JOHN LOTT SHOWS MOVIES TO GAIL POSSE AND AUX.

"It cost the taxpayers roughly \$1,000 a day for Dwight Eisenhower The Borden County Sheriff's Posse and Auxiliary met Monday of last week in the community building in Gail.

After a short business meeting, Mr. John Lott of Post, showed movies of the Slaughter Ranch which consists of more than 72,000 acres, part of it being in the northern part of Borden County.

County. Mrs. J. H. Beal and Mrs. Frank Miller, hostesses, served cinnamon rolls, cookies, hot spiced tea and cof-fee to Mr. and Mrs. Sid Reeder, Mr. and Mrs. John Whitmire, Mr. and Mrs. Burl Belew, Mr. and Mrs. V. L. Clark, Mr. and Mrs. W. L. Wilson, Jr., Mr. and Mrs. C. C. Nunnally, Mr. and Mrs. Bill Stephens, Mr. and Mrs. Couch, Mr. and Mrs. Lott, Mrs. Rube Smith, Mrs. Allen Stephens, Frank Beavers, Bob Beal and J. H. Beal.

BIRTHDAY PARTY Mr. Billy Wills was hostess to a birthday party for her daughters, Shawenna and Debby on Sunday Sept. Shawenna and Debby on Sunday Sept. 29 on the Jerry Clayton Ranch. Ice cream and cake was served to 22 children and Mr. and Mrs. Bill Wil-son, Jr., Mrs. J. L. Whitmire, Mrs. Bert Dennis, Mr. and Mrs. J. P. Reid, Mrs. Dub Hollis, Mrs. George Billeck, Mrs. Joe Clayton, Mr. and Mrs. Frank Beavers and Mrs. Bledsoe.

SNYDER TAXI FARES REVISED

The new taxi cab rates include both an increase and a decrease in fares, R. T. Buzbee, owner of the cab company, said in requesting the

rate adjustment. New fares will be 40 cents for the first eight blocks in all directions from the square, 50 cents for up to 16 blocks from the square, 60 cents up to 22 blocks from the square, and 65 cents over 22 blocks in corners of 65 cents over 22 blocks in corners of town and outlying parts of town. That is an increase of 5 cents in the minimum fare from 35 to 40 cents. about 60 per cent of the town is un-changed at 50 cents. The rate adjustment included a re-duction too, Buzbee pointed out. All fares in addition to the first one, picked up and delivered to the same locations in town, will go at half the first rate. That permits a sizeable

the first rate. That permits a sizeable reduction in the multiple fare rate, Buzbee said.

Rice and Salmon Porcupines

INGREDIENTS: 1/2 cup uncooked rice 1, 16-ounce can salmon and

liquid 1/2 cup grated carrot

tablespoons finely chopped onion

1/4 teaspoon curry powder teaspoon salt

½ teaspoon sait
½ teaspoon pepper
1, 10½-ounce can cream of mushroom soup
1½ cups water
METHOD: Mix together the rice, salmon, carrots, egg, onion, curry powder, salt and pepper.
Press the mixture into six balls.
Place in a greased baking dish Press the mixture into six balls. Place in a greased baking dish allowing space between, since balls expand during cooking. Mix together the soup and wa-ter and heat to boiling. Pour over the rice and salmon balls. If a very large baking dish is used almost all of the soup mixused, almost all of the soup mix-

ture may be poured over the balls. But if the dish is some-what small and shallow, use only half of the soup mixture since it is likely to cook over the sides of the dish. Cover baking dish and place in a preheated 350°F, oven. Bake about 1 to 1¼ hours or until the visible rice is tender. Pour more soup over the balls as the rice ab-sorbs the liquid. Serve with ad-ditional sauce made of mushditional sauce made of mush-room soup plus water, if desired. This recipe makes 6 porcupines. Porcupine meat balls may be made with ground beef as well as with salmon. Uncooked rice and beef are mixed together and during the baking the graine of and beer are inited together and during the baking, the grains of rice absorb moisture and pop through the surface to make "white quills." These little fel-lows, porcupines, are certain to please and satisfy every fam-ily ily. .

Farmer's Debts Are Now on Par With His Assets

NEW YORK-For the first time in more than a decade, farmers' aggregate debts are on a par with their cash assets, according tc figures compiled by the U.S. Department of Agriculture. Both totals are at new high levels, but debts have shown the greater rate of growth of the two in recent years, in common with the trend in the rest of the economy.

