Parker Plans Plains **New Ford Showing**

R.G. Parker, owner of Parker Ford Company of Denver City, announces that the 1966 Fords will be on display in a special showing for the residents of the Plains area tomorrow from 9 a. m. until 3 p. m. in front of the Plains State Bank in downtown Plains.

Parker expressed his appreciation to his many customers in the Plains trade area and said that he is showing the new Fords in Plains for the convenience of the Plains residents. Parker said that he is planning on bringing a new pick-

up and other car models to Plains to be displayed in front of the bank. Mr. Parker also invited his

friends to stop by and say hel-lo, and issued a special invitation to the public to see the 66 Fords.

Pokes Bomb Dogs 35-12! An angry band of Plains

Cowboys unleashed a crushing ground attack and subdued the Tahoka Bulldogs 35-12 in the opening of District play. Friday night in Tahoka.

The Cowboys served notice that they are on top of the District ladder and didn't plan to topple by spoiling the homecoming of the Bulldogs.

Joe Dan Cooke scored with apparent ease throughout the contest in making all five touchdowns for the Pokes. Agressive defense on the part of the entire Plains line kept the dogs bottled up most of the game. Hard hitting tackles caused the Tahoka backs to fumble the ball away several times in the evening. The Plains Cowboys were always there to come up with the ball.

When the score became a lopsided affair and the Bulldogs were down for the long count they turned to the air putting on a good show, but all in vain.

The power of the Cowboys proved to be the decisive factor in the pigskin contest as the Pokes completely dominated the game for the duration of the contest

Gov. Connally Warns Aged

The Cowboys meet the E-agles from O'Donnell Friday night in the annual Homecoming football event in Plains. The Cowpokes hope to pluck the remaining feathers from the Eagles and move a step closer to the district

The Eagles were crushed in their game with Stanton last week and will come to Plains with the hope of a successful invasion to spoil the local homecoming. The Cowboys are rated a three touchdown favorite to move closer to the championship of the district.

The Eagles are a young team with only five seniors on the squad. They are outweighed by the Cowboys, but muster a big line. It is in the backfield that the Eagles are small, with only one back weighing over 150 pounds.

Even though the Cowboys have several players on the ailing list, it should be a good night for the Pokes. Tahoka had the second best record in the District, and were quickly removed as an obstacle to the Cowboys hopes, and the Eagles should be easier to tame after their lopsided loss of the Buffalos of Stanton last week.

This week Cayce will attempt to offer helpful hints on how not to change a tire in a rainstorm under the supervision of three tired children and and impatient wife at midnight on a desolate highway without a light.

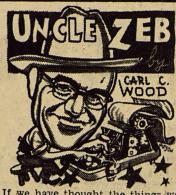

The first phase of instructions should read something like this: Never under any circumstances let the spouse near the wheel if you vaguely suspect that you will have a remote chance of having a flat tire, and repeat the instructions ten times if it is raining. That is what happened Sunday night and as certain as a cat can blink its eye it happened. of course shoulders are never worth much under these circumstances and this was no ex-

Lesson number two should read: Set down severe penalities such as no more charge accounts for a month if the wife removes the flash light from the car and forgets to put it back in the proper place, or a drastic cut in junior's or little Miss Muffett's allowance if they run the batteries down in the old reliable light playing flashlight tag, while Pop gets his nap before the dinner dishes are completed. But most of all, don't dare say a word if you lost the thing on your last fishing trip and forgot to buy another one. Remain deathly silent about the light bit and sternly forbid any conservation about it in the future. Then proceed quickly the next morning to an advertiser in your local newspaper and purchase two flashlight and hide one in the trunk and place the other one

in the glove compartment. When the awful event finally happens in your lifetime, which it will, take a tip buddy from one who knows, and when you have finished the routine search of finding your long lost golf putter, a blanket, three halloween masks from who knows when or where, a walking cane, a few fish hooks, a bit of string, and used bubble gum, but not the jackhandle do what every red blooded American should do. Put the wife and kids out in back of the car and hide behind some brush until a nice truck driver does his good deed for the day, and proceeds on his journey with that sat-isfied feeling of knowing that he has helped a damsel and brood in distress. Then wipe

the rain from your face and enjoy the long journey home. Don't do it the hard way like some people that we know and listen to such encouraging remarks as "Hurry up, we're tired of sitting way out here; or Stop rocking the car, we can't get back to sleep; or Dear, can't you rush just a little, you know tomorrow is

a school day. " But don't worry, if you do want to do it the hard way, because you will eventually find the jack handle and after what seems like an eternity, you will probably even be able to put the spare on, because you probably played blind man's bluff when you were a tiny tot, and doing things in the dark will no doubt be a task which you will eventually overcome when attempting to remove such ob-

stacles as you will encounter in pitch darkness with a tub of water running into your eyes and down your arms, making your hands nice and slick and so very helpful. We can't give but one more hint, but unfortunately it won't help. Just have high hopes and wish that you could look up and see that famous newspaper man Clark Kent in his superman uniform eagerly offering a helpful hand to the unfortunate soul like yourself when these situations arrise.

