## DAWN SLUBAR WINS AWARD

### EDITORIAL A TIME OF RECKONING BY GEORGE! AND REALIZATION

During the past few years, here, we have donated advertisement to charitable organizations. We have felt that this was for the betterment of the community; feeling that it would promote community growth and progress.

During this period of time, we have not charged charitable non-profit organizations for advertisement in our paper. Unfortunately, we are going to have to discontinue this policy for a number of reasons.

First of all, our cost of production has increased during our approximate three years of operation.

Secondly, I have conferred with some of our members in the Texas Press Association who have a charitable rate which runs approximately 70% of the normal advertisement rate.

Thirdly, it is essential for us, as a newspaper, to be able to justify our costs.

Fourth, certain organizations in our community have taken advantage of our free advertising and yet, have felt free to advertise in other publications outside our county and spend hundreds of dollars in advertising,

yet, not spend a dime with our local newspaper. Some of these organizations have even had the gall to use our photographs in the paid advertisements of other periodicals.

We do not object to publicizing Kinney County outside of Kinney County, however, as the old saying goes, "Charity begins at home".

Fifth, in the future all charitable ads will be carried in our newspaper at 50% of the normal commercial rate (the normal charitable rate is 70% of the commercial rate). This will include any non-profit organization, church group, society, etc, and will become effective immediately.

I am sorry to have to initiate this as our paper is here to serve our community, but it hurts a little bit when the people you help rub your nose in it. We have been honored to assist all the community organizations in the past, and we will be pleased to work with you in the future.

Again, I am sorry that it is necessary for us to take these steps, but occasionally a few people have to ruin a good thing.

