Announcement

My Practical Baking Lessons Will Appear on This Page Every Week

So much interest has been shown in my work, and so many ladies have asked me why I did not publish my lessons, that I have prepared a series covering practically the whole field of home baking.

By special arrangement with the Manufacturers of KC Baking Powder and the publishers of this paper, the lessons will appear on this page every week, beginning this week.

I have tried to make these lessons thoroughly practical and I believe that every one contains at least one recipe worth saving, and some new idea that every housewife can adopt to advantage and that will repay a careful reading.

Sincerely
Nevada Briggs

SAM SMALL DELIGHTS ALL METHODIST CHURCH FILLED TO ITS CAPACITY TO HEAR DISTINGUISHED EVANGELIST AND SOCIAL CAUSE WORKER.

In One of the Most Excellent Addresses Ever Heard in This City, the Speaker Tells of His Majesty, the Devil.

It was a large and representative audience, one that filled to its capacity the large Methodist church here, that listened attentively to the address of Rev. Sam Small last week. Widely known as one of the representative platform speakers of his time, the fact that Sam Small was in Colorado was sufficient to draw the elite from their homes to the commodious building where he spoke.

The distinguished divine was introduced in a few short words by Dr. Weston of this city, and immediately the speaker began the address. It would have taken an expert of experts in the shorthand line to have secured a complete report of the address and then the reader would have missed one of the greater parts of the address, that, the articulation, gestures and magnetism of the talker. It is there that Sam Small is all his own, there where his excellence is best represented, and there where he most pleases an audience. Forty years on the platform have given him a capacity for pleasing an audience perhaps second to no man on the lecture platform in this country today, and this notwithstanding that he has taken as his topic one of the most intricate and complicated subjects upon which the mind of mankind may dwell. Just the devil—that is all—but what a large subject! Milton in his great epic poem first gave the world an insight in Paradise Lost to the awfulness of the "outer regions," portraying in written language as no man nor woman had ever before or since the significance of the spiritual devil, and it has remained for Sam Small, a Georgian, to portray the devil in spoken language to multitudes of English-speaking people throughout the English-speaking world, and wherever he has been, whether in his own southland in the west, in Canada or the English or American colonies, he has never yet failed to do good, as a consequence thereof to do good.

He is a believer in an actual, bona fide, real, significant, existing physical devil, a devil once one of the three

high arch-angels in heaven thrown from honor and power because of his infidelity to the Almighty and his ambition to transcend the glory of God, himself.

Sam Small drew some pretty pictures and convincing lessons from the infidelity and corruption of the devil, and in closing his address he wound the same up in an anti-climax figure of speech such as might have been worthy of any man or speaker.

Card of Thanks.

I adopt this public method of thanking the many friends who stood so nobly by me in the recent contest for the piano. I realize that without your loyal support I never could have been successful in this contest. But words will not express the depth of my gratitude. I shall endeavor to give evidence of my gratitude by making the best of the advantages your kindness and friendship have made possible.

Gratefully,

ECHOES FROM SNYDER.

Snyder Happenings Always Interest Our Readers.

After reading of so many people in our town who have been cured by Doan's Kidney Pills, the question naturally arises: "Is this medicine equally successful in our neighboring towns?" The generous statement of this Snyder resident leaves no room for doubt on this point.

J. J. Burnett, Snyder Texas, says: "I have used Doan's Kidney Pills for the past five or six years, whenever I have had any symptoms of kidney trouble and I have always been benefited. Seeing Doan's Kidney Pills advertised, I procured a box. They strengthened my kidneys and cured the rheumatism. Since then I have taken this remedy occasionally and it has kept my kidneys strong and well."

There was a large crowd at the Literary on the 15th. The debate was on "Woman Suffrage" and was defeated. A question was put to the house after the debate was over, "for every woman in the house who wanted to vote on woman suffrage to stand up." Not one wanted to vote.

LATE LEGISLATIVE NEWS.

The house committee has reported favorably on bill by Humphrey and Fuller to supplement the Webb liquor bill. The Texas bill forfeits the charter of any common carrier transporting inter-state shipments of liquor into Texas local option territory and provides felony punishments for all employees participating in such shipment.

The woman's property rights bill finally passed the Senate and is now in the hands of the Governor. It will become a law unless the chief executive exercise the veto power. An effort on the part of opponents of the bill is being made to bring about this result. The house bill creating the Seventy-fourth Judicial District has finally passed the senate.

The Wagstaff bill, providing that vendor's lien notes shall lapse four years after becoming due and cease to be a cloud on land titles, was passed by the house to engrossment.

The Collins senate bill providing for an employers' liability and workmen's compensation has been reported favorably by the house committee. It provides for a commission of three, the elimination of the contributory negligence feature, the administration of the law and provides for a general fund supported by the manufacturers, factory owners, etc., out of which all claims shall be paid. Railroads are the only class of industries exempted under the bill.

During the present session of the legislature the governor has signed sixty-four bills and vetoed one—the Katy merger—which was afterwards repealed. Among those signed was the anti-club bill making it a felony to sell liquors outside of certain prescribed limits.

The house bill authorizing counties to issue bonds for hospital purposes was finally passed by the senate.

Col. Sterrett and Jeff Cox, of the Game, Fish and Oyster commission, are working in the senate to defeat the house irrigation bill, saying that it would mean a waterless Texas and without water fish cannot thrive.

The Burgess-Glascock irrigation bill came up before the house Monday morning, as pending business, and was passed with much haste. It is said that this measure has received more careful attention upon the part of the committee that reported it, than any proposition proposed in the legislature in many years.

