POST CHOSEN MAIN STREET CITY

At its quarterly meeting in Austin on October 27, the Texas Historical Commission designated the cities of Kilgore, Post, Terrell, Weatherford, and Wharton as the 1987 Texas Main Street Cities. These five communities will join a network of 34 other cities working to revitalize their central business districts by developing the historic fabric of their downtowns.

Each designated city hires a full-time Main Street manager for a three-year period to coordinate the project, using private sector techniques of marketing, management, and business development, as well as historic architectural and landscape design. Local financial institutions lend support by setting up low-interest loan pools to encourage rehabilitation and reuse of existing historic buildings.

The Texas Main Street Project of the THC is primarily a technical

assistance program rather than a grant program. Many other state agencies, such as the Texas Economic Development Commission, the Texas Department of Community Affairs, the Texas Department of Agriculture, the Texas Tourist Development Agency, and the Governor's Office, provide additional assistance.

A key to success of the Main Street Project is the combination of historic preservation and economic development techniques to redevelop downtown as a viable marketplace. Since the beginning of the Texas Main Street Project in 1981, Main Street cities have seen a total of 1,443 downtown buildings rehabilitated, a net gain of 861 new businesses and 2,252 new jobs, and a private reinvestment in downtowns of more than \$128 million.

For more information, contact Anice Read, THC, 512-463-6092.

Mrs. Melba Rinehart takes the oath of office for Commissioner Precinct No. 4 before County Judge Van York Wednesday, October 29. Mrs. Rinehart was appointed by Judge York to fulfil the term of her late husband, Ed Rinehart. The term expires January 1. County Clerk, Dorothy Browne completes necessary paper work.

TRICK ON HALLOWEEN BREAKS WINDSHIELD

Friday night, October 31 around 11:40 p.m. an out of town motorist was passing through Gail and received a broken windshield in the car he was driving. The damage to the windshield was caused when two water balloons, apparently with rocks inside them, hit the automobile's windshield. The combination of surprise and water caused the driver to swerve off the right lane, narrowly escaping a collision with an approaching vehicle.

The motorist reported the balloons were thrown from the back of a two-tone red and light color pickup in which a group of youngsters were riding. The pickup reportedly turned off Hwy 180 in the downtown area immediately, before being properly identified.

Halloween night this was, and water balloons are a popular "trick" among the teenagers, but rocks inside them are just too much to be safe. Think about the poor innocent passing motorist,

which in this case was an elderly man traveling by himself, what must he think of Borden County, Gail, Texas. Not to mention the dangers of a pickup load of youngsters with water balloons at 11:40 p.m. on a U.S. highway.

Fun, yes, but not to this degree. Although this man passed through our town and only received a broken windshield, what if he had hit the on-coming car.

Youngsters, please! just take the time to stop, and

think during some of these "fun" times. We Borden Countians are proud of our town, school and county, and of you as young people, but incidents such as this one could spoil the image of everyone in the county.

Parents, remember the "It's 10:00 p.m. do you know where your children are?" maybe we are letting our parental responsibilities slacken. We cannot afford another tragedy in Borden County, we have had our share.

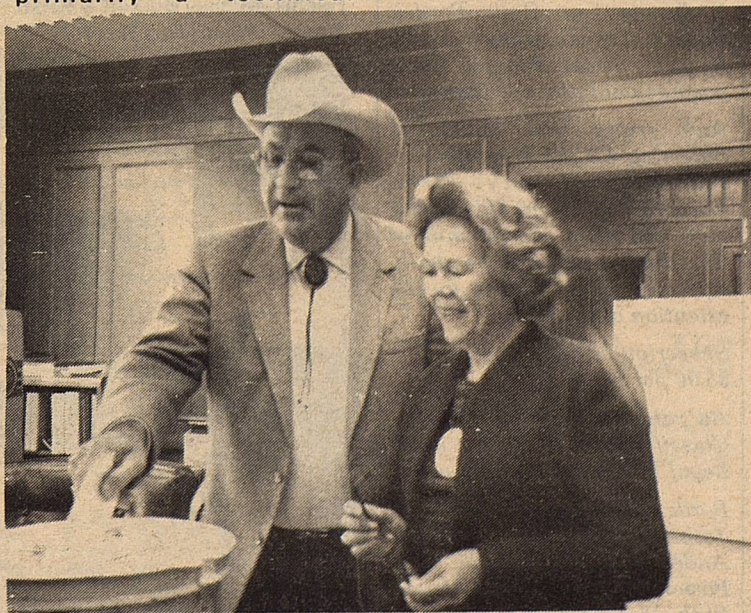

Letter To The Editor

Just had to write after seeing this week's edition of The Borden Star.

