Agriculture Outlook Looking Bright

Migrant Summer School Begins June 9

Classes Scheduled June 9-July 18

Neal B. Dillman announces that the 1975 Summer School for migrant children will begin June 9 and continue through July 18. The school will be held on the Muleshoe Junior High Campus for grades K-8.

The city of Muleshoe planned to spray for mosquitos Saturday.

In an article that appeared in a Fort Worth newspaper about the late Bob Wills, his wife, Betty Wills stated "We must have been the first and only newlyweds to spend their honeymoon in Muleshoe, Texas. Bob had some business to attend to there in connection with a ranch he had bought." The couple was married in Clovis, N.M. in 1943.

Miss Nina Sinnacher is on the Deans honor roll at Texas Tech University. She is the daughter of Lt. Col. and Mrs. Joe Sinnacher of Muleshoe. Miss Sinnacher is now visiting her parents in Germany.

Linda Gail Mason and L-Donna Caldwell both of Muleshoe, students at Angelo State University in San Angelo, Tex., are listed on the Dean's Honor Roll for the spring semester at the University.

Ms. Mason, a sophomore nursing major, is a 1973 Muleshoe High School graduate. She is listed on the 3,000 to 3,49 honor roll.

Ms. Caldwell, a sophomore business major, is a 1973 Muleshoe High School graduate. She is listed on the 3,500 to 4,00 honor roll.

San Diego, Calif (AP) - White President Ford's daughter Susan will be studying photography this month in Yosemite National Park, her 19-year-old brother will be learning how to wrestle steers, bust broncs and rope calves.

Steve Ford, the president's youngest son, is expected to...

A child qualifies for the program if he "has moved with his family from one school district to another since June 1, 1970, in order that a parent or other member of his immediate family might secure employment in agriculture or in related food processing activities."

Classes will begin at 8:00 a.m., each day and buses will run at 2:00 p.m. The daily schedule includes oral language development, reading, social studies, math, science and health.

The children will swim each day except Fridays, which are field trip or special activities days.

Breakfast, lunch and a snack will be provided and physical checkups will be given.

Buses will run in the country to transport the children and some city bus stops will be made.

Mrs. Elizabeth Watson will direct the program, Mrs. Imo...

Local Jaycees Attend Conference At Bryan

The Muleshoe Jaycees met at the XIT Steak House for their noon meeting Monday with President Butch Duncan calling the meeting to order.

Terry Field led the invocation and Roger Williams led the Jaycee Creed.

Ted Barnhill reported that the Lubbock Jaycees will be having their installation banquet Saturday night, and several Jaycees plan to attend.

The Jaycees have been invited to participate in the July Fourth parade by R. A. Bradley, parade chairman.

Several local Jaycees attended the President's and Officer's Conference at Bryan - College Station May 30, 31 and June 1. Everyone reported a good time with a lot of hard work.

Those attending from Muleshoe were Ted Barnhill, Gene McGuire, Kevin Tucker, Butch Duncan, Larry Goree, Terry Field, Charles Moraw who is state vice-president, and Curtis Walker who is a National Director.

Tommy Black reported that...

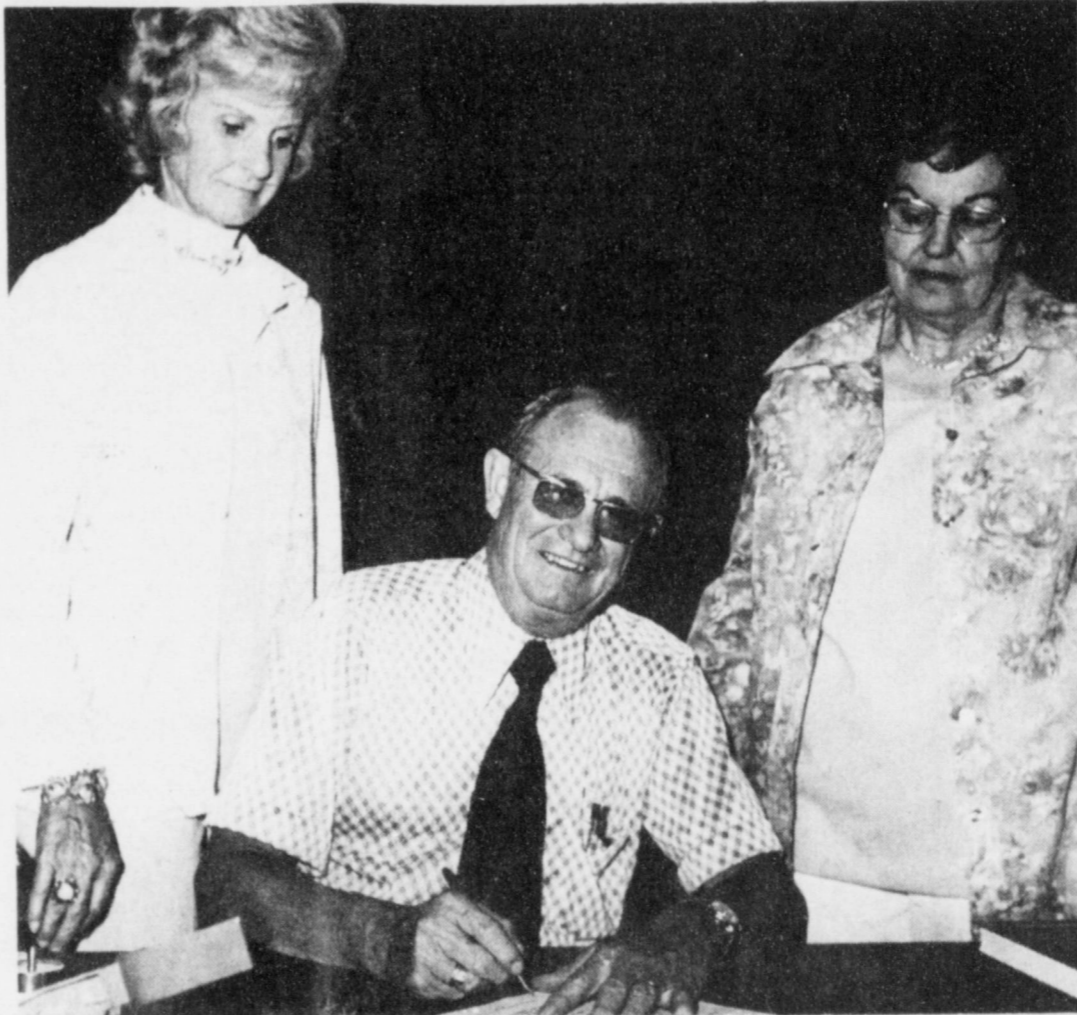

Amarillo Firm Gets Highway Contract

Highway construction contracts let in May by the Texas Highway Commission include work in the City of Muleshoe in Bailey County. The work will be supervised by District Engineer George C. Wall, Jr.

A contract was awarded to Cooper and Woodruff, Inc. of Amarillo. Low bid was \$273,410.41.

The project, which will require an estimated 140 working days, will be under Highway Department Engineer Rhea E. Bradley of Littlefield.

The contract is for curb and gutter, grading, salvage base, asphalt stabilized base and hot mix asphaltic concrete pavement on U. S. Highway 84 in Muleshoe from East 6th Street to West 8th Street, a distance of 0.9 mile.

BEEF FOR FATHER'S DAY . . . Mayor Alex Williams proclaimed the use of "Beef For Father's Day" on June 15, 1975 and respectively urged all businesses and organizations, producers and consumers to cooperate in the observance of Father's Day by serving beef on this day to insure beef will have its rightful place among foods served on special days, and to recognize the importance of the beef industry to our state's economy. Bailey County CowBelles are promoting the "Beef For Father's Day" project in Muleshoe. Pictured with the mayor are Mrs. Frank Hinkson and Mrs. Gene McGlaun of the local CowBelles.

CowBelles Promote Beef For Dad's Day

There's no doubting it, beef on Father's Day is sure to bring a smile to Dad's face. And, with Father's Day, June 15, just around the corner, alert shoppers should be taking advantage now of the many beef specials at the meat counter.

This advice is passed along by Mrs. Frank Hinkson, Bailey County CowBelles Beef For Father's Day Chairman. "Beef has always been on top of the list when it comes to man-pleasing meals throughout the year. So can there be a better way to satisfy Dad on his special day?" For the 22nd year, the American National CowBelles and the Beef Industry Council of the Meat Board are urging American families to honor Dad on his day with beef.

The Bailey County CowBelles will be giving away six \$5.00 beef gift certificates Saturday, June 14, as part of their Beef For Father's Day promotion. Winners will be announced hourly from 10:00 a.m. to 4 p.m. on radio station KMUL.

Anyone registering for the Dad's Day Giveaway, sponsored by the Chamber of Commerce, will be eligible for the beef drawing. The certificates are redeemable at local grocery stores and meat markets. There just couldn't be a better time to buy beef, stressed Mrs. Hinkson. Large supplies of beef are now available and prices are attractive. As in 1974, beef is turning out to be the inflation fighter at the checkout counter.

