Plane Crash Kills Two Near Lamesa Airport

TWO MEN DIED - A DPS patrolman and unidentified onlooker examine wreckage of a small private aircraft which crashed in an open field about a north of Lamesa Municipal airport sometime during the night Friday or Saturday morning, killing two Tahoka residents. The crash was not discovered around 7 a.m. Saturday, but indications were that it probably occurred

several hours earlier. Shortly after this photo was taken, officer used axes to cut away twisted metal in order to remove the bodies of the two fatally injured occupants of the plane. Reports indicate they left Tahoka Friday evening and were enroute to Odessa but for some reason attempted to land at the Lamesa airstrip.

Small Craft Goes Down In Open Field

Bodies of two Tahoka men were pulled from the mangled wreckage of a small private aircraft which apparently dived into a plowed field about a mile north of the Lamesa Municipal Airport following an unsuccessful landing attempt sometime between Friday evening and early Saturday morning.

The two men, pronounced dead at the scene by Dawson County peace justice A. L. Standefer, were identified as John Freddie Thomas, 26, and Howard Bland Draper, 36, both of Tahoka.

Wreckage of the aircraft, a 1957 model Piper PA 150 registered to Draper Bros., of Tahoka, was first discovered around 7 a.m. Saturday by a field laborer employed by John Middleton Jr., and sighted shortly afterwards in the field near the landing strip by Brad Boyd.

He immediately notified his father, Thomas Boyd, who rushed to the scene to find both its fatally injured occupants still inside the downed plane. Barry Pierce, passing along a farm road north of the airport at the time also spotted the wreckage and called authorities.

City police, sheriff's department officers and highway patrolmen summoned to the crash sight worked for several minutes to extract the bodies from the twisted wreckage. The engine of the plane was cold indicating that the crash probably occurred several hours earlier.

Officers had to use cutting axes to free the two men from the twisted remains of the plane and were finally able to remove the bodies around 9 a.m. The plowed field on the Middleton farm where the plane went down made traffic to the scene of the crash almost impossible, and tractors and heavy trucks were used to help clear the way for ambulances and other emergency vehicles.

Visitor Speaks At Rotary Club

Rev. Paul Risser, pastor of the Four Square Church in Brownfield, was speaker at the Rotary Club last Thursday.

The minister told of his recent trip to Central America during which he visited the natives in remote areas. He illustrated his talk with color slides of native life in the jungles. Binie White was in charge of the program.

Farmers Remain Optimistic

2nd Driest Winter On Record In Lynn County

Although this has been the second driest winter on record in Lynn county, farmers remain optimistic that the drought will be broken in April and May in time for planting crops.

Since October 16, exactly 165 days ago, a total of only .25 inch of precipitation has been recorded by the Tahoka station of U. S. Weather Service. Farmers have two reasons

for being optimistic. One is that in recent years good rains in April or May have followed unusually dry winters. The other reason is that, due to better equipment and farming methods, most Lynn county land has been put up in excellent shape, is withstanding the sandstorms usually well and there is a surprising retention of deep moisture by the soil.

Back in 1949-'50, only .70 of moisture was received in five months, but five inches of rain fell in April and May. The winter 1950-'51, saw only 1.59 inch of moisture recorded in October through April, and total for the year 1951 was only 10.71 inches. During the winter 1953-'54 only .90 inch of moisture fell,

but there were good rains in April and May. Another dry winter was 1958-'59, when winter moisture totaled 1.35 inch in 156 days, but there were good rains in May.

This year, 1970-'71, Tahoka recorded 6.29 inches of rain last September and 1.26 inches in October through the 16th, but since then there has been none in November, .07 in December, none in January, .16 in February from snow, and .02 in March.

Normal rainfall here is: October 1.84, November .70, December .65, January .61, February .65, March .73, April 1.00, May 2.97.

During the above dry winter years, the following falls, Lynn County produced 99,127

bales of cotton on 17 inches of rain in 1950, 96,273 bales on 10.71 inches in 1951, 108,474 on 13.86 inches in 1954, and 128,807 bales on 24.54 inches in 1959.

In addition to the above, in the bad year of 1934, Lynn produced only 8,536 bales on 11.92 inches, only 7,405 bales on 11.71 inches in 1945, only 13,780 on 14.51 inches in 1946, but in 1953 harvested 48,050 bales from 11.53 inches of rain.

Thus, since the so-called 1917-18 drouth and the "dust bowl" days of the early 1930's, there have been few crop failures, and records bear out the fact that many years timely rains produce good to fair crops in dry years.

"TWO BITS WORTH"

BY JOHNNY VALENTINE

The country editor says the dollar and penny aren't of much value these days but the dollar still makes a good screwdriver.

TBW Someone is born in this country every 9 seconds. There is a death every 16.5 seconds. An immigrant arrives every 60 seconds. Every 23 minutes a citizen leaves the U. S. to reside in another country. The net result is there is an addition to population every 15.5 seconds which means that we have new citizens every minute or 232 per hour -- increase of more than 5,575 every 24 hours.

TBW It seems to be a lot like party - it was going on long before you came, you leave before it's over, and it had gone just as well as you hadn't come.

TBW Don't forget the election on April 3. New Home, Wilson, Tahoka will have their elections along with the Tahoka Independent School District, Lynn County School District and the Lynn County Hospital District directors.

TBW Many times as we pick up our daily papers, or listen to news on radio or TV, the world around us appears bleak. Let's stop for a minute, however, and look at the other side, the positive side. The vast majority of our

people - regardless of race, creed, color or economic status - are respectable, reasonable, responsible citizens.

Last year, for example: More than 196,000,000 of our people were not arrested. More than 89,000,000 married persons did not file for divorce.

More than 115,000,000 individuals maintained a formal affiliation with some religious group.

More than 75,000,000 citizens and corporations, paid more than \$160 billion in income taxes.

More than 49,000,000 students did not riot or petition to destroy our system. More than 9,000,000 of our young men did not burn their draft cards.

More than 4,000,000 teachers, preachers and professors did not strike or participate in riotous demonstrations.

I have no apologies to make for my country or my generation. Never before in history has a people accomplished so much, given so much and asked for so little.

Don't let anyone sell you the idea that ours is a sick society. It's far from perfect, but it is also far and away the most enlightened, most unselfish, most compassionate in the history of the world.

