## Memorial Day activities slated

**BY RACHEL STENNETT**  
 rstennett@thepampanews.com

Memorial Day tributes are scheduled for Saturday and Monday, including the dedication of an F-4 plane at the Freedom Museum.

Saturday, May 23, a memorial service will be held at 6:30 p.m. at Fairview Cemetery to honor veterans. The service will include a 21 gun salute and special performances.

Additional services will be held

at 10 a.m. at Memory Gardens, and a candlelight service will be held at 8 p.m. on Monday at The Freedom Museum.

A dedication service will be held at The Freedom Museum at 2 p.m. to dedicate the F-4 Phantom Fighter plane at Freedom Museum to Lt. Col James H. Ayres, a fallen soldier who was missing in action for 36 years from Pampa. His remains were found and excavated from Laos in 2007.

On January 3, 1971, Ayres, pilot, and Captain Charles W. Stratton, weapons systems officer, crewed an F4-E Phantom II aircraft departing Korat Royal Thai Air Force Base on a nighttime strike mission of enemy targets in Laos.

The plane crashed and hostile activity in the area prevented search and rescue attempts. Ayres and Stratton were listed as MIA. Several excavations of the crash site were executed between 2001

and 2005, and in 2007 the remains of the men were returned to their families. His remains were identified through DNA evidence, according to Ayers obituary.

Ayres family members gathered in Pampa to bury his remains on August 10, 2007.

Ayres flew numerous missions against large concentrations of hostile vehicles, which is why he

## GRADUATION CEREMONIES SET

According to the PISD office, graduation will be held at 10 a.m. Saturday, May 30, at Harvester Field. Apparently there had been some concern by parents that ceremonies would be held elsewhere. If the weather is inclement, ceremonies may be moved to the field house.

## DeLoach PISD president, board upset by turf issues

**BY DAVID BOWSER**  
 dbowser@thepampanews.com

Pampa High School graduation ceremonies will be at Harvester Stadium, although the synthetic turf that was supposed to be in place for the event will not be on the field.

"We will be able to use the stadium," Pampa High Principal Tanya Larkin told the school board during their regularly scheduled meeting Tuesday night.

She said there would be no turf, but there should be plenty of seating.

McNeely Field House remains the back up site in case of inclement weather just as in past years, Larkin said.

The installation of the synthetic turf was not moving along as expected, Supt. Barry

Haenisch told the Pampa Independent School District board of trustees. The company installing the turf was not meeting the specifications laid down by the district.

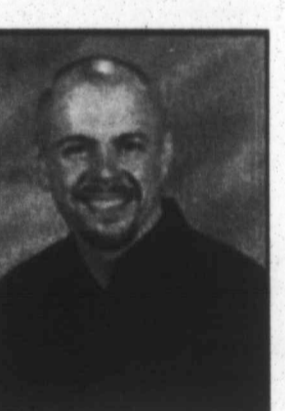

"I anticipate that we will soon be back on track," Haenisch said.

The graduating seniors will be seated on the track. The stage will likely be set up along the curb of the track over the crushed rock that now covers the field.

The issue is the specifications of the crushed rock that will lie beneath the synthetic turf.

School board member Lance DeFever expressed his displeasure with the construction company installing the turf.

"I'm very upset about this," he said.

**DeLoach**

In other business, the school board canvassed the vote from the May 9 election and David Teichmann and Lee Porter were sworn in.

Teichmann defeated incumbent Charles Smith, 402-185, for a position on the board.

## Gov's team assessing damage

**BY BETSY PHILLIPS**  
 editor@thepampanews.com

A team from Governor Perry's office is in Gray county today in response to Judge Richard Peet's disaster declaration issued Monday afternoon.

The declaration states that the judge "has determined that extraordinary measures must be taken to alleviate the suffering of people and to protect or rehabilitate property."

Katherine Cesinger, spokesperson for Gov. Perry said Wednesday morning that members of the Governor's Division of Emergency Management are in our county today to determine whether or not recovery is beyond local capacity, then to determine a match for the threshold of assistance needed.

Gray County reported the following damages from the tornado and storm Friday evening.

