MEMPHIS, HALL COUNTY, TEXAS, THURSDAY AFTERNOON, JANUARY 25, 1951

TEN CENTS NUMBER 34

H. Lewis to Speak At C Banquet

An address entitled "Freedom Is Not Free" by D. Hodson Lewis, noted lecturer of the 31st Annual Chamber of Commerce banquet in the High School Gymnasium Monday evening, January 29.

Lewis, a veteran of over 30 years in community-building work, addressed civic groups in all parts of the United States and is qualified to speak on present-day affairs. For fourteen years he has been a member of the Little Rock, Arkansas, Chamber of Commerce and since 1943 has been chairman of the Southwest Division of the U. S. Chamber of Commerce.

Other features of the banquet will be the installation of new officers and recognition of past presidents of the Memphis Chamber of Commerce. Herschel Combs, president, will be the master.

A check of the record of accomplishments which Memphis Chamber of Commerce and Hall County Board of Development has undertaken during 1950, shows the organization had a very active year. Among the marks of progress which have been completed in Memphis and Hall County are:

following: street markers, mail boxes, Christmas lights, street decorations, organization of Trinity Water Conservation district, livestock improvement through importation of Angus and Jersey cattle from Canada, the Hall County Livestock show, the fair livestock show, and a housing project.

The names of four candidates for alderman were filed with D. C. Kinard, city secretary, this morning. Each of the wards in the city is represented in the names. One candidate is up for reelection, one for election to a full term, and two are new to city politics.

Date of the election will be held on March 3, 1951, and those persons who have paid their city poll taxes will cast ballots. The election will be held at the next regular meeting of the City Council.

Names of candidates and wards they will represent if elected are as follows:

Ward No. 1—O. V. Alexander
Ward No. 2—O. L. (Buster) Berry; served one year of unexpired term.
Ward No. 3—F. E. Monzingo; election to second term.
Ward No. 4—Lester N. Bowden.

S. C. (Carl) Harrison's name was filed last week as a candidate for mayor.

Field Work Done
in Proposed Road
Project in County

M. O. Goodpasture, county engineer, announced Thursday morning that all field work on the proposed Red River bridge and highway had been completed. The project will include paving and bridge construction south of Multry Creek bridge in Hall County to extend state highway No. 70.

The information was furnished Judge Goodpasture by Palmer district highway engineer, who stated that compilation of maps from the surveys is now being finished in the department of Childrens. No material checks is anticipated at this time.

SPEAKER at the annual Chamber of Commerce banquet Monday evening will be D. Hodson Lewis, above, who is manager of the Southwestern Division, U. S. C. of C. His subject will be, "Freedom Is Not Free."

Mrs. Kinard Is Candidate For TFWC Secretary

Mrs. D. L. C. Kinard, prominent and well-known Memphis clubwoman, Friday was announced as candidate for the office of secretary of the Texas Federation of Women's Clubs subject to election at the convention to be held Nov. 13-15 in San Antonio.

The candidacy of Mrs. Kinard, who is now chairman of the department of international relations, was presented by the 1913 Study Club of Memphis, joined by the Memphis Federation of Women's Clubs.

Mrs. Kinard has served on the TFWC board during four administrations. Positions have included: chairman of Texas composers, chairman of adult education, and president of Seventh District, 1947-1949.

Service of Mrs. Kinard to the 1913 Study Club has been in every capacity, including three (Continued on Page 8)

Conrad L. Lohoefer Named New Editor Of The Democrat

Conrad L. Lohoefer has been named news editor of The Memphis Democrat, according to J. Claude Wells and Herschel A. Combs, co-publishers. He will assume the duties of editor of the paper Monday, Jan. 29.

A graduate of the University of Missouri, Mr. Lohoefer formerly worked as a reporter for the Amarillo Times and served a year as farm editor of the Herald and News in Klamath Falls, Ore. Recently he has been associated with an advertising agency in Dallas.

He was born and reared in Amarillo, and attended high school and junior college there before going to the University of Missouri. He is air force veteran, and flew with the Eighth Air Force in Europe during World War II.

Miss Stephanie Caserta of Amarillo and Mr. Lohoefer announced their engagement Christmas. They plan to be married this spring, and will make their home in Memphis.

Two Persons Suffer Severe Burns In Estelline Explosion

Mrs. J. C. Spruill and daughter, Bessie, of Estelline were reported to be slightly improved by hospital attendants at a local hospital late Wednesday. Mrs. Spruill and her daughter suffered serious burns in an explosion which completely wrecked an eight room apartment building in which the family was living in Estelline Sunday morning, Jan. 21.

Mr. Spruill and two other daughters, Shirley, 15, and Wanda, 13, were released from the hospital after treatment of slight burns and other minor injuries.

A son, Bob Spruill, 12, was away from home at the time of the blast. Mr. Spruill said he detected the

Angus Breeders Organize Four County Association

2,500 ACRES OF SANDY LAND HAS BEEN DEEP PLOWED IN HALL COUNTY

A total of 2,500 acres of sandy land in Hall County has been deep plowed as a soil conservation measure. Lynn L. McKown, PMA administrative officer, announced this week. This acreage has been plowed to an average depth of 23 inches, and was started Dec. 1, 1950.

"With a shortage of cotton, and farmers being asked to produce 16,000,000 bales in 1951, Hall County farmers feel that—along with improving their soil—they will be contributing to national defense through increasing production, as 98 per cent of this county's deep plowed land will be devoted to cotton this year," McKown said. "On the basis of past experience it is estimated that the deep plowing program in Hall County could increase our cotton production by 5,000 bales in 1951."

Deep plowing of sandy land was offered to county farmers last year on an experimental basis, with 600 acres being plowed in the southwestern part of Hall County near Turkey. This experiment proved highly satisfactory in preventing wind erosion and increasing production, McKown stated. Increased yields of from 25 to 50 per cent were reported with no loss from blowing.

All the deep plowing in Hall County has been done by special heavy equipment owned and operated by Brown Bros. Dirt Moving Contractors, of Cozad, Nebraska. The firm has two \$26,000 units operating in the county breaking from 80 to 100 acres every 24 hours. Each unit consists of a 145-horsepower crawler-type tractor and a five-disc gang plow. The discs are 44 inches in diameter and can break to a depth of approximately 36 inches.

The deep plowing program in Hall County is a cooperative undertaking between the individual farmer and the Production and Marketing Administration, with the cost of \$10.00 per acre being shared equally between the farmer and the PMA.

The county committee has allocated \$50,000.00 to assist farmers in deep plowing their land.

Bob Fowler Joins Navy; Trains At San Diego

Bob Fowler, son of Mr. and Mrs. John Fowler, volunteered for service with the U. S. Navy on January 10 and is now receiving his "boot training" at San Diego, Calif.

Bob was a senior student at Texas Technological College, Lubbock, at the time he entered the service.

Less Than One-Third of Money Raised In County "March of Dimes" Campaign

Contributions are lagging far behind the goal of \$5,000 which has been set for Hall County in the "March of Dimes" campaign. R. C. Lemons, chairman, stated this week. So far, citizens have contributed \$1515.65, according to records of the Hall County Chapter, National Foundation for Infantile Paralysis.

Last Friday fund raising supplies were carried to Lakeview, Turkey, Estelline and other communities. No community has as yet completed their drive, the chairman stated.

The following community chairmen have been listed: Mrs. L. C. Richburg, Estelline; Joe J. Calvin, Turkey; Loran Denton, Lakeview; and A. Gidden, Plaska.

Scoutmaster Ted Myers stated that several Boy Scouts would set up fund receiving centers on the streets of Memphis next Saturday.

Half the money contributed by Hall County citizens will remain here to be used in caring for local persons stricken with polio. Lemons said. The balance will be sent to the national foundation. Funds have been exhausted in the hands of the national foundations, and money was borrowed in 1950 to carry on the work, he added.

"I want to urge everyone to mail their contributions now," Lemons said. "I especially urge the merchants of Memphis to send in their checks and not wait until committee members call upon them."

"We are faced with a desperate situation. We can meet our responsibility if everyone will recognize that the war against polio is costing a tremendous amount of money. Send in your contribution now."

Angus cattlemen from a four-county area organized the Lower Panhandle Angus Association at a meeting in Memphis Friday evening, Jan. 19.

Jerrel Rapp of Estelline was elected president of the newly-formed organization, and Hulen Clifton, also of Estelline, was named vice president. Clifford Farmer, Memphis C. of C. manager, will serve as secretary.

In addition to the three officers named above, the following directors were elected: Ed Rutledge of Childress, J. W. Smith of Wellington, Edwin Eanes of Clarendon, David Hudgins and M. N. Orr of Lakeview, and D. C. Messick of Memphis.

The new association of cattlemen will sponsor an animal show in Memphis, field days, tours and otherwise promote Angus cattle, according to aims adopted at the meeting.

Milt Miller of Brady, Texas, fieldman of the American Aberdeen-Angus Association, was the principal speaker at the meeting which drew 20 cattlemen from Hall, Donley, Collingsworth and Childress counties. Miller was introduced by County Agent W. B. Hooser.

"Angus cattle have made rapid gains in Texas and throughout the country," Miller told the group. "This has been due to their hardiness, their resistance to eye trouble, their natural hornless characteristic and to the rapid gains they make on feed."

While several men have been producing Angus cattle in this area for several years, new interest was stimulated last year when the Memphis Chamber of Commerce and Hall County Board of Development sponsored the importation of a carload of fine Angus cattle from Canada. In addition to a choice group of heifers, a fine young bull was imported and purchased jointly by the 10 Hall County men who bought the Canadian heifers.

Since this shipment of cattle was received in June from Canada a number of other registered animals have been brought in from Illinois, Iowa, Kansas and Missouri making the area around Memphis one of the fast-growing regions for Angus cattle in the Southwest.

It was estimated at the meeting here Friday evening that there are now 200 head of registered Angus and 2,000 head of commercial Angus cattle in the area.

THREE YOUNG SHOWMEN SHARE HONORS WITH BREEDING CATTLE

John Luther Byars of Lakeview exhibited the Grand Champion steer in the Fourteenth Annual Junior Livestock Show in Memphis Wednesday. Bobby Adams of Estelline, received the Reserve Championship honor. Both boys showed Herefords.

ETSC GRADUATE—Frank Smith Jr., who recently received his BS degree from East Texas State College, has accepted a position with the Kellerville school. He will teach in the junior high department and also coach football. Smith, son of Mr. and Mrs. Frank Smith, Sr. of Memphis, graduated from Memphis High School with the class of '45. He belonged to the Ogima Club in college.

In the special breeding cattle classes John Luther Byars again scored, taking the Grand Champion with his Hereford heifer calf. Nolen Salmon of Lakeview had the Grand Champion Hereford bull.

In the Angus breeding class Raymond Martin of Lakeview exhibited the Grand Champion, two-year-old heifer imported from Canada last year.

Twenty-eight head of Herefords and Angus were shown by the 4-H and F. F. A. boys. Frank Wendt, county agent of Wilbarger County, was the judge of the show. He praised the quality of the top winning calves. The Memphis Chamber of Commerce and Hall County Board of Development provided premiums for the young showmen and checks were handed out along with ribbons at the conclusion of judging of each class.

Jimmie Bownds of Memphis won first for showmanship with John Luther Byars of Lakeview taking second place.

Following the show the prize-winning fat steers were sold at auction. The First State Bank purchased the Grand Champion at \$750.00 and the Reserve Champion for \$810.00. The Memphis Compress was the largest buyer, taking seven calves in all. Buyers of the other calves were: First National Bank, J. C. Penney Co., Pott's Chevrolet Co., West Texas Oil Mill and the First State Bank.

The list of winners follows:
Junior Milk Fed Steers: Bobby Adams, Estelline; 2nd, Winifred Russell, Estelline; 3rd, Jimmie Bownds, Memphis; 4th, Jimmie Bownds, Memphis; 5th, Nolen Salmon, Lakeview.

Senior Milk Fed Steers: 1st, John Luther Byars, Lakeview; 2nd, Raymond Martin, Lakeview; 3rd, Mackie Salmon, Lakeview; 4th, Jerry Byars, Lakeview.

Junior Dry Lot Steers: 1st, Lloyd West, Memphis; 2nd, Lloyd West, Memphis; 3rd, John Luther Byars, Lakeview; 4th, Jimmie Bownds, Memphis; 5th, Winifred Russell, Estelline.

Senior Dry Lot Steers: 1st, Charles Gardenhire, Estelline; 2nd, Smoky Davis, Estelline; 3rd, (Continued on Page 8)

Pete Smith To Head Booster Club in 1951

Edwin A. (Pete) Smith was elected president of the Memphis Cyclone Booster Club Thursday evening, Jan. 18, at the annual banquet and business meeting. He succeeds C. L. Pierce.

Other officers elected were: Clint Srygley, first vice-president; Louis Saied, second vice-president; and Arlis McBee, secretary. Directors for the coming year include Dr. Chas. B. Dryden, Ed Hutcherson and Jim Beeson.

Speaker for the evening was Dick Todd, former All-American football star from A. and M. College. He was introduced by Coach Chuck York. After his speech, Todd conducted a question-and-answer session. Prior to his talk Secretary J. W. Coppedge gave a summary of activities of the club during the past year. Coppedge stated that the boosters had furnished part of the first-aid supplies used by the football team, sent the squad to Dallas to see the Class AA playoff, as well as helped the athletic program in a number of other ways.

Pres. Smith set a goal of 200 members for 1951, and named the following on a membership committee: Clint Srygley, Jim Beeson, O. V. Alexander, W. D. Young, J. A. Anthony and Lloyd Ward.

**Baptist Youths
To Hold Monthly
Meet Here Sat.**

Approximately 125 Baptist youths are expected to attend the monthly meeting of the Panhandle Association here at the First Baptist Church on Saturday evening, January 27. Eleven churches in the Panhandle make up the association and representatives from all the churches will be in attendance. J. O. Strother, educational director of the Memphis church, stated.

The program is scheduled to begin at 7:30 p. m. and a social hour will be enjoyed following the program.

To open the meeting, J. O. Strother will direct the group in singing of religious songs.

At 7:45 p. m., Miss Nita Heath of Clarendon will discuss "God Has a Place For Me," and this will be followed by special music by the Hedley Choir.

Voluntary experiences of soul-winning and inspiration are (Continued on page 8)

J. H. Hayes Dies In Estelline; Services Thurs.

Funeral services for Joseph Holman Hayes, resident of Estelline for the past 18 years, were held this afternoon at 2:00 o'clock at the First Baptist Church in Estelline with Rev. A. V. Hendricks, assisted by Rev. W. B. Green, officiating.

