COMFORT OF VISITORS TO THE WORLD'S FAIR.

Excellent Provision Made For Public Convenience In the Grounds and Buildings of the Exposition—Everything Necessary Provided For.

Special attention has been paid by the builders of the Louisiana Purchase Exposition to the comfort of those who will attend. It is not an exaggeration to assert that no previous exposition has provided so many public conveniences. First of all, there will be plenty of places where one may sit down and rest after seeing the sights until physical fatigue demands relaxation. And this calls to mind an amusing little story of the Columbian exposition at Chicago.

The little granddaughter of Professor J. M. Greenwood, superintendent of public schools in Kansas City, attended the exposition with relatives, who made it their business to show the child many things that would be educative. From time to time the party found it necessary to sit down and rest. Returning home, the learned grandfather asked the little girl this question: "Well, my dear, from what one thing that you saw at the fair did you derive the greatest benefit?"

"The chairs, grandpa," promptly replied the child.

The chairs will be greatly in evidence at St. Louis. Thousands of comfortable cane bottom chairs and settees for the free use of visitors will be found in the retiring rooms in the great exhibit palaces. But at this Exposition there will be resting places unknown to former fairs, for within the grounds there are many acres of wooded land which are not occupied by buildings. With 1,240 acres at their disposal it has been an easy matter for the builders to create the biggest Exposition ever known and still have many breathing spaces to spare. Under the trees of the forest—a part of Forest Park—the public will find numerous seats, where, beneath the cooling shade, may be enjoyed a reasonable period of rest, so that the visitor, as though sitting in a quiet park, may look beyond the trees at the domes and towers of the Exposition.

In each of the exhibit palaces and

the state and foreign buildings there are public retiring rooms, many of which are provided with wash basins. Scattered throughout the grounds will be a number of separate structures for similar uses. Provision will be made whereby for a small fee the visitor may have toilet accommodations with water and towels.

As to drinking water the totaler need have no fears. An arrangement has been made with a concern that will bring pure clear water from a famous spring at De Soto, Mo., to be piped over the grounds from large tanks, refilled twice daily and supplied to the visitors at attractive booths for a cent or so a drink, which means as many glasses as one may require to quench the thirst. Filtered water from the Mississippi river also will be supplied.

Those whose zeal for seeing the sights is in excess of their walking or standing powers may hire roller chairs at a small expense, and for traveling greater distances in the grounds the Intramural Railway, with comfortable cars specially constructed for observation purposes, will furnish a mode of conveyance superior to any yet provided at an exposition.

Then there will be the 2,500 Jefferson Guards in uniform, a part of whose business will be to give free information to visitors. These are bright young men, many of whom will have been on duty for months prior to the opening, and they are expected to be walking encyclopedias of Exposition information, able to direct the visitor about the grounds without consulting a guidebook.

An excellent hospital system is being installed, with several branch hospitals, where capable physicians and nurses will be on hand, so that in the event of illness prompt attention and treatment may be had.

For the Majority of Visitors It Will Be Less Than Railroad Transportation to St. Louis and Return Would Cost In Any Other Year.

CITATION BY PUBLICATION.

THE STATE OF TEXAS,

To the Sheriff or any Constable of Borden County--Greeting: YOU ARE HEREBY COMMANDED, That by making Publication of this Citation in some newspaper published in the County of Borden, if there be a newspaper published in said County, (but if not, then in the nearest County where a newspaper is published,) for four weeks previous to the return day hereof, you Summon Will Lyons, whose residence is unknown, to be and appear before the Hon. District Court, at the next regular term thereof, to be holden in the County of Borden, at the Court House thereof, in Gail, on the Seventh Monday after the first Monday in February, 1904, same being the 21st day of March A. D. 1904; file Number being 126, then and there to answer the Petition of Nettie Polk et al., filed in said Court, on the 2nd day of May A. D. 1903, against the said Will Lyons et al., and alleging in substance as follows, to-wit:

That M. A. Lyons is surviving wife of J. W. Lyons, who died intestate in said Borden County, on the 18th day of Dec. 1892; that Guy and Jasper, two of the children of the said J. W. Lyons, deceased, and M. A. Lyons, defendant, died in said Borden County 21st day of February 1902, and August 20th 1902, respectively, each dying intestate and single; that the plaintiff and the said defendants, Cass, Will, Roy and Eula Lyons, are surviving heirs at law of said J. W. Lyons, deceased.