- 60 homes reported damaged.
- Five homes sustained damages so severe that they are considered unlivable.
- 77 homes reported hail damage.
- 42 outbuildings were damaged/destroyed
- Five farm implements were damaged.
- Seven sprinkler systems were damaged.

Cesinger said the Governor's office will release results from the assessment as soon as they are available.

## City updates Chamber

**BY RACHEL STENNETT**  
 rstennett@thepampanews.com

As Chamber of Commerce Director Keith Pitner said goodbye to his fellow members of the chamber at the monthly meeting Tuesday afternoon, the City of Pampa made a presentation about plans to move forward.

Pitner joked as he was leaving that he's had a fair amount of difficult experiences during his two years as chamber director.

"I've had a lot of questions about Pampa being called the wind capital of the world but not having any wind turbines yet," Pitner said, causing the room to laugh. "But I really believe we are going to start seeing those within the next two years."

Shane Stokes, assistant city manager gave the chamber on an update for multiple city

## Appeals court hears King issues

**BY DAVID BOWSER**  
 dbowser@thepampanews.com

**AMARILLO** -- District Attorney Lynn Switzer and defense lawyers Joe Marr Wilson and Maxwell Peck sliced legal issues today before the Seventh Court of Appeals here today.

At issue is whether Levi A. King is entitled to a speedy trial and the determination of the time limitations in such a case.

King, 26, is accused of killing a rural Gray County family south of

Pampa in September, 2005.

He pleaded guilty last April in Missouri to the Sept. 29, 2005, murders of Orlie McCool, 70, and McCool's daughter-in-law, Laura Dawn McCool, 47, in exchange for a life sentence in prison without parole.

King is accused of killing Brian Conrad, 31; his six-month pregnant wife, Michell Conrad, 35 and her son Zach Doan, 14, at their home between Pampa and Interstate 40 in the predawn hours

of Sept. 30, 2005.

In March, 2006, a Gray County grand jury indicted King on four counts of murder.

King was returned to the Texas Panhandle in July where he is being held in the Hemphill County jail.

Peck said in oral arguments today before a three judge appeals panel that state law requires a defendant to be brought to trial 120 or 180 days after being extradited from another state, but there

are two laws that deal with extradition.

To clarify a question by Judge Mackey Hancock, Peck asked the panel to apply the time limit of one of the laws to another.

"This is a unique situation," Peck told the judge, when Hancock questioned if there was any case law that could be cited.

"I'm troubled by what you're asking me to do," Hancock replied.

One of the laws generally deals

projects including the family aquatic center, animal shelter, and landfill lines.

The city is building new cell at the landfill and has made other improvements, including a new building facility at the entrance of the landfill through the use of 4.1 million dollars in revenue bonds.

New water wells will also be drilled at the landfill with 1.5 million dollars of revenue bonds, Stokes said.

Plans for a new aquatic facility are still underway. City officials have agreed not to open the facility next summer as originally planned, because a location for the pool has not been chosen.

"We are trying to thoroughly evaluate our options," Stokes explained. "The decision to open next summer would rush our decision and we don't want to do that."

Stokes said that some of the possible locations being considered for the facility include the north part of town, or another area that would be visible to people passing through town and potential tourists. In order to built the

facility, the city has been awarded a \$500,000 grant by the Pampa Economic Development Commission, and the city is working on applying for other grants to assist with the financial responsibility of the project.

The facility is part of a larger plan with the Texas Department of Parks and Recreation in a 10 year plan to improve the parks and Pampa and have a direction for what the city wants the parks to become in the future.

Stokes said that the aquatic facility will enhance the quality of life for Pampa residents, and it will benefit residents in the future, and may even cause people to move to Pampa.

The search for a new police chief is still active and Stokes said a chief should be selected within the next month to six weeks.

Stokes also said that a design firm has been hired to "assess needs" at the Pampa Animal Shelter and that the project is underway and moving towards replacement of the current facility.

Porter ran unopposed.

Since Smith had been the president of the board, the board reorganized with Derrell DeLoach elected president; Porter, vice president, and Dana Terry, secretary.

Haenisch announced that the Pampa school district would be showcasing their learning intervention program at the Texas Association of School Boards convention later this year.

