EDITORIAL GEORGE!

Brackettville Doesn't Have A DOG Problem

Between Us

JOE TOWNSEND

I sit here and look out on a dreary cloudy day. The very looks of the out of doors has a chilling effect. I've scarely talked with a person all day who has not said he was cold. In conversation with every person, I've chatted with I've remarked about the cold and in truth and reality, I'm cold. I've been cold all day. And yet it really isn't all that cold. Last night when I checked my thermometer at 10:30 p.m., it was 34 degrees. This morning at 5:00 a.m. it was 39 degrees. Now it is 46 degrees I hear on the radio of the really cold weather in the North and East, 3 degrees below in Omaho; Howling blizzards with chill factor 20 degrees below zero in much of the North and East; Freezing temperatures in Alabama, the Carolinas and even Florida - and I ask myself, "Am I really cold?" With snow falling from California to far West Texas, I find I live in the warmest area in continental U.S. For this I'm grateful. When I think I have problems of any kind I look about me and I see others who have more problems and worse. When I begin to feel sorry for myself, I think of the situations of others and am ashamed of myself. When I find something in my world that is distasteful, I think of all the good things I have and enjoy and I can no longer complain. Though all of us face situations and problems we don't relish we all have more than we deserve. For this we can thank ourselves, our great Nation, but mostly our wonderful God.

PRESENT DAY MYTHS by: JOE TOWNSEND

The idea seems to be wide spread that if a business or person cannot make as much money as he chooses the 'government" should make up the difference. Lockheed and the Pennsylvania Railroad get in trouble financially and pressure is on Congress to bail them out. New York City shows gross fiscal irresponsibility and Congress is expected to bail it out. The migrant worker doesn't make as much money as he wants so Congress has to bail him out. Wages are not as high as labor wants them to be so Congress is expected to bail them out. The postal service is in trouble financially so Congress is expected to bail it out. Crystal City is led into "energy" chaos by renegade politicians and Congress is supposed to bail them out. The farm community gets itself into trouble and now radical and unthinking elements expect Congress to bail them out.

What has happened to responsibility? What has happened to pride? What has happened to integrity? It seems even a blind man could see with his walking stick that the more the "Government" becomes involved in anything the bigger mess is created. In every case mentioned, government policy or practice has largely created the problem. Since 1933, farmers have leaned heavily on Government handouts and pled for Government subsidies until it seems there is no longer the desire, interest, or expectation that free enterprise and the law of supply and demand could solve the problem. When will the American people wake up and throw off the "helping hand" of smooth talking politicians and carry their own load? When this time comes the ship of state will once again sail on an even keel and individuals can know the freedom and liberty that comes from pride in ones self, integrity to carry ones own responsibility, and the use of common sense rather than a begging hand held out to "Government".

It is high time to begin to plan for your spring garden. Weather forecasters tell us we will have warmer than normal weather for the next three months in our area. This means an early spring It would be good to begin now, the ground preparation. The soil should be turned and loosened up. Fertilizer could well be added. If the soil is tight and has a tendency to pack it would be good to add some wood bark mulch (it is less expensive and more efficient than peat moss) to improve the growability. Now is the time to plant English Peas, head lettuce, cabbage, brussel sprouts, broccoli, cauliflower, or carrots. Soil properly prepared early will mean better vegetables earlier and more of them.