Let those apostles of disorder and discord ask themselves what they have done and what they are doing for the betterment of their loved ones, their nation and the world.

Sports Banquet Is Saturday

The annual Tahoka All-Sports Banquet will be held Saturday, April 3, in the School Cafeteria, at 7:30 p.m.

The public is invited to attend and tickets are selling for three dollars each at the following business establishments: Parker Pharmacy, Tahoka Drug, Farm Bureau and Co-op Station.

The featured speaker for the occasion will be Bob Wright, who is a native of Ballinger.

He is one-third of a coaching family of father and sons. His father is "Pooch" Wright well known veteran coach and football star for Howard-Payne College, in the early 1920's. Another son, Bud Wright coached at Brownwood.

Bob graduated for Howard-Payne in 1949, after serving in Europe during World War II. Upon graduation he served as line coach at Olney for two years. In 1951 he moved to Brownwood High School where he coached for five years. In 1956 his alma mater lured him from the school and he stayed at Howard-Payne College for four years. Next was his old hometown of Ballinger, where he was quarterback on one of his father's regional championship teams in 1942. Bob moved

from Ballinger in 1965 to become the head coach at Cleburne, where he won one zone championship.

His eight year record as head coach reads 58 wins against 23 losses and one tie. This includes district championships in four of the eight years.

Bob and his wife Tylene have three children. One son Robert, age 19, and two daughters, Nilah 15, and Jaime 12.

In January 1968, Wright moved to Austin to assume duties in the Association Office.

During the past 15 years Wright has made over 300 Sports Banquet and Student Assembly speeches, and has served as keynote speaker for the Texas High School Coaches' Association Clinic on two different occasions, and

BOB WRIGHT

In 1967 was guest speaker for the National High School Football Coaches' Clinic in Houston.

Eugene Munselle Retiring April 30

Eugene Munselle will retire from the Texas Highway Department, as Maintenance Construction Foreman III at Tahoka announces O. L. Crain, District Engineer. On April 30, Mr. Munselle will begin an earned vacation that will extend to June 30, at which time his retirement from the Department will be official. During Mr. Munselle's 35 years of service he has held many titles, and his work has been mostly in only two counties, Garza and Lynn in District Five. The highlight of his career was experienced

last summer when he was chosen as one of the top five Foremen in the State in competition for the Lady Bird Johnson Award in Roadside Park Beautification. Succeeding Mr. Munselle will be Mr. David Midkiff, Jr., Assistant Maintenance Foreman at Post. Mr. Midkiff has worked 22 years in the Garza County Section. He lives in Post with his wife, Joyce. They have one son, David, 20 years of age, who is now working for the Department in the Lubbock "B" Section.

Construction On Farm Road

The Texas Highway Department has announced a construction project on F. M. Highway 2053 from Dawson County Line to U.S. Highway 87 at O'Donnell and F. M. Highway 179 from 0.9 miles west of E.M. Highway 2053 to F.M. Highway 2053. The construction will consist of reconstruction of the grading, base and surfacing, and lengthening culverts. The Texas Highway Department and the contractor, Kerr Construction Co., stated that the construction will begin about March 25, 1971, and all construction will be completed about October 1, 1971.

Traffic will be routed through the construction work and adequate barricades and warning signs will be prominently displayed. Motorists, however, should be extremely cautious in passing through the area as it will be heavily traveled by large highway construction equipment. The construction area will be speed zoned for the protection of motorists and workmen alike. The length will be patrolled to minimize inconveniences to motorists. Cooperation of the

public is requested in obeying all traffic signals, warning signs, and speed zones.

Rep. E.L. Short Reports On Natural Gas

Representative E. L. Short of Tahoka, who is a Member of the Committee on Oil, Gas, and Mining in the House of Representatives says, "The price of natural gas to our cities and irrigation users is going up. It was testified in this Committee that ten (10) years ago it was projected that thirty-two (32) years of reserves remains, but now it is projected that only twelve (12) years reserves of gas remains." Representative Short further quotes the testimony given to his Committee, "The reason for this huge drop in gas reserves was brought about because sixty percent of Texas gas produced is going out of State, and the supply and demand is reaching a strategic point. Some

companies total sales represent higher prices paid by out of State buyers; therefore, pipeline companies selling to the towns in Texas are burdened with long term contracts. The Bill in the House of Representatives is designed to let the Railroad Commission adjust the contractual rates, and in effect would void the cities and pipeline com-

panies contracts. This Nation is facing a critical gas shortage. If Texans do not meet prices equal to out of State purchasers, they might see pipeline companies going broke because they will not be able to deliver gas to the cities under contractual agreements regardless of the long term commitments."

YOUR STATE REPRESENTATIVE REPORTS BY E. L. SHORT

STATE REPRESENTATIVE, 73RD DISTRICT

The Legislature is hearing and will be debating soon, issues of the following Bills. In order to raise money, a Bill is proposed for one penny for every check that is written in Texas.

Another is the transaction tax, whereas anything that changes hands for money would be a transaction. For instance a bill of groceries, a home, a car, a buy would be declared a transaction.

In our area, requests for extension services appropriations that the County Agents and Home Demonstrations Agents can use for 4-H programs on cotton, milo and other crops.

Also, money to fund certain expenses in the Soil Conservation Programs by the Directors.

Soon, the House will act on the Senate version of the Ethics Bill. This Bill not only includes Legislators, but every elected public official in Texas.

The Senate has passed to the House for action on liquor by the drink.

Redistricting is of extreme importance in the rural areas of Texas. Our 73rd District is short 14,000 people. This means our District will either be separated and put in with other districts or it will be left as it is and will include parts of Ector, Midland or Howard Counties on the South, or, it will include some areas to the North of the 73rd District which might be part of Lubbock or Terry Counties.

To exempt Texas from Daylight Savings Time failed in the House and is a dead issue without two-thirds majority. To pass this Bill will

Happy Home Environment WHAT'S THE IDEAL?

Most people would agree that the ideal happy home environment must take into consideration the environmental aspects as well as the spiritual and human relationships. In the present state of technology, electricity does its job well when it comes to environmental aspects of conditioning the air in your home.

The ideal system, now available, not only does its job of comfort heating in winter and comfort cooling in summer but also refines the air itself. Electric humidifiers control the amount of moisture in the air and electrostatic air cleaners remove undesirable dust particles.

ELECTRICITY - IT DOES SO MUCH GOOD FOR SO MANY PEOPLE!

