or Less

By Johnnie Moore

VOLUME NO. 33

Thursday, February 14, 1963

Number 7

A fellow said with a slightly agonized sigh the other day, "Well, I finally found something you can buy for a nickle, a four cent stamp."

Have you heard the latest definition of a completely, and totally integrated school? "When your primary pupils begin saying, 'two plus dos am fo', then you are integrated."

**WE'VE CROSSED THE LINE**  
Next July 9, with a bit over half the year gone, the corporations of this country, the many enterprises which provide us with the great bulk of our goods and services, as well as most of our employment of people, will start working for their owners. What, you may ask, will they be doing for the six-month-plus preceding that date? The answer is provided by just a casual glance at a federal income tax form. The profits tax on any corporation of any size is a neat 52 percent. And this doesn't include the swarm of other taxes a corporation is burdened with—state income taxes, property taxes, excise taxes, sales taxes, license taxes, transaction taxes, and even, in some instances, municipal income taxes.

Henry J. Taylor writes: "Mussolini's corporate state took 40 percent of any profits. Hitler took 44 percent. Both of these exploiters were pikers compared to Washington's 52 percent bite. "Surely one definition of socialism is the line beyond which a government gets more than the owners. We've crossed that line. In this sense, we're not going socialist. We've gone. Thus taxpayers are people who don't need a Civil Service examination to work for the government. "This is the price we pay for two enormously different things. One is war, hot and cold—past, present, and to come. The other is a Welfare State. The enormous tax for war, it seems, must continue to be paid—we have no choice in this. But the Welfare State—coddling us, attempting to shield us against our own follies and wastes, substituting political decision for individual responsibility and pride—is something we simply cannot afford."

### NOTICE

Announcement was made that Yoakum County Chapter of Young Farmers will meet next Monday, February 18, instead of this week as was originally announced. Same program is on tap, and meeting will still be at 7:30 p.m. in the Vo-Ag building.

## Hendricks Scores 26 Points Drop Close One To O'Donnell

Last Friday night, when Plains Cowboys travelled to Wink to do battle with the Wildcats, they faced a team which they were able to handle readily on the Plains court. In Wink, however, it was a different story. The Wildcats closed the gap in the final quarter of play and defeated the Cowboys. Then on Tuesday of this week the Cowboys engaged the O'Donnell quintet here in Plains, a team which defeated the Cowboys only six points on the road. Plains led all the way in Friday night's tilt, until the closing minutes of the fourth quarter when O'Donnell nosed out in front and managed to down the Cowboys by only a four point margin.

GETTING READY --- was pretty much the story around, and in the livestock barn here on Thursday of this week, as both exhibitors and persons in charge of the various aspects of the show were tending to the thousand-and-one last minute details that must be taken care of. Here Clarence Todd is busily "prettyin' up" his entry in the show.

## Stock Show Starts Today

### \$700.00 Offered In Premiums

Premiums paid to the exhibitors by the Yoakum County Livestock and Agriculture Improvement Association may exceed \$700.00 this year depending upon the number of animals in the show. The animals must meet certain requirements so the exact number in the show cannot be determined until all the entries are weighed in. The latest figures indicate that there will be 36 calves, 60 barrows and 27 lambs. Estimating the prize money on this number of animals, it would require \$330 for calves, \$225 for barrows and \$145 for lambs.

The Association will spend approximately \$300 in addition to the premiums paid to the exhibitors for ribbons, a judge, an auctioneer and for other materials necessary to have a top rated county show and sale.

This amount of money is raised each year by the payment of membership dues to the Association. The annual dues are \$5 per person and anyone who wishes to help keep the show going is asked to become a member. An

annual meeting of all members will be held in March when the directors for the 1963-64 year will be elected. Many of the boys and girls who participate in the show make a practice of paying dues and taking part in its operation. Most of the dues, however, come from interested adults who live and work in Yoakum County and have a desire to do something for the betterment of the county.