Conference committees on the woman's property rights bill and the Alamo bill are scheduled to meet during the week. It is freely predicted that a substitute for the former will be reported and adopted, and it is also almost sure that the Alamo bill will die right where it is. Some few senators, however, are of the opinion that some kind of a bill on the subject may be put through.

Ross, of Comanche county, started the house the other day by refusing to remove his hat during the session, because the rule against smoking was not enforced. He says he will continue to wear his "lid" until smoking is eliminated in the halls. He was requested to remove his hat by Sergeant-at-Arms Burke.

The 9:30 closing bill has been revived, and it is probable that some action will be taken on the matter this week. The Weinert-Real bill, which simply provides for 9:30 closing passed the senate and lies undisturbed in the archives of the house committee on liquor traffic. The Kennedy bill, which would revolutionize the liquor traffic code passed the house in amended form. A number of leading "pros" it is said, are in favor of the Kennedy measure. Mr. Kennedy is an "anti."

The Boehmer election bill is receiving a great deal of attention at the hands of the legislators, and the measure will finally pass the house this week and will go up against the senate amendment mill later. It is said that the bill has been greatly misunderstood, and now that the people have become acquainted with the Maverick county man's pet bill that would, it is pointed out, be an aid to the purification of the ballot, it will likely have easy sailing.

The new bills introduced during the early part of the week are as follows:

Mr. Kennedy—Taking mineral prospect lease holds.

Mr. Collins—Prohibiting the sale of beverages containing caffeine to children.

Mr. Warren—Perfecting the present statute prohibiting hunting and fishing on enclosed land.

Messrs Hall and McGill—Penitentiary for miscegenation.

Mr. Ritchie—Jail sentence for trespassing.

KATY CONSOLIDATION BILL.

Hon. N. B. Williams, representing the Sixty-first district of the lower house, and Hon. H. B. Terrell, representing the Eighth district in the senate, piloted the Katy consolidation bill through the legislature over the veto of the Governor.

The contest was as free from partisan politics as it is possible to rid public questions of such influences, and the bill rested squarely on its merits. Petitions poured into the legislature from all over Texas favor-

ing the consolidation and none were received opposing it.

The record of this measure in the legislature proves that the trouble all along has been that those in power have misinterpreted the thought-life of the people. The action of the legislature now clears the atmosphere of all misunderstandings and those of our public servants, who care to respect the will of the people, can have no further excuse for continuing a warfare on the railroad interests of the state.

LEADERS IN "CLEANEST TOWN" MOVEMENT.

The headquarters of the "Cleanest Town" movement which was recently inaugurated in Texas cities, has been swamped with letters from magazines and periodicals from throughout the country, asking for information and details concerning the movement.

Col. Frank P. Holland, editor of Holland's Magazine and Farm and

Ranch, inaugurated the movement, assisted by Dr. M. M. Carrick, who was medical director in charge of the campaign. The prize offered was \$500, which was won by Brownwood.

Following the example of the movement in this state, several northern and eastern states are planning to inaugurate a "clean-up" campaign by offering substantial rewards as inducement to cleanliness.

Ollie P. Ford, the original broncbuster and cow puncher of West Texas, was up from McKenzie's ranch this week and reported everything lovely and the goose honking high.

YEAR BOOK of Stark Bro's Nurseries & Orchards Co. MAILED TO YOU FREE

Just say on a Postal Card: "Send me a copy of Stark Year Book for 1913." When writing, also tell us how many trees, shrubs, vines, etc., you will probably plant this season.

This Year Book is more than a mere catalogue of Stark nursery products, it is a practical, easy to understand text book for the guidance of the man who plants trees. Our own experience of nearly 100 years, the reports of experiment stations and the opinions of planters from all sections are condensed and reproduced for the benefit of busy people. An encyclopedia of orchard information, containing full size color illustrations of gloriously tinted fruits and many photographic reproductions in black and white; also information on many subjects in which the orchardist is interested.

Hundreds of varieties of apples, pears, peach, plum, cherry, apricot, quince, grape and all small fruits are described; weaknesses of each variety are pointed out and good points are explained. We feel that planters should know both.

Those interested in growing fruits or flowers or shrubs or shade trees will find this book of incalculable value; totally different from the average nurseryman's publications. It is a book you will keep for reference, and one on which you can depend as being absolutely accurate. Write today for your copy.

ers and official visitors. His new rule of referring office seekers to the heads of departments is not agreeable to the eager applicants. But congressmen and senators are not included in the rule. He would be a sturdy president indeed who could prevent congressmen telling him of the supposed merits of candidates from their respective districts, or refuse to listen to senators' advice and consent to all his appointments is required by the constitution.

In congress, and out, it is a foregone conclusion that the tariff will be revised downward, and industries must adjust themselves to lower duties. The great fight of the special session will be over selecting the articles to be reduced and the amount of reduction. The demand for currency reform also looms large. Mr. Wilson may find it hard to restrict congress to consideration of the tariff alone.

There is no evidence of the oft-predicted panic following complete democratic control. Conditions are in striking contrast to those at the beginning of Cleveland's second term. The treasury was then depleted of gold, while now its gold reserve is pre-eminent among the treasuries of the world. Should the government need money, for extraordinary emergency, Secretary McAdoo has abundant resources in the Panama Canal bonds which he may offer for sale. But, if intimations received are correct, the banking and currency committee of the new congress is likely to make a report demonstrating the urgency of action, and if it appears that the new tariff will result in loss of revenue, the demand for currency legislation may become too insistent to be ignored at the special session.

Appointments already made by the president have given offense in high quarters. A howl has gone up over what seems a policy of retaining Republicans in office, and those lukewarm Democrats who served, under the Republicans. The re-appointment of Charles P. Neil, who was originally appointed by Taft, aroused the ire of the South Carolina senators, who claim that Mr. Neil made an inaccurate report on southern conditions.