### FAMILY LEADER OF TOMORROW

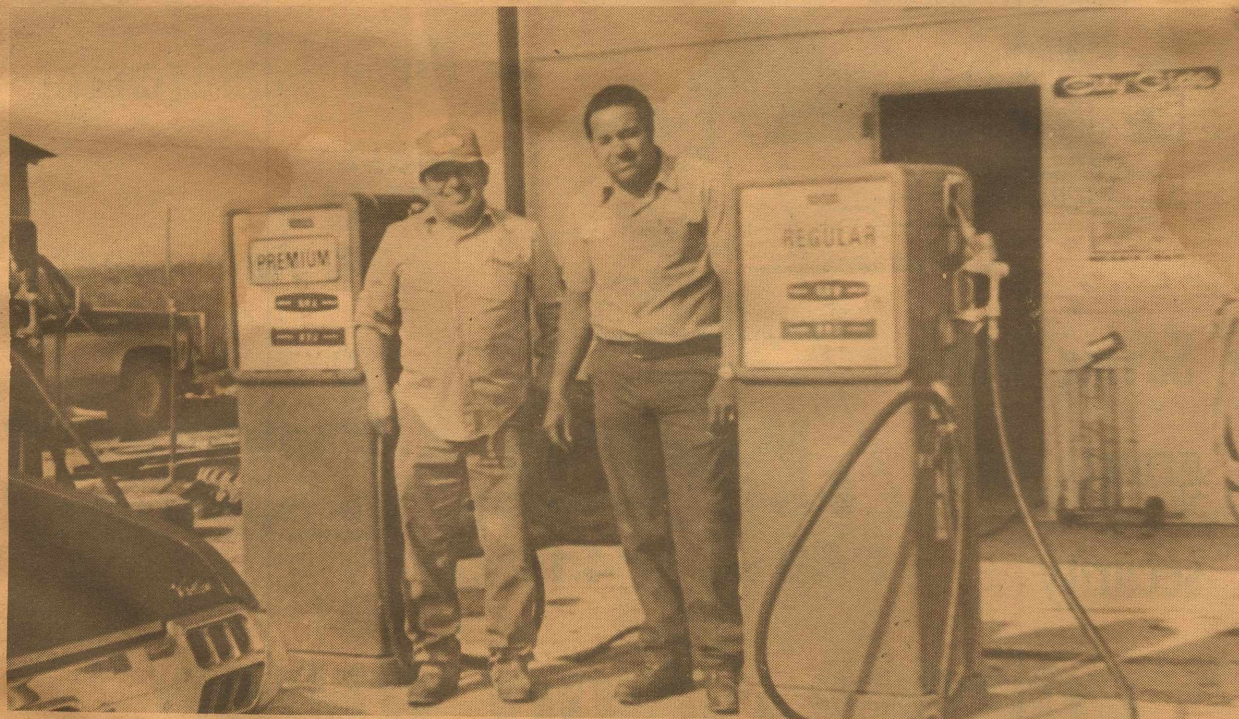

Dawn Slubar has been named Brackett High's 1976-77 General Mills Family Leader of Tomorrow. Dawn won the honor by competing with other seniors here in a written knowledge and attitude examination on December 7. She will receive a certificate from General Mills, sponsor of the annual educational scholarship program, and becomes eligible for state and national honors.

Dawn, daughter of Mr. and Mrs. Dennis Slubar, has been very prominent in BHS activities. She is currently a twiler for the fighting Tiger Band and F.F.A. Sweetheart. She is also a member of the Honor Society. Dawn was notified of the honor by Mrs. Clara Ricks, F.H.A. Advisor.

The State Family Leader of Tomorrow, to be chosen through judging centered on performance in the December 7 test, will receive a \$1,500 college scholarship, with the second-ranking participant in the state receiving a \$500 grant. The state winner will also earn for his or her school a 20-volume reference work, "The Annuals of America" from Encyclopedia Britannica Educational Corporation.

In April, the 51 winners representing every state and the District of Columbia will be the guests of General Mills on an expense-paid educational tour of Colonial Williamsburg, Va., and Washington, D.C. During the tour, personal observation and interviews will be conducted to select the All-American Family Leader of Tomorrow, whose scholarship will be increased to \$5,000 second, third and fourth place winners will receive scholarship increase to \$4,000, \$3,000 and \$2,000 respectively.

### NEW OWNERS

Manuel Pena and Ricky Goodloe who have been employees of the Brackettville '66' Service Station for a number of years recently purchased the property from the previous owner, Gordon Lackey.

Mr. Lackey stated he was honored to have his previous employees assume ownership of the 20 year old plus Brackettville business.

### LITTLE LEAGUE

The Kinney County Little League elected its new officers, February 1, 1977. They are: President--Buddy Burgess, Vice-President--Ernest Jaso, Secretary--Gaylene Frerich, Treasurer--Cordy Negrete, Directors--Roy Dyer, Ray Pena, Eloy Garcia, and Lingo Sandoval.

All support from parents and the community would be greatly appreciated.

## LETTERS to the editor

Dear George:

This is a follow-up on the TWX "By George, give them hell, George,.." I sent you January 26th.

Here in the Big D, we get the morning and afternoon newspaper but comes Thursday and I look for the Kinney Cavalryman for Brackett news and your editorials. I enjoy your column, though at times I may not agree with some of your restrictions as in the "Boo-Boo" awards. But as I enjoy and treasure that Constitutional privilege of "Freedom of Speech," you, in the news media, too, cherish the "Freedom of the Press." Still I admire and respect your vocation of "calling it as you see it." Again, by George, give 'em hell, George.

With some exceptions, I strongly support the appropriation of funds from local, state, federal or private grants for improvement of community projects, the creation of jobs for the unemployed and assisting private industries to create additional jobs or the retraining of the unemployed for new labor market.

For years we have owned a house in Brackett. This place has been very dear to me since it was here I married Tita and I loved two lovely people - Grandpa Blas (Olvera) and Grandma Mile. I miss them alot but we still have three great kids - Edmund, Rice graduate, now teaching at Southern Illinois U. and working on his PhD in Economics, our daughter, Irma, Texas U. and mother to our handsome grandson, Michael. Then our swell son-in-law, Mike, Captain, Army and a West Pointer and our youngest, Salvador, Vanderbilt graduate and Teacher Assistant at Notre Dame University, also working toward his PhD - yes, in economics.