Yoakum County Livestock and Agriculture Improvement Association is a non-profit organization created in 1952 for the purpose of sponsoring fairs and shows in Yoakum County. The 1963 edition of the Junior Fat Stock Show, in Plains, in the Livestock Exhibit Building, Friday and Saturday, February 15 and 16, will be the eleventh show and sale sponsored by the association.

## Narrow Row Cotton Shows Promise Texas Growers Cut Costs

What could prove to be a major break through in more efficient cotton production has been demonstrated at the Lubbock substation of the Texas Agricultural Experiment Station. The new production technique is narrow-row planting and the use of chemicals for weed control. Elmer Hudspeth, Jr., of USDA's Agricultural Research Service, stationed at the Lubbock Station planted cotton, under irrigation, in nine-inch rows and applied a pre-emergence herbicide for weed control. He harvested more than two bales from the one-acre plot without a single cultivation. A check planted in the usual 40-inch rows produced from one and a half to one and three-quarter bales and acre. Further tests will determine whether narrow-row planting of irrigated cotton can help farmers cut production cost by increasing yields and eliminating cultivation. Hudspeth said weeds didn't have a chance in the narrow-row plots. The herbicide controlled their early growth and the plant shading took care of later growth. The narrow-row planting was done with a grain drill. Hudspeth grew more than 200,000 plants on the acre compared with about 30,000 in 40-inch rows. Each plant produced only three or four bolls, but the dense planting helped raise the total yield. The closely spaced plants were short with few branches and thin stems, and were more ideally adapted to stripper harvesting than normal spaced planting.

Both the narrow and wide row plots were sprinkler irrigated three with three inches of water. The water activated the herbicide and aided seed the same fertilizer treatment 80 pounds of nitrogen and 40 pounds of phosphorus per acre applied before planting. A stripper harvester was used on both plots. Hudspeth said close plantings may not work in humid areas of the cotton belt where boll rot is a problem. Quality test, he added, are being made on the cotton harvested from the narrow-row planting and will be announced later.

## Attend A & M Meet

County commissioners and judges from every section of Texas, including Judge Stanley Duvall and Precinct No. 2 Commissioner H. C. (Doc) Cotton of Yoakum County, will be on the A & M College of Texas campus, February 17-19, for their fifth annual conference. As in past years, the program has been developed around problems of current interest to the county officials. The conference is sponsored by the County Judges' and Commissioners' Association, and the Texas Agricultural Extension Service.

## Attend A & M Meet

County commissioners and judges from every section of Texas, including Judge Stanley Duvall and Precinct No. 2 Commissioner H. C. (Doc) Cotton of Yoakum County, will be on the A & M College of Texas campus, February 17-19, for their fifth annual conference. As in past years, the program has been developed around problems of current interest to the county officials. The conference is sponsored by the County Judges' and Commissioners' Association, and the Texas Agricultural Extension Service.

## YOU be the LEGISLATOR

GAYLE ESSARY'S  
A COLUMN TO PROMOTE LEGISLATIVE UNDERSTANDING AMONG TEXANS

H. J. R. No. 16  
By Rep. V. E. (Red) Berry  
Dist 68-4, San Antonio

A JOINT RESOLUTION---proposing an amendment to the Constitution of the State of Texas by adding thereto another article so as to provide for parimutuel betting at horse races in Bexar County after local option election and prescribing powers, duties and procedures. PROPOSERS of this legislation say that horse racing is the number one spectator sport in the U. S., attracting nearly twice as many fans as does major and minor league baseball. In the 24 states where parimutuel betting is legalized at horse races more than a quarter of a billion dollars in state taxes are collected each year. Arguments against parimutuel betting are usually centered around its so-called "immoral" aspects. However, J. Edgar Hoover, famed for his opposition to crime and

corruption, has been quoted as finding racing a "wholesome diversion." He further states that no "moral" issues are involved and that "... the various states which have racing exert every effort to keep it (clean)." On waggering: "Racing has no monopoly on betting. Everybody has a desire to win something. People buy stocks in the hope the stocks will rise in value and they will gain. Legalizing parimutuel betting is considered to be the best method of controlling wagering and of controlling the undesirable element that exists in all facets of society. The people of Bexar County should be given the opportunity to chart their own economic and recreational course. Therefore, the resolution should be voted FOR. OPPONENTS of this legislation say that Texas should never legalize gambling in any form. Here is why:

1. Legalized gambling or wife participates, legalized gambling brings about insecurity in the home and leads to divorce and destruction of the family unit.
2. When gambling was legalized in Texas a number of years ago there was an unmistakable increase in narcotics and other dope traffic, not only in the vicinity of the racetrack, but throughout the state as well.
3. The increase in crime brings about much more expense at the local and state levels far in excess of the trivial amount of taxes that gambling would bring in. Texas maintains a national reputation as to the character of its citizens, and no laws should be ever passed which would mar this reputation. Therefore, this resolution should be voted AGAINST. Now, YOU be the LEGISLATOR. Are you FOR! or are you AGAINST!?

## Baptists Buy Scout Property

Last Friday morning, in a special meeting of Plains Lions Club Directors, sealed bids were opened for the sale of the property on which the present Scout Hut sets. High bid for the nearly two acres of land was made by First Baptist Church of Plains, in the amount of, \$2,325. It is reported that intended use of the property by the Baptists is the construction of

## Set Equipment Use Rates

Along with other business items, Yoakum County Commissioners in their regular meeting last Monday set rates that will apply under Article 2372 c, Soil Conservation Work, as follows: (hourly) Grader, \$8.50, Dozier, 10.00; Loader, \$7.50; Grader Elevator, 12.50; Truck, 3.50; and Back Hoe, \$7.50. These rates will apply only to work that is authorized under the SCS article 2372c, as other types of work cannot be done under the restraining order issued, on a temporary basis, by District Judge, M. C. Ledbetter on February 8. The hearing originally set

by Judge Ledbetter for March 6, will instead be held on February 27 at 10 a. m. in the District Courtroom in Plains. In other business tended to by the Commissioners, County funds to be used by the Precincts were divided with 32.5 percent going to No. 1; 32.5 percent to No. 2; 13 percent to No. 3; and 22 percent to Precinct No. 4. Plains State Bank and Yoakum County State Bank were selected as County Depositories for 1963 and 1964. Yoakum County State was also selected as depository for the county school funds. Commissioners also wnet on record as approving legislation to set minimum and maximum salary requirements for Court Reporter of 121st Judicial District. It was also voted to issue three percent, four year warrants to pay for right-of-way easements to Tye Field in the amount of \$9,476.26 and to Anita Field for \$4,311.30, to be paid out of precinct funds. Wayne Watson was named to the County Welfare Board, replacing Mrs. Tommy Hollyfield and Mrs. Keller Greenfield was appointed to replace Stanley Duvall on the Community Building Board.

Officers elected to serve for the next year are as follows: Chief, Bobby Kinsley; Assistant Chief, Jim Hooper; Captains, O. W. Harbour and Bill Hennington; Lieutenants, Dub and Bobby Nelms; Secretary - Treasurer, James Cogburn; and Fire Marshall, S. L. Tingle. (See Page 2)

## Weeks Weather Is Changable

Temperature and weather extremes were the order of the day around Plains this week. On Wednesday, the 6th, temperatures ranged from a 71 high to a 34 low. On Thursday, the extremes were 76 and 32. Friday was about the same with 76 and 33. On Saturday, they were 75 and 30. Sunday wasn't too much changed with a 66 high and a 31 low. Monday things began to change as the mercury only reached a 42 high and dipped to a 13 low. Tuesday the high was a mighty chilly 26 and low 12. On Monday and Tuesday, a measured snowfall of 6 inches produced melted snow moisture yield of only .33 of an inch.

## AD Pot To \$161.75

LOTS OF INTEREST---is being shown as it is each year in the entries coming in and being weighed for qualification. Wide interest is exhibited each year in the Annual Junior Fat Stock Show.