National FHA Week March 28-April 3

FHA CARES is the theme of National Future Homemakers of America Week, March 28 - April 3. During this week 600,000 members in over 12,000 local FHA chapters throughout the United States and its territories will carry out special projects and activities to show that FHA members do care.

National President, Ruth Ann Hockenbroch, a high school senior at Middleburg, Pennsylvania put it this way: "Future Homemakers of America do care. We care about what's happening to our country today, and we care about preparing ourselves for the future. Today we are teenagers, tomorrow we become The Establishment. Through our FHA activities and oriented learning experiences we are preparing to take our place in that establishment. In this, our twenty-fifth anniversary year as a national organization, we want National FHA Week to be a showcase for what 600,000 teenagers are doing confronting today's society in preparation for a better life tomorrow."

This national organization of high school home economics students provides opportunities for developing individual and group initiative in planning and carrying out their activities related to the home and the community.

Throughout the country FHA members are learning by doing. They contribute to the community by working as volunteers. They assist in local head start programs or with the mentally retarded and handicapped through county health and welfare departments. They organize reading classes and tutorial programs for migrant or underprivileged children. They visit and assist the elderly or work with other groups on community service projects. They serve as hospital candy strippers, hold career seminars, survey for job opportunities for youth, conduct sessions on preparation for marriage, hold morals discussions, and carry out many other projects which give practical application to their classroom learning.

Future Homemakers of America was founded June 11, 1945 as an incorporated, non-profit organization supported by membership dues. Nationwide in membership and effort it is co-sponsored by the U. S. Office of Education and the American Home Economics Association and was developed for the purpose of providing experiences that broaden the home economics education program in the high

school high school home economics teachers, members of the state home economics education staff, and leading home economists serve as advisors to chapter, state, and national youth officers, giving guidance and counseling to the program.

Activities at all levels - national, state, and local - are youth directed. Twelve national youth officers elected yearly help develop and promote the national program of work and plan and preside over the annual national meetings. The FHA members themselves decide on their goals and purposes, and plan their own activities and projects. This provides an opportunity to develop leadership, express creativeness, and become aware of approaching responsibilities as adult citizens.

The annual state meeting of Future Homemakers of America, an organization of high school homemaking students, will be held in Memorial Auditorium, Dallas, Texas, April 23-24, 1971.

More than 5,000 members and advisors representing almost 76,000 members in 1600 chapters throughout the state will attend.

The theme of the meeting is "FHA Steps Into Action." Keynote speakers will be Reverend Logan Cummings, Brownwood, who will speak on youth involvement in today's society and Miss Barbara Bailey, former FHA Area IV President who will tell of her experiences with involvement in standing up for America.

Local girls that hold State Offices are: Paula Carroll, State Fourth Vice-President, Area II, Texas Association, Future Homemakers of America, daughter of Mr. and Mrs. W. Carroll, Box 537, O'Donnell, Texas. Local advisor is Mrs. Oleta Smith.

Staci Short, President, Area II, Texas Association, Future Homemakers of America, Route 5, Tahoka, Texas.

The school board met in special session Tuesday afternoon and the new members were sworn in. The board consists of R. C. Wood, president, Claude Wells, vice-president, Sam Reid, D. W. Gaignat, J. K. Applewhite, G. A. Brasfield, and R. W. Fenton Jr.

The time for regular meeting was changed from the second Tuesday night to the first Thursday night in each month.

A little "whoopie" occupied by three boys, Harold Womack, Red Brown, and Nathan Woosley, collided with a Ford coupe occupied by Clay Bennett and W. D. Smith in the north part of town near the W. B. Slaton residence Sunday night, resulting in personal injuries to several of the boys and much damage to the cars.

The "Whoopie" turned over about twice, it is said, and was almost totally demolished. Red Brown received a severe cut over the left eye requiring eight stitches to close it, and Harold Womack received a similar cut over the right eye, two stitches being required to place it in proper repair. Nathan Woosley received only slight bruised. The Ford coupe was also badly damaged and both the occupants received personal injuries. W. D. Smith had a nose broken and received other bruises. Clay Bennett, who was driving the Ford, escaped with a few severe bruises.

It is claimed that there were no lights on the "whoopie" and that the driver was blinded by the bright lights of the Ford.

I. I. Gattis was painfully though not seriously injured last Friday when his hooks slipped their hold and he slid down an electric light pole from near the top to the ground. Hugging the slick pole tightly his clothes were almost torn from his person by his rapid descent and he struck the ground with such force as to cause a most severe shock to his nervous system. No bones were broken but he was confined to his bed several days following the accident.

All three of Tahoka's music students who entered the Tri-State Music contests at Amarillo Saturday of last week won places. A few weeks ago these students won the right to enter the Tri-State contest by scoring high at the South Plains events at Lubbock.

At Amarillo, JoJo Lehman won second place in the violin contest, 7 year old group. Charles Gaignat won second in the 12 year violin group. In the piano contest, Dorothy Turrentine placed fifth; however, no first and second place scores were made, and she was therefore among the best entered in a class of about fifteen.

Mrs. D. W. Gaignat and Mrs. J. K. Applewhite accompanied the young musicians to Amarillo.

Raymond Weathers was spokesman for Tahoka over the new KFYO radio station at the big opening festivities held in that city Monday night. The other Tahoka citizens say that Raymond made a job-up good speech, as he always does on such occasions, and that they felt very proud of his oratorical, mental, and physical effort.

Others from Tahoka who sat at the banquet table and had the privilege of announcing their names and addresses over the new station were: W. B. Slaton, J. K. Applewhite, L. C. Hane, Bill Burlison, E. H. Boullion, Buster Fenton, Oscar Roberts, A. D. Sanders, and Dr. L. E. Turrentine.

Mr. Marion McGinty of Plains visited his son, Fred, a while Saturday.

Mrs. J. M. Inklebarger has been quite sick the past week.

Mr. and Mrs. R. L. Craig visited relatives in Tulla Saturday and Sunday.

Mr. and Mrs. W. H. May and Mrs. W. J. West were visitors in Brownwood last week end, returning home Monday afternoon.

Mr. C. B. Evans and family spent Sunday with Mr. R. E. Appling and family of Grassland.

The splendid farm home of J. T. Owens in the Edith community was completely destroyed by fire last Friday morning. It is believed that the fire started from sparks from the flue. Most of the contents was also destroyed.