**BETWEEN US**

BY: JOE TOWNSEND

This is a marvelous time of the year in many many ways. It is always fascinating when the world begins to awaken in the spring. One of the many interesting characteristics of the season is the migration of the birds. For the past three weeks, we have been noting many different kinds of birds on their way north. We are seeing, now, some beautiful birds we'll see only fleetingly as they make their way north. We wonder if they are harbingers of an early spring. Or maybe they orient themselves to the lengthening day light hours. As maybe their instincts lead them more accurately than the meteorological prognostications of man. At any rate, these creatures of

freedom from worry of "gas shortage", etc, go merrily on their way as though the world belonged to them as indeed in a large sense it does. However they are guided back to the north, I'm grateful to live in an area where so many charm me with their beauty and song. If I would be as dependent on God as the birds, I'm sure life would be greater for me and perhaps the world might see in me a person of beauty with a message thrilling.

## ?25¢?

Dear Editor:

I'M going to give you 25 cents for a copy of your rag. Divide it up any way you wish.

Now for that 25 cents I am giving you, I want you to deliver this week to my house a newspaper that will contain more reading matter than the current best selling novel.

I want all the local news, all the state news that applies to my local area, all of the national news that affects me and my family and all the international news that makes me happy or unhappy.

I want every bit of it to be fresh. I want pictures and stories of all local accidents, fires, meetings and events that I'm interested in whether I let you know about them or not; and I don't want to see any news that offends me, either.

I expect you to tell me who died, who was born, who was divorced and who was married in the last week.

I want to know what those guys in Washington are doing with my tax money. I want to understand the space program, the war in the Middle East and how I can get the road paved in front of my house, but I don't want to have to waste more than a couple of minutes on your story.

I want to read just as much about Democrats as about Republicans, and just as much about Protestants as Catholics and Jews, and as much about blacks and Chicanos as about whites.

Don't tell me you can't do it. That's what I invested my 25 cents for. The only reason you won't do it is because you don't have any competition, and if you won't do it like I want

it, I'll take another newspaper, listen to the radio and watch television more than I do now.

I want all the grocery, dry good and furniture prices, a list of people with used cars for sale, the movie and TV times and the closing stock and cattle market prices.

If I get drunk and have a wreck, I don't want you to print my name in the paper, and I have a friend who is getting sued and you can leave that out, too.

Another thing, I'm sick and tired of misspelled words in your paper. For 25 cents you ought to do better. By the way, I get home at 5 p.m. and my paper better be there before that, rain or shine, and you should talk to my delivery person about being more prompt.

When I meet you on the street, I expect you to serve as publicity chairman for every committee in the county, too, and any of those in the state that I'm interested in.

Next week, I'm going to start my own business and I want a news item about it. A picture would be even better.

Advertising? No, if you run the story and the picture, I won't need any advertising. Besides, I can't afford to spend \$40, \$50, or \$100 to promote my business after spending \$40,000 on stock and fixtures.

But if you straighten up and fly right, I will give you another 25 cents if you'll send a boy around to deliver me a paper.

The above is reprinted courtesy of the Texas Press Association.

# TIPS FOR GREEN THUMBS

by: JOE TOWNSEND

It will very soon be time to be growing tomatoes. There are many, many, kinds and sizes. The patio is a tomato designed to be grown in large pots if desired. Some of the marble size tomatoes can be grown in pots and hanging baskets. If you plan to grow your own plants, you should already have your seeds planted in trays, peat pots, plastic cups, egg cartons and such. They must be kept moist to touch to do well. They must also be given all the light possible. They can be planted outside

very early provided they are protected. It is good to slip a milk carton or coffee can down over them to protect them from wind the first two or three weeks. These containers should be open on both ends, of course. When there is danger of frost or freeze, these containers should be closed with paper over the top. Paper should be removed in the daytime. The earlier tomatoes are grown, the better the chance of a good crop of good tomatoes.

All in all, it is difficult to find a better or more dependable all round tomato than the Rutgers or Marglobe. These are regular size commercial type tomatoes that grow on hardy vines that do well in this area.

