**FARM SAFETY WEEK**--In the interest of promoting safety on farms and ranches Bailey County Judge Glen Williams, right, joined with Alec Schuster, president of the Bailey County Farm Bureau in promoting safety around all phases of farm and ranch activities. Aply pictured with a large tractor at Woolley-Hurst, Judge Williams proclaimed the week of July 25-August 1 as Farm and Ranch Safety Week in Bailey County. This ties in with the Texas Farm and Ranch Safety Week which is in process at this time as proclaimed by Texas Governor Bill Clements.

## Texas Farm, Ranch Safety Week Promoted

Bailey County Judge Glen Williams has proclaimed July 25-31 as

### Jones Injured In Accident Late Friday

Around midnight Friday, a black bull and a red car tangled, and by the time it was over, both had lost. A late model vehicle driven by Monty Jones hit the black bull in the west-bound lanes of Highway 84 some two miles northwest of Muleshoe totally demolishing the vehicle. Jones was transported to West Plains Medical Center in Muleshoe by ambulance where he was hospitalized. A passenger in his vehicle received lesser injuries and did not require hospitalization. Clayton Myers, owner of the bull, was trying to load the bull into a trailer in an attempt to save the bull if possible. Mrs. Myers said Saturday morning that attempts were being made by Myers and some assistants to load the bull, who appeared to have a broken left hind leg.

Farm and Ranch Safety Week in Bailey County, at the request of Alec Schuster, Bailey County Farm Bureau president.

The local farm organization is coordinating activities within the county for the special farm safety campaign. This year marks the 36th annual National Farm Safety Week, co-sponsored by the National Safety Council and the U.S. Department of Agriculture. This annual rural safety event was begun in 1944 to help reduce farm accidents impairing wartime food and fiber production.

The theme for the week is "Personal Protection - A Defense Against Injury."

### 12 Indicted On Charges In Muleshoe

Several indictments were handed down by the grand jury when they met in session Wednesday.

Indicted on four charges each of intentionally damaging and destroying tangible property (broken windows) were Juan Vega, \$5,000 bond on each charge; Lalo Torres, \$5,000 bond on each charge; Rene Gloria, \$5,000 bond on each charge and Rudy Toscano, \$2,500 bond on each charge.

Also indicted was Solomon Charles Madrid on a theft charge, bond \$2,000.

Vicente Lujan and Santiago Leal were both indicted on burglary charges with a bond of \$5,000 each.

Also indicted on a theft charge was John L. Dilworth, bond set at \$2,000.

Indicted on forgery charges and a bond of \$2,000 each set were Daniel Jerome Laswell, Charles Robert Canfield, Larry D. Bell and Dewey Russel McIntosh.

In his proclamation, Judge Williams said "for years industries have relied on personal protective equipment (PPE) to help reduce the number and extent of on-the-job injuries. The proclamation also points out that farm safety leaders believe that PPE -- safety helmets, goggles or safety glasses,

### School Board Holds Session; More Seated

On Monday, July 23, the members of the Muleshoe Independent School District Board of Trustees met in special session.

During the meeting they reviewed the latest information available on state revenues and expenditures to be used in the preparation of the 1979-80 budget.

Members also reviewed and discussed vacancies and re-assignment of personnel with the local school administrators.

They agreed to start accepting applications for the position of superintendent of schools in Muleshoe. Applications will be accepted September 1 through October 15. The superintendent's position will be vacated on January 31, 1980, when present Superintendent Neal B. Dillman retires.

Another meeting has been scheduled for tomorrow (Monday). During the meeting board members will establish guidelines; review and approve application forms, vacancy announcements, contract forms, and interview materials to be used for the employment of a superintendent. They will also discuss asking a consultant to aid in the selection of the new superintendent.

Personnel vacancies and the possible employment of new personnel will also be discussed.

gloves, safety shoes, and such -- had been worn, it is estimated that more than four of every ten of these injuries could have been prevented or reduced in severity.

"Most of us farmers wear 'baseball type caps' that are given to us by feed, seed, fertilizer, farm equipment companies, etc., because they are comfortable to wear -- and free -- but give little head protection," said Schuster. According to the Texas Farm Bureau Safety Department, you should: Protect your head with a hard hat, bump cap when building, trimming trees, operating and repairing machinery, etc.; Protect hearing with muffs or plugs when running noisy machinery and tools, shooting, blasting, etc.; Protect lungs with proper respiration devices when working in heavy dust, applying pesticides, fumigating, working in bin, silo, or tank, etc.; Protect hands with a barrier cream, sturdy gloves (except when near moving parts); Protect body and skin with impervious garments when handling ag chemicals; Protect feet with safety shoes on all farm jobs.

The Texas Farm Bureau Safety Department has tabulated farm fatalities for the past 12 years. An average of just over 200 non-traffic farm fatalities occur each year in well over 100 different

places. The Texas Farm Bureau Safety Department has tabulated farm fatalities for the past 12 years. An average of just over 200 non-traffic farm fatalities occur each year in well over 100 different

## Increased Prices Affect Coliseum Rental And Use

Civic clubs and organizations in Bailey County are 'up in arms' about a recently adopted price change for use of the

Coliseum. Bailey County Commissioner's court for July 11, Tommy Black, manager of the Coliseum, discussed the proposed changes with the commissioner's court, and the changes were approved.

When the budget was prepared last fall, a tax levy of .01 was established to support or help support the coliseum. Receipt from taxes was estimated to be \$4,600; with \$2,000 from CETA and \$12,000 from Coliseum rental fees. Another inter-fund transfer of \$2,000 was to be from the General Fund of the county.

Disbursements were expected to be insurance, \$1,000; insurance for employees, \$312.84; utilities, \$7,000; janitor supplies, \$2,000; salaries, \$8,000; social security, \$496 and retirement, \$560, for a total of \$19,368.84.

### Around Muleshoe

Visiting over the weekend in the home of Constable and Mrs. Tom Watson was Sergeant and Mrs. R.A. Genova of the Lewisville Police Department.

Watson reported they enjoyed visiting and several days of sightseeing with the Genova's around this area and in Clovis shopping.

Genova is commander of the Lewisville Police SWAT team, a position formerly held by Watson.

Among the six Tex-Anns from South Plains College, Levelland, who will attend National Cheerleading Association's drill and cheerleading camp on the campus at Eastern New Mexico University, Portales, will be Jana Jones of Muleshoe.

They will attend special college sections and workshops designed for college drill teams.

Kathryn J. Pollard Kramer of Muleshoe is among the Eastern New Mexico University candidates for summer commencement, and received a master of education degree in secondary education.

Commencement was Friday at 8 p.m. in Grey-

### Perez Buys Janitorial Service Here

George Cabrera has retired his broom and mop. After operating a janitorial service in Muleshoe for more than 20 years, he has sold his business to Mike Perez, manager of White's Cashway.

Cabrera said eventually he and his wife plan to move to Houston to reside near their son. He said he would like to thank all the people who utilized his services over the years and who helped make his business successful.

The new owner said he will continue to manage White's Cashway, where he has been employed for the last 18 years. Perez said he has managed Cashway for the last two years and prior to that time was assistant manager for two years. For twelve years, he was assistant market manager at the store.

He said he will be supervising two persons who will continue the same type work Cabrera has offered in the past. He said he will continue a 100 percent guarantee on the work done by his assistants.

