### "UNCLE SAM'S BOYS" FROM MITCHELL COUNTY

The Record believes that it has a patriotic duty to perform in publishing a complete list of the names of the boys from Mitchell county, who have joined the colors, some of whom are now perhaps in France. The boys here have responded nobly to the call of Uncle Sam and have gone forth to battle for democracy and the flag they love and honor. Some have joined the navy, some the marine corps, some the army, some the aviation corps, and in fact every branch of the service.

What we want to publish is a complete record of all who have joined the colors, what department of the service they belong to, and if possible their address. If they have been promoted we want to know it, and if they are wounded in battle we want as full information as possible. We publish 132 names, below, and if there is anyone who has gone from this county, whose name we do not have on this list, we would be glad if their relatives or friends would report the same to us, so that we may have it complete.

We kindly ask that every relative of boys who have gone to the army, in any capacity, whose names do not appear below, to send them to the Record, with full particulars.

### WEST TEXAS REMINISCENCES (By An Old Timer)

#### CHAPTER III

After being out some little time we found that scouting for Indians was a better passtime than handling white outlaws. Out of six companies stationed from the Rio Grande to Big Washata, we had the most favored station. There were fewer Indians, fewer outlaws and more game.

Our first scout was northwest from headquarters in the latter part of July. We had traveled only about fifteen miles when we struck a trail. We were all inexperienced, as none of the older officers were along. We followed the trail north to Clear Fork where it turned more to the west, up the river, keeping to the South of the river, until we came to a lonely ranchman who informed us that the trail we were on was an old one, having been made two or three weeks before. The grass was long and dry and why the old trail showed so plainly. We arrived here at noon and decided to stay until morning, as the ranchman agreed that if we would stay he wanted to show us some Indian signs. After dinner he led us back down the north side of the river a few miles where stood a lonely cabin with one lone grave in the corner of the yard, where rested the remains of a lonely bachelor, who had pushed out to the front to make a stake before the country settled. Some of the lookouts of the Indian band we were following had shot him dead in his own yard and left him. We were sadly commenting on his untimely end, when the ranchman informed us that he could show us evidences of a sadder affair just around a bend, to a vacant log cabin on the bank of the river, where there were three graves, one adult and two small children, who were murdered by Indians about a year before.

The murder occurred on a Sunday morning. The family consisted of the father, mother and five children. The two oldest were grown young ladies. The oldest girl was looking for her sweetheart that day and the parents took advantage of his coming to pay a visit to a neighbor six or eight miles away, and left the two young ladies and a small boy and girl 8 and 10 years of age, at home, thinking they would be safe with the young man who was to be with them. Soon after he arrived ten Indians appeared near the house. The sight of Indians seemed to completely unnerve the young fellow (the cowardly cur that he was) and he insisted that their only hope was to run. The two older girls plead with him to stay with them, as they had several guns and plenty of ammunition and could whip them. But he was not willing to take the risk, so jumped out at the door and fun for the river, which was about 80 yards away. This, of course demoralized the girls and they followed him. But just before they reached the bank which was very high and steep, the Indians caught the two smaller children, who were a few feet behind the two young ladies. The eldest girl seeing that they had her little sister and brother went back to them and while these three were being butchered, the young man who had deserted his sweetheart, with the other young lady made their escape.

When asked why they didn't hang the young man, the ranchman's reply was that "he left the country too quick."

### SCHOOL REPORT.

To the Honorable Board of Trustees of the Colorado Public Schools.

Gentlemen:—Your attention is hereby directed to the following report of the Colorado Public Schools for the scholastic month ending November 2.

Number of scholastics enrolled to date: boys 205; girls 212; total 417.  
Average daily attendance this month: boys 189.1; girls 184.1; total, 373.2.

Number cases of tardiness this month: boys 83; girls 85; total 168.

Number of visitors this month: male 4; female 5; total 10.

Negroes enrolled to date: boys 16; girls 11; total 27.

Total enrollment all schools: boys 221; girls 223; total 444.

It seems to the writer that the class of work done by the students during the month just closed is an improvement over that of the first month. This was, of course, to be expected just as we shall expect better work the third month than that of the second. However, a greater number of pupils are failing to make their grades in one or more subjects than seems to be necessary. We hope to see fewer failures at the close of the third month.

You will notice that the number of tardies has increased seventy over the number of last month. Last month we had ninety-eight tardies, and this month one hundred and sixty-eight, and that notwithstanding that the school was taught only fifteen days during the month just closed. The attention of all patrons was called to the unusual and unnecessary number of tardies last month, but the results hoped for failed to materialize. There is only one way to be able to eliminate this pernicious habit on the part of pupils, and that is to have the co-operation of parents in this matter. If the school can not get that, it will perhaps grow to still greater proportions.

A new stove has been placed in the laboratory room where, there was none before, also, a new stove has been placed in each of four other rooms.

The fourth grade pupils with the help of their teacher, Miss Mary Morgan, have purchased a sectional bookcase for their room and have started a library. They have about fifty volumes already. We have received about two hundred volumes to be placed in the fifth, sixth and seventh grade rooms just as soon as their bookcases come. These cases have been ordered, three sectional cases each to cost \$20. The pupils of these grades together with the help of their teachers, Misses Nash, Lucille Russel and Terry, raised the money to pay for the cases.

The discipline in each department seems splendid, and the spirit of the student body could hardly be better.

Very respectfully,  
E. FRANK KING.

### OPENING OF DORN SCHOOL.

Monday morning of this week Judge Bullock, County School Supt., in company with several others, went out to the opening of the Dorn School. This is the consolidation of Plainview and Union Schools, with Miss Alma Phillips as principal and Miss Ula Campbell assistant teacher. The school opened with 46 pupils enrolled as against about 100 last year. The trustees, G. D. Bynum, J. W. Dorn and W. J. Chesney, were present. Talks were made by Judge Bullock, W. J. Chesney and Miss Phillips she making a fine talk on co-operation. The school opened up very favorably considering the condition of the country. The community is proud of their new school building which has just been completed.

In the afternoon Judge Bullock, in company with Mr. Keathley, visited the Buford school. Here Miss Stella Welch is principal with Miss Fannie Redman and Miss Winnie Crockett at assistant teachers. This school opened up with an enrollment of about 60 pupils. Judge Bullock and Mr. Keathley made splendid talks before the school, which started off with every indication of a successful year.