Senator Tillman, familiarly known as "Pitchfork Ben," in graphically describing the ravenous appetite of the office-seeking element, uses this quotation from the Bible, "The wild asses from the desert are athirst and hungry. They have broken into the green corn." He declared that this quotation exactly fits the case, and referred to the trampling down of the corn, but expressed strong faith in the herdsman in the White House.

The furry over the president declining honorary membership in the exclusive Chevy Chase Club is over. It turns out that no snub was intended, but Mr. Wilson prefers to pay his own way and will probably become a regular member in the usual way.

The most beautiful, as well as democratic, set of girls that Washington has known, for at least three administrations, is the one composed of the daughters of cabinet officers who last week assumed a leading position in Washington society. But these young ladies are not exclusively "society" girls as each of them devotes at least a considerable part of her time to art, music, literature or social settlement work. It is said that Miss Mona McAdoo, daughter of the Secretary of the Treasury, is one of the prettiest girls in the new cabinet circle.

WASHINGTON SPECIAL.

As intimated in the last letter the newspapers have had a lot to say about the inauguration of Woodrow Wilson, but they did not say what was palpable to every man in Washington who has lived here for fifteen years as I have, that the following was not 250,000 but 300,000 people, which is 100,000 more than has ever come to an inauguration in the national capital.

It was a soul-inspiring and soul-stirring spectacle and when Wilson was inaugurated, he was inducted into office by the biggest crowd that has ever filled the streets of Washington and not one-tenth of them hope to get offices under the present administration.

Wilson was the choice of the people, and doubly so because he was the right man in the right place. What he has done since as president has convinced the people that he was the right man to elect for the reason that he believes in the people and is going to take their say-so instead of those who usually direct the president.

President Wilson is a Democrat and will deal with the people as a Democrat should. He will not be partial to any section or any man. He has shown this as he has progressed as a president and will continue to show it as he grows older as a president. He is being shown up as the president of the community at large without any regard for politics whatsoever and will continue to show it as long as he is the president of the United States.

He will prove himself to be just what he considers himself, President of the whole people without any regard to politics.

The president has put upon every member of his cabinet the onus of appointment for every proposition that he has to offer the people and we be unto the proposition if one of them neglects to report to the president any proposition for the appointment of any man no matter how small his appointment may be.

President Wilson has agreed to be president of the people and he will scrutinize every presidential proposition that comes under his nose and he has a secretary who will produce everything that is done by his assistants.

President Wilson, contrary to the custom of his predecessors, begins his day's work at nine in the morning. He devotes himself to his desk until eleven, and then begins to receive call-

CITATION.

The State of Texas—To the Sheriff or any Constable of Mitchell County, Greeting:

You are hereby commanded to summon Luke Anderson, alias Billy Anderson, a transient person, by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the Thirty-second Judicial District; to appear at the next regular term of the District Court of Mitchell County, Texas, to be held at the court house thereof, in Colorado, Texas, on the 15th Monday after the first Monday in February, A. D. 1913, the same being the 15th day of May, A. D. 1913, then and there to answer a petition filed in said court on the 11th day of November, A. D. 1913, in a suit numbered on the docket of said court, No. 1379, wherein Clara Anderson is plaintiff, and Luke Anderson, alias Billy Anderson is defendant; the nature of plaintiff's demand being as follows: Suit for divorce, restoration of plaintiff's maiden name, for a reasonable attorney's fee and costs, plaintiff alleging that she is now and has been for more than six months next anterior to the filing of this suit an actual bona fide inhabitant of the State of Texas and an actual resident citizen and inhabitant of the County of Mitchell therein; that she and defendant were lawfully married in Dallas County, Texas, on or about Dec. 16, 1908, and lived together as man and wife until April 12, 1912, when she was forced to leave defendant by reason of his cruelties, excesses and outrages which rendered their further living together as man and wife utterly insupportable, the same consisting of cursing, abusive and threatening language, threats to beat up and kill plaintiff, which kept plaintiff in constant terror for her life and safety, a failure to contribute to plaintiff's support, a state of constant drunkenness, and finally the commission of adultery with one Clara Mixon, plaintiff's niece, who was living with plaintiff and defendant, and with whom when last heard from defendant was living in adultery. That this conduct and these excesses, cruelties and outrages herein specified began shortly after the marriage of plaintiff and defendant and grew in frequency and intensity until the enforced separation; that nearly all of said acts took place in Dallas County, Texas. Plaintiff prays

for citation for the defendant and that on final hearing she do have judgment against him dissolving the bonds of matrimony, for the restoration of her maiden name, Clara Mixon, for her costs, including a reasonable attorney's fee, and for general and special, legal and equitable relief.

Herein fail not, but have you before said court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Witness my hand and official seal at my office in Colorado, Texas, this 17th day of March, A. D. 1913.

The fellow asking alms in the town this week, and who professed to "be paralyzed in both my arms and am unable to work," seemed to be physically able to do anything else he wanted to do—but work. A refusal to contribute readily, he resented with a fine spirit of contempt and pity. The amount of gall and impudence he carries with him would paralyze two elephants and a kangaroo. We don't wonder at his affliction.

Have you secured one of the new "buffalo" nickles yet? It is a handsome coin and fits the hand nicely, being specially designed for spending.

The first issue of the Snyder Free Press comes to us this week. In abbreviation of its intended size, in its salutary, it promises to keep hands off the greater problems of the world, but gives ample ball to butt into every local question that bobs up. John H. Baze will furnish the fortiter in re, while Will H. Midkiff deals out the suaviter in modo. The Record exchanges with pleasure.