Mr. Hayes died at his home in Estelline Sunday morning following a heart attack Friday. He had been active in his trucking business until the attack Friday.

Pall bearers were M. H. Long, Barney Russell, Carl Harrison, (Continued on Page 8)

CLAUDE'S COMMENTS

By J. C. W.

Miss Laura V. Hamner of Amarillo says: "When W. A. Johnson of Memphis (also publisher of Hall County Herald) was in the Texas Senate from 1910 to 1918, he introduced a bill asking that more than a hundred West Texas counties be cut off from the state and formed into the 'State of Jefferson.' Mr. Johnson had no real desire to divide his state but he had to use drastic measures to bring to the attention of the legislators certain injustices done this section and to reduce apparent discrimination against the Panhandle. The bill died in the committee room, but the device work-

(Continued on Page 8)

FARM and RANCH CHATTER

with LAYNE BEATY WBAP, Ft. Worth

We have heard, of course, that the way to fight with a woman is with your hat—grab it and run.

The fellow who coined that slogan will be interested to know that associated country women of the world and other international groups of ladies have been having conferences on peace.

We don't think this means the kind of peace that lots of husbands would like to have around the house, but it shows that the ladies, bless 'em, are thinking in terms of vital issues.

It was the Chinese, it seems, who said if there be harmony in the home there will be peace in the world.

That would have to apply to just about all the homes in the world, though.

It is ironic that just after announcing the glad news that there had been no outbreak of foot and mouth disease in Mexico for 12 months, a few cases were discovered in the state of Vera Cruz.

This happened the same week that the U. S. had lifted the ban on importation of canned Mexican meat.

We have had no news of any rescinding of this action. Meanwhile, the border is still closed to fresh meat and livestock from Mexico.

In normal times, about a half million head of cattle were brought into southwestern grazing lands each year from across the border.

Fruit growers in the fantastic land of southern California have over three million smudge pots, which cost about three dollars per hour each to operate, we read.

This makes weather forecasting especially important out there. A government meteorologist named Floyd Young has been hitting his frost forecast on the nail over 90 per cent of the time for 26 years, broadcasting over a clear channel station that reaches the growers.

Here in Texas we are pretty proud of our weather forecasters, too, and you hear them on the air right along.

The weather men in Fort Worth give the outlook for weather within a 500 mile radius, and it is the official weather used by the commercial air lines, as well as by farmers and ranchers.

Many million pounds of meat on the hoof has been saved in Texas because ranchmen were warned of approaching blizzards or hurricanes in time to hustle their livestock to shelter.

Erle Hardy and A. J. Knarr of the weather bureau here and their staff have built up a following of radio listeners that will compare with an other. We have received letters to prove that.

It is fitting that the 1951 Maid of Cotton come from Texas. Jeanine Holland, one of three entries from Houston, walked away with favors of the judges in the annual contest recently in Memphis, sponsored by the National Cotton Council.

As she travels about the world the next six months as cotton's goodwill ambassador, she also is proving what the world has long known anyway, that the prettiest girls come from here.

Three years ago, Matilda Nail

of Fort Worth was the Maid of Cotton.

Well there is some doubt that the nation will produce the sixteen million bales of cotton the Department of Agriculture has asked for.

One thing sure, we'll have to do better with yields per acre than we have averaged in the past. Some of the leading cotton observers don't believe farmers will respond to the need with all out planting of cotton.

There will be some increase undoubtedly, but lots of folks have learned that some of our old cotton land just shouldn't be used for that crop until it has been rebuilt.

The extra production will mostly have to come from increased yields by fertilizing, keeping the bugs and diseases down.

Given good conditions, we might make it.

Insects have been blamed for lots of things, but now they're being implicated in the dust bowl.

The dust bowl, we can add for the benefit of the younger generation, is not a New Year's football game.

What the bugs have to do with using the dust bowl seems to be their destructive action on small grain and other plants which help protect the soil when they're sticking in the ground but leave it exposed when they're eaten, broken off or deteriorated.

By the way, the drought of recent months together with the cold weather, means a greater threat of dust blowing than in a good while. There has already been some around Lamesa. Plus a little in Erath and nearby counties.

Every year lately the Fort Worth stock show had some new facility or other to show off the big exposition in late January.

This time it's a new turkey-rabbit-poultry building between the sheep barn and cattle barn number one. Last year it was a new judging barn and sales arena.

This time it won't be necessary for the poultry and rabbits to double up with the sheep, and also every group can stay throughout the entire show without having to move out for the next group.

A Boy, a Dream and a Goal

IN THE HOPE of earning one of the 734 awards—which include eight university scholarships with a total value of \$20,000—offered in the 1951 competition of the Fisher Body Craftsman's Guild, William Worth of Detroit sketches the design of the model car he will construct and enter in the competition. Boys between the ages of 12 and 20 desiring to enter the competition may do so by writing the Fisher Body Craftsman's Guild, Detroit 2, Michigan. A total of \$65,000 in awards and scholarships will be given youths designing and building the best model car.

This is the last column I'll be writing in this space. My successor at WBAP, W. A. (Doc) Ruhmann, will be taking over and since he knows more farming and ranching than I ever hope to, you should find him good reading.

Doc has been county agricultural agent in Tarrant county for about five years, as a native of Kenedy county, and a purple heart veteran of World War II.

As for us, we're going to the S. Foreign service and hope to help Uncle Sam get his money's worth for the amounts we are spending in Europe. Our assignment is to the Athens, Greece.

WILDCATTERS TO DRILL ON MOUNTAIN TOP

The never-ending search for oil has carried wildcatters to the top of a 6,880-foot mountain in California. To bring equipment to their lofty drilling site, the company

at a cost of \$80,000. Water for the operation will be pumped through a six-mile pipe from a water well drilled 3,000 feet down the mountain. Because winter storms often close the roads in the mountainous territory, sleeping and cooking facilities are being installed at the rig.

Bobby Crooks and Bobby Pat Young, students at Southern Methodist University, are enjoying the mid-semester vacation here with their parents, Mr. and Mrs. R. E. Crooks and Mr. and Mrs. W. D. Young.

Marine Corps To Call Reservists

Headquarters U. S. Marine Corps has announced plans for the additional requirement of approximately 2000 Marine Corps Reserve ground officers, and approximately 2500 additional staff non-commissioned officers, to be called to active duty in the near future. In addition about 250 Marine Corps Reserve aviation personnel and aviation ground officers will be required it was learned. The officers to be called will be principally in the grade of Lieutenant. "Of the total officers to be called approximately 350 are in the Eighth Marine Corps Reserve Dis-

trict, comprising Louisiana, Texas, Oklahoma, Texas and Mexico." Major C. G. Rollen, director of the Eighth Marine Corps Reserve District announced. "It is not presently known when these men will receive orders." Major Rollen said, "is simply a projected plan to the Marine Corps to a state readiness."

OIL EQUIPMENT IS USED FOR GEOGRAPHICAL STUDY

Test hole drilling equipment generally used by oil geologists exploring and probing possible bearing territory, is being used in a geographical expedition that wants to measure the rate of an Arctic ice cap. The explorers will drill a hole in the ice and measure the hole's depth from the vertical. A re-survey in 1951 will disclose the direction and rate of flow of the ice at different levels.

If your car needs any kind of body work, bring it to Ken Monzingo, your Chrysler-Plymouth dealer.

The Cyclone News

Youth and Its Problems' Is Presenter in a Symposium

E. L. Guthrie's Speech Presentations Class presented a program for the Woman's Club Wednesday, January 24, at 3:45 in the home of Mrs. Madden. The program was presented in the form of a symposium.

The program chairman, Mrs. Gereta Farmer, turned the program over to the leader, Ann O'Connell, who introduced the subject which was "Youth and Its Problems, How Can They Be Met?" She introduced the members who will participate in the discussion: Beryl Davis, a Senior; Johnny Smith, a Senior; Gereta Graham, a Sophomore; Beverly Snell, a Sophomore; and Nancy Stanford, a Senior.

Beryl gave the definition of youth and "teen" to begin the discussion. Nancy and Ann continued the serious problem that is present in larger cities, that of gangs. The solution offered to these groups was kindness and a better environment for these girls who are together and fight.

Gereta presented the idea of youth center and its effect on solving of teen-age problems. Youth Center itself brings up controversial ideas. Gereta argued on with the main argument, dancing. She suggested this be solved by square and couple dancing. An interesting idea that she brought out was the history of the square dance which came from the cultured, grace-minuet. She concluded with a picture from the Bible found in Ecclesiastes 3-1 which states, "Every thing there is a season and a time to every purpose under the heaven."

Beryl added her material on subject and the discussion turned on to Beryl, who answered question, "What good is social movement?" She pointed out one must develop socially to along in this world and must know how to talk intelligently to everyone. At this point, Beryl told how it is sometimes difficult for teen-agers to converse with adults, especially on world news. She gave reading the paper and listening to news broadcasts as ways for learning about world events. She said that teen-agers should be and are interested in what is going on in the world.

Major problems on various subjects were discussed with Johnny Smith of a new course for high schools and colleges. This course called a guidance course and is being more and more popular in larger schools. This course will be beneficial to all high schools.

Mexican Supper Cafeteria
Spanish one and two classes are going to have a Mexican Supper, under the sponsorship of Miss Fowler, tonight, January 25, in school cafeteria.

All the Spanish students participating have to wear something of the Spanish custom. They don't they have to pay a fee by performing before the supper.

There are different committees. Head of each committee is Mrs. Harris, who is in charge of the menu. The menu will be pastas, tamales, Chalupas, chocolate sauce, and dulces. Margaret Massey is in charge of the decorations that will be broken tonight. Gilbert is in charge of the program. He plans to present a play. The characters of the play are Nadine Padgett, Paul Hancock-husband and D. Roden-waiter. Betty Stueber is in charge of the games and Joyce McWhorter is in charge of the decorating. All high school students are invited to Mexican Supper.

schools in that it gives the students a chance to answer their own problems with an instructor's views and advice.

Beryl brought out about the teenicide situation. She defined teenicide as the fine art of killing yourself, and maybe others, before reaching the age of twenty. Nancy told of the problems of teen-agers following the crowd and doing things simply because "all the kids are doing it."

Ann told of Canyon's recreation program for its youth. Canyon has formed a Youth Council on Education to study the question, "What is the best thing for our boys and girls?" Representatives from these organizations serve on the council: Women's Clubs, Churches, Chamber of Commerce, Class Room Teachers, Civic Clubs, Boy Scouts, Student Council, Parent-Teachers Association, and County Agents. Canyon is spending \$7,000 on this splendid recreation program. Ann closed with the challenging question, "Why wouldn't a co-ordinating council such as this work in our town?"

During the symposium these solutions to youth' problems were pointed out:

1. A guidance course in our high school.
 2. Solving the dance problem with couple and square dancing.
 3. Attending Church and Sunday School.
 4. Organizing a Youth Council.
- Ann closed the symposium with these words, "The best solution to any problem can be obtained from the book that solves all our problems, the Bible. When in doubt any question, remember I Corinthians-10:31; "Whether therefore ye eat or drink or whatever ye do, do all to the glory of God."

Don Wright, son of Mr. and Mrs. Don Wright, arrived home this week to spend the between-semester vacation with his parents. Don is a student at Midwestern University, Wichita Falls.

Orchids and Onions

Orchids to the Cyclones for winning the Memphis Invitational Basketball Tournament.

Onions to people who insist on walking up and down the aisles during basketball games.

Orchids to the students who made high enough grades for exemptions.

Onions to the students who paper-wads during ball games.

Orchids to Burl McClellan for helping the Journalism students in their work from September to January.

Onions to the students who didn't uphold their team during the tournament.

Orchids to the students, Pat Goodnight and Troyace Rhudy, who were selected "Most Versatile Girl and Boy for 1940-51".

Onions to the Journalism Class for their catty remarks.

Orchids to the members of the Cyclone Band who helped present the coronation of the Basketball Queen.

Onions to the older boys who take the basketball away from the younger boys in the gym at noon.

Orchids to Nancy Stanford, Don Rasco and Scotty Grundy, Basketball Queen and Captains.

Onions to the lower classmen who persist in sitting in the section designated for Seniors.

Orchids to the boys who received football jackets and sweaters.

Onions to the draft board for taking all the eligible Memphis males.

Orchids to the faculty for the fine show "Quarterback" shown in last weeks assembly.

Orchids to the girls basketball team for improving so much.

Memphis School Has Nice Display Of Trophies, Plaques and Cups

Memphis High School has in its possession many trophies, plaques, and cups that have been given as awards for silent work done by students throughout the years. The oldest award is a cup received by the girls' tennis team of 1923, and the newest is the first place tournament trophy won by our 1951 basketball squad. One cannot enter the front door of the office without noticing the shining awards within the glass-fronted trophy cases.

If the most successful activity were to be determined by the number of awards received for participation in that sport, basketball would be tops. Included in the seventeen basketball trophies is a state-championship award for the year 1949.

Track has given to the school its share of honors. Seven track awards, earned by boys who strived for the best and won, find their places in the trophy cases.

Baseball and football, two favorite sports, have four trophies monumental of times when they were tops. Interscholastic leagues, tennis, and debate teams

have left moments of their glories in the twenty gold and silver cups, each of which is properly engraved.

Two activities in which a large majority of the students participated are band and choral. Both of these have caused Memphis High School to receive recognition by authorities throughout the state of Texas. Ten trophies and plaques adorn the band house walls as well as the trophy case.

The agriculture department has its portion of banners, also. Being active in all phases of the field, the department has received banners for winning places in dairy judging contests, chapter conducting, livestock judging, farm demonstration and junior and senior quizzes. The first of these fifteen banners was won by the F. F. A. in 1947 and the latest in 1951.

These various awards, representing the work and sportsmanship of high school students in past and present days, are among the most coveted possessions of our school. As the years go by, many more will be added to this immense collection.

Cyclones Edge Out Vernon Lions By Small Margin Tuesday Night

The Memphis Cyclones met the Vernon Lions in two very fast games here Tuesday night, January 16.

The Cyclone "B" squad won over the Vernon "B" with a score of 38 to 27. The Cyclone led most of the ball game and at the half the score was Memphis 25 and Vernon 15. Carl Lee led the Cyclones with a total of 9 points.

Those boys playing for the Memphis "B" squad were: Harvey Kennedy, Davey Corley, Duke Frisbie, Jimmy Morrison, Rayford Hutcherson, Carl Lee, Julius Stevens, Kenneth Cheek, Vance Adams, Lloyd West, Roy Don Coleman, Lloyd Gillispie, Doyle Collins, Jimmy Gibson, John Foster, and Don Stewart.

The Cyclone "A" squad played one of the fastest games the Cyclone Boosters have witnessed this season.