I am very impressed with all the young students whose pictures appeared in this homecoming issue. I do believe they are the most attractive group I have ever seen - and I must add that they have the best looking parents!.

It is hard for me to believe this group is now ready to graduate, but must add that I am most proud of them and their achievements. I'd be willing to put them up against any other school's best. I wish the students and all their parents the very best for the future.

-s- Sincerely,
Dorothy Dennis

These Students Qualified for SPECIAL HONORS- Back-Kristen Kilmer, Shara Woodward, Amanda Anderson. Front-Rich Hozlman, David Buchanan, and Patsy Underwood.

STUDENTS QUALIFY FOR HONORS

Six Borden County students have qualified to take the Scholastic Aptitude Test, an instrument normally taken by college-bound high school seniors. Students qualifying are David Buchanan, Kristin Kilmer, Patsy Underwood, Shara Woodward, Rich Hozlman and Amanda Anderson, all seventh grade students.

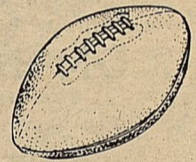

Students scoring high enough on the SAT will be invited to state and-or regional awards ceremonies and will also be awarded scholarships, counseling services and correspondence courses. Each of these students will receive "Certificates of Merit" from

Duke University, Durham, N.C. for being among the top three percent of the students nationwide.

This is the seventh year for Duke University to sponsor the program. The program seeks out gifted and talented seventh grade students in 16 southern states.

To be eligible, students must score at the 97th percentile or above on a nationally-normed standardized achievement, aptitude, or mental abilities test. A student qualifies if he or she scores high enough in mathematics or language areas, or the total composite score.

Coyotes Getting Prepared for Battle

COYOTES WIN AGAIN-36-24

The Borden County Coyotes exploded for 30 points in the second quarter, and that proved to be more than enough. The Coyotes scored on their second possession on a Brice Key 2 yard run. The kick failed, and the score stood a 6-0 with 5:47 left in the first quarter. The only first half score for McCaulley came as a result of a blocked punt. The Eagles recovered the ball on the Coyote's 11 yard line, and three plays later Pete Perez scored on a 3 yard run with 54 seconds remaining in the first quarter.

With 8:57 left in the second quarter, the Coyotes scored their first of 4 touchdowns in that quarter. Rockie Harber finished off an impressive drive with a 6 yard run. The kick failed. The Coyotes allowed the Eagles just 4 plays before scoring again. Brice Key raced 28 yards for his first score, and Shannon Bond kicked the

PAT. The Coyote defense once again held the Eagles just 4 plays before regaining the ball. It only took 3 plays before Shannon Bond passed the John Stephens for an 18 yard touchdown. Shannon also kicked the PAT.

The Coyote defense shut down the Eagles as Michael Murphy intercepted a pass, but the offense fumbled the ball on the Coyotes first play. The defense held again and forced the Eagles to punt.

The Coyotes had to start on their own 10 yardline, but it only took 3 plays for Shannon Bond to pass to Mickey Burkett who raced 67 yards for a touchdown. Shannon kicked the PAT to bring the score to 36-6 with 1:29 in the second quarter.

The Coyote offense and defense spudded during the second half, but the Eagles could not make up the first half deficit. The Coyotes played it's best defense of the year during the first half and

had a very respectable second half. Mickey Burkett had his best game of the year with 110 yards on 4 catches with a 67 yard touchdown catch. On defense Mickey had 12 assisted and 6 unassisted tackles. Two Coyotes had 16 tackles each, Shannon Bond and Michael Murphy who also had an interception. Harold Barnes tallied 11 tackles. Others with tackles were Ray Martinez 9, Brice Key 8, Rockie Harber 6, Kerry Fryar 5, John Stephens 3.

The Coyote's offense was led by Rockie Harber with 85 yards on 15 carries. Brice Key collected 64 yards on 8 carries and 51 yards on 2 catches. John Stephens had 18 yards on 1 catch.

The Coyotes have their biggest game of the year this week at Wellman. If the Coyotes defeat Wellman, the West zone would be in a 3-way tie.