The fire had caught somewhere in the upper story or in the roof and had made considerable headway before Mr. Owens discovered it. Discovering smoke come from the roof, he tried to extinguish the fire with buckets of water but they were unavailing.

The loss was partially covered by insurance.

The school board met in special session Tuesday afternoon and the new members were sworn in. The board consists of R. C. Wood, president, Claude Wells, vice-president, Sam Reid, D. W. Gaignat, J. K. Applewhite, G. A. Brasfield, and R. W. Fenton Jr.

The time for regular meeting was changed from the second Tuesday night to the first Thursday night in each month.

A little "whoopie" occupied by three boys, Harold Womack, Red Brown, and Nathan Woosley, collided with a Ford coupe occupied by Clay Bennett and W. D. Smith in the north part of town near the W. B. Slaton residence Sunday night, resulting in personal injuries to several of the boys and much damage to the cars.

The "Whoopie" turned over about twice, it is said, and was almost totally demolished. Red Brown received a severe cut over the left eye requiring eight stitches to close it, and Harold Womack received a similar cut over the right eye, two stitches being required to place it in proper repair. Nathan Woosley received only slight bruised. The Ford coupe was also badly damaged and both the occupants received personal injuries. W. D. Smith had a nose broken and received other bruises. Clay Bennett, who was driving the Ford, escaped with a few severe bruises.

It is claimed that there were no lights on the "whoopie" and that the driver was blinded by the bright lights of the Ford.

I. I. Gattis was painfully though not seriously injured last Friday when his hooks slipped their hold and he slid down an electric light pole from near the top to the ground. Hugging the slick pole tightly his clothes were almost torn from his person by his rapid descent and he struck the ground with such force as to cause a most severe shock to his nervous system. No bones were broken but he was confined to his bed several days following the accident.

All three of Tahoka's music students who entered the Tri-State Music contests at Amarillo Saturday of last week won places. A few weeks ago these students won the right to enter the Tri-State contest by scoring high at the South Plains events at Lubbock.

Tahoka 6th Grade Takes Field Trip

The sixth grade class of Tahoka Junior High toured the Lubbock Avalanche Journal and Rainbow Bakery, Thursday, March 25. The trip was planned after a study of the newspaper.

The group of 96 students and 7 sponsors ate lunch at Furr's Cafeteria.

Accompanying the group were Carole Sanders, Nan Adams, Gail Turnbough, Suzanne Weedon, Jean Becker, Ethel Denzy, and Principal, Robert Ryan.

W. J. Fairies of the Magnolia Community paid the News a visit Wednesday and while here reported that he has a calf out at his place, born on March 31, that doesn't have the sign of a tail. He attributes the defect to the general depression that has prevailed the past two years and charges it all up to Hoover.

He proposes to turn this piece of bad fortune to good account, however. He says that he is going to start him a show, with the calf as the main attraction. As soon as the July election is over he will add to his menagerie a few defeated candidates, and he thinks he will take in a pile of money. Of course it is only the freak candidates or freak ex-officials that he will be able to use.

Seriously, Fairies says that the calf is a sight to behold.

A pie supper and musical entertainment will be held in the public school auditorium at Joe Stokes on Friday night, April 15, according to L. M. Mears, a member of the school board in that community. All candidates are invited and will be given an opportunity to make their announcements.

At Amarillo, JoJo Lehman won second place in the violin contest, 7 year old group. Charles Gaignat won second in the 12 year violin group. In the piano contest, Dorothy Turrentine placed fifth; however, no first and second place scores were made, and she was therefore among the best entered in a class of about fifteen.

Mrs. D. W. Gaignat and Mrs. J. K. Applewhite accompanied the young musicians to Amarillo.

Raymond Weathers was spokesman for Tahoka over the new KFYO radio station at the big opening festivities held in that city Monday night. The other Tahoka citizens say that Raymond made a job-up good speech, as he always does on such occasions, and that they felt very proud of his oratorical, mental, and physical effort.

Others from Tahoka who sat at the banquet table and had the privilege of announcing their names and addresses over the new station were: W. B. Slaton, J. K. Applewhite, L. C. Hane, Bill Burlison, E. H. Boullion, Buster Fenton, Oscar Roberts, A. D. Sanders, and Dr. L. E. Turrentine.

Mr. Marion McGinty of Plains visited his son, Fred, a while Saturday.

Mrs. J. M. Inklebarger has been quite sick the past week.

Mr. and Mrs. R. L. Craig visited relatives in Tulla Saturday and Sunday.

Mr. and Mrs. W. H. May and Mrs. W. J. West were visitors in Brownwood last week end, returning home Monday afternoon.

Mr. C. B. Evans and family spent Sunday with Mr. R. E. Appling and family of Grassland.

Farm Bureau News

For the interest of this area, Federal Regulations of Farm Truck Driver Qualifications are now being studied and the Secretary and officials of the Department of Transportation are now making their determinations about the proposed regulations in Washington. A list of these proposals are as follows:

1. Be at least 21 years of age.
2. Carry a certificate, executed by a physician during the preceding 24 months, evidencing fitness to drive a truck.
3. Pass a road test in truck operation.
4. Take and pass an examination on the federal Motor Vehicle Safety Regulations.
5. If the driver is an employee of a farmer, he must supply the farmer with evidence of compliance with the four preceding requirements, plus an application for employment which shall disclose traffic violations and disposition thereof, plus an annual supplementary statement relating to traffic violations.
6. A farmer who employs a driver would be required to "verify" the driver's driving record and to maintain for each driver a file containing items 1-5 above plus a record of the employer's verification of the employee's driving record.

These new regulations would be applicable to interstate commerce. However, recent court decisions indicate that the interstate commerce clause applies to anything and could, of course, be included in this category. Also, if the federal government adopts such regulations, it is just a matter of time until we have similar state regulations—this seems to be the pattern.

If you are concerned with these proposed regulations, you may write by April 9, to John A. Volpe, Secretary U. S. Department of Trans-

portation, Washington, D. C. 20525; Congressman George Mahon, House of Representatives, Washington, D. C. 20000; Senator John Tower, National Capitol, Washington, D. C. 20000; and Senator Lloyd Bentsen, National Capitol, Washington, D. C. 20000.