At the end of the first quarter Memphis led Vernon by a 10 to 9 score. The half of the game came much to soon with Vernon leading 21 to 18.

Lions with 15 points.

Memphis will meet Vernon on their court January 30 for another "A" and "B" game.

Those Cyclones who have credit for this victory are: Scotty Grundy, Tommy Messer, Lee Bloxom, Don Rasco, Max Kennedy, Ronnie Smith, Charles Messer, Bennie West, and Duane Miller.

Sigurd Rascher to Give Concert in Plainview Jan. 26

Mr. Keyser has received a letter notifying him of the Sigurd Rascher concert to be held in the Plainview City Auditorium on Friday, January 26.

There will be a matinee and clinic at 2:30 P. M. and an evening concert at 8:00 P. M. Admission to the matinee will be 50c and admission to the evening performance, \$1.00, with the exception of upper balcony seats which will be 50c.

Those who attended the Tri-State contest at Enid, Oklahoma will recall his wonderful performance there the past two years.

Mr. Rascher is known as the world's greatest saxophone soloist. He has performed with the Boston Symphony under Dr. Serge Koussevitzky, and the New York Philharmonic.

This is the only performance of Sigurd Rascher in this part of Texas.

Speech Club Hears Symposium On 'The Iliad'

The Cue and Curtain met Thursday night, January 18, at 7:30 P. M. in the Speech Dept. After a short business session, president Scotty Grundy introduced the program.

Patsy Combs, Eudine Gable, Pat Adeock, and Scotty Grundy gave a symposium of "The Iliad" by Homer.

Mr. and Mrs. Roy L. Guthrie furnished refreshments of brownies and spiced tea to members of the club and guests. Guests attending were: Mrs. Burr Morris, Mrs. W. C. Davis, Mrs. Phaeton Alexander, Mrs. Jude Gable, Mrs. Ira Foster, Mrs. Oran Adeock, Mrs. Allen Grundy, Mrs. Jack Lewis, Mrs. Herschel Combs, Mrs. Clifford Farmer, Mrs. Henry Hays, Mrs. L. W. Stanford, Mrs. S. W. Jackson, Mr. Roy Guthrie, Miss Jeanne Way, Miss Norma Mitchell, Miss Barbara Myers, Mrs. Suzie Minor, Miss Teresa Jackson and Miss Elizabeth Grundy.

ENROLLMENT INCREASES AT MEMPHIS HIGH

Memphis High's enrollment has increased by seven students as compared with last year's midterm enrollment of 241. The 248 students of this first semester have shown a much better average daily attendance than was recorded for the first half of the school year 1949-1950.

Former Memphian Dies At Floydada Fight Fire With

Monta Lee Solomon of Floydada died of a heart attack Tuesday and funeral services were conducted there Wednesday. Mr. Solomon formerly resided here, moving to Floydada several years ago where he has been engaged in the jewelry business. Besides his immediate family he is survived by a sister, Mrs. Ida Hutcherson of Memphis, and brothers Frank Solomon of Shamrock and Emmitt Solomon of Hereford, and other relatives.

Fire Advises A&M Specialist

In Somervell County, Texas, farmers banded together and burned the grass along the highways. Each morning when the wind was moderate, farmers would burn the grass to prevent fires starting when no one was present to control them.

Much can be done toward educating motorists to refrain from throwing lighted matches and cigarettes along highways where the grass can be set afire, says Somervell county agricultural agent E. D. Cooper. But it is doubtful if a 100 per cent job can be done. An estimate has been made that indicates about ten percent of the drivers are law violators who pay little attention to any law. They pass cars in no-passing zones; fail to stop at intersections where stop signs are placed; and they pay no attention to 30-mile speed zones. When one of these drivers violates one law, chances are good he'll violate another the next time the opportunity presents itself. Cooper suggests that drivers do a little checking on their own as well as the other fellow's driving habits.

He points out that unless 100 percent of the drivers cooperate in keeping down fires, not much can be done because ten drivers can strew lighted matches and cigarettes along the highway and ruin the good record set by the 90 careful drivers. The best answer to the problem is to fight fire with fire.

Before the program was started in Somervell county, he says, several large fires destroyed pastures ranging from 20 acres to 300 acres. One home was lost from a grass fire.

This may not be all that could be desired from the standpoint of highway beautification, he adds, but it does stop the losses caused by the careless motorist.

The problem is how to get rid of elephants (pink or white) and no how to get them.

Articles made of nylon should be washed frequently. Any of the commonly used household soaps can be used. Handwashing is recommended for the delicate trimmings. Squeeze the suds through the fabric, rinse in warm water, squeeze out excess moisture and hang to dry.

JET PILOT . . . Lt. Earl Chester, Dennisville, N.J., has proven himself in battle against Russian-built MIG-15's. He has destroyed one MIG and damaged two others.

A&A Specialist Recommends Care Of Nylon Fabrics

Ruffles, intricate gathers, pleats and cobweb lace no longer are considered fragile and for the favored few. In fact, since nylon with its durability and ease of washing has come on the scene, more and more homemakers can afford these extra features in their wardrobe. Research has been constantly on the job to develop the best methods of caring for nylon.

Nena Roberson, associate clothing specialist with the A. & M. College Extension Service, suggests washing nylon this way. Wash nylon articles frequently using any of the usual household soaps. Handwashing is recommended for delicate trimmings. Squeeze the suds through the fabric. Rinse thoroughly with warm water. Lightly squeeze out excess moisture; smooth out the seams or hems and hang to dry.

Miss Roberson says that it is all right also to hang out nylon articles dripping wet, indoors or out. However, too much direct light may fade the colors eventually.

Many nylon fabrics, hung when wet and smoothed out by hand, will need little or no ironing. If a nylon fabric does need pressing Miss Roberson suggests that it be done damp or dry with a moderately hot iron. Set at the "rayon" setting if there is no "nylon" setting on the iron. When washing nylon in hard water, a softener will prevent the deposit of curds of insoluble soap. Strong bleaches will weaken nylon as they will other fabrics. Miss Roberson says to use them carefully and only when unsightly stains or discolorations cannot be removed by proper washing and cleaning. Bluing is not necessary for white nylon, but if nylon is being washed with other white fabrics, it is all right to use blue flakes in the wash water.

A lot of stains will come out of nylon fabrics with just soap and water, thus being a big answer to travel and emergency problems. Just sponge off a stain at the time of the mishap. The usual cleaning fluids can remove spots on nylon too, adds Miss Roberson. Just follow the directions on the bottle.

CHAMP LIAR . . . Fellow workers in Los Angeles plant salute F. Goulette who has just been named champion liar for 1934 by Burlington Liar Club of Wisconsin.

Motorist should refrain from throwing lighted matches and cigarettes onto highway right-of-ways where grass can be set on fire. Serious grass fires have resulted from the practice and motorists should remember that grass is a mighty important item so far as the farmer and ranchman are concerned. The nation's meat supply in part depends upon the amount of grass available for livestock production.

Cotton farmers are recommending treating planting seed with a chemical to secure a better stand. They will also help to control leafspot and soreskin.

High yielding pastures cash crop and should be treated as such.

Pearls of Wisdom

Strung by J. H. R.

An Eerie Business There is a little verse about the "dear departed" which some might think morbid, others amusing, that runs thus: I have a nice address book; I've had it quite a spell. It's full of streets and cities Where people used to dwell. (Richard Armour)

One of the strangest hobbies which has developed into a business is pursued by one Frank Headland. He can tell you the burial place of everyone but Herr Hitler, and he's working on that. For fifteen years Headland's hobby has been ferreting out the graves of history's headliners. As a record of his findings, he has compiled a fabulous directory of the dead called "Where's Who."

Headland will spend years searching for a single corpse. When a Hollywood studio was anxious to learn the whereabouts of Calamity Jane's grave, so their cameras could show her tombstone for the picture's wind-up, Headland was contacted. By return mail, he sent them a photograph of her marker as it stands in Mt. Moriah Cemetery, Deadwood, S. D. In like fashion, he could locate King Richard, the Lion-Hearted, John Sutter, John Dillinger, or Billy the Kid. Furthermore, he is now able to furnish authentic data as to the burial site of famous animals, as well as the famous and infamous human beings.

A traveling salesman by trade, Headland mixes hobby with business by combing the nation's cemeteries as he goes. He started on this freak hobby in 1932 by a chance editorial in a newspaper lamenting the fact that one of the state's famous sons must go unremembered because his gravesite was unknown. Since that time, hundreds of morticians and scores of obituary editors have humored his hobby.

In most countries, the religion of the people dictates the manner and ceremony to be used in caring for the dead. The civilized nations bury their dead with reverence and solemn ritual while fanfare and feasting on such an occasion

is common practice in the less civilized countries. Due to crowded burial space, a shallow water level (as in New Orleans) or preference of relatives, cremation is practiced in many cities. A writer in Time magazine tells us that in crowded Britain, where many cemeteries have three layers of dead and the burial vaults are crammed with urns, ash-scattering has become a common practice. One girl scattered her father's ashes in the Thames where he had so often fished and boated. And Sir Philip Sassoon of the great Jewish banking family had a bomber squadron scatter his ashes. England sanctioned ash-scattering in 1944 if disposal were on consecrated ground. The Cremation Society of that country considers this best fulfillment of the words "ashes to ashes, dust to dust." Of course, there must be wit at hand whatever happens, as in the case of the golfer who wanted his ashes scattered over the tenth green as it had been his nemesis so often he wanted to haunt the place. Then there was the mortician with the sign, "Have you tried our lay-away plan?" And the tombstone dealer, "Drive carefully. We can wait."

Incidentally, should anyone be interested (other than the makers of "poison" labels for bottles or doctors who sometimes keep a skull on their office desk) it wasn't the pirates of the Spanish Main who devised the Jolly Roger (the skull and cross bones) as a sign of death. On the ruins of the village of Nohcacab near Uxmal there are many excellent bas-relief sculptures of the death symbol. (John L. Stephens) Speaking of bones, the world's largest dealer in skeletons is distressed because he can't supply the increasing demand. With an increased enrollment of medical students made possible by the GI Bill of Rights schools that once ordered one or two skeletons a year now want dozens. John F. Longergan's sole source of supply for human skeletons is India because most other countries have laws to prevent such trafficking. Should you want an elephant skeleton, you must pay Mr. Longergan the tidy sum of \$3,000. (if he has one available) Usually

Miss Nelle Hagan Becomes Bride of Roy Carter in Childress Rites

The wedding of interest to friends is that of Miss Nelle Hagan, daughter of Mr. and Mrs. Malone, of Childress and formerly of Memphis, to LeRoy Carter, son of Mr. and Mrs. C. J. Carter of Childress, Okla.

The formal ceremony was performed Sunday evening at the Presbyterian Church in Childress by Dr. E. Wilson Cole, pastor.

Miss Boss Barnes, organist, officiated at the pre-nuptial concert and accompanied Miss Oveta and Mrs. Fern Payne, vocalists, as they sang "At Dawning."

Lord's Prayer was played during the ceremony and traditional wedding marches were used for the processional and recessional.

Given in marriage by her father, the bride was attired in a white satin formal gown designed by a white nylon net skirt over a white bodice with white and gold covered buttons. Her finger-length nylon net veil cascaded in a halo of white hyacinth and white orchids, hincins and lilac imported from Holland.

Miss Margaret Hagan served her as maid of honor. Her Coral and net dress was identical to the bride's costume. Her halo of gold with a touch of orchid.

Bridesmaids were Misses Jackie Egan, Ray Ann Green and Marjorie French, all of Childress. They wore identical satin and net gowns with shades of orchid, green and gold.

Store Cowan of Childress attended the groom as best man. Groomsman were Bill Sager and Jim Pace of Childress and Jim Abner of Shamrock.

Immediately following the ceremony, the bridal party was feted at a reception at the Childress Country Club.

The serving table was adorned with a three-tiered cake decorated by the bride's grandmother, Mrs. Storey. The cake was resting on a reflector surrounded by lilac and pink rosebuds and pink by crystal candelabra holding pink tapers.

The bride graduated from Childress High School and attended Texas Technological College where she was pledged to Sans Souci sorority. At the present time, she is employed as secretary at the Childress radio station. She is the granddaughter of G. D. Beard of Childress formerly of Memphis.

Mr. Carter is a graduate of the Lawton, Okla., high school and is now employed as chief announcer for the Childress radio station. He is co-owner of the Record Shop.

Following a wedding trip to Austin, the couple will be at home at 210 Avenue G, Northwest, Childress.

Attending the wedding from Memphis were Mr. and Mrs. Art Miller, Mr. and Mrs. E. M. Wilson, Mr. and Mrs. Mac Tarver, Mrs. W. C. Dickey and Mrs. Myrtle Walker.

Memphis Students Give Program At Junior High P-T A

The Junior High Parent Teachers' Association met in regular session Thursday, Jan. 18, at 4:00 o'clock in the school auditorium.

A short business meeting was conducted by the president, Mrs. Gene Chamberlain. The treasurer reported that a check for \$18.18 had been deposited from the Plaska P-TA. This check was half of the West Ward P-TA had received the same amount.

Mrs. Roy Guthrie's speech pupils brought a most interesting and entertaining forum on "How Important Are Teen-Age Opinion and Whims?" Those appearing at the forum were Misses Minnie Lee Jackson, Betty Goodall, Patsy Sue Hays, Patricia Alexander and Betty Kennon.

The next meeting will be in observance of "Founder's Day" and will be a joint meeting with the West Ward P-TA on February 15 at 4:00 o'clock in the High School Cafeteria.

Blue Bonnet Needle Club Observes 17th Anniversary With Luncheon

The Blue Bonnet Needle Club met in the home of its president, Mrs. T. M. Potts for its seventeenth anniversary luncheon, Friday, January 19.

Cut flowers graced the piano and foursome tables.

A monogrammed coconut cake iced in pastel blue formed the centerpiece for the beautifully appointed dining table laid with madonia linen.

Moving pictures were made of the group during the luncheon hour.

At the conclusion of the business session, Mrs. Potts was presented with a gift from the club as a token of its love and esteem. Also a unique corsage symbolic of the needle club.

The incoming president, Mrs. Jim Vallance named the following committees for the new year:

Courtesy: Hucie Lindsey, Eula Boren and Helen Combs; Year Book: Essie Cullin, Fern Boone, Martha Lee and Betty Goodall; Membership: Gussie Jones, Jessie Snell and Minnie Lou Potts; Social: Winnie Johnson, Ethel Rogers, Mabel Meacham, Margaret Phillips and Florence Fitzjarrald.

