he disappeared and this afternoon two boys, chance to pass the house, saw his body dangling from a rafter.

The man appeared worried, the storekeeper said, but had funds, five \$20 bills and one \$5 bill were found in a small trunk he left at the store along with a roll of bedding.

A small metal identification tag attached to a keyring in the man's pocket bore the name of S. P. Meshew of Holdenville. An automobile driver's license, issued to Meshew at Phoenix, Ariz., in 1929 and a registration card for an automobile were also found in his effects.

Officers have notified L. T. Meshew of Holdenville, whose name was found written on a slip of paper in the dead man's pocket.

A letter, apparently written from Mesa, Ariz., told of the man's despondency over reversals in life. The letter was addressed only to "Dear Brother."

Man Is Charged After Accident

Arliss Harbert was bound over for the action of the grand jury when he was charged with driving a car while in an intoxicated condition, before Justice of the Peace James Todd Jr., who set his bond at \$750 yesterday morning. Harbert had not made bond last night.

Harbert and a companion were arrested Friday night by Traffic Officer Joe Persky and State Highway Officer Lee Miller after the car in which they were riding had crashed into two cars in front of the B. W. Rose home on West Francis street.

Mr. Rose's Buick sedan was badly damaged and his Ford car was less seriously damaged. The car driven by Mr. Harbert crashed into the Buick first and was then backed away and struck the Ford, witnesses told officers.

Sheriff Back From Tyler With Taylor

Sheriff Lon L. Blansett and Deputy Siler Hopkins returned yesterday afternoon from Tyler, returning O. W. Taylor, indicted here last week with theft by bailor. Taylor was arrested in Tyler several weeks ago and held for Gray county officers.

While in Tyler Sheriff Blansett discovered E. H. Brady, who is wanted at Huntsville, and had him arrested and held in Tyler for state officers. Brady was the first man convicted on liquor charges in the county this year. He was sentenced to a year and one day. He was later paroled because of sickness in his family but failed to report at Huntsville when his parole expired, Sheriff Blansett says.

MEASURE IS ENGROSSED BY TEXAS SENATE

BED OF SABINE RIVER
WOULD BE DRILLED
FOR OIL

HOUSE OPPOSES PLANS

COOPERATIVE MARKET-
ING IDEA OF STERLING
IS REJECTED

AUSTIN, Sept. 26. (AP)—Texas will enter the oil business if a bill engrossed by the senate late today is passed by the house and becomes a law.

The bill directed the governor, commissioner of the land office and the chairman of the railroad commission to drill or contract for the drilling of state owned river beds in proven oil territory. It was set for special order for final passage in the senate Monday morning.

Doubt it would pass the house was expressed freely since the house committee on oil, gas and mining has returned an unfavorable report on a bill to provide for leasing the Sabine river and other river beds in the East Texas field.

The amendment to place the state in the oil business was offered by Sen. Frank Rawlings of Fort Worth to a bill by Sen. George Paul of Dallas that provided for leasing of state owned river beds.

The bill would make the bed of the Sabine river subject to lease and development. Running through the East Texas field, it was claimed there was approximately \$80,000,000 in oil under the river that would be drained by adjoining wells.

Gasser Brought In Near Pampa

Humble Oil & Refining company's No. 1 Hughes, section 154, block 3, has been completed for 27 million feet of gas. The well was drilled to a total depth of 2,749 feet, and the big gas was found from 2,555 to 2,720 feet.

Two new locations were as follows: Texhoma's No. 1 Purvis, 1,300 feet from the west line, 1,476 feet from the south line, section 151, block B-2.

Quicksand's No. 1 Chapman, 250 feet from the northeast corner of the west 60 acres of the north half of the northwest quarter of section 98, block 25.

Production of the various counties during the previous week was as follows:

- Carson—240 wells, producing 7,000 barrels.
- Gray—759 wells, producing 42,893 barrels.
- Hutchinson—893 wells, producing 15,158 barrels.
- Moore—22 wells, producing 1,685 barrels.
- Wheeler—43 wells, producing 356 barrels.
- Total—1,957 wells, producing 67,182 barrels, an increase of 1,692 barrels.

GRASS GROWS FAST FOR CITY

Grass will grow for the city of Pampa more quickly than for an individual, declare residents of North Somerville street. Less than two weeks ago grass seed was planted on the boulevard on that street, and today a nice stand has been started. Watering has considerable to do with the growth, the city manager declares but there is a lot in the seed planted.

"We get the best seed available on though it costs slightly more, but it is better in the long run," the city manager said.

Grass is also beginning to show through in the city park. Careful watering and the recent rain has done the work.

AS VETS CLAMORED FOR BEER

Nearly 30,000 members of the American Legion at the National convention at Detroit went "over the river" to Windsor, Ont., where they could get good beer and plenty of it. Here is a New York party getting it cold off the ice in the Canadian city. Their sentiments is inscribed on the Pullman car.

HOPKINS VOTERS CUT SCHOOL TAX FROM \$1 TO FIFTY CENTS

REDUCTION FAVORED
BY 47, THREE OPPOSE
PROPOSAL

Voters of Hopkins school district decided yesterday at the polls they would not pay a \$1 school tax on their property this year.

By the overwhelming vote of 47 to 3, the citizens decreased the dollar tax to a maximum of 50 cents on the \$10 valuation. Ernest Vandenberg was election judge.

Residents of the community presented a petition asking the county judge to call the election directly after it became known that the Hopkins district had over \$22,000 in the treasury. As Supt. John B. Hennessey said, "the trustees had more money than they knew what to do with."

The district has two schools, each of which is housed in modern, new buildings. Playground equipment at each school is unsurpassed. Proponents of the proposal to reduce the tax argued that it was needless to continue piling up money in the treasury, especially at a time when economic conditions were not at their best. Opponents pointed out that the big surplus was due to oil development in the district and that the time would come when the money would be needed.

Plans of the Phillips Petroleum company are located in the district, and many of the students are children of Phillips employees.

Weed Cutting Has Given Men Work

Several unemployed men have been cutting weeds in the vacant lots across the street from the courthouse for the past few days and the change in the lots is quite noticeable. Owners of the lots hired the men through the employment bureau of the Welfare board.

"If only more broad-minded Pampans would hire men to cut weeds the suffering in the city would be less," Clyde Garner declared yesterday. "Neal McCullough, Clyde Pathere and B. W. Rose are to be commended and if other citizens would have the weeds around their homes and in their vacant lots cut it would not only give needy men work but would beautify their property," the welfare worker said.

Reservations For Big Game Going Strong

Requests from Amarillo for the Amarillo-Pampa football game, October 17 are being referred to C. M. Rogers, high school supervisor at Amarillo.

Joe Smith, business manager of the local schools, sent Mr. Rogers 792 tickets for the grandstand at the east side of the field. He also is negotiating with Wilbur Hawk to rent 1,500 or more collapsible bleacher seats from the Tri-State fair.

With about 5,500 seats to be available and a crowd of 7,000 or more expected, reservations are going to be in keen demand. While local fans are confident of a victory, a tight game is expected and the exhibition is heralded as the best of the year in this section. Fans from all over the Panhandle will attend.

25 OFFICERS NUPTIAL PLAN ARE INVOLVED

LOTTERY, MAIL FRAUD
CHARGES BASED ON
"MARITAL STOCK"

GRAND JURY TO PROBE

INVESTIGATION WILL
BEGIN THIS WEEK
AT DALLAS

LUBBOCK, Sept. 26. (AP)—Money which grooms and brides-elect invested in a kind of marital stock market clinked ominously Saturday for seven Lubbock and 18 other alleged executives of the Lone Star Matrimonial association as a result of federal charges of lottery operation and mail fraud.

Weldon F. Hankins, Alton W. and Wayne G. Hutson, R. C. Parrish, Miss Mary Ovela Robinson, J. C. Merrill and Dunbar S. Turner, all of Lubbock, and G. L. Harris of McAdoo are free in bail of \$1,000 each. United States Commissioner Victor H. Lindsey said C. W. Hensley, formerly of Lubbock and reported to be in Oklahoma City, faces the same charges.

Allegedly connected with the Midwest Birth association, which also originated here, Ben M. Geer of Lubbock, was arrested here Saturday morning on lottery operation and mail fraud charges also filed in federal court at Dallas. Geer was released on bond of \$1,000.

A complaint has been filed against W. F. Hartzog, president of the birth insurance agency until its business was halted. Hartzog also is a Lubbock resident. A third man possibly will be arrested in the birth association case, officers stated.

Others charged last Tuesday in northern district United States court at Dallas in connection with operations of the Lone Star association were R. L. Bailey Jr., James T. Doren, F. E. Farley, Mark Gardner, Martin D. Hines, O. S. Jones, G. V. Landers, George H. Manning, E. D. McIver, B. P. Mitchell, Robert Powellson, B. Reeves, C. C. King, E. A. Wright, J. C. Wright, and L. D. Wright.

Complaints against the 25 persons charged conspiracy to commit an offense against the United States, that of operating a lottery and using the mails to defraud, as designated in separate counts. Maximum penalty is a \$10,000 fine or two years in prison or both.

Two United States postoffice inspectors stationed at Dallas developed the cases and filed complaints before Lee R. Smith, United States commissioner there. Venue was placed in Dallas county, optional choice of mailing places or place at which mail is received being permitted in such cases. United States Commissioner Lindsey said.

A United States district court grand jury at Dallas probably will consider the marriage insurance agency cases next week, the commissioner here said. The Hutsons, Parrish, Miss Robinson and Turner previously had been charged with lottery in the same investigation and were on bond to appear in federal court at Dallas Monday.

Originating in Lubbock, the Lone Star agency utilized theater, newspaper and direct mail advertising, and its monetary success was followed by mushroom appearance of similar organizations, eight of which operated here at one time. Advertisements once indicated more than 1,000 marriage insurance policies were in Lubbock alone.

When the lid was clamped on the Lone Star association in Texas last November, it was operating in 29 states, a postal inspector said.

Following their arrests on the original charges, Parrish and Wayne Hinton described themselves as "victims of circumstance." They said their "aim was to help those who needed financial aid at the time of entering matrimony." The agency "had paid every policy owner a profit on his investment," they asserted, until opposition by a business bureau in Oklahoma City resulted in unfavorable publicity, "which caused many people to drop their policies because they were afraid they would not get back the money they had paid."

DALLAS, Sept. 26. (AP)—Lee R. Smith, United States commissioner, today held Earl Ragland, W. A. Bell and C. G. Earman under \$1,000 bond each on charges of conspiring to conduct a lottery through the mails.

Charges were filed in connection with the operation of a marriage insurance company. Three other persons were placed under bond in this case earlier in the week and 30 others are sought on similar charges.

CIVIL SUITS ON COURT PROGRAM OF THIS WEEK

Five civil suits have been set for hearing in 31st district court tomorrow. Judge W. R. Ewing recessed court Friday afternoon until Monday and left for his home in Miami. He listened to non-jury cases last week, granting a number of divorces and hearing minor petitions.