Gerry Smith had another good game at center. The Eagles had some very quick linemen that made Gerry's job tough. The rest of the team is pushing the starters to prepare them for the Wellman Wildcats. Those waiting to show their Coyote Pride are: Brian Bond, James Smith, Lance Telchik, and Randell Hollis who did not suit out because of a leg injury.

Thank You

The Borden County Parents Club would like to thank all the people who worked at the carnival, all the businesses who contributed and each and everyone who attended. A very grateful thanks goes to Mr. McLeroy for all his help, the ladies in the cafeteria, and a special thanks to Richard Smith and Larry Antuna for all their help.

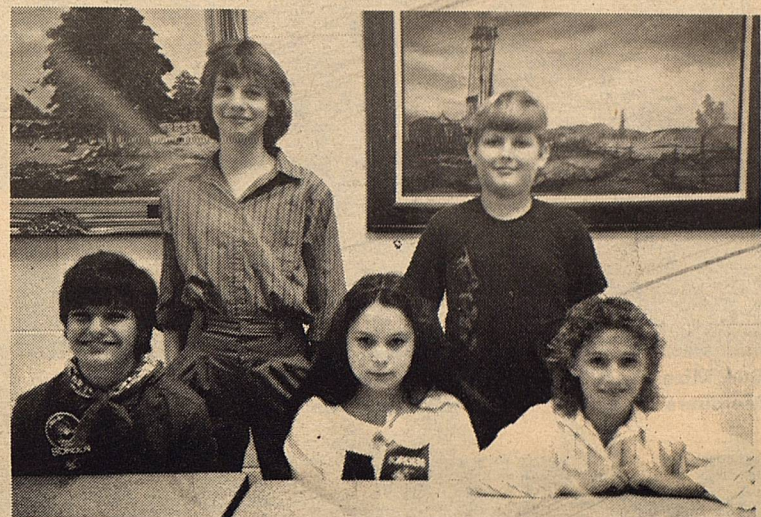

Thanks to K-4 teachers for the art work from the students for decorations.

A thanks to you, the public for making this our best carnival yet.

SPOOK HOUSE DONATES \$200.00 TO FUND

It is my pleasure to report the Spook House earned \$200.00 for the Ambulance Fund. We would like to dedicate this in honor of Corky Ogden, David Holmes, Roy Reeder and Ed Rinehart. I hope I have not left out anyone on the following list of workers, people who donated and people who allowed us to use their things. Those people are Nanette Belew, Ronny and Debbie Barnes, Clint Bray, First Baptist Youth of O'Donnell, Borden County School, Tom Branon, Pat and Melba Childress, Gene and Jane Cooley, Scott, Inez and Roy Clayton, Shorty and Barbara Farmer, Matt Farmer, Jimmy, Shirley, Monty and Levi Garrett, Shawna Gass, Kenneth Gleghorn, Bruce Harris, Kenny, Carla, Mendy and Laura Hensley, Patrick Herridge, Steve, Pam, Shayne and Kurt Hess, Kent, Ollie and Dawn Holmes, Larry Jobe, Kay Kropp, Lamesa Press Reporter, Lisa Ludecke, Joe, Brenda and Bo McPeak, Paul, Sue, Jeremy, Jason and Melissa Mize, Jerry Stone, David and Rosa Soto, Ross, Sarah and Jason

Sharp, Agnes Sorrells, Edward Smith, Lance Telchik, Donna Thurman, Two Friends and of course our customers.

I have done projects like this before but have never had so many willing and eager people helping. Thank you all!

-s- Charlotte Bray

The following is a letter I received from Agnes Sorrells and one which I would like to share with each of you:

Letter

10-24-86

Dear Miss Charlotte:

I think it's very nice of you to write a letter in the paper like you did, even if it is contrary to the one written before. It takes nerve to do that. When anything is done for a good cause it's the "Lord's Work". Besides it's good to have fun when there's no harm in the fun.

-s- Sincerely, Agnes Sorrells

Thanks for your monetary donation, Mrs. Sorrells.

-s- Charlotte

Gail Baptist Happings

Another very popular Christian movie, "Life Time Contract" will be shown Saturday night, November 8 at 7:00 p.m. in the Borden School Conference room. All youth from 6th grade to 12th grade are invited.