Those present were Mmes. Minnie Vallance, Jessie Snell, Florence Fitzjarrald, Gussie Jones, Hucie Lindsey, Mabel Meacham, Essie Cullin, Winnie Johnson, Ethel Rogers, Fern Boone, Margaret Phillips and Minnie Lou Potts.

Dorcas Society Meets In Home Of Mrs. Frank Smith

Mrs. Frank Smith entertained the Dorcas Society in her home, Friday, Jan. 19 with a covered dish luncheon.

Those enjoying the day were Mmes. W. B. Wrenn, S. O. Greene, L. G. Yarbrough, Ella Johnson, W. L. Glosson, Henry Newman, and Miss Virginia Smith and the hostess, Mrs. Frank Smith.

The next meeting will be in the home of Mrs. A. B. Jones on Feb. 1.

Legion Auxiliary Meets Thursday

The Legion Auxiliary met Thursday night, January 18, at the Legion Hall. After a short business session, Mrs. Glynn Thompson gave an interesting and instructive discussion.

The hostesses, Mrs. M. G. Tarver and Mrs. Edd Lane, served refreshments to the following members: Mmes. W. B. McQueen Jr., Gene Lindsey, Hulda Wilson

Mizpah Guild Meets In Home of Mrs. C. W. Kinslow

The Mizpah Guild of the First Presbyterian Church met Monday night, Jan. 22, in the home of Mrs. C. N. Kinslow.

The meeting was opened with reading of the invocation in unison, following which roll call was answered by each member with poem or Bible verse.

Mrs. Boyd Rogers favored the group with a book review "So Sure of Life" by Violet Wood, in a most interesting and inspirational manner.

Following this Rev. Burr Morris conducted an installation service for new officers for coming year.

During the social hour delicious refreshments were enjoyed by the following, Mmes. O. V. Alexander, Frank Finch, Lewis Foxhall, Boddie Grundy, Buster Helm, Bill Kinslow, Burr Morris, Ora Denny Clifford Farmer, Dorcas R. Foster, Carl Harrison, Oren Jones,

Estelle Bennett, Pearl Massey, Chas. Drake, H. B. Bennett, J. H. Barbee, Jr., Arlis McBee, Glynn Thompson, H. C. Pounds, O. V. Alexander and Miss Dink Dennis.

Locals and Personals

Mrs. Olin Reheis and sister, Vincie Ann Green of Oklahoma City visited here Tuesday with Mr. and Mrs. Joe Reheis.

Mr. and Mrs. R. S. Greene left this week for Petersburg, Fla., where they will spend a month vacationing.

Joe Webster of Fort Worth was a visitor here over the week-end while he visited relatives. He went to Dalhart from here to look after his farming interests.

Jim Deaver, who is with the Amarado Oil Co. with headquarters at Abilene, spent the week-end here with his parents, Mr. and Mrs. T. H. Deaver.

Mr. and Mrs. A. C. Powder of Amarillo were here Thursday and Friday visiting her sister, Mrs. Joe Graham and family.

Mr. and Mrs. Sam Whiteside returned to California this week after a visit here with her parents, Mr. and Mrs. A. W. Howard and at Baytown with his parents. Sam is in the Radar department of the armed service, now located in California.

Robert Hoytt, general passenger agent, and C. E. Nottingham, general auditor of the Fort Worth & Denver Ry. Co., were business visitors in Memphis Wednesday.

Mr. and Mrs. W. D. Bevers are moving to Fort Worth and Mr. and Mrs. A. Womack are moving into the Bevers residence at 8th and Robertson.

Atty. Howard Traweck of Mador was here on legal business Wednesday.

Harry Hoare, state editor of the Amarillo News, and W. U. McCoy, feature editor of the Amarillo Times, were stock-show visitors here Wednesday.

Mrs. Vera Balch of Amarillo visited Mrs. H. H. Newman Tuesday.

Mr. and Mrs. Robert W. Sexauer returned from Dallas Friday where Robert underwent an operation the week before.

Mr. and Mrs. M. J. Cummings and daughter, Sue of California are here this week visiting with their son and family, Mr. and Mrs. Robert Cummings. They are also visiting with Mr. Cummings' sister, Mrs. Ida Davis in Lakeview.

R. C. LEMONS ATTENDS MARKET IN CHICAGO

R. C. Lemons returned last Thursday from Chicago where he had been for the past week attending Furniture market. Mr. Lemons made the trip by plane from Amarillo.

TANK CARS HAVE LONG HISTORY

The modern railroad tank car is a descendant of the flat car loaded with barrels of oil and used in the early 1860's. In 1865, wooden tanks, holding 40 to 50 barrels each, were placed upright on a flat car. Soon these were replaced by iron tanks holding 90 barrels each. By the late 60's, the horizontal tank car came into use. Since that time, although the design has not changed greatly, safety devices and insulation improvements have been added.

The typical railroad tank car today has a capacity of about 8,000 gallons, although some may carry up to 12,000 gallons. At the beginning of 1950, nearly 100,000 tank cars supplemented the movement of oil by pipe lines, tankers and barges.

CARD OF THANKS

We wish to express our heartfelt thanks to our friends and neighbors for your kindness to us in our sad hour.

We are grateful for the beautiful floral offerings, and for the food that was served. May God's blessings be upon you, is our prayer.

The Family of M. E. Johnson.

STUDENT TO APPEAR ON AMARILLO PROGRAM

Three boys from the Fourth grade, West Ward School, will appear on the KGNC Quiz Down Program, Amarillo, on February 15 at 5:00 p. m.

Appearing on the program will be Monty Moningo, Steve Blackmon and Roger Crooks.

"You Can Always Depend On Us!"

NAPOLITAN BROOM BRIGADE . . . In protest against the dirt of the city, hundreds of Naples' university students, carrying brooms and placards, parade through the city streets. They even worked groups and cleaned the streets themselves. They don't agree with the city fathers that the dirt of Naples is a colorful tourist asset.

One of his first moves was to register a demand with the Army Corps of Engineers that contracts be let direct to builders on the ground, in all cases where possible and that builders on the ground be given first opportunity to qualify for the major construction projects. In the meantime, those persons seeking construction contracts should contact the office of the Army Corps of Engineers, at 2600 Memorial Drive, Tulsa, Oklahoma, until otherwise advised.

The sentiment of the House of Representatives was expressed with the passage of a resolution calling for Red China to be branded an aggressor. This resolution was spear-headed by Democratic Majority Leader John McCormack and he was joined by Republican Leader Joe Martin. One Republican congressman sought to have the resolution re-committed for further study, but this motion failed. This is only a fore-runner to the activity that will be seen in the present congress to solve the international problems that now confront our country. The people are entitled to and can look for action on the congressional front.

New Drug . . . Aureomycin Very Effective Against Boils, Carbuncles

Suffers from eruptive skin boils and carbuncles are offered new hope for relatively quick, safe relief by the use of aureomycin, the "golden wonder drug." Early tests with this versatile antibiotic drug indicate that it is the most effective agent yet developed for combating these types of skin infections. Most boil and carbuncles are caused by staphylococci and streptococci germs, which enter the skin through tiny hair openings or through a very small scratch. While these infections are almost always localized, there is a strong chance that low resistance or amateurish tampering will push the germs into the blood stream and cause serious illness, possibly death.

Aureomycin has proved vastly superior to penicillin and the sulfa drugs in treating these particular infections. In addition, there is no evidence that germ organisms build up a resistance to aureomycin, as they do to many other drugs. Also good news is the fact that aureomycin is effective when swallowed in capsule form rather than injected with a needle, as is often necessary with penicillin and other drugs of this type.

Two Students from Hall County Will Graduate at NTSC

Two students from Hall County have made application for graduation at North Texas State College. Graduation exercises at NTSC will be held at 3 p. m. on Feb. 1 in the men's gymnasium. Due to the large graduating class, there will be no speaker at the ceremonies according to President W. J. McConnell. Patti Sloan, daughter of Mr. and Mrs. C. L. Sloan, route 1, Estelline, will receive the bachelor of business administration degree.

Bobbie Nell Ray, daughter of Mr. E. C. Barnett, Sr., Lakeview will receive the bachelor of science degree with a major in elementary education. While at North Texas State she was a member of the Future Teachers of America Organization, a club for future teachers. Mr. and Mrs. Albert Gerlach made a business trip to Wichita Falls last Wednesday and spent last Thursday in Azle visiting with Mr. and Mrs. Paul Nash.

H. N. Blackmons Visit Son At Lackland Field

Mr. and Mrs. H. N. Blackmon went to San Antonio over the weekend to visit their son, T. C. who was stationed at Lackland Field. They were accompanied by L. D. Messer.

T. C. who volunteered with the Air Force about three weeks ago, was transferred to Birmingham, Ala., this week. His mother stated that he will attend an Air Force Intelligence Service school in Birmingham.

While in San Antonio, the Blackmons also visited three of Mr. Blackmon's brothers and families, M-Sgt. and Mrs. Ralph Blackmon, Lt. and Mrs. Leonard Blackmon and Mr. and Mrs. Preston Blackmon.

PIPE LINE GROWTH
From mid-1941 to the start of 1950, the nation's petroleum industry constructed 25,463 miles of crude oil and petroleum products pipe lines. These additions brought the nation's total pipe line mileage to 152,814 miles by January 1, 1950.

REPORT FROM WASHINGTON

From the Office of Congressman Walter Rogers

Rayburn echoed the tone of the 82nd Congress called on all members to do things that make the national desperadoes and desecrate to get in our path." Session is deep in debate taxes, finances and other policies. But above all, concerned about arms for United States and aid to the Communist world. These are the searching problems of this session as its energies to building nation's defensive and strength for survival while stands in the gravest of its history. Congressman Rogers says quite business men, both big and have expressed opinions to a Federal General Sales any are in favor of it. He like for folks in the dis- write him their ideas about feels that this is a matter interest to all tax payers

assured no sending of eighteen year-olds to combat areas, but opposed writing any flat prohibition of this as proposed by Chairman Lyndon Johnson, as it would cripple the services in meeting a sudden ruthless and violent attack by any possible enemy. Mr. Rogers said he doubted the authority of Congress to limit the services of eighteen year-olds once they are drafted. He feels that draftees, once under the jurisdiction of the military, could be ordered any place the military wanted. Even if an eighteen year-old draft bill should include a prohibition against active service, it is the opinion of Mr. Rogers that it will be only a short time before the military will be asking Congress to release that limitation on the basis that eighteen year-olds had been placed in units with older men and that to limit their service would cause a disruption of the units.

The Committee on Veterans' Affairs, on which Congressman Rogers serves, unanimously reported favorably to the House the bill which provides 10,000 free indemnity for those serving in the Armed Forces. The bill is retroactive to June 27, 1950. It provides insurance, without cost, in the amount of \$10,000 for each person in the Armed Services. It is in effect from the time of induction into active service until ninety days after leaving service. If a person is injured while in the service so that he becomes uninsurable at normal rates, he may obtain a policy under the National Service Life Insurance Act. Indemnity is paid in monthly installments of \$92.90 over a ten-year period. Creditors do not attach it, and it is exempt from taxation. The Comptroller General stated that had this program been in effect during the period 1940-49, the cost to the Government would have been \$587,000,000 less. Congressman Rogers, on a recent Mutual Newsreel Broadcast said "This legislation is a major step toward the needed economy in administrative costs, and the curtailing of bureaucracy."

There is much interest in the Panhandle as to how the district can help in the defense program. Mr. Rogers has been receiving many letters, telegrams and telephones calls from builders, jobbers and manufacturers in the district who are ready to participate in the construction of Amarillo Air Base and other proposed installations in the Panhandle.

Austin Educator Is Guest Speaker At TSTA Banquet

Miss Waurine Walker of Austin, assistant director of Professional Standards, Texas Education Agency, was guest speaker at the banquet given in Estelline on Tuesday evening for members of the Hall County Unit, Texas State Teachers Association.

Miss Walker gave an interesting and informative address on "Raising Certification Standards for the Teachers of Texas."

Three sectional meetings were held preceding the banquet. Miss Ira Hammond of Memphis was leader for the group who studied "Visual Education."

Other features on the program were talks by Mrs. Eulala Burks and Miss Bonnie Willis.

Local Residents Visit Sons At Lackland Field

Mr. and Mrs. Robert Wells and Ada Lou, Mr. and Mrs. A. J. Pace and Mrs. Jesse Messer went to San Antonio over the week end where they visited with their son and grandson, R. A. Wells, and Randolph Messer.

Five Memphis boys, R. A. Wells, Randolph Messer, Billy McClure, T. C. Blackmon, and Edward Barton, last week completed basic training at Lackland Air Force Field.

They volunteered for duty with the Air Forces on January 2, and were sent directly from Amarillo to San Antonio.

Three of the youth, R. A. Wells, Randolph Messer, and Billy McClure, will go from San Antonio to Maine this week for further training.

Cornell Grid Coach And Ring Cleat Shoe

DALLAS, TEXAS—George "Lefty" James, Cornell football coach, was on hand at the American Football Coaches Association Convention here this week with the revolutionary Ring Cleat football shoe (left). The new shoes are designed to reduce injuries to ankles, knees and hips and provide equal or more traction than the seven conical cleats (right) now in common use.

Comments

(Continued from page 1) ed reform that benefitted this part of Texas."

Well, that order for rain to be delivered by Jan. 22, was sidetracked to give room for a "Pan-handle shower" that showed up just before midnight on Monday night, which ought to give me a batting average of 50 per cent—which is almost as good as Mr. Winburn's predictions.

Hattie Dem Thompson may not know it, but she is No. 100 on my list of readers. If I were conducting a state fair, she would be the recipient of a prize of some kind.

Don't you know that Joe Stalin is getting a kick out of the mess America is in, and the difference of opinion of America's people? Every one has a different idea of how the government should be run, and who has been making boners in carrying on the "police action" in Korea.

Constructive criticism is all right. That's why we have had a Free America for more than 150 years. However, a lot of criticism directed at the leaders of our country has not been so constructive lately.

Bill Phleuger of West Main Street, who has been on a vacation for several weeks, says: This is a wonderful country considering the state affairs now pertaining to the whole world.

A group of high school students, under the direction of Mrs. Roy Guthrie, presented an open forum at the Lions Club Luncheon Wednesday noon. The subject discussed concerned "teenagers" in which a plea was made for a Youth Center.

The second annual Longhorn Recreation Laboratory will be held at the Christain Youth Foundation Camp, Athen, Texas from February 15-25, 1951.

Orderly Thinking Needed for Civil Defense Program

It is hoped that we may achieve orderly thinking and make concrete suggestions for use by local and state committees in planning the medical phase of civil defense and disaster relief in the very near future, said Dr. Geo. W. Cox, State Health Officer and State Medical Defense Director.