The grand jury recessed yesterday to resume deliberations tomorrow morning. Twelve indictments have been returned.

Suits set for tomorrow are W. E. Gineplinger versus the Texas Employers Insurance company, M. P. Downs versus the Panhandle Building and Loan company, Dan McIntosh versus August A. Gordon, P. H. Lister versus George A. Abraham, J. T. Glover versus H. A. Gribland.

The next two weeks of court will be devoted to criminal cases and the fifth week to civil suits.

TAX PAYMENTS IN CITY SLOW

City tax collections are lacking by about 14 per cent for the year, J. H. Blythe estimated yesterday.

Payments are coming in slowly now despite the fact that the penalties are increased by one-half of 1 per cent each month. Penalties now have totaled 4 per cent, and will reach 6 per cent by the end of the year.

Judge Blythe believes that not more than 10 per cent of the taxes will be delinquent at the end of this year. Delinquent taxes will in many instances be paid with the next regular tax payments. Loan companies also will insist upon tax payments upon property upon which loans are placed.

BRIGGS WILL TAKE EXHIBIT TO MUSKOGEE

George Briggs, manager of the Pampa Board of City Development, will go to Muskogee, Okla., Wednesday to supervise the placing and showing of the mammoth exhibit of Panhandle of Texas, Inc.

Mr. Briggs was instructed by his board to make the trip after directors of the regional body had made the request. A manager from a Panhandle city will be in charge of the exhibit at various fairs, including the Dallas fair. This move will cut down expenses, although the various managers will have their expenses paid by Panhandle of Texas, Inc.

The Muskogee or Eastern Oklahoma fair will be from October 3 to 10.

C. O. Christopher of Laketon transacted business here yesterday.

THE WEATHER

EAST TEXAS: Partly cloudy Sunday and Monday. Moderate northeast and east winds on the coast.

WEST TEXAS: Partly cloudy and unsettled Sunday and Monday, probably showers in west portion.

ABOUT NEW YORK

(By William Gaines)

NEW YORK—A hostelry hard by hard hearted Broadway is putting its guests to work when the bills go too long overdue.

Since the debtors have nowhere else to go, they don't seem to be moaning much; they will have a roof over their heads until their services as clerks, mechanics or in other lines make up for their indebtedness.

The hotel manager happens to have some rooms to spare, and so he figures he is working an economy on labor. One of the inmates of this place is a Broadway columnist.

He tottered in at one of the 5 a. m.'s this week and who should the night clerk be but a guest who had a room near his.

This fellow had been ousted from another sort of clerical position by one of those employers doing his bit to make the depression a success.

Four hours later, when the columnist was right in the middle of his sleep, an electrician invaded his room and announced that he was sorry, but certain rewiring must be done immediately.

The columnist thought he recognized another guest.

He got up and took some fizzy headache stuff, and saw that, sure enough, it was another guest.

Told it to the Marines

This poor fellow confessed that formerly he was an engineer with the marines in Nicaragua. He wrote a couple of factual articles down there and sold them, right pronto, to one of the leading weeklies in this country.

So he told the marines to go, to the Hellespont, so far as he cared; he was coming to New York and become an author.

But he left his inspiration in Nicaragua, and couldn't even get all his rejection slips into his hotel room here. When the manager asked him what he could do, he admitted he was an electrician.

The really droll part of it all is that the columnist won't chide his hotel.

He has been spending too much dough on five blonds and six brunettes lately, and every time he sees the manager sizing him up, he begins to worry about how he would look in one of those bell-hop outfits.

Washington Daybook

(By Herbert Plummer)

WASHINGTON—That serious-minded, seldom-smiling senator from Michigan—James Couzens—is giving a new meaning to that old description of the United States senate as "club of millionaires."

There have been many men of wealth on the roster of the senate, but there have been few of the Couzens type. He makes a million dollars shape up about like a \$5 bill to most men.

His offer of a million dollars to the city of Detroit for the unemployed is an example, to say nothing of his benefactions in other fields.

It is estimated that his gifts to charitable interests and public institutions in the past 12 years have totaled almost \$17,000,000. His greatest hobby is the relief of crippled children.

There is a hospital in Michigan which has an irrevocable trust fund of \$10,000,000 placed there by the senator to "promote the death, welfare, happiness and development of the children of Michigan primarily, and elsewhere in the world."

Down to the Roots

But Senator Couzens has a definite theory about that, as he has about everything else. He is fearful of pauperizing unskilled people through charity.

He believes that dealing with children who come into the world handicapped by crippled limbs is the best method of escaping this danger.

So he endows hospitals for them. Scores suffering from infantile paralysis go at Couzens' expense to the Georgia Spa, where Gov. Franklin Roosevelt of New York believes much of his recovery from that disease was accomplished.

Frank in his utterances and actions, Couzens is regarded as the bulldog of the senate. When he gets set on an idea, he usually stays set.

He has carried on a feud with Andrew Mellon, secretary of the treasury, for a long time. His idea for years has been that Mellon is not so good in the post.

ISN'T NATURE GRAND

PAMPA TOPICS OF OUR CITY

Romance is a relentless pursuer of the young. The Pampa has received announcement of the marriage in Shanghai, China, of an old college crony, Sutton Christian. Two years ago he was city editor of the Lubbock AVA-LANCHE, then he and a companion started out on a world tour.

"Broke" in Shanghai They saw much of Europe and European notables, and finally landed in Shanghai "broke." Fortunately, Shanghai newspapers in the English tongue are largely operated by former students of the University of Missouri. The two young men obtained employment. One of them, Allen Carney, returned to the United States in July. Christian remained, however, to take as his bride an American girl working as society editor of the China PRESS.

The young woman, the intellectual daughter of Mr. and Mrs. John L. Semenza of Reno, Nev., is quite appropriately named Nevada. We look forward to their visiting here when they return to the States.

Pro and Con The person or organization which dabbles in political and moral issues can expect both internal and external lambasting. Part of the Legionary cry "We want beer," while the new commander denies that the Legion adopted a wet plank.

Political straw has a chance to fool the best forecasters next year. Census figures show that there are 72,948,624 persons in this country over 21 years old. The vote for president in 1928, the largest in the nation's history, was only 36,789,668. Women of voting age exceed the men in number in the cities. This huge potential vote, coupled with the women's influence, may provide unsuspected strength for some causes and defeats for others.

Hard on Refiners Sauce for the goose may be poison for the gander. H. F. Wilcox, lamenting the state of the refining business, said "it looks as if the entire industry is being run for the benefit of East Texas." Talk of an advance of crude oil prices when the refinery only received 23-4 to 31-4 cents per gallon for his gasoline is folly. Then little Cleo comes forward with a prediction for dollar oil.

Advertising of prices is a striking development during the depression. Pampa women find NEWS-POST advertising intensely interesting for this reason. Women are the principal buyers of the nation. The Woman's Home Companion recently asked 273 women if they liked to see a price in an advertisement, and 239 replied in the affirmative. The most frequently repeated reason was that "I like to know whether I can afford what is advertised. Prices create interest and afford a method of comparison without the embarrassment of asking for the price of something out of the range of the buyer's purse."

Right Spirit, Anyhow Lubbock fair boosters are optimistic. They have set October 2 as Pampa day. Will some reader volunteer as our delegate and report to the Rub city on the appointed day?

American farmers, troubled by their inability to get together on production and marketing, should consider the threat of Russia as a wheat growing nation. Russia, because of her communistic form of government, in which the ruling officials are all-powerful, is able to plan the crops of one-fifth of the earth's surface as ONE BIG FARM. A newly published book describes See COLUMN, Page 7

WHAT OTHER EDITORS THINK

SPEAKING OF CONSTITUTIONS Speaking of Constitutions, there seems to be considerable sentiment over Texas for a Constitution convention at an early date. A lot of folks don't believe the present one is filling the bill as it should.

Commenting on the subject, the Editorial Digest, of Houston, remarks:

"The truth of the matter is, our Texas Constitution is so amended and shattered it is doubtful if its authors would recognize it. With all due respect to the document under whose protective phrasing the greatest commonwealth in Christendom has been won from a wilderness, it is as archaic and unsuited to modern times as the Princess Eugenie hat. We can wear it if we have to, but how it cramps our style!"

"We are trying to run an up-to-the-minute governmental locomotive over a roadbed built for the tiny engines of the early nineteenth century. The result is as unsatisfactory as might be expected. We cannot hope to avoid waste, nor can we reasonably expect to lower taxes, so long as we persist in a practice so unpracticable."

Like 99 and 44-100 per cent of the people of Texas, The Plainsman hasn't yet gotten around to reading the Constitution, although he agrees with George Dupree that every Texan should know and revere his state and national Constitutions.

But if the Texas Constitution, as the Editorial Digest declares, is "as impracticable as a Princess Eugenie hat" then something should be done about it, although we privately doubt that it could be quite as impracticable as all that!—Lubbock JOURNAL.

PEDDLER TAX NEEDED Both houses of the Legislature have seen fit to repeal the State tax on peddlers. Asserted unconstitutionality of the tax was made the basis of the movement for repeal. In spite of the possible conflict with organic law The Record believes that some way should be found to tax this type of vendor.

Some means should be found of placing him on an equal footing with the established merchant of a city who must pay taxes not only on stocks, but on building and the plant required to serve the public as well. The merchant is a real asset to the community helping to support its schools, maintain its government, etc.

Too frequently the peddler is an itinerant, here today and gone tomorrow. Because he has no taxes to pay, has no overhead he frequently can offer attractive prices. Is it fair to permit him to come into a community with his low prices and take out business that legitimately belongs to the local business man?

Of course competition protects the public, but all competition should be as nearly equitable as possible. We impose taxes on the established merchant because we feel that it is his duty to help support the community from which he gets his living. Why not demand that the peddler also help support each community from which he takes his living?

It may be that the peddler tax law was manifestly unfair. The Record frankly was not acquainted with the exact provisions. However, it can be said without qualification that no tax at all is as manifestly unfair to the local business man.—Vernon RECORD.

TERRORISM IN ELECTIONS Americans seem to take especial glee in news dispatches telling how the backward Latin-American nations are unable to conduct their elections without bloodshed.

There is, for example, the following story from the wires:

"Widespread disorders marked today's primary election. Rival factions clashed repeatedly. Shootings, kidnappings, terrorism, arrests and reprisals marked the most violent election in recent years."

It might help if we could keep that in mind the next time we feel like growing scornful over the violence that attends elections in Latin-America.—Plainview NEWS.