Nearly all the rural schools in the county, opened up on Monday.

Matinee at the opera house every Saturday at 3:30, always good show.

### AN EXPLANATION.

Some time ago Mr. Dulin, County Agent, received word from the Department at Washington that a government mule buyer would visit Colorado and would buy mules and horses direct from the farmers and stock raisers. This fact was advertised in the Record and Mr. Dulin got busy among the farmers and listed several car loads of mules. In September he received a wire which was published in the Record that the agent would be here on the 26th. This week Mr. Dulin received the following telegram, which explains itself.

"Ballinger, Tex., Nov. 6—County Agent, Colorado.—Open market purchasing from farmers discontinued. Will not visit your town.—KOCH, Captain."

The above is published to show that Mr. Dulin acted in good faith all the way through, and is in no way to blame—nor was it any fault of his that the government buyer failed to come.

### IATAN ITEMS.

The health of our community is good, and the same old story of dry weather still holds on.

Mrs. Ralph of Fort. Worth, has been with her husband here at the depot for a few days, returning to Fort Worth the first of the week, where she is schooling their children.

Mr. Earl Morrison and Mr. Emmit Pickard shipped some cattle from Iatan last Sunday. Mr. Tom Morrison also shipped one car Tuesday.

Mr. C. C. Witt and his son Ed, came down last Sunday evening and carried a load of things, also some stock, which they had not moved. Mr. Witt has moved near Big Spring.

Mr. and Mrs. O. R. McClellan report that they like living at the Iatan oil well fine.

The weather is very warm this week, but the writer predicts a cold wave before long. But he is not predicting rain.—Old Timer.

### W. R. SMITH TO CONDUCT COURT AT FORT WORTH

Federal Judge W. R. Smith of the Western District conducted the Federal court which convened in Fort Worth No. 5. Judge West, who it was formerly announced would hold the court there, conducted the court at Waco which convened on the same date.

### FEED MUST BE CASH.

I am selling feed on so close a margin that I must have the cash. I cannot charge feed to any one.—Don't ask it. I must sell for cash.—A. M. Bell, Westbrook, Texas.

### LEG BROKEN.

Mr. and Mrs. Frank M. Wright, who live up at Cedar Bend in this county, were down about Albany picking cotton, when their little boy fell from a wagon and the wheel passed over the child's thigh, crushing it. The hurt was temporarily dressed and on Monday Mr. Wright came to Colorado with the child. Dr. Coleman moved it to the sanitarium, dressed the broken limb, and the child is now resting very well. Mr. and Mrs. Wright have the sympathy of a number of friends in Colorado.

### GET YOUR AUTO NUMBER.

A. J. Herrington has received the State Auto Numbers for Colorado cars. The numbers he has run from 103876 to 104000. If your number is in this lot call at Herrington's and get it. Mr. Herrington handles and distributes these numbers free of charge, and as he has a large stock of Tires and Automobile parts, he asks for a share of your patronage. Mr. Herrington handles gas and oils, and the largest stock of tires in West Texas. He also has the State Highway Log Book for free distribution. Call and get one.

C. B. McCaleb sold enough alfalfa from his farm near Olustee, Okla., to cover the cost of the land. Two cuttings of hay brought \$18 per ton.

### NEGRO SOLDIERS.

Last week the local board sent off Mitchell county's quota of negro soldiers—two in number—Raymond Doirn and Robert Bables. These boys seemed anxious to go and will no doubt make good soldiers. It is noted that so far no Southern negro soldiers have caused trouble at any of the training camps. The Southern darkey knows his place and stays in it; he tends to his business and does not pull off any "social equality" stunts. He will make a much better fighter on the front in France than his Northern brother. The average Southern negro is worth a cow-panful of the Northern "colored gentlemen."

### SAYS FRENCH REMIND HIM OF SOUTHERN FOLKS

Mr. and Mrs. C. A. O'Keefe, of Fort Worth (former citizens of Colorado) have received a letter from their son, Joe T. O'Keefe, first lieutenant, United States Reserves, who is in the field artillery school of instruction for the American expeditionary forces in France.

"We are quartered in fine style," writes Lieut. O'Keefe, "so much better than we expected, and our French friends are just like many real Southerners. Since I have started this letter, a French officer has volunteered to give me private lessons in French. They are very patient with us and are very thorough in everything they do. Phone Judge and Mrs. R. H. Buck and tell them their son, Lieut. Raymond Buck, was well and happy when I left him last Sunday. My work is the most interesting I have ever done. Our instructors speak English so well you would think they were Yanks as they call us."

### ONE DOSE RELIEVES A COLD—NO QUININE.

"Compound" Ends Bad Colds or Grippe in a Few Hours

Relief comes instantly. A dose taken every two hours until three doses are taken will end grippiness and break up a severe cold either in the head, chest, body or limbs.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed up! Quit blowing and snuffling! Ease your throbbing head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Be sure you get the genuine. Adv.

### FERGUSON TO EDIT PAPER.

Temple, Oct. 28.—Former Governor James E. Ferguson announced tonight that beginning at once he would edit a weekly farm journal to be published in Temple and to be known as the "Ferguson Forum." In announcing the policy of the publication he issued this formal statement: "The general purpose of the paper will be to pursue an affirmative policy accomplishing something for the state; to build up and not tear down, to support and not fight, to help and not oppose unless it be those seeking special privileges." Mr. Ferguson states the "Forum" is not to be a political organ.

### FARMERS BREEDING WILT-RESISTANT COTTON.

As part of its work in combating the destructive cotton wilt, the U. S. Department of Agriculture is supervising the production for sale of wilt-resistant cotton seed by about 50 farmers in South Carolina, Georgia, and Alabama. These cooperative breeders agree to secure proper seed, to follow the breeding methods outlined by the field pathologist, to exercise necessary care to maintain the purity of their seed, and to offer it for sale at a reasonable price, not to exceed an amount previously agreed upon. They also agree not to sell seed not grown by them unless so stated.

A field pathologist, as a representative of the state and of the Department of Agriculture, provides these cooperative breeders with small quantities of select planting seed in the beginning or refers them to other breeders from whom they can purchase such seed at a reasonable price. He visits the breeders several times during the season to advise with them regarding the work and to show them all the details, from the planting through the selection, note making, and ginning. He will also soon take up the work of inspecting the seed fields and will give the breeders seed certificates.