No Community can prepare itself to provide these additional health services that will be essential for civilians subjected to disaster, without a great deal of forethought, prolonged training and development of systematic performances, drills, tests, etc.

There is no easy way to prepare for disaster, it is all hard work. There are two opinions as to local disaster planning. One maintains that no local planning should be done until the central agency prescribes a uniform pattern for each locality.

A second group maintains that each community should proceed immediately with its own preparations for meeting disaster. Such a plan would not interfere with a national program.

Estelline Youth To Compete in Houston 4-H Calf Scramble

One Hall County youth has been selected to compete in the lightning-fast calf scramble of the 1951 Houston Fat Show Jan. 31 through Feb. 11, President W. A. Lee of the show announced this week.

He is Winfred Russell of Estelline. This 4-H Club boy will participate in the 4-H Beef Scramble on Feb. 11. Being selected to compete in the scramble puts a farm youth in an enviable position, Mr. Lee said.

In 1952, the winners will compete for their share of thousands of dollars in special scramble prizes. Winners in 1950 will vie for two scholarships, among other prizes at the 1951 show.

Participants and performances in which they will compete include: Winfred Russell, Estelline, Tex., 4-H Beef Scramble, Feb. 11, 1951.

Baptist Youths

(Continued from page 1) scheduled from 8:00 until 8:30 o'clock. Rev. Roy Shahan, pastor of the local church, will give an address on "God's Call to Youth" as the concluding number.

Bill Davis Gets Football Letter

Bill Davis, son of Supt. and Mrs. W. C. Davis of Memphis, who is a student at Hardin-Simmons University in Abilene, is one of 34 football players scheduled to receive football letters.

Miss Walker, who began teaching art and penmanship in the local school in 1931, is the daughter of Mr. and Mrs. E. E. Walker, 520 South 9th. She attended the Memphis public school until late in her junior year when the family moved to Abilene.

Last Rites Held For Mrs. Estelle Betts

Funeral services for Mrs. Estelle M. Betts, wife of Dwight Betts of Amarillo, were held at 2 p. m. Wednesday from Ivy Chapel of Boxwell Funeral Home in Amarillo with Rev. Jack Sismore, pastor of Line Avenue Baptist church, officiating.

Mrs. Betts, the former Estelle Harris of Memphis, was the sister-in-law of Mrs. Clifton Burnett of this city. She died Sunday in an Amarillo hospital following a long illness. Pall bearers were Ed Hutcherson, Coy Beckman, Jack McMurry, Buster Helm, Wyley Whitley and John L. Burnett.

Burial was in the Fairview Cemetery in Memphis under the direction of Boxwell Brothers Funeral Home.

Mrs. Betts was a member of the Line Avenue Baptist Church and a former employee of Southwestern Public Service Company. Survivors include her husband, her parents, Mr. and Mrs. Claude Harris of Stephenville, two sisters, Molly Harris of Coleman, Mrs. H. L. Phillips of Washington, D. C., a brother Rayford Harris of Montana.

The use of good sanitation and management practices by swine producers are effective means for preventing losses from swine enteritis.

Zada Belle Walker

(Continued from page 1) Next month, the teacher who uses diversified methods the most effective way to maintain interest in his or her class room will be selected by the faculty and staff.

Miss Walker, who began teaching art and penmanship in the local school in 1931, is the daughter of Mr. and Mrs. E. E. Walker, 520 South 9th. She attended the Memphis public school until late in her junior year when the family moved to Abilene.

Mrs. Kinard

(Continued from page 1) terms as president. She is a member of the Little Theatre of Memphis, and currently is secretary of the group and incoming president of the Harmony Club.

She is chairman of the civic committee of the Memphis Federation of Women's Clubs. She has served continuously on the board of the Seventh District Federation since 1936. Mrs. Kinard is a member of the First Baptist Church, teacher of the Miriam Class, a class of young women; and a member of the Sanctuary Choir.

Statement Covering Outstanding Hall County Bonds

Table with columns: Issue, Issue Date Of, Principal Outstanding December 31, 1950, To Be Paid Off In 1952. Rows include Consolidated Road District 1, Bonds, Series D, Road District 3 Bonds, etc.

The above statement checked with the State Auditor and the County Treasurer shows \$595,000.00 bonded debt in Hall County outstanding December 31, 1950. In 1951 will be paid \$50,000.00 on principal; 1952 will be paid \$73,000.00 on principal, reducing the whole in next two years by \$123,000.00, leaving a net debt after two years of \$472,000.00.

The above are road bonds in whose payment the State participates. The past two years the State sources of revenue have carried it all. We hope to do as well in succeeding years by good management, barring dangers of war to our economy.

The following are not participated in by the State:

Table with columns: Issue, Date Of Issue, Principal Outstanding December 31, 1950, In 1951, To Be Paid Off In 1952. Rows include Court House Refunding Bonds, Consolidated Road Dist. 1 Bonds, Consolidated Road Dist. 1 Refunding Bonds.

You see by this that the outstanding court house bonds will be cut by half during 1951 and 1952. The others of this group will have been slightly more than half liquidated, if funds are available to do so.

Hunt and Dr. and Mrs. R. Ernest Clark and Mrs. W. Wilson, all of Memphis.

Doyle Hall and daughter, Norma Sue spent the week end with Mr. and Mrs. Homer Hall and family in Comanche.

Miss Dorothy Hodges of Memphis spent Sunday with her parents, Mr. and Mrs. H. A. Hodges.

Mr. and Mrs. T. J. Brock visited in the home of Mr. and Mrs. Frank Wheeler at Turkey Sunday evening.

Mrs. J. T. Martain is visiting in Amarillo this week with her son and family, Mr. and Mrs. Ray Martain.

H. A. Hodges and Doyle Hall went to Mississippi and brought two truck loads of cotton seed.

Mrs. J. W. Oliver visited Mrs. G. L. Stone who is ill at the home of her daughter, Mrs. J. J. McDaniel.

Visiting in the home of Mr. and Mrs. J. E. McDaniel Sunday were Betty Burnett, Johnnie McDaniel and Mr. and Mrs. J. W. Oliver.

Mr. and Mrs. A. S. Harwell visited in the home of Uncle Bud Clark Sunday afternoon.

1913 Study Club Entertains Husbands At Mexican-style Dinner In Green Home

The spacious R. S. Greene home was the setting for a gala affair held Tuesday evening, January 16, by members of the 1913 Study Club honoring their husbands.

A sumptuous Mexican style dinner was served from tables carrying out the Mexican motif to Mrs. James Allen, 7th district president of TFWC, and Mr. Allen of Childress and Mrs. H. B. Estes, guests and the following members and husbands: Mr. and Mrs. Paul Montgomery, Mr. and Mrs. Don Wright, Mr. and Mrs. E. M. Wilson, Mr. and Mrs. Gayle Greene, Mr. and Mrs. M. G. Tarver, Mr. and Mrs. Brown Smith, Mr. and Mrs. Boyd Rogers, Mr. and Mrs. Gene Lindsey, Mr. and Mrs. D. L. C. Kinard, Mr. and Mrs. T. M. Harrison, Mr. and Mrs. A. L. Gailey, Mr. and Mrs. R. S. Greene.

'American Home' Is Program Theme At Delphian Meet

"The American Home, Our Heritage" was the subject for an interesting panel discussion given Tuesday afternoon, January 16, before members of the Delphian Club. The meeting was held in the home of Mrs. B. B. McMillan.

The discussion, introduced by Mrs. Clarence Morris, program chairman, was centered around family living today. Mrs. Ben Wilson Jr., discussed "Homemaking, Our Number One Vocation," and "The Home, Producer of Intangible Values" was given by Mrs. Jack Boone. Mrs. C. D. Morris concluded the program with a talk on "The Home as a Center of Community Coordination."

Roll call was responded to with "Something Money Cannot Buy." Mrs. W. C. Dickey presided during the business session. Mrs. J. W. Stokes was named to lead the club for the remainder of the year following the resignation of Mrs. Calvin Draper, president.

Delicious refreshments were served to the following members: Mrs. J. L. Barnes, Jack Boone, W. C. Davis, W. C. Dickey, Henry Hays, C. C. Hodges, Carl Kulp, Weldon McCreary, Lynn McKown, J. S. McMurry, C. D. Morris, J. W. Stokes, Clarence Stroehle, R. H. Wherry, Ben Wilson Jr., Miss Zady Belle Walker, and one guest, Mrs. Clarence Goch of San Saba.

Mr. and Mrs. Herbert Sisk were visitors in Oklahoma City last week.

Clarence Morris arrived home Wednesday after spending the past two weeks in Point where he had been to see after his farming interests.

Miss Norma Barnes of Amarillo and Mrs. Lula Moore of Floydada were week end guests in the Ted Barnes home.

Mr. and Mrs. L. W. McClure and son Roy moved to near Clarendon last week where they have purchased a farm.

Mr. and Mrs. Herschel Ledford of Wichita Falls visited here over the week end with his parents, Mr. and Mrs. J. C. Ledford.

Mr. and Mrs. Burl Smith were Lubbock visitors Monday.

Mrs. Byron Baldwin returned home from Dallas last Thursday. She went to attend the funeral services of her brother-in-law, G. C. Wilburn.

Dr. and Mrs. Alvin Baldwin and family of Dallas visited here the latter part of last week with his parents, Mr. and Mrs. A. Baldwin and other relatives.

Mr. and Mrs. B. P. Brents of Amarillo were Sunday visitors in the home of Mrs. B. F. Denney.

Roy Guthrie and Mrs. H. B. Bennett visited in Pampa Sunday with their sister and brother-in-law, Mr. and Mrs. Henry Ellis.

Julius Gable was a week end visitor in Fort Worth.

W. C. Lemons of Houston arrived here Saturday to visit with relatives and to be with his father-in-law, H. A. McCanne, who underwent major surgery several days ago.

Mrs. Floyd Sims Is Honoree at Pink and Blue Shower

Mrs. E. L. McQueen Jr., entertained with a lovely pink and blue shower honoring Mrs. Floyd Sims on Wednesday afternoon, January 17.

Appropriate party games were featured as entertainment. Following the games the honoree opened and displayed her gifts assisted by her mother, Mrs. R. O. Kelley.

Fruit punch and individual cakes were served to Mesdames Tommy Faust, E. P. Thompson, J. L. Barnes, R. O. Kelley, Garland Coldiron, J. W. Cooper, Benny Dennis, W. H. Goodnight, E. E. Ranson, C. J. Goodnight, E. M. Glass, O. G. Wheeler, E. L. McQueen, Sr., Orval Wheeler, E. W. Godfrey, Miss Virginia Kelley and hostess Mrs. McQueen.

Friends who were unable to attend but sent gifts included: Mesdames K. Autry, F. G. Watt, Moyne Ranson, George Greenhaw, Roy L. Brewer, Bob Queener, Bill Kilpatrick, E. Davenport and Margie, Jacky Blum, Herbert Curry, D. M. Timmons, T. C. Johnson, W. C. Johnson, B. C. Johnson, M. L. Sims, Leonard Vaughn, Arvor McQueen, Dick Spoon, Bill Crowder, Charles Raines, Birdie Sanderson, Edwin Gilliam, and Misses Mary Lee Mabry and Laverne Rollins.

Mrs. Chas. Webster Named President Of Bucilla Club

Mrs. Chas. Webster was elected president of the Bucilla Needle Club during a business meeting held when the club met for a covered dish luncheon Thursday in the home of Mrs. Pearl Massey.

Other officers named at this time were Mrs. Pearl Massey, vice president; Mrs. Bess Crump, secretary-treasurer; and Mrs. Clara Pritchett, reporter.

Places were laid for two visitors, Mrs. W. B. Young and Mrs. Floy Weatherly, and the following members: Mesdames Chas. Webster, Earl Pritchett, Sidney Mayfield, Bess Webster, Henry Scott, J. M. Ferrel, Jr., Bess Crump, and the hostess, Pearl Massey.

FAHSHION DARLING — Black, fashion's darling every season, this year is a favorite in smart cotton velveteen suits like this sophisticated style design by Horwitz and Duberman. Dark velveteen suits are popular with both career girls and collegiennes because they can be adapted to many occasions.

HOLLYWOOD'S NEWEST beautiful Faith Domeneq. After being groomed for several years by RKO pictures, she now is making her debut in the recently released movie "Where Danger Lives." Here, fashionable Faith wears a bare-shouldered cotton sundress for the California climate. A feminine note is added with the dainty apron effect in crisp white cotton.

VETERANS QUESTION BOX

Q—I received my monthly subsistence allowance for GI Bill training, but the amount seems much larger than I usually get. What should I do with the check?

A—Don't cash it. Return it to the VA regional office which has your records, so that officials there can review your case to determine just how much subsistence you are entitled to.

Q—I plan to get a GI business loan to buy a truck and go into the trucking business. Do the new down payment requirements of the Federal Reserve Board's Regulation W apply to the loan?

A—No. VA guaranteed business loans are exempt from the down payment regulations.

Q—I have just been discharged for a service-connected disability incurred in Korean fighting. Am I entitled to VA hospital care, even though I am not a World War II veteran?

A—Yes. You may receive medical care for your service-connected disability, so long as you were discharged under conditions other than dishonorable.

Q—Would a veteran who lost a leg as a result of action in Korea be entitled to an automobile at Government expense?

A—No. Loss of the leg must have resulted from World War II service, under the present law.

Q—I am a serviceman holding a \$5,000 National Service Life Insurance policy. If I go overseas, is my insurance automatically increased to \$110,000, or must I apply for the additional amount if I want it?

A—You must apply with your unit's insurance officer. The increase is not granted automatically under present laws.

Q—I intend to take GI Bill flight training, and I need affidavits from two "competent, disinterested persons" stating the training will be put to bona fide use in connection with my job. May my employer submit one of the affidavits, even though he isn't necessarily a "disinterested" person?

A—Yes, so long as he can testify, by reason of personal knowledge and facts, that the flight training will be used in connection with your earning a livelihood.

Q—As a disabled veteran training under Public Law 16, I've been able to get along nicely on my subsistence allowance and disability compensation pay until last month, when my wife had to have an operation. Is there any way I can get a small loan to help pay hospital expenses?

A—VA maintains a Vocational Rehabilitation Revolving Fund, from which you may borrow up to \$100. No interest is charged on the loans. You may apply for such a loan at your VA regional office.

Q—I obtained National Service Life Insurance while disabled as the result of military service, and the requirement of good health was waived in my case. Am I

eligible for the special dividend to be paid in 1951?

A—No. Insurance granted or reinstated on the lives of disabled veterans—where the good health requirement was waived because of disabilities incurred in or aggravated by service—is administered separately as nonparticipating insurance, with no right to dividends.