## Firemen Elect New Officers

During their regular practice and meeting last Monday, Plains Volunteer Firemen held their annual election of officers. Officers elected to serve for the next year are as follows: Chief, Bobby Kinsley; Assistant Chief, Jim Hooper; Captains, O. W. Harbour and Bill Hennington; Lieutenants, Dub and Bobby Nelms; Secretary - Treasurer, James Cogburn; and Fire Marshall, S. L. Tingle. (See Page 2)

### The Plains Record And The Yoakum County Review

**JOHN W. MOORE, Publisher**

PUBLISHED EACH THURSDAY AT PLAINS, TEXAS

Entered as second class matter at the Post Office at Plains Texas, under the act of Congress, March 3, 1879

**SUBSCRIPTION RATES:** \$3 per year in Yoakum and Terry Counties; \$4 per year elsewhere.

(From Page 1)

Need was pointed out for a new siren for Plains, as with the present one, many members of the fire department have difficulty in hearing it especially on windy days. It was pointed out that if Plains would qualify under the State Civil Defense set-up it would be possible to secure this kind of equipment on a less than cost basis through Civil Defense.

### S - 4 Snodgrass In Inauguration Parade

Army Specialist Four Jesse C. Snodgrass, son of Mr. and Mrs. Jesse H. Snodgrass, Route 1, Tokio, Texas, and other members of the 1st Armored Division's 46th Infantry recently marched in a parade held in honor of the inauguration of Texas Governor John B. Connally in Austin, Texas. Specialist Snodgrass, a squad leader in the infantry's Company A at Fort Hood, Texas, is a 1956 graduate of Plains, Texas High School, and a 1961 graduate of Texas Technical College in Lubbock.

It should be noted that the menus as published each week in The Record are subject to change because of the possibility of unforeseen substitutions in food items received.

Attending the calf show in El Paso last week were Rusty, D'Lynn and D'Lois McGinty, Mrs. J. V. Beene, Oscar and Mr. and Mrs. Pat Henard. Oscar entered two calves and three barrows in the show and D'Lynn entered a calf.

### A Guest Editorial . . . Deficit of Strength

Mr. Walter Heller, chief economic adviser for President Kennedy in a nationwide broadcast on Sunday, December 30, 1962 acknowledged that the current deficit will run approximately eight billion dollars by June 30, 1963, and he further acknowledged that the proposed tax cut in 1963 will result in a continuing Federal deficit. "However," Mr. Heller explained, "THE CURRENT DEFICIT IS A DEFICIT OF WEAKNESS because in the current period, the nation's productive capacity is not fully realized; whereas, the new deficit WILL BE A DEFICIT OF STRENGTH because the tax cut would encourage greater use of industrial facilities and curb unemployment."

In the jargon of our times, the above is typical of the mumbo-jumbo language uttered too frequently by high public officials and designed primarily by them for political expediency and connotation.

To be charitable, the most that can be said about this fallacious economic proposal is that it is a platitudinous position, riding inexcusably on designed semantic confusion and prepared for an audience of clay feet and concrete minds.

A deficit cannot be anything else but a deficit. A deficit is a liability. A deficit is a minus. A deficit is never erased until it is paid. A deficit can never be a sign of strength until there is no more deficit. A liability always remains a liability until it is paid. A minus always remains a minus until it is erased by a plus, and to categorize deficits into deficits of "weakness" and deficits of "strength" is economic nonsense, and possibly 20th century fuzziness.

It is obvious that deficits may be incurred temporarily and justifiably when used primarily as instruments of profit, or vehicles of creating assets. But deficits that are consistently piled up without provisions for their replacement can never be called or even imagined to be symbols of strength.

The proposal by Mr. Heller to incur further deficits without provisions for correspondingly cutting expenditures to erase these deficits is as fallacious and as unrealistic and as disastrous as it can be.