"Beef for Father's Day has become an American food tradition," says Mrs. Hinkson, "and no wonder, beef is America's favorite food. Always available, always a cut for every budget, always different and always sure to satisfy Dad."

RODEO FINALS SET . . . Pictured is Sherman Presley, one of five Muleshoe boys who will be competing in the Tri-State High School Rodeo Association Finals. The finals will be held June 12-14 in Dumas, Presley, the son of Mr. and Mrs. Jimmy Presley of Muleshoe, is shown in action wrestling. This is only one of six events Presley qualified for and will compete in at the finals.

Wheat Maturing At Very Rapid Rate

Bailey County Agent Spencer Tanksley reports that crops are 100 per cent planted over the county at this time. He also stated that the warmer temperatures in recent weeks have been contributing to the crops maturing at a much faster rate. Farmers are now beginning to irrigate corn and the cotton, grain sorghum and sunflower crops are growing at a fast rate.

Tanksley stated that this year Bailey County has more acres of wheat than has been recorded in the last 10 to 12 years. This is due to the drought of last year and farmers planting wheat last fall when the moisture was finally available. Tanksley said that the area was looking at one of the best wheat crops ever. It's been estimated that they'd yield wheat in the county should yield 20-25 bushels to the acre. The average is only 13-15 bushels per acre. This is partially attributed to the excellent moisture received on the wheat crop this year.

The County Agent said the Cont. on Page 3, col. 1

Burglaries Reported

Muleshoe Law Enforcement officials are investigating two burglaries that occurred in Muleshoe the past week.

About \$300 worth of merchandise and stamps were taken from Pay N' Save No. One on First Street Tuesday night, June 3.

Mills Machine Shop was broken into Thursday night, June 5, and about \$6 was taken from the cash register. Also, there was quite a bit of vandalism committed on the premises.

Investigations are continuing into both incidents at press time.

Doug Wood New Associate Pastor

The new associate pastor of the First Baptist Church of Muleshoe is Douglas Wood. Wood will be in charge of the Youth, Education and Outreach ministries of the church.

He is married to the former Donna Gayann Briscoe and they have two children, Tamra Gayle, 4, and Marc Douglas, 3.

Wood graduated from Dumas High School, Dumas, Texas in 1968. He graduated from Hardin - Simmons University, Abilene, in 1972 and from Southwestern Seminary, Fort Worth, in May of this year. He was licensed to preach in June of 1969 by the First Baptist Church of Dumas, Texas. He has worked as Minister of Youth and Music, Westside Baptist Church, Sweetwater, Texas; Student Coordinator of Religious Activities, Hardin - Simmons University, Abilene; Minister of Education and Youth (Interim), Henderson Street Baptist Church, Cleburne; Minister of Outreach, Pleasantview Baptist Church, Crowley; and Pastor (Interim), Central Baptist Church, Malone, Texas. He also was Staff Artist for three years at Hardin - Simmons University.

Wood has done evangelism and revival work for the last five years extensively in Texas and also in Indiana, Kentucky, New Mexico, Oklahoma, Arizona, Kansas and Colorado.

Piano Pupils, Teachers Attend State Convention

A large group of piano pupils, teachers and family members left Saturday for the Texas Music Teachers' Convention, which is being held at the Shamrock Hilton Hotel in Houston. All of the pupils attending will be presented in an ensemble number on the "Texas Composer's Program" Monday at the convention.

These pupils will be playing the selection "I'm Glad" written by Texas composer, George Anson, and it will be performed on nine pianos. The pupils playing on the program were selected earlier in the year in a local contest, judged by Farrell Roberts of Clovis, N.M.

Pupils playing the Piano I part will be Sheila Jordan, Linda Shafer, Keva Roming, Michelle Agee and Stacey Campbell. Pupils playing the Piano II part will be Sharrisa Henry, Sherri Henry, Jan Whitt and Tena Landers. These are pupils of Mrs. Sam Damron, Mrs. Dale Jahay and Mrs. Jimmy Craft. Mrs. Craft will be conducting the ensemble and she and Mrs. Damron will be accompanying the pupils to Houston.

Parents and other family members going on the trip are Mrs. Jordan, Mrs. Lewis Wayne Shafer, Mrs. Ben Roming, Mrs. John Neil Agee, and John David, Mrs. Tim Campbell and Kristi, Mrs. Kenneth Henry, Mrs. Roy Whitt, Mrs. Henry Landers and Nicky Landers.

Costumes for the ensemble number will carry out the "I'm Glad" theme with red and blue shirts with "happy faces" on them being worn with white pants.

The entertainment highlight of the convention will be a trip to Astro-World, featuring dinner and a show for the group. All state winners in solo con-

Cont. on Page 3, col. 6

School Board Agenda

The Muleshoe Independent School District Board of Trustees will meet in regular session Monday, June 9, at 8 p.m.

The board will hear the current financial report; appoint a tax equalization board for 1975-76 and set date for the meeting; select an auditor to audit school funds for 1974-75 school year; and open sealed bids on...

Summer Begins In Muleshoe

Scientists Watching Soil Profile Change

LUBBOCK -- With 660,000 tons of fertilizer placed on Texas High Plains soils each year, research scientists with the Texas Agricultural Experiment Station here are keeping a watchful eye on chemical changes in the soil profile.

"It's definitely changing," says Dr. Art Onken, TAES soil chemist. "But we don't know at what rate nor what adjustments we should make in fertilizer applications from year to year."

Onken says that he and research associate Herb Sunderman have succeeded in delineating nitrogen changes and have developed procedures for measuring these changes. Nitrogen is the first limiting plant nutrient. Phosphorus is the second most important, and is the next target for comprehensive research. Additionally, the researchers are trying to determine plant nutrient requirements and peak fertilizer efficiency levels for major crops of the High Plains, based on actual farming operations.

"If we were all extremely efficient with our fertilizer, we would solve a number of problems at the same time," he adds. "We would reduce our crop production costs, slow down the rate of change in our soil profile, get peak production yields, and reduce adverse effects on our environment. With thousands of farms, each one with different fertilizer re-

quirements for any given crop, this absolute efficiency is physically impossible, of course."

Research has been conducted with nitrogen, phosphorus, potassium, sulfur and micronutrients. Using data gathered from more than 200 tests and portions of seven major research projects, the researchers have correlated fertilizer needs on major soil types with crops grown on the Texas High Plains. Most of the tests were in cooperation with county extension agents and farmers.

Working with Jim Valentine, who heads the Extension Service Soil Testing Laboratory at the Texas A&M University Agricultural Research and Extension Center at Lubbock, the scientists are continuing to refine their correlations in light of changing plant requirements, soil conditions, climatic factors and cultural practices.

Farmers are able to draw on this and other information available at the soil testing laboratory to have their soil nutrient requirements analyzed. Fertilizer recommendations are made, based on these tests and yield potential.

Over a long period of time, Onken believes, fertilizer use on the High Plains will become more efficient, stimulating higher yields, greater economic returns and reaping additional related benefits.

Fertilizer use over the

last two decades, he adds, has increased 12-fold. With spiraling production costs and limited fertilizer supplies, farmers are developing new fertilizer strategies. This, he believes, will help not only to increase their returns but over a long period will have some beneficial effect in reducing soil changes.

"Our research has continuously shown two factors to be predominantly important in efforts to use fertilizers efficiently," Onken emphasizes. "These are proper timing of applications and proper rates. Best results have been obtained when only enough of the right rates and ratios of fertilizer are used to achieve a given yield goal. This is possible, of course, if supplies are available. If they're not available, then we would want to produce as much crop as possible per unit of applied fertilizer."

Both situations, Onken says, require proper application rates, which in turn require a knowledge of the plant nutrient status of the soil. And that, he adds, requires a soil test.

A good farmer will have his soil tested periodically, Onken explains. This is because the soil changes with each crop that is produced. Sometimes residues of fertilizer are left over because too much was ap-

plied or it was not applied at the right time for the plants to use it up. Soil moisture and down out of the root zone, rendering the fertilizer ineffective. Any number of things can happen, making it necessary for soils to be analyzed.

Soil changes not only from year to year, but over a long period of time can characteristically be affected so that soil amendments may be of little value. Onken points to phosphorus buildup as an example of changes in soil profile.

"Phosphorus accumulates and chemical reactions take place within the soil to form insoluble compounds," he explains. "We don't know at what rate this change is taking place now what effect this will have on

future crop production."

"Aggressive, knowledgeable farmers are a valuable resource to us," Onken says. "In any one year we work with as many as 20 farmers, and we're able to find the soil type and farm management practice to meet our particular research needs."

Probably one of the biggest boosts to the soil research program at Lubbock, he believes, was the development of a precision fertilizer dispenser. With the equipment rigged to a tractor, technicians are able to make precise, complex fertilizer applications much more rapidly than before.