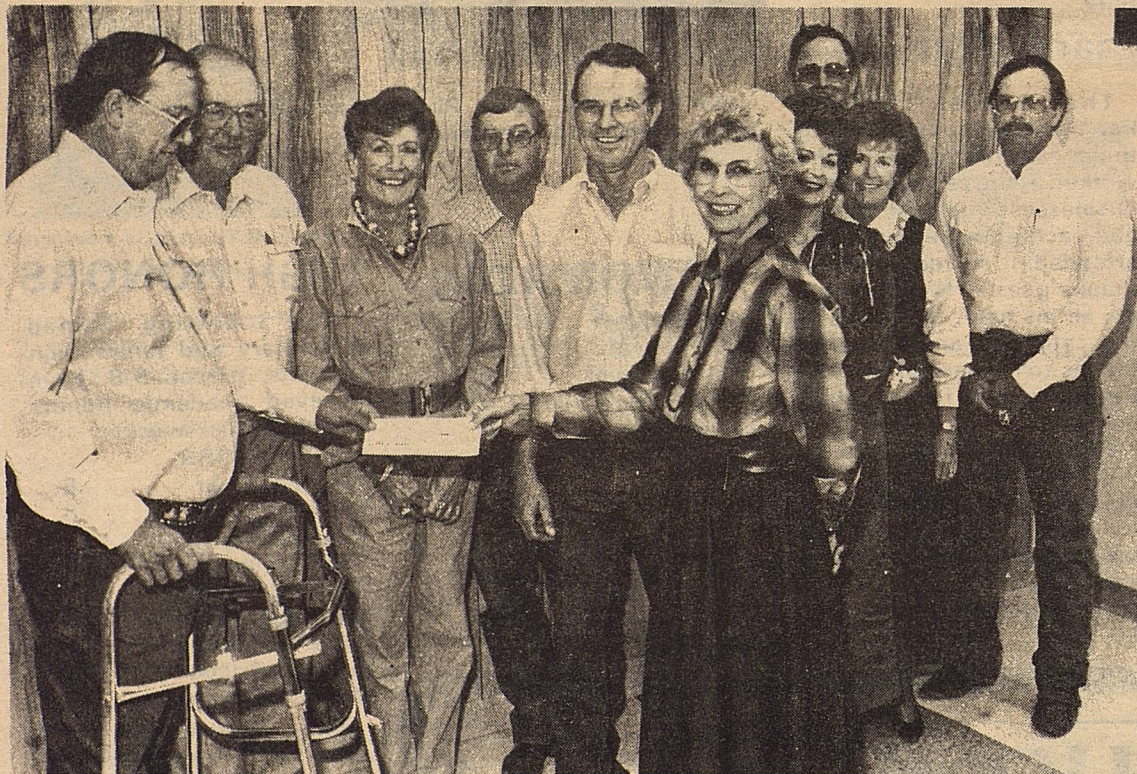

"Image of the Beast," the third in the series of four movies will not be released until January and will be shown at a later date.

Snacks after the movie will be available so come and learn more about the Lord with us. These events are sponsored by the youth group of First Baptist Church in Gail.

Thanks

The Borden 4-H Shooting Sports Club would like to express our sincere appreciation to all who supported our program by donating towards the raffle for the rifle, pecans, gun case and Deer Hunt.

A special thanks to Ben and Paula Miller, Terry Smith, and Kent and Ollie Holmes for donating the prizes that were used in the drawing.

REHABILITATION CENTER ACCEPTS \$5,000 CHECK — Danny Isbell, field representative of the West Texas Rehabilitation Center in Abilene, accepts a check for \$5,000 from Lamesa Rodeo Association member LaFrae Sharp, seen here

with other members of the organization. The money was raised this summer at the annual western art auction at the Dean Indian Canyon Ranch.

(Staff Photo)

WTC Drama Dept. Producing "Terra Nova"

Snyder-Cathy York of Gail will be a member of the technical crew for the Western Texas College theatre department's production of "Terra Nova" Nov. 13-15 and 17.

"Terra Nova" is based on the journals of English explorers who attempted to reach the South Pole in 1911-12. The WTC production is directed by Jim Rambo.

Members of the cast will be Jamie Cofer of Snyder, Jim Rainbolt of Post, Jeff Milburn of Brownfield, Shauna Gibson of Vernon, Bobby Mendez and Jim Miller of Lubbock and Bret Dillion of Seagraves.

Tickets will be \$5 for adults and \$3 for students and can be reserved by calling the box office at 915 573-8511, extension 234, during regular office hours on weekdays. Curtain time will be 8 o'clock each night.

Cathy designed and put together most of the costumes for "Terra Nova".