Keeping in mind the neat, clean and exceedingly attractive condition in which our court house park was kept at one time—we defy anyone to produce a picture more nearly representing the results of abandonment and neglect than the same court house park reflects today. Can any excuse under heaven be urged in extenuation of such management of public affairs? Is it the price the county has paid for a certain brand of campaign thunder?

Vol. 1—No. 1: of the Sweetwater Record, came to hand this week. It is the product of experienced newspaper men, with W. B. Leeman as editor-manager. It is mechanically neat and attractively compiled, while every editorial and local sentiment is pregnant with the most cheerful optimism. Whether or not there be room and patronage in Sweetwater for two weekly papers remains to be seen—past performances in this line indicate the negative; but there is room a-plenty for a live, aggressive and progressive paper there, and of course the Record will strive to be that ONE. We wish the Record success.

No one industry so delicately and surely indicates the state of confidence or prosperity of a section as the newspaper business. Newspapers are the first to feel the commercial depression and are the forerunners and prophets of returning life. By this token, good times are just around the curve in the road for West Texas. Three brand-spanking new papers have come to this office this week—one from Snyder, one from Sweetwater and the third from Van Horn. This could not have happened one or two years ago. In both Snyder and Sweetwater the effort to establish a second paper had been fruitlessly attempted more than once before. But there is every reason to believe that the year 1913 will be the beginning of another series of abundant crops in West Texas, and the newspapers are always to be found at the head and front of forward movements. There are several more new papers which we have not seen, which have the same reason for their burning. May they all live on the fat of the land.

Talking with many farmers since the rains of last week, there is a spirit of the most helpful optimism to be detected. They are a unit in agreeing that much good has been already done and that the outlook for a good crop this year is brighter than it has been since 1906. They will go to work and pitch the coming crop with confidence that their hopes and labor will not be in vain. Confidence and a spirit of optimism are the most valuable assets of West Texas. In no other country which had been handicapped for four years with evil reports, adverse criticism and protracted droughts, could the farming class recover nearly so quickly and with such hope and strength as they do in this section.

To those who believe in auspicious incidents and accidents, (and who does not?) the falling open of the Bible when President Wilson kissed the book, after taking the oath of office, at 119th Psalm, may have a hopeful significance. The exact spot on which he pressed his lips included the 43-48 verses, which read: "And

take not the word of truth utterly out of my mouth; for I have hoped in thy judgments. So shall I keep thy law continually forever and forever. And I will walk at liberty; for I seek thy precepts. I will speak of thy testimonies also before kings and will not be ashamed. And I will delight myself in thy commandments, which I have loved. My hands also will I lift up to thy commandments, and I will meditate in thy statutes."

As an indication of the widespread interest taken by all sections of the state, and by all classes of people in the work of the T. & P. demonstration train which passed over the road last week, the overland trip of 96 from Davis mountains to Toyah, made by W. H. Taylor, to see the exhibit, is a marker. There were more just as eager as Taylor to hear what the lecturers had to say, and several of them brought samples of the soil of their land for analysis, to ascertain just what elements were lacking to insure its adaptability to fruit and truck raising. The practical result of this itinerary was as great as its educational advantages, and its results will be seen years after the occasion and date of the trip are forgotten, in better and happier farm homes; in greater production per acre, and in the saving and propagation of the fittest in farm seeds and animals.

If all the jingoes who are howling for the United States to rush an army into Mexico every time a stray bullet or two comes across the boundary line, and imputing weakness and cowardice as the cause of the presidential pance—if all these blood thirsty long distance warriors were drafted into a regiment and ordered to do the invading and avenging, when the order to march should be given, they would become as emaculate as fight as sucking doves. They are, as a rule, fellows who never smelt gunpowder only in a firecracker and at the tail end of every kind of procession. It's very cheap and easy to talk war, but people who know anything about it, realize that any kind of war squares with General Sherman's definition—"it's Hell." And further, the loud talking, blood drinking class of "home" warrior, is always the very last one to fight; they had to be run down with dogs frequently, during our civil war and put in front of fixed bayonets before they would stand in line of battle. People who rush out on the line between Mexico and Arizona to witness a scrap between Greasers just over the line may reasonably expect to pay for their morbid curiosity by getting winged, especially by such vile shots as the Greasers are reputed to be. Again, it is quite likely the friction along the border is due as much to swashbuckling Americans as Bravado Mexicans. Its the bad element on both sides.

Both President Wilson and Postmaster General Burleson have served notice on the hungry horde of office seekers that they may as well possess their souls in patience. That it is the fixed policy of the present head of the postoffice department to put that important branch of our government on a strictly business basis. Secretary Burleson gives it out that no appointments will be made until April, and even then, competent and acceptable republican appointees will not be disturbed in order to reward some ward beeler for some alleged service to the party or personal favors to some congressman. Secretary Burleson further says, in regard to revoking the order of Ex-President Taft, placing all fourth class postmasters on the civil service list, that the order was not comprehensive enough; it should have included offices of the third, second, and even first class; that merit and competency should be the test of every appointee. So it appears there will be a vast difference between a "recommendation" for an office and an "appointment" to the same.

Monday was St. Patrick's Day, and was celebrated by the loyal sons of Erin throughout the world under happier auspices than for several hundred years. The home rule bill, which has been the cause of almost a state of civil warfare between Ireland and the English government, will become a law next year automatically, whether accepted by the House of Lords or not. Meanwhile the great regenerative forces that are remaking Ireland continue to work. Most important of these is the Land Purchase act, which threw off the curse of landlordism, which had ground down the country and sent its sons as emigrants to all parts of the world. Up to 1902 no Irish peasant farmer could buy a foot of land. The land was all owned by non-resident landlords, who took annually more than \$150,000,000 in rent out of the country. By this act the crown bought the land of the absentee landlords and resold to farmers on 20 years' time, with very low interest, and today nearly half a million peasant proprietor farmers are enjoying the benefits and blessings of ownership. The crown purposes to buy all the remaining foreign owned land and sell to farmers, so that at the expiration of 20 years, all the land of Ireland will again belong to its original Celtic owners.