Developed at the Lubbock Center by Onken, Sunderman,

ARS-USDA engineer Alan D. Brashers and shop technicians, the machine is the only one of its kind in the nation.

Still another recent boost to the soil research program was the development of nitrate tests for measuring nitrogen content in soils.

"We've been able to determine nitrates for some time," Onken says, "but the procedures were long and laborious. We realized in 1965 that we were getting some fertilizer carryover in some soil, very likely in the form of nitrates. We needed a research program to determine the build-up of these nitrates and what fertilizers were doing to our yield levels. So we started a five-year research program, and during this time private industry developed laboratory equipment that analyzes nitrates in solution. We were able to get this equipment to use in our research, and refine nitrate measurement pro-

cedures. The soil testing laboratory at Lubbock also acquired this equipment for use in a standard, routine procedure in soil testing.

Onken expects the four research projects he's engaged in to yield additional data for determining plant and soil needs. One project involves evaluation of narrow-row cotton culture; another, nitrate movement in soils around the Munday, Texas area. Still another research effort to determine general crop response with different crop varieties.

The TAES researcher believes that with research findings and new developments in techniques and methods, scientists and farmers can work together to maintain a productive soil profile on the Texas High Plains while increasing yields and income.

Fashion

Raglan sleeves are back in style this season. We see them in coats, blouses and dresses. But they are definitely not for short, plump women as they tend to exaggerate her weight problem.

Some of the new dresses have a yoke effect on the skirt-fitting snugly around the upper part and having gores around the lower.

Frosted hair continues to be popular, especially with those women who have been out in the sun a great deal of the time.

New Cambodian rulers stress ties with China.

Pioneer Gas Takes Position On Fuel

AMARILLO, TEXAS . . .

Pioneer Natural Gas Company officials, in testimony prepared for delivery to the Railroad Commission of Texas hearing in Austin, have taken a position concerning the use of natural gas as a boiler fuel.

Pioneer officials, who are in Austin for the hearing which started on Tuesday, are prepared to tell the Commission that the six points in Pioneer's position are as follows:

1. There should be no restriction on the use of gas for the purpose of generating steam by existing or new customers using less than 100 Mcf per day. Maximum efficiency of the gas usage should be encouraged.
2. The use of gas to create hot water or steam for the purpose of heating and cooling buildings is a superior use of gas and should continue both for existing and new users.
3. The use of gas to create hot water or steam for sterilization, equipment cleaning, steam turbines for air conditioning, process heating, feedstock, agriculture and manufacturing processes should continue both for existing and new customers.
4. Newly-planned plants should not rely on natural gas as a primary source of boiler fuel for the generation of electricity. Where steam is generated by some other primary fuel, natural gas could be used for ignition and other specialized purposes as well as in emergencies.
5. Replacement or conversion of existing plants using natural gas as a primary source of boiler fuel for the generation of electricity should be considered on a case basis looking to the available supply of natural gas, cost of

Master Yourself

Human beings, blessed with a good earth, have made a mess of many things. However, viewed from any distant peak of the past, the present records unmistakable gains, and the natural belief is that the future, compared to the era in which we live, will show similar advances.

The reader of this editorial has a very definite role to play in all the drama that makes up human life. The part may be small, insofar as history is concerned, but large in its effect upon other human beings.

Every man and woman must attempt the mastery of his or her own nature and a productive translation of his or her personality through living among other people, difficulties and faults, inherent in the imperfection of human beings.

conversion and economic waste involved.

6. Each large boiler fuel user and some smaller users be encouraged or required to provide standby fuel facilities and maintain flexibility in the use of fuels.

Company officials are prepared to testify that any immediate drastic change in the use of natural gas as a boiler fuel could have a very serious effect in Pioneer's service area. The hearing in Austin will provide an opportunity for utility companies and owners and operators of gas-fired boilers to present evidence on their position regarding the use of gas for boiler fuel.

For additional information contact Bob Mills (806) 376-4841.

WELCOME TO MULESHOE

MISS DIXIE DAVIDSON

We would like to welcome to Muleshoe, Dixie Davidson, who comes to us from Carthage, Texas. She attended Kilgore College at Kilgore, Texas, and is presently a sophomore. She is very active in Wesley Foundation and also the Ranger Band where she plays the clarinet and holds the office of secretary and treasurer

Miss Davidson is presently the Youth Director here in Muleshoe at The First United Methodist Church. She likes to draw and likes all kinds of art. She also loves to participate and attend musical activities.

aying, musical activities and varied media presentations the six weeks summer program is a rewarding and pleasant learning experience for children. The theme for the program is "Summertime Circus of Fun".

Parental permission forms must be on file for each student participating in the program.

All eligible students are encouraged to attend, and if the parents will come to the Muleshoe Junior High building or contact any of the summer school personnel, they can obtain migrancy forms.

The board will also hear the library circulation report and consider accepting resignations of school personnel. Employment of an assistant band director and auto mechanics teacher will be considered for approval as will the employment of director, teachers, and aides for the Summer Migrant program.

Beef...

Cont. from Page 1
 and the whole family." The American National Cow-Belles and the Beef Industry Council advise shoppers to keep an eye out for the colorful displays that will guide them to their favorite store's Beef for Father's Day specials.

Mayor Alex Williams this week declared the use of Beef for Father's Day on June 15, 1975.

The proclamation stated that "Whereas the beef industry is one of the most nutritious foods, rich in protein and all health-building factors, scientifically proven beneficial to people of all ages, from the very young to the very old; and it is important that the people of Texas recognize the importance of beef in the everyday life of our citizens; and Father's Day, June 15, is an appropriate time to honor the beef industry and its contribution to the strength and welfare of our great state and nation, I proclaim the use of Beef for Father's Day on June 15, 1975."

The proclamation also stated that "I respectfully urge all businesses and organizations, producers and consumers, to cooperate in the observance of Father's Day by serving beef on this day to insure beef will have its right place among foods served on special days, and to recognize the importance of the beef industry to our state's economy."

Rodeo...

Cont. from Page 1
 will be a parade in downtown Dumas and at 2 p.m. the third and final performance of the rodeo will be held.

At 7:30 p.m. Saturday, the annual Awards Banquet will be held at the Kona-Kai and at 10 p.m. there will be a dance. Qualifying to compete in the rodeo from Muleshoe was Sherman Presley who was the only boy in the Association to qualify in all six events, Bare-

back Riding, Bull Riding, Steer Wrestling, Calf Roping, Ribbon Roping and Team Roping. Sherman is president of the Tri State High School Rodeo Association and is the 17 year old son of Mr. and Mrs. Jimmy Presley of Muleshoe.

Eddy Mardis, the 17 year old son of Mr. and Mrs. Clifford Mardis will be competing in three events at the rodeo. They will be Calf Roping, Ribbon Roping, and Team Roping.

Dan Ellis, 17 year old son of Mr. and Mrs. Frank Ellis of Muleshoe will be competing in Calf Roping, Ribbon Roping and Team Roping.

Billy Milburn will be competing in Steer Wrestling in the finals this week. He is the son of Mrs. Barbara Milburn.

Piano.....

RULES

Q-How do I participate?
 A-Fill in and deposit Registration Card and then sign and punch your Jackpot Day Card for first award of \$50.00.

Q-How do I continue to participate?
 A-Punch your Jackpot Day Card at our store each week thereafter for each new award.

Q-How big is each award?
 A-Never below \$50.00. Award increases \$25.00 each week until won, then reverts back to \$50.00.

Q-Do I have to buy anything to punch my Jackpot Day Card?
 A-NO. There is no charge or obligation of any kind.

Q-Do I have to be present to win?
 A-No. Winner will be notified or name posted in our window.

Q-How many times can I register?
 A-ONLY ONE TIME. More than one registration will disqualify the participant. Your Registration Card remains in our Jackpot Day container.

Q-Who is qualified to register and obtain a Jackpot Day Card?
 A-ANY ADULT PERSON.

Q-When and where will the drawings be held?
 A-At our store each Saturday at 2:00 p. m.

Q-If my name is drawn and my card is punched for week before but not for week of drawing, can I win?
 A-NO. YOUR CARD MUST BE PUNCHED FOR WEEK YOUR NAME IS DRAWN.

Q-Can card be punched in advance or ahead of time?
 A-NO. Cards punched in advance are VOID.

Q-Can one person punch Jackpot Day Card for another person?
 A-No. Each person MUST PUNCH his own card.

Q-Who does the drawing?
 A-Some disinterested party not connected with the store.

Q-If I lose my card, or if it gets ruined, can I get another card?
 A-YES, but it is not necessary to register again. We do not pay on card that has been punched ahead or name erased.

Q-Is this program a secret?
 A-NO. PLEASE TELL EVERYONE

Q-How long do I have to claim award?
 A-Until 2:00 p. m. Tuesday following Drawing.