Petroleum in Machine Age

ANIMAL FATS ARE REPLACED

LEATHER WORKER WAS FIRST TO PERFECT LUBRICANT

Petroleum lubricants and greases have been indispensable to the mechanical development of the past three-quarters of a century. In the memory of men still living, the only available lubricants were those from animal fats and from various vegetable substances, and machinery was crude, cumbersome, and slow. Foundation of Modern Lubrication It is related that the foundation of modern lubrication was laid by the owner of a small petroleum refinery some little distance from the center of the Pennsylvania oil excitement in the 1860's. Hiram B. Everest endeavored to make from the residue of the petroleum refined in his little plant at Roverester, N. Y., an oil which could be substituted for animal, vegetable, and fish oils used in the currying of leather. He was successful, but found that someone had anticipated his discovery and had already protected the invention by patent.

Undaunted, Everest continued to treat the residue in an attempt to develop a suitable substitute for the tallow and animal fats used for cylinder lubrication. His experiments met with success, and he was soon able to offer to the public mineral oil as a steam cylinder lubricant.

Opened Way for Machine In the beginning, petroleum lubrication was offered merely to meet the needs of machinery then in existence. Inventors and designers of machinery soon discovered that it was not merely more convenient and more economical than lubrication with chunks of animal fat, but that it solved previously unsolvable problems of construction.

They were not slow to take advantage of the new lubricant. Thus petroleum lubrication opened the way for a new era of mechanical development. Machines capable of moving at higher speeds and of turning out greatly increased amounts of work were designed. Devices with smaller bearings and more economical means for utilizing power—taking advantage of the new ability to put lubricants where needed in small part of any machinery in operation.

The machine age had opened. Different kinds of oil remained necessary for the different kinds of different kinds of oil are necessary; and, to produce them, specialists in lubrication not only study the crude oils from which they are to be made, but must develop treatments and processes to bring out the desired qualities and characteristics.

Oils made from petroleum lubricate the automobile, the airplane, the Diesel engine, the steam turbine, the high speed spindle, and, in fact, practically every moving part of any machine in operation today.

Lubrication Gets Into the Home Most of us realize that little how dependable we are upon lubrication. Our clothes are woven, and sewed by machine only because lubricants have made possible development of high speed machinery. For running water in our homes only because means have been found to lubricate pumping machinery. Electricity is ours at the turn of the switch because lubricants are available for the high speed machinery necessary for its production, and because other petroleum products have made possible transmission of current over long distances.

The sealed refrigerator units give us an example of highly developed petroleum lubrication. Without lubrication of a specialized nature, our automobiles would not be the smooth-running vehicles they are today. Had not suitable lubricants been devised for fast moving parts, railroads could not operate at anything comparable with their present high speeds. Without lubrication, safety devices for modern railroad travel would be inoperative.

Without modern petroleum lubrication, elevators could not run, electric signs could not flash their advertising messages, printing presses could not operate, linotype machines could not produce type slugs. Practically the only kind of work that could be accomplished by industry would be that performed by manual operation of the most simple devices.

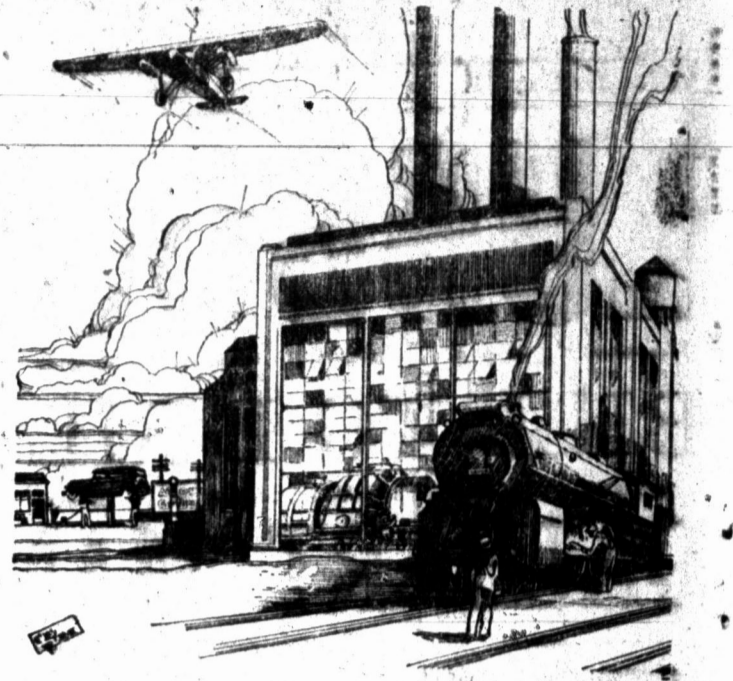

French Premier Is On Way To Germany

BERLIN, Germany, 26. (AP)—The hopes and anxieties of millions of peace-loving Germans centered tonight on the blue train that is bringing Foreign Minister Briand, Premier Laval of France on the first official journey of his kind in more than half a century. Berlin has not seen such a visit by members of the French cabinet since the days of Bismarck.

PARIS, France, Sept. 26. (AP)—Premier Pierre Laval and Foreign Minister Aristide Briand, the "Apostle of Peace," left for Berlin tonight, to the accompaniment of noisy cheers by throngs at the Gare du Nord, on their mission of improving relations with the German government.

In Paris France desires so far as Germany are concerned, are described thus: That she "lay down her arms" both morally and physically. France wants a cessation of national outbreaks, which are directed to be mainly directed either against France or her ally Poland.

The conducting of smoke farms which furnish venom for making serum for treating snake bites has become a profitable business.

Almost all mechanical devices are today lubricated by petroleum lubricants.

GUILTY LIPS

Author of "MAD MARRIAGE" BY LAURA LOU BROOKMAN

BEGIN HERE TODAY Pretty Norma Kent, 20-year-old secretary, married Mark Travers, son of F. M. Travers, millionaire real estate dealer, in spite of the father's opposition and threats to disinherit Mark.

The story opens in Marlboro, middlewestern metropolis. Mark sells his expensive roadster to get money for the honeymoon and he and Norma go to fashionable Blue Springs. There Norma meets Hollis Stone, and it is evident from the girl's manner that she has known Stone before and for some reason seems to fear him.

Their money is soon gone, partly due to Mark's gambling. With \$200 borrowed from Stone the couple return to Marlboro. Mark sets out on a round of pleasure seeking instead of hunting a job. He introduces Norma to Natalie Price, a debutante who has long hoped to marry Mark. When their funds divide again Mark and Norma move to cheap apartment. Mark begins to hunt work seriously. He gets one job and loses it. Then he becomes a floorwalker in Blossomdale's department store.

The anniversary of their marriage two months before he brings Norma roses. She is outraged at the extravagance and they quarrel. Norma threatens to leave him but Mark's mother arrives. Mrs. Travers urges Mark to seek a reconciliation with his father but he refuses. NOW GO ON WITH THE STORY

CHAPTER XXVI Norma spread the newspaper out on the living room table. She bent over it, frowning slightly as she studied a column. The words were in fine print and very black. Norma pured her lips as she read:

"Trust the bird. Rub a little butter over it and dredge with flour, salt and pepper. Put in roasting pan and place in hot oven. Bake at frequent intervals."

The three little wrinkles in the girl's forehead deepened. Somehow the instructions sounded complicated. She went on reading until she had finished the column.

It was last night's edition of the Press that lay before her, opened to the woman's page. In two columns on the right-hand side Sister Sarah, the home economics editor, gave menus and recipes for the Thanksgiving dinner. There were three menus—one elaborate and formal with roast turkey the main dish, one in which duck was the piece de resistance, and a simpler meal in which the fowl was chicken.

Sister Sarah wrote of traditional sensible delicacies. Of course there must be dressing and gravy with the bird. Celery and cranberry sauce and all the harvest vegetables were synonymous with Thanksgiving. For dessert either mince pie or pumpkin and there'd be no harm in having doughnuts and cider and squares of cheese handy for an evening lull. Sister Sarah wrote about old-fashioned festivities at Grandmother's so that you could almost see an old white hairdressing woman sitting at a table waiting for second helpings.

Thanksgiving was three days away. For a week Norma had been thinking about the holiday. Mark would not have to go, to the store and the rest would be a fine thing for him. So much of the time lately Mark had looked tired.

Cooking the Thanksgiving dinner was a challenge to Norma's housewife ability. She was eager to show her skill and at the same time a little anxious. She had read every word in Sister Sarah's column for several days.

"Turkey, of course, was out of the question. Imagine cooking a turkey for two! Chicken seemed commonplace. Norma made her decision therefore in favor of duck. She was concentrating this morning on the printed instructions for roasting a duck.

"Trust the bird. Put in roasting pan and place in hot oven. Bake at frequent intervals. . . . It might be simple to someone who knew exactly what it all meant. What was 'roasting' and how frequent were 'frequent intervals'?"

Suddenly an inspiration popped into the girl's head. She went to the telephone: "I'd like to speak to Miss Saunders," she intoned, and how frequently answered. Another moment and she heard Chris' voice.

"Hello, Chris. How are you. Oh—fine, of course! Listen, is it all right to interrupt your business hours to ask advice about cooking? It is? Well—that's lucky because there's something I just have to know. I want to have roast duck for dinner Thursday and can you tell me what I'm supposed to do with it after I get it home from the meat market?"

Most of the answer that came over the wire was lost in laughter. "But, Chris, I mean I've been reading a lot of recipes in the paper and I can't make head or tail of them. It says to baste the duck but I don't see why it needs to be sewed—"

Explanations were in order. Chris, never-failing source of assistance, explained the term "basting" in its culinary use. She told Norma to get paper and pencil and when she had them and was back at the telephone gave careful instructions for preparation of the fowl.

"It really isn't difficult, Norma," the older girl said. "Just do it the way I've told you and I'm sure there won't be any trouble. Of course you want to buy your duck at a meat store where you know they'll give you a good one."

LOCAL CHURCH FOLK TO ATTEND TWO MEETINGS THIS WEEK

In Honor Functions Feature Social Gatherings In North Plains Parent-Teacher Groups Assemble

PSYCHOLOGY WILL BE STUDIED

JUNIOR CLUB'S STUDY WILL BE VERY USEFUL

SENIOR GROUP CHOSE SAME COURSE LAST YEAR

An ambitious study, that of the psychology of personality, is to be undertaken by the Junior Twentieth Century club when it holds its first regular meeting of the season Oct. 13. The same series of programs, when given by the Senior Twentieth Century club last year, proved to be of no less value than a college course.

At the October meeting, essential traits of personality will be considered under the direction of Mrs. Charles Todd. Respects in which individuals differ will be brought out, and it will be shown that there are no fundamental differences between normal and abnormal human beings, that traits of the insane are found in normal people, the difference being relative.

Habit Important

Valentine's point that habit is the key to personality will be discussed on the Nov. 10 program under the direction of Mrs. Robert W. Chaffin. Habit, instinct, and emotions will be considered as motives. Social mores, such as social pressure and fashion, also will be considered.