Brother Joe Pickle, of the Roscoe Times, has for the past two weeks turned the job of getting up the local and editorial matter for the paper over to some prominent citizen in town, in order to convince them how easy a matter it is to fill even a country weekly with something different each week. Most any ordinary man can fill the paper one time with the off-hand things he knows, but it's the grind of week after week that gets on the nerves. Let them try it for one month during a dull season. Brother Pickle, and you'll never have the same man volunteer twice for the job.

Good Move in Right Direction.

C. W. Post, who owns more than 200,000 acres of fine agricultural land in Garza and contiguous counties, has decided to sell his land to actual settlers unimproved, at an exceptionally reasonable price, and on the most equitable terms. The price will vary according to topography, quality and distance from market. The terms will be as follows: First payment will be \$2 per acre; second payment in two years will be \$1 per acre; third payment in four years, \$1 per acre; fourth in six years, \$1; fifth payment, eight years, half of the balance, and sixth payment in ten years, all the balance. All deferred payments to bear 4 per cent interest. If the large land owners of Mitchell county would only see that it is to their interests to follow the lead of Mr. Post in this matter, the population of our county would very likely be increased twenty-five per cent, and the taxable values, at least a million dollars. With practically one-fourth of the area of the county held by one interest and laying unimproved, supporting less than one hundred people, is it any wonder Mitchell county has not forked to the lead of West Texas counties, in population, farm products and assessed valuations? It is to the help of such interests as Post's and the Swenson's that the farmers of West Texas must look to blaze the way and make easier the work of bringing this section up to that state of productivity, its fertility, climate and ease of cultivation, entitle it.

On one day last week we overheard several farmers discussing the price of farm commodities and the cost of getting these farm products from the farmer's hands into the hands of those who needed them, and who had to pay profits to several "go-betweens" before they reached the ultimate consumer. They discussed the problems involved with as much understanding as the average legislator. Plainly one of them made the remark that the "farmers were the real business men of the world today." Herein lies a fatal error—a mistake that has been the cause of much of the farmers' hardships in the market. The truth is, the general run of farmers are not real business men, although they are the basis of practically all the business of this country. They should be and by education and organization, can be, the real controlling business men of the world. By organization and training, all other lines of business prosper more than the farmer who is really the creator and could be the controller as well, of all he produces. The farmer should be the best business man in the community; but now, he delegates everything connected with the crop he produces to someone else, and this someone else has been trained and organized to look out for himself rather than for the farmer.

Vol. 1—No. 2, of the Culberson County News, is another evidence of returning prosperity to West Texas.

President Wilson has given nepotism a solar plexus blow—no kinfolks need apply.

Mr. T. H. Roe to Leave Colorado.

It is with genuine sorrow The Record and the entire citizenship of Colorado learned this week of the purpose of Mr. T. H. Roe to leave here and go to Lovington, New Mexico, where he has accepted a position as bookkeeper for the business of Mr. Brennan of that place. Among the pioneer settlers of Colorado, Mr. Roe and his most estimable family have been most potent factors in the development of the town, particularly in its moral and intellectual aspects. A happier family it was never the pleasure of this writer to meet than this one; the relations of each member to each other were ideal. The sad death of the wife and mother of this home about three years ago, seemed to be the beginning of a separation that now leaves no two of them at the same place.

As a business man, Mr. Roe is much above the average, being accurate, industrious and pleasant under all circumstances. As a churchman, he is zealous and active in every good word and work. His life in our midst has been an example for the emulation of others. He has been a power and in the forefront of religious work in the community. He will be sadly missed. But The Record takes pleasure in recommending him to the people of Lovington as in every way worthy their fullest confidence and esteem. May the blessings of heaven attend him, and every success crown his labors.

Make Home Attractive

PARENTS, if you would keep your boy at home, make home more attractive; brighten up his room by adding a new rug, a chifforobe, an easy chair, a picture on the wall, a Sealy mattress on the bed, a writing desk, etc. If you will add these little things to the comfort of home, your boy will be there, whereas in the absence of such things you will wonder where he is.

Such things as above mentioned need not be expensive, and still have the desired effect. The next time when down town call in and look through our stock and select something for the home.

District Judge Thos. L. Blanton, of Abilene, issued an order on Wednesday afternoon, temporarily suspending County Judge T. A. Bledsoe from that office. No Entries for Mitchell County.

A notice from the secretary of the Texas Industrial Congress to the Record, deplors the fact that no one in Mitchell county has yet entered the contest for the best agricultural crop yields in the state, this year. This is to be regretted; doubly so, because of the fact that a citizen of this county has very generously supplemented the prizes offered by the industrial congress by special prizes of \$50, \$25 and a round trip to the Dallas fair this fall.

Applications to enter this contest will not be received if mailed after April 1st, so the time limit is running very short. It would be a splendid advertisement for this county if one or more of these prizes should be awarded its farmers. It would stimulate the value of every acre of farm land in the county and attract investors and settlers.

Prizes are offered for cotton, maize, kafir corn, for all kinds of unirrigated and irrigated crops. Contestants are at no expense. The crops they produce are theirs to dispose of as they see fit. There is no trouble, and should be no extra work. Advice and instruction through bulletins are free to all. There are no charges of any kind. So, what excuse is there for every patriotic farmer not entering these contests? It will be no enviable commentary on the progressive spirit of Mitchell county to have its name wanting in the list of contesting counties. Won't some patriotic farmer or farmer's children save the day by entering the contest?

