LET'S KEEP OUR LIBRARY

This past week the CAVALRYMAN had heard the story that it may be necessary for the Kinney County Library to either close down or considerably reduce hours of operation due to lack of funds.

This was confirmed by an interview with Mrs. W.H. Golemon.

One of the problems is that the Library no longer receives funds from the United Fund. The only source of income is the \$650.00 contribution by the County, approximately \$100.00 donations by the "Friends of the Library" and \$25.00 from fines.

Mrs. Golemon stated, "That she has worked for a number of years as a volunteer" and her help has been volunteer, also, except for a few part time helpers provided by the County.

The work on the Library, such as building book shelves, has come from Volunteers, the only cost on any improvements has been the cost of the materials only.

"I have worked and built this Library for a number of years and I would now like to see it become an accredited State Library.

Which means we must receive \$5,000. per year income, half of which must come from local Government agencies, this would allow us to have a full time, paid, Librarian."

"We have been working on an actual expense budget of less than \$10.00 per month, YET WE HAVE CONTINUOUSLY GROWN"

"We need a telephone and certainly air conditioning would not be an inconvenience. I am 78 years old, I have worked with the Library for years and will continue as long as I am able."

"We have been to the City and County for additional funds but I feel our real salvation are the people of Kinney County, particularly those who have school age children that have deeply appreciated our services.

Editor's Note

You may become a member of the "Friends of the Library" by donating a minimum of \$1.00, tax deductible, Any donations of \$5.00 or more will be placed on the "Friends of the Library Honor Roll" and be printed in the CAVALRYMAN.

Editor:

Speaking for quite a few people in this town, I have never been so out-raged as when I read the article in last Friday's CAVALRYMAN concerning the paving of our streets.

There must be some citizens who aren't thinking to clearly. You have been complaining for years about dusty, rough roads, and when the City does it's best to try and improve all they get in return is a lot of grumbling and insults.

Did it ever occur to anyone to say, "Thank You, it's much better than before?"

Granted, our first "PAVED" street doesn't compare to a major freeway, but it wasn't meant to. The street was "TOPPED" not paved with a lot of hard work, "PRIDE" and the will to please by the City of Brackettville.

It may interest you to know that the people responsible for the money to improve the streets thought it a good job, was amazed at how well they could do, and is behind the City one-hundred percent.

If you want to lose everything that we've gained in the last few years

just keep printing articles like the last one. But you'd better stop and think before you do, because, frankly, I can't think of another person who could step in and fill Mr. Williams' shoes.

I think you owe a sincere apology to Roland and all his workers, who are trying to do their best with very little to work with.

Thank you, Roland and the men that worked on the street.

"A GRATEFUL CITIZEN"

(EDITOR'S NOTE)

It is the strict policy of ALL newspapers not to print anonymous letters. (This is due to some of the legal problems that can arise.) However, since this person felt very strongly about a portion of

our editorial of last week, in all fairness and since this is "your newspaper", we are printing this letter.

This will be the first and the last anonymous letter printed by the CAVALRYMAN. If any of our readers would like their correspondence to be printed they must include their name. If you do not wish your name to be used simply state, "request name to be with held."

We welcome responsible comments! This will help our communtiy improve!!!

COMMENTS from

THE
SAGEBRUSH

So the price of groceries is high and you want to plant a garden, and besides fresh vegetables from the garden taste so much better. This all makes sense.

However, there are some things to remember. Time is short on some things. A very early fall is in the offing and most things must produce before frost. Unless tomato plants are almost to the bloom stage, forget it---they won't have time. Green beans may make it; if you're lucky you may get one good picking.

Radishes, if well watered have plenty of time. if you want corn, BUY IT,--it's to late to grow it. Peppers of all kinds, if almost to bloom stage, may make a few--otherwise don't waste the effort. Turnips--you have worlds of time, head lettuce, mustard, cabbage, cauliflower, brussell sprouts, cllards, carrots---have a ball, you'll have good eating on these. Cucumbers, squash, pumpkin, okra, black-eyed peas, beets---depend on the grocery store--you'll never grow them this year. Prepare your soil well, fertilize good, follow instructions on seed packets, keep out the weeds, hoe after every watering or rain and you'll have lots of good eating. If you have more than you need. I'll be glad to eat the surplus.

