### From The Superintendent's Desk

Dean Andrews

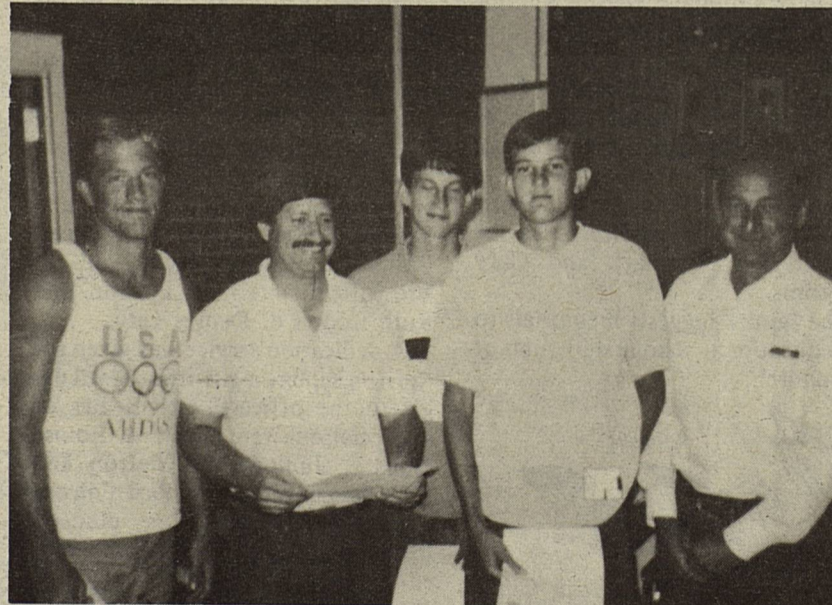

As students and teachers approach the mid-point of their summer break from school, administrators, central office personnel, and maintenance employees continue to work steadily as they prepare once again for the beginning of a new school year. Reports are filed, supplies purchased and distributed, carpets cleaned, buildings painted, grass cut and trees trimmed. Summer is a very busy time at school.

One of the items of business during the summer is to secure new teachers to replace those who have resigned. Although Plains I.S.D. receives many applications for employment, there are certain rules and regulations to follow when employing teachers for our school. The Texas Education Agency sets forth many requirements in regard to placing a teacher in a particular teaching position. To become qualified to teach in a Texas School, an applicant must have a college degree with a minimum of 126 college credit hours, a valid Texas Teacher Certificate, and at least twenty-four hours in the field of specialization (teaching field). For example, a teacher holding a bachelors degree with certification in English could not teach math, science, history, government, vocational education, physical education or speech, on the secondary level unless an emergency permit is secured. An emergency permit can only be issued by the Texas Education Agency.

When all T.E.A. requirements are met, the applicant is then screened by the principal of the school in which they will be employed, and by the Superintendent. Initially a reference check is secured for prospective employees, then an interview with the principal is scheduled, followed by an interview with the superintendent. After the interviews, administrative recommendations are presented to the Board of Trustees for final approval. The Board of Trustees and the administrative team strive to obtain the best possible teachers for the our district.

So far this summer the Board of Trustees has employed two teachers for our school: Libby Williams, a graduate of Texas Tech who will teach Home Economics classes, and Patricia Allman, a graduate of Tarleton State University who will teach computer literacy and will also coach. We welcome these two teachers to our school and to our community.

PRESENTING RESOLUTIONS TO UIL STATE TEAM MEMBERS Chad Guetersloh, Richie Cullins, instructor; Layne Morrow, Lance Morrow is board president, Melvin Lowrey.

## Plains School Board Commends UIL Students

Plains I.S.D. Board of Trustees recognized state award winning students Monday for their participation in UIL competition and passed a resolution commending their achievements.

State winners from Plains High School were Steve Crutcher, vocal;

Chad Guetersloh, science, team calculator and number sense; Lance Morrow and Layne Morrow, team calculator and number sense; and the 1989 Plains Cowboy Band.

Also recognized were their coaches, Macky McWhirter, Richie

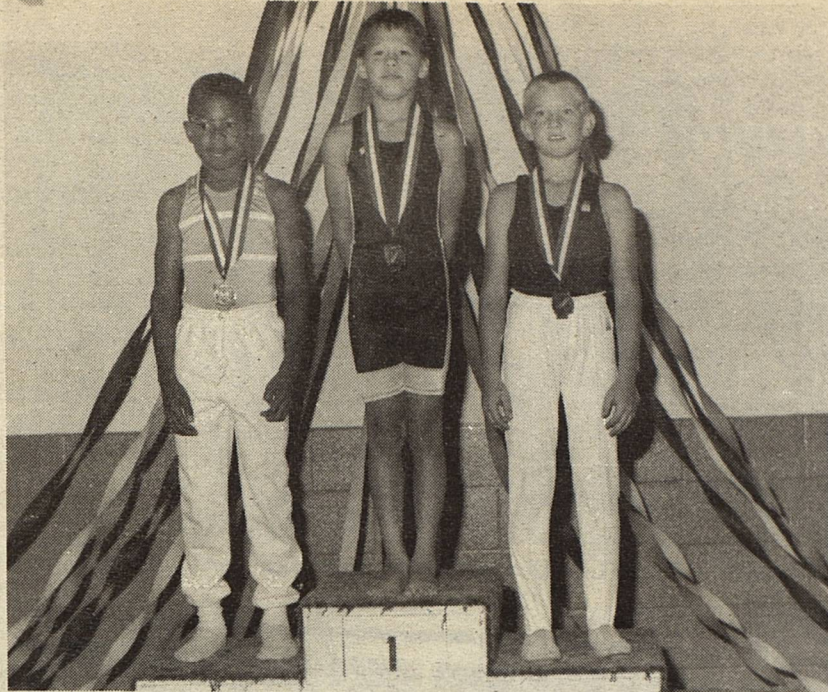

Cullins, Eric Banfield and Band Director Byron Morgan.

Trustees expressed pride in the state winners and commended the outstanding achievement of each individual and group. They also recognized the dedication and ability necessary to win at the state level

and the many hours of preparation spent in advancing to state competition.

Each student was presented a copy of the resolution which was signed by each board member and the superintendent.

JUSTIN ALCORTA of Olton, son of Joe and Debbie Alcorta, and grandson of Richard 'Rico' and Lovelia Alcorta placed first in state in the State Trampoline and Tumbling Meet held in June at Levelland in the SPC Texan Dome. Also District first place winner in the District Tumbling Meet held at Dallas Fair Park Coliseum in April, Alcorta is a fifth grade student at H.P. Webb Elementary, and will begin his third year with the Action Tumblers of Olton.

A lot of people think many of the elderly are wealthy retirees who can easily afford to give up a cost of living adjustment (COLA) and other Social Security benefits.

The fact is, most older Americans are not well-to-do. According to the National Committee to Preserve Social Security and Medicare, 62 percent of all seniors depend on it for half or more of their income! Without this inflation adjustment, the value of Social Security benefits would be cut in half in just twenty years.