Breeders who carry out in all details the methods of breeding advocated by the Department will be given certificates for "registered seed." All other seed where the standard of purity in wilt-resistance, productiveness and purity is being attained, but where the plant-to-row method is not being followed in all its details, will be certified as "improved seed."

### CALOMEL SALIVATES AND MAKES YOU SICK

Acts Like Dynamite on a Sluggish Liver and You Lose a Days Work

There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and cannot salivate.

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

### WE ARE PROUD

that the Southwest can boast of a firm like this. The Texas Farm and Ranch Publishing Company, of Dallas, Texas, publishers of Holland's Magazine and Farm and Ranch, are spending \$40,000.00 in forty days for the purpose of telling every reading person in Texas, Oklahoma, Arkansas, Louisiana and New Mexico, of these two first class publications.

This is the largest campaign of the kind ever put on in this territory during the same length of time, and consists of a series of advertisements in 131 daily newspapers and nearly 500 weekly newspapers and letters and large posters to all merchants in the above named states.

Holland's is the only Southern magazine that has ever been able to live past the experimental stage, while Farm and Ranch has justly taken its place as "first assistant to Southwestern farmers and their families."

Their enormous list of subscribers has been built up strictly on the merits of the respective publications and the unqualified guarantee of "your money back if you are not satisfied."

**Jimmie Collins Tells What He Saw—  
What Military Training Does  
for Boys.**

"Well, here we are!" exclaimed Billie, presenting his chum, Jimmie Collins.

"Very glad to see you, Mr. Collins," said Uncle Dan with a smile.

"Aw," said Billie, "Just call him Jimmie. That's the only name he knows. He's the pitcher of our baseball nine, and he's some pitcher, too. Just feel of his arm."

"Well," said Uncle Dan, feeling "That's a mighty good arm."

"Now, boys," said Uncle Dan, "what do you want to talk about?"

"Well," said Jimmie, "I was down to Galesburg a few months ago when the boys came home from the Mexican border. They looked fine. Everybody was surprised to see how straight they stood and how manly they were. The boys seemed proud to wear the uniform. I tell you their muscles were as hard as nails. I heard Banker Haskett say that the training and discipline the boys had had was exactly what every boy in the country ought to have, and that now these boys could get a better job at higher pay than they could have had before. Do you think that's so, Uncle Dan?"

Uncle Dan replied: "I have a friend who employs hundreds of young men. He always gives boys having had military training the preference; he says it pays to do so. He finds they are more alert, more prompt, more courteous; they know how to carry out orders; they are quicker to think and to act than those without training. He said from his experience he believed that six or eight months of intensive military training would add at least 20 per cent to a man's

**FROM CAMP TRAVIS.**

Camp Travis, Nov. 4.—I promised a few of my friends that I would write a letter to the Record when I left Colorado, October 8th. So I have decided tonight to make my promise good.

I did not want to come here and still do not want to stay, but I can't have my way about it. Whatever Uncle Sam says for me to do, that I do. I'm better satisfied now than at first. I've learned a little and have gotten onto the run of things, so I know what to expect.

Camp Travis covers about a section of land. They are still building barracks, guard houses, truck and mule sheds, Y. M. C. A. buildings, grading streets and graveling them. It is the busiest place I know of unless it is San Antonio when the boys are paid off. Last night I guess there were something near 25,000 boys in San Antonio. 90 per cent were allowed to leave Camp Travis if they wanted to, and I think they all wanted to go. It is estimated that there are about 35,000 boys in Camp Travis now, but it can take care of 46,000 when it is completed.

When we first got here there were three companies eating in one barrack. But they are cooking and eating in their own barracks now, and it is much more satisfactory and more like home. All the eats are set on the table now, but before we had to line up and get our mess kits filled as our turn came. We also had to wash our own mess kits, but now the kitchen police do the dish washing. Two boys are put on kitchen duty every day, taking it time about, unless we do something that we ought not to do, then we might be put on for three or four days in succession. But I've been lucky enough not to be put on but one time yet.

Greatest of all punishments are, when we are barred from permits to go to San Antonio for two or three weeks. That would be more punishment to me than anything, as my wife stays in San Antonio. I get to go see her two or three times a week and stay all night.

I have done nothing but drill so far. Have had a few lessons in semaphore signals. Went on a short hike of seven or eight miles yesterday morning. Had a sample of pa-

**troling, scouting and using the signals.**

Our trucks haven't come yet. Have been looking for them for some time. Some of the boys might leave in a few days for 90 days special training in the northern states, before they will be sent to France (that is the boys in the Motor Supply Company).

Those lunches the good women of Colorado fixed for us boys sure was appreciated by every one. We had cakes and pies, fruit and a little of everything when we arrived at Camp Travis.

San Antonio has lots of interesting places. I've been through the Alamo and went out to the Breckenridge Park this evening.

I would like to hear from the Mitchell county people more often, so please send the Record to me at Camp Travis.—Motor Co. 2, 315th Supply Train.

**THE LAND QUESTION**

Senator Foraker of Ohio was credited at one time with saying that he thought there was at least one more Republican victory in the waning of the bloody shirt—that is, in denouncing the Southern brigadiers who were in Washington either running or seeking to run the government.

We don't know if there is another victory for "pro" here and "anti" there in the prohibition question as it stretches from the Red to the Rio Grande; possibly this question will be entirely subsidiary, and if so what?

One candidate for governor has put the graduated land tax in his platform, and it is known that Cullen Thomas has had the land question in mind for several years, but what answer, if any, he is prepared to give is not known.

The farm tenants of Texas gave Mr. Ferguson the tremendous advantage that brought him to the governor's office, and all that he offered them was a law against charging more than a certain pro rata of the farm proceeds.

The farm tenants constitute a great force in the political arena of Texas, and they will support any good man who offers a reasonable measure for a wider distribution of the land.

There are three measures which have ardent champions; one, the graduated tax; another, the single tax, and yet another, a limit to the number of acres a person may own.

One were stupid indeed not to discern the signs of the times, which point unmistakably to land distribution as the paramount issue, not only in this country, but in the countries of Europe, particularly England, in Italy, in Austria and in Russia.