Con't on page 6, Col 1

### Bailey County Farm Bureau To Hold Meet

The Farm Bureau Policy Development meeting will be held August 3 at 8 p.m. in the Conference Room of the Farm Bureau office.

This meeting is scheduled for Farm Bureau members to prepare resolutions for the county convention. Some of the issues members should be aware of are fuel, land management, price supports, lay-out programs, minerals and it's ownership, water importation and any other issue pertaining to agriculture, according to FB Manager Ray Davis.

Any by-law changes requested have to pass county convention, so the board of directors would like to encourage members to attend this meeting.

### Lei Lani Kai, girl wrestler

Professional Wrestling Set For Muleshoe

Advance tickets have gone on sale for the next edition of the Rotary Club-sponsored wrestling in Muleshoe. Big Time wrestling is planned for 8:30 p.m. on Saturday, August 4.

Tickets are \$4.50 for ring-side, \$3.50 for general admission and \$2.50 for youths under the age of 12 years. The tickets are available at both First National Bank and the Muleshoe State Bank.

Featured will be a tag-team match between two men all wrestling fans will recognize, Cyclone Negro teamed up with El Mongol against James J. Dillon and Ricky Romero.

Also on the card will be a match between Lei Lani Kai, a Hawaiian miss and Wenona Little Heart of Window Rock, Ariz.

Others on the card will be Hooker Ted Heath grappling with Carlos Mata and Alex Perez vs. Tommy Sharp.

Don't forget to acquire your tickets for the big wrestling card scheduled when professional wrestling returns to Muleshoe.

He added, "Mrs Winn

**TURNING OVER THE KEYS**--George Cabrera, who for more than 20 years operated a janitorial service in Muleshoe, last week turned over the keys to his successor, Mike Perez, manager of White's Cashway. Perez, who will continue his work at Cashway says he will offer the same type service Cabrera has established in the past. At left, Cabrera said he will be moving to Houston to reside near his son.

**RECEIVES AWARD**--Laverne Winn, left, chief program assistant for the ASCS office in Muleshoe was presented a distinguished service award last week by Terry Hill, Bailey County ASCS Executive Director. Mrs. Winn has been an ASCS employee since 1961.

### Sidewalk Sale Planned Here Next Saturday

Muleshoe merchants, in cooperation with the Muleshoe Journal and the Bailey County Journal, will be sponsoring the annual 'Back to School' Sidewalk Sale on Saturday, August 4.

Featured by local merchants will be back to school merchandise, specially geared to help put the children back in school for the next year.

All merchants wishing to feature special merchandise in a circular to be included in the Thursday, August 2, issue of the Journal are asked to have your ad in the Journal office no later than 1 p.m. on Tuesday, July 31.

Only the special ads will be included in a special circular which will reach additional 2,000 families throughout the area.

Merchants reported fantastic results from the special circular and sidewalk sale on Saturday, June 30.

### Laverne Winn Given High Service Award

Laverne Winn, chief program assistant at the USDA office in Muleshoe received a distinguished service award for the southwest area, following a recent nomination by Terry Hill, Bailey County Executive Director for USDA.

She was presented the ASCS-Agriculture Award for outstanding contribution to the accomplishment of the objectives and work of the county office.

Mrs. Winn began her ASCS career on March 2, 1961 in Crosby County and was promoted to chief clerk, explained Hill. She and her family moved to Muleshoe on June 15, 1969, where she currently serves as chief program assistant.

Hill said, "Mrs Winn is well respected by not only the ASCS employees in this district, but the community as well. She commands the attention of ASCS employees because of her competence, cooperation, teamwork, knowledge, and understanding of ASCS programs."

"Mrs. Winn comes highly recommended by the Washington office, the district director, the county executive director and the Bailey County program clerks in the daily activities of the ASCS. She was approved by the STO for high quality performance on October 24, 1975.

He added, "Mrs Winn

# Child Abuse--A Vicious Circle

By Lily Snitker  
Child abuse can happen anywhere--even in Bailey and Lamb counties. Parents are the most frequent child abusers. But, other guardians or relatives may be involved. There are over five million children under eighteen years of age in the state of Texas.

A child may be abused physically, sexually, and emotionally. Physical abuse is defined as the inflicting of physical injury on a child. Sexual abuse is forcing a child to engage in sexual activities. Emotional abuse is failure to provide warmth, attention, supervision, or other normal living experiences. A child may also be abused verbally by excessive yelling, belittling or teasing. In 1975, 38,384 cases of suspected child abuse were reported in Texas. Although many cases could not be proved as many as 10,708 were confirmed. Of these, eight hundred and four were cases of sexual abuse. The effects of child abuse are severe. An abused child may never be able to love and trust other people; he may always have a poor self-image. Injuries inflicted in childhood may result in permanent crippling, or in

deformities. Often, abused children become young adults who act in criminal and other antisocial ways. Parents who make it a habit to abuse their children may very well end up killing them. In 1975, the Department of Human Resources received seventy reports of death attributed to child abuse. All kinds of parents abuse their children. A Texas study done in 1974 shows that confirmed reports had about as many Anglos as Mexican-American and Black combined. Studies show that child abusers are from all strata of society; from all ethnic groups; from all religious persuasions. Many abusive adults were themselves mistreated as children and thus have a poor self-image. Abuse is a vicious cycle passed on from generation to generation. Child abusers are not necessarily psychotic or mentally ill. Studies show that the proportion of psychotics among child abusers are characterized by immaturity and insecurity. They are often immature parents who look to their children for the very support and love they should be giving. Parents have unrealistic expecta-

tions of their children. They expect children to "behave like adults" at all stages of development. Often financial, job or legal problems can cause a parent to "take it out" on a child.

Drug of alcohol problems limit parental ability to care properly for children. Child abuse is tragedy that affects us all. Permanent mental or physical damage caused by child abuse can rob a person of the ability to be an independent, productive citizen. Crime, Delinquency, drug and alcohol addiction often result when a person has been mistreated as a child.

Jerre Williamson, who works for the Department of Human Resources, gave the following data about actual cases in Lamb and Bailey Counties.

For the months of April and May, 1978, thirty seven cases were reported in both counties combined. From June to December of 1978, fifty nine cases were reported. This year, fifty four cases have been reported to June 1979.

The Department of Human Resources is the agency charged by Texas law with the protection of Texas children. Too often, child abuse is not reported because people who could help "don't want to get involved." Texas law now makes it a misdemeanor not to report child abuse. The law provides immunity to prosecution to those making reports, unless the report is done in malice. When a report of child abuse is received, an officer or agency person looks into the matter. If a report is confirmed, a child is placed in a foster home or in the hospital if the child is at high risk of re-injury. In severe cases, the court will decide

whether separation will be temporary or permanent. Counseling and medical help is available to abused children and their parents. The attitude of the Department of Human Resources toward child abusers is non-punitive. It is always the aim of the department to keep the child in his own home; if at all possible; and to rehabilitate the home. To report child abuse, contact the local office of Department of Human Resources or local police or call this state-wide toll-free number, 1-800-252-5400, at any hour of the day or night.

Child abuse is a symptom of parental problems. It won't go away if ignored. It can't be treated by punishing the parents. For the sake of the children, and their parents, learn about child abuse. People can help abused victims and their parents, with their time, resources or just with understanding. Concerned citizens can support the legal and social efforts to combat child abuse. Report child abuse when you see or suspect it.