Q—During World War II, I served 45 days and then was discharged. In 1949 I went back into the Army. If I get out before the training cut-off date, will I be eligible for GI Bill training?

A—No. A veteran who has less than 90 days' wartime service must have served at least 90 consecutive days, part of which was within the war period (September 16, 1940 to July 25, 1947) or have been discharged for service-connected disability, in order to be eligible for GI Bill benefits. Your wartime and postwar service were not consecutive; hence you would not be eligible.

Q—May I waive my disability compensation for each Saturday only, the day I expect to perform inactive duty in the Air Force Reserve?

A—Yes. Public Law 844, 81st Congress, permits you to waive compensation for those days on which you are engaged in "active duty or drill . . . or other duty." Also, your right to compensation remains unimpaired by reason of such duty or pay. The provision covers any period between July 1, 1947, and September 28, 1955.

Ships And Schools Ready To Train Naval Reservists

Forty-five Atlantic Fleet ships, principally destroyers but ranging from minesweepers to the carrier Saipan, will train 2451 naval reservists afloat in January, February and March, the Navy announced today.

At the same time it was revealed that training billets for 1400 reserve enlisted men and 400 officers have been established at more than 90 Navy schools.

Navy headquarters at New Orleans said a quota of 190 enlisted men and 34 officers had been assigned to the district's organized units and volunteer reserves to make the two week cruises. This will include reservists from Arkansas, Louisiana, Texas, Oklahoma and New Mexico, which comprise the Eighth Naval District.

None of the Navy schools are in this district, Navy headquarters said, but the fluctuating quota permits reservists to apply for the two-week school training in unlimited numbers.

Five separate cruises involving 18 ships are already at sea, the Navy said. Two ships in the training group, the destroyers USS

THRILLS AT FORT WORTH RODEO—This bronc and cowboy suddenly parted company at the Fort Worth Rodeo last year. Some 375 cowboy contestants will seek to cope with the wildest of stock Jan. 26 through Feb. 4 at the Southwestern Exposition and Fat Stock Show. The rodeo will be held in the Will Rogers Memorial Coliseum.

Palo Duro Park Attracts 110,050

January attendance at Palo Duro Canyon State Park zoomed to 110,050 persons who came in 29,061 cars, trucks or busses in 1950. The 1949 attendance was 85,336 and the 1948 attendance was 51,448.

The estimate for 1951, barring gas rationing, is placed at 150,000 despite a slackening in tourist traffic noted since the fighting began in Korea. One of the reasons for the expected gain is the announcement by Guy Lott, District Highway Engineer, that the park road contract is to be let January 23-24. Another is the increased public use and acceptance of the park and its activities. Christmas Tree Canyon, a program of Christmas lighting and music from December 15 to January 1, drew large and appreciative crowds.

The Sunrise Easter Services, Treasure Hunt, Summer Theater, Summer concerts, Coon hunts, and other special events attract increasingly large crowds each year. Pavement of an eight and one-half mile park drive into the Canyon is expected by some to double the attendance.

Longhorn steers and buffaloes have recently been added to the list of attractions at the park. A pair of Elk and additional deer are in prospect for the coming year.

Park officials plan to concentrate on improvement of picnic

facilities, horseback and hiking trails, and the activity program in 1951. Plans are being made also to fit the park into the recreational needs of the Air Force and Defense Personnel in this area.

Industry Invests \$2 Billion For Expansion, Improvement

The petroleum industry's 1950 capital expenditures for expansion, improvement and modernization of domestic facilities exceeded \$2 billion, bringing investments over the postwar period, 1946-50, to more than \$10 billion. The investment last year of \$2,172,000,000 was equal to approximately \$14.50 for every man, woman and child in the United States. In addition, about \$228 million was spent by American oil companies of facilities abroad, many of which help meet domestic oil needs.

"The responsibility for producing the quantity of fiber which this country and its allies desperately need goes back to the American cotton farmer. From dangers of a surplus we have changed temporarily to dangers of a shortage."—Harold A. Young, President, National Cotton Council.

"The complete answer to profitable cotton yields lies in community cooperation. By community action we will gain effective insect control at the minimum cost."—L. J. Cappelman, Texas State Director, Farmers Home Administration.

"One of the main economic problems of the Southeast is to grow enough cotton to keep the textile industry here. We must produce more cotton to keep the textile industry in the South."—John A. Sibley, Board Chairman, Trust Company of Georgia.

stop COLD'S distresses IN MANY CASES the first day!

Holder and USS Rich, have 48 trainees aboard from the Eighth Naval District.

They sailed from Norfolk, Va., Jan. 7 and will return there Jan. 20. Cruises will be sailing weekly until March 18, to complete the three-month schedule for trainees from eastern, midwestern and southwestern states. All ships will sail from Norfolk, Va., Newport, R. I., and Charleston, S. C.

In addition to the Halder and Rich the following are scheduled for Eighth Naval District use: Destroyer USS Damato; minesweepers USS Bauer and USS Rodman; cruiser USS Albany and carrier USS Palau.

NATION ON WHEELS

U. S. motor vehicle travel broke all existing mileage records in 1949, surpassing the figure for 1948 by seven per cent and the highest prewar figure by 27 per cent. This record was made possible, in part, by the ready availability of motor fuel almost around every bend in the road.

"From now until the 1951 cotton crop is in the bag, the one big thing that is like to determine the size of the crop is how well we fight insects. The only way to kill a cotton bug is to kill him, and it takes poison on the plant to do it."—The Progressive Farmer.

HIGHLIGHTS NEW BUICKS—Style leader and pacemaker of the 1951 Buick line is this four door six-passenger Special sedan Representative of the entire Special Series which is completely new this year from stem to stern, this car has a new chassis, a new body, new front end, new sweeppear molding, fender and hood ornaments. For the first time Buick's powerful F-263 engine is offered in the Special Series, delivering 128 horsepower with Dynaflo Drive, and 120 horsepower with Synchro-Mesh transmission.

New 1951 Buick Now On Display At Sisk Buick Company, Here

Highlighting the new 1951 Buicks, which went on display last week in the showroom of Sisk Buick Co. in Memphis, and in other showrooms over the nation, is the improved Special with new body and new engine. The new line contains three types of cars, ranging from the spruced Special up through the Super to the luxury models in the Roadmaster." H. L. Sisk, local Buick dealer, stated in describing the new cars.

Important advances in styling features coupled with major chassis and body improvements come to make the 1951 Buick the greatest value in our history, Mr. Sisk added. There are eight models in the Special Series six in the Super and four in the Roadmaster. The 1951 Special is new throughout. It has a new body, a new chassis and is powered with the 263 Fireball engine introduced the Super last year. This engine develops 128 brake horsepower with Dynaflo and 120 with Synchro-Mesh transmission. The rear fenders are integral with the rear quarter panel, eliminating the fender line caused by the welts. The Special, which comes in both standard and deluxe trim, is mounted on a 121 1/2 inch wheelbase and has an overall length of 204.8 inches. Many important changes have been made in the Roadmaster, Buick's top model in the luxury class. A chrome rocker panel extending all the way along the bottom from the front bumper to the graven shield, adds exterior beauty and offers protection from stones and dirt. The four fender ornaments

on the Roadmaster are of different design than those on the other series, lending even more distinction to the car itself. There is a wide variety of interior trims offered in this series, including two-tone effects at extra cost, for those who demand the utmost in luxury. New and more powerful brakes developed from those used in tanks built by Buick during the war are featured on the Roadmaster. The lining of these brakes is divided into segments, cemented to the drum, instead of being in one continuous piece riveted to the drum. Tests show that the segmented lining gives more positive action longer wear and keeps cleaner and cooler.

Many changes also have been made in the Super, lending added beauty and luxury to this series. The most significant change in appearance in the entire line is in the new bumper-grille combination which proved so popular in the 1950 Buick. The grille, containing 25 bars of tough, stamped steel, is located behind the bumper. The bumper itself is the wrap-around type, composed of a stamped steel bar reinforced by two larger bumper "bombs" and two extra grille guards. The grille is bolted to the bumper and flexes with it, reducing the possibility of damage. All cars in the Special and Super series are powered with the F-262 engine which develops 128 horsepower with Dynaflo. With Synchro-Mesh transmission the horsepower rating of the Special is 120. In the Super the horsepower output with synchro-mesh is 124. The horsepower rating of the Roadmaster remains the same, 152 at 3600 rpm.

The instrument panel on the new Special is of a straight-through design with the gasoline, oil pressure, temperature and battery gauges in one cluster at the left of the steering column and the speedometer on the right. The two instrument clusters are of the same size as the clock, located on the far right near the glove compartment.

The directional signal lever on all models has been changed from the right to the left side of the steering post for simplicity of control. The Dynaflo shift lever remains on the right. Directional lights in the front are housed in the bumper "bombs" the same as last year. Back-up lights are housed in the rear bumper "bombs" in the Super and Roadmaster. In the Special they are incorporated in the body.

ALL-STAR LINE-UP FOR '51!

YOUR first eye-smacking look at the line of lovelies pictured here tells you that they've got what it takes in visual charm.

But the fellow who said a picture speaks louder than a thousand words wasn't talking about these superbly able 1951 Buicks.

Sure, they're smart to look at—smart in style and smart in dress.

But they're also smartly powered—smartly engineered—smartly priced. And it would take a book to describe in full their deep-down goodness.

What's been done for '51 is to take the best automobiles that ever bore the Buick name—and top them.

Come, look them over, and you'll see what we mean.

There's the SPECIAL which can accurately be titled "the newest car in the world"—new in structure, new in power, new in dimensions, new in thrift—and potent in price appeal.

There's the SUPER—that looks and is a smart new edition of its "best seller" forebear.

Then there's the ROADMASTER—that coddles your anatomy on

luxurious new fabrics and cloud-soft cushions—pampers your pride with its lordly bearing—shoots a delicious tingle right up your spine by the exuberance of its power and action.

We could go on and on. This is the car that "breathes through its nose." This is the car that sports a brand-new front-end styling. This is the car with new high-visibility instrument dials, more easily read at night. This is the car with glare-and-heat-reducing glass† and a host of other news-making features you can't afford to miss.

So your No. 1 date this week end is with your Buick dealer. It won't take you long to conclude that he's offering the smartest buys of the year.

† Optional at extra cost—available on most models. (Not presently available in California or Massachusetts)

Aches And Pains Body's SOS Signal

Though there are a few illnesses which spread their poisons and destruction in a silent manner, one of the most common of the signs of sickness is a hurting. These Signs of Sickness are your body's COC, a warning signal in the form of aches and pains.

Aches and pains are the body's communication system of danger, reporting to you that some part of your anatomy is not able to carry on the function it is supposed to without difficulty. Pain is usually the warning of a definite area, normally associated with the soreness or hurting near the surface, while ache is more often a deep pain and seems to defy pointing to one small spot and saying "This is where I hurt." With an ache, you usually cover a wide area, whereas you can point out a pain.

The way you describe a hurting to your doctor and the changes from normal that led up to that hurting are frequently important. Pain seldom sets in without some other symptom preceding it; a headache, dizziness, belching, or just a general fatigue which may be overlooked will usually herald the approach of pain. You ignore those forerunners in most cases and you even ignore the pain if some mild medication such as aspirin drives it away; but if the pain keeps coming back and particularly if it comes back hard, those little flickering caution lights that led up to the red light of pain may play an important part in finding out where the pain is coming from.

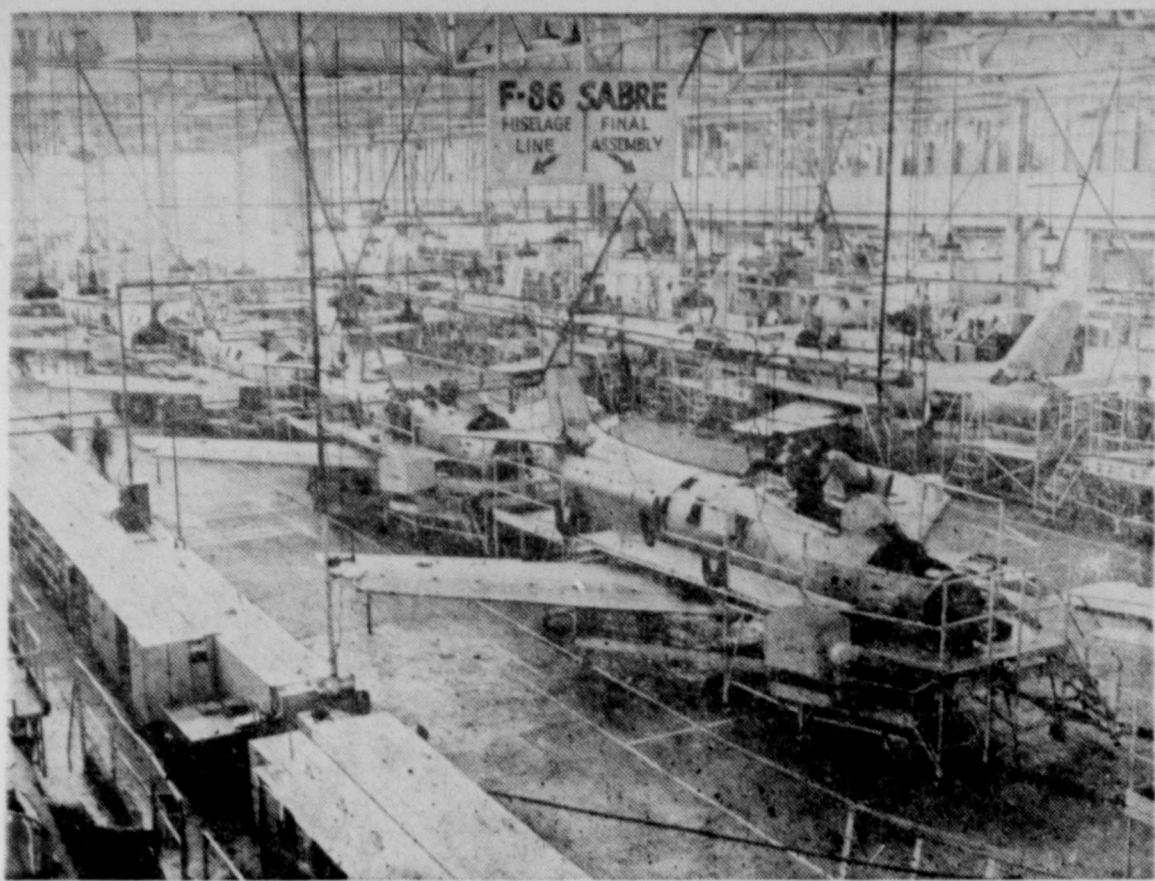

The source of pain, especially inside pain, is not always easy to locate. If you cut your finger and it stings and throbs, it's obvious what causes the pain. But if your fingers sting and throb when you didn't cut them, not only must the source be located, but you're inclined to be much more worried about the pain from your fingers when you don't know the cause. Your first thought may be to stop the pain, but in the long run your main interest is in knowing what caused it, whether it will come back again, and what type of damage the cause might do to your fingers. It is that fear of not knowing and not understanding the cause of the pain that contributes to the distress of pain.