THANK YOU

The Family of Ed Rinehart wants to thank everyone who sent cards, flowers, made phone calls and visits during his hospital stay. An extra thanks for the floral arrangements, the food, the help, the prayers, and visits during the loss of our loved one.

Your friendship will help us through this difficult time.

BORDEN COUNTY 4-H FOOD SHOW

The Borden County 4-H Food Show will be held on Saturday, November 15, 1986, in the 4-H Exhibit Building. Judging will begin at 3:00 p.m., with the public food show and awards program being scheduled for 4:15 p.m. The public is invited to attend the public show and awards program. The food show is the

culmination of the foods and nutrition projects that have been underway in the county during the months of September, October and November.

The winners at the county food show will qualify for participation in the district food show on Saturday, December 6, 1986 at Texas Tech University.

Cook With Low-Fat Dairy Products For Fewer Calories

If you are already drinking skim milk to cut calories, you can save even more by cooking with other low-fat dairy products.

Yogurt can be substituted in just about any dish that calls for sour cream. It works well in cold dips, or to stretch mayonnaise based dressing in cole slaw, tuna and potato salads.

In cooked foods, yogurt tends to separate and become watery. But this can be avoided by whisking some flour into the yogurt before cooking or adding the yogurt to cooked foods after removing them from the heat.

By using a cup of plain low-fat yogurt for a cup of sour cream you can save 375 calories.

Imitation sour cream can be made by blending low-fat cottage cheese along with several tablespoons of skim milk or yogurt until smooth. This mixture is suitable for dips or dessert recipes.

Cottage cheese also makes a good substitute for ricotta

cheese and sour cream in casseroles. Using one cup of low-fat cottage cheese for an equal amount of whole-milk ricotta, saves 250 calories. Replacing the ricotta with regular cottage cheese still cuts 190 calories.

Low-fat ricotta cheese has less fat and fewer calories than regular ricotta, but it is still higher in both than regular or low-fat cottage cheese.

For sauces, casseroles and omelettes, low-fat processed cheeses are suggested. In addition to American cheese, low-fat versions of Swiss and Monterey Jack are now available.

Using one ounce of low-fat processed cheese for an ounce of cheddar cheese saves 60 calories. However, people on low sodium diets are cautioned to avoid processed cheese, since it is high in sodium.

By substituting low-fat for high-fat dairy products, dieters can get the nutrients and calcium they need without adding extra calories.

Fee Reduced For Personalized Plates

Want to go out 4 FUN sometime? Well, IM POOR, you see, I O DAD. Besides, IM BUSY,. But if you GO 4TH in your TOY TRK, don't do it while you're TIP-Z.

Those are a few of the messages some 56,000 Texas Motorists have invented for personalizing their license plates.

Beginning January 1, 1987, it will cost \$35.00 less to tell other motorists you have NO WIFE, or you're SINGLE. The annual fee for personalized license plates will drop from \$75.00 to \$40.00.

The reduction was approved during the recent special session of the state legislature in an effort to attract some of the nearly 100,000 motorists who cancelled their special plates after the fee was raised from \$125.00 to \$75.00 during the 1985 regular session.

"There were about 154,000 personalized plates registered in the state before the fee was increased," said Dian Neill, director of the Division of Motor Vehicles with the highway department. "Obviously we're not serving all Texans who want such plates. We hope the fee reduction will help us serve them better as well as regenerate the lost dollars to the state."

Guin

The State Department of Highways and Public Transportation receives \$1.25 from the sale of each special plate, Neill said. The remainder of the revenue goes into the state's general funds.

Personalized plates were first offered in Texas in 1965, Neill said. More than 5,000 were issued the first year. Names, phrases and words relating to the driver's alma mater are among the more popular choices in individualized plates.

Somewhere on the state's highways a few friendly folks are saying HOW-D-DO, BCNU and BYE NOW. And the motorists who chose HOT DOG, PICKLE, TURKEY, APPLE and BANANA must be having a PEACH of a time. But the driver who complains IM LOST could use some HELP.

One motorist, evidently no JOKER, brags IM N LUV. Another motorist leaves it up to other drivers to determine if 2X4X8 means he's a construction enthusiast. And who but a firm named McDonald would opt for EIEIO?

"Personalized plates are

TIME TO WINTERIZE HOME

With winter approaching, the Public Utility Commission reminds consumers that now is the time to "winterize" homes for energy savings.