Bill of interest presented last week in legislature were as follows:

LANDS; S.J.R. 50 by Connally, a proposed constitutional amendment to give the legislature authority to write enabling legislation to clarify the terms, intent and purpose of Article 8, section 1-d, of the Constitution, was introduced in the Senate and referred to the Committee on Constitutional Amendments. Article 8, Section 1-d, of the Constitution provides that agricultural lands shall be taxed only according to their productive capability.

S.B. 875 by Connally, proposed enabling legislation for Article 8, Section 1-d, of the Constitution, was introduced in the Senate and referred to the Committee on State Affairs. This bill provides for appointment of a "County Agricultural Land Evaluation Board" by the county judge of each county. If any tax assessor refuses to classify an applicant's land as agricultural land, or if the landowner is not satisfied with the evaluation placed on the land by the tax assessor, the owner may appeal to the County Agricultural Land Evaluation Board for a new evaluation. The evaluation established by the Board would be binding on the landowner and the tax assessor.

S.B. 875 also provides for a "State Agricultural Land Evaluation Board". This board would determine and publish annually a tabulation of values for each of the sever-

al classifications of agricultural land in the various areas of the state. The County Board would use values established by the State Board in making land valuations at the request of landowners.

S.B. 786 by Connally, a bill to change the Foundation School program formula from 80-20 to 100-0, was introduced in the Senate and referred to the Senate Committee on State Affairs. S.B. 876 provides that additional cost of the Foundation School program in the future would be borne entirely by the state. No provision is made for reducing current levels of ad valorem taxation assessed by school districts to support the Foundation program, but there would be no justification for further increases in such taxes if this bill is passed. The author of S.B. 876 has suggested that additional costs brought about by this suggested change in the Foundation formula could be paid by a 1 cent increase in the sales tax and a similar increase in the corporate franchise tax. Senator Connally, in a press conference held prior to his introduction of this bill, said this approach is the only long-run solution to the problem of ever-increasing ad valorem taxation. He stated further that property owners in many areas of the state have reached the saturation point as far as ad valorem taxation is concerned, and that ad valorem taxes are the most inequitable taxes assessed in this state.

MINIMUM WAGE INCREASE: S.B. 687 by Mauzy, a bill for successive increases in the minimum wage, was introduced in the state and referred to the Committee on Labor and Management Relation. S.B. 687 provides that: "Every employer shall pay to each of his employees (1) not less than \$1.60 an hour on and after February 1, 1972; (2) not less than \$1.80 an hour on and after February 1, 1973; and (3) not less than \$2.00 on and after February 1, 1974." Agricultural exemptions are not touched by provisions of this bill, but repercussions would certainly be felt and be costly to agriculture if this bill passes.

DAYLIGHT SAVING TIME: H.B. 506 by Sanchez and Poerner, a bill to extend Texas from provisions of the federal Uniform Time Act, has been reported favorably out of the House State Affairs Committee. H.B. 506 could come up for floor debate in the House of Representatives at any time.

LIVESTOCK: S.B. 669 by McKool, a bill providing that, "The commissioners court of a county by order may prohibit the keeping of hogs or hog pens within 500 feet of any residence in the county which is not within the jurisdiction of an incorporated city or town", was introduced in the Senate and referred to the Committee on County, District and Urban Affairs.

Bagworms are destructive pests on many evergreen and deciduous shrubs and trees, and sometimes on neglected fruit trees. Late March and early April is the time to control them.

First, remove the bags from infested plants and destroy them. Then when temperatures stay above 60 degrees for 6 to 10 hours during the day, start applying control measures. The pesticide applications should be continued 7 to 10-day intervals until the infestation is eliminated.

Sevin, chlorodane, lead arsenate or toxaphene will effectively control the bagworm. Directions for mixing and applying the materials are given on the label container and should be carefully followed. The bagworm moth deposits from 500 to 1,000 eggs in a brown, tapered bag attached to a branch of the plant in September. The eggs hatch in March and the small worms immediately begin to feed on the plant's foliage and bark.

The young worms or caterpillars construct a small tapered bag of silk-like material and attach to it pieces of bark and foliage. The bag turns

a brown in color. The bagworm protrudes its head and front feet from the bag as it moves about the plant feeding but will withdraw into the bag when disturbed. In late summer the bag is attached to a branch and the mature caterpillar pupates within the bag.

The feeding worms, when infestation is heavy, will remove the foliage and bark from all parts of a tree or shrub, resulting in the death of the plant or heavily damaged parts. The worms are easier to control when they are young and control measures should be applied as soon as an infestation is discovered.

V. Carrillo, 20, son of Mr. and Mrs. Mauricio M. Carrillo, Route 5, Tahoka, Tex., recently completed a five week light vehicle driver course at Ft. Ord, Calif.

During the course, he was trained in the operation and maintenance of military vehicles of less than four and one-half tons rated capacity. Instruction also was given in the transportation of personnel, equipment and supplies.

Swine Production Institute To Be Held

A Swine Production Institute sponsored by the South Plains Development Program (SPD) will be held April 14-15 at the Women's Building at the Fair Grounds in Lamesa, announces County Agricultural Agent Bill Griffin.

All swine producers in Lynn County as well as others interested in the swine industry are encouraged to participate in the institute which will begin at 8:30 a. m. on April 14. A top-notch program has been arranged and will feature discussions on all phases of swine production, points out Griffin. Presiding at the day-and-a-half institute will be Lee Roy Colgan, Jr., Dawson county agricultural agent.

The program will get underway with the placing of market barrows on foot by Dr. Frank Orts, Dr. William Thomas and Dr. Gilbert Hollis, all specialists with the Texas Agricultural Extension Service.

Speakers during the morning session on April 14 will include Robert G. Fleming, director of Central Operations with the Texas Water Quality Board; Dr. William Allen, Extension agricultural engineer; and Thomas.

Fleming will discuss "Pollution Problems Facing the Swine Industry," and Thomas will discuss "Where Pasture Fits in Swine Operations."

Leading off the afternoon program will be a discussion by Allen on "Portable Swine Housing for the Beginner in the Swine Business."

Hollis will talk on "Management of the Breeding Herd and Problems Encountered with Boars" and "A Swine Herd Health Program."

"What to Watch for in

Crossbreeding Hogs" was discussed by Thomas. Dr. Bill Clymer, Extension area entomologist, will about "Insect Control Swine."

At 8:00 a.m. on April 15, the market barrows placed on foot the previous day will be cut and measured. Or will conduct this portion of the program and will also give results of the market cuts of the carcasses later in the morning.