When one spends more than his income he is only headed in one direction - namely, bankruptcy. And unless Mr. Heller claims for himself the ability to change irrefutable economic laws, we are headed for inevitable economic destruction.

It is indeed hoped that Mr. Heller appeared on this program with these proposals in the role of a public relations "gimmick" representative rather than in the role of a top economic expert for the government.

### Credit Can Be Tax Saving

There is hardly a consumer who doesn't buy something on credit, yet many of them over look the interest charges when figuring their annual income tax, according to Changing Times, the Kiplinger Magazine.

An article in the current issue of the magazine, which suggests ways taxpayers can trim the annual debt to Uncle Sam, reminds readers that, finding another \$100 or \$200 of deductions can save at least \$20 to \$40 in taxes.

### Cancer Society Has Meeting

A film, "Never Alone," was shown at the meeting of the Yoakum County Chapter of the American Cancer Society, Tuesday, February 12, in the club room of the old courthouse in Plains.

Presiding was Mrs. Cecil Bickley, who heads the group for this year. Other officers of the group are: Mrs. P. W. St. Romain of Plains, vice president; Mrs. Harold Burton secretary; Mrs. Morris Lowe of Plains, treasurer; Mrs. Wayne Chadwick of Plains, educational chairman; Mrs. Joe Taylor, service chairman; Dr. Berry N. Squires, medical chairman.

### Educational TV Expanded

Educational television at Texas Tech is being expanded to offer a graduate course to classroom teachers in the South Plains.

Broadcasting over KTX-TV, Channel 5, the Teacher training course in Audio Visual Education 5311 is planned to begin February 25. Registration must be completed by the starting date.

Dr. Ray Davidson will be course coordinator. The study is designed to give elementary school teachers an opportunity to earn college credits by watching the series of 42 films and submitting nine written reports. The course also has a broad application at the secondary teacher level, and others may enroll by special permission from Dr. Davidson.

The 30-minute broadcasts will begin at 6:30 p. m. Programs will be held Monday, Thursday and Friday from Feb. 25 through April 5. Beginning April 16 the program will be broadcast on Monday, Wednesday and Friday until the course is completed May 24. A final examination will be given at Tech.

Registration will be thru The Extension Division. A team of eight nationally recognized authorities in the field of audio visual education prepared the course, at the University of Wisconsin.

FOR SALE: House in Plains, 3 rooms and bath, see at 203 Morland, Call GL6-3211.

**"I REMEMBER"**  
BY The Old Timers  
From Mrs. Urton Hayes, Peculiar, Missouri: I remember when people had time to walk to a neighbor's house and sit 'til bedtime, visiting, singing, popping corn or making candy. The young people building brush fires out on the ice in the winter enjoying evening skating and roasting weiners or marshmallows . . . when people lived for people and not for the dollar. One neighbor was always ready to help another, with whatever work was to be done, never a thought of counting hours or for pay, but for love of humanity. When children walking home from school, laughing, singing or visiting as they carried one another's books and ate the remainder of their lunches. I remember good community days at the schoolhouses, churches, etc., where large baskets of food were spread on makeshift tables. We had such a good time enjoying our friends. Again, there were the days of "patriotism." Friends for miles around would meet at a park or in some beautiful clearing with baskets filled with food. Someone brought an organ or a piano. We listened to speeches, sang songs of our country and the flag while the younger ones had their games and fireworks. Mother, father and children all worked, played and worshipped together. When sickness did strike, we knew neighbors would come to help care for us and, if need be, sit during the nights for days or weeks. People had time for people, home, children, God and Country. We weren't blessed with push buttons, motors, etc., which are wonderful things if they are not abused. Give me time to really live!

ed separately. In that case, deduct as interest 6 percent of the average unpaid monthly balance during the year. Check the rules on just how to figure it out. Finally, the article advises taxpayers who borrowed on a "discount" loan to remember to include the charges. "Say you got \$1,890 cash on a \$2,100 loan and paid back \$70 monthly for 30 months. You are actually paying \$7 a month interest which is deductible--the \$210 discount divided by the 30 months."