### Alternate careers: business, industry

AUSTIN, Texas (Spl.) — When a glutted job market in academe threatens to crimp the career plans of persons with Ph.D. degrees in social sciences and humanities, The University of Texas has ridden to the rescue with a new plan.

Through its Graduate School of Business, UT Austin will permit a selected group of such doctoral-level students to take some basic business courses as a means of letting the students examine business and industry as alternate careers.

Each summer session, 30 such Ph.D. students will take five "core" business courses — finance, management, marketing, accounting and macro-economics — and will have the job placement program of the Graduate School of Business open to them.

## OFFICIAL RECORDS

## Enochs News By Mrs. J.D. Bayless

The Coffman family met at the Mahon Party House in Lubbock July 4 for their annual reunion. All of the Coffman children were present except for Mrs. George Henderson of Azel.

Those present were Mr. and Mrs. Claud Coffman of Muleshoe, Mrs. Gracy Swanner of Lubbock, Mr. and Mrs. J.C. Bayless of Enochs, Rev. and Mrs. Clarence Coffman of Lake Brownwood, Mr. and Mrs. Carl Coffman of Lamesa, Candace and Jason Glenn of Albuquerque, N.M., Chester Coffman of Big Springs, Ronald Coffman of Abilene, Rev. and Mrs. Ray Cunningham of Fluvanna, Mrs. Pruda Coffman of Morton, Jim Bratton of Abilene, Arthur Bratton of Abilene, Mrs. Lillian Artley of Crosbyton, Carl Hall of Enochs, Mrs. Clara Hall of Lubbock, Mrs. Avenell Moffett of Cushing, Okla., Mr. and Mrs. Harry Shearer and children of Houston, Mr. and Mrs. Jim Swanner of Lubbock, Mrs. David Blose and Sarah of Stillwater, Okla. Rev. and Mrs. C.T. Cunningham of Alliance, Neb., Mr. and Mrs. David Coffman and daughters of Lubbock, Mr. and Mrs. Gary Baty of Seminole, Mr. and Mrs. Harvey Coffman and daughters of Garden City, Mr. and Mrs. Wendell Lee Speck and Sandra of Sarth, Mr. and Mrs. Mickey Rundell and children of Ackerly, Mrs. Nona Montgomery of Lubbock and Mr. and Mrs. Bill Cunningham of Lubbock.

Mr. and Mrs. Clifford Snitker spent Wednesday night with their son, Mr. and Mrs. Curtis Snitker of Hart.

Rev. and Mrs. Ray Cunningham of Fluvanna spent Wednesday night and were dinner guests Thursday in the home of her sister, the J.D. Bayless.

Enroute home from a Family reunion, Mrs.

Winnie Byars visited her daughter, Mrs. Henry Hardaway and family. Her grandson Robert returned home with her.

Visiting in the home of Mr. and Mrs. W.R. Welch were her parents, Mr. and Mrs. John Shepard of Breckenridge; two sisters, Donna Linsae of Escondido, Calif., Jan, Shellie and Debbie White of Arlington and a brother, Mr. and Mrs. James Shepard and sons of Earth.

Mr. and Mrs. Bob Adams were supper guests in the home of Mr. and Mrs. Zed Robinson on Saturday and spent the night with Mr. and Mrs. John Gunter of Muleshoe. They also visited their granddaughter, Mr. and Mrs. Glenn Green while in Muleshoe.

Mrs. Winnie Byars and grandson Robert attended the Roller family reunion Sunday at the Merchant Building of Fairpark Coliseum in Lubbock with 138 in attendance.

Guest in the home of Mr. and Mrs. J.D. Bayless Saturday and Sunday was their daughter, Mr. and Mrs. Leland Finley of Odessa. Mrs. Pruda Coffman visited with them Sunday afternoon.

Mr. and Mrs. J.E. Layton and sons, Jarol and Keith were guests in the home of his brother, Mr. and Mrs. Harold Layton of Dell City Sunday.

Mr. and Mrs. Andrew Petree of Levelland were guests in the home of his brother, Mr. and Mrs. Chester Petree Monday.

Mr. and Mrs. Max Gobble and Machiel of Hobbs, N.M. were guests in the home of her parents, Mr. and Mrs. W.L. Welch recently.

Mrs. Guy Sanders and her sister, Mrs. Morris Phillips drove to Roaring Springs last Monday and did some work at the cemetery where their parents and other relatives were buried. They also visited Mr. and Mrs. Gerald Byars.

A job change affects the whole family unit, not just the individual involved, points out a family life education specialist, Diane Welch, with the Texas Agricultural Extension Service, The Texas A&M University System.

### Farm Safety Week July 25 to 31

Check out the machinery. Is it in good shape? Check out the electrical equipment and wiring--Is it safe and sound? Do you need any additional wiring for new equipment? Then, when you're sure everything is in tip-top shape you can relax. Also, a safe farm is a profitable one.

## REBATES UP TO \$2,500 LEASES DOWN TO 7.50% LEASE RATE

Buying a Valley irrigation system this summer could be the smartest thing you could do all this year. We are offering you a choice of either big rebates or long-term leases at rates that are hard to believe. On Valley linears and corners the rebates are as high as \$2,500. On regular systems rebates are as high as \$1,250. You save the most by acting now, not later, because rebates decline in value after August 17th.

For Valley linears and corners, make a 10% down payment. We'll put the system on your farm and you won't have to make the next payment until January, 1981! The lease rate is an unbelievable 7.50% in July and goes to 7.63% on August 17th. You can make about the same deal on a regular system and the rate is 8.64%. If you don't want the January, 1981 second payment plan, the rate is 8.24%. We even have an interest free finance plan to January, 1980. See your Valley dealer, he has all the facts.

If you wait, you're losing money.

## The Speaker Reports

by Bill Clayton

AUSTIN—Numerous bills on the promotion of alternative energy sources were introduced and some important legislation was passed during the recently completed legislative session.

H. B. 1490 by Rep. Joe Hanna will help promote the development of geopressed-geothermal resources by characterizing such resources as minerals and eliminating the potential ownership clash between owners of the surface estate and those of the mineral estate.

H. B. 1986 by Rep. Bill Keese established the licensure requirements for the production of alcohol for gasohol, and S. B. 804 by Sen. Bob Vale encourages the use of solid waste for electrical power generation. In the area of the traditional energy mainstay—oil and gas production, the House enacted S. B. 257 by Sen. Peyton McKnight which allows the Railroad Commission to regulate nonpressure connected oil and gas producing strata as a single field.

H. B. 1457 by Rep. Dick Slack will provide additional revenues to the state by allowing the General Land Office to lease Relinquishment Act lands if the surface owner is unknown.

An uncertainty for offshore production was corrected by S. B. 1176 by Sen. Gene Jones, which settled a

controversy over the authority of coastal cities and towns to annex and tax offshore oil and gas production. The environment for the development of energy production was promoted by the House in passage of legislation in the areas of alternative energy supplies, energy conservation, LPG safety, and traditional oil and gas production.

Energy is the most complex and uncompromising problem we face as a state. These measures, other steps being considered and long-range planning are the ways the legislature is coming to grips with this issue.

### BONDS & INTEREST

President Carter has approved a half a percent increase in the interest rate paid by the government on several types of savings bonds. It applies to E and H savings bonds issued as of June 1 if they are held to maturity and on the recently announced series EE and HH bonds, which will go on sale in January, 1980.