The part of wisdom is to seek the true solution and be prepared to take intelligent part in all public discussions.—Waco Times Herald.

Surely try a "Danderine Hair Cleanse" if you wish to immediately double the beauty of your hair. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time; this will cleanse the hair of dust, dirt or any excessive oil—in a few minutes you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance.

Besides beautifying the hair, one application of Danderine dissolves every particle of dandruff; invigorates the scalp, stopping itching and falling hair. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

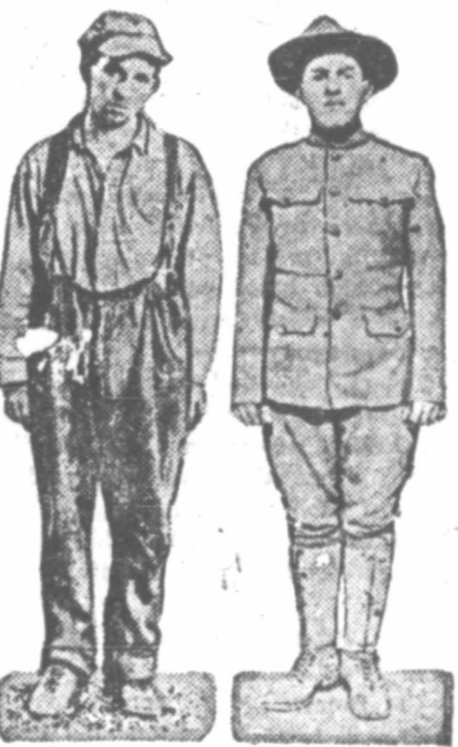

You can surely have pretty, soft, lustrous hair, and lots of it, if you will spend a few cents for a bottle of Knowlton's Danderine from any drug store or toilet counter and try it as directed. Adv.

**AFTER FIVE MONTHS.**

The two pictures are of the same young man. The first was taken the day he enlisted and the second after he had had five months' military training. His home is in North Carolina.

earning capacity, and that it was the best investment any young man could make.

"Billie, if you will go up to my room and bring my small handbag, I will let you see two photographs of the same young man, showing what only five months of intensive training on the Mexican border did for him."

The bag was brought. Uncle Dan, showing the pictures, said: "Well, here they are. They tell their own story and it is a mighty interesting one. The young man, before training, has a discouraged look; he has been but little of the world. There was very little in his surroundings to bring him out. When he joined the colors and Uncle Sam took him in charge, life for him took on a new meaning. He saw a chance to do something and he did it. He woke up. His captain says he is twice the man he was when he joined the army. This may be one of the extreme cases," said Uncle Dan. "I can tell you, though, that war or no war, no one thing will do the young men of this nation so much good in so short a time as a few months of intensive military training. It fits a man to fight his own life battles in the business world as well as to defend his country and its flag."

"Nearly every civilized country gives its boys military training. It is compulsory. It is based upon the fact that it is the duty of everyone to help defend his country; and as war is now carried on, no one can do much unless he is trained. Also, the records show that the killed and wounded among untrained troops is nearly three times as great as it is with well-trained men who know how to fight and how to protect themselves. By this plan a nation has trained men to defend her and the individual is a stronger and better man for the training."

"If the Chamberlain's Bill for Military Training is passed by congress, as it ought to be, the same thing would be done for millions of other young men throughout the land. Everybody ought to demand of his congressman and senators the passage of this bill."

"All right, sir, exclaimed Jimmie, we will see Judge Brown, Mr. Haskett, and Professor Stocum, and get them busy."

**THIS WOMAN HAD  
TO BE LIFTED FROM  
TRAIN TO CARRIAGE.**

"I Never Saw or Heard of Anything to Equal Tanlac," Says Son—Gains 15 Pounds and Can Now Walk Two Miles Without Tiring.

"When my mother, who is sixty-four years old, came to my home thirty days ago, she was so weak I had to carry her in my arms from the train to the carriage, but she can now walk two miles without getting tired and this Tanlac has been worth all of one hundred dollars a bottle to her," was the remarkable statement made by A. L. McFather, a well known farmer living on R. F. D., No. 4, Mount Calm, Texas, while in the Old Corner Drug Store at Waco, a few days ago.

"For more than fourteen years," he continued, "Mother suffered from stomach trouble, and during all that time she had to live on the very lightest things she could get. She couldn't even drink sweet milk or eat meat of any kind, and the flimsy things she did eat often caused her terrible suffering. She was badly constipated and was all the time taking something for that trouble. She was tired all the time, the least exercise would wear her completely out, and all during the day she had to lay down and rest. She suffered agony with pains in her sides and was so nervous and miserable she could hardly sleep at all. She took all kinds of medicines for years but she kept losing weight and getting worse all the time."

"I was alarmed about her when I met her at the train and found her so feeble. I had read and heard so much about Tanlac I decided for her to try it and the day she took her first dose she weighed only ninety-six pounds and was almost as weak as a kitten. Well, Tanlac has simply made a new woman of her. She now weighs one hundred and eleven pounds and has actually gained fifteen pounds in the last thirty days. Some folks may doubt it, but it's the plain truth, she can walk two miles without getting tired. I have never seen or heard of anything to equal Tanlac. Mother can eat anything she wants now and as much as she pleases without the least trouble afterwards and she sleeps as sound as a healthy baby every night. She is not the least bit constipated now and her nerves are as calm as a lamb. The pains have entirely left her sides and her strength and vitality is remarkable. Tanlac has restored her health in every way and I want everybody to know what it is that has relieved her of all those years of suffering and made a well woman of her."

Dane County, Wis., the birthplace of Senator La Follette, subscribed for double its quota of Liberty bonds. Obviously a trick of corrupt capital to discredit a pacifist patriot.

It must be awful to live in Dallas when the thermometer registers below thirty degrees.—Waco Times Herald. Just wait until Dec. 1, Bro. Robinson, and you will find out just how awful it is.

Congress will be asked, immediately on reconvening, to include men from 18 to 40 in the draft. Amendments to the present law are already in preparation. The amendments will be introduced by Representative Julius Kahn, republican, of California ranking member of the house military committee. Speakers soon will start a campaign, it is hinted, to bring these facts home to the people.