That fear comes under the heading of reaction to pain; you not only feel pain, but also react to it. Sometimes the feel of the pain is hard to separate from the reaction it arouses when you are trying to describe pain to your doctor. "I feel bad all over" could be considered reaction whereas "my nose and teeth hurt" might lead your doctor to suspect something definite. In that case, maybe it would be sinus. If you used adjectives to describe that hurt, such as stinging and burning, those particular types of hurting are associated with an interference of the mechanism of structure of nerves. Other pains, such as sharp, cutting or stabbing pain which comes in spasms, are also associated with nerves, but not with damage to the nerve or nerves.

Bones, when they send out messages of distress, usually produce a deep aching or boring pain, and muscles have a particular kind of ache that is called a "soreness."

The skin, which perhaps has the most variety of painful signals, will communicate with a burning feeling when the top layer is scraped off and a stinging when that same layer is cut with a knife.

Sometimes a number of aches and pains in different parts of the body will all add up to a definite sign of one special disease. These specific symptoms or signs are

ASSEMBLY LINE . . . New super controlled F-86 E Sabre jet fighters with "all-flying" tails roll off the assembly lines at North American's plant in Los Angeles. These planes are racking up aerial victories over the Red MIG-15 jets in Korea.

called a syndrome in medicine. Probably the most discussed syndrome is that associated with angina pectoris, a heart condition. The feeling of a great weight on the chest which accompanies a tightness and agony to the point of a feeling of impending death, with pains perhaps radiating from the left shoulder down the arm, paint the picture of agina pectoris so vividly that that cause will be the first thought, and action, frequently life-saving action, to relieve that cause will be begun before further examination is undertaken.

Pains actually serve as a protection. They are the burglar alarm system against forces which would rob you of your health.

Farm Home Sites Require Planning

Since the farm or ranch house is only one part of the farmstead layout, Mrs. Bernice Claytor, home management specialist for the Texas A&M Extension Service, suggests planning the farm home from more than one standpoint.

Although the farmhouse is the center of interest, its location needs to be considered from the standpoint of its relationship to the rest of the buildings, the road, the source of water, and to the breezes in the summer and the cold winds in the winter.

As both a home for family living and a headquarters for operating the farm business, the farmstead needs to be planned with the object of providing the family with a pleasant and healthful place to live and making the farm work easier, more convenient, and safer. Mrs. Claytor suggests locating the farmstead on a site somewhat higher than the road. A knoll or small hill is an excellent location because it allows quick surface drainage from around the house barns, and the livestock pens.

The convenience to water is a very important consideration in locating the farmstead because a good supply of safe water is necessary for the health and comfort of the family. Certainly the desire for a natural setting of beauty around the

house is important, but this setting needs to fit the business activities of the farm. Proper planning of the house in relation to the other buildings, fields, roads, and gates will save time and energy in operating the farm. The ideal plan, says Mrs. Claytor, seems to be to arrange the buildings around a "court," with a main entrance graded for proper drainage and wide enough for turning vehicles around and parking them.

She suggests keeping the living and service areas of the farmstead separate. The service area includes the garage, smokehouse, clothesline, trash burner, woodpile, and other service equipment. With good landscaping, the private area where the family has outdoor furniture and recreation equipment can be screened off from the service area, and from the public area—the part of the farmstead seen from the road and highway.

SPORTS AFIELD

By Ted Kestring

One evening Innes McCall got to wondering about the whoppers that must have been hauled from North American lakes and streams in the last century. What were the biggest fresh water fish that had ever been caught, regardless of the method and their game status?

So he wrote hundreds of letters. What he found is astonishing. There are no less than eight different species that have been taken in weights exceeding 100 pounds! Here are a few of the records he uncovered:

That 67-pound 11 ounce muskie isn't the biggest ever. Back in 1907

Radio Service

on all MAKES and MODELS Satisfaction Guaranteed W. H. MONZINGO MOTORS

614 Noel Phone 50

The average bucketful weighs 29 pounds. Wash day takes between 12 and 20 buckets, scrubbing and cleaning about the same amount. Routine kitchen work demands about 200 pounds of water every day.

Water can be very heavy . . . if you have to pump and carry every drop you use. But running water—delivered by a Dempster Water System—makes light work of all your chores.

See us today for complete information about dependable Dempster Water Systems.

THOMPSON BROS. CO.

Phone 21

water. It was a 102-pound female that was never taken again.

The year 1938 produced two record fish. One came to light by the undignified process of being in Lake Lawtonka, Okla., when it was drained—a 110 pound catfish. The other was a 126 1/2-pound Chinook salmon caught in a fish trap near Petersburg, Alaska.

As to the largest fish caught in fresh water—that was the Oregon, or Pacific or white sturgeon which spawns far inland in the western rivers, drops down to the ocean and later returns to complete its life cycle.

Most of the large ones were caught some 40 years ago, so the records are stretchy. Many were taken on heavy setlines, dragged from the river by a team of horses more accustomed to plowing than fishing.

A different method was used by Nophi Purcell, who in 1911 landed the heaviest Oregon sturgeon of which we can find positive record. It came from the Snake River in Idaho. Purcell used a large hook about seven inches long, baited with lampreys. The setline, a 7/16-inch rope, was double half-hitched to several green willow stakes, with slack between. A gunny sack, weighted with rocks and tied to the line with twine, served as a sinker.

When Purcell finally got the big sturgeon in near shore after two or three tries, he waded in waist-deep and shot it with a .22 rifle. Loaded into a 12-foot dray wagon, its tail dragged on the ground. They weighed it at the town lumberyard. The verdict—1,500 lbs.

Well-organized fire prevention and protection programs in Naval districts reduced the number of fires in Naval shore establishments to two-thirds of the 1949 figure in 1950.

Teenager Gets Appetite Back; Thanks Hadacol

HADACOL Supplies Vitamins B₁, B₂, Niacin and Iron Which Her System Lacked.

According to Sara Loraine Beck, Box 253, Coker, Alabama, when a person is only 15 years old and feels terrible, can't eat or sleep the way they should, it's mighty bad. That is the way Loraine says she used to feel but that was, of course, before she started taking HADACOL. Loraine found that taking HADACOL helped her system overcome deficiencies in Vitamins B₁, B₂, Niacin and Iron, which HADACOL contains.

Here is Loraine Beck's own statement: "I was run-down, sick and skinny, and weighed only 90 pounds before I used HADACOL. I would not eat because I had no appetite. Now I weigh 123 pounds and have an appetite. I feel a lot better. I have been taking HADACOL 11 months and am still taking it. I am 15 years old. HADACOL has done me lots of good."

New DeSoto On Display Saturday

Robert Moss Motor Company, DeSoto-Moss dealer in Memphis, is inviting everyone to come in Saturday, January 27, to see the new 1951 DeSoto. Robert Moss stated that the new cars are the best we have ever shown, and want the opportunity to point out the many, many features which the new DeSoto will introduce to the "string public."

The 1951 DeSoto is featuring new Oriflow shock absorbers which will give "the ride that's a revelation," Moss stated. The car will have new styling from front back—from its massive new grille clear back to the new contour-type rear bumpers. Under the hood will be found a new high-compression engine which is bigger and more powerful. It has been engineered to give smoother, more responsive performance through traffic or down open highway.

Other features which DeSoto offers over the nation will point out next Saturday include: tip-toe hydraulic shift and fluid drive, clutch brakes and a new parking brake, waterproof ignition, shock-proof steering, and big windows for maximum visibility.

NEW SPEAKER SWORN IN

Secretary of State Joan Ben Sheppard is shown administering the oath of office to the new Speaker of the House of Representatives of the 52nd Texas Legislature, Rep. Reuben Senterfitt of San Saba. Sheppard officially opened the House of Representatives Tuesday, January 9, and presided until the unanimous election of the San Saba attorney as Speaker. Representative Senterfitt is beginning his sixth full term in the Texas House. He is the senior member of the law firm of Senterfitt, Crump and Jameson in San Saba. The Secretary of State convenes the initial session of each Legislature according to requirements of the Constitution and Texas law. Both Sheppard and Senterfitt, in opening remarks to the legislative body, termed this Legislature as one of the most important and crucial in the history of the state.

Kinards To Sell Insect Control Machine in Area

A. A. Kinard & Sons last week announced that they were introducing a new method of combating cotton insects in this area by becoming dealers for the Nisbet Bug Catcher. The Bug Catcher is an air blast machine, made in one, two and four row sizes, Kinard said. It is fitted with the necessary equipment to mount on any make or model of row crop tractor, and is operated in conjunction with the cultivator. A blast of air is driven through the plants, and the bugs are blown off the plants, up curved chutes into bags. As the bags are filled, the operator simply kills the catch with tractor fuel. "The air blast takes any and every kind of insect from plants," Kinard said. "Excellent results

have been obtained with the Bug Catcher because it can be used successfully throughout the cultivating season, beginning when the cotton has only about a half dozen leaves. In this manner, the early flea hoppers are removed along with other early insects, permitting the cotton to set the first squares. "The use of the machine is recommended about every ten days from the time cotton has a half dozen leaves. Excellent results are reported against aphid (lice) infestation. "The effectiveness of the Bug Catcher is due largely to several things; i. e., its indiscriminate action in taking every kind of injurious insect, the simplicity of the machine, and its being used in the same operation with the cultivator. These features make it fit in with the farmer's regular schedule of farming, enabling him to control insects all season," the dealers added.

Ft. Worth & Denver Receives First Delivery of Cars

Delivery to Fort Worth and Denver City Railway on an order for 250 new box cars began January 12th. On that day, 22 new box cars came off the assembly line and the remainder will be turned out at the rate of 17 per day until delivery of the entire order is completed. R. Wright Armstrong, vice president, Burlington Lines, Ft. Worth, said, "It is a great thing to continue to receive delivery on equipment of this kind which will be so helpful in the transportation job ahead for America's railroads."

Behind The Scenes In Washington

NEW YORK—Before subscribing wholeheartedly to the theory that business is going to be lashed to the mast by material shortages, some cognizance must be taken of the growth of synthetics. That, plus the ingenuity of American business men will cushion, to some extent, the material shortage that is looming.

When Pearl Harbor was bombed the U. S. did not have a synthetic rubber industry. Rayon and nylon capacity was but a fraction of today's total. Synthetic plastic production is up about 500 per cent in the past decade. A number of man-made fibres have been developed to take up part of the pinch in cotton and wool. New chemical products have been developed.

None of these developments justifies smugness, and a total war always produces basic shortages and hardship. But careful analysts of the current situation are warning against too-sweeping conclusions about scarcity, in view of the fact that the mobilization program is not yet "all-out" and the immense growth of new products and new capacity in the U. S. since the last war.

THINGS TO COME—A "seeing-eye" fire alarm system that responds to both flame and reflection of flame; six detectors are equipped with tiny photoelectric cells which cover a radius of 20 feet each; when a detector "sees" a flame or its reflection, it sends an impulse to the control box, which rings the alarm. . . . To relieve eye ailments, a plastic mask that can be used for hot or cold applications; the mask is electrically-welded and contains a special sealed-in chemical solution formulated to retain heat or cold for about 30 to 45 minutes. . . . For men's wardrobes, a new pine or cedar scent which, applied sparingly under jacket or collar lapel, leaves a scent even after the clothes have been dry-cleaned. . . . More bad news for the common house fly, mosquito larvae and ants, as well as the potato bug, cabbage worm, slugs, Japanese beetle, aphid and boll weevil, with the announcement of a new insect-control compound called C15—it is said to be harmless to higher animal and plant life.

ESSENTIAL WATER

When considering raw materials essential to industry, don't overlook water. Making a ton of rayon requires 830 tons of water. A ton of paper pulp requires 400 tons of water, synthetic ammonia uses 130 tons of water per ton of finished product, and in steel and industrial alcohol the ratios are 100 and 60 to one respectively. In petroleum refining 15 tons of water are re-

quired per ton of finished product. **BITS O' BUSINESS**—Up for study by the Senate Agriculture Committee is a program for stimulating production of essential farm products through an incentive-subsidy system. . . . Mail order houses, worried by price rises in raw materials, are all for a general price freeze to ease their pricing headaches. . . . Makers of grinding wheels for industry, unable to get sufficient raw materials, are appealing to the National Production Authority. . . . Furniture buying at the recent Chicago industry exhibit was spotty and fitful, reflecting much disagreement over the business outlook.

BRICE

Aubrey Martin returned home Saturday from Sulphur Springs where he visited his mother and grandmother.

CYNICISM TOWARD DEMOCRACY

With the threat of Communism enveloping the entire world, interest has been focused again toward the meaning of "democracy" specifically as practiced in the United States at the present time.

The word "democracy" is being used in many nations today in a manner which is everything but complimentary. It has been tied up directly with the term "capitalism," and has been twisted in the minds of men in high places. Naturally it is held in contempt by the masses in China and Russia, and Arabic nations are beginning to raise their eyebrows when the word is mentioned.

Everyone in this nation is worrying about what peoples across the oceans think about us. But these same people of the U. S. A. might well look closer to home, and do a little self-examining. It might be well that they remember the word means "government by the people; i. e., government in which the supreme power is retained by the people and exercised directly and indirectly through a system of representation."

After this closer look at ourselves, we come to the conclusion that one of our greatest dangers is our cynicism toward democracy. This is seen immediately when we recognize that comparatively few people are taking an active interest in our government. It is seen when votes are counted following elections, and a few raise their voices to bemoan the fact that only about half our people cast their ballots.

Another criticism which naturally points our way is the manner in which a great number of our people discourage able and ambitious men from entering public life. This misguided conclusion is seen from the least important elective position to that of our representatives to Washington. Good men should be encouraged to enter public life. And, if they prove to be sound in their thinking, they should be encouraged to continue their work. Too many people use the term "professional politician" when referring to a tried and true official.

It is a well-known fact that political history tells us that a nation cannot stand still. It either moves forward or falls behind in human progress. China's swing to communism is an example. This same history tells us that it was only with the birth of this nation, and the setting up of democracies in Europe that government became the servant of free individuals.

We must recognize that ours is the finest system of government yet devised by man. Instead of becoming a nation of cynics and critics, we should become exponents of the theory of holding on to that which is good. And, after accepting these, resolve to do our part in making our method of government work for the betterment of everyone. Trying times are ahead, and in these times cynicism can find no place in which to sow its seeds of corruption.