## Demos To Keep '80 Presidential Primary Option

A state Democratic rules panel chaired by Mrs. Carrin Patman of Ganado voted Saturday "to keep fully open" the Party's option to hold a presidential preference primary in connection with its regular 1980 May 3rd primary election. It also approved a plan based on the

traditional Texas convention system for the actual election of Texas' 152 delegates and 77 alternates to the 1980 Democratic National convention. The committee's recommendations will now go to the full State Democratic Executive Committee for approval at a meeting to be

held in Corpus Christi on July 28th.

Said Mrs. Patman, SDEC member from the 18th senatorial district, "I am extremely pleased with the committee's recommendation. It is a middle-ground, common sense approach which allows us to judge the national presidential picture as it develops between now and next spring and to decide at that more appropriate time whether it would be worthwhile to hold a presidential primary."

"If Carter turns out to be the only candidate, a presidential primary would only cost the taxpayers money and force local election officials to have to count the votes in an extra, meaningless race."

"On the other hand, if a serious contest develops between now and next March -- say, between Kennedy or Brown and Carter -- voters might want a chance to express a preference at the primary election. The SDEC then could and undoubtedly would add a preference poll to our May 3rd ballot in the form of a voter referendum."

The subcommittee -- by a vote of 10 to 2 -- rejected a proposal by Nancy Williams of Austin to glue the Party into a presidential primary now, with the idea of backing out later is no viable contest develops.

"The committee," explained Mrs. Patman, "felt that was putting it backwards. We felt that it makes more sense to wait to decide until all the facts are known, rather than saying 'Let's rush into a

decision now and then reverse ourselves later, if it turns out the decision was wrong."

Prior to reaching their decision Saturday, the Rules Committee had received testimony from

approximately 200 Democratic leaders by mail and at a series of public hearings held in Houston, San Antonio, Lubbock, Austin, and the Dallas-Ft. Worth area.

"The input from these grassroots Democrats has been invaluable," said Mrs. Patman, "and I believe our committee has responded faithfully in our recommendations to what our rank-and-file Party members want us to do."

## Hungry 'Hoppers in Texas Panhandle

AUSTIN—There is a range war going on in the Texas Panhandle, but it looks more like a bombing raid than a shootout. The targets are tiny, although numbering in the millions.

The enemy is grasshoppers. Millions of grasshoppers are threatening thousands of acres of rangeland in 13 Panhandle counties and are being sprayed around the clock by personnel of the Texas Department of Agriculture (TDA) and the U. S. Department of Agriculture (USDA).

By the time the spraying ends this month, more than 1.4 million acres of range will have been treated at a cost of around \$1.5 million in state, federal and private funds to control the voracious insects that have invaded Texas and 13 other states in the greatest number since 1958.

According to Agriculture Commissioner Reagan V. Brown, the cost-sharing aerial application program has been a "war on grasshoppers" that present "a very real threat to High Plains' agriculture and to food production in that area."

Brown added that the program is proving successful. "It looks like we are going to win the war," he said. Preliminary reports indicate 95-99 percent control, about the same level that was achieved last year.

Spraying has been taking place in Childress, Roberts, Carson, Hutchinson, Dallam, Lipscomb, Moore, Armstrong, Sherman, Potter, Hall, Collingsworth and Gray counties.

Only rangeland meets federal guidelines which do not cover control on cropland.

Acreage is being sprayed in blocks to prevent skipping heavily infested areas. "If land is skipped, grasshoppers will reinfest acreage that has been treated," Brown said.

The grasshopper control program divides costs among TDA, USDA and the ranchers whose land is being sprayed. TDA's one-third share is expected to reach \$500,000, exhausting the program's funds for the fiscal year.

The program will end naturally by the end of July when grasshoppers reach maturity and begin laying eggs. "Federal guidelines call

for making the treatment before the eggs are laid," Brown said. "This procedure provides control for this year and also reduces the size of the hatch for next year, possibly eliminating the need for treatment."

This year's infestation has covered four times as many acres as last year's, but infestation rates have been about the same, between 10-80 per square yard. Eight grasshoppers a square yard qualified range for spraying.

TDA personnel have been sharing duties with the USDA in surveying, flagging aircraft and supervising pesticide application.

"Some of these men and women will have worked four and five weeks away from home straight through the weekends by the time the program ends," he said. "We appreciate their dedication in taking care of the needs of ranchers."

\*\*\*\*  
Our advice to you this week is to take care of your heart, and live a while.

### Consumer Food News

COLLEGE STATION-- Best buys at Texas grocery markets this week include poultry, pork and some fresh fruits and vegetables.

Also, "specials" in frozen food chests and along grocery market aisles offer budget-stretching menu items, according to Gwendolyn Clyatt, a consumer marketing information specialist.

Mrs. Clyatt is with the Texas Agricultural Extension Service, The Texas A&M University System. **POULTRY**-- Special prices appear on fryer chickens -- whole, cut-up and split. Also, legs and thighs have low prices, and mixed parts offer a good value.

Eggs have reasonable prices, and turkey is a feature in some markets.

**PORK**-- Best buys are hams, bacon, quarter-loins cut into chops, Boston butts, loin roasts, smoked picnics and liver.

**FRESH FRUITS**-- Attractive prices signal good buys on bananas, cantaloupe and watermelon.

Watch prices carefully on soft summer fruits -- they have varying price levels. These include peaches, plums, nectarines and grapes.

Also, varying prices appear on honeydew melons and avocados.

**FRESH VEGETABLES**-- Budget items are cabbage, cooking greens, cucumbers, peppers, onions and potatoes, along with soft-shell squash and okra. Moderate prices appear on carrots, snap beans, corn, radishes and green onions, as well as several varieties of southern peas -- including blackeye, purple hull and cream.

**FROZEN FOODS**-- Specials include orange juice, lemonade, vegetables, fried chicken and sherbet.

**GROCERY MARKET AISLES**-- Feature prices appear on canned fruits and vegetables, breakfast cereal, tomato juice, elbow macaroni and sandwich fixings.

**DIARY**-- Specials are varied with much emphasis on lowfat milk, half and half, sour cream, whipping cream, cheese slices, cottage cheese and mild cheddar cheeses.

**CONSUMER WATCHWORDS:** Take special care of long white potatoes -- newly dug and quick to spoil without proper attention.

These potatoes, in good volume with low prices, have thin skins, so buy only enough for a few days and be careful not to bruise them.

## Welcome To Muleshoe

Max Earl, Bess, Audrey and Rebecca Marshall

This week we extend a special welcome for the Max Earl Marshall Family. Max Earl & Bess have recently moved from Center, Ala. Max Earl comes to Bailey County Electric Cooperative Association with 15 years of telephone experience. He is employed as Line Supt.

The Marshalls have two daughters, Audrey, 9 years old and Rebecca who is 4 years old. They are interested in getting to the swimming pool and playing outside. Bess enjoys taking care of her family and sews. Max Earl likes to hunt in his spare time.

Bess and Max Earl have attended the Baptist church. They are impressed with the friendly atmosphere of Muleshoe.