The district also recognized 19 first year teachers that were part of an in-house district academy this past year.

"We are blessed that they are part of our district," Haenisch said.

He also announced that Lamar Elementary School was a finalist in the Panasonic Change Program.

The school board voted to move memorial and honor paving bricks to the area around the flagpole on the north side of the renovated high school where the

new main entrance will be. There will be room for more bricks to be added in the future. The money from the sale of the bricks goes to scholarships for Pampa High School graduates.

The school board selected three logos that had been submitted for the new junior high school. Pampa Junior High students will make the final selection.

was awarded Seventeen Oak Leaf Clusters, a distinguished award according to Danny Martin, VFW Post 1657 president.

"We want to dedicate the plane to Ayers and recognize the accomplishments of a local man," Martin said. The F-4 that will be dedicated was given to The Freedom Museum in October of last year. The VFW requested an F-4 from the Air Force. It took about two years to raise the money to get the aircraft to Pampa.

## King

with fugitives while the other deals with prisoners that are already incarcerated.

King was in custody, but had not yet been tried for the murders in Missouri when a Gray County grand jury indicted him on the murders south of Pampa, but Gray County Sheriff Don Copeland asked prison officials in Missouri to hold King while the sheriff sent deputies to the prison to pick the prison up and return him to Gray County after King's conviction in Missouri.

Peck and Wilson maintain that such action triggered a 120 or 180 time frame in which King would have to be tried in Texas.

"His right to a speedy trial," Peck argued in court today, "has been violated." Switzer told the appeals panel that under the law such an argument should be held for appeal following a conviction.

She said she doesn't think any of King's fundamental rights have been violated.

Switzer indicated that

King had been extradited under one law, but if he had been extradited under the other extradition law, he would have had 120 days to be brought to trial.

The purpose of the two laws is the same, she said, but they are two different statutes.

She said that Sheriff Copeland's request was just that, a request to hold King at the prison until he could get his deputies there to pick up the prisoner.

Peck argued that the two laws are not mutually exclusive.

The defense lawyers had brought the issue up with the trial court earlier this year, but 31st District Judge Steven Emmert denied their motion. The defense duo then appealed to the court in Amarillo.

Since the case is scheduled to go to trial in June, Switzer had requested an expedited decision by the appeals court.

Judge James Campbell promised a ruling at the earliest possible date.

# 7 smart places to stash your cash

## Home safe sales smash 60 year record due to new banking worries

By Aaron Robinson  
Universal Media Syndicate

So you're still hiding money under the mattress or in the bread box?

Well, you're not alone. Ever since financial institutions have been dropping like flies, millions of Americans have stopped relying solely on their banks.

Are banks safe? Well maybe. But with so much to lose, here are 7 things we can consider to protect the little we have left.

**1. Be sure your institution is insured.**

If you're not sure if your bank is FDIC insured find out or get your money out.

Insured or not, the fact is this. The FDIC has only enough cash on hand to cover about 2% of nationwide deposits. Pretty scary stuff, so it's not always wise to have all your eggs in

one basket.

**2. Start and grow a coin collection.**

Coin collections are tangible assets that will always keep their face value, instead of just owning stocks that could depreciate or lose you money.

If times ever get really tough, U.S. Gov't coins will always bail you out. A good safety net is to insist on only never-circulated U.S. Gov't issued coins.

**3. Keep cash safe at home.**

Cash is King. Believe it, but remember not to keep it in a thief's favorite spot; like in the bread box or the mattress.

These will never have the protection that a quality home safe can provide to safeguard your money. See #7 for more.

**4. US Savings Bonds, an old favorite.**

U.S. Savings Bonds are an easy way for your money to stay safe in

the future.

However, if lost or stolen they could be difficult to replace unless the serial number was kept in a safe place. But be careful because they must now be held for at least 1 year before cashing them in.

**5. Gold and silver still shine.**

If you own gold or silver, great, hold on to it. But if you don't, one of your best bets is to try to get as many U.S. Gov't issued gold and silver coins as you can. Due to the recent demand, the U.S. Mint had to halt the production of some of their most valued gold coins.