Long ago The Record held that the buyer of liquor in dry territory should be punished; that he should share the same punishment meted out to the seller of liquor. Now the Dallas News would hold the buyer equally guilty with the seller, and why not? "The law would command more intellectual and moral respect and therefore be more susceptible of enforcement," declares the News, "if the illicit purchase of liquor were counted a crime equally with the sale of it." And why not?—Ft. Worth Record.

When we entered the war there were 64,680 men in the American Navy. Today the force, including the Marine Corps, is in excess of 250,000. In time of peace our naval appropriations hardly exceeded \$140,000,000 a year. For 1917 we are to spend more than \$2,000,000,000 on the navy. American vessels of war now in commission are three times as numerous as they were a year ago, and ships of every variety by the hundred are already under construction in yards whose capacity has been enormously extended. Besides this great increase in personnel and building, we have established at lavish cost an armor-plate mill, factories for the manufacture of projectiles and naval aircraft, and a dozen great training stations, to say nothing of new dry docks, foundries, machine shops and gun making plants.

Several of the papers of West Texas are discussing cutting the state in two. It might be advisable to do such an act, but it occurs to us that whenever West Texas gets strong enough to divide it will be strong enough to get what she wants anyway. Revolution might divide it, but at present we think that any agitation along this line a mere waste of energy. It is true that West Texas has room for complaint, but we hardly think the division route will remedy the matter.—Merkel Mail.

So long as West Texas is attached to East Texas for political purposes just so long will we fail to get what we want and need. When it is plainly seen that a bunch of little 2x4 politicians, seeking future advancement, can kill a West Texas appropriation of \$500,000 and yet spend nearly a like amount for a negro school in East Texas, it is time the state was divided, or something else was done, that West Texas may get a fair deal.

All sailors and soldiers who perished when the American transport Antilles was torpedoed came within the scope of the new insurance law, and each victim carried insurance to the amount of \$6,000. The sum will be paid the families in monthly installments of \$25 each over a period of twenty years.

Washington City is now "dry," the prohibition law becoming effective on the first of November. A dozen years ago there were two palatial saloons in the basement of the capitol, and drinks were actually served to members while making speeches in the halls of congress. The saloons, at the behest of public sentiment, were forced out of the capitol, and then Senator Sheppard, the brilliant senator from Texas, begun his fight for a dry District of Columbia, and finally put his bill through. John Barleycorn is now a down-and-out.

Retail dealers in foodstuffs are no longer permitted to sell goods at excessive profits. The government made an order Nov. 1st, whereby any retailer who attempts to do so will have his supply of goods cut off by the wholesaler.

ANOTHER WISE MAN SPEAKS.

The Roscoe Times calls attention to the fact that an insane asylum is to be located somewhere in West Texas and calls Abilene's attention to this splendid opportunity. None of the West Texas towns appear to be in need of a nut asylum, however it might match up with Abilene's institution of similar character, and be a convenience as well as a comfort to those of that town in the loss of the A. & M. College. We favor giving Abilene this institution, and the verdict should be unanimous.—Lockney Beacon.

The above is about what was to be expected from a man who did everything in his power to kill an institution for which the West had been fighting for ages because his particular pet location failed to land it. Seems to us the institution referred to would be closer to its patrons if located in some of these burghs which are so anxious for Abilene to have it. However, if they feel it would be too suggestive Abilene will take it as a patriotic act, and do its best to make it a success as a place for the treatment of mental aberration, even though it be filled with those people who have been most severe in their criticism of us.—Taylor County Times

The press of West Texas is keeping the Taylor County Times busy these days "splaining" things. But the Times has it down wrong if it thinks the West Texas papers wanted the A & M. bill killed dead than Heck (and he was mighty dead). What they wanted was for the fool East Texas legislature to postpone the building of the A. & M. college, as well as several of the Texas appropriations, on account of the enormous amount of appropriations, and the consequent increase of the tax rate; and especially on account of the drought, which has affected the greater part of the state this year. We do not believe the Times can point out a single paper that wanted the bill killed. Nor can it point out any papers that objected to the College being located at Abilene (except the towns that were trying to get the location). But what they did object to was the apparent unfairness of the location. As for the insane asylum, it is evidently offered as a sop, and as for the Record, they can put that over in East Texas, with all their other institutions. In case the Record people should have to go there, some of our county officers could get paid for taking us.

VOTE ON PROHIBITION EXPECTED IN DECEMBER

There is every expectation that the constitutional amendment for prohibition will be reported to the House of Representatives, adopted and passed before the Christmas recess. It is believed that the resolution has the votes needed to win. If, however, there is a man in Congress who

will accept a bribe, a thing which the prohibitionists do not believe, he will undoubtedly be offered an enormous sum of money by the liquor interests. The United States Brewer's Association, the German-American Alliance and similar wet organizations are known to have used many hundreds of thousands of dollars in mysterious ways, and it is fully expected that they will try Bernstorffian methods in December. The dries, however, express complete confidence in the integrity of the House membership.

If this war goes on what kind of a predicament will the political parties find themselves in at the next election? It is believed by most people that the constitution of the United States forbids a third term for a president of this Republic, but it does not. Since Washington refused a third term, it has merely become a precedent. But if the war goes on this precedent will be broken. The patriotic Republicans and Democrats will join hands and support Wilson while the La Follette-Tom Watson element will put out a ticket. Then we will see just how the American people stand on the war.—Chicago Review.

While the Record, ordinarily, would be opposed to giving the third term to any man, in this instance we are certainly for Wilson for the third term, in case the war goes on that long, and no doubt it will. We think it would only be just and fair. Mr. Wilson did all he could to keep out of the fight, but when he had to go in he went in to win, and we are very much in favor of letting him finish it up, believing that he will make a better job of it than any other man that could be put in his place. He has figured out, as nearly as any human man could, just what it will take to win this war, he has it mapped out in his mind, and all arrangements just now getting in good working order, to carry it on to a victorious end. To remove him and place a new man in his stead would, we think, be one of the greatest mistakes that the American people ever made. Notwithstanding the two-term precedent we believe the people of these United States will want Mr. Wilson to finish the big job that he has undertaken.

THE TERRELL ELECTION LAW.

State-wide prohibition is coming in Texas, just as soon as the people can get the chance to order it legally. Its arrival will, we think, be expeditious rather than delayed by electing men who conform to the Jeffersonian test of fitness for office rather than mediocrities who depend on their personal or either side of the prohibition cause for their strength.—Denton Record.