Mr. and Mrs. Tony Perez

Miss Glass, Perez Exchange Vows

Debra Ann Glass became the bride of Tony Perez Saturday, May 17 at 5:00 p.m. at the Immaculate Conception Catholic Church of Muleshoe, Father Tim Schwertner, officiated in the double ring ceremony.

Mr. and Mrs. Charles Robert (Bob) Glass, and Mrs. Mike Perez, Sr., of Muleshoe are the parents of the couple.

An altar arrangement of red, white and light blue carnations surrounded the couple as they knelt before the altar. Cynthia Issac was the organist for the occasion.

The bride given in marriage by her father wore a floor length empire waist gown of white rose point lace over bridal white satin with a v-line neck, and long bell sleeves accented with rose point lace to the wrist. A crown of lace enhanced the floor length veil trimmed in lace. She carried a simplicity style bouquet of white carnations with two red long stem roses embedded and long white ribbons with wedding bells hanging. To keep the bridal tradition, she wore her gown as something new, something old was her watch given to her by her mother and father, something blue was her garter and something borrowed was a diamond pen-

Mrs. Snow Hostess For Hobby Club

The Muleshoe Hobby Club met Thursday, June 5 at the Muleshoe State Bank Community Room with Mrs. H. H. Snow as the hostess. The hostess gift was drawn by Mrs. Allie Barbour.

Present were Mrs. Levina Pitts, showing crewel pictures; Mrs. Henry Bass; Mrs. Allie Barbour showed driftwood and thimbles; Mrs. Charlie Phipps, crochet afghan; Mrs. Conrad Williams (visitor); Mrs. C. E. Briscoe, old thimble and fan; Mrs. Marvin Oswald; Mrs. Barbara Burton, showed bed spread; Mrs. Verna Dement, crochet pillow; Mrs. Sammie Ethridge, decorated wash board; Mrs. Ola Pesch; Mrs. George Chambliss, cookie jar; Mrs. H. H. Snow and Mrs. Clinton Busby (visitor). The next meeting will be June 19 with Verna Dement, hostess.

Enochs H.D. Club

Bernie Danila held the lucky ticket and won the quilt given by the Enoch Home Demonstration Club. The club sold chances on this quilt. A spokesman for the club said they wished to thank each person who bought a chance on the quilt.

50th Celebration Cancelled

The fiftieth anniversary for Mr. and Mrs. C. M. King, scheduled for Sunday, June 8, has been cancelled due to the fact that Mrs. King is in the hospital. She is in the hospital because of burns received from a trash accident.

The Surest
 "Professor: "What is the most potent poison?"
 Student: "An airplane—one drop and you're dead!"

dant she borrowed from her aunt in California.

Janie Perez, sister of the groom, was maid of honor and Henry Lopez, friend of the couple was bestman. The bridesmaids and their escorts were Lorie Flores and Carlos Elizarratez, Melissa Williams and Marty Gray, both of Jackson, Miss., Kathy Nolen and Royce Williams, both of Jackson, Miss., and Anna Hernandez and Ray Martinez of Bovina. The sponsors were Mr. and Mrs. Floyd Gafford, Mr. and Mrs. Jabier Garcia, Mr. and Mrs. Richard Laredo, Mr. and Mrs. Mike Perez, Jr., Mr. and Mrs. Gilbert Lamb, Mr. and Mrs. Henry Toscano, Mr. and Mrs. Del Toro, Mr. and Mrs. Gilbert Castorena, Mr. and Mrs. Joe Lopez, Mr. and Mrs. Joe Elizarratez, Mr. and Mrs. Armando Flores, Mr. and Mrs. Ernest Perez, Mr. and Mrs. Joe Guerra, and Mr. and Mrs. Manuel Garcia. The flower-girl was Cristy Guerra, niece of the groom. The train carriers were Norma and Mondito Del Toro, niece and nephew of the groom.

The maid of honor wore an empire waist, halter, floor length dress of white double knit with a white waist jacket trimmed with blue feathers. The bridesmaids wore empire waist, red, double knit, floor length dresses with long puff sleeves. The women sponsors wore the same except in light blue double knit.

Out of town guests for the wedding were Mrs. Junior Williams and daughter Melissa and son Royce of Jackson, Miss.; Mr. and Mrs. Frank E. Smith, Sr., of Jackson, Miss., the grandparents of the bride; Diane Yeatman, of Stewart, Miss.; Mr. and Mrs. Frank E. Smith, Jr. and daughter Angie and sons Kerry and Brad of Jackson, Miss.; Mrs. Emmitt Jones and Terry, of Canogo Parks, Calif.; also Mrs. Mike Mendoza and son Aaron, of Burbank, Calif.

A reception following the ceremony was held in the Catholic Center. The servers

were Mrs. Vernon Brown and daughter Francis. The table was decorated with a white table cloth with a four tiered wedding cake as the center-

piece. The cake was the traditional pure white with the brides selected flowers as decoration on the cake. For traveling, the bride

chose a maroon pantsuit accented with a white jacket. The couple will reside at 206 W. 11th, Muleshoe, after May 31.

Methodist Church Plans Vacation Bible School

Mayse is a graduate of West Texas State University and is employed by the Reuter Pipe Organ Building Company in Lawrence, Kansas. The couple plan an August 8 wedding at the First Baptist Church of Muleshoe.

The year book was ready to go to press and was approved. Present were: Ada Murrah, Zelma Fred, Bonnie Long, Elinta Key, Lillian Fort and Wilma Petree.

Nancy Ramm To Attend Citizenship Course

About 23 4-H'ers from throughout the High Plains will join other young Texans in Dallas June 9, to embark on a heritage tour to Washington, D. C. and points in between. They'll be participating in a six-day National 4-H Citizenship Short Course in the nation's capitol. The delegation will include Nancy Ramm from Bailey County, said Mrs. Robin Taylor County Extension agent. Accompanying the group will be two 4-H adult leaders from District 2 - Mrs. Barbara Airhart and Mrs. Novell Griffin, both of Lamesa. They are among the five adult leaders selected from throughout the state to accompany the group. In all, the trip will cover 15 days travel to and from the nation's capitol, by charter bus. 4-H members entering their junior or senior year in high school next school term are eligible. The 94 Texas youth and their leaders will leave Dallas June 10, arriving in Washington, June 15. The excursion will take them through Tennessee and Virginia, with visits to historical sites at Gallatinburg, Tenn., and other points. In Washington, they'll participate with other youth from throughout the nation in a six-day citizenship short course. The program, Mrs. Taylor said, is designed to supplement the citizenship education and leadership development training young people receive through the home, school, church and other organizations. Citizenship short courses are conducted at the National 4-H Foundation in Washington. Topics relating to the individual's concept and responsibilities of citizenship are covered in assemblies and opportunity sessions at the center. Learning experiences are gained through visits to operational centers of many branches of government and to memorial centers in the nation's capitol. Topics on the agenda of the 4-H'ers will be a visit with their local congressman.

Little Miss Contest

The Muleshoe Jaycee-Ettes are sponsoring a "Little Miss Firecrackers" Contest. This contest will be held during the month of June with the winner or winners announced in the Bailey County Journal and on KMUL June 29th. The contest is open to any girl between the ages of three to five years of age in Bailey County. If there are enough entries in each age group, contestants will be judged separately, and winners from each group will be named. Contestants will be judged on a picture no larger than 5X7 and no smaller than 2X3. Pictures will not be returned. Entry fee will be \$1.00 per child. Judge will be Mrs. C.E. Simmons of Plainview, mother of five children. Entry deadline is June 23rd. Bring entries to: Mrs. Butch Duncan, 807 W. Ave. J, Phone 272-3649; or Mrs. Larry Goree, County Extension Agent's Office, Phone 272-4033 (after 5:00) or mail to: Mrs. Larry Goree, Box 783, Muleshoe, Texas 79347. Winners will receive a prize and ride in the July 4th parade.

They will return via Christiantburg, Virginia, and Oakridge, Tenn., touring other historical sites enroute home. The group will return to Dallas July 24.

Prepared

Editorial

McGovern Again

After his visit to Cuba recently, during which he held a long conversation with dictator Fidel Castro, 1972 Democratic presidential candidate George McGovern came back to Washington and called his top advisors of 1972 to a meeting in his home.

The subject? Should Senator McGovern (South Dakota) run again in 1976? The consensus of his top advisors was that as of now he shouldn't. McGovern agreed to that decision.

Nevertheless, the question was left open—and the possibility that McGovern will again be a candidate, in case no suitable Democratic candidate emerges strongly, exists.

Some of McGovern's former aides feel his views on South Vietnam, Cuba, and in other areas, have been confirmed by events. They see the downfall of Richard Nixon as an indication the 1972 presidential vote is no longer meaningful.

McGovern to them remains a dark horse on the Democratic nomination scene. The longer no other Democrat moves into a dominating position, George Wallace continues to gain support, and Ted Kennedy stays out of the race, the greater chances are McGovern will undertake another effort to win his party's nomination in 1976.