**6. Hold on to real estate.**

With interest rates at historic all-time lows the market is sure to recover and property values will once again bounce back. So those who hold on to their homes for the long term will likely reap the benefits of

**SHOULD HAVE HAD MONEY IN A SAFE:**

Stunned customers show up at this California bank only to find the bank suddenly closed.

these investments.

**7. Buy a good safe.**

Home safes become an absolute necessity during economic turmoil.

If you already have one make sure it's big enough and heavy enough to foil a thief. It will also keep nosy relatives out of your business.

A good safe made from solid steel construction can cost anywhere from \$300 to over a thousand dollars. But, because

of the huge spike in recent sales, safes may be hard to come by.

But if you can find a good one, you'll have your own Fort Knox to keep everything safe including official documents, coin collections, currency, U.S. Savings Bonds, guns, gold, silver, deeds, wills and other legal papers.

With all this you'll be much safer, just in case your bank is the next to fail. ■

# Free armored safes being doled out to public

## Armored Safe giveaway ends public worry for those who rush to buy up hoards of brilliant, never-circulated U.S. Gov't issued coins that will never lose their cash value

By Shawn Oyler  
Universal Media Syndicate

UMS - Imagine finally getting something that will never lose its value.

Sounds too good to be true?

Well, it's true and word is quickly spreading about the free handout of Armored Safes that are being stocked with the 4,100 brilliant, never-circulated U.S. Gov't issued coins that by law will never be minted again.

These free Armored Safes are being turned over to the general public who make it in time to beat the order deadline for their share of the hoard of brilliant, never-circulated U.S. Gov't coins before the 72-hour cutoff.

"The frantic demand for U.S. Gov't coins has caused the U.S. Mint\* to officially halt the sale of many of its most valuable coins," said lead consultant for the World Reserve Thomas C. Harris, Retired Deputy Director of the U.S. Treasury Bureau of Engraving and Printing.

"Today, the World Reserve began to release this hoard consisting of 4,100 U.S. Gov't issued coins in a free Armored Safe to the general public. Having valuable U.S. Gov't coins serves as an economic life raft. This valuable Collection will never, never, never lose its face value. You will always have something worth a lot of money," said Harris.

Here's the best part, among the 4,100 never-circulated U.S. Gov't coins that everyone gets there are 100 of the highly sought after Presidential Golden Dollar coins.