# Miss Dusty Dawn Kinnison, Doug Precure Solemnize Vows At Olton

Wedding vows were solemnized Friday, June 29 for Miss Dusty Dawn Kinnison and Raymond Douglas Precure. Officiating the double ring ceremony in First United Methodist Church of Olton was the Rev. Olin Cosby. Parents of the couple are Mr. and Mrs. Ray Kinnison of Olton and Mr. and Mrs. Ray Precure of Muleshoe.

of white glads and mums flanked the archway. The memory candle completed the decor. Mrs. Delmer Given, organist of Olton and Mrs. Dale Cary, pianist of Olton, presented nuptial selections. Mrs. Cary accompanied Kim Kinnison, sister of the bride of Olton, as she sang "My Love" and "You Make Me Feel Brand New". Judy Precure, cousin of the groom played musical selections during the reception. Given in marriage by her

father, the bride wore a formal gown of white organza over peau de soie. Fashioned with moulded bodice, it featured a sheer yoke overlaid with Venise rosebud lace. It was styled with a high wedding ring collar and full bishop sleeves. Her A-line skirt was edged with Venise lace and swept to a chapel length train. Lace edged, her sheer illusion veil fell fingertip length from a lace and pearl caplet. She carried a bouquet of white roses, carnations and baby's breath surround-

ing an orchid. Satin streamers and wedding bells accented the cascade bouquet. Keeping traditions, the bride wore a diamond necklace as "something Old" and her attire was "New". She "borrowed" the engagement ring of her aunt, Jewel Kinnison of Denver City. She also wore the traditional blue garter.

Mr. and Mrs. Tom Bogard of Bula and Mr. and Mrs. Raymond Kinnison of Denver City, grandparents of the bride, and Mr. and Mrs. Walter Harrison of Springdale, Ark. and Mrs. Raymond Precure of Muleshoe, grandparents of the groom. Mrs. Bernice Simpson of Wellington,

great-grandmother of the groom, also attended. Out of town relatives and friends attending were Mrs. Glenn Gaston, Junction; Mrs. Delbert Roberts, Rance and Kendon; Mrs. Dennis Elam, Andrews; Mr. and Mrs. Roy Blackman, Clarendon; Mr. and Mrs. Jake

Bogard, Shell and Brad, Charlie; Mr. and Mrs. Melvin Kinnison, Shonda and Shaine, Earth; Mr. and Mrs. Donnie Kinnison, Nan, Donnie Ray and Justin, Denver City and Mr. and Mrs. Freddy Kinnison, Levelland. Also Mrs. Ed Miller, Jeff and Janet, Houston; Mrs. Jerry Blakely, Little-

field; Mr. and Mrs. Kenneth Precure and Judy, the Don Harrison family, the Ted Harrison family and Mrs. Jerry Harrison, all of Muleshoe; Mr. and Mrs. Keith Poor and Mr. and Mrs. Chet Miller, Randy and Dennis of Springdale, Ark. and Mr. and Mrs. Stan Harrison, Arch, N.M.

JEAN HARLAN, MEGAN AND STACY

## Mrs. Harlan, Megan, Stacy Feted With Layette Shower

Mrs. San (Jean) Harlan and one month old twin daughters, Megan and Stacy, were honored with a Layette Shower on July 25 from 10 to 11:30 a.m. in the First Baptist Church. Guests were greeted by the honoree, Mrs. Harlan; and the infants' grandmothers, Mrs. Grady Speed of Victoria and Mrs. W.G. Harlan of Muleshoe. Sue Holt registered the guests in the baby book. The serving table was laid with a white cloth with an orange and yellow border print. A ceramic white elephant with potted

ivy centered the table. Crystal appointments were used to serve the white and pink sheet cake, punch, nuts and mints. Karen Harris, Shirley Lynn and Donna Redwine served the refreshments. The hostess gift was a high chair. Special guest was Melanie Bruton of Taft, the babies' cousin. Hostesses included Sue Holt, Karen Harris, Shirley Lynn, Donna Redwine, Carol Faulkner, Marcella Jennings and Susie Rhodes.

### Take Caution During Hot Summer Months

Guard against heat exhaustion, heatstroke or sunstroke during hot Texas months, cautions Carla Shearer, a health education specialist.

Ms. Shearer is with the Texas Agricultural Extension Service, The Texas A&M University System.

The combined effects of sun, exercise, heat and excessive perspiration which result in loss of fluids and salts can produce these serious conditions.

#### HEAT EXHAUSTION

The body's normal reaction to high temperatures is to pool blood near the surface of the skin so that sweat is formed and then evaporated into the air releasing heat.

This process works very well in most instances, the specialist says.

However, when a person is exposed to high temperatures -- especially combined with high humidity -- for a long period of time, the vessels deep in the body may lack sufficient blood resulting in heat exhaustion.

Some symptoms of heat exhaustion include muscle cramps and weakness, and although the victim's temperature may be near normal, the pulse is often very weak. The skin is usually cool but very pale and moist.

Treatment consists of getting the person out of the sun immediately. Slowly sipping cool -- not cold -- water will help cool down the body.

#### SUNSTROKE HEATSTROKE

Heatstroke, or sunstroke, is more serious than heat exhaustion. It's often a medical emergency.

A breakdown of the cooling system of the body which causes the body temperature to rise uncontrollably causes heatstroke, the specialist explains.

Because the sweating mechanism is not working, there is very little perspiration.

One symptom of heatstroke is dry, red, hot skin and a fast, strong pulse. The victim may also be nauseated and have a headache. There is also a possibility of the person collapsing.

As in the case of heat exhaustion, the important thing is to get the victim out of the sun and to lower the temperature.

Sponge the person with water, especially around the head. Avoid giving the victim stimulants such as tea or coffee because of the possibility of complications such as increased blood pressure.

If the person is unconscious, give no fluids at all, Ms. Shearer cautions.

#### PREVENT SUNSTROKE HEATSTROKE

To prevent sunstroke or heatstroke, avoid being in

\*\*\*\*  
Memory is the product of intelligence and work.

the sun and heat for a long period of time, drink a sufficient amount of liquids and wear loose-fitting clothing such as cotton T-shirts which help to retain perspiration and keep the body cool.

**SPECIAL RECOGNITION:** Dottie Wilterding, left, was chosen as the July Resident of the Month of the Muleshoe Nursing Home. Judy Sawyer, Director of Nurses was elected by the residents as Employee of the Month. The awards were presented at the monthly birthday party Thursday afternoon at the Nursing Home.

### TOPS Has Weekly Meeting

Lanell Skaggs and Vickie Garner are the new runner ups to the TOPS weekly queen.

Leader Clara Lou Jones called the group to order on July 26 at 6 p.m. in the Community Room of Bailey County Electric. Roll call was given by

Evelyn Harris with 18 members weighing in. Members sang the TOPS song and recited the pledge.

Jewel Peeler received material for three weeks of consecutive weight loss. She also celebrated her birthday.

Members are reminded that the next meeting will be the crowning of the monthly queen.

The meeting was dismissed with the Good-night Song.

### Residents Celebrate July Birthdays

Four residents of the Muleshoe Nursing Home were honored on their birthdays Thursday afternoon.

Grace Kemp, 79, was born July 2, 1900. She has been a resident at the Nursing Home since June 1, 1979. Carrie Boydston, 93, was born July 13, 1886. Eva West, 93, was born July 16, 1886. She has been at the Nursing Home since June 17, 1979. Maggie London, 77, was born July 15, 1902. She

has been at the Nursing Home since June 20, 1978. The Needmore Community Club served refreshments of cake and punch.