Beef Prices Jump

College Station—Beef prices jumped up a bit this week, and poultry is holding last week's price levels or creeping a "shade higher."

One observer cites lighter weight cattle coming to market for the beef increase. "Lighter weight cattle mean less meat is available," Mrs. Gwendolyn Clyatt, consumer marketing information specialist with the Texas Agricultural Extension Service, The Texas A&M University System, said.

She termed chuck roasts and steaks, round steaks, some boneless roasts, ground beef and liver "best values."

Library News

By Anne Camp

The 1975 Summer Reading Club Program is going just great. In the first week the library checked out 1,443 books; and the children are working on their posters, and some have already read 12 books and received a certificate.

There is still plenty of time for boys and girls to join the Summer Reading Club. Parents are urged to bring their small children who can read to the library for this fun program. It is a proven fact that many children who read lots of good books in the summer do much better school work in the fall.

So boys and girls, if your parents can't bring you to ride your bicycle, get a group and come in the old jitney, or hitch up old Dobbin and ride him to the library—but just don't miss out on this fun reading club this summer!

Recent new additions to our shelves are: A set of brand new Sports Encyclopedias (and even the "now" people in sports are treated in depth); A 20 vol. set of the Encyclopedia of Photography; 2 Vol. The Glory and the Dream; The Artist's Market—listing 2,123 places to sell your illustrations, fine art, cartoons, crafts and designs—(Local artists—take note); The Bermuda Triangle by Berlitz; the Woman he Loved—about the Duke and Duchess of Windsor; Bread of Faith, the fall of Richard Nixon by Theodore White; A Livestock Judging Handbook; Spindrift by Phyllis Whitney; The Moneychangers by Arthur Hatley; The Glory and the Lightning by Taylor Caldwell; Something More by Katherine Marshall and Black Sunday by Thomas Harris—many of which are on the Best Seller Lists now. We also have the book Goodbye Allergies by Blaine which a number of people have requested and everyone who suffers from any form of allergy should read. For any of these books just call the Library, 272-4707 and have them put on reserve for you.

We had an unusual visitor this week, Ruth Windsor, who came to find out if a librarian and from Merkel, Texas and who lived here back in the 1940s; married the Supt. of School here at the time, and had her daughter born here in 1944. Mrs. Windsor left the library a check for \$100.00 in the night deposit box, with a very nice note saying how much she was impressed with the Muleshoe Library, its housing, collection and the friendly staff. Needless to say the note just made our day, and the money can certainly be used for a much needed item in the library.

buys still may be found on turkeys, and canned tuna, particularly at sale prices, is another good protein buy."

At vegetable counters cantaloupes are more plentiful with lower prices. Items with "attractive" price tags include bell peppers, okra, some salad greens and snap beans.

"Watermelon prices remain relatively high, and dry onion prices are holding to high levels due mostly to a reduced supply."

"High-quality vegetables on the market are squash (yellow, zucchini and white), potatoes, corn, cabbage, beets, collards, mustard greens, cucumbers, green onions and radishes," Mrs. Clyatt said.

Fruit buys this week range from lemons and oranges to bananas, strawberries, pineapples, avocados and apples.

CONSUMER WATCHWORDS: Ice cream packed in an ordinary waxed-cardboard carton will keep quality longer in a home freezer if you wrap the carton in heavy aluminum foil.

BARBEQUE HELD . . . A barbeque was held last week at the Immaculate Conception Catholic Church in honor of Father Tim Schwertner. Pictured are some of the church members as they helped prepare the barbeque.

The Genius
"Dad, it says here that a certain man was a financial genius. What does that mean?"
"That he could earn money faster than his family could spend it."

ASCS Conservation Program Sign-Up Set

The Bailey County ASCS Committee announces that the 1975 Agricultural Conservation Program sign-up will begin June 2 through 30, 1975. These are the practices to be done now, not this fall. The practices in effect this year are

Consumer Index

Washington --- The Consumer Price Index rose 0.5 percent in April to 158.6 (1967-100), the U. S. Labor Department's Bureau of Labor Statistics has reported. Prices rose for many items including used cars, furniture, houses, gasoline, magazines, auto insurance, natural gas, and some food items, notably fresh fruits, eggs, and beef. Prices declined, however, for many other food items particularly fresh vegetables and sugar. Mortgage interest rates were lower.

On a seasonally adjusted basis, the CPI rose 0.6 percent in April, compared with 0.3 percent in March. The rise in the CPI had become progressively smaller since last fall—from 1.2 percent in September, to 0.6 percent in January, 0.5 percent in February, and 0.3 percent in March. The larger rise in April reflected an upturn in food prices following 2 months of decline and a larger increase in nonfood commodities.

The food index increased 0.4 percent in April, after declining 0.6 percent in March and 0.3 percent in February. The April rise in the food index, however, was moderate—compared with increases early this year and in late 1974. The upturn was primarily due to price increases for meats and eggs. Beef prices increased for the first time in 7 months. Prices for many foods continued to decline. Sugar prices, par-

establishing permanent grass, constructing terrace systems, waterways, and reorganizing irrigation systems. The office will have some other practices this fall that will be more of a seasonal practice.

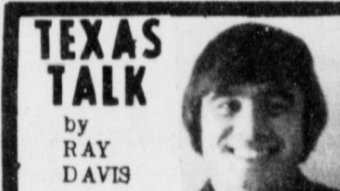

When farmers make app-

ticularly, fell substantially. Prices for cereal and bakery products decreased slightly in April, after rising rapidly for about 2 years. Increases for nonalcoholic beverages and other processed food items were smaller than in recent months.

The index for nonfood commodities increased 0.8 percent in April, compared with 0.5 percent in March. Monthly increases in this index have fluctuated within this range—0.5 and 0.8 percent—since last summer when the index was rising in excess of 1.0 percent per month. In April, gasoline, coal, home maintenance and repair commodities, and furniture prices increased more than in recent months, and house prices continued to rise. Price increases were smaller than in recent months for many items including new cars, recreational goods, drugs and prescriptions, toilet goods, and alcoholic beverages. Apparel prices averaged unchanged, continuing the stability evident since November.

In April 1975, the CPI was 10.2 percent higher than in April 1974. The food index was 7.9 percent higher, while the nonfood commodities index and the services index were both 11.0 percent higher than their April 1974 levels.

Urge stiffer cigarette warning as use sets record.

TEXAS TALK
by RAY DAVIS
Thickening the spread thins the profit. "Spread" is the farm-retail spread, i.e., the difference in what consumers pay and farmers receive for agricultural products. "Thickening" is the unusual increase the "spread" has gone through in the past year. In January of 1974, farmers received 46 cents of a market basket dollar... by December their share was down to 41... this year the figure could be less than 40. Growth of the "spread" is causing officials to launch specific investigations into agricultural marketing and distribution systems. Suggestions are being made to locate processing plants closer to the producer, to increase efficiency in food transportation, to locate major supermarkets in central-city areas and to take a second look at effects of labor unions. Success in shrinking the "spread" will work well for everyone. The producer will get a larger share of the money spent and the consumer will receive more product for his food dollar.

Florida group formed to check on condominiums.

ability of the practice. Farmers are urged to remember that to be eligible for cost-shares they must make application before the practice is started.

The final planting dates for cotton and feed grain are the same as last year. They are for the ASCS's use in approving prevented planting. Crops must be planted up to these dates if conditions permit, otherwise farmers are entitled to apply for prevented planting credit within 15 days after these dates: June 5 for cotton; and June 20 for feed grain.

This year program compliance will be tougher. Producers should make sure they are within five percent of what they

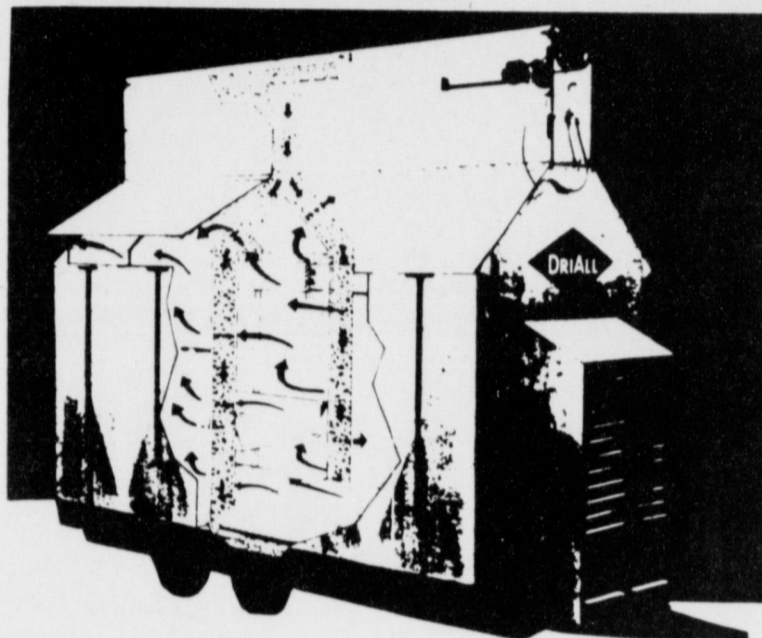

certify, otherwise a penalty will be applicable. This will be over or under on the acreage. All acreage must be certified by August 1, 1975, or before any failed acreage is destroyed to be eligible for

program benefits. Crop appraisals will be applicable this year. If farmers lose any acreage be sure and check with this office before destroying the crop residue.