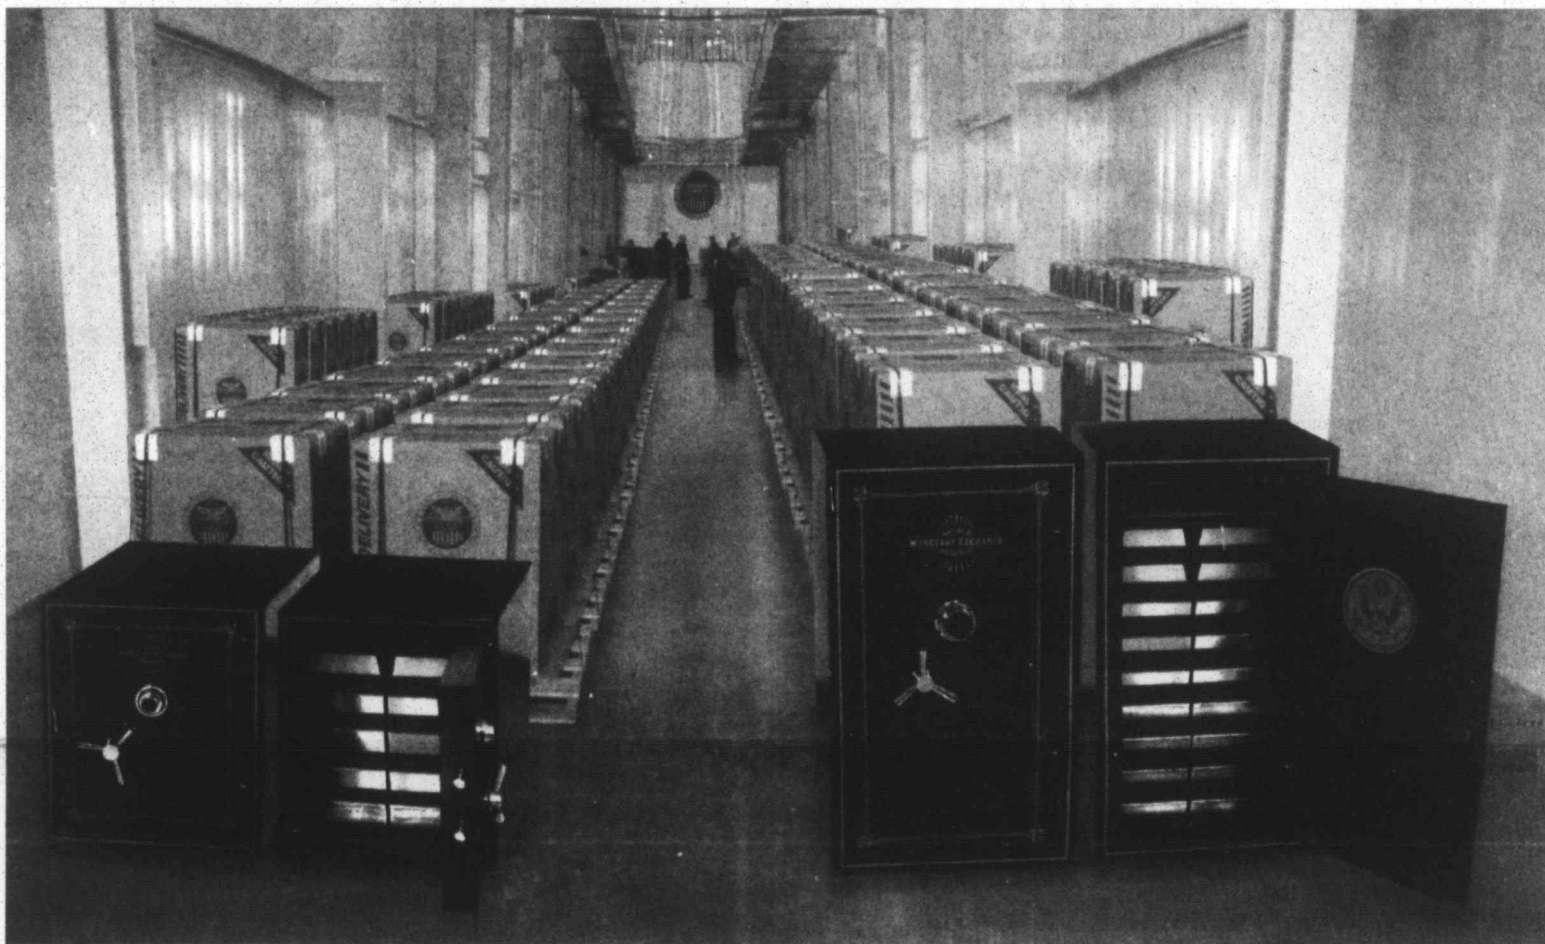

Here's why that is so important. Just think if you would have saved the same number of uncirculated Eisenhower Dollar coins from 1974. Remarkably, they would now be worth 500% more in collector value.

This gives you a hint that these are not the same grade as the coins found in loose change, or from the local bank. In fact, these coins remain in brilliant, never-circulated condition if left sealed and untouched.

U.S. Gov't Savings Bonds used to be a favorite way to keep money safe and popular to give as gifts. But no one can take a Savings Bond and go buy something with it.

That's why this hoard of valuable coins gives everyone the comfort of having full control of their money. No matter what, they will never lose their U.S. cash value.

If times ever get really tough any coin in the hoard could be used to buy anything. But unless it is a good reason, only a fool would do that

**HELP IS ON THE WAY:** This never-before-seen photo captures the rapid shipment of free Presidential Armored Safes that are now being shipped to U.S. citizens across the country. The World Reserve is handing out the Armored Safes free to the general public who rush to beat today's published deadline to buy up the newly released World Reserve Collection consisting of 4,100 U.S. Gov't issued coins. Those who get through by calling the National Delivery Hotline at 1-866-948-2597 and beat the 72 hour order deadline will get the Armored Safes for free.

because this personal hoard of money is already worth so much more in collector value.