The Department of Agriculture estimates that farmers owed an aggregate of \$20.7 billions at the beginning of this year in mortgage and non-real estate debt, including Commodity Credit Corporation loans. At that time, their combined holdings of currency, bank deposits (checking and savings), U. S. Savings Bonds, and investments in cooperatives added

up to an estimated \$20.4 billions. Thus, when 1957 got underway, farmers had about 99 cents in cash for every dollar of debt. Relationships this low have not been seen since the early Forties. Back in 1950, for example, farmers had more than \$1.40 in cash or its equivalent for every dollar they owed. The proportion was even higher at the end of World War II, reflecting wartime prosperity which enabled farmers to save more than ever before during the period and at the same time to reduce their debts to the lowest levels in years.

However, the present relationship between financial assets and debts is still far better than it was in 1940, when farmers in the aggregate had only 50 cents in cash or its equivalent for every dollar they owed. Furthermore, other savings and assets in agriculture have increased greatly in recent years. Right now, for instance, three out of every four farm families own life insurance.

Medicine, Religion In Closer Accord

CHICAGO-American medicine and religion are in closer accord today than in any period in modern times, according to the Journal of the American Medical Association.

A special article and editorial in the Journal discusses the growing cooperation between our half million "men in black" and "men in white."

Perhaps this has happened because the individual is re-emerg-

ing from his "part of the mass" status, which came with the mechanization and specialization of society, the editorial states. With leisure time overtaking working time, the individual shines again, and he "wants to know more about himself and how he relates to all men and all things of all times." A Chicago physician, who par-ticipated in a two-and-a-half-hour struggle to revive a young man whose heart had stopped, said "Actually, we never were sure throughout that we were completely alone in this thing. We knew we were getting some guidance."

Free Ports Bolstering **Greater World Trade**

WASHINGTON - Holland's free port at Amsterdam's Schiphol Airport is the world's second shopping paradise catering exclusively to air travelers. Shannon, Ireland-a stopover for most transatlantic flights—first adapted the free port concept to the air lanes in 1947.

Currently more than 100 free ports or similar facilities are maintained in 35 countries. While most are located in harbors, some are landlocked towns such as Linz, Austria, and Nogales, Mexico. Following the modern trend, the majority of free-trade areas are tightly restricted zones within cites, inaccessible to the public. Only a handful of internationalized ports such as Hong Kong and Sing-

apore still preserve the old freewheeling traditions, with doors open to all comers and few or not duties imposed on imports.

Farmer Saves Chickens By Using Blinders

CHICAGO-A farmer in Holland discovered an ingenious solution to a familiar problem. When one of the chickens in his flock got accidentally pecked and began to bleed, others in the flock, excited by the sight of blood, would peck the injured one to death.

The farmer was losing a dozen chickens a week in this way until he had aluminum spectacles fastened to the birds so that they could not see ahead to attack each other but could still see downward and sidewise. The cannabilism then stopped, and chicken production went up 20 per cent.

Silt-Laden WASHINGTON—On an average day some half a million tons of silt ride the Colorado River down to Lake Mead, the huge reservoir created by Hoover Dam. During the flood year of 1927 the river carried 27,600,000 tons of silt past a given point in 24 hours.

Wormy Pigs Cost More to Produce

The University of Illinois reports it costs from three to four more bushels of corn to raise a wormy pig. In addition, it may take as much as an extra month to get wormy pigs to market weight.

The key to raising worm-free pigs is to farrow them under sanitary conditions and keep them clean. These suggestions are recommended:

1. Put the sows in farrowing pens that have been thoroughly cleaned.

2. Wash the sows' udders before you put them in the pens. 3. Haul the sows and litters to

pasture rather than letting them run down the same lane you have used year after year. The young pigs can easily pick up worm eggs from the dirt in the lane.

4. Use rotation pasture on ground that did not have pigs running on it the year before.

If you are certain that your pigs have worms, you can treat them by mixing 1 per cent of sodium fluoride in the mash ration for one day. However, if there is any doubt, a veterinarian should be consulted.

Most wormy pigs will not show visible signs of infection other than the slow-up in growth rate.

Farm Production

U. S. farm production for 1953, both crop and livestock, is expected to be about the same as the record set in 1952. Among livestock products, the largest increase in production is shown in cattle. Meanwhile cash receipts of the farmer from sales of prod-ucts in the first half of 1953 were off 5 per cent from a year earlier.