### This Week In History

February 22 is George Washington's birthday. On February 2, 1879, F. W. Woolworth opened his first 5 and 10 store in Utica, New York. Piute Indian uprising and preparations for the Corbett-Fitzsimmons fight at Carson City made news in Nevada, February 2, 1897. Chief Justice John Marshall rendered the first decision declaring a U.S. Law unconstitutional, February 24, 1803. Arizona was organized as a territory, February 24, 1863. The famous Colt revolver was patented February 25, 1836. The Hudson River tunnel was opened, February 25, 1908. The Canal Zone was granted to the U.S. by treaty with Panama, February 26, 1904. The 15th Amendment was proposed, February 26, 1869. Iberville & Bienville reached the Mississippi, February 27, 1699. Henry Wadsworth Longfellow was born, February 27, 1807. The Republican Party was founded, February 28, 1854.

**Card Of Thanks**

To our many friends of the Tokio and Plains community, who have gladdened our pathway of life, these lines are affectionately dedicated.

REMEMBERINGS

We've wrapped up in a package and tucked it away in our memory drawer where our treasures stay.

It's a nifty old sack, But it holds the things we've gathered together--Our rememberings.

Such memory pictures! Such beautiful dreams! No wonder our package Pokes out at the seams!

Our memory package So full of the things we've gathered together--Our rememberings.

The M. M. Holbert Family

## Interest Shown Program

Continued interest in conservation work and the use of the Great Plains Conservation program to help carry out a well rounded conservation program for the farm or ranch is keeping the local soil Conservation Personnel busy. This past week Claude Freeman and D. H. Kirby both signed conservation plans with the District and Great Plains Program to help carry out their programs. New Great Plains programs were worked out on the W. O. Moore farm and the Dick Hamm farm and mailed to the area office for typing. One new application for assistance in carrying out a conservation plan was made by S. H. Vaughter on his farm

that O. G. Lewis operates south west of Plains. Others who have made inquiries about a conservation program are, G. W. Payne, H. V. Stanford and J. A. Pebsworth. This past week we were glad to have our Area Conservationist W. W. Goodlett, Jr. from Big Springs and James Abbott assistant State Conservationist in charge of the Great Plains Program visit our District. They were, very complimentary of the good job land owners and operators are doing using this crop residue to hold the soil. This week several farmers have noted that a good stubble of grain sorghum held the snow right where it fell while deep broken land did not.

The Bidding:  
South West North East  
♥ Pass 1 ♠ 2 ♣  
♥ Pass 3 ♥ Pass  
♥ Pass Pass Pass

Opening lead: Two of clubs. South played the jack from dummy, East covered with queen and South won with the ace. South then drew trumps in two rounds, ending in the dummy. South next led queen of diamonds, East covered with the king and South won with ace in the closed hand. South then took two diamond tricks, ending again in dummy. The king of clubs was played next, then the eight of clubs on which South luffed the king of spades, losing this trick only to East's 10 of clubs.

COMMENT: This was a slam hand regardless of the lead. South should have jumped to three hearts over the two diamond bid but, even so, North would have bid four hearts and South would have passed. In the discussion which followed playing of the hand, everyone agreed that it was the in-between hand held by North which stumped the bidding.

### Iota Pi In Smith Home

Iota Pi Chapter Epsilon Sigma Alpha met February 5, at the home of Barbara Smith. Jean Craft presided during the business session. Archie Glover, chairman of the Ways and Means Committee, announced that the Chapter cook books will go on sale at a reduced price of \$1.00. The members also voted in favor of sponsoring the March of Dimes, if the club is given adequate Material. Jean Craft introduced the program. Lois McGinty gave "Not To Ourselves Alone" and "Giving Is Expression". Seven members answered roll call.