A TONIC LAXATIVE

Per-u-na, an Up-to-Date Family Medicine That Should Be In Every Home

S. B. HARTMAN, M. D.

Good tonic laxative the great majority of cases of sickness would be prevented.

Peruna is a remedy that should be kept in the house. Its virtue as a preventive to disease is the thing I wish chiefly to emphasize.

A slight condition of constipation may lead to serious sluggishness of the bowels, biliousness, re-absorption of poisonous material and finally sickness. Or apathy of the stomach in which the food is not relished, may gradually lead to atonic dyspepsia or to the acquisition of some acute disease. For either one of these conditions a few doses of the tonic laxative Peruna would set matters right. This is why the remedy should always be kept handy by.

When once the value of Peruna as a household remedy is understood no home would be without it. Cathartics, pills and powders would be discarded. Irritating tonics would be no longer taken. Alcoholic drinks would have no place. With a few doses of Peruna a vigorous appetite is produced and if there be any sluggishness of the bowels their function is gradually restored.

Most laxatives are weakening in their effect. A tonic laxative guards against this weakening effect. Until right living has become so thoroughly established that all medicines are superfluous, Peruna will be needed. It is exactly the remedy that meets numerous necessities of the household. Sold at all drug stores.

Mr. John B. Perkins, 22 Whiting St., Plymouth, Mass., writes: "I think Peruna is a number one medicine. I was troubled with catarrh and bowel complaint. I tried several doctors, but could only find temporary relief. I took Peruna and am glad to say that it cured my catarrh and corrected my bowels." PERUNA IS FOR SALE AT ALL DRUG STORES.

SPECIAL NOTICE—Many persons are making inquiries for the old-time Peruna. To such would say, this formula is now put out under the name of KA-TAR-NO, manufactured by KA-TAR-NO Company, Columbus, Ohio. Write them and they will be pleased to send you a free booklet.

Nearly everybody is obliged more or less to take a laxative. There are of course a few exceptions. A great many people also need occasionally to take a tonic. Probably few households exist that do not make use of tonics and laxatives.

The remedy Peruna is a laxative tonic. It not only operates as a gentle laxative, but also as a tonic.

The benefit derived from such a remedy is a great deal more in the prevention of disease than in the cure. After a person has really become sick, either with an acute or chronic ailment, the rule should be to employ a physician, or some one who can give the case his personal attention. But long before this happens the person will complain of this or that symptom, which is not severe enough to interfere with his regular activities. If at this time the disease has really placed a foothold in the system, a person was to take a dose or two of a

Young Mr. Chambless in Trouble.

Many people of Colorado will remember Rev. Chambless, who was for a time pastor of the Methodist church at this place; they will also recall his son, Hall, who was partly raised here. Afterwards locating at the town of West, Texas, the young man secured employment in the cotton mill at that place when it was started some years ago. He attracted the attention of the owners of the mill and was promoted to positions of trust and responsibility fast as he became qualified to fill them. On the resignation of the manager of the mill, which had in the meantime been purchased by the Waxahachie Cotton Mill company young Chambless was elected in his stead.

Several months ago it was generally understood that something had gone wrong in the management of the financial affairs of the mill, and Mr. Chambless resigned as manager, but nothing was done beyond having the books audited by an expert, who found a deficit of about \$9,000, covering a period of more than two years. An indictment was returned last week by a McLennan county grand jury, and Mr. Chambless was located at San Saba and put under arrest. On his arrival at West, he readily furnished bond and was released.

It develops that some time ago Mr. Chambless went to the president and other directors of the mill and told them he had been using money belonging to the company to speculate in cotton solely for the benefit of the mill. He said he thought he saw the most favorable opportunities for increasing the dividends of the mill by buying future cotton. The market had gone against his judgment and the company's money had been lost. Such confidence had the board of directors in him that nothing was done when he promised to make good, eventually what he had lost for the mill, and not until the indictment was returned against him, were any legal steps taken for his prosecution. He has the sympathy of all who know him, as he was held in the highest confidence and esteem. He readily gave bond in the sum of \$5,000, and his case will be tried at the present term of district court of McLennan county.

CALOMEL IS UNSAFE.

Local Druggist Who Sells Dodson's Liver Tonic Guarantees It to Take the Place of Calomel.

If your liver is not working just right, you do not need to take a chance on getting knocked all out by a dose of calomel. Go to Floyd Beall, who sells Dodson's Liver Tonic, and pay 50 cents for a large bottle. You will get a harmless vegetable remedy that will start your liver without violence, and if it does not give complete satisfaction the druggist will refund your money with a smile.

If you buy a bottle of Dodson's Liver Tonic for yourself or your children, you have insured your family relief from attacks of constipation, biliousness, lazy liver and headache. It is as beneficial and safe for children as for adults. A bottle of Dodson's Liver Tonic is something every man or woman should keep in the house. Your money is safe because you can return the bottle if it fails to satisfy.

Surely, amidst the discovery of all kinds of serums, germs, bacilli, anti-toxins, etc., something could be done for the fellow who allows his wife to do all the work and then lies about how hard he has to work and how close he has to trim expenses in order to support his family. For a while the hookworm was the scapegoat for such triflingness, but these deadbeats on their wives are now left without that leg to stand on.

The present legislature will have done more to redress the wrongs done West Texas during the past forty years by legislative neglect than all its predecessors. It has made available the untold hidden mineral wealth that lies in the bosom of the Trans-Pecos country and opened the door for the mineral prospector and mining industries. With equitable mining laws, combined with the wonderful productivity of its soil under irrigation, that portion of Texas will come to the front with a rush.