"So many people are buying up these coins. Even for those people who give away some of their collection as gifts, they are keeping the Armored Safe for themselves," said Robert Anthony, Director of the private World Reserve Monetary Exchange.

"This Safe is one of the absolute best places to keep valuables and important papers. People will now have a safe place to store their wills, guns, jewelry, antiques, keys, coins and even cash," Anthony said.

"The only problem the Safe creates is when it's time to read your Will. You need to make sure everyone knows who you want to leave it to," he said.

"When Americans get their hands on this Safe and their very own personal hoard of U.S. Gov't Coins, they'll really do a double take. Everyone will feel like they just won the lottery," he said. ■

## Dear Abby...

By Pauline & Jeanne Phillips

**DEAR ABBY:** My 16-year-old stepson has problems getting up for school on time. My wife and I are split on what we should do about it.

I maintain that he's old enough to be responsible for getting himself up for school and should suffer the consequences if he's late. She thinks I should get him up. She works the late shift, which means I have to call him several times before he actually gets up. What do you think? -- STEPDAD IN WEST VIRGINIA

**DEAR STEPDAD:** If your stepson is having trouble prying himself out of bed in the mornings, it may be that he's not getting enough sleep and should go to bed earlier. And your wife needs to consider what will happen to him when you are no longer around to extract her son from between the sheets. That's why it's important to start training him NOW.

Buy a clock with a loud, annoying alarm, which should be placed in the farthest corner of his room from the bed, which will force him to get up in order to turn the darned thing off.

**DEAR ABBY:** Last summer, I cringed when I saw a neighbor cutting his lawn with a push mower and allowing his 3-year-old son to walk behind the mower to "help" him push. All the while, the mother stood nearby, smiling at the "father-and-son moment."

A few days later, I saw an 8-year-old boy cutting his lawn with a riding mower, with no adult in sight.

Abby, please remind parents that a lawn mower is a powerful, potentially dangerous machine. According to a study published in a children's medical journal, more than 9,000 children are injured by lawn mowers each year. Not only is there the obvious danger of the mower blades, children can also suffer severe burns from touching hot mower parts. In addition, projectiles can fly backward and cut or blind a child should a mower strike an object.

When the lawn mower is operating, the proper place for children is inside the house. -- CONCERNED NEIGHBOR, DUNWOODY, GA.

**DEAR NEIGHBOR:** Thank you for the timely reminder. Sometimes the most innocent of actions can

have unintended consequences. Spring has sprung, bringing with it all the joys --and chores -- of the "growing" season. When a lawn mower is running, children -- and pets -- should not be in the vicinity.

**DEAR ABBY:** With the passing of our parents, as well as childless aunts and uncles, my husband and I have accumulated many special items such as an old family Bible, military memorabilia, photos of pets, etc.

Our departed dear ones are missed and loved, but we don't know what to do with a lot of these things. It feels disrespectful not to keep them. Have you any suggestions on how we can relieve the clutter as well as the guilt -- and feel OK about it? -- CLUTTERED BUT CARING IN WASHINGTON

**DEAR CLUTTERED BUT CARING:** Although you have been blessed to be the repository of so many family keepsakes, sometimes an overabundance of "things" can become a burden. When that happens, it's time to take stock and share some of the items with others who can appreciate them.

The Bible and photos should be offered to your state historical society. The military memorabilia could prove to be valuable if you have it appraised by someone who deals in it. The rest could be placed for sale in a consignment store or thrift shop.

Please don't feel guilty about it. It's actually an act of generosity.

Dear Abby is written by Abigail Van Buren, also known as Jeanne Phillips, and was founded by her mother, Pauline Phillips. Write Dear Abby at [www.DearAbby.com](http://www.DearAbby.com) or P.O. Box 69440, Los Angeles, CA 90069.

For everything you need to know about wedding planning, order "How to Have a Lovely Wedding." Send a business-sized, self-addressed envelope, plus check or money order for \$6 (U.S. funds only) to: Dear Abby -- Wedding Booklet, P.O. Box 447, Mount Morris, IL 61054-0447. (Postage is included in the price.)

