### TAR SANDS - A POSSIBLE ALTERNATE ENERGY SOURCE

Certain sand deposits contain black, sticky pitch. The sands are either surface-mined or the pitch brought to the surface by steam heating the tar sands. The pitch is processed to yield a heavy crude oil. But now, major obstacles are cost, technology and water.

## From The Superintendent's Desk

Dean Andrews

Our school board members and I attended the 28th Annual T.A.S.A.-T.A.S.B. Convention in San Antonio this past week along with 8,000 other board members and superintendents from around the state.

Some thoughts and concerns that were expressed across the state were interesting and I would like to share them with you this week.

I think that we are focusing on the State Board of Education election to be conducted on November 8, 1988. I encourage each of you to vote in this election because this elected board will play a major role in the future of education in this state. The candidates are Paul Dunn, Democrat of Levelland, and Monte Hasie, Republican from Lubbock.

The S.B.O.E. is responsible for adopting rules for accreditation; investing permanent school funds; adopting rules for certifying teachers, administrators, and aides; adopting procedures for budgetary control, expending, and auditing of the budgets adopted; and all other laws placed on the central education agency of Texas.

Our meetings also dealt with school finance, personnel, curriculum, student-related concerns/at risk students, internal and external communications, long-range or strategic planning, applications for the use of technology, and Edgewood vs. Kirby law suit. We also had the opportunity to see exhibits of school supplies, furniture, buses, computers, roofing, air conditioning/heating and carpeting.

I think the most important aspect might be the association with other board members across the state. We all have the same concerns in wanting to provide the best education possible for all students.

# Cowboys Blown Away By Cyclones In Unscheduled Game, 19-14

The Cowboys traveled to Floydada to meet the Memphis Cyclones in a non-district contest last Friday. The game was arranged less than two weeks ago when district opponent Ropesville cancelled their remaining games and changed to six-man football.

The Cyclones struck first eight minutes in the game. Jeff Richardson scored and the PAT was good and the score stood 7-0.

Before half time, the Cowboys mounted two good drives, punching deep into Cyclone territory. Both drives ended short of the end zone, the ball going over on downs.

With only three minutes elapsed in the third quarter, Richardson scored again on a 76 yard run. PAT failed.

Richardson scored his final TD of the night with one minute left in the third quarter. Again the PAT failed.

The Cowboy offense started rolling again shortly after the start of the fourth quarter. Monte Pierce scored on a quarterback keeper, then repeated the run for the two point conversion. Score was Memphis 19, Plains 8.

Alex Barrientes scored on a screen pass from Pierce with 4:50 left in the game. PAT failed.

The game ended Memphis 19, Plains 14.

Pierce and Barrientes were the leading rushers for the Cowboys. Chad Wall led the defense in tackles.

Blake McWhirter, leading rusher and tackler for the Plains Cowboys, was injured in the game.

He injured a ligament in his knee and will have surgery this week. This unfortunately means the end of McWhirter's high school football career. He will be missed by the Cowboys, who wish him a speedy recovery.