Pseudo-scientific methods of studying personality will be studied Nov. 24 under the direction of Mrs. Raymond Alred, and psychological tests of personality will be considered Dec. 9 under the leadership of Mrs. Julian Barrett.

To Judge From Letters

Of special interest will be the study of Dec. 16—estimating character by letters of application, the personal interview, photographs, and the study of personal appearance. Mrs. Roy Bourland will be in charge.

That one who is beautiful is not necessarily "dumb" will be shown on Jan. 12 when Miss Margaret Buckler will direct a program on personal beauty as an element in personality.

Strange as It Seems

The phenomena which form the basis of insanity also form the basis of normal emotional temperament. This is one of the points that will be explained, under the direction of Mrs. Fred Cary.

Open house, with the president, Mrs. Dick Walker, presiding, will be held on Feb. 9.

The next meeting, Feb. 23, will be directed by Mrs. R. S. Birken and will include a study of the will-temperament.

To Study Pleasure

Two meetings, March 9 and March 23, will be devoted to a study of pleasure and behavior under the direction of Mrs. A. B. Goldston and Mrs. Lee M. Hattah.

DRAMA SERMON WILL BE GIVEN

Under the sponsorship of the Anti-Saloon League of Texas, a drama sermon, "What Shall the Harvest Be?" will be presented at three local churches today.

At the 10 a. m. Sunday school hour it will be given at the Presbyterian church, at the 11 o'clock hour at the Methodist church, and at the 8 o'clock evening hour at the First Baptist church.

The drama, which is of about 45 minutes in duration, has four characters. Dr. Atteus Webb of Dallas, general superintendent of the Anti-Saloon League, will take the role of the father, and Dr. Hayward H. Johnson of Dallas, superintendent of education of the Anti-Saloon League, will have the part of the district attorney.

The other two parts, that of the son and the secretary, will be played by local persons. Miss Dorothy Dodd and Edna W. Whitson, who will take the parts at the Methodist church, and Miss Dorothy Mullen will play the part of the secretary at the Presbyterian church. The other local players have not been announced.

GLEE CLUB FORMED AT WOODROW WILSON

Organization of a glee club for fifth grade pupils of Woodrow Wilson school will take place Monday, and some time during the week a harmonica club will be formed. An art class and a sewing club will be formed in the near future.

Mr. and Mrs. Neal Powers have had as their guest for the last month, Mrs. Powers' mother, Mrs. Smith Powers, who has now returned to Duncan, Okla.

FEMININE FANCIES

By Hollye Sellers Hinkle

"NO WORK NO EAT" says a headline in the McLean NEWS. The motto has been adopted throughout the Panhandle. While there is cotton picking to be done, there are no able families receiving donations from welfare agencies, much to the disappointment of some who have been living in "hebe luxury."

While there are many in actual need and willing to work, there are others who are chronic beggars who had rather accept aid from welfare agencies than to work. There is no better time to separate these classes than when work is available.

Also a family which is able to drive a car and keep a dog has not reached the stage where it must have welfare work.

The fact that welfare work is being done through the schools has several advantages. It insures the fact that the children will receive the aid, and that food will not be eaten by parents before it reaches the smaller mouths. It insures that the help is going to people who are living here, never to transients, it is surer of reaching those in most need, since those children who are too young to work are fed—not those who are grown and able-bodied but may or may not be able to find work.

The desired purpose already is being accomplished in part through the cooperation of the Welfare Board, the Parent-Teacher associations, and school principals, in providing clothing. The clothing has been donated by various organizations, particularly the churches.

It is planned to further the welfare work among children through the proposed cafeterias. It is planned that the cafeterias in each school shall be self-sustaining, and that a nominal price shall be made for meals, yet those children who are hungry will not be denied food.

The day when it was popular to write names and draw hearts on the school building, to cut desks, and to litter the campus is gone—at least for pupils of Horace Mann school.

Believe it or not, but when a pupil is about to break a school rule, he is politely asked by another pupil not to do it. Why? The answer is student government. The plan was highly successful when practiced last year, said Principal Josephine Thomas, and it is receiving a good beginning this year.

The government consists of two captains, one boy and one girl, with two lieutenants each, and seven young traffic officers, the latter being appointed by Officer Joe Persky. Some of the older girls also assist teachers in directing group playing among the little folks during the noon hour.

The boys and girls are in general care of the building, the lawn, conduct in the rest rooms, and traffic.

Pupils are not encouraged to be "tattle tales." They are urged to cope with the situation themselves, but if they cannot secure proper results, they call for the help of a teacher or the principal. The young officials are changed every two weeks in order to allow every pupil to serve and in order to secure proper cooperation from the entire school.

Poor student government is worse than no student government, but where it can be made successful it is best training the boys and girls can have. It is a worthy experiment for any school group. Pupils in many cases will be glad to have a sense of responsibility that had never before been apparent.

CHAIN PARTIES WILL CONTINUE

ALL INTERESTED ARE ASKED TO GIVE SMALL EVENTS

The library board has planned a continuation of the chain bridge party, which began, according to Mrs. B. E. Finley, president. The board has asked that those who have been guests at these parties, or any others who desire to do so, entertain at least four friends and ask each guest to contribute 25 cents for the benefit of the library. Each guest then will entertain four other persons.

Those who have not yet turned in their proceeds from recent parties are asked to do so. Forty-seven dollars already has been given to the board.

Mrs. B. G. Stone and twin babies left Pampa hospital yesterday afternoon.

INFORMAL TEA IN McLEAN TO BE SATURDAY

TWO WEDDINGS ARE OF INTEREST FOR MANY

Birthdays and weddings occasioned many in-honor parties in the North Plains during the last week, and social life in this section also has been brightened through club gatherings, Parent-Teacher association meetings, and a family reunion.

PANHANDLE, Sept. 26. (Special)—Plans of the Rotary and Lions program committees to stage an enjoyable get-acquainted social terminated in a delightful occasion recently.

Ralph Randel was the clever toastmaster of the evening. The occasion was featured by introduction of the school faculty. Fun took many forms.

Twenty-two members of the Little Theater in Panhandle met Monday evening in the home of their director, Mrs. Lucille Bradshaw. After discussions and casting of plays, refreshments were served.

The Carson County P-T-A clinic will be held soon when Dr. L. C. Crutick, who is in Missouri, returns to assist. The dates will be Oct. 6, 7 and 8.

Women of the American Legion auxiliary will be hostesses to the public Oct. 3 when they entertain at an informal tea from 4 to 6 o'clock at the legion hall.

McLEAN, Sept. 26. (Special)—A patriotic program was given at the last meeting of the McLean P-T-A. Mothers of the elementary school and Freshman class, predominated. Readings and talks concerned the constitution.

McLean high school students have started a school department in the McLean NEWS, called The Optimist.

Chapel programs have been very interesting, with Rev. Erwin Rev. Coff, Miss Ruby Cook, and Mr. Goswell making talks on the constitution.

SHAMROCK, Sept. 26. (Special)—Following the announcement of the upcoming and a large round of pre-nuptial entertainments, Miss Ruby Holmes and Ralph Balthrop were married Monday morning at the home of the bride's parents, Mr. and Mrs. A. N. Holmes.

The ceremony was by the Rev. R. N. Hucksabe, pastor of the First Methodist church. The bride is a popular member of the young set, a graduate of Shamrock high and former student of William Woods college at Fulton, Mo., and Texas Tech. Mr. Balthrop, formerly of Memphis, is department manager in a large store at Los Angeles, where they have gone to make their home.

All but one of a family of 15 children were present at the family reunion held near here at the home of George W. Burrell. A. C. Burrell, the father, was seated at the dinner table with six daughters and eight sons present, as well as 26 grand children.

CANADIAN, Sept. 26. (Special)—W. D. (Dad) Roberts celebrated his 77th birthday recently after sending out his invitation to 25 friends. Jesse Grimes was castmaster of the occasion. Mr. Roberts has operated a news stand in the Moody hotel for many years.

Miss Aileen Hampker entertained the Merry Matrons club at the first meeting of the year. Chapter 1 of the P. E. O. Sisterhood was the guest of honor at the home of the president, Mrs. R. H. Stone.

CLARENDON, Sept. 26. (Special)—A recent surprise wedding was that of Miss Lucile Allen of this city to H. A. Hill of Dallas. Miss Allen was formerly a Baylor university student, while Mr. Hill finished at Texas Tech and later became a civil engineer. He is employed by the Texas company at Dallas.

A number of friends of Mr. and Mrs. W. J. Lewis gave a picnic at the Country club recently before the couple returned to Dallas after spending the summer here.

Last Thursday was the birthday of Mrs. J. T. Warren. Women of the Baptist church, discovered the fact and gave her a shower.

Mr. and Mrs. Ray Hefner, recent newlyweds of the Naylor community, were given a surprise dinner recently by a group of friends.

The MacDowell club enjoyed a recent social meeting in which a musical program for the year was outlined.

CAMPUS EXERCISES HELD BY SCHOOL

Woodrow Wilson school has begun the practice of having campus exercises each morning at 9 o'clock. These exercises include flag salute, song, Lord's Prayer, and physical education.

Those from Pampa who attended the funeral services of Mr. Elay in Groen Friday were Mr. and Mrs. John McCamy, Mrs. J. H. Ayres, Mrs. A. Cole, and Mrs. L. H. Greene.

'First Aid' Brings Back Sparkle

Eyes are to be seen as well as to see.

Why not, then, asks Dorothy Tree, film player, make them worth looking at?

Here's the system she uses: To begin with, she bathes her eyes daily with a warm solution of boracic acid, applied with an eye cup (left). This relieves eye strain or irritation due to dust.

When eyes have lost some of their color and sparkle, a quick massage of the upper lids with ice is an excellent treatment (top center).

The ice—a smooth piece so that it will not cause bruises—is quickly brushed over the lids until the eyes feel fresh and alive.

Anyway, it's a quick pick-up for sleepy eyes.

To remove traces of fatigue from around the eyes, cotton pads, moistened with an eye tonic solution, are placed over the closed eyes for about ten minutes (bottom center).

The best precaution against lines beneath the eyes is a daily tap massage (right). Using the forefinger, start tapping lightly at the inner corners, traveling to the outer corners.

AUTUMN MOTIF IS FEATURED

MRS. PHILIP R. POND IS HOSTESS FOR CONTRACT CLUB

Autumn scenes in black and white silhouette were used at the party given by Mrs. Philip R. Pond in her home Friday afternoon as a courtesy to the Contract Bridge club.

At the close of the bridge games, in which Mrs. Clifford Braly scored high, refreshment plates were passed.

Mrs. L. O. Johnson was a special guest for the occasion. Members attending were Mesdames F. M. Gwin, J. H. Kelley, Siler Faulkner, Frank Keim, Clifford Braly, A. B. Zahn, and J. W. Lybrand.

GIRLS CLUB ENTERTAINED FRIDAY NIGHT

Merry fun club members were entertained by Valerie Austin and Maxine Turner, Friday evening in the home of Mrs. Joe Smith.