SAVE ON GRAIN STORAGE

20% DISCOUNT ON ALL BIN ORDERS RECEIVED DURING JUNE

SIoux STORAGE BINS

The large perimeter chamber combined with high airflow per bushel and color weather computer finishes even heat distribution and evenly dries grain throughout the bin. Even distribution plus even heat plus even unloading equals uniform drying at highest capacity and lowest cost.

AUTOMATIC FEED
All units are equipped for automatic loading. The bin switches let the driver automatically dump truck wagon or well storage.

DISTRIBUTING SYSTEM
Uniform drying is assured by this automatic system which distributes the grain evenly over the full length of the bin and keeps it from piling up at the end that could cause uneven drying.

TOTALLY ENCLOSED
Weather-tight and front enclosure reduce recirculation, increase drying capacity and protect grain from dust and debris. The roof saves you valuable down time in case of rain or snow.

SAFE VAPORIZER
In DriAll models using LP Gas, low temperature vaporizers are safely located in the perimeter chamber away from flame as compared to other type systems that are located directly in the frame that can be potential fire hazards.

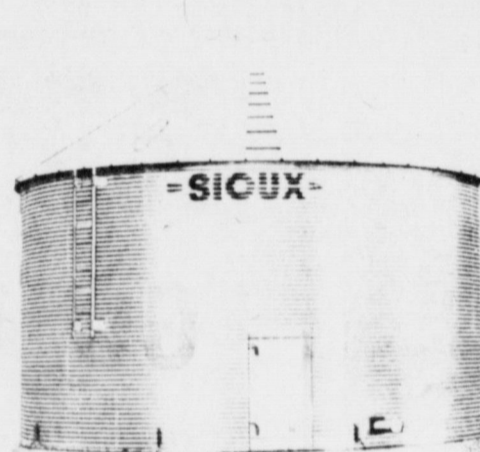

SIMPLE CONTROLS
Easy to read temperature limit frame out loss of airflow, and thermostat temperature controls provide quick effortless control.

FRONT ENCLOSURE
Reduces the noise level and provides operator safety, as well as reduces recirculation of the air to increase efficiency.

AIRFOIL FAN
Specially designed for delivery correct airflow for uniform high speed drying. Blades can be factory set for various power sources.

INDUSTRIAL BURNER
Heavy duty burner especially designed for low moisture provides precise combustion and heat distribution. Optional diverter unit can be added at any time.

POWER OPTION
Either power take off (PTO) or electric drive may be selected for any 1 1/2" model.

Bula News
By Mrs. John Blackman

W M U met Tuesday at 2:30 p.m., at the church, with Mrs. E. O. Battles in charge of the study on English Language and the church over seas, with the country of Santo Domingo. Mrs. Richardson read the prayer calendar with Mrs. Fred Locker giving the opening prayer and prayer for the missionaries. All present participated in the lesson discussion. Mrs. Richardson also closed the study by offering the benediction. Others attending were Mrs. C. A. Wil-

iams, Mrs. J. R. Teaff, Mrs. P. R. Pierce and Miss Vira Tugman.

Mrs. A. M. McBea returned last of the week from a months visit with her daughter and family Mr. and Mrs. Perry Spell and children Perry III, and Lisa of Chattanooga, Tenn. She got to do much sight seeing while there, she says the smoky mountains were just beautiful.

Mr. and Mrs. John McCormack and children Danny, Heather and Cornell, left Friday evening late for Lubbock where they spent the night with friends, then on to their new home at Lawton, Okla. Mr. McCormack has been with the Bula School as secretary and typing teacher the past year. He will now be connected with the chain of McDonald Restaurants.

Wade Walden of Lubbock, came for his grandmother Mrs. Pearl Walden and she went to Lubbock and spent two days and nights visiting with her son and wife the Clifford Waldens and a daughter, Mrs. Goldie Nixon, all in Lubbock.

Mr. and Mrs. Gene Bryan drove to Big Springs Sunday afternoon, and attended the funeral Monday for a friend Mrs. Bill (Janie) Townsend, held at the funeral home there and buried in the Big Springs cemetery.

Mr. and Mrs. John Gunter of Muleshoe were visiting in the community with friends Wednesday afternoon. The Gunters have been missed so much since they moved to Muleshoe from the Enochs community.

To help Mrs. Lula Harlan, patient in the Amherst hospital enjoy her 80th birthday Sunday, were her son Mr. and Mrs. Nolan Harlan and son John David of Bula, their daughter Mr. and Mrs. Rodney Marshall of Whittier and Mrs. Mary Britt, Amherst. They sang to her, also served birthday cake and punch and brought her a basket of birthday gifts sent by friends to her.

Mr. and Mrs. Gene Puckett of Conroe, accompanied their daughter and husband Mr. and Mrs. Pat Casey of Lubbock, to Bula Sunday, and attended morning services at the Church of Christ, where they heard their son-in-law Pat Casey preach.

Pat will be leaving his work here at Bula soon, his plans are to secure more assistance, and soon will be going to Yugoslavia, for mission work.

Mr. and Mrs. Edward Crume assisted their daughter and husband Mr. and Mrs. Danny Paul Smith in moving from Lockney to Dallas. They moved the past week.

Lowell Walden of Earth and grandson Rickey Kennimer of Muleshoe spent Sunday afternoon and night with Mrs. Pearl Walden, and took her with them to Muleshoe Monday to spend the day.

Mrs. Tom Bogard and Mrs. F. L. Simmons enjoyed Saturday visiting with friends, Mrs. Janie Thompson and Mrs. S. A. Williams at the Knights rest home and to the Amherst hospital for a visit with Mrs. Lula Harlan.

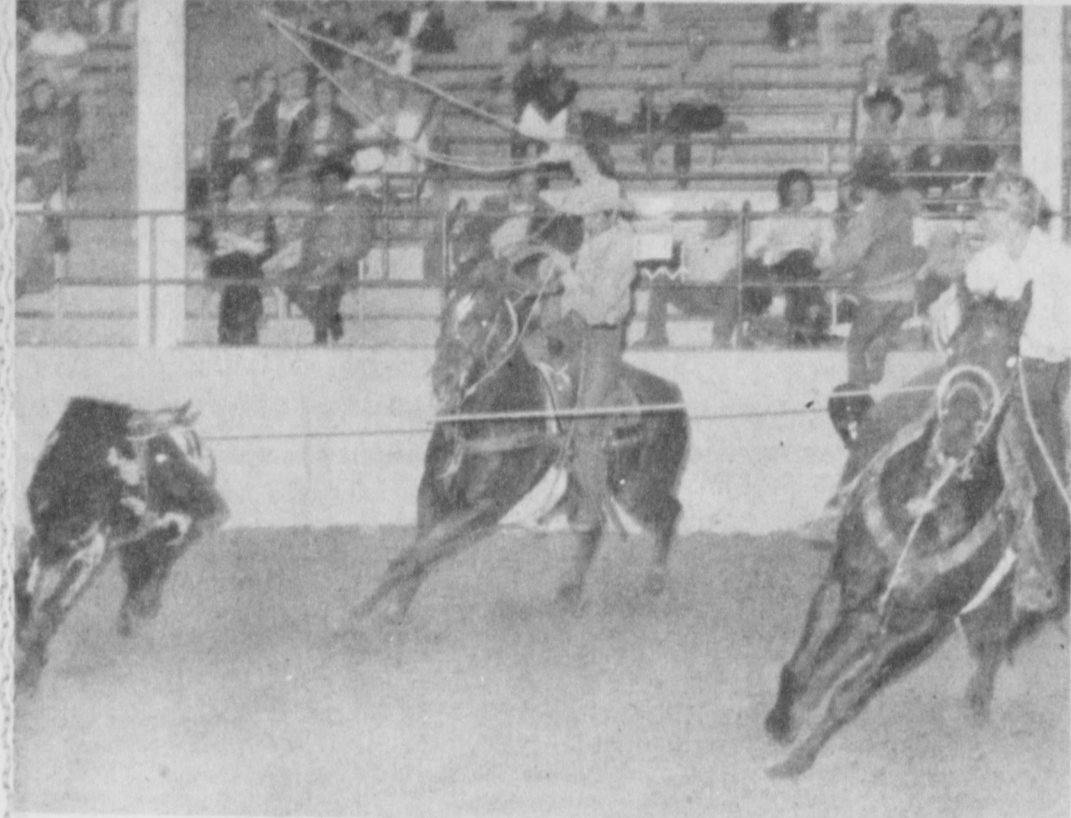

First through the sixth grades drove to Clovis Tuesday for their end of school picnic at the park and zoo. Some also enjoyed a skating party. At noon hour they had a feast of sandwiches and cookies prepared by the lunchroom cooks. Mr. Pickard went to drive the bus. Teachers going were Mrs. Res-

sie Morrison, Mrs. W.C. Risinger, Mrs. Carolyn Sntker, mothers were Mrs. Darnell Williams and Mrs. John Autry.

