"Where The Old Western Spirit Lingers"

Borden County Round-Up

Entered as second class matter at the post office at Gail, Texas

GAIL, TEXAS, May 10, 1957

Vol. 5, No. 240—\$1 a Year

Is Acquitted Of Negligent Homicide Cars Collide At O'Donnell Sunday

In the recent session of Borden county court, Walter Haskell McGee was acquitted in a jury trial on a charge of negligent homicide.

McGee, of Loraine, had been charged in connection with the death of Mrs. Arra Lee Crumley of Lamesa in an auto collision in Borden County.

Wayland Holt, district attorney and serving as Borden County attorney, was prosecutor, and Dell Barber

of Colorado City was defense attorney. Presiding was C. C. Nunnally, county judge.

Jurymen were L. H. Ramson, Mrs. G. A. Millikin, Morris Miller, W. O. Cox, V. L. Patterson, and Lloyd Buchanan.

To him that overcometh will I give to eat of the tree of life, which is —Rev. 2:7.

Two persons were injured in a three car collision at O'Donnell near South Y at about 2:30 p.m. Sunday. Both were taken to the Tahoka hospital but injuries were not serious. A pick up truck driven by C. C. Russell of near here was involved in a head-on crash with a late model sedan driven by J. C. Mills of Abernathy. Another late model car driven

by Jim Davis also of Abernathy, following Mills, rammed into the rear of the Mills car sending it careening ahead on the highway. Davis required 8 stitches from lacerations.

—O'Donnell Index-Press

COTTON CLASSING OFFICE FOR LAMESA IS APPROVED

The Lamesa cotton classing office has been approved by the U. S. Department of Agriculture and farmers in this area can have their cotton classed at Lamesa this fall.

The new office will serve farmers in Andrews, Borden and Dawson counties and the south half of Lynn county.

THE RAIN CAME

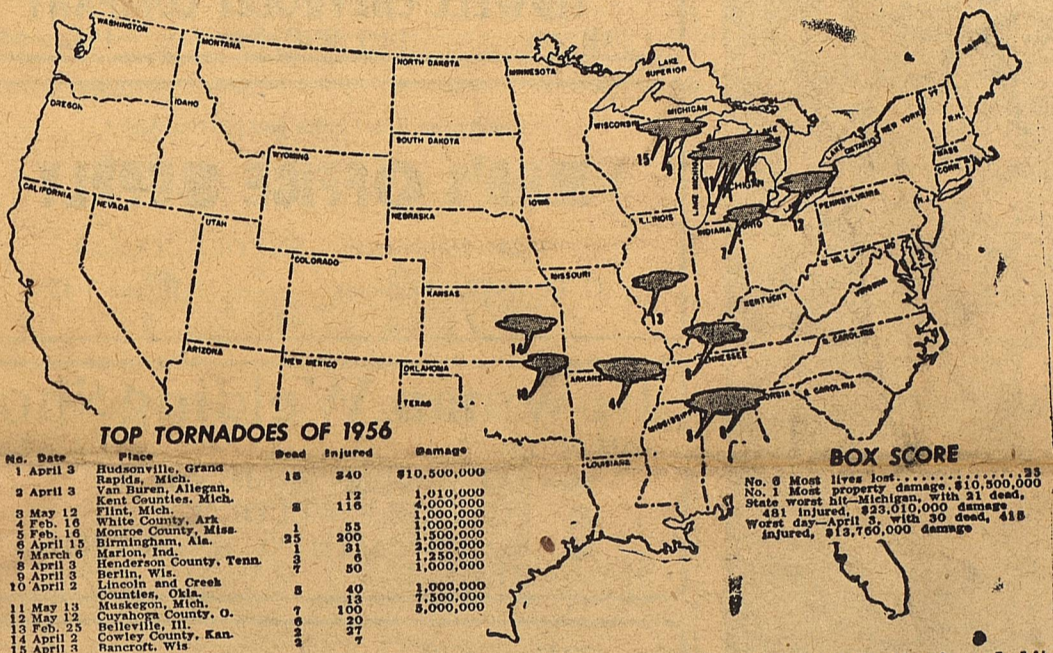

Last week's rains added to the fading of the drouth in this section, and ranchers and farmers are both encouraged. The rain was a splendid one, and farmers are getting busy. The total precipitation for this year has been estimated at about 6 inches.