Games, contests, and piano music were enjoyed, and ice cream and cake were served. Later, marshmallows were roasted on the lawn.

Those attending were Myrtle Faye Gilbert, Jeanette Ricketts, Joan Shore, Sybil Houston, Florence Sue Dodson, Anna Mae Fleisher, Eloise Mitchell, Pauline Noah, Phyllis Smith, Burton Tolbert, Josephine Lane, and the hostesses.

PAMPA FOLKS SEE THE FAIR

K. F. Gilchrist and daughter, Mrs. Catherine Wilkerson, and her daughters, Mary Jane and Colleen, attended the fair at Amarillo Friday night.

Mr. and Mrs. Chester Norris attended the Tri-State fair Friday.

Supt. and Mrs. R. B. Fisher were visitors at the fair in Amarillo Friday evening.

Supt. and Mrs. John B. Hessey were fair visitors Friday.

Mr. and Mrs. F. C. Maddux of Tulsa are visiting Mr. and Mrs. N. F. Maddux in Pampa. Both the hosts and the visitors attended the Tri-State fair at Amarillo Saturday.

Mr. and Mrs. Guy Farrington and daughter, Marie, attended the Tri-State fair at Amarillo Friday.

Mr. and Mrs. B. E. Finley and daughter, Frances, accompanied by Marjorie Euecker, attended the fair Thursday.

WOODROW WILSON HAS DAILY FIRE DRILLS

Woodrow Wilson has had three fire drills this term, and it is planned to continue the drills daily during good weather. Mrs. Annie Daniels, principal, stated that 300 children now could leave the building in perfect order within a period of half a minute.

CLUB, CHURCH, AND SCHOOL GROUPS TO HOLD GATHERINGS

The Parent-Teacher association of each ward school is to hold a regular meeting next Thursday, following the suggestion of the city council to meet the first Thursday in each month. Various other school, club, and church groups have scheduled meetings for the week.

Following is the calendar for the week:

MONDAY
First Methodist Woman's Missionary society will have luncheon at 1:30 o'clock at the church. The meeting will be of a social and business nature.

Central Baptist Woman's Missionary society will hold circle meetings.

TUESDAY
B'nai B'rith Sisterhood will have luncheon at the Schneider hotel.

London Bridge club will be entertained with a breakfast in the home of Mrs. John Studer.

The board of directors of the Business and Professional Women's club will meet at 7 o'clock in the commissioners' room of the city hall. A regular club meeting will follow at 7:30.

A steak fry is to be held at LeFors for the Baker school teachers. The teachers and several special guests will meet at the school at 6 o'clock and go to LeFors in a group.

WEDNESDAY
Azor class of the First Baptist church will have a school-day party at 2:30 o'clock in the church classroom.

THURSDAY
Dutch Bridge club will be entertained by Mrs. John Haggard.

Central Baptist Woman's Missionary society will meet at 2:30 o'clock for a Royal Service program.

American Legion auxiliary will have installation of officers at 8 o'clock at the legion hall.

Order of the Eastern Star will meet at 8 o'clock at the Masonic hall.

Margaret Buckler Is Expected Home During Week-End

Miss Margaret Buckler is expected home this week-end from a four-month European trip. She made the trip with Mr. and Mrs. M. K. Brown, but stopped at Springfield, Mass., to visit a friend who was her roommate when she attended school in Wellesley, Mass.

Two lessons, March 22 and April 12, will be devoted to race problems. The negro will be considered under the direction of Mrs. L. B. Hugshey, and the Indian and the Mexican will be studied with Mrs. Ivy E. Duncan as leader.

Mrs. J. Porter Malone will direct a program to be given in connection with the book shower April 26, and Mrs. W. A. Bratton will lead the district federation program on May 10. Mrs. Tom E. Rose will lead the business meeting on May 24, this session to close the club activities of the year.

A Bible lesson and Christmas party have been arranged for Dec. 23 with Mrs. Raymond W. Hazzah as leader.

On Jan. 12 Mrs. A. R. Sawyer will lead practical discussions on health and disease.

Race problems will be studied Jan. 26 under the direction of Mrs. F. M. Culbertson.

"PINK PARTY" IS GIVEN CLUB

MRS. T. R. MARTIN IS HOSTESS TO CLUB MAYFAIR

The intermediate department of the First Baptist B. Y. P. U. will have a party at 7:30 o'clock at the church.

Silver Spade Bridge club will be entertained by Mrs. L. L. Dyer.

Woodrow Wilson Parent-Teacher association will hold an evening meeting at the school.

Baker Parent-Teacher association will meet at 3 o'clock for a program on Safety.

Horace Mann Parent-Teacher association will hold its regular October meeting at 3 o'clock at the school.

Sam Houston Parent-Teacher association will meet at 3:45 o'clock at the school.

FRIDAY
Pampa Art league will meet in the home of Mrs. I. Baum, 623 North Somerville, with Mrs. Tom Clayton as co-hostess.

Order of the Eastern Star will meet at 8 o'clock at the Masonic hall.

Margaret Buckler Is Expected Home During Week-End

Miss Margaret Buckler is expected home this week-end from a four-month European trip. She made the trip with Mr. and Mrs. M. K. Brown, but stopped at Springfield, Mass., to visit a friend who was her roommate when she attended school in Wellesley, Mass.

Two lessons, March 22 and April 12, will be devoted to race problems. The negro will be considered under the direction of Mrs. L. B. Hugshey, and the Indian and the Mexican will be studied with Mrs. Ivy E. Duncan as leader.

Mrs. J. Porter Malone will direct a program to be given in connection with the book shower April 26, and Mrs. W. A. Bratton will lead the district federation program on May 10. Mrs. Tom E. Rose will lead the business meeting on May 24, this session to close the club activities of the year.

A program for the occasion is to be arranged this week.

Baker Teachers To Have Outing

Meeting at the school house Tuesday evening at 6 o'clock, Baker school teachers will attend a steak fry at LeFors.

Hostesses on this occasion will be Principal J. A. Meek, Miss Wilhelmina May, Miss Leola Brown, Mrs. John G. Grant and Miss Julia Shackelford.

On Feb. 23 a Washington Bicentennial program will be given with Mrs. Lynn Boyd as leader, and on March 8 a Texas day program will be given under the direction of Mrs. W. E. Campbell.

Two lessons, March 22 and April 12, will be devoted to race problems. The negro will be considered under the direction of Mrs. L. B. Hugshey, and the Indian and the Mexican will be studied with Mrs. Ivy E. Duncan as leader.

Mrs. J. Porter Malone will direct a program to be given in connection with the book shower April 26, and Mrs. W. A. Bratton will lead the district federation program on May 10. Mrs. Tom E. Rose will lead the business meeting on May 24, this session to close the club activities of the year.

CANADIAN TO BE PLACE OF ONE SESSION

WHITE DEER IS TO BE HOST TO OTHER BAPTISTS

Members of the First Baptist church, included in the Palo Duro association, and the Central Baptist church, included in the Canadian Baptist association, will be among those attending two gatherings this week.

On Tuesday a workers' conference of the Palo Duro association will be held in White Deer, and on Monday, Tuesday, and Wednesday the Canadian association will hold its annual meeting in Canadian.

Mrs. W. B. Barton, Mrs. G. C. Stark, and Mrs. O. L. Beaty were elected by the Central Baptist Woman's Missionary society as delegates to the Canadian gathering. Others who plan to attend are the Rev. W. D. Cooley, Mr. and Mrs. D. M. Scriver, Mr. and Mrs. W. C. Brown, Mrs. S. L. Anderson, and Mrs. Ray R. Hungate.

Are on Program

Mrs. Anderson is to lead the devotional for the session of the Woman's Missionary union of the association, which is to be held Wednesday afternoon, and Mrs. Hungate is to speak on Christian Education.

Delegates to the Canadian meeting will be entertained in the homes of members.

Going to White Deer

The Rev. C. E. Lancaster, pastor, Mrs. F. E. Hoffman, president of the Woman's Missionary society, and Miss Loma Groom, secretary of the First Baptist church, will be among a number of members to attend the workers' conference in White Deer.

The program for the day has been announced as follows:

10 a. m.—Song service led by U. S. Soff.

10:20—Devotional message by J. C. Sismore of Amarillo.

10:50—Missions, Our Missions, the Rev. C. E. Lancaster, of Pampa. Special music, W. L. Day of Amarillo.

11—Christ's Call to the Individual, the Rev. Douglas Carver of White Deer.

11:30—Sermon by Dr. G. L. Yates of Amarillo.

12:30—Lunch.

1:45—Devotional by R. A. Pryor of Vega.

2—W. M. U. program.

3 to 3:30—Inspirational address, E. T. Miller of Memphis.

Plans will be made for the enlistment campaign of Nov. 29 to Dec. 5.

SCHOOL-DAY PARTY TO BE GALA EVENT

The wearing of school clothes will add to the fun of the school-day party to be given Wednesday afternoon at 2:30 o'clock by the Azor class of the First Baptist church. Officers also are asked to give their monthly reports at that time.

Mrs. Bonnie Rose and Mrs. Harry Grove composed the entertaining committee. Refreshments will be served at the close of the afternoon.

Members and all persons eligible for membership are invited to attend.

T. E. L. CLASS COMPLIMENTED

Mrs. Frank Davis and Mrs. H. M. Stokes were co-hostesses to the T. E. L. Sunday school class, First Baptist church, Friday afternoon in the church parlors.

Following the business session, presided over by Mrs. Davis, contests were enjoyed and refreshments were served.

Those attending were Mesdames W. J. Brown, Brooks, L. Gilbert, Emma Warren, Frank Davis, H. M. Stokes, and Cyril Hamilton.

A program for the occasion is to be arranged this week.

Mrs. J. Porter Malone will direct a program to be given in connection with the book shower April 26, and Mrs. W. A. Bratton will lead the district federation program on May 10. Mrs. Tom E. Rose will lead the business meeting on May 24, this session to close the club activities of the year.

MEMPHIS CYCLONE CRUSHED 73 TO 0 BY 28 HARVESTERS

NEW MACHINE OF MITCHELL WINS EASILY

LINE IS IMPREGNABLE; BACKFIELD SCORES AT WILL

The Harvester football team had little difficulty running up 73 to 0 over the Memphis Cyclone at Harvester park yesterday afternoon. The green and gold boys scored almost at will throughout the game, making long gains through the line and adding yardage in the air.

Joe Kahl and Best Martindale led the scoring with three touchdowns each. Red Best added two more while Paul Hill, Captain Ray Chastain and Claude Sullins scored one each. The Harvester line held like a stone wall and the Cyclones made only two first downs, both by the aerial route. The Harvesters helped themselves to 30 first downs during the encounter.