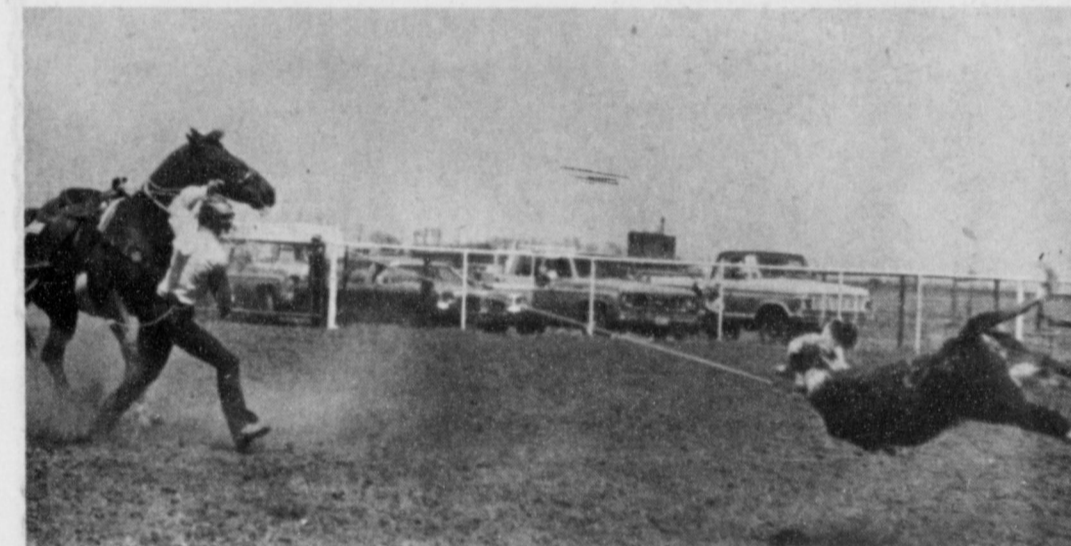

Shawnee, Okla. to attend the graduation of their son Steve from Oklahoma Baptist College, at Shawnee.

Mr. and Mrs. James Sinclair and daughter, Kelly, left immediately after graduation exercises Friday evening for

Shawnee, Okla. to attend the graduation of their son Steve from Oklahoma Baptist College, at Shawnee.

TEAM ROPING . . . Dan Ellis, son of Mr. and Mrs. Frank Ellis of Muleshoe, will be competing Thursday, Friday and Saturday in the Tri-State High School Rodeo Association Finals in Dumas. In this action shot he is shown team roping with Eddy Mardis. Ellis will also be competing in Ribbon Roping and Team Roping.

CALF ROPING ENTRY . . . Eddy Mardis, son of Mr. and Mrs. Clifford Mardis of Muleshoe, is shown in action in one of the events he will be competing in at the Tri-State High School Rodeo Association Finals. The finals will be held in Dumas Thursday through Saturday. Mardis also qualified to compete in Ribbon Roping and Team Roping.

AREA FARMERS:

All interested in your Cooperative Handling Corn to give better service to area farmers. We need to sell at least \$100,000.00 in First Preferred Stock at 8% per annum. Come by the office of your Association and make your pledge now. The deadline is June 13th. Think about it and act now.

There will be a meeting for anyone interested in the Association Handling Corn at the Association Office, Tuesday, June 10th.

4 SEASONS RV CENTER

West of Clovis, U.S. 60-84, Ph. 763-4650

A weekly public service feature from the Texas State Department of Health

Accent on Health

J.E. PEAVY, M.D., Commissioner of Health

You don't have to let mosquitos take a bite out of your summer fun if you'll take a few preventive measures in advance.

This is the word from our Texas State Department of Health, which has long experience in this field.

Bountiful--and frequent--spring rains throughout most of Texas have left the state ripe for mosquito infestations in practically all areas. Perhaps you've already seen and felt evidence of a mosquito hatch in your own yards, or in a camping or picnic area.

It only takes a little standing water and some adult mosquitos to bring on the pain, discomfort, aggravation and sometimes disease from the pesky insects.

Water in which to pass their early life stages is a necessity for mosquitos. Adult flying mosquitos frequently rest in grass, shrubbery or other foliage but they don't develop there. In walking through such areas you can run into a swarm of them, leading you to believe they hatch out there.

eggs in standing water where they hatch in a day or two. Other mosquitos lay their eggs in old tires, tin cans, or other water-holding containers in which they may remain unhatched for weeks or months until they are covered with water.

With both types of mosquitos, the wigglers or larvae grow quickly and turn into tumblers or pupae. Soon the skin of the tumbler splits open and out climbs another hungry mosquito--looking for you as its victim.

In addition to being pests, says the State Health Department's Vector Control Division, mosquitos can spread disease. Such diseases as encephalitis, yellow fever, dengue fever, and malaria are common diseases spread by the flying insect. They are major health problems in other parts of the world.

One of the latest epidemics of mosquito-borne diseases in Texas was Venezuelan Equine Encephalitis (VEE) which struck the state in 1971 after entering through Mexico. The disease hit many people--mostly in the Rio Grande Val-

ley--and made heavy inroads into the half-million horse population.

While mosquitos are a threat to health and bodily comfort, there is something that you as an individual can do

to ease the situation and lessen the job of local and regional health organizations and mosquito control units.

These could be called the Ten Commandments of Home Mosquito Control. They are:

1. Empty, remove, cover or turn upside down any receptacle that will hold water--particularly old bottles and tin cans.
2. Change water and scrub vases holding flowers or cuttings twice each week--or grow cuttings in sand.
3. Discard old tires or store them indoors.
4. Screen rain barrels and openings to water tanks or cisterns. Seal cisterns not in actual use.
5. Repair leaky plumbing and outside faucets. They may cause standing water in which mosquitos can hatch.
6. Connect open waste-water drains to a sewage system, or construct separate sump or leach lines.
7. Clean clogged roof gutters and drain flat roofs.
8. Fill holes in trees with sand or mortar, or drain or spray them, as required.
9. Stock ornamental ponds with mosquito-eating fish.
10. Clean and drain evaporative coolers frequently.

These tips will help you prevent mosquitos from reproducing. Your health department may have a summer spraying program to rid infested areas of the insects. You can keep your window screens in good repair, screen fireplaces and other openings and also kill all mosquitos inside your residence with proper insecticides.

What if you're going into areas where mosquitos may be prevalent? There are several repellants on the market which can be used on exposed areas of your skin to drive the insects away. Used on clothing, they may also protect you from chiggers and ticks.

The State Health Department wants you to have a safe, happy summer and reminds you that now is the time to prepare for it where mosquitos are concerned.

SMILES

What He Learned
"What did mama's little boy learn in school today?" simpered a lady to her offspring.
"I learned two boys," responded junior, "not to call me 'mama's little boy'."

Well, Isn't It
Teacher--Now, can any of you girls tell me what a mandate is?
Bright Girl--It is an appointment with a boy friend.

At Long Last
She had begged her husband for months to have his picture taken. At last he decided to go through the agony, but when the proofs arrived, she exclaimed in horror, "Oh, there's only one button on your coat."
"Thank, heaven," he said, "You have noticed it at last."

CANCER Answerline

American Cancer Society

A rancher explains: "My great-aunt from England is visiting with my family for a while and I worry about her because she insists on staying out under our Texas sun. I'm sure it's not good for her."

ANSWERline: You are wise to be wary. Senior citizens and too much sun just don't mix well. Elderly people are susceptible to skin cancer when they take too much sun. If your aunt prefers our sun to England's famous weather, please treat her to a big sun hat!

Question: "How did the Pap test get its name?"
ANSWERline: The Pap test, the famous and extremely important early diagnostic test for cancer of the uterus, is named for the man who developed it, the late Dr. George Papanicolaou.

A busy mother explains: "My favorite uncle died of cancer a month ago and although I don't have much free time, I'd like to do something to help in the fight against cancer. What can I do?"
ANSWERline: Please check with your local American Cancer Society office. There are dozens of important tasks for volunteers and the ACS can make good use of whatever time you can spare. For example, a free hour could be used to transport cancer patients to treatment centers, or you could explain health habits to school children.