Odessa Shanks entertained at the piano. Flowerland furnished corsages of orchid, yellow and white daisies.

GRACE KEMP AND MAGGIE LONDON

**COUPLE PLAN SEPTEMBER VOWS:** Mr. and Mrs. Preston Cargile of Muleshoe and Mr. and Mrs. Wilbert Stevenson of Hayden, N.M. wish to announce the engagement and approaching marriage of their children, Donna Elaine Cargile and Ralph Stevenson. The couple plan to solemnize vows on September 22 in the Primitive Baptist Church of Muleshoe. The bride-elect is a 1979 graduate of Lazbuddle High School and attended West Texas State University. Stevenson is a graduate of Amlstad High School in Amlstad, N.M. and attended Eastern New Mexico University. He is presently engaged in ranching.

**AUGUST WEDDING PLANNED:** Mr. and Mrs. Donnye Baker of Morton wish to announce the engagement and approaching marriage of their daughter, Miltz Dawn Baker to Jerry Ethridge Waltrip, son of Mr. and Mrs. Dean Waltrip of Maple. The couple plan to marry on August 31 at 7 p.m. in the First Missionary Baptist Church of Morton. The bride-elect is a 1979 graduate of Morton High School and is currently employed at the Cochran County Soil Conservation Office. The prospective groom is a 1978 graduate of Three Way High School and attended ASU at San Angelo. He is currently engaged in farming in the Maple Community.

in a farm pond or tank; (3) falls, 23, including those at ground level as well as those from ladders, platforms, and farm machinery; (4) firearms, 22, with mishaps split between those accidents occurring in the field and those occurring in and around the home; and (5) tractors, 18, most of which included overturns on both the same level and different level, run over by or fell from the tractor.  
 According to the 12 year study, more than 2,400 Texas rural farm and ranch family members suffered fatal accidents, excluding automobile accidents. Only 20 counties, representing less than two and one half percent of the state's rural population, had no fatal accidents. The largest number of rural farm and ranch fatalities in one county was 29, excluding traffic.  
 During 1978, one county recorded eight, on the farm non-traffic fatalities which included five fire deaths in the same farm home; one asphyxiation from butane gas; one home fall and one gunshot (hunting.)

**One Fireman In Training School Held**

Wavland Harris, volunteer fireman on the Muleshoe, Volunteer Fire Department of Muleshoe, has attended the 50th Annual Texas Firemen's Training School July 22-27. The school, attended by nearly 1,820 students represented about 728 cities from more than 32 states. was held on the Texas A&M University campus last week.  
 Firemen selected their course at the school from a list including Fire Fighting, Fire Prevention, Fire Department Officer Training, Fire Department Pump Maintenance, Specialized Fire Protection, and Disaster Rescue Training.  
 Fireman Harris was sponsored by Bailey County Farm Bureau and Texas Farm Bureau Insurance Companies by contributing toward the cost of the school. Since volunteer firemen were interested in attending this school to help do a better job of fire fighting and fire prevention, 100 County Farm Bureaus and Texas Farm Bureau Insurance Companies in the state-wide program have sponsored 100 firemen at the school.  
 "The Farm Bureau Insurance Companies believe volunteer fire departments have been very effective in reducing the amount of loss involved by fire in rural areas," said President Carrol G. Chaloupka of Dalhart. "It is our hope in sponsoring this program that the fireman will help the Muleshoe Volunteer Department to better serve the residents of Bailey County."

**The Scientists Tell Me... Poisonous Plants on Rangelands Increase Meat Production Costs**

By Robert L. Haney  
 TAES Science Writer

Toxic plants in pastures cause a tremendous economic loss to livestock owners and higher prices to consumers because of animal deaths, loss of production of meat, milk, wool, and mohair, plus reproduction problems.  
 It has been estimated that in some years poisonous plants in Texas alone, cost the livestock industry more than a hundred million dollars. The figure for the Great Plains and Western States is several times as much.  
 It's impossible to accurately estimate the losses from animals that have been poisoned without dying but left chronically ill.  
 Equally difficult to assess are the economic losses from the thousands of acres of rangeland left unused a part of the year, or year round, because of poisonous plants.  
 More than 130 species of poisonous plants are known to grow in Texas, with at least 80 of them recognized to be of economic importance.  
 Credit for a good deal of our present knowledge of this costly problem must go to a former professor at Texas A&M University, Dr. J. W. Dollahite.  
 More than 40 years of Dollahite's professional life with the College of Veterinary Medicine were devoted to research and observations of toxic plants in Texas for the Agricultural Experiment Station.  
 Sharing credit with Dollahite for much of our present level of knowledge are two toxicologists, Drs. B. J. Camp and E. Muri Bailey. Camp, for example, was one of the discoverers of the long-sought cause of poisoning by bitterweed. Bailey is a national and international authority on treatment of animals poisoned by plants or chemicals.  
 During the summer months, Bailey says, the following are some of the plant hazards on rangelands:  
 Twin-leaf senna is a threat from May through August to

both cattle and sheep. Sicklepod senna is most dangerous in August and September.  
 Signs are loss of appetite, weakness, and diarrhea. Cattle and sheep are often paralyzed in the hindquarters.  
 Death usually occurs within 24 hours of the onset of signs. There is no remedy except prevention — keeping cattle from infested pastures.  
 Senecio species (threadleaf groundsel, wooley groundsel, Riddell groundsel, broom groundsel) are very common in the southwestern United States. Senecio deaths occur all summer as a result of animals having eaten the plant the previous fall. Some animals have developed liver failure 6 months after removal from infested pastures.  
 Cattle and horses are primarily affected; sheep and goats are apparently more resistant and require more plant material to be poisoned.  
 Early signs include continuous walking; nervous disturbances such as the urge but inability to urinate; and frequent voiding of small amounts of bile-stained diarrhea. Animals grow progressively weaker, as the disease progresses, until death occurs.  
 Research results indicate that animals eating groundsel should be removed from the herd or, if practical, the herd moved to a pasture free of groundsel.  
 Supplemental feeding helps if pastures are in a poor condition.

Threadleaf groundsel is highly susceptible to 2,4-D, and good kill has been obtained by spraying with the low-volatile formulation at 1 pound per acre. Spraying from April through June with either ground or aerial equipment gave best results.  
 Except for chemical control, information on Riddell groundsel is the same as the foregoing on threadleaf groundsel and wooley groundsel. Satisfactory control of Riddell groundsel has been obtained by spraying with the L.V. ester of 2,4-D at the rate of 1 pound per acre during the summer and fall after effective rainfall.  
 Bailey says that there are many other plants that can cause trouble in the summer, including Bermuda grass which can cause pulmonary emphysema, bracken fern in July and August, which poisons both cattle and horses; and caltrop which affect cattle and goats.

# Santa Fe Opposes New Windfall Tax

John J. Schmidt, president of Santa Fe Industries, today appeared before the Senate Committee on Finance in opposition to the Windfall Profits Tax passed by the House and strongly agreed with the principle of President Carter's announced deregulation of heavy oil. He urged the committee to include, in any legislation enacted, exemptions for heavy crude oil, energy production credits and other provisions that would help increase the supply of domestic crude oil for the benefit of the country.