In addition, the program will feature discussions by Marvin Sartin, Extension area farm management specialist, and Bill Sartin will talk about "Minimum Cost for a Sow Unit from Farrow to Wean" while Hollis will present swine research ways in Texas.

A report will also be given on the Caprock Producers Organization.

Style Show At PTA Meeting

The Tahoka PTA will hold their regular monthly meeting Tuesday, April 6, at 7:00 p.m. in the high school auditorium. The executive meeting will be held at 7:00 p.m. The FHA girls will give an annual style show and there will be installation of officers for the coming year. Refreshments will be served and a place will be provided for children through the grade.

The Spring Conference will be April 23, in Levelland.

Why plant a 15¢ cotton when you can start with a 20¢ cotton and get high yields?

Plant COKER 4104 for highest returns!

We don't know what prices will be this year. We do know the loan on Coker 4104. We do know that this cotton will perform. And we know that many mills have bought it and like it. Coker 4104 has a built-in premium with its extra length, strength and ideal micronaire.

Do you know what your cotton will bring? Plant Coker 4104. The cotton you can count on for highest returns.

Bred for the High Plains

Coker 4104 was bred and developed especially for the Texas High Plains. It is a high yielding, long staple cotton—and very vigorous. It comes up to a stand in a hurry, fruits fast and matures medium early.

Its strong stalks, upright limbs and adequate storm resistance combine to make it a great cotton for both stripper and spindle harvesting. And it has good tolerance to drought and to both fusarium and verticillium wilt.

Improved strain for 1971!

Through our expanded maintenance program on the High Plains, our breeders are able to offer superior strains of Coker 4104 each year. As good as the previous strain was, our sales stock for 1971 is still better.

HIGHER YIELDS Cotton farmers tell us they have made better yields with Coker 4104 than any other cotton they've planted on the High Plains. Our improved strain is even more productive.

HIGHER MICRONAIRE Of the first 2278 bales of Coker 4104 ginned at Canyon Gin Co. in 1970, 1993 bales were in the premium "mike" range. And no bales were below 3.0.

EARLIER MATURING Grown under the same conditions, our Coker 4104 for 1971 will normally mature a few days earlier than the previous strain.

It's the cotton to plant this year. Reserve your seed now! Contact:

NEW HOME NEWS

BY MRS. W.W. DAVIES

Mrs. Jerry (Lydy) Zotopek age 54 of Houston, died Saturday, March 16, in the Methodist Hospital in Houston after a long illness. Survivors are her husband and one son Keith of the home. Four sisters, Mrs. Charlie (Della) Schneider, Slide, Mrs. S. J. (Mary) Jones of Lubbock, Mrs. Frances Hughes Lubbock and Mrs. W. G. Neiman Sr. of New Home. Five brothers, Adolph and Eddie Schneider of Slaton, Herman, Frank, and Willie Schneider all of Wilson. Several other relatives including Willie and Norvin Nieman of New Home, were in Houston for the funeral. Mrs. Nieman had been in Houston several weeks with her sister.

Mr. and Mrs. O. D. Elliott had their sons and their families all home last week end. These were, Tommie, Snyder; David, Levelland; Jimmie, Lubbock; and Stanley, Pettit.

Little Miss Cherie Dawn Unfred of Lubbock spent the week end here with her grandparents, Joe D. and Betty.

Isaacs Avzate of Houston is here visiting his sister Mrs. Oscar Roman and family.

The Area II F.H.A. meeting was held March 13, at the Robert Lee High School in

Midland. Eleven girls from the New Home chapter attended. Patti Phifer was in the area choir and Jeanne Bruton was a voting delegate. Other members present were; Karon Edwards, Debbie White, Laree Farr, Judy Turner, Shirley Clements, Linda Harmonson, Easter Roach, Vicki Harmonson, the chapter sponsor Mrs. Bob McAllister, and Mrs. John Edwards. The guest speaker was Don Williams, minister of The Broadway Church of Christ. Staci Short of Tahoka and the other officers succeeded in making it the best area meeting that has ever been held.

Our grandson Randy Davies of Lubbock was with us Wednesday through Saturday, helping his granddad work. On Saturday Wayland, Ann, and Bryan Walton of Snyder, and Carlton Davies, Lubbock worked with us.

Mrs. Leland White accompanied Miss Eida Cruce of Tahoka to Dallas Thursday, where they attended the Texas Cotton Association Convention. Mrs. White acted as official hostess to the reigning Miss Cotton of Texas. Highlight of the trip was a luncheon style show where Eida was presented a 14 karat gold, 10 diamond miniature bale cotton necklace. While in Dal-

las Barbara, had the pleasure of visiting with Pat and Jo Caudle. Jo models Carly dresses. Mrs. White and Eida arrived back at the Lubbock Regional Airport Saturday evening.

Mr. and Mrs. Marlin Maloney, Menett and Monte, visited in Liberty, Texas recently with their daughter and family, Mr. and Mrs. Bobbie Killough and Kippy. Linda and Kippy returned home with them and spent ten days. Returning to Liberty on Tuesday.

The parents and others in the community wish to thank the FFA Instructor, Bob Ballard, for the fine work he has done with the FFA and 4-H members. Bob has worked long hours, far beyond the call of duty helping the young folks with their animals.

City election is to be held in the community center Saturday April 3rd. Dick Turner is the only candidate for mayor. Councilman LeRoy Nettles is not seeking re-election. One name will be written in, present councilman are Charles Smith, LeRoy Nettles, Clifton Clem, Freddie Keith, and Gene McKee. Mayor O. R. Phifer Jr., is not seeking re-election.

Mr. and Mrs. Wayman Smith

of New Home and Mr. and Mrs. Floyd Smith of Lubbock returned home Monday from Lake Whitney where they had been for 10 days.

Jack Clements and Shirley spent the week end with their family at their ranch home at Mangum, Oklahoma.

Mrs. Peggy Murray and children Roddie, Scott, and Robin recently moved to Denver City. Peggy is employed as a beauty operator in Vicki's Beauty Shop there. She and the children had been here since November with her parents, Mr. and Mrs. H. C. Hemmlinger after the death of her husband Billy Murry in Houston.

What is it? Where is it? Across the street... New Home is on the boom. Keep your eyes open for further information.

There was a good crowd out for church services Sunday. Darnell Boyd preached for us. Pat Guy led the song service.