MOTHER'S DAY IS 50 YEARS OLD

It was on May 9, 1907, in Philadelphia, that Miss Anna Jarvis, remembering the death of her beloved mother just a year before, conceived the thought of a day dedicated to all mothers. She began interesting individuals and organizations in naming the second Sunday in May as Mother's Day, and the initial observance was held in her home city on May 10, 1908.

And what doth the Lord require of thee, but to do justly, and to love mercy, and to walk humbly with thy God? —Micah 6:8.

Let us go ahead and make our mistakes—as few as we can, as many as we must; only let us go ahead.—Jacob A. Riis.

MAJOR TORNADOES of 1956, as compiled from preliminary Weather Bureau data, clearly point to Spring as a time for special watchfulness by residents of the central United States—the world's most dangerous tornado area. Civil defense units are on special call throughout this vast region for

possible rescue work. In addition, if a tornado-hit locality is declared a major disaster area by the President, as happened in Numbers 1, 3, 6, and 10 above, the Federal Civil Defense Administration can provide funds to aid communities in temporary repair of public facilities. (FCDA Photo)

UNCLE SNORT'S SAYSO

"When a Canadian teacher in a rural area asked how many children in her class had seen the eclipse of the moon the previous night, one youngster piped up, 'What channel was it on Ma'am?'"

Not listed in the seed catalogues is the blooming idiot. It walks about without a coat on chill spring days, is planted in bed and harvests a crop of sniffles that it distributes to others for weeks to come.

Slang seems to be a popular device for displaying your ignorance.

THE THINGRAVY APOSTLE

This period of inflation is certainly no recommendation of the intellectuality of our political bigwigs.

Cause of Odor Not Show—But a Guest

STORRS, Conn.—The audience watching a movie in the University of Connecticut's Agricultural Auditorium might not have agreed on exactly how good or bad the show was, but all knew a distinct odor was present.

Only the janitor knew that an uninvited guest had slyly slipped into the auditorium. The janitor had found the visitor—a skunk—behind a radiator in the darkened hall. He couldn't get him out.

All went well until the heat was turned on. Then a strange smell began to drift through the auditorium. The janitor turned the heat down and crossed his fingers. The skunk remained quietly behind the radiator throughout the show and must have enjoyed it. He didn't use his strongest criticism.

The audience might have been cold, but certainly not as uncomfortable as they might have been.

Professor Proves Bird In Hand Worthwhile

FINDLEY, Ohio—An Ohio State University professor can tell a better tale than the man who bagged several birds with one shot. In fact, his story is better than most stories.

While hunting, Prof. Virgil Overhold was completely startled when a pheasant flew up and came straight at him. So startled, in fact, that he dropped his gun.

He recovered quickly, however, and as the bird shot by he grabbed at the bird's tail.

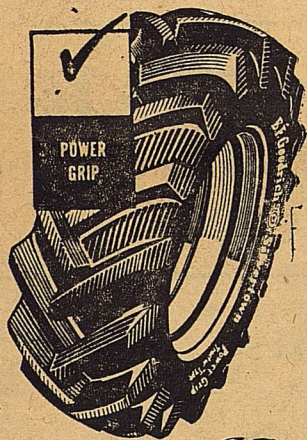

The results of this action makes a fine tale: one pheasant bagged, no shots fired.

Senator Joe McCarthy died in Washington last week, and the newspapers and politicians who lambasted him in life, lauded effulgent praises after his demise. What a wonderful world this would be if folks would speak as well of the living as they do of the dead.