But how are you going to get the men you want unless perchance they are in the running? What if only mediocrities offer themselves? And how are you going to determine public policies when you are getting instructions from the candidate, who ought to be getting instructions from you? The Terrell election law gets the cart before the horse; it gives us government of the professional politicians, by the professional politicians and for the professional politicians. Here we are spending a lot of money investigating the conduct of the government, and when it is all over we will be right back where we began, even though we make a grand stand play of reducing expenses. What we need in Texas is responsible party government, something we have been without ever since we adopted the Terrell election law. Another thing we need in Texas is the repeal of the poll tax, a measure that operates to the disadvantage of the poor man, and this is another sort of discrimination which the State ought not to indulge. We have created departments and bureaus and commissions until we are almost submerged with regulations and certainly are burdened with taxation. We have a most expensive and highly cumbersome judiciary system. We have too many normal colleges. It is high time the people were waking up. But they can get no permanent relief until they have secured the repeal of the Terrell election law and themselves taken control of their government.—Waco Times Herald.

CARD OF THANKS.

Out of hearts full of gratitude we wish to thank the friends and minister, Bro. Garrett, who so tenderly and untringly assisted us in our recent bereavement; to those who sent beautiful flowers of sympathy, and to all who have done so much to soothe our bleeding hearts. May they each find such friends to administer unto them when called upon to sip the dregs from sorrows cup, and in the end hear God's blessed of "Well done, come up higher for thy reward." ### WEEK OF PRAYER.

This week is being observed as the week of prayer by the women of the M. E. Church. Their objects for study and prayer are the Gulf Coast work and the Medical Work in China. The Methodist women all over the South are meeting, studying, praying and giving for these objects this week. They have been asked for twenty-five hundred dollars for these special objects.

Mrs. Arnett conducted the program Monday. The subject was the needs and how they may be met. The scripture was the 17th chapter of John.

Mrs. Jackson explained and gave an outline of the work. Mrs. Leslie read an interesting paper on why mission work should be carried on in war times.

Tuesday Mrs. J. L. Doss led, the subject being the Compassionate Saviour. There was a large number in attendance, the South Side prayer meeting and the Union prayer meeting being held with them. Mrs. Garvin read a letter from a missionary in China, Dr. Ethel Polk, telling of the work and needs of that country. Mrs. Cooksey read a paper on the people of the gulf coast.

Wednesday Mrs. Merritt led. The scripture was the 14th chapter of John—Greater Works than These. Mrs. Lambeth had a paper on the enlargement of medical work in China. Mrs. Buchanan one on the light houses on the gulf coast.

On Thursday the time was given to the Young Peoples Missionary Society. The program was conducted by Mrs. Barcroft. Living pictures were given from the gulf coast and China. Their offerings have been good all the week.

Mrs. J. B. Reese, who has been visiting her daughter, Mrs. J. L. Doss returned to her home at Corpus Christi, Tuesday.

### ORPHANS HOME SHOWER.

Last Friday afternoon and evening the ladies of the Baptist church gave a shower for Buckner Orphan Home at the parsonage. This was well attended by other denominations as well as by Baptists, for the people of Colorado are always ready to hear and relieve the needs of the needy. Some brought packages, while others brought a silver offering. Hot tea and coffee with sandwiches were served by the young girls of the church, while the older ones helped to make the hour pleasant. In the evening the men honored the occasion with their presence and presents. The cash offering was \$18.20. Besides the packages brought in Mr. F. M. Burns will add something like \$50 or \$75 worth of underwear and clothing to the box. Mr. Burns always helps out when the women send their boxes; in fact there is not a call made for anything at any time to which he does not respond. He and Col. T. Q. Mullin are about all the "old times" left in the church, and both their names stand for loyalty in the Baptist cause. May they never weary of well doing and may others be inspired to help bear the burdens.

### CHORAL CLUB.

The Colorado Choral Club was re-organized last week and work begun for the winter. Miss Elsie Hooper was elected president, Miss Eleanor Coleman, secretary and treasurer, Prof. Thos. Dawes, director, Miss Lela Whipkey accompanist, and Miss McGill substitute. The Club will meet each Monday evening at 7:30 and any one interested in music is asked to become a member. Each member pays a small fee and what is left after paying the director, will be given to some charitable work.

This organization has meant much to Colorado and should be more liberally patronized than it is, as there is never a need for music, whatever the occasion, but it is called upon and always graciously responds.

### A BIRTHDAY SURPRISE.

Last Tuesday evening Mrs. W. L. Doss invited her neighbors in for a surprise to Mr. Doss in honor of his birthday. He was just preparing to meditate on his age, when the guests arrived and everything but a pleasant time with friends was forgotten. The evening was spent in playing 42. At the conclusion of the games a salad with cheese sandwiches and coffee was served.

The Record force has been feasting on turnips this week, through the kindness of Mrs. C. A. May. They lived on the Phenix irrigated farm this year and raised their own feed, meat and vegetables, besides several bales of cotton. They have come to town to put their children in school. The turnips were fine, and highly appreciated.

### THEY ALL DEMAND IT.

Colorado, Like Every Other City and Town in the Union Receives It

People with kidney ills want to be cured. When one suffers the tortures of an aching back, relief is eagerly sought for. There are many remedies today that relieve, but do not cure. Doan's Kidney Pills have brought lasting results to thousands. Here is Colorado evidence of their merit.

G. W. Filler, 2001 East Ave., Colorado, says: "Several years ago, I suffered intense pains from weak kidneys. My back and sides ached and I had other troubles, caused by kidney complaint. I read of Doan's Kidney Pills and used them. Two boxes of this medicine cured me entirely. (Statement given Jan. 18, 1912).

### A Lasting Cure.

On Nov. 4, 1915 Mr. Filler said: "The cure I mentioned in my former endorsement of Doan's Kidney Pills, has proved permanent."

### THE CLUBS.

Mrs. Sam Wulfjen was hostess for the Hesperian. The lesson was the Prologue to Tennyson's Princess. Mrs. Wulfjen gave a talk on the date of the publication of the Princess. Miss McGill had a paper on the Charm of English Country Life. Miss Dry one on Woman's Opportunities During the Middle Ages. This was the only club of the town to buy a Liberty Loan Bond.