Governor John Connally has urged voters to vote for Constitutional Amendment No. 4 on Tuesday, November 2, 1965 which would make Texas the 40th state to have four year terms for our state's chief executive.

We agree with Governor Connally concerning this issue, because it would mean that our affairs of state would be run more efficiently by our governor, regardless who may be in office, because he could spend his time giving us a program which could reach high gear within the first two years of his term without having to take time out to campaign for re-election, No man, regardless of his capabilities can learn the duties of the office and hope to deal with the legislature and administer the duties of that office in an efficient way under the present system.

There are 9 1/2 million people in the state of Texas today compared to the 212, 592 people who were in the state when the present structure was designed. At the time that Texas ratified its state constitution, there were only 23 million people in the United States, and in 1820 there were only 9 1/2 million people in the whole nation, but yet our presidents were given

four year terms. The duties and burdens of our governor are tremendous, due to the advancement of science and social science in the last two decades. We believe that if we deny our governors four year terms that we will only be hurting ourselves. We believe that government should be operated like a business, as efficient as possible. It can only function that way by its people meeting the challenges of each generation and by those people favoring progress. Vote for progress in government, by supporting Constitutional Amendment No. Four at the polls November 2, 1965.

lota Pi Meet

The Iota Pi Chapter of Epsilon Sigma Alpha held their Pledge Pin Ceremony Monday evening, October 18, in the home of Elsie Carpenter. The ceremony was held in the Golden Glow of a candle lighted room. Five candidates, Burve Overton, Betty Romans, Glynis Spencer, Mary Strick-land and Nancy Wilson formed a semi-circle around the candle lighted table which was adorned with a beautiful white lace - like cloth, a vase of Jonquils, the flower of our organization, an open Bible and five Pledge Badges. Our President Melho Duke, was instaldent, Melba Duke, was installing officer, with Elsie Carpenter assisting. In the ceremony Melba stated the, "Women have been the poetry of the world. Constant, lightgiving, gentle, they are the terrestrial planets that rule the destinies of mankind. Up on their enlightenment depends the wisdom of man. " She farther stated that "To be an ESA means to be womanly to be useful, to give the best that is in you to your home and to your work, and to your acquiring the knowledge of

the world. After the very impressive ceremony we had our closing

Maps have been ordered and will be used in the next week to write down the plans these folks have for their land conservation wise. When these plans are approved work will then began on the land on such conservation measures as grass planting, brush control, farmstead wind breaks, reorganization of irrigation systems and other practices that will maintain and improve our soil while we use it.

Cover crops are still being planted and it isn't too late. Rye, wheat or barley can still be planted and produce a good

Plains Mayor Kenneth Hale and young daughter Kendra inspect grain sorghum on the Gale farm South West of Plains. This new land was irrigated and croped for the first year and made a little over 4,000 lbs per acre of grain and about 4,000 lbs of stub-ble or residue will be left on the land to keep it from blowing

cover by next spring. Remember it takes 2,000 lbs of residue in 40 inch rows and 1,750 lbs broad cast or drilled in control wind erosion. When some green cover is combined with some residue a good job of holding our soil is done.

We are preparing at this time the final feed grain payment documents as they are prepared and payments can be made farmers will be notified. Farmers that come to the office without being notified will be taking a chance on obtaining payments since we have many documents and we are required to have documents on file showing that producers are eligible for payment. We feel sure that most farmers well understand the fremendous amount of work that is carried on in this office, and will be very cooperative as they have been in the

Farmers complying with feed grain and soil bank programs should keep in mind that weeds is not approved cover and they are urged to get the land in shape for payment since we have had a number of complaints from neighbor farmers and these farms will be revisited.

The total payments to be made to Yoakum Co. farmers for the 1965 crop year for complying with the feed grain, dom cotton, soil bank and ACP will be approximately \$1, 149, 249 this does not include commod-