### Smith - Box Vows Exchanged

The home of Mrs. Anne Green in Plains, was the setting for the wedding Saturday, February 9, at 4:00 p. m., of her daughter Mrs. Marcelita Smith of Littlefield, and Mr. Thomas Box of Bledsoe. The living room of the home was tastefully decorated for the ceremony with a background of salal and fern, flanked by baskets of white mums. Given in marriage by her brother Bob Green of Borger, the bride wore a blue double knitsuit with matching accessories and carried a bouquet of white french carnations atop a white Bible. For something old she carried her mother's white linen handkerchief; something new was her suit. For something borrowed she wore a strand of pearls belonging to her aunt Mrs. Tate Jones of Floydada, and for something blue she wore a blue garter given her by Mrs. Margaret Hobbs Cardwell of Sudan. The bride's mother, Mrs. Anne Green, wearing a shell pink shantung sheath with matching accessories and carnation corsage, was Matron of honor. The bridegroom's brother-in-law, Charles R. Meyer of Odessa, was best man. The ceremony was performed by Rev. Walter Driver, Pastor of the First Methodist Church in Plains. Guest were, the immediate members of the families. After the ceremony, a three tiered wedding cake and coffee from a handsome silver service, were served the guests. The bride's bouquet centered the beautifully decorated table which was laid with an heirloom crocheted cloth over blue satin.

Mr. and Mrs. Box will be at home in Morton, which is a more central location for their farming operations.

### Hear Musical Comedy Program

Fine Arts Club members met for their monthly meeting in the club room here on Thursday of last week. Hostesses for the occasion were Janell Pierce and Chris Duff, and they served an elegant supper by candlelight to members and guests. The program, American Musical Comedy, was directed by Mrs. H. F. Barnes. A review of South Pacific was given by Mrs. Gene Bennett and a song from that show, Bali Hi, was sung by Chris Duff. Story of the hymn of the month was given by Mollie Courtney.

### Rev. ROBERT H. HARPER UNPRECEDENTED WINTER

THE historian relates that when Napoleon Bonaparte began his ill-starred campaign against Russia more than a hundred years ago he soon found himself confronted by a new enemy against which his previous experience shed no light and upon which his genius as a warrior could not avail. That new enemy was nature. Winter came early and the men from a milder climate than

**JUST A THOUGHT:**  
The relief that comes when someone helps us out of a tight situation is not quite comparable to the feeling that comes to us when we know that we have really accomplished a good deed of our own.

Russia were chilled to the bone and fell by the thousands when Napoleon was forced to withdraw from the ashes of Moscow. It is to be hoped that the Russians may be as badly outclassed if they ever invade the south. As vividly remembered will be the winter that ushered in the year 1963. It is terrible to think of a bus skidding into an icy river in Montana of the vessels in the section where the schooner "Hesperus" sailed the wintry sea, that repeat that tragedy of which Longfellow writes. And we may shiver to think of a landscape that like Hohenlinden where when "the sun was low all bloodless lay the untrodden snow but was soon to see another sight with the drum beat at dead of night, commanding fires of death to light the darkness of her scenery."

**Simple**  
Master of the House: "Why did you tell your mistress what time I came home last night after I had told you to be quiet about it?"  
Maid: "I didn't, sir. She asked me what time it was, and I told her I was too busy getting breakfast to notice."

### Demos Favor Revision Of Election Code

Eugene M. Locke, Chairman of the State Democratic Executive Committee told the Senate Committee on Privileges and Elections last week that the SDEC favored Senator Tom Crieghton's Bill revising and clarifying the Texas Election Code. He reminded the Senators that the election study committee which proposed the revision had been formed at the suggestion of the SDEC. The bill was given a hearing by the Senate Committee Thursday morning, and, at Sen. Crieghton's request, sent to a subcommittee for two weeks. Locke said, "We (the SDEC) recognize the ambiguities which exist in the present Election Code and feel that the bill does a good job of correction of the ambiguities and filling in the gaps in the present legislation."

The State Chairman said there were one or two things in the bill that the suggested might be changed in the spirit of the purpose of the bill. but that these were minor and did not distract from the tremendous job the study committee had done.