Voters Would Like to Know.

It is only fair to the voters of the city of Colorado that every citizen who is willing or who aspires to the office of Mayor or to a seat in the city council, should let it be known, either through the paper or by some other public notice. To wait until the very day of election and then have several candidates put on the ticket without their candidacy being generally known, is just the kind of politics that usually engender, erminations of "snap judgment" and "star chamber" methods. It is only a little more than one week before election day, and the people want to know who is going to be in the race; want to know what policies will be pursued from the personnel of the men. It is not wholly fair that men should postpone till the last moment making their willingness to serve known.

The voters should have a chance to compare the candidates and have some idea what they stand for. This is an important period in the life of the city of Colorado and its further development and prosperity may be helped or greatly hindered by the individuals composing our board of mayor and aldermen.

A gentleman, living at Marfa, stopped over at Sweetwater one night last week, and when on the train this side of Sweetwater, found he had left his purse containing \$80 under the pillow at the hotel. He got off the train here and looked up City Marshal Stell, to whom he told his troubles. Mr. Stell got in communication with the sheriff of Nolan county immediately, with the result that the money was found just where it had been left the night before, and was sent to the owner here last Friday morning.

From every section of West Texas come messages of the most hopeful outlook for the present year. Conditions seem to be better than for several years past and the farmers are facing the future with a stronger faith in the result of their labors than for some time. In fact, the conditions the past three years have sifted the wheat from the chaff and tried out even the wheat. Those who have had the courage and means to remain here are in much more advantageous position to profit by a recurrence of such seasons as this section experienced in 1906, than if they had gone away at the first appearance of short crops and returned at the first signs of returning

prosperity. Those who "stay by the stuff" win out ultimately.

Tree planting time will soon be over and unless you get busy pretty soon at putting out those shade trees you have been promising to do you will have to wait until next fall and winter. Nothing in the way of improvements can enhance the beauty and value of your home like pretty shade trees. And in this connection, we throw out this pointer to those who will go to a little trouble and do a little work. There is a steadily increasing demand for shade trees—not the regular nursery stock, but the common growth of locust, sycamore,

hackberry, etc.—just such trees as anyone can easily get along the streams or grow in his yard or on any vacant lot. A supply of such young trees on hand and advertised, would sell like the proverbial "hot cakes."

Ben Morgan keeps all kinds of fruits, candies, the best line of cigars. Also agent for Dallas News.

No one but the coal and wood man enjoyed the recent cold snap. It brought a Broddingnagian smile to his countenance.

Colorado always seems to be recognized when represented in any kind of assembly or convention. At the recent meeting of the head camp, W. O. W., at Dallas, one of our citizens was honored by election to one of the most important and responsible offices in the order. Ernest Keathley was selected one of the board of state managers. He wears his honors with becoming, if bulging modesty, as is his wont. We congratulate him on his preference.

Uriah Jones, Hezekiah Brown and John Peter Smith all say that Hunt's Lightning Oil stops Neuralgia, Rheumatism and other pains. Just try a 50c or 25c bottle from your druggist.

J. S. Johnson, the Sage of Iolanthe, came up in his car last Sunday afternoon and took the train Monday morning for the El Paso convention.

Only those who held sleeper reservations could get tickets on this special train. Special coaches were carried by No. 3 Sunday night for the accommodation of others who wished to go.

The drop in temperature on last Friday night was preceded by a most disagreeable windy day which presaged some radical change in conditions. The snap caught many of the fruit trees in full bloom. If the fruit was not killed by that spell there is little chance of its being hurt by any cold spell hereafter.

Don't fail to see the late style in Bracelets—Majors' Jewelry Store.

W. L. Doss and Ernest Keathley returned safely from the meeting of the W. O. W. grand lodge at Dallas. This is more than can be said of at least one delegate who attended the meeting, from San Angelo. Mr. Green, of that city, was sent with another member of that camp, as regular delegates to the grand lodge. Soon after arriving in Dallas Mr. Green disappeared and could not be located by the most diligent search. His friends were wired for, but we have never heard whether he was simply lost in the immensity of the city of Dallas or fell among Philistines.

You judge a man not by what he promises to do, but by what he has done. This is the only true test. Chamberlain's Cough Remedy judged by this standard has no superior. People everywhere speak of it in the highest terms of praise. For sale by all dealers.

W. H. Moeser, on the south side, is making quite extensive additions to his home and otherwise improving same. Four rooms have been added, making his home more attractive looking and increasing its convenience.

Chamberlain's Cough Remedy has won its great reputation and extensive sale by its remarkable cures of coughs, colds and croup. It can be depended upon. Try it. Sold by all dealers.

Brother Will Doss declares the town of Dallas is certainly growing fast; that every time he goes there he sees somebody else he does not know or remembers meeting before.

The best fed beef at Beal Bros.

Every store in the new Lasker block on Second street is now occupied by various kinds of business. Let us hope this fact will have the effect upon the owners—who are one and the same—of the lots whereon stood the old St. James hotel to rebuild those lots either with another, but more convenient and slightly hotel, or with half a dozen more business houses. All the vacant lots are among the most eligible in town.

Rev. H. C. Compton, pastor of the First Baptist church at Sweetwater, was a Colorado visitor last Friday, and paid the-Record office an appreciated call. In the absence of Rev. W. C. Wright, editor of the Church Bulletin, of that place, Rev. Compton wielded the pen in his stead.

Hesperian Club.
Miss Ina Wulffen most pleasantly entertained the Hesperian Club Friday. The course of study was discussed and it was decided to take in connection with Dobby and Son, Emma Fox Parliamentary Law, Federation Work, and either Pericles' or Henry Fourth. Election of officers was set for the last Friday in March. A plea for books at the Rusk penitentiary was read and it was decided to send a box of books.