Question: "Does this country have the worst problem in the world with cigarette smoking?"
ANSWERline: Cigarette-related disease is a great American problem. Indeed one authority calls it an epidemic. However, Scot-

land, England, and Wales have the sad distinction of leading the world in lung cancer deaths.

A young woman writes: "I have heard that people over 40 should have a 'procto'. I want my parents to have this kind of protection. But I can't bring myself to talk about anything as personal as a test for bowel cancer with them."

ANSWERline: Your sense of caution or rather, precaution, is very good. A "procto" is a way of finding possible bowel cancer early. If your parents have regular checkups your physician might suggest the test. If not, ask your local ACS to send your parents some information about the importance and need for both checkups and proctos. That way they'll get a valuable idea for continued good health and you won't have to introduce the subject yourself. If they then delay having a checkup, you might do a little nagging. Please remember that there is nothing embarrassing about doing all you can to help save people you love.

Question: "Isn't it true that cancer is exclusively an old person's disease?"
ANSWERline: No. While half of cancer deaths occur among people over 65, cancer strikes all ages. In fact, more school children, about 3,500 die of cancer than from any other disease.

A regular feature of this newspaper, prepared by your American Cancer Society to help save your life from cancer.

ATTEND CHURCH

"For where your treasure is, there will your heart be also"

MAKING WAY...

The drawbridge makes way for the boat to come into the city and down the canal. Dredges make canals in open waters such as the gulf to make way for ships to travel an inter-coastal waterway. Police officers and secret service men clear a path in the crowds to make way for an important foreign potentate so that he might arrive at his destination.

Church members are the ones who can clear the way, and show the right path to those who have not found the way to our Lord.

Isaiah 40:3B reads, "Prepare ye the way of the Lord, make straight in the desert a highway for our God."

Support your church in every way you can. Ask someone to attend church with you this week.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

"I wouldn't trade my M-C DRYER for TWO of ANY OTHER MAKE."

Roger Heimsoth, Union, Illinois

Roger Heimsoth's M-C 600B10 is in its third season. And when you ask him how he likes his M-C, he'll tell you he's "very happy with it." Among the things he'll tell you is that it's simple, easy to operate and that he's had "no trouble at all." Roger goes on to say "there's more steel... more quality put into it than any dryer I've seen and there's nothing to wear out except maybe a belt." About its capacity, Roger says, "I really have to hustle my 4-row combine to keep up with it." Is Roger's experience unusual? Ask any M-C owner! When you're thinking about a grain dryer take a good long look at an M-C Continuous Grain Dryer. They're made in 14 models with capacities to 500 bushels per hour... in Single, Three Phase, or PTO models for LP or Natural Gas. May we send you details?

Grain shippers have also been under pressure to participate. A loading delay could cause penalties as high as \$20,000 a day in demurrage charges and some Gulf port inspectors have been charged with accepting bribes as high as \$5,000 to certify ships with dirty holds as clean.
 Critics put part of the blame on the Agriculture Department because U. S. wheat exports almost doubled from 1971 to 1972 when the Russians made their huge purchases, but

EQUAL OPPORTUNITY EMPLOYER

FGC Official Tours European Countries

Officials of the U. S. Feed Grains Council are finalizing plans for a seminar of field, industrial and animal waste to be conducted in Yugoslavia in October. The program, designed to increase use of American feed grains, is expected to attract delegates from 15 Eastern and Western European countries and Russia.

Heading the project are council chairman Elbert Harp of Abernathy, Tex., and council president Darwin Stolte of Washington, D. C. They are currently on tour of East Europe, inspecting council facilities and promoting the use of feed grain imported from this country.

Harp is executive director of the Lubbock-based Grain Sorghum Producers Association, which was instrumental in the formation of the council in 1960, and the Texas Grain Sorghum Producers Board.

While touring Yugoslavia, the USFGC officials participated in the Novi Sad Trade Fair, which attracted displays from farm machinery to food products from 45 countries. The council booth featured a slide show on council activities.

especially the use of U. S. feed grains in livestock feeding.

One day of the fair was devoted to addresses by representatives of the feed grains council and the Soybean Council of America.

Harp urged the Yugoslavians to consider long term commitments for grain purchases from the United States, pointing out that such agreements "assure both buyer and producer that adequate supplies will be produced for a steady market."

"This seems to be a positive and favorable approach to solving some of the problems of both the exporting and importing countries," Harp said. He said that the U.S. has entered into many such trade agreements with other countries, mentioning specifically recent signing of a contract with the government of Norway for large shipments of grain to

be delivered periodically during a three-year period.

"This is a commitment from our grain traders that they will secure and deliver the agreed quantity of grain as the contract states," Harp said. "It is also a commitment from our customers to our producers that ready markets will be available for that volume of grain."

"As we look forward to the crop of 1975, we expect to have a record production. This means that we should harvest ample supplies of grain for both domestic and export purposes this fall and be capable of delivering record levels of grain for export in 1976," Harp said.

Also participating on the program were Stolte, who spoke on the world grain situation, and John Baumgardner of Lubbock, Tex., animal science professor at Texas Tech University, who spoke on animal nutrition, high

representatives to a governing board which decides how many acres of various crops to produce and then how to process and market them.

The workers are paid salaries based on the type of work and the amount of experience and productivity they have, Harp said. "The profits are divided among the workers as bonuses at the end of the year or part of it is held back for expansion of the combinant, in addition to their salaries, the combinant employees are furnished with apartments, dine in restaurants at combinant cost and vacation at combinant resorts. They are also provided with free schools and free medical treatment."

Harp pointed out that there are many combinants in Yugoslavia, each competing with the others. He relates a conversation with a native Yugoslav who described the combinant as "a socialistic system which combines the best of socialism with the competitive spirit of capitalism and gives all the

energy grain rations and the use of waste material in cattle rations.

The council executive toured a Yugoslavian combinant, a large agricultural unit with some 100,000 acres in production.

"About 60,000 acres are in crops of all types such as sugar beets, corn, wheat and others," Harp said. "But the combinant is not only in the farming business, it is a totally integrated business with sugar mills and dairies. They are now milking about 20,000 cows and they process milk into cheese and ice cream and distribute them directly to the public through restaurants and supermarkets."

The 100,000 combinant employees are divided into various groups of tractor drivers, hand laborers, engineers, managers, etc., each working together. Each segment elects

workers a goal to work for ... of which their reward would be based on the success of the entire combinant."

The USFGC is an organization of farm commodity groups and agribusiness firms dedicated to improving foreign markets for American grain

products. The council works under contract with the Foreign Agricultural Service of the U.S. Department of Agriculture to develop markets throughout the world.

Harp and his wife, Clara, are expected to return to Lubbock June 8.

THE FAMILY LAWYER

Nosy Nurse

Agatha, a registered nurse, believed in taking lots of initiative in her work. Among other things she meddled in the private affairs of patients, overruled medical instructions from doctors, and denounced doctors and patients to each other with fine abandon.

Finally, on the basis of repeated complaints, a state board revoked Agatha's license. She carried a protest into court, but the board's action was upheld.

Nursing, like the other healing arts, is usually subject to supervision by a state board set up to safeguard the public. Although regulations vary, they generally impose a high standard of conduct in keeping with a nurse's responsibilities.

But the courts also recognize that revocation of a nurse's license is a drastic punishment, not to be imposed lightly.

Thus, the night nurse in an obstetrics case, asked by the patient to call a doctor, decided it wasn't necessary. Was this adequate grounds, as alleged afterward, for revoking her license?

A court said no, pointing out that the patient (1) had gotten good care from the nurse, and (2) had not really needed the doctor after all. The complaint was too minor, said the court, to justify such a penalty on the nurse.

Of course nurses, like doctors, may be held liable for malpractice—such as carelessly giving a patient the wrong medicine.

But there is no malpractice if there is no negligence. In another case, a woman patient who had fallen out of her hospital bed sued the nurse for failing to put up bed rails. However, there had been no instructions from the doctor about bed rails, nor any advance indications that they were needed.

Finding no malpractice, the court said a nurse could not be held liable merely because something happened to go wrong.

SCHEDULE OF EVENTS

MONDAY, JUNE 9:
10:00 a.m. - Commissioners Court at Courthouse.
12 noon - Jaycees--XIT.
8:00 p.m. - School Board.
TUESDAY, JUNE 10:
8:30 a.m. - City Council, City Hall.
10:00 a.m. - BAC at Tri-County Community Room.
7:30 p.m. - OES Masonic Hall.
Rebeka Lodge, Odd Fellows Hall.
WEDNESDAY, JUNE 11:
7:30 p.m. - DeMolays, Masonic Hall.
THURSDAY, JUNE 12:
5:30 p.m. - Weight Watchers, First Presbyterian Church.
7:30 p.m. - TOPS Bailey Co. Electric Meeting Room.
FRIDAY, JUNE 13:
6:30 a.m. - Kiwanis Club.

Any upcoming community event for Schedule of Events please report it to the Journal office.