Stewart is Star
Stewart, Cyclone halfback, was head and shoulders above any other man on the Memphis team. He punted like a college man, ran the ball and tackled, to say nothing of passing for both first downs. Leslie, 130-pound running mate of Stewart's, was hard to stop and his defensive play was exceptionally good. Melton at end, and Sanders, 200-pound tackle, stood out in the line.

The entire Harvester squad, 28 of them, showed up well. Martindale was particularly effective against his old team mates. Kahl also tore off long runs and was dangerous whenever he past the line of scrimmage. Paul Hill showed up better than in any previous game while Best and Chastain were always threatening the Cyclone line. Sullins and Sam Turner led the second string boys in an attack which netted a touchdown. Sullins running 47 yards through a broken field for a touchdown.

Every man in the line was a stone wall. Ed Burch played his best game of the season and seems to have snapped out of a coma which has threatened his play all season. Freeman and Schmidt were particularly effective in the secondary play. Moore at end was the usual sensation of the game.

Best scored the first touchdown of the game three minutes after play started. Martindale carried the ball 46 yards through a broken field for a touchdown and Kahl added 12 yards and Best 12 more for the touchdown. Kahl added the extra point.

Five minutes later Martindale made the longest run of the day when he tore through a broken field 62 yards for a touchdown and Kahl added the extra point. Best, Kahl and Martindale made long runs to carry the ball to the one-yard line where Chastain went over. Kahl added the point but the Harvesters were offside.

Memphis made their first down of the game near the ends of the first quarter when Stewart flipped at 20-yard pass to Davis. The ball was on Pampa's 37-yard line at the quarter.

Chastain intercepted a pass soon after the start of the second quarter to start the Harvesters on another march to the Cyclone goal line. Hill replaced Best at fullback and the big fellow crashed 9 yards through for a touchdown after carrying the ball 28 yards to the 9-yard line.

The Cyclones held the Harvesters for a while and were assisted by two fumbles which gave them the ball in their own territory. A nice placed boot by Martindale helped the Harvesters score another touchdown. Hill, Martindale and Chastain carried the ball to the Cyclone 3-yard line from which point all carried it over standing up. Chastain added the point.

Long Runs
The last touchdown of the half came with two minutes to play and the Harvesters second string making up most of the team. Sullins started the parade deep in Harvesters territory when he reeled off 23 yards. Martindale and Chastain aided the cause with long runs. Martindale carrying the ball 12 yards for the touchdown.

Joe Kahl opened the second half by running 43 yards for a touchdown on the first play. Moore started the parade for the next touchdown with 13 yards. Hill added 10 yards more and Kahl went 16 yards through a broken field for a touchdown. Chastain added the point.

Chastain intercepted another pass near the close of the quarter which started the march for more points. Martindale running 12 yards for the score and Chastain added 12 yards.

The Cyclones opened the last quarter by taking to the air but were not successful. The line was holding better than at any previous time during the game and held the Harvesters in their own territory. However the green and gold got the ball and Martindale started off with a 33-yard run. Best added 9 more and Kahl 12 yards. Best then went over on a 12-yard run and Chastain added the point.

Mary Substitutes
Chastain intercepted his third pass of the game before leaving the game in the last quarter. Ragsdale and Sullins and Turner went into the game and kept up the good work. Stargell, Cyclone halfback, had the crown on his feet when he intercepted a pass and started for a touchdown only to be brought down by Ledrick.

Sullins intercepted a pass shortly after Memphis had made a second first down on a pass Stewart to Best good for 22 yards. Ragsdale made 20 yards, Turner 15 yards.

YANKS CLINCH SECOND PLACE IN AMERICAN

WASHINGTON BEAT IN GRUELING DOUBLE BILL

NEW YORK, Sept. 26. (AP)—The Yankees clinched their spectacular drive of the closing weeks by defeating Washington in both ends of a double-header today, 7 to 2 and 6 to 2, and clinching second place in the American league.

With several hundred dollars of world series money at stake for each player, the two clubs battled all afternoon. In making their successful drive for second, the Yanks won 13 of their last 15 games, their starting pitcher going the route in all except one hit. Vernon Gomez achieved his 21st victory in today's first game. Charlie Ruffing won his 16th in the nightcap.
First game:
Washington 101 000 000—3 7 2
New York 000 121 30x—7 8 0
Hedley, Marberry, Weaver and Spencer; Gomez and Dickey.
Second game:
Washington 002 001 000—3 5 2
New York 014 000 12x—8 12 0
Brown and Spencer; Ruffing and Dickey.

BROWNS SPLIT BILL WITH SOX

ST. LOUIS, Sept. 26. (AP)—The St. Louis Browns defeated the Chicago White Sox today in the second game of a double-header 13 to 3, called after seven and a half innings because of darkness. The Sox won the first game 5 to 4.
First game:
Chicago 300 000 100 01—5 12 3
St. Louis 110 002 000 04—11 0 0
Thomas, Lyons and Tate; Cooney, Lyons and Bengough.
Second game:
Chicago 000 201 00—3 8 2
St. Louis 302 710 0x—13 16 0
Fraser and Garrity; Herbert and Bengough.

WES FERRELL WINS NO. 22

CLEVELAND, Sept. 26. (AP)—Wesley Ferrell, Cleveland ace hurler, won his 22nd victory of the season today when the Tribe set down Detroit 7 to 3. Only in one inning were the Tigers able to gather more than a single hit. Ferrell slammed out a home run in the fourth.
Detroit 010 200 000—3 7 1
Cleveland 500 100 10x—7 10 0
Bridges and Ruel; Ferrell and Sewell.

WESTERNERS MAKE SPLENDID DEBUT

LUBBOCK, Sept. 26. (AP)—Lubbock's westerners, as coached by Weldon Chapman, established themselves as favorites on the South Plains tonight when they worked out under lights for the first time in their lives to a score of 25 to 0 victory over the Woodrow Wilson Wildcats of Dallas in the first important game of the year.

Running behind a line that looked fully as good as the strong Westerner forward wall of 1930, a set of backfield boys playing under fire for the first time had more or less of a romp over Coach Herschel Forester's Wildcats. Cecil Merrill, a transfer from White Deer, and Gene Barnett and Bill Davidson, Lubbock's own sons, fought, blocked, tackled and carried the ball like veterans in their initial year of gridiron adventure. Mack Scoggin, a letterman from last year, and O. H. Britton, quarterback from last fall's squad, did their part and looked the veterans. They are, but for the flashy offensive work they were equalled if not surpassed by the newcomers.

Barrett (Georgia) umpire; Hartell (Central Teachers, Mo.) Head linesman.

LONGHORNS EASILY VANQUISH SIMMONS

AUSTIN, Sept. 26. (AP)—The University of Texas Longhorns, football champions of the Southwest conference last year, made their 1931 debut today with a 36 to 0 victory over the Simmons Cowboys from Abilene. Greater reserve strength and clever passing contributed to the margin of victory.

Coach Clyde Littlefield used many players. Virtually the entire first string started the second half with the result that the Steers registered two touchdowns in three minutes. The fighting invaders kept the Steers from scoring in the first quarter and were scored on only once in the second. A group of Steer substitutes turned the contest into a rout in the final period.

METHODISTS WIN BY SMALL MARGIN

DALLAS, Sept. 26. (AP)—Southern Methodist university stuck to straight football today and eked out a 15 to 0 victory over the North Texas College Eagles of Denton. While the Mustang machine was resorting to power football the North Texans were checking it with a formidable defense. The Ponies drove 42 yards in the first period for a touchdown, Gilbert plunging five yards for a score. Neely added the extra point. The Mustangs marched 73 yards straight down the field for the second touchdown. Oliver going over on a three-yard smash through the line.

SCORES CLOSE

BERKELEY, Calif., Sept. 26. (AP)—The University of California football team came through in the last quarter today to defeat the University of Santa Clara, 6 to 2.

TCU WINS BY FIELD GOAL

SOUTHWEST CLASSIC IS GREAT DEFENSIVE BATTLE

FORT WORTH, Sept. 26. (AP)—The educated toe of 190-pound Ben Boswell, left tackle, gave Texas Christian university of the Southwest conference a 3 to 0 victory over a hard-fighting Louisiana State university Tiger machine here today. The score came in the third quarter.

Louisiana, ranked as one of this year's leaders in the Southern conference, uncovered a brilliant defensive fight, one that in three of the four quarters halted Texas Christians' offense when a touchdown loomed, but the Louisiana eleven revealed little offensively.

It was a rough battle. Louisiana suffered the greatest loss when Captain Khoury, left tackle, was removed from the game with bones in his right arm broken.

The game, ranked as the classic of the southwest today, was witnessed by an estimated crowd of 5,000 who saw Jack Torrence, 260-pound Louisiana guard, lead his mates in a superb defensive drive the first two quarters.

Late in the third period, Hinton tried another pass on the first down, but it was grounded by Torrence. Texas Christian lashed Louisiana's line for seven yards, leaving three yards to go for first down and only one down to make it. Then Boswell was pulled from his tackle position, after Vance Woolwing received the snap-back and punted it, kicked a field goal for the game's only points.

RAZORBACKS SCORE QUICKLY

FAYETTEVILLE, Ark., Sept. 26. (AP)—University of Arkansas Razorbacks opened their 1931 football season here today with a 13 to 0 victory over the College of the Ozarks. The Razorbacks rushed over two touchdowns in the first half while the Mountaineers did not score until the last period.

HELEN HICKS ENDS GLENNA VARE REIGN

BUFFALO, N. Y., Sept. 26. (AP)—Mrs. Glenna Collett Vare's reign as national women's golf champion was ended today by Helen Hicks, 29-year-old golfing wonder from Long Island, who defeated the five-time champion on the 35th green of the final round of the 35th annual tournament, two up and one to play.

It was the closest final in 15 years of championship play and marked the first time Mrs. Vare had been beaten in the six times she had gained the final round.

Miss Hicks played the 35 holes in 163 strokes, six more than women's par, in defeating the Philadelphia veteran and gaining her fourth title of the year. She previously had triumphed in the metropolitan, eastern and New York state championships.

The first two sets were played yesterday but the match was halted by rain and finished today.

Allison And Cross Win Mixed Doubles

LOS ANGELES, Sept. 26. (AP)—Miss Edith Cross, San Francisco, and Wilmer Allison, Austin, Tex., won the mixed doubles championship in the fifth annual Pacific southwest tennis tournament today by defeating the Wimbledon champions, Mrs. L. A. Harper, Oakland, Calif., and George Lott, Philadelphia, 7-5, 2-6, 7-5.