We have enjoyed the beautiful flowers brought in by Mr. and Mrs. W. T. Luttrell, these being in memory of their deceased son.

It was nice of Mrs. Tom Hale Sr. to furnish our dessert for Sunday. A hugh pound cake, which we thought was delicious. We thank her for remembering us.

There has been several homemaking girls come in this week, they have helped feed in the evening, played the piano and sang for us. We look forward to these girls coming and want them to know, we appreciate them.

We were so happy to have Annie Garza Corona visit us. You remember she lived in our home sometime before she became Mrs. Corona.

A pleasant surprise was a group of ladies from the First Baptist Church of O'Donnell who visited us and sang for us.

We were saddened by the death of Clara Johnson and we send an expression of sympathy to Mr. and Mrs. Bob Barnett who was with her and us so many days and nights before her passing.

Well, we were indeed proud to see Mrs. Nance Friday, it being a sure enough summer day. She served us ice cream and cookies. While we ate, she and Lucy Pena, Sally Marez, Dahlia Gutierrez and Sylvia Fuentes sang for us. So needless to say we enjoyed the afternoon.

There has been several come in to play 42 with us. We do appreciate them and welcome you who will to come play with us. We can always use another player. Mrs. Reid says, "Leo will just run off". We welcome a new nurses aid, Lawerance White. We hope he will enjoy helping us.

W. D. Downs, Jr. was able to return home Friday after spending a few days in the hospital.

Bonnie Hale received a beautiful pot of flowers from her sister Linda, who lives in Phoenix, Ariz.

SOIL CONSERVATION NEWS

BY RICHARD L. CHRISTIE

Many Lynn County farmers are installing underground pipeline at this time. The major thing that needs to be considered is to planning and designing of the over all irrigation water distribution system. This includes present and future development. It is my purpose to help people better utilize this valuable and costly resource, irrigation water.

Here are some points that irrigation farmers should consider. First, am I using what irrigation water I have as effectively as possible? Have I considered all the possibilities? These two key questions are some time the difference in a net profit or loss. Irrigation water should not run any faster than needed to get it out on the most level rows that will farm and irrigate conveniently. Too many people run water too far to effectively use it and others run it too fast and maybe with too much fall to the rows to get maximum use of their water.

Any future development of the irrigation system should be considered in the installation of an underground irrigation pipeline. The design or the size pipe that will carry

existing water might not carry what water might be added. Also a person needs to consider labor especially the movement of portable pipe or the cutting of ditches. This makes a big difference in the placement or spacing of valves and risers.

There have been 22 applications for pipeline through the Rural Environmental Assistance Program and 6 have been installed under Great Plains Conservation Programs. We can help you plan and design irrigation pipeline that will eliminate some of these problems. Also cost - share is available under the before mentioned programs.

Linda Huffaker, CHD Agent, Says.....

Parent-teen communication doesn't have to be for the birds. Parents can tune in

on their teen-ager's wave length if they follow some simple guides in family relationships.

Parents should teach values by setting an example for their teen. Children, in turn, will judge and adopt these values according to how they work in the day-to-day examples parents establish.

Although teens are capable of freedom, privileges and responsibility, they still need some supervision and guidance. Letting the teen help you decide what limits and policies should be made will help him feel more responsible.

Parents should take an active interest in their teen-agers' activities and friends. Talk to your teen and his friends, read up-to-date articles on adolescent behavior, goals and motivation, listen to his music—all with an open mind. Give your teen a chance to express his point of view.

Respect the adolescent's desire for individuality, independence and privacy. Don't try to mold him into what you think he should be. Respect him as a person and as an individual, even though you might not accept all his ideas.

Communicate, in words and actions, what you expect of your teen-ager. He needs to know where his parents stand and what they expect of him.

Don't overact. Too often parents may punish severely, bottling-up trust and losing confidence in their teen-ager. Such action will destroy the lines of communication. Remember that an adolescent

tries to assert himself to determine his competence, and occasionally test authority. Even though he will make mistakes, this is a natural part of becoming independent and learning what life is all about.

RECIPE OF THE WEEK:

Cooked Fruit Salad
1 No. 303 can peach halves
1 No. 303 can pear halves
1 No. 303 can apricot halves
1 medium size can pineapple chunks

Syrup:
1 stick oleo
1 1/2 cups of juices
1/2 cup brown sugar
2 tablespoons cornstarch

Topping:
1/2 cup chopped pecans
1/4 cup Maraschino cherries (cut in halves)

Drain the fruits and reserve the juices in one container. Mix fruits and layer, face up, in a 8x8 baking dish. Prepare sauce by melting oleo in 1 1/2 cups juices. After oleo has melted, combine the brown sugar and cornstarch thoroughly and add to melted oleo and juices. Cook until slightly thickened.

Four syrup over fruit and sprinkle on topping of nuts and cherries.

Bake at 350 degrees for 45 minutes. Makes 10 servings.

Steve Shawn and Debbie Brown of Colorado City visited his grandparents, Mr. and Mrs. W. E. Shawn, last week end.

Mrs. Carol Headrick of Stillwater, Okla., visited her parents, Mr. and Mrs. Truett Smith, last week.

Accompanists for the presentation will be Mrs. Clay Bennett, organ, and Mrs. Ray Adams, piano. Soloists will be Mrs. Bob Strait and A. J. Viertel. Rev. Jimmy A. Turner will be the narrator.

Members of the Church Choir who will be singing include Mrs. Jim Turner, Mrs. Jerry Ford, Mrs. V. P. Carter, Mrs. George Mc Cracken, Zella Taylor, Clifford Tankersley, Mrs. Ronnie Nettie, Mrs. Alton Kelly, Mrs. Dub Kenley, Mrs. Lynn Seales, Mrs. Dean Andrews, Mrs. Bob Strait, Miss Debbie Miller, Marlin Hawthorne, Edgar Hammonds, A. J. Viertel, George McCracken, V. P. Carter, Jerry Ford, Jr., and Larry Reynolds.

Director for the presentation is Bob Strait, Minister of Music, Youth, and Education of the church. "The public is cordially invited to hear this award winning choral organization sing this beautiful and inspirational Easter Music."

Clara Johnson's Funeral Held

Services for Mrs. Clara Molly Johnson, 67, of Tahoka were held in the Tahoka Church of Christ, at 3 p.m. Sunday, March 28. Darnell Boyd, minister and Rev. Jimmy Turner, pastor of the Tahoka First Baptist Church, officiated.