Furnaces should be checked at the beginning of the heating season by a qualified service person to ensure efficient operation. Consumers should stress procedures for improving efficiency of the unit when requesting the service. Make sure the safety features are operating correctly and do not operate the equipment until any problems have been corrected.

Check for air leaks in your home by holding a lighted candle near windows and doorways. If the candle flutters even slightly, you probably need weather stripping or caulking. For a

fun for both the vehicle's owner and for other motorists," Neill said.

Up to six letters and two spaces can be used in personalizing a license plate, she said. Requests are screened to see that they don't duplicate an existing plate and that they meet basic good taste requirements.

Once the plates are approved, they are issued in about four weeks. And the plate is registered to the individual, rather than the vehicle.

"We've had some plates issued to the same motorist for 20 years," Neill said. "They may change vehicles, but the plate goes with them."

But Neill said many names and phrases previously 'taken' may now be available, due to the drop in demand after the fee increase.

"With about 100,000 plates cancelled, I'd encourage interested motorists to inquire whether their choices are now available," she said. "A few of the hard-to-obtain names and words are now free."

small investment, you can improve the comfort level of your home, and reduce your heating bills at the same time.

Heat loss through windows during the winter can be costly and uncomfortable. Movable insulation, such as thermal curtains and shades, and interior and exterior shutters, can help reduce this heat loss. It allows full benefit of the window during the day, when free solar heating and lighting are available. And at night when the insulation is in place heat loss will be reduced, which lowers heating bills and increases the comfort of the home.

To obtain more information about movable insulation and other energy-saving tips call the toll-free ENERGY HOTLINE 1-800-643-SAVE.

MAINES BROTHERS BAND HAS ALBUM NO. 2

The Maines Brothers Band is back and HOT with album number two for Mercury-Polygram, *The Boys Are Back In Town*. It further exemplifies their self-described "agressive country" sound they debuted nationally last year with the acclaimed LP *High Rollin'*.

From the sweet country feel of the single "Some of Shelly's Blues" (penned by Michael Nesmith of Monkees and "Elephant Parts" fame), to the warm weather appeal of "Whatcha Gonna Do When the Sun Goes Down," *The Boys Are Back In Town*

showcases the band's greatest musical talents.

They captured that special edge in Caldwell Studios in Lubbock, Texas (home to Buddy Holly), and Rick Peoples, who helmed *High Rollin'*, produced the latest LP with the Maines Brothers.

"This is definitely our best effort," says DLloyd Maines, the eldest of the group. "We feel with this album we can bridge a gap to young people and re-ignite a genuine interest in the spirit of country music."

The Boys Are Back In Town certainly states the case. The

album includes songwriting contributions from Dobie Gray, Wendy Waldman, Billy Burnette, Mike Smotherman and bandmember Jerry Brownlow. The Top 25 single, "Everybody Needs Love" (from the prolific Nashville hit-maker Wallace-Skinner-Bell), is included as well. Also featured is the raucous title track, which the band first heard performed by the energetic Bus Boys in the Eddie Murphy film *48 Hours*.

Energy and spirit have always been trademarks of the Maines Brothers Band. While *High Rollin'* marked their major label debut, the seven man group has released four previous LPs on the independent Texas Soul label. The group continues to operate out of Lubbock, where the four Maines-Brother-by-birth were born. Two of the non-blood brothers also claim Texas birthrights--Cary Banks in Big Spring and Jerry Brownlow in Lamesa. The seventh member, Richard Bowden, hails from Durham, North Carolina.

"We've been together now almost eight years," says lead vocalist Kenny Maines, "and we feel like we're all bothers. A lot of people don't stay together, yet we've proven over the years that we have that stability. We're seven guys movin' in the same direction."

Each member of the band has had a full musical background. The four actual Maines Brothers began their career at a young age, playing together as "The Little Maines Brothers Band" to complement a popular Texas Band fronted by their father and uncles. Their group disbanded when they were all still quite young. Later, Lloyd Maines established a solid reputation with the Joe Ely Band, playing with them for six years and six LPs, including Ely's current release. With the re-formed Maines Brothers Band Lloyd plays steel, electric and acoustic guitar. He also flexes his abilities on dobro and Hawaiian slide on *The Boys Are Back In Town*.

The Maines' second oldest brother, Steve, plays acoustic guitar. He also makes his lead singing debut on "I'm Just Looking For The Real Thing," a song written by Dobie Gray. Third brother Kenny began by playing bass with the Little Maines Brothers Band at age 11. After their split he joined a group in Las Vegas, then returned to Lubbock for the Maines Brothers reunion in 1977. Today he plays a mean electric guitar besides handling the upfront vocal chores.