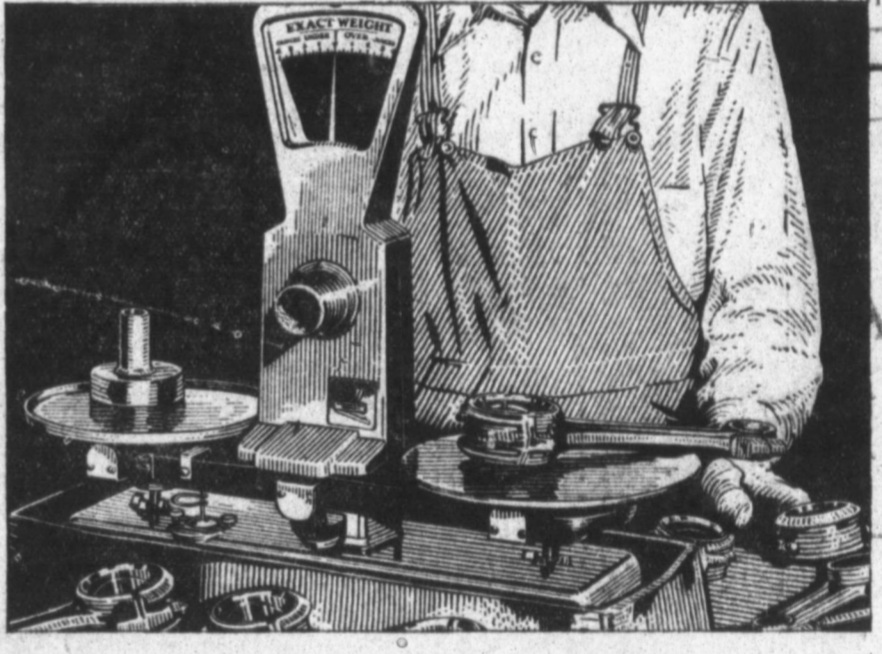

Nine touchdowns rolled out from under the wheels of the latest machine Major Ralph I. Sasse has built on the plains and though the opposition was gallant but negligible, the manner in which a half dozen Cadet backs romped about the field behind a powerful line was very impressive.

Army Tank Rolls Over Ohio 60-0

WEST POINT, N. Y., Sept. 26. (AP)—Army's 1931 football juggernaut rolled into action today for the first time this season and crushed a struggling squad from Ohio Northern 60 to 0.

The first two sets were played yesterday but the match was halted by rain and finished today.

Chevrolet connecting rods are matched to size of six to within one-quarter ounce, and are individually fitted by hand to the crankshaft. Bearings are of Babbit metal cast into the rods under heavy air pressure and at 500° Fahrenheit.

Possessing the basic goodness of sound design and fine manufacture

From the selection of raw materials to the completion of the finished product, each process of building, assembling and checking the Chevrolet Six is marked by extreme care and precision. An exhaustive system of test and inspection makes certain that every part meets specified dimensions exactly. Many of these parts are held to limits of one ten-thousandth of an inch. No manufacturer in the industry uses more care or precision in building and testing than Chevrolet.

the motor, Chevrolet engineers were not content to offer the public anything less than tried and proved design. They knew that the only satisfactory way to get smooth, flexible power in a car is to use at least six cylinders. So they adopted the six-cylinder engine without compromise. And this is what you get in today's Chevrolet Six.

As a result of this sound designing and sound manufacturing, you can buy a Chevrolet and know you are getting a genuinely good automobile—soundly designed, soundly built, basically and technically right.

Twenty beautiful models, at prices ranging from \$475 to \$675

FORMER CHAMP WILL BE FOE OF CLINGMAN

A colorful soldier of fortune will meet Sailor Otis Clingman of Pampa in the first wrestling match of the season at the majestic auditorium Friday night.

Vatela's life reads like a novel of adventure. He received his early training in an old mission in Mexico. He was destined to become a priest and was known to possess a deep religious nature.

He quit the mission when a revolution started and joined the federal army, where he started his wrestling career. He later became a jockey. Leaving the race track, Vatela became a troubador and wandered over the country playing and wrestling.

Landing in San Marcos, he took a job as a vaquero on the ranch of Harold "Sloppy" Shelton, who soon took an interest in his wrestling and became his manager. Shelton is still the Mexican's manager and arranges all his matches.

Clingman is in great shape and wrestling fans are due to see one of the best matches of the season.

Red Michaels and an unnamed opponent will take the mat in the semi-final event. Other matches have not been arranged.

Lawrence, Kans., Sept. 26. (AP) The Big Six champion Kansas Jayhawkers, after an early scare, swamped the Colorado Aggies, 27 to 6, in the football season opener here today.

Quarterback Carnie Smith of the Jayhawkers scored a touchdown eight minutes after the game started and Lee Page, halfback, placekicked the extra point, leaving a 7-point lead for a reserve team to defend.

CARD BEAT REDS BY 7 TO 4 SCORE

CINCINNATI, Sept. 26. (AP) — A ninth-inning rally that netted two runs failed to help the Reds materially today and they dropped the first game of the closing series of the season with the Cardinals 7 to 4.

The Cards touched Larry Benton for 14 hits. St. Louis . . . 020 110 003—7 14 0 Cincinnati . . . 000 002 002—4 9 3 Ealldahan and Wilson, Managers; Benton and Asby.

Gaels Romp Through Mighty Men Of Troy

LOS ANGELES, Sept. 26. (AP) — Two brilliant passes, two flashes of scarlet, and St. Mary's Gaels galloped to a 13 to 7 victory over the mighty men of Troy here today before 75,000 rioting fans.

With surprising and unheralded deception, the Gaels, against seemingly great odds, rose to subdue the University of Southern California, new tandem shift, power and all in the third period, after the Trojans thrice had knocked at the door of victory.

There was nothing on paper to warrant such an upset, for Coach Howard Jones' team outdressed St. Mary's 17 to 5, but this is without reckoning with the flaming fighting spirit of Coach Edward (Slip) Madigan's team.

Bud Toscani, a halfback, and George Carinus, right end, were the St. Mary's players who turned defeat into such a resounding triumph that the St. Mary's rooters swept onto the field after the struggle and razed the goal posts. The celebration lasted half an hour after the victory, as thousands milled on the greensward.

FARMERS TAKE GAME. COLLEGE STATION, Sept. 26. (AP) The Texas Aggie grid machine trounced Southwestern university 33-0 in the opening game of the season here today. The Aggies gained 18 first downs while the Southwestern club registered three.

HORNED FROGS WIN. FORT WORTH, Sept. 26. (AP) — A 17-yard field goal, kicked by Ben Boswell, left tackle, gave Texas Christian university of the Southwestern conference a 3 to 0 victory over Louisiana State university of the Southern conference here today.

CENTENARY WINS. SHREVEPORT, La., Sept. 26. (AP) Centenary's football eleven ran up against the strong State Normal college team from Natchitoches here today and had plenty of fighting to win 23 to 2.

ALBERT LARD, HARVESTER STAR LAST-YEAR, SHINES SATURDAY

AMARILLO, Sept. 26. (AP) — The Badgers of Amarillo college overpowered the Terrill School football grid team from Dallas here this afternoon, winning 21 to 0. All the scoring was in the first half.

Albert Lard, former Pampa Harvester high school player, was the ground gaining star for the locals, while Eudy, Terrill tackle, was an outstanding defensive player.

GOPHERS TAKE TWO GAMES. MINNEAPOLIS, Sept. 26. (AP) — Minnesota's offensive revealed streaks of brilliance but lacked consistent punch today as the Gophers won with difficulty from North Dakota State, 12 to 7, and walloped Ripon 30 to 0, in the second game of the double-header opener.

TEAMS TIE. STANFORD UNIVERSITY, Calif., Sept. 26. (AP) — Stanford university turned back three Olympic club thrusters in the second half to keep its goal line uncrossed and to earn a scoreless tie with the club men here today. The collegians were helpless on the offensive.

SOUTHWESTERN DOWNED. COLLEGE STATION, Sept. 26. (AP) Texas A. & M. launched their 1931 grid campaign here today with a 33 to 0 victory over Southwestern university. Thrice in the second period the Pirates braced themselves on their one-half yard line and held the Aggies without gain. Pirate passing was on par with that of the Aggies, the Southwestern team gaining 51 yard through the air while Bell's men were picking up 50 yards.

BOY WINS TOURNEY. WICHITA FALLS, Sept. 16. (AP) — James Phillips, 17-year-old Ranger boy, won the fourth Wichita Falls golf and country club invitation tournament by defeating S. J. Barnett, Eastland, 5 and 3, in the titular final today. Phillips finished the morning 18 holes 5 up and increased his lead to six up at the turn of the afternoon round. Barnett staged a game rally on the inside nine and kept the match alive through the 33rd hole.

RICE IN VICTORY. HOUSTON, Sept. 26. (AP) — Coach Jack Meagher's Rice Owls wore down Jim Jones' Sam Houston Bearkats, 1930 T. I. A. A. champions, 32 to 0 today. The Owls used their most elementary formations and did most of their damage with sweeps around the ends. Jap Thrasher showed to particular advantage in running the ends, following well his interference.

NEWS ITEMS OF SKELLYTOWN

In "This Modern Age" all progressive firms have a slogan—a slogan that typifies their business. Their slogans are important and mean much to you as a buyer of their merchandise or their service. The names of these Pampa merchants have been purposely omitted from these advertisements. If you can read the advertisements and get the right name on the right advertisement you will get a ticket to the La Nora FREE. All contestants must have the page in the office of the NEWS-POST not later than 6 o'clock Tuesday evening, Sept. 29. Write the names as indicated and mail or bring the page to the contest editor, Pampa News-Post. Get yours in early as only 50 tickets will be given for the first 50 correct answers.

PEDDLING HERE REMAINS ONE OF UNSOLVED CITY PROBLEMS

LEGISLATURE 'MUDDELS' PROBLEM WITH REPEALS

City and county officials of this section have been watching with much interest the attacks in the legislature upon the new peddlers' license law, which was repealed by both houses.

Licenses in the past have been too cheap to have much influence upon peddling, especially of products which are sold regularly here. The \$5 city tax is not a deterrent. Enforcement of traffic laws, particularly double parking, has had some influence.

Selling of agricultural products by the growers cannot be restricted, and has been carried on here to a certain extent all summer. Scattered fruit and vegetable stands have done much of the business, however, and these, because they are upon rented spaces off the streets, cannot be controlled.

It has proved a vexing problem. Merchants have stated their desire to assist the farmers and to help create a market, and have held several meetings. Farmers complained, however, that they did not find a ready market.

Attacks upon the new license law were assisted by farmers in South Texas, who said much of their crop was moved by truckers who bought the produce at the farms and carried it over the state. This plea apparently had more effect in Austin than the pleas of merchants that their business was suffering. Merchants pointed out that they paid rent, taxes, gave to charities, provided community leadership, and generally helped build their cities. Transients did not do these things.

The most backward of peasants, 100 millions of them, acquired five centuries of agricultural progress in just a few seasons of Soviet rule. There are literally grain factories, operating on 100,000 acres each to harvest and crop. In 1930 Russia became the world's leading grain producer. One man, a sort of secretary of agriculture, is absolute ruler over Russia's millions of peasants and millions of acres. Such an economic menace can hardly be overlooked.