The Bayview met with Mrs. G. W. Smith with Mrs. Person leader. The hour was spent with their regular Shakespeare lesson and Rip Van Winkle. Mrs. J. B. Reese of Corpus Christ was a guest. Light refreshments were served at the social hour.

Mrs. Riordan was hostess for the Standard. The lesson was Henry VI Part II, Act I. Mrs. Smoot conducted the history lesson.

### SOCIAL SERVICE LEAGUE.

The Social Service League will meet with Mrs. Riordan next Tuesday, Nov. 13th at 3 p. m. A large attendance is requested.—Mrs. Geo. B. Root, Secretary.

### EVERY LITTLE HELPS.

The family of A. L. Whipkey, received this week a large bag of scaly bark hickory nuts from Mrs. Whipkey's sister, Mrs. Whalen, from the old home in Indiana. This reminded both Mr. and Mrs. Whipkey of their childhood days, when they went out after the first hard frost, and gathered hickory nuts for winter eating. These nuts are certainly fine and are highly appreciated. Mrs. Whalen has visited in Texas several times, and knows how hard it is to get something to eat. They also received a card from another sister, Mrs. Douthit, saying that she had shipped a barrel of select apples. When they arrive we will be pretty well fixed for a while! Now if, about hog killing time some one would send in some back-bone or home spun sausage, we might be able to pull through until Christmas anyway.

### SURGICAL DRESSING.

The surgical dressing committee will meet with Mrs. Schroeder at the sanitarium during the winter months. All members are urged to keep up this important work.

Little Miss Gladys Womack, daughter of Mr. and Mrs. H. D. Womack was operated on last Saturday at the sanitarium for appendicitis, and at this time is resting and doing very well. Mrs. J. B. Smart of Admiral Gladys's grandmother, came up and is now with the patient, which will help the child in her recovery.

### PARENT-TEACHERS ASSN.

The Parent-Teachers Association met at the high school building Tuesday after school. Mr. King told of receiving the new books for the 5th 6th and 7th grade libraries. These will be placed in their respective rooms as soon as the cases arrive. This is one of the most commendable things the trustees have done for the school this year, and is encouraging the other grades to start them a library. The program as announced last week was carried out, and was one that brought out discussion from both parents and teachers, bringing them in a closer relation and fuller understanding with each other. The main number on the program was a paper on Ventilation, by Dr. Root. This was splendid and practical, and should have been heard by more parents of the school (and the trustees). Mrs. Sam Majors, Misses Terry and Chambers were appointed to prepare the December program.

### DIED.

On last Saturday the news came from Gila, Arizona, that Joe Justice was seriously hurt, and later another message was received announcing his death.

He fell from a rapidly moving train and his skull was crushed. He was hustened to a sanitarium and all that medical skill could do was done, but he died in a few hours.

The remains reached Colorado Tuesday night, and was buried in the I. O. F. cemetery Wednesday. The funeral services were conducted by Rev. W. C. Garrett, pastor of the Baptist church.

He was thirty-five years old and until quite recently had lived in Colorado. He had been a member of the Baptist church since his fourteenth year.

He leaves a father and three sisters to mourn his death.

The Record with many friends of his family, extends sympathy to those who mourn, the untimely death of this fine young man, just entering upon the prime of life.

### WAR RELIEF.

Through the kindness of Mrs. Van Tuyl the workers of the war relief department of the needle work guild will meet with her on Monday afternoons, from two to five o'clock to knit and do gauze work. On Wednesday afternoons at the same hours they will meet with Mrs. A. E. Madin to do machine work. Let everybody interested in this noble and much needed work remember the days.

### AUXILIARY TO C. W. B. M.

The Auxiliary to the C. W. B. M. had a pleasant and profitable meeting with Mrs. J. W. Burkhardt last Thursday. Mrs. Pond led the lesson which was on Mohammedism in Africa. The response to roll call was something for which I am thankful. Mrs. Leslie Crowder had a paper on the early church and its conquest by Mohammedism and the present mohamed menace. Mrs. Harness sang a "Little Bit of Love." Mrs. Broadus made a talk on the Republic of Liberia and what it means in the present war. At the social hour chicken sandwiches and tea were served. The next meeting is with Mrs. Harness.

### STOMACH ACTS FINE! NO INDIGESTION, GAS, HEARTBURN, ACIDITY.

"Pape's Diapepsin" Fixes Sick, Sour Upset Stomachs in Five Minutes.

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it with drastic drugs.

Pape's Diapepsin is noted for its speed in giving relief; its harmlessness; its certain, unfailing action in regulating sick, sour, gassy stomachs. Its quick relief in indigestion, dyspepsia, gastritis, and other stomach trouble has made it famous the world over.

Keep this wonderful stomach sweetener in your home, keep it handy, get a fifty-cent case from any drug store and then if anyone should eat something which doesn't agree with them, if what they eat lays like lead, ferments and sours and forms gas; causes headache, dizziness and nausea; eructations of acid and undigested food—remember as soon as Pape's Diapepsin comes in contact with the stomach, it helps to neutralize the excessive acidity, then all the stomach distress caused by it disappears. Its promptness, certainty and ease in overcoming such stomach disorders is a revelation to those who try it.

### LAUNDRY NOTICE.

Greene & Co. will collect all laundry and deliver same just as the laundry wagon has done heretofore. Any laundry trouble, or any information wanted, will be attended to by them. Phone 154. J. H. A favorite place for the Petrograd orators to hold forth is at the base of the column that commemorates the Russian victory over Napoleon. But the Russians who won that victory didn't do it making speeches.—Kansas City Star.

The Methodist people and the friends of this church, are pleased that Rev. W. P. Garvin was returned to this pastorate for another year. Mr. Garvin asked to be returned to this place, saying that he understood the drouth and financial situation, and could make allowances perhaps better than a new man. He said that if this church and this people had to undergo hardships, he was willing to return and bear the burdens with them. The Record is glad to welcome Mr. Garvin back to the continuation of the good work he has so faithfully been carrying on.

Ethel Barbar, down near Spade left Wednesday night with a car load of horses for points in Alabama.