HAPPY BIRTHDAY for Thursday, May 21, 2009:

This year, you make a difference in the outside world and within your immediate circle. You might need/want a lot of time alone to reflect. In truth, you will transform and grow in new ways. Getting past many self-imposed barriers will become a possibility. What you want could tumble into your lap from out of nowhere. Be aware that others observe and care about your community and public image. If you are single, you meet people with ease. Relationships might not be on a steady course at first, especially this year. You could choose someone quite special who isn't available. If you are attached, the two of you will gain as a couple by spending more time alone sharing, but also socializing. Take a seminar together or perhaps act on a mutual goal. TAURUS understands you well.

The Stars Show the Kind of Day You'll Have: 5-Dynamic; 4-Positive; 3-Average; 2-So-so; 1-Difficult

**ARIES** (March 21-April 19) \*\*\*\*\* Follow your high energy and interests. Opportunity strikes when you least expect it. Consider options presented in a meeting. Finally, you get a glimmering of what could happen. What is stopping you? Tonight: Your treat.

**TAURUS** (April 20-May 20) \*\*\*\*\* Finish off any paperwork or matters that demand thought and reflection. Anger or frustration could come out of left field — so you think. How long have you been sitting on issues revolving around this explosive topic? Tonight: Nap and then decide.

**GEMINI** (May 21-June 20) \*\*\*\*\* Gather your friends, and draw different opinions, a lot of humor and many different perspectives. Share more and understand what motivates others. Walk in their shoes. You will be able to grasp much more about key people. Tonight: Try to make it early.

**CANCER** (June 21-July 22) \*\*\*\*\* Stay on top of your work, responsibilities and other details. A comment could hit you the wrong way, causing an explosive or difficult situation. Someone clearly demonstrates his or her feelings and caring. Tonight: Catch up with a friend.

**LEO** (July 23-Aug. 22) \*\*\*\*\* Keep seeking out new perspectives and attracting different types of solutions. Opportunity strikes if you are ready to seize the moment. Others seem unusually imaginative. Seek out experts in order to get feedback. Tonight: Go for something different.

**VIRGO** (Aug. 23-Sept. 22) \*\*\*\*\* Stay open to a partner's or associate's suggestions, unless you want to have a brush with this person's temper. Use good sense with nutrition and exercise. If you always wanted to take a class in yoga or martial arts, think about doing so now. Tonight: Go with another's suggestion.

**LIBRA** (Sept. 23-Oct. 22) \*\*\*\*\* Others continue to dominate. Be aware of another's anger, and attempt to assuage a situation before it gets worse. Understand this person's limits, but sharing this knowledge with them might not be smart right now. Tonight: Share your imagination.

**SCORPIO** (Oct. 23-Nov. 21) \*\*\*\*\* Toss yourself into work, and get as much done as possible. Establish limits and do not back off of them. Avoid day-dreaming and not focusing. A family member or roommate could be holding something back. Tonight: Nap and then decide.

**SAGITTARIUS** (Nov. 22-Dec. 21) \*\*\*\*\* Sometimes you could have a hard time dealing with all the commotion in your life. Clear out problems through brainstorming with several inspired associates. Know that you have limits, and honor them. Tonight: Only what appeals to you.

**CAPRICORN** (Dec. 22-Jan. 19) \*\*\*\*\* Center on what is important. Don't allow anyone to distract you. Understanding blossoms when sharing some wild ideas. Be careful with a sure-bet financial deal. It probably is too big of a risk. Tonight: Happily mosey on home.

**AQUARIUS** (Jan. 20-Feb. 18) \*\*\*\*\* Keep communication flourishing. Don't hesitate to go for a long-thought-of idea or dream. Reactions could be most helpful in steering your course. Tap into Lady Luck, who seems to be right there. Talk about what you want. Tonight: Hang out with friends.

**PISCES** (Feb. 19-March 20) \*\*\*\*\* Your instincts guide you with money and business. Still, do a reality check and question your decision through a talk with someone who has been a sound adviser. Someone you meet today could be withholding some information. Tonight: Indulge a little.
