Internal Revenue Department Declares Manufacturers Must Pay Rectifier's License—Druggists to Pay a Saloon Tax.

Washington.—Manufacturers of patent medicines which contain distilled liquors have been put upon the same plane as rectifiers and liquor dealers Druggists who handle these patent medicines are put in the saloonkeepers category, and as such must take out the regular liquor dealers' license.

The commissioner of internal revenue has given a decision here which brought about this new status of the patent medicine maker and seller. By doing so he reversed the decision of his department made many years ago.

The new ruling will not become operative until December 1. This is done to prevent an injustice.

The commissioner, in a letter of instruction to collectors of internal revenue, says that there are many compounds on the market going under the names of medicines that are composed chiefly of distilled spirits, without the addition of drugs or medicines in sufficient quantities to change materially the character of the whisky.

He authorizes collectors to impose the special tax upon manufacturers of every compound composed of distilled spirits, even though drugs are declared to have been added thereto, "when their presence is not discoverable by chemical analysis or it is found that the quantity of drugs in the preparation is so small as to have no appreciable effect on the liquor."

"The same ruling," declares the commissioner, "applies to every alcoholic compound labeled as a remedy for diseases and containing, in addition to distilled spirits, only substances or ingredients which, however large their quantity, are not of a character to impart any medicinal quality to the compound."

Collectors are instructed to send out notices to all druggists and merchants dealing in proprietary medicines, that after December 1 they will be required to pay the special tax as liquor dealers.

While no statement is made by the commissioner as to the medicines that will be affected, it is believed that the decision reaches several prominent and highly advertised medicines. In all instances these medicines have been found to contain as high as 45 per cent. of alcohol, and there are many on the market, it is said, that contain 25 per cent. of alcohol.

These medicines are said to have immense sales in prohibition communities, figures collected in Massachusetts recently showing that one such advertised compound with a high percentage of whisky had been bought to the extent of 300,000 bottles in one year in prohibition communities of one New England state.

Practical Ideas Free for Western Farmers.

In this age of progress and advancement in all kinds of business the successful farmer and stock raiser is compelled to put more brains into his business than ever before. The price of land is increasing every year, and better and more improved methods of farming must be and are being inaugurated. There are many great problems to solve, and one of the greatest exponents of new practical ideas for the western farmer is the Western Breeders' Journal, published at Clay Center, Kansas.

We have succeeded in making arrangements with that valuable publication, whereby we can furnish it absolutely free to every reader of The Borden Citizen.

Beginning with this issue and continuing for a specified time both papers, The Borden Citizen and The Western Breeders' Journal, may be

had for the price of The Borden Citizen only, which is One Dollar per year. In other words every one paying One Dollar on subscription during the next ninety days will receive both the aforesaid mentioned papers one year. The Western Breeders' Journal is conceded to be the most practical, up-to-date farm and stock paper in this territory. It gives the experience and reflects the ideas of those who have made a success of farming and stock raising under conditions that exist here.

Sample copies may be seen at this office at any time within the next ninety days. Remember the time limit, however, and see to it that your name is enrolled before the expiration.

There was quite a crowd at the courthouse Friday night to attend the Literary Society. Some of the officers and several of the best speakers on the program were absent, and the crowd was entertained with a volunteer program until late. We hope to have a better program next time.

Judging from the amount of caucusing done on Saturday last, the candidates are getting down to work. After a while the sun will be so warm that the candidate's victim will be willing to make any sort of a promise rather than suffer a sunstroke.

ANOTHER ORCHARD.

GIVES HEALTH, VIGOR AND TONE.

Herbine is a boon for sufferers from anaemia. By its use the blood is quickly regenerated and the color becomes normal. The drooping strength is revived. The languor is diminished. Health, vigor and tone predominate. New life and happy activity results. Mrs. Belle H. Shriel, Middlesborough, Ill. writes, I have been troubled with liver complaint and poor blood, and have found nothing to benefit me like Herbine. I hope never to be without it. I have wished that I had known of it in my husband's lifetime." Price 50c. at D. Dorward & Co.'s and all Druggists.

Nothing adds so much to the beauty and value of a home as a nice orchard and grove of shade trees. A beautiful landscape without a tree is something we seldom see. The season is now at hand for the spring planting of fruit trees. But the season will not last always.