That during the lifetime of the said J. W. Lyons, deceased, he and the defendant M. A. Lyons owned in their community estate and right certain personal property consisting of about 50 head of cattle, branded thus, "7 left shoulder, 7 left breast, and 7 left hip" and about 10 head of horses branded thus, "1 S."

That a short time prior to the decease of the said J. W. Lyons, he and his wife turned over to the defendant, Cass Lyons, the aforesaid community property, to be held and kept by him in trust for them, until such time as he should be called upon to surrender possession thereof.

That since the decease of said J. W. Lyons, said defendant has, by permission of defendant, M. A. Lyons, and assent, also, of plaintiff and the other adult defendants held said property in trust till such time as he should be called upon to surrender same for distribution between all parties interested therein, he being allowed to make sale from the said stock and increase therefrom to meet expenses incurred in taking care

hereof and compensate him for time and care bestowed thereupon, it being understood all the while, that said defendant would surrender said property at once, on taking upon him the marriage estate.

Plaintiff avers that recently, that is, on or about the 24th day of Dec. 1902 said defendant entered into said marriage estate and is now a married man, and upon demand made that he surrender said property as per the aforesaid agreement, refused and still refuses to do so, and particularly to surrender to plaintiff the part and portion to which she is entitled, but still has and holds in his possession the said property, now consisting of about 200 head of cattle, part being the original stock and part the natural increase therefrom, and about 25 head of horses, part the original stock and part the natural increase therefrom, said cattle, including calves thereof and of the spring of 1903 being of the estimated value of \$3800.00, said horses of the estimated value of \$700.00, aggregate value, \$4500.00 and as further and more emphatic declaration or demonstration on the part of said defendant that he will not now keep his said trust relation inviolate, he has recently also branded increase from said stock "777" (crooked sevens) or "7" (crooked seven) thus destroying their identity to that extent, but all said original stock and increase can still be identified by the above designated brands.

And said defendant having thus violated his said trust and destroyed plaintiff's faith therein in the interest to which she is entitled being a 6-70 part and portion thereof, the other said defendants, other than the said M. A. Lyons being each entitled to a like portion or part and the said M. A. Lyons being entitled to a 4-7 of said whole estate and the said M. A. and Will Lyons refusing to join plaintiff herein against said defendant, Cass Lyons, she now complains of them and the said Roy Lyons and Eula Lyons being each minors, aged 13 and 14 years, respectively, she seeks to bring them in as defendants that a guardian ad-litem may be appointed for them and their interest protected, they having no guardian of their said estates.

Plaintiff signifies now her assent that defendant, Cass Lyons, continue to hold and manage said property aforesaid, and in about the number of cattle and number of horses last named, till this suit can be determined, but will not consent to further sales thereof or therefrom, and if he shall dispose of or manifest any intention to sell or in any manner dispose of any of said prop-

erty during the pendency of this suit, then plaintiff will ask that this court appoint a receiver to receive, hold and care for said property till disposition thereof can be had under later orders of the court.

Plaintiff also signifies her willingness to receive and accept her distributive share of the said original stock of cattle and horses and the increase therefrom now in possession of the defendant Cass Lyons in about the number hereinbefore mentioned, but if the said defendant being cited and answering herein, shall insist that he is entitled to receive compensation for time devoted to and expenses incurred in taking care of and preserving said property, then this plaintiff will also insist that to the commissioners appointed by the court to make division of said estate, said defendant be required to furnish itemized statement of his said time, with value thereof and of his expenditures and also statement of the separate sales and proceeds thereof of said original stock and increase and that said commissioners be directed to make equitable balance between said expenses and proceeds deducting from or adding such balances to the property now held by said defendant as the case may be, or that an auditor be appointed to receive from said defendant his said statements and make such balances thereof.

HEREIN FAIL NOT, but have you then and there before said Court this Writ, with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, in Gail this 1st day of February A. D. 1904.