Cincinnati Man Discovers Drug That Loosens Corns so They Lift Out. Good news spreads rapidly and druggists here are kept busy dispensing freezone, the recent discovery of a Cincinnati man, which is said to loosen any corn so it lifts out with the fingers. A quarter of an ounce costs very little at any store which handles drugs, but this is said to be sufficient to rid one's feet of every hard or soft corn or callus. You apply just a few drops on the tender, aching corn or toughened callus and instantly the soreness is relieved, and soon the corn or callus is so shriveled that it lifts out without pain. It is a sticky substance which dries when applied and never inflames or even irritates the surrounding skin. This discovery will prevent thousands of deaths annually from lockjaw and infection heretofore resulting from the suicidal habit of cutting corns. I am still on the scout in Denton county, enjoying good health, hard work and plenty of good things to eat. Among other things, oh dem possums, wid taters cooked 'round on are good enough for de Joneses. As soon as our work slacks up I expect to take in a mess of squirrels. I have shipped a few buckets of a very fine quality of sorghum syrup, a portion of which I have instructed put on exhibition at the Record office and at the three banks, for the purpose of letting you people see what can be done in no better county than Mitchell, considering good seed selection and proper management in manufacturing. Let us all put forth an undivided effort to encourage the industry another year. I attended Sunday school at China Chapel this evening, where I used to have a fine Sunday school class. My association with old time friends and relatives are very pleasant indeed. I have to be cautious where I step, lest I step on a peanut; yes, often a pile of them. The peanut question is a live one in this section, as it should be anywhere, where the crop is as well adapted as it is in Mitchell county. So far as I can see every variety of crops grown here this year, are on par or above an average. If you could only realize how glad I am to get the Record, you surely would not pass me up at all. We were surprised one evening this week by a group of four airplanes passing over us. It was a good big sight to one that's got as small eyes as I have.—E. M. McCreeless.

If You Own A Car

Or ride in one often, your complexion is exposed to a severe test. It has frequent sun baths. The dust, moreover, is actually forced into the pores by the speed of the car. The result of such treatment is likely to give a harsh, leathery look to the skin of the face and neck. A good cold cream is the best solution of the problem. Apply it before going out and then dust the face with a good powder. After a trip, smooth the cream over the skin. Let it remain on for a few minutes, then rub off with a soft cloth. If tin tags like these can be made for one-half of a cent each at a good profit, why was a bill proposed in the legislature to force the farmers to mark the 3,800,000 bales of Texas cotton with these tags at ten cents each? WHY? "For the good of the farmer"—so said the legislator who introduced the bill. Do you believe it? These tags at 1/2c each would have cost \$19,000. At 10c each they would have cost \$380,000. That would have made a minimum profit for somebody of \$361,000! SOME profit! Who do you believe would have benefited from this bill—the farmer or the man who made the tags? Read all about it in

## DON'T SCOLD, MOTHER! THE CROSS CHILD IS BILLIOUS, FEVERISH

Look at Tongue! If Coated, Clean Little Stomach, Liver, Bowels.

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.

"Keep it handy, Mother! A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counterfeits sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup. Adv2

The offering for the Orphans Home went to \$175.75 in cash, and a firm there gave 115 pairs of pants to the Home. Furthermore, a woman willed all her property to the Home and turned the instrument over to Brother Pender. In fact, he talked them out of their cash, house and home, and the very points of them. Rev. John W. Newcome is the much loved pastor.—Western Evangelist.

The Ladies Aid of Colorado church held a Buckner Orphans Home shower last week, when one man of this town (F. M. Burns) contributed 100 suits of underwear, and two suits of clothes to the Home. The box to be sent this week has a commercial value of over \$500, besides a handsome sum in cash.

## RURAL CARRIER EXAMINATION.

The United States Civil Service Commission has announced an examination for the County of Mitchell, Texas, to be held at Colorado, on Dec. 8, 1917, to fill the position of rural carrier at Colorado, Texas, and vacancies that may later occur on rural routes from other postoffices in the above-mentioned county. The examination will be open only to male citizens who are actually domiciled in the territory of a postoffice in the county and who meet the other requirements set forth in Form No. 1977. This form and application blanks may be obtained from the offices mentioned above or from the United States Civil Service Commission at Washington, D. C. Applications should be forwarded to the Commission at Washington at the earliest practicable date.

## AN OLD MAN'S STOMACH.

As we grow older and less active, less and less food is required to meet the demands of our bodies. If too much is habitually taken, the stomach will rebel. When a man reaches the advanced age of 85 or 90, you will find that he is a light eater. Be as careful as you will, however, you will occasionally eat more than you should and will feel the need of Chamberlain's Tablets to correct the disorder. These tablets do not contain pepsin, but strengthen the stomach and enable it to perform its functions naturally. They also cause a gentle movement of the bowels.

Mr. J. D. Wulfjen who has been in the sanitarium at Dallas the past three weeks, returned home yesterday and his many friends rejoice to see his almost complete recovery.

This is the last week of the Steam Laundry in Colorado. We understand that the laundry plant will be closed, and that Mr. Davis, with his family will move to Abilene.

Mrs. J. L. Allen and the children spent a few days in Colorado this week. She was accompanied by her father, Mr. Jackson, of Lometa. She will go on to California to join her husband, who is out there in the interest of his cotton business. She says that of course they are coming back to their home in Colorado as soon as conditions get better.

W. E. Watson handles cotton seed products, coal and all kinds of feed.

"Former Senator John G. Willacy begins in this week's Farm and Ranch an inside history of some recent political happenings in Texas, disguised as fiction. Introducing the story the author departs from fiction long enough to present some facts about the mounting expense of the state government in a short decade. From a total of \$8,000,000 (in round numbers) in 1907 the appropriations for the state in 1917 had grown to more than \$25,000,000. The tax rate from 32 1/2 c had climbed to 60c, the constitutional limit; the number of employes drawing salaries from state had jumped from 1567 in 1907 to 4379 in 1917, and the traveling expenses had ascended proportionately from a paltry \$23,600 in 1907 to \$200,000 in 1917. During the six years from September 1, 1907, to August 31, 1913, the total state expenses were \$28,037,702; during the six years from 1913 to August 31, 1917, the total appropriations were \$55,500,711.55—an increase of the staggering sum of \$27,463,009.55—wholly disproportionate to the increase in taxable values of from \$1,635,000,000 to \$2,811,000,000."