Press Paragraphs— QUOTING OUR NEIGHBORS

The Drafting of 18 Year Olds
 It seems that the Secretary of Defense, and his assistant, have been strongly presenting their claims to Congress that 18 year old youths should be drafted. We have no idea what their plan is but we have definite ideas on what should be done.

In the first place there has been a flood of letters and telegrams to Congress from the "mothers of America." And why shouldn't there be? We are in a hell of a mess if the 18 year old lads of the nation must be called upon to save our neck. If it is the plan of the Defense

Department to draft 18 year olds, send them to training camps, induct them into the ways of the army and make soldiers out of them, then we join the mothers of America with an emphatic NO.

If a plan something like the one advanced by the president of Houston University is adopted, we might be tempted to go along.

As we understand it the university president advocates as the best form of universal military training the forming of ROTC units in the colleges and universities of the land. That while a young man is receiving his military education he will also be receiving an academic and specialized education at the hands of university professors. He will be living and growing up in a college atmosphere rather than in the atmosphere of an army camp.

Or, as someone else has said, create a strong national guard with competent leaders and instructors and give the 18 year olds their fundamental military training while they live at home under the influence of their parents.—The Childress Reporter.

In sincerity

We are living in a world of insincerity. There is hatred and oppression enshrouding it.

Many countries of the world are over-jealous for control and their method of gaining control is by lying, cheating, persecution, and destroying.

Our generation is very much in danger of the tyranny of these peoples. It is up to us to make this a suitable world in which to live. Truthfulness, honesty, and rehabilitation are the only answers to a

PULL THE BELT UP TIGHTER

warring world.
 Our first job now is to be true and honest to our friends, teachers and parents. By doing this at home and by cooperating with our government we are certain to bring peace to a peace-loving people.—The Canyon News.

President Employee of the People

The other day I had a friendly argument with a man concerning the telegram which the Andrew H. Floyd post of the American Legion recently sent to President Truman and others in Washington.

The other party in this argument did not particularly disagree with the thought in the telegram, but questioned the worth of sending the message. He felt that it would do absolutely no good to send the President of the United

States a message, whether it be a telegram, a letter, or some other method of communication. He felt that the president would never see the message; and he also questioned whether it was a wise thing to send a message to the great and honorable man who heads our government.

My argument is simply this: the president is just as much my employee as any person I ever had or ever will have working for me and with me. He has been appointed to the job as head man of our government by us, the people. It matters little whether I voted for him or for his opponent—he was elected by a majority of the people. And if I am to live in a democratic country, then I must be willing to take the majority's will and make (Continued on page 7)

renew his contract at the next election, or to discharge him in favor of someone else.

It's that simple. The people working for us in Washington are our employees. We are all stockholders in the government of our nation, and we are the ones to tell those employees what we wish. Most of them will go with the wishes of the majority of employees — IF THEY KNOW WHAT THE MAJORITY WANTS.

That's the reason why I think — if we have something we want done — that is perfectly in order, that it is the only thing to do, to send messages such as the American Legion's message, to our president, our senators, our congressman, or anyone else in Washington who has anything to do with the cooperation of our government.

How else can we be heard?
—The McLean News

Swine Enteritis May Be Controlled

A question frequently asked by swine raisers, "How can I guard against losses brought on by swine enteritis?", was answered here today by the American Foundation for Animal Health.

Seven steps to help curb enteritis losses were suggested by the Foundation authorities:

"Isolate newly-purchased swine from the home herd for at least three weeks, until they are known to be free of disease.

"Control internal and external parasites which weaken the animals' resistance.

"Keep swine away from old hog lots, contaminated pastures, cow pastures, stagnant pools and other sources of infection.

"Keep feeding and watering equipment clean.

"Check rations carefully, especially possible deficiency of B-complex vitamins. Prevent overeating of rich concentrates.

"Earmark sows and their litters to identify and weed out sow 'carriers'.

"Watch for scouring, loss of weight and failure to convert feed into gains. At the first sign of trouble, get a diagnosis and isolate the ailing animals from apparently healthy ones."

"Actually," the Foundation said, "swine enteritis is not a single disease. It covers a dozen different infections and disorders. Causes and symptoms vary so much that a veterinary diagnosis, herd survey and study of feeding and management practices may be

Army Reservist Schedule Two Week Summer Field Camp

Announcement of Army reserve units scheduled for two-week summer field training during 1951 was made by Col. C. M. Culp, Chief of the Texas Military District, today.

Texas reservists will be sent to five training stations during the period June 10 to August 25: Ft. Hood, Ft. Bliss, Ft. Sam Houston and Red River Arsenal in Texas and Ft. Sill, Oklahoma.

Commanders of the reserve units have been instructed to notify all members of their units of the dates and locations of the training by January 10.

Under a recent announcement policy of the Department of the Army all reservists assigned to units who have received drill pay during the past calendar year will be required to attend summer field training unless specifically excused by the military district chief, Colonel Culp stated.

Field training schedules are designed to give practical training to staffs and commanders of the units as well as to better qualify both officers and enlisted reservists in their specific duties in the unit.

Colonel Culp pointed out that various small and highly specialized units and those which have no enlisted strength are not listed for the 15-day summer training. These will be given week end or holiday training at their home stations.

WAC reservists, both officers and enlisted, will attend field

training with the unit to which they are assigned. They will live with the regular WAC detachments on the post at which their training is conducted.

Careless Navy smokers, armed with matches and cigarettes, put themselves at the top of the offenders list in 1950 by causing an estimated 267 fires on Naval shore installations.

monument in the middle of the main street at Enterprise, Alabama, erected to honor the boll weevil, which drove local farmers away from cotton to peanuts, enabling them to make a lot of money, particularly during the years just before and during World War II.

The trouble was that when we were there, the peanuts were beginning to have bug troubles, too.

Ed Coyle, who was honored by the Dallas Agricultural Club last week as the "man of the year in agriculture" in Dallas County owns sixteen farms and a gin, as well as other valuable properties.

But he says he and Mrs. Coyle stayed in debt for 35 years after they married, and for eighteen years they picked their own cotton by hand. There still is a chance for the fellow who works hard to get ahead.

But it's getting harder and harder for a young man with no backing to get into the farming or ranching business on a scale which will afford the kind of living people have grown accustomed to in this country.

A successful father or an oil well is a big help in such a case. A part-time job in town is the next best.

the best of it.

If, then, he is my employee, I should have a hand in aiding in telling him what I expect of him. Like other employees which I might have at times, they do not always do what I tell them to do. But that is a part of the risk I must take when I employ a person. If they are unwilling to do what I ask them to do, then I should take the first opportunity I have in discharging them. In the case of a regular employee, that opportunity would, no doubt, come rather quickly. In the case of the president, I have, with the rest of the people of the U. S., given him a four-year contract, and there are only a few ways that that contract can be broken. Otherwise, I have to wait until the end of that contract and then not renew the contract. Of course, in the case of the president of the United States, I am not the only employer. I am just one of about 150 million stockholders, and we will have to decide among ourselves whether to

Now She Shops "Cash and Carry"
Without Painful Backache

As we get older, stress and strain, over-exertion, excessive smoking or exposure to cold sometimes slows down kidney function. This may lead many folks to complain of nagging backache, loss of pep and energy, headaches and dizziness. Getting up nights or frequent passages may result from minor bladder irritations due to cold, dampness or dietary indiscretions.

If your discomforts are due to these causes, don't wait, try Doan's Pills, a mild diuretic. Used successfully by millions for over 50 years. While these symptoms may often otherwise occur, it's amazing how many times Doan's give happy relief—help the 16 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

"They're All Troupers"

Everyone loves a circus—but it takes a lot of performers and a lot of good acts to make the big show a success. That's the way it is in the natural gas business, too. We of United Gas have thousands of employees performing hundreds of acts every day in the production, transmission and distribution of natural gas. The result — dependable natural gas service for some 400 cities and towns and more than 2,000 industries, many of which are being called upon to help strengthen the defense of free nations against aggression. This is our biggest act of all—the delivery of adequate, dependable supplies of natural gas to those industries.

Fever Symptom Of Disease and Is Body's SOS

The average person under normal circumstances maintains a body temperature around 98.6 degrees. Some people aren't average and their temperature under normal circumstances may be higher or lower than that, ranging possibly from 97 to 100.4 degrees. Activity of the day, excitement, exercise and a number of other "normal" circumstances may make the body's temperature vary, too. So before you decide you're running a fever you not only should know what your normal temperature is, but you should also check on your activities of the period just preceding popping that thermometer into your mouth.

Fever is a symptom of disease when it's abnormal, just as aches and pains may be one of the body's SOS. If aches and pains are the No. 1 SOS, then fever is probably the No. 2. You don't just take your temperature at random to see if you are coming down with something; you usually will think you have fever before you stick the thermometer in your mouth and that thought will probably stem from some pain such as a headache, hurting eyes, dizziness or such.

When pain and fever come together, it's usually a good bet that some bug is settling down to upset your trend towards good health.

Before you replace that thermometer in your mouth with a pill of some sort to check both the pain and fever, it would be wise to stop and consider the value of fever in fighting disease. In many diseases fever is considered a protective mechanism, a signal that the body is building up countercharges for whatever invader is laying hold of you, and not only killing those germs with the heat of the body, but building things of its own that eat up the germs.

Fever isn't all good, though. There are other diseases in which the heat of the body discourages those germ-eating doodads from developing, or if they do develop the rising temperature kills them off before it kills off the enemy.

Fever over a long period of time may lead to damage to the heart, liver and kidneys. An extremely high fever can also cause damage and when accompanied by delirium or convulsion is usually most alarming. Convulsions in children sometimes occur along with the rapid elevation of fever of the so-called childhood diseases. Delirium is a side-effect of fever sometimes when the temperature goes over 104 degrees, but the temperature of the person, the state of health before the illness began and the drugs given as medication are all as important a part of delirium as the actual fever itself.

The top limit of fever with recovery is considered to be 114.8 degrees and the coldest the body

MAYOR McGUP By John Jarvis

can get and survive, under certain circumstances, is thought to be between 75 and 80 degrees.

And speaking of cold, chills are frequently a part of the picture of fever, the rigors and body trembling that mean the outside of the body is colder than the inside, in case of sickness meaning that the temperature is going up faster than the body can throw off the heat.

In some diseases, when the body manages to throw off the internal heat, tending to reduce the temperature rapidly, you get the familiar phase of sweating. These chills and sweating periods accompany some diseases.

The temperature of infants is about as unreliable as most other phases of babyhood. Until about the time when they start to walk, there is usually no internal pattern of temperature regulation in full swing with regulation stemming mainly from the outside, from the changes in clothing and environment. At the other extreme of life, elderly people usually have a lower temperature than average. And since exercise and activity may influence body heat, bedridden people also usually have a lower temperature than someone on the go all the time.

Children at play may work up an elevated reading on the thermometer and if they've been indulging in a rapid session of chewing gum before the thermometer was popped into their mouths, that, too, will bring about a higher reading.

Adults vary in the temperature of the body at different times of

the day, usually attaining the highest reading around 4 in the afternoon, and the lowest around 4 in the morning. Night workers who sleep all day would just reverse that picture, of course. And woman's temperature varies at different points during the monthly cycle.

Actually, fever alone without any accompanying signs of illness and with only a moderate fluctuation from normal, may mean that you merely vary from the average. Accompanied by chills, pains, or any other sign of disease, however, or if the red line in the thermometer takes a decided lead over the normal line, it is a signal that deserves medical attention.

MILITARY OIL NEEDS HIGH

Military petroleum requirements are an important factor in total demand. For the fiscal year ending June 30, 1950, these requirements were estimated at 101,887,000 barrels. While considerably below those for 1945, they were more than eight times 1941 needs, which amounted to 12 million barrels.

LUBE OIL DEMAND UP

The demand for automotive lubricating oils increased from a little over five million barrels in 1920 to about 22 million barrels in 1949. Industrial lubricating oil demand advanced from some 10 million to about 17 million barrels during the same period.

Twenty French sailors are being trained in amphibious warfare by U. S. Navy men at the Naval Amphibious Base, Little Creek, Va.

Reflexes Show Amazing Acts Of Human Body

Along with parlor tricks, the testing of reflexes frequently adds hilarity to gatherings. It is always amazing to find out that parts of our anatomy do things you're unaware of, when you think you have yourself quite under command.

Reflexes are those actions that respond to a stimulus without sending the message to the brain. While the testing of those reflexes at a party seems to add to the enjoyment, the testing in the doctor's office is sometimes a vital part of your physical examination.

Blinking the eyes when a piece of cotton is stuck in your eye, gagging when something touches the back of the mouth, and bending the big toe down when a stick or finger is stroked across the sole of the foot all come under the heading of superficial reflexes, reactions of the skin and mucous membranes.

Arm, leg and foot reflexes are tested not only for enough reaction but for exaggerated reaction, too, which may be significant of nerve path disorder. The foot jumps out when you tap the knee just below the kneecap, the foot jerks down when you tap the back of the ankle, the forearm and hand jerk up when you hit the biceps on top of the upper arm, and the forearm and hand pull down when the biceps muscle on the bottom of the arm is tapped. These muscles all have to be nicely relaxed to give any medical information as to reflex.

One of the favorite "tricks" in sociable testing of reactions is standing with the arm and shoulder against the wall for a period and then stepping back from the wall and watching the arm float up.

The sense of pain, touch, and temperature are part of the skin sensations which may be tested if conditions suggest it advisable. The degree of pain may be important whether it be lacking entirely or unduly exaggerated. Numb parts of the skin where nothing is felt are always important, though they may be numb only to touch of normal objects and still react to pain and heat or cold.

Buttoning or unbuttoning your coat with your eyes closed may be a part of the deep sensation examination; it's really not as easy as it sounds. If you dress in the mornings before you get your eyes open real good, though, you have had lots of practice for that.

Standing with the feet and ankles close together is another of the deep sensation tests. Easy? You're supposed to close your eyes while you do it. Not so easy, huh?

These deep sensation tests are all done with the eyes closed. Stretch your arms as far apart as you can and bring the fingertips together in a quick sweep or bring the forefinger in to your nose in a quick, eye-closed motion. With your eyes still closed, no peeping, put the heel of one foot on the opposite kneecap and run it down the front of the leg.

Since relaxation is an important part of reflex and sensation testing in the physical examination, you aren't likely to be able to tell much about your own testing during the merriment and exhilaration of a party. In your doctor's hands, this testing may result in definite

information as to whether the nerve path and mechanism is in proper order.

If your car needs any kind of body work, bring it to Kermit Monzingo, your Chrysler-Plymouth dealer.