In the matter of County Finances in the hands of H. W. Hale, County Treasurer of Borden County, Texas.

We, the undersigned, as County Commissioners within and for said Borden County, Texas, and the Hon. J. M. Searcy, County Judge, of said Borden County, constituting the Commissioners' Court of said county, and each of us, do hereby certify that on this the 20th day of February A. D. 1904, at a called term of our said court, we have compared and examined the quarterly report of H. W. Hale, Treasurer of Borden County, Texas, for the quarter beginning on the 1st day of Nov. 1903, and ending the 31st day of January 1904, and finding the same correct have caused an order to be entered upon the minutes of the Commissioners' Court of Borden County, stating the approval of said Treasurers' report by our said court, which said order recites separately the amount received and paid out of each fund by said treasurer since his last report to this court, and for and during the time covered by his present report, and the balance of each fund remaining in said treasurer's hands on the said 31st day of Jan. A. D. 1904, and have ordered the proper credits to be made in the accounts of said treasurer, in accordance with said order as required by article 867, chapter 1, Title XXV. of the revised Statutes of Texas, as amended by an Act of the Twenty-fifth Legislature of Texas, at its regular session, approved March 20, 1897.

And we, and each of us, further certify that we have actually and fully inspected and counted all the actual cash and assets in the hands of the Treasurer belonging to Borden County at the close of the examination of said Treasurer's report and find the same to be \$12,878.28.

WORLD'S FAIR NEARLY READY

Plans For Installing Exhibits Complete, and Work Is Being Rapidly Pushed--Transportation Companies Have Solved the Problem of Caring For Increased Freight Traffic.

WITH the opening days of 1904 work on the Louisiana Purchase Exposition passed into the last stage, that of installation of exhibits and beautifying. Yet progress on these final touches has kept pace with the work of construction for a major portion of the last twelve months, so that the line of demarcation between actual building operations and final endeavor is difficult to indicate. Thus, even while roofers were employed on the Palace of Machinery, the great steel crane, itself an exhibit, was swinging parts of engines that might well be called mammoth into position, so that the dawn of 1904

BENJAMIN FRANKLIN, IN FRONT OF THE ELECTRICITY BUILDING, WORLD'S FAIR.

shows nearly all of these modern creators of force in position. And so it is on Agriculture hill. Nine months ago thousands of rosebushes were planted in order that they might gain strength from long tenure of the soil, and in like manner other exhibits of nurserymen were in place long before snow commenced to fall.

Tracks are laid in the huge space of Transportation, and turntables have been placed on solid concrete foundations. These are being burdened with locomotives of the latest construction and with modernly equipped coaches.

In other palaces floor space that has been marked off is being decorated with handsome interior homes where various exhibitors will display their wares, and, in many instances, the wares themselves are being placed in position.

On Government hill several companies of soldiers are preparing for the mounting of the great rifled cannon that will make such a formidable display, and under supervision of men from the United States navy the deck of a modern warship is assuming interesting proportions.

Art hill shows the palace of stone and the two annexes ready to receive the paintings and works of bronze and marble.

No less forward are conditions on that interesting adjunct to this Universal Exposition, the Pike. All the large amusement buildings are practically complete, and within the walls now are stage carpenters, creators of illusions and other wizards, transferring bare walls into places of enchantment.

By an arrangement recently made between a transportation company and the railroads it is believed there will be no delay in delivering the many train loads of exhibits within the gates of the Exposition. Extensive preparations have been perfected to handle all freight that comes into the city, and, in addition to service by a system of big drays—some propelled by steam, others drawn by horses—which is designed for the smaller shipments, car load lots will enter direct over the several switch lines that wind in and out between the buildings.

In order that no delay might be caused by severity of the weather the Exposition management looked especially to the construction of the roadbeds during the late fall of 1903, and now there is no danger that heavy drays will be stalled in soft, muddy places, but all can proceed on a smooth, hard surface to the place of destination.

Acting in accord with the general spirit of facilitating rapid installation, the Terminal Railroad Association, which controls all shipments of freight delivered by roads from the east, has doubled its capacity for handling freight in both the St. Louis and East St. Louis yards, and it is now believed that during the busiest weeks, which will undoubtedly be those of March and April, there will be no congestion across the two big bridges that span the Mississippi. Should there be, however, resort can be had to the ferry service, which also has been increased in order to care for any emergency.