SERVICE.

We know what it means.

At Del Rio National Bank "service" is not just a word; it's our entire banking attitude. We do our best to give all our customers the good service they deserve. And the reason is simple: A happy customer is a satisfied customer . . . and we sincerely believe that. You'll find everyone from our bank tellers to our bank officers to be very friendly and most helpful when it comes to serving your banking needs. Our regular customers know this already, and we'd like to prove it to you. Visit us today, won't you?

Service You can find it at Del Rio National Bank, the bank that's here to help you.

by: JOE TOWNSEND

"Big Friendly Olney", the sign read as I pulled into this small town in North Central Texas, I thought at least they have a wide awake Chamber of Commerce. It was 2:00 in the morning and my gas gauge had crept below the one-fourth full mark. Ahead was Archer City and Wichita Falls. There had been no service station open for a hundred miles and I knew there would be none in Archer City--44 miles to go on a short quarter of a tank---The Bottom-quarter ---- I'd never make it. I left the main highway and took the "business" route. I noticed a police car and stopped it. The driver was a very friendly. He said "No sir, there's not station open but I can call a man our to sell you some gas if you want me to." I told him I would certainly appreciate it. He led me to the service station. It was a major brand, but on an off street and an old station with none of the fancy polish of a main street or Interstate station. The patrolman said, "I'll be back in 5 minutes." He was back before the stated time and told us the "man is on his way". Very shortly a negro man drove up, opened up the station and we had a nice visit as he filled the tank. When he had finished I asked, "How much do I owe you for coming out this time of the night?" He siad, "Why nothing, sir; just the price of the gas." I paid for the gas and gave the man a \$5.00 bill for his trouble. When I go that way again in the day time you can know where I'll buy some gas. I found that the sign is true---It is indeed, "BIG FRIENDLY OLNEY."

I told you to join "The Friends of the Library"

THE DO GOODER

"Don't go smokin' that nasty ole cigar.
Don't blow them boozy fumes at me,
And don't go goin' into that bar
Where they sell that terrible whiskey."

"you better keep away from demon rum
And that also goes for that ol' gin.
I ain't sayin' you're a drunken bum,
I'm just about doin' my reformin'"

"Stay away from houses of ill repute,
And where these's gamblin' goin' on
And where there's dancin' girls so cute
Where there's evil doin' to come upon."

"So you better do as I say, my friend
For I'm goin' to do away with all sin
Even if you and yours I do offend
Say, friend, I'm kind a dry---
can ya spare a fin."

COUNTY AGENT REPORT

BY: CARL ESSER

Hedging agricultural production in the futures market is one marketing tool that is used by only a limited number of producers. According to County Extension Agent Carl Esser, a seminar to explain this concept has been scheduled in Uvalde at the Civic Center beginning at 9:00a.m. on September 9, 1975. Lunch will be served and the meeting will adjourn at 4:00p.m. A registration fee will be charged to cover the meal and other costs, and anyone interested can contact County Extension Agent Esser at 563-2442 or write to STAR Program Drawer 1849, Uvalde, Texas, 78801

Topics to be covered include: Overview of the Future Markets, Contract Specifications and Requirements, Role of the Broker, Trading Techniques and Mechanics, and Hedging Techniques. Speakers include

a representative from the Chicago Mercantile Exchange, commodity broker and economists from the Texas Agricultural Extension Service.

After Lunch, the group will split into sessions involving grain and livestock to get into the specifics of each commodity. Examples will be worked out and problems given to the participants. This will be a very informal session and should be valuable to all. Questions will be answered and each person will have a chance to actually work out a hedging solution.

Registration may be limited to available facilities and Mr. Esser encourages interested persons to register early. The cut-off for registrations is September 3, 1975. The Program is sponsored by the Agribusiness, Beef Cattle, and Field Crops Task Forces of the STAR (Southwest Texas Agricultural Resources) Program.