Drummer Donnie Maines is the youngest of the clan. He first played in a local

Lubbock group, The Tommy Lee Show. He left them to join his brothers in '77, and has provided a strong backbeat since then.

Richard Bowden brought his talents to the Maines' organization in 1978, but his exposure to the music business goes back to his early childhood when his Dad was recording for Bethlehem Records. Richard has played with Joe Ely and Ronnie Sessions, among others, over the years. His contribution of fiddle, trumpet and mandolin can be heard on the new album.

Jerry Brownlow has been bassist and singer with the band since their reunion. His first stage experience was in the Brownlow Family Band, which included his mother, father and brother. He also played live with Bobby Albright and the Boothill Express. Jerry makes an impressive songwriting and lead singing debut with the tender ballad "You'll Never Know," which also features the Nashville String Quartet. Keyboardist Cary Banks officially signed up to be a Maines in 1983 after playing

with them on various occasions since '78. He's been playing music since the age of 14, picking up guitar first and then piano. Cary began writing songs in 1969, and has written several regional commercial jingles. He was a finalist in the American Songwriting Festival in 1977, '78, and 1980 through '83. He also received Honorable Mention in the Music City Song Festival in 1983. Cary's beautiful piano touches on the album track "Magic Wishes" display his special style.

The group agrees *The Boys Are Back In Town* is a branching out of their talents first brought to the country at large on *High Rollin'*. Fuzz steel, fiddle and horns punctuate "The Boys Are Back in Town," while "Shelly's Blues" paints a more traditional country picture. Both on stage and on record, the Maines Brothers Band brings an upbeat message to love songs and rockin' country. Be on the lookout: *The Boys Are Back In Town*, on Mercury-Polygram.

COUNTY AG-AGENT REPORT By DENNIS POOLE

WINTER HERBICIDES FOR CROPLAND

Farmers can get the jump on winter and early spring weeds by spraying a herbicide on prepared cropland this fall.

Such a herbicide application can take the place of late winter and early spring cultivation to control herbicide, seedling dock, annual thistle and other weeds. It can especially take the worry out of weed control during times when wet fields prevent cultivation, such as was the case last winter in many locations.

Several herbicides are labeled for control of winter weeds. These include atrazine (Aatrex 80W, 4L or Nine-O) on land to be planted to corn and grain or forage sorghum; Bladex (80)W or 4L or Nine-O) on land to be planted to corn and grain or forage sorghom; Bladex (80W or 4L) for corn or grain sorghum land; and Igran for sorghum land. All should be applied with a surfactant or emulsifiable oil to increase their effectiveness if weeds have emerged.

If atrazine is applied to sorghum land in late winter and again as a preemergence treatment at planting, there is a possibility of crop injury under certain conditions. A cold, dry winter will increase atrazine persistence, which, when added to a spring application of the herbicide, could cause sorghum damage. Farmers planning to use atrazine at planting may want to use either Igran or Bladex in the winter, especially if the application is made within two to two-and-a-half months of sorghum planting time.

Herbicides applied this winter are a good investment. For example, a pound of atrazine can be applied for less than \$3 per acre. One tillage operation will cost more than that, and using a herbicide offers peace of mind when wet weather sets in and tillage is not possible. Substituting a herbicide for several tillage operations is good justification for early land preparation so that the land is ready and the herbicide in place before rainy weather sets in.

ASCS NEWS BY Jerry Stone

UPLAND COTTON PROGRAM

Farmers who participate in the 1987 Upland Cotton Program will be eligible for target price protection of 79.4 cents per pound and price support loans at a minimum level of 52.25 cents per pound.

Farmers must reduce their 1987 cotton acreage by 25 percent from their acreage base to qualify for the program benefits.

If it is determined that the adjusted world price for upland cotton is below the price support level for the crop, USDA intends to implement the plan B marketing loan program for the 1987 crop. Under plan B producers will be allowed to repay the loan at the lesser of the announced loan level, or the adjusted world price. However, if the adjusted world price is less than 80 percent of the loan level, cotton producers may be allowed to repay the loan at a level between the adjusted world price and 80 percent of the loan level.

Other provisions of the 1987 upland cotton program will be announced later.