# CB BREAK

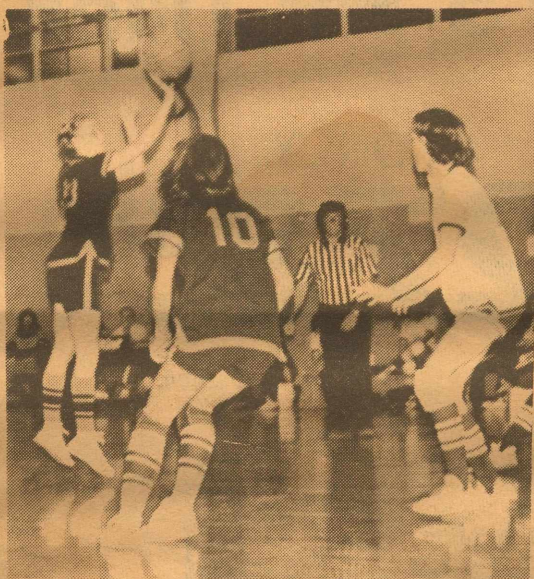

BY THE SKY PILOT

Enough commotion has been raised that license fees for CB's have been suspended. No amount of mental gymnastics can make possible the understanding of some people or the rulings of some of our judicial bodies. If a person cannot afford five dollars a year for a CB license, he can't afford the CB. Every conscientious CB'er should be glad to pay the fee and thus, make possible more agents to oversee and control the CB'ers. In many cities (Del Rio is one of the worst), you can hardly turn your CB to channel 19 without hearing some irresponsible "Kook" trying to be a real smart-alec. The obsenities are not only inexcusable, but down right disgusting. With enough money available, "Charlie" could come to such towns as ours and Del Rio and soon put a stop to such nonsense. The only ethics and principles some people have, are those forced on them. "Charlie wouldn't have to make many cases in any town until the airwaves would be cleaned up and be much more usable and enjoyable. This should be worth \$5 a year to every CB'er.

### HOPI INDIAN SHORT COURSE SCHEDULED

UVALDE--A Hopi Indian chief's daughter will conduct a short course February 19-20 at Southwest Texas Junior College here for students and area residents interested in studying the development of the Hopi Indian culture.

Reared on a Hopi reservation in Arizona, Chizomana will travel to Uvalde from her home in California. The two-day short course will include a brief history of the tribe and a study of their social development, kinship, courtship, marriage, child raising, and the relationship of their religious culture to the arts and crafts of today.

Sponsored by the SWTJC Anthropological Society and the Department of Anthropology, the short course will be of special interest to students and teachers of history, anthropology, social science and art.

"More has been written about the Hopi Indians than probably any other tribe in America," explains Charles

F. LaRue, anthropology instructor at the college and coordinator of the short course. "They are a very private and peaceful people and were the only tribe in the nation never to go to war against the United States."

Chizomana has conducted similar short courses at Northwestern University, Ohio State University and the University of California at Los Angeles, Santa Barbara and San Diego.

Last spring LaRue took a group of 30 college students and area residents to Arizona to study the Hopi

culture. The anthropology instructor is currently planning a similar trip to the Hopi reservation during the college spring vacation in March.

LaRue met Chizomana while attending one of her short courses in Santa Barbara, Calif. As advisor to the SWTJC Anthropological Society, he enlisted the aid of students in collecting literally thousands of wild turkey feathers used by the Hopi Indians in their religious ceremonies.

The two day course will meet from 8am until 4:30 pm February 19 and 9am until 4:30 pm February 20.

Cost of the course will be \$25, which includes textbook fees. Those interested in registering may send the enrollment fee to Charles F. LaRue, Department of Anthropology, Southwest Texas Junior College, Uvalde, Texas, 78801.

Anyone seeking further information may call 512-278-2615. Upon receipt of tuition, LaRue will mail course details to each student and assist in any housing arrangements that may be necessary.

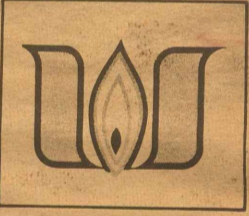

CHIEF'S DAUGHTER----A short course exploring the Hopi Indian culture from past to present will be taught at Southwest Texas Junior College, February 19-20, by the daughter of a Hopi chief. Chizomana will provide an "inside" point of view of the Arizona Indian tribe as she discusses topics of particular interest to students and teachers of history, anthropology, social science and art.