Roll call was Tried Household Hints. Mrs. Broaddus had a fine paper on the Influence of Cheerfulness upon Digestion. Mrs. Ratliff talked very interestingly upon False Economy. Mrs. Hazard sang a beautiful song, Goodbye to Summer. This was demonstration day. The demonstrators being Mrs. Johnson, Mrs. Ratliff, Mrs. Jim Allen and Miss Wulffen. This proved most interesting. While Mrs. Allen filled golden lettuce leaves with her delicious pimento salad she told how to make it. Miss Wulffen explained the making of rosettes while she filled them with peas. Mrs. Ratliff buttered the fluffiest hot biscuit for the company as she told the necessity of good bread. She also made cups of instant Postum, while she told of its superiority over coffee. The plates thus filled were passed to the audience who were waiting anxiously for them, and everything proved to be just as it looked. While these good things were being enjoyed, Mrs. Johnson brought in her home made freezer, from which she served the loveliest apricot ice possible, explaining as she served, the way to make the freezer, then the way to make the ice. This, with wafers, finished the demonstration, which the club decided was more satisfactory than that of the A. and M. train, as the food was not only viewed, but eaten. The visitors for the afternoon were Mrs. Crump, Mrs. McSpadden and Miss Dera Wulffen. Mrs. Sam Majors is hostess this week.

On the El Paso Junket.
The personnel of the Colorado contingent who attended the Cattlemen's convention at El Paso this week—was: Messrs. Chas. Wars, Dan McCunniffham, D. H. Snyder, Pete Scoggin, William Ellwood and John Gage. They all had reservations in the first special which arrived here at 7:42. It is useless to await the return of this crowd to ascertain if they had a good time. Its constituent individual elements guarantee that nothing to be enjoyed by full grown men will be overlooked.

If you have only a quarter of an acre of ground sufficient water to irrigate it, you have the opportunity and means of greatly reducing the expenses of your table this spring, summer and fall. This amount of land will suffice to furnish some kind of vegetable for more than eight months during the year. If an acre of land be available, there can be enough made for home consumption and as much more to spare (sell).

Calomel Is Bad.
But Simmons' Liver Purifier is delightfully pleasant and its action is thorough. Constipation yields; biliousness goes. A trial convinces. (In Yellow Tin Boxes Only.) Tried once used always.

King's Daughters' Meeting.
The organized Sunday school class, the King's Daughters, held their monthly meeting Thursday with Mrs. Annis. A good attendance was present and a splendid meeting held. A report from the State department was filled out and returned for the Waco convention. A talk was made upon prayer and several joined the prayer circle. A prayer meeting will be held this Thursday with Mrs. McGill. Dues were paid and some bills ordered paid. At the close of the meeting Mrs. Annis gave a pretty little reading. She then served a very delicious salad course. The meeting next month is with Mrs. Williams.

Lost—One small, sorrel horse mule about 10 days ago. Reward for recovery or information leading thereto. L. C. DUPREE, Colorado, Texas.

The siren whistle at the light plant, as well as the fire bell and a few pistol shots thrown in for their peculiar awakening effect, announced the existence of a fire about 12:25 last Saturday night. The report gained currency that the fire was at the post-office, but it fortunately proved a mistake, being wholly a false alarm.

There is much discussion pro and con, as to whether the fruit was killed by the freeze last week. That some of it was killed we think there can be little doubt, as the buds and blooms show plainly the effects of the frost; but the greater part of the crop was yet to bloom, say those up on such matters, and unless we have another such spell we should have sufficient fruit of good quality to supply West Texas.

Everything and anything to eat can be had at Hall's grocery.

Easter comes just a trifle too early this year to be worried because one has no new suit in which to celebrate the day. A new overcoat would be more pointedly to the season. This will be our own excuse for lack of a new spring suit.

Onion Sets, all kinds, at Hall's Grocery. Phone 100.

The piano contest is over, the winner is happy; the losing side has not the least feeling other than kindness for the friends of the successful contestant. But who will put on the next one?

Ask to see the embossed stationery at Majors'.

After such a raw, cold and windy day as last Saturday was, Sunday was doubly appreciated. A more perfect and pleasant day could hardly be imagined. Everyone who owned an automobile, a vehicle of any class, were out on wheels, while those whose only means of locomotion is old "Shank's mare," were also out in the afternoon for an airing.

LAUNDRY WISDOM

Save your health and strength by giving us your laundry work.

Counting what fuel, dinners and supplies cost that the negro and Mexican wash women use, and the amount of money you give them, it will cost you less to let us do the work. Relieves you of all trouble.

Did you ever have a clothes line break with the family wash on it? You know how you felt. Avoid this by sending to us.

Our work is better than ever; cheaper, more satisfactory and less trouble than fooling with negroes and Mexicans.

It is dangerous trying to do the family washing at home these windy days. Let us take the risk, we are prepared for it.

Just phone us to call for your laundry, we do the rest and do it right, or no charges.

Piano Contest Closed.

At nine o'clock Saturday night last, the contest for the \$400 piano, which has been running the past several months, closed, and the count was begun that morning. Owing to the large basis which was 5,000 for each dollar's purchase, the numbers were necessarily large and required some time to cast up. Beginning with several active contestants, the number grew less as the contest progressed, until on the last count published there were only four entries. The Eastern Star lodge easily led in the count until just before the last count was announced, when about 3,000,000 votes were given to the little girl, Sibbie McKinney, which with the nearly 2,000,000 she had received at last published count, gave her the piano. The official announcement of the result of the contest appears in the regular advertisement of C. M. Adams in this issue of the Record.