### HDC Council Meeting

The Yoakum County Home Demonstration Council met Tuesday afternoon for a regular meeting with Mrs. Charles Williams, Chairman, presiding. There were twelve members present with all 4 clubs represented. Plans for the concession stand at the Stock Show for February 15th and 16th were made. Plans to conduct an Adult Driver Clinic February 28th, were completed. This will be from 9:00 to 5:00 in the Clubroom with invitations to all drivers of all ages to attend. It is free. With the day's session completed, certificates will be awarded. This clinic is instructed by Safety Officer C. A. Dempsey of Lubbock and other members of the Texas Highway Patrol and will include lectures, films, and other methods of teaching how to become a better driver. The new yearbooks were received by the clubs. The next meeting will be March the 5th.

### Few Grasshoppers Expected In '63

Grasshopper infestations in the Western and Mid-western states may be much lighter in 1963 than last year, according to a report of the USDA. The reports says the 16 range states surveyed had a total of 7.8 million acres of infested rangeland last fall as compared to 13.5 million acres a year earlier. The USDA's Agricultural Research Service, which conducted the surveys in cooperation with the states, considers an infested acre one that has a population of eight or more adult grasshoppers per square yard. Infested acreage in Texas was listed as just over 67,000 acres. In 1961 the acreage exceeded a half million acres. Last years cold, moist spring along with an unusually wet summer is given credit for reducing the grasshopper population, the USDA says. This relief from hopper infestation and good growing conditions resulted in last years high forage yields on the rangelands. A more accurate picture of the grasshopper population will be obtained this spring with surveys of newly hatched insects, and acres needing control operations will be pinpointed. In spite of good prospects for fewer grasshoppers this year ARS encourages ranchers to continue control measures against this pest. Small infested areas should be treated before the grasshoppers leave their breeding grounds to avoid insect build-ups later in the season.

The ARS reminds that in communitywide programs on rangeland it will finance up to one-third of the cost of grasshopper control operations. Similar aid is available in countywide programs for controlling the pest on roadsides and technical assistance can be obtained by farmers in controlling outbreaks.

### Tell Snodgrass Engagement

The engagement and approaching marriage of Darlene Snodgrass is being announced by her parents, Mr. and Mrs. J. H. Snodgrass of Tokio, to Airman Gordon Saich, son of Mr. and Mrs. T. A. Saich of Placerville, Calif. The wedding date has been set for March 8. Miss Snodgrass is employed by the Lubbock County ASCS Office and Airman Saich is stationed at Reese Air Force Base, Lubbock.

**GRASS IN A CONSERVATION CROPPING SYSTEM**

There was a time when we said if grass got into a crop it was lost. Now More and More we are learning to use grass not only as a producer of livestock feed but as a Soil improver. The Soils of this area are inherently low in organic matter and therefore are low in water and fertility holding capacity. When they have been farmed in such crops a cotton a few years their organic content becomes lower and lower unless something is done.

Rod Duff and A. W. Curley Tauton who operate a farm Southwest of Plains may have found the answer. As a part of their conservation program they planted 10 acres of Wood ward Sand Bluestem on crop land. This grass made a good stand and in three years produced three large growths of forage and one good seed crop which was harvested.

In April 1962, the grass was plowed under and the land prepared for a crop of cotton, along with adjacent land that had been in cotton for several years. The seed bed preparation, seeding, fertilizing and cultivating were all the same.

The grass land received two hoeings at 70 cents per acre more than the regular cotton or a total cost of \$1.40 more than cotton after cotton.

The results were not the same. Cotton after grass produced 2.7 bales per acre, while cotton after cotton produced 1.6 bales per acre. The total value of the grass in a rotation is not all gone and should show good results for several years.

We may not need the increase production but what about the decrease in cost of production? That we can use. Why not use the feed grain program to improve your land? This may be done by using any one of a number of grasses such as Sand Bluestem, Side oats, Blue Panic, or weeping love grass.