Santa Fe Natural Resources, Inc., a subsidiary of Santa Fe Industries, Inc., is engaged in domestic oil and gas exploration and production and is classified in the petroleum

industry as an independent domestic producer with an average daily production in 1978 of 44,700 barrels.

Schmidt, while opposing any crude oil excise tax, urged the Committee to include in any crude oil excise legislation: an exemption from the application of the crude oil excise tax of all domestic crude oil with a gravity of 16 degrees (API) or less; an energy production credit for qualified investment in domestic energy; a definition of qualified investment for the purpose of the energy production credit which includes all enhanced recovery projects and all other expenditures which make domestic energy available for use; and a definition of newly-discovered crude oil

which encompasses crude oil made recoverable through investment in enhanced recovery projects.

Outlining Santa Fe's opposition to the crude oil excise tax, Schmidt pointed out, "like the DOE's regulation of the price and allocation of crude oil, it does exactly the wrong thing—it places a burden on domestic production. Instead of encouraging increased production, it takes away money needed for investment in producing properties in the U.S." In Schmidt's view, the tax is an unjustifiable attempt to blame and punish domestic oil producers for the surge in the price of gasoline, gas station lines and inflation when the real problem is excessive reliance on foreign crude.

"Santa Fe, as a domestic producer," Schmidt said, "is properly part of the solution, not the problem. Given the nation's need to provide every possible incentive to domestic producers to expand their production of domestic energy, the imposition of this punitive tax is unjustified and illogical," he stressed.

"As the Chairman of the Finance Committee has stated, at the inception of crude oil price and allocation regulations, 75 per cent of the oil consumed in the U.S. was produced domestically. Since the imposition of these regulations, domestic crude oil production has dropped to 50 per cent of our needs," Schmidt said.

Referring to his own company's situation, Schmidt said, "Santa Fe has suffered a restriction of operational flexibility as well as reduced revenues under these regulations and as a result has been forced to forego investment in domestic refinery capacity which we actively sought, investment in enhanced recovery projects which would have turned known crude oil deposits into recoverable reserves and investment in domestic exploratory programs."

Although opposing all controls on domestic production, the Santa Fe president urged that heavy crude oil with a gravity of 16 degrees (API) or less be exempt from any crude oil excise tax. Referring to President Carter's announcement early this week on immediate decontrol of heavy crude oil and his recommendation that is be exempt from the crude oil excise tax, Schmidt said, "Santa Fe, as a major independent producer of heavy crude oil in California, fully agrees with the President that such incentives are needed to stimulate full development of heavy crude oil reserves. Because the price received for heavy crude oil has been controlled, the economic justification has not existed for investment in

equipment and facilities necessary to develop and produce fully the potential of heavy crude oil properties."

Schmidt also urged Congress to include in any legislation, an energy production credit for qualified investments in domestic energy and a definition of newly-discovered crude oil which encompasses crude oil made recoverable through investment in enhanced recovery projects. Such credit would represent a dollar-for-dollar credit against the tax for commitment to expend such funds for qualified investments in domestic energy projects. Any amount set aside and committed to investment in qualified energy products would reduce the excise tax otherwise payable. As proposed by Schmidt, if the amount of the credit was not expended within a reasonable period of time, not less than three years, the deficiency would be repayable to the government.

Santa Fe Natural Resources' net income since the crude oil price rise in 1973, Schmidt reported, totals \$191.8 million. In the same period (1974-1978) capital expenditures for exploration and production development have totaled \$267.6 million or \$75.8 million more than net income. Moreover, increased capital expenditures in exploration and production development are planned. For 1979, approximately \$100 million has been allocated for exploration and production development. Before the President announced his decontrol program, as much as \$500 million had been considered for exploration and production development for the four-year period, 1980-1983. Schmidt added that, "Santa Fe expects to increase this budget in response to the President's program. However, since Santa Fe's investment in exploration and enhanced recovery projects is principally dependent on internally generated cash flow, the imposition of a crude oil excise tax without the credit will reduce what can be added to our exploratory and enhanced recovery budget."

Referring to the tax bill as passed by the House, Schmidt estimates that Santa Fe would pay at least \$70 million in crude oil excise taxes in the four-year period, 1980-1983. An energy production credit would permit these funds to be earmarked for investment in areas designated as qualified investments. If the Committee felt a limitation on the amount of energy production credit that can be taken in one year is necessary or desirable, Santa Fe would not oppose a reasonable upper limit on the amount such as \$100 in any taxable year.

"Over 80 per cent of Santa Fe's crude is produced by enhanced recovery techniques," Schmidt said. "In May, 1979, 21,000 barrels per day came from Santa Fe's properties in the Midway-Sunset field in California which has been in production for 70 years. However, we believe that the properties in this field owned by Santa Fe and other oil producers have a potential for another billion barrels if proper enhanced recovery operations are undertaken." In 1977, Santa Fe acquired the oil and gas properties of Westates Petroleum for over \$70 million and has spent an additional \$12 million to raise the output by 500 barrels per day (or 20 per cent) using enhanced recovery techniques. In the past 10 years, Santa Fe has produced and added to proved reserves millions of barrels of crude oil which would not have been made available without enhanced recovery.

Schmidt pointed out that the excise tax would reduce the number of enhanced recovery projects Santa Fe could undertake or maintain. Santa Fe has considered

plans for a number of enhanced recovery projects in California which have the potential for bringing on production of several million barrels of crude oil. A proposed project to develop a deposit of ultra-heavy crude oil near Oxnard could yield 20 million barrels. "As a case in point, Santa Fe is the operator of an enhanced recovery operation in the city of Torrance, where at least 2.5 million barrels exist. If the funds from the sale of crude at market prices were available, the project would be more feasible but if the excise tax takes over half of the increased revenues the property could of necessity be shut in and over 2.5 million barrels of crude will remain in the ground since we could not justify the investment or the continuing level of expenses needed to extract it in the face of price controls followed by a heavy excise tax proposed by the House of Representatives," Schmidt said.

"The tax credit provision should be simple and should not include," the Santa Fe president said, "any elaborate qualification of a project with some bureaucratic agency and, above all, should not apply, as the House bill does, only to projects deemed 'uneconomic.' What the country needs now is the application of proven enhanced recovery techniques such as water-flooding, cyclic steam injection, steam drive and gas injection to stimulate the recovery of the known crude oil accumulation in the United States."

"We agree," Schmidt said, "with giving relief from the domestic crude oil excise tax for finding new deposits of crude oil thereby adding to domestic resources. For the same reason, the definition of what constitutes newly-discovered domestic crude

oil should be broad enough to encompass oil made recoverable by enhanced recovery techniques."

"When Santa Fe began its enhanced recovery projects in 1964," Schmidt said, "it had total reserves of 43 million barrels. As a result of such projects we have not only been able to produce for 15 years, but we have increased our reserves to 131 million barrels. The increase attributable to enhanced recovery alone is the equivalent of a significant oil field. Therefore, in addition to a provision for an energy production credit, we urge the

amendment of the House bill to treat crude oil, except heavy crude oil produced from expanded reserves through enhanced recovery projects, as newly-discovered oil to be taxed to a lesser degree and for a finite period only."

Schmidt touched on synthetic fuels, pointing out Santa Fe is not currently involved in this industry but reminded the Committee that the

manufacture of synthetic fuels takes energy, much of which during the early stage of development will come from natural crude oil, increasing demands for oil at a time when funds for replenishing these supplies of natural crude oil are being diverted.