Shippers all agree that freight is arriving in St. Louis better today than ever before, and this notwithstanding the fact that the terminal facilities are not quite completed and that a number of tracks cannot be operated because of laborers being engaged in their reconstruction. A recent test proved that a consignment of freight from Boston was delivered in a building on the Fair grounds seven days after its shipment from a warehouse in that eastern city, and all persons who have any knowledge of such matters must admit that this is very fair time.

As for the western roads, they all have spurs leading direct to the Exposition, and in many instances cars can be switched direct into the grounds without even a day's detention in the yards.

Those who have the work of delivering exhibits in charge say that they can keep pace with the men who do the installing, and that, unless the unforeseen occurs, there should be no delay in filling the palaces with the wares that will comprise the wondrous display.

1904 Finds the

HALE HOTEL

Still here to accommodate the Public. Tables set with the best West Texas affords. We solicit a full share of your patronage. RATES, \$1.25 per day.

Thos. W. Hale,

Prop.

The situation is very satisfactory to all concerned, and the general belief is that St. Louis will not only have the greatest Exposition ever held, but will also give to the world the only Fair to be ready on time.

As for the beautifying of the Exposition, it is only a question of putting the men at work. Every plan has been made; all the preliminaries are completed. The landscape gardeners have laid out the grounds to meet the approval of the most exacting critic, and it needs only the warm rains of spring to coax into bloom the seeds, bulbs and plants that within a week can be placed in the soil. In like manner the color scheme for the palaces has been definitely arranged, so that painters need but to follow instructions, and almost within a fortnight the beautiful buildings will shine resplendent in the holiday coats that they will wear for seven months, beginning April 30.

Long ago electric wire cables were laid throughout the site, and now it is but a matter of attaching the hundreds of thousands of globes which will illuminate both the water and the air so that at night the World's Fair City shall shine even more resplendent than during the day.

ders of the Exposition for three days and expend less money than in any other year he would pay for train fare alone.

This may seem an astonishing statement, but it is a fact.

Railroad men have practically determined that "one fare for the round trip" will be the rate during the seven important months of 1904. Public announcement of this only waits the passage of certain legislation concerning "scalpers' tickets and formal indorsement by the various passenger agents' associations.

With this fact in mind a clear demonstration of the statement in the opening paragraph can be made.

The fare from Chicago is \$7.50, or \$15 the round trip. So under the new schedule \$7.50 will be put down as the railroad fare from that city to St. Louis and return. If you are economical, your per diem expenses in the World's Fair City need not exceed those given in this table:

Breakfast	\$.25
Car fare to grounds	.05
Admission to grounds	.50
Dinner on grounds	.35
Car fare downtown	.05
Supper	.25
Night's lodgings	1.00

Total \$2.45

Multiply \$2.45 by 3, and you have \$7.35, the sum total for three days' sightseeing. Add to this the \$7.50 railroad fare, and you have a grand total of 15 cents less than the car fare alone would cost you in any other year.

For this money you have thrown open to you the thirteen grand exhibition palaces, the forty and more state buildings, the fifteen and more foreign government structures, the ten great stone edifices acquired temporarily from Washington University, including the Hall of Congresses and the Physical Culture Hall, with its adjoining Stadium, the Filipino Village and many other pleasant places.

Should you desire to remain longer than the three days you can do so without a greater per diem expenditure than given above.

But, supposing that you have plenty of money to spend and desire certain comforts and even luxuries, yet are not extravagant, what will the figures be? Less than \$5 a day!

Breakfast	\$.50
Car fare	.05
Admission	.50
Admission to one or more Concessions on the Pike	.50
Dinner	.75
Souvenirs and extras	.50
Supper	.50
Car fare	.05
Hotel room	1.50

Total per diem \$4.85

Suppose you desire to remain six days. In that time you can devote a morning to one main building, an afternoon to another, and so on, from Monday to Saturday, inclusive, passing the evenings on the Pike, and the grand total of the week's expenditures will be \$29.10.