DISASTER PROGRAM

We know by now that all of you have heard something about disaster payments. The County Judge has requested to the Governor for us to be declared a disaster county. This must be approved before we will be eligible. The Borden County Emergency Board will meet as soon as requested by the Texas State Emergency Board. A damage assessment report will be made to the state office and the Governor, and if there is a 30 percent production loss in the county, then we will be eligible for a disaster program. All cotton producers are receiving

information to contact the ASCS office as soon as possible concerning the application for disaster. We have not been notified of any disaster program and we cannot help you at this time. As soon as we receive any information, we will notify you.

End-of-Year CROP AND LIVESTOCK REPORTS

The Texas Agricultural Statistics Service (TASS) will begin contacting farmers and ranchers across the state in late November for acreage, yield and production totals for 1986 and for end-of-year livestock and poultry inventories.

The confidential interviews, conducted by mail or in person by field enumerators, provide information used by producers to make their plans for the coming year.

Currently, agriculture is faced with many economic uncertainties, and accurate, reliable figures are some of the inputs which can help producers make sound production decisions. To reduce survey costs, TASS is urging individuals to return the mailed questionnaires as soon as possible. The

reported information will be combined for state as well as county estimates.

Annual county estimates are published for livestock, dairy, poultry, cotton, field crops, small grains, fruits and pecans, vegetables, and cash receipts from the sale of farm products.

A sound marketing plan requires good, reliable information and some advanced planning.

Information from our reports provides producers with solid facts and figures they can incorporate into their marketing plans.

Public Notice

Poka Lambro Telephone Cooperative, Inc. hereby gives notice it has filed with the Public Utility Commission of Texas for authority to detariff mobile telephone (radion telephone) equipment, establish unbundled rates for mobile service, offer mobile service in the Southland Exchange and offer wide area mobile service. The changes are proposed to become effective 35 days after filing, which will be approximately November 5, 1986. These changes will eventually affect all of the approximately 380 mobile customers of the Cooperative.

Within this filing the Cooperative is proposing to detariff mobile equipment. The result of this change will be that the Public Utility Commission will no longer set rates or other regulations for this equipment.

The proposed detariffing will cause a reduction in regulated revenues of approximately \$67,000 per year. Revenues to be generated from the new services are not known. Rates and services to local exchange members will not be affected by this filing. Persons with questions or who desire more information about the requested rate changes are encouraged to contact the Cooperative at (806) 924-7234 or at P.O. Box 1340, Tahoka, Texas 79373. A complete copy of the filing is available at the offices of the Cooperative.

Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission as soon as possible. A request to intervene, participate or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Blvd., Suite 400N, Austin, Texas 78757. Further information may also be obtained by calling the Public Utility Commission Consumer Affairs Division at (512) 458-0223, (512) 458-0227, or (512) 458-0221 teletypewriter for the deaf.

NOTICE OF PROPOSED REDUCTION IN AT&T's TEXAS RATES

The Public Utility Commission of the state of Texas has entered orders in two recent cases that would substantially reduce the charges which AT&T pays to the state's local telephone companies and which could allow AT&T to reduce prices for most of AT&T's customers on calls placed within the state of Texas.

The total amount of the reduction to AT&T's customers is expected to be between \$115.3 million and \$120.6 million. This is in addition to the \$19.8 million reduction in AT&T's Texas basic long distance prices that went into effect on March 1, 1986 and is in addition to the approximately \$2 billion in AT&T interstate price reductions that took effect earlier this year.

If the changes are approved, all of AT&T's direct dialed long distance, directory assistance, WATS and 800 service customers would be affected, and would experience a decrease in their prices for these services when calling within the state of Texas. The following tables show the anticipated impact of the changes on AT&T customers by service category:

Class of Service	Approximate Overall % Reduction	Approximate Overall Dollar Reduction (in millions)
Long Distance	9.2	\$ 68.4
Directory Assistance	20.0	1.0
WATS	29.1	29.7
800	19.9	21.5

The rate reductions are presently anticipated to occur in two phases on or about October 22, 1986 and November 12, 1986. The matter has been assigned as Docket Nos. 6926 and 7113. Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission as soon as possible. A request to intervene or participate or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Blvd., Suite 400N, Austin, Texas 78757. Further information also may be obtained by calling the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or (512) 458-0227 or (512) 458-0221 teletypewriter for the deaf. A complete copy of the tariffs reflecting the potential rate reductions will be on file with the Commission on or before October 23, 1986.