**PIVOT TALK** by Arnie

Inherent to the long and successful life of the electronics of center pivot irrigation systems is the power supply. Several types of electrical sources are available and all can be reliable if properly designed. Field generators supply an excellent source of electricity if the motor is of adequate size to accommodate the fluctuation in the load created by the center pivot. At the time a pivot may only call for one motor to be operating. A voltage meter should be standard equipment when operating with a generator as the RPM's of the motor reflect directly in the voltage output of the generator. A system operating 10% below recommended voltage will sustain damage that will result in a greater than 10% reduction in its motor life.

### Nursing Home News

By Joy Stancell

C.W. Wilite and other members of the Senior Citizens came to play '42' with the residents on Thursday afternoon. Those participating in the game were Onnie McDaniel, Grace Kemp, Marie Engram, Willie Steinbock and Effie Splawn.

Mabel Caldwell came to have crafts with Onnie McDaniel, Grace Kemp, Edna Henderson, Marie Patton, Marie Engram, Maggie London and Orpha Bartley, on Friday morning. They made a pin cushion out of a piece of century plant. They decorated it with braid, beads and sea shells.

Andy Rogers and members of the Lazbuddie Church of Christ came to give a devotional to the residents Friday afternoon. Bible reading and songs were shared.

The Muleshoe Church of Christ came to sing to the residents Sunday afternoon. Those attending were Archie Scarlett, Guy Nickels, Dottie Wilterding, Marie Engram, Clara Angeley, Maggie London, Docia Dykes, Grace Kemp, Marie Patton, Edna Henderson, Bulah Connell and Orpha Bartley.

E.B. Wilson came to hold Bible Study Sunday morning with John Crim, Maggie London, Dottie Wilterding, Marie Engram, Grace Kemp, Archie Scarlett, Marie Patton, Docia Parish, Edna Henderson, Orpha Bartley and Onnie McDaniel.

Tuesday morning the Hospital and Nursing Home Auxiliary came to shampoo and set the women's hair. Those having a shampoo and set were Marie Patton, Maggie London, Docia Parish, Marie Engram, Rose Sebring, Orpha Bartley, Birdie Phelps, Docia Dykes, Onnie McDaniel, Dora Slaughter, Micaela Escobedo, Ruth Myers, Clara Angeley, Lottie Hall, Annie Brown, Carrie Boydston, Mary Wedel and Mrs. Graham.

Skeet Bradshaw gave manicures Tuesday Morning to Marie Engram, Clara Angeley, Effie Splawn, Edna Henderson, Docia Parish, Maggie London, Marie Patton, Micalla Escobedo, Lottie Hall, Orpha Bartley, Birdie Phelps and Onnie McDaniel.

Margaret Copley and other members of the Muleshoe Young Homemakers made ice cream and brownies Tuesday afternoon for the residents.

The residents held exercise and reading sessions Wednesday and Thursday morning.

Mr. and Mrs. Elbert Carley visited Grace Kemp last week. They brought Mrs. Kemp a television for her room.

Edna Henderson received visits from Mr. and Mrs. Zeb Robertson, Bobby Henderson, Lena Hawkins

Father's New Image  
Fathers play a vital role in their children's development according to new research.

Also, more researchers are studying father's roles, as men take a more active role in managing the home and children while their wives pursue careers outside the home.

One popular image of "dad" as the helpless creature at his child's birth is rapidly changing.

Increasingly, fathers are attending the births of their children, sharing the experience of the delivery room with their wives.

One study found fathers as competent as mothers in caring for their newborn children.

Fathers still spend less time with their children that they probably should, but studies show that the quality of time spent with a child can be more important than the quantity of time.

Infants at very early ages recognize the difference between mom and dad. In fact, one study finds that contented infants will crawl to their fathers at least as often as to their mothers and sometimes more frequently.

Babies can learn who plays with them, and it's often dad.

In addition, may men involved in child rearing say it is personally rewarding.

Overall, research reports that fathers' involvement in child rearing is beneficial and satisfying for the children and for both mother and father.

and Beverly Watson.

Mr. and Mrs. Eldon Parish and Mr. and Mrs. Earl Parish visited with Docia Parish.

Grace Kemp and Edna Henderson went to a meeting Monday night.

Clara Weaver's son, Jimmy Weaver and her grandchildren, Shannon and Chad, visited with her.

June Gore visited with her mother, Marie Patton and took her to town.

Bulah Connell went to her daughter's home, Nellie Martin and spent the day visiting with her family.

Mr. Brock has been going out for rides with his family.

Mrs. Graham has been coming to the Nursing Home activities.

Visiting with Dottie Wilterding were Calvin and Lona Embry and their grandson, Kyle; Mr. and Mrs. D.B. Head returned home Monday from the Head family reunion.

Margaret Jones has returned to the Nursing Home following a stay in

the hospital.

Visiting with Marie Engram were Jean Allison, Hazel Randolph, Laverne Stevens, Mrs. Murl Stevenson, Jeff Whately, Rochell Hardage and Rosemary Pool.

Mr. and Mrs. Leon London came Thursday to visit their mother, Maggie London. They brought her gift to celebrate her birthday.

Visiting with Onnie McDaniel were her cousins, Mr. and Mrs. Gerald Jones, Mr. and Mrs. Garland Jones of Louisiana, Mr. and Mrs. Clarence Heard of Farmer and Mrs. Lillian Jones of Lubbock.

Guy Nickel's family visited with him.

John Crim has been

pulling weeds in the Nursing Home yard.

Glenda Jennings and Sandra Gregory came to hold a sing-a-long with the residents Wednesday

afternoon. Hymns and favorite songs were enjoyed.

**FOR EVERY PROBLEM, THERE IS A SOLUTION**

Such a predicament! Stuck in mud a foot deep! What to do? Just sit in despair? Wring your hands? Of course not! There is a solution. Obviously, this is a simple predicament. But what about the enormity of some of life's problems? There is an answer. There is help. God is "a very present help in time of trouble," the scriptures say. Try Him—try Jesus. Feel His presence and let Him speak to you in church.

*The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.*

DATED this 24th day of  
July, 1979.  
Minnie Roebuck,  
Administrator of the  
Estate of Cephas Roebuck,  
Deceased, No. 1340 in the  
County Court of Bailey  
County, Texas  
15-30s-1tc

**SAFE FARMING...  
IS SMART FARMING**  
**Muleshoe State Bank**  
Safety is the prime factor in the  
success of modern farming, for  
accidents can prove more costly  
than maintenance. Your farm  
can be a showplace of progress and efficiency  
if you keep tools and equipment in top condition,  
check buildings for cleanliness, soundness.  
Keeping everything in apple-pie order  
eliminates many fire hazards. Practice good  
safety habits and prosper!  
**MULESHOE  
STATE BANK**  
Member FDIC  
101 W. Amer. Blvd. Ph. 272-4561

**PROTECTIVE  
FARM SAFETY**

When was the last time  
you checked your farm  
for faulty machinery,  
electrical problems,  
other possible hazards? Precaution  
pays in every way—heads off costly  
accidents, protects your investment  
and safeguards family and livestock.  
Repair faulty equipment. Keep your  
buildings, machinery and electrical  
wiring in good repair. Watch out for  
fires and keep extinguishers handy.