Burial was in the Tahoka Cemetery directed by White Funeral Home.

Mrs. Johnson was born July 1, 1903 in San Saba County. The family came to Lynn County in 1914. She was married to Gene Johnson in April 1936 and he died later.

Mrs. Johnson, a former resident of Farwell, N. M., died Friday morning in the Colonial Nursing Home where she had been a patient for 2 months. Survivors include a daughter, Mrs. Irene Koeger of Hope, Ind.; a son, Bobby Johnson of Dallas; a brother, Rob Barnett of Tahoka; six grandchildren and 18 great-grandchildren.

Pallbearers were Bill Steiner, L. A. Forsythe, Roy Ford, Danny Lockaby, R. B. Hinkle and Allen Sheppard.

Honorary pallbearers were Ted Chancy, E. A. Hargrave, O. J. Stanley, and Alex Sanders.

Baptist Church Announce Revival Team And Dates

The spring revival meeting at the First Baptist Church in Tahoka will be the week of April 25th through May 2nd. Services will be at 10:00 each morning and at 8:00 each evening. A revival choir will rehearse each evening at 7:25.

Dr. J. B. Fowler will be the evangelist for the series of services. He is the pastor of the Southcrest Baptist Church in Lubbock. The singer for the meeting will be Mr. Forbes Woods. Mr. Woods is a honors graduate of Howard Payne College in Brownwood, has a Master's Degree in voice from the University of Texas, is currently involved in preparing for auditions to the Metropolitan Opera in New York, and is an active member of the Church Choir at the Dallas First Baptist Church.

"These meetings could be the beginning of a church-wide, Tahoka-wide, area-wide, even nation-wide, spreading of spiritual renewal through Jesus Christ. We invite all who are concerned about the terrific problems facing our world today, to come, learn, worship, and enjoy the trues and wonders of Jesus Christ through the spoken word and message in song of this visiting team," said Jimmy A. Turner, pastor of the church.

Water, Inc. Meeting Here Saturday

A briefing on the impact of "Constitutional Amendment No. 4" will highlight the Annual Membership Meeting of the Lynn County Unit of Water, Inc., at 7:30 p.m., Tuesday (April 16) in the Lyntegar Room. The meeting agenda also includes election of officers for the new year.

Joe D. Unfred, New Home, has issued an invitation to all interested persons as well as to Water, Inc. members living in Lynn County. Unfred, vice president of the Lynn group and acting president, said representatives from the parent Water, Inc. would be on hand to explain the importance of a large turnout for the May 18 constitutional amendment vote and the vital need for passage of the May 18 constitutional amendment vote and the vital need for passage of Amendment No. 4. The "water amendment,"

if approved by the voters, makes \$100,000,000 Texas Water Development Bonds available for waste water treatment facilities, raises maximum water development bond interest rates to six percent per annum, and extends the development fund use beyond the present 1982 shut-off date. Water, Inc. officials support the passage of the amendment as the next vital step in the longrange full development of the states water resources. Everyone interested in our water problems is urged to attend this meeting Tuesday night.

Kevin Wood Winner Of 4-H

Kevin Wood, Lynn County 4-H'er, has been named winner of the statewide 1970 4-H cotton production program, according to a recent announcement by the state 4-H Club office.

Kevin will receive the Texas Cotton Ginner's Association award for his outstanding record in cotton production at the association's convention in Dallas April 4-5. In addition to an expense paid trip to the meeting for Kevin and his county agricultural agent, he will receive an engraved watch.

The association makes the award each year to encourage closer working relationships between youth and those involved in cotton handling, ginning and marketing. It also encourages the production of better cotton, stimulates interest in efficient production, and acquaints 4-H members with the 7-step cotton program.

Kevin, 15, is the son of Mr. and Mrs. Jack Wood, Rt. 1, O'Donnell, and a six year veteran of 4-H work. He is a member of the O'Donnell Community 4-H Club.

For the past six years he has conducted cotton production programs. In 1965 he planted and harvested five acres of irrigated cotton. For the next four years he planted and harvested five acres of dryland cotton. In 1970, Kevin increased his acreage to 12 acres of dryland cotton.

His 1965 crop won first place in the Lynn County irrigated cotton yield contest and grand prize on cotton stalk at the local fair. In 1967, his cotton won the Lynn County field crops award. Kevin said that dryland cotton was more profitable with less labor and maximum production.

LETTERS TO THE EDITOR
Dear Sir:
The people of Lynn County are, without a question, some of the best people in the world. After having lived away for almost 30 years, it was unbelievable to return and find the same genuine friendship and hospitality still being practiced today.
I would like to thank the wonderful friends of my father, Archie Pharr Aten, for their constant vigil during his illness. His friends were so very important to him; and through your kindness you helped a wonderful man through his last hours, your love lessened his suffering.
My thanks to the gracious people for their hospitality to me and other members of the family who were visitors there during my father's illness.
To my step-mother, Cordie Laws Aten, and her wonderful sons and their families, although you were his family such a short time, a lifetime could not have made a more devoted family. Words fail me to express my thanks to you.
Last, but far from least, to Dr. Prohl and Dr. Thomas and the fine staff of the beautiful little Lynn County Hospital, thanks from the bottom of my heart for the wonderful care you gave my father. Each of you did everything within your power to help him recover, and when it was obvious he could not improve you continued to give him every comfort and care to lessen his suffering. How fortunate the people of Lynn County are to have doctors and hospital staff with such great ability, not only to administer outstanding medical care, but to administer it with such gentle love and kindness. May God bless each of you.
Very truly yours,
Frances Aten Hayhoe
MY DAD -
By - Frances M. Hayhoe
Dear Dad, you are a Godly man
A man of kindness and love.
For giving me a Dad like you I thank our maker up above.
Our young years were very hard
But in my heart I knew,
You had the faith and courage
To see your family through.
God filled your heart with patience.
Never complaining of your lot
You toiled on with your head held high
No matter how hard it got.
Your years have been full of hardships
But now when you are old,
You are looking forward to meeting God
With a spotless soul.
Then you will meet all your loved ones,
Your son and daughter too.
God is waiting with your reward
For all that you have been through.
I wish there was some way to show you
How much I love you, Dad.
For you are the greatest gift
Your children could ever have had.