Then she dressed, putting on the old polo coat and snug hat she had worn so often on daily trips to the law office. She had errands to attend to downtown and was anxious to finish them and be home by noon.

The street car was not crowded and Norma found a seat immediately. That was because the morning rush had ended. She rode to Broad street and Eighth avenue and then left the car.

Norma walked rapidly. Mentally she was reviewing her list of purchases—first the saucer to replace the one she had broken, then the oil cloth and the yard of ribbon—her thoughts were interrupted by a shrill, familiar voice.

(To Be Continued)

the thing thus: "Black lands of winter fallow sweeping from horizon to horizon, miles and miles of green undulations of winter wheat unbroken by any boundary yet containing the land rights and harvests of thousands of peasants."

All of which was ample reason for Norma Travers to rise next morning feeling the world was a grand place in which to live. She finished her tasks in the apartment.

meal. That it was success was enough to put Norma into the true spirit of Thanksgiving Day. She knew the candied sweet potatoes, the salad and rolls and the mince pie were as they should be. Hearing Mark praise her cooking—as he did praise her—was more than reward for the hours she had spent in the tiny kitchen.

"O. K. with me. Say, you know there's one thing I'm mighty glad about—won't have to sit across from Aunt Matilda and hear her talk about what happened the summer of '72 in Progress City and how Great-Uncle Hiram harnessed the Indians out of their land."

"What did happen in Progress City?" "I don't know! God forbid, I never listened! Aunt Matilda's nearly 80 but she can out-talk anyone I ever met. What do you say, kid? Shall we step out to a movie?"

Norma dimpled. "There's Jack Oakie in that new one at the Century." "Let's see it!"

Perhaps the roast duck Norma drew from the oven next day was not seasoned exactly to the taste of a French chef. Perhaps its dressing could have been improved. Nevertheless, the bird was beautifully roasted. It was well cooked and according to Mark Travers, it was the finest fare he had ever eaten. The duck was after all only a part of the carefully prepared

HEARING HELD

DALHART, Sept. 26. (P)—S. J. Petet, secretary of the Texas railroad commission, was in Dalhart today to hear evidence on the application of the Rock Island railroad to discontinue trains No. 13 and 14 between here and Texhoma, Okla. A decision probably will be announced by the commission within the next week.

two \$35 pay checks and on Saturday there would be another. The young Traverses, though they had little on the credit side of the ledger, were at least meeting their debts, paying their living expenses and, remarkable as it might seem, quite happy. There had been no quarrels since the night Mark brought home the roses. Both Mark and Norma were too tired at the end of a day to regret the fact they had no money for recreation.

"I'm so glad you'll be home all day tomorrow," Norma said as she set the last dish on the table. "You really need the rest, Mark. You've been over-doing."
"Oh, it isn't that. Just that I'm new at this stuff. Not used to being on my feet all day and don't know it enough about the store. Boy, when the Christmas rush starts I suppose I'll think this was a picnic! After

the second week in December the store is open from 9 in the morning until 9 at night."

"But they'll pay you extra, won't they?"
"Hope so. I haven't found out yet. Well, what's the program for tomorrow?"
"Dinner at two. I thought you'd want to sleep late. Is that all right?"

"O. K. with me. Say, you know there's one thing I'm mighty glad about—won't have to sit across from Aunt Matilda and hear her talk about what happened the summer of '72 in Progress City and how Great-Uncle Hiram harnessed the Indians out of their land."

"What did happen in Progress City?"
"I don't know! God forbid, I never listened! Aunt Matilda's nearly 80 but she can out-talk anyone I ever met. What do you say, kid? Shall we step out to a movie?"

Norma dimpled. "There's Jack Oakie in that new one at the Century." "Let's see it!"

Perhaps the roast duck Norma drew from the oven next day was not seasoned exactly to the taste of a French chef. Perhaps its dressing could have been improved. GRAY COUNTY MAN IS PRAISED FOR WORK IN DAIRY CONTEST

CLYDE CARRUTH HAS SPOTLESS MILK PLANT

Clyde Carruth, who placed fourth in the Master Dairy contest at Amarillo, is being congratulated for having done so well in his first year in the event.

Mr. Carruth, who lives 15 miles northeast of Pampa, missed second place and a \$200 prize by only four points. Every man who placed above him was in the contest for the third year. Only one other first year man was in the upper ten.

Gray county entries made excellent showings for the first time the county had participated. Each of the three entries led the contest in certain features. Mr. Carruth's 13-cow herd averaged 333 pounds of

butter fat to each cow in the 10 months of the contest at a feed cost of 12.5 cents per pound. Home-grown feeds, supplemented with cotton seed meal, were fed. The ration consisted of wheat, barley, oats, bran, and cotton seed meal. The score was perfect in feeding.

Last fall the dairy equipment consisted of a barn built at the side of a grainery, but now the equipment is among the best in the Panhandle. According to Ralph Thomas, county agent, Mr. Carruth started with good herd cows and a strong determination. He secured the services of Mr. Tesson, the tester. Early in September the judges found a trench silo extending 85 feet into a hillside ready to be filled with sorghum for providing a succulent roughage when pastures are short. A newly built shelter barn is 30 by 40 feet in size.

The judges entered a milk room with walls and ceiling of spotless white, a large home-made ice box in one corner, with metal racks holding every utensil in its place. A large washing vat with heater makes the cleaning of milk vessels easy. The milking barn also is kept clean and shining in its whiteness. Large windows send the sunlight back to the stanchions.

Speaking at the Amarillo banquet, Mr. Carruth drew applause when he said, "If all these wheat farmers had

less the state either leased or developed them itself.

Development of the Sabine River bed was vigorously contested by the East Texas delegation on the contention it would endanger the water supply of Longview.

The senate was under call more than an hour while sergeants-at-arms scoured the city in search of absentees.

Adverse action was taken today by the senate state affairs committee on a bill to permit independent operators to market crude petroleum cooperatively submitted by Gov. R. S. Sterling in a special message. The bill was voted out unfavorably 9 to 3. No notice of minority report was given and the bill was regarded as a dead issue.

The bill would have permitted independent oil producers to cooperate in oil marketing without fear of prosecution under the anti-trust laws.

It was drafted along the lines of the agricultural cooperative marketing act and would have denied companies with a stock of more than \$2,000,000 the right to take advantage of its provisions.

Opponents of the bill said they feared it would start a breakdown of the anti-trust laws that prohibit agreement in restraint of trade.

With the date for sine die adjournment set for Tuesday, the legislature today passed several local bills and other bills of minor importance.

The house adjourned at noon until Monday but the senate stayed on to debate the river bed lease bill.

Purposed the Rawlings amendment directing the state to do its own drilling but voted for it when the bill was up for engrossment saying he hoped to have it further amended in the house.

The import of one section of the original Purl bill was questioned by Sen. W. K. Hopkins of Gonzales. Hopkins said he believed the section might be construed as providing for relinquishment of the state's rights in the river beds. Hopkins had an amendment prepared to strike this section from the Purl bill but withdrew it when the Rawlings substitute was adopted.

Prospects for reopening of the H. F. Wilcox refinery near here in the near future are believed to be good. Recent letters to stockholders have been optimistic. The company has large potential production in the Oklahoma City and East Texas fields and is known to have plans for drilling in this county when the marketing problems are solved.

Low prices for gasoline were mentioned by Mr. Wilcox as a factor making profitable operation difficult.

a bunch of dairy cows to attend to they would be so busy that they would not have time to think about the depression."

He will enter the contest next year confident of ranking among the leaders.

Mr. Carruth drew applause when he said, "If all these wheat farmers had

less the state either leased or developed them itself.

Development of the Sabine River bed was vigorously contested by the East Texas delegation on the contention it would endanger the water supply of Longview.

The senate was under call more than an hour while sergeants-at-arms scoured the city in search of absentees.

Adverse action was taken today by the senate state affairs committee on a bill to permit independent operators to market crude petroleum cooperatively submitted by Gov. R. S. Sterling in a special message. The bill was voted out unfavorably 9 to 3. No notice of minority report was given and the bill was regarded as a dead issue.

The bill would have permitted independent oil producers to cooperate in oil marketing without fear of prosecution under the anti-trust laws.

It was drafted along the lines of the agricultural cooperative marketing act and would have denied companies with a stock of more than \$2,000,000 the right to take advantage of its provisions.

Opponents of the bill said they feared it would start a breakdown of the anti-trust laws that prohibit agreement in restraint of trade.

With the date for sine die adjournment set for Tuesday, the legislature today passed several local bills and other bills of minor importance.

The house adjourned at noon until Monday but the senate stayed on to debate the river bed lease bill.

Purposed the Rawlings amendment directing the state to do its own drilling but voted for it when the bill was up for engrossment saying he hoped to have it further amended in the house.

The import of one section of the original Purl bill was questioned by Sen. W. K. Hopkins of Gonzales. Hopkins said he believed the section might be construed as providing for relinquishment of the state's rights in the river beds. Hopkins had an amendment prepared to strike this section from the Purl bill but withdrew it when the Rawlings substitute was adopted.

Prospects for reopening of the H. F. Wilcox refinery near here in the near future are believed to be good. Recent letters to stockholders have been optimistic. The company has large potential production in the Oklahoma City and East Texas fields and is known to have plans for drilling in this county when the marketing problems are solved.

Low prices for gasoline were mentioned by Mr. Wilcox as a factor making profitable operation difficult.

a bunch of dairy cows to attend to they would be so busy that they would not have time to think about the depression."

He will enter the contest next year confident of ranking among the leaders.

Mr. Carruth drew applause when he said, "If all these wheat farmers had

less the state either leased or developed them itself.

Powers Keeps City As Home

"These politicians around Pampa who are going to run for office next year had better not forget me when they pass the cigars around," Neal Powers, local attorney, to the court house "bunch" said yesterday morning.

Mr. Powers has accepted an appointment as assistant attorney general of Texas and will assume his duties Oct. 1.

"Even though I am going to Austin, I am still going to call Pampa my home and will be back here to vote," Mr. Powers declared.

Mr. Powers moved to Pampa nearly two years ago from Wichita Falls.

CHILDREN EXAMINED

Mrs. M. P. Downs, the only rural school nurse in Gray county, has finished weighing and measuring pupils in the Hopkins school district. Next week she will begin testing eyes. Mrs. Downs is supervisor of health in the community as well as in the school.

C. A. Carter of LeFors visited in Pampa yesterday.

Mrs. C. A. Carruth of Farrington shopped in Pampa yesterday.

TYPEWRITERS The New Royals

Used Typewriters of all kinds. Good rent machines.

We do repairing on all makes of Typewriters, adding machines and mimeographs. Have your office machinery put in good condition at a reasonable cost.

Call—Autry—288 PAMPA OFFICE SUPPLY CO. 320 West Foster
