A New Wrinkle On Smoking

Trying to stay young -- or at least look that way -- is an obsession in this mad age. But looking young may be even tougher for men and women who smoke.

Facial wrinkles like crow's feet may be caused more by cigarette smoking than by exposure to sun and wind -- according to Dr. H. W. Daniell of Redding, California. In a recent article in the Annals of Internal Medicine, he describes his study of 1104 subjects between the ages of 30 and 70. Each subject was asked to fill out a questionnaire about his or her smoking habits, sun exposure, weight changes, and medical history.

Without seeing the questionnaires, the doctor first assigned each subject a wrinkle score from one to six. Closeup photographs were taken. And three other sets of observers also scored the pictures.

After all correlations were made, prominent wrinkling and heavy smoking were related for all age groups. Dr. Daniell suggests that smoking may cause wrinkling because nicotine causes the small blood vessels to contract. Over a period of time, he says this might cause deterioration in skin tissue.

The most striking finding, however, was the correlation between heavy wrinkling and heart disease. Among male smokers over 50, those with the highest wrinkle scores had a past history of heart attacks almost twice as great as those of men with the same smoking habits but less wrinkling. And of the 15 smoking men who had the highest wrinkle scores, seven developed major cigarette-related illnesses, including lung cancer and heart attacks, during the year after the study was completed. Deep facial wrinkles, says Dr. Daniell, can be a significant warning sign.

See your local tuberculosis and respiratory disease association about ways to kick the habit. It's a matter of life and death.

County's Farms Now Number 803 Census Bureau Reports

Lynn county showed a total of 803 farms in the 1969 Census of Agriculture, according to figures released by the U.S. Department of Commerce's Bureau of the Census, a part

of the Department's Social and Economic Statistics Administration (SESA).

In the last previous Census of Agriculture (1964) the number of farms reported in the county was 851.

Of the county's total farms in 1969, 762 are reported as selling \$2,500 or more of agricultural products in the year, as compared with 805 in 1964.

The report also shows average farm size in the county was 664.4 acres, and average value of these farms (land and buildings) was \$151,959.

Other figures from the report are:

1. Value of all farm products sold in 1969 \$17,587,213 in 1964, \$17,244,500.
2. Value of all crops sold in 1969, \$15,368,668, in 1964 \$16,140,123.
3. Value of all livestock, poultry, and their products sold in 1969, \$2,217,777 in 1964, \$1,104,660.

Reported for the first time in an agricultural census is information on the extent to which the corporate structure is being used by operators of farms from which agricultural products totaling \$2,500 and over were sold. Including family farms using this type of business structure, 3 of the county's \$2,500 - and - over farms are incorporated.

Billy Jack Wood, a veteran Lynn County 4-H'er, will be one of four Texans attending the National 4-H Conference, April 23-28, in Washington, D. C.

He was selected for the honor based on his overall accomplishments in his 4-H projects and activities according to the state 4-H office. The expense paid trip is being sponsored by Pennzoil United, Inc.

Billy Jack is the 17-year son of Mr. and Mrs. Jack Wood of Rt. 1, O'Donnell, and is a freshman animal science major at Texas Tech University. He has been a member of the O'Donnell Community 4-H Club for nine years.

In 1971 Billy Jack was awarded a Houston Livestock and Rodeo Scholarship. He is an old hand at winning awards for his livestock at county shows, having won the overall showmanship award three times and having shown the

grand champion lamb and the grand champion barrow. He has won the county swine award three times and in 1968 he exhibited the reserve champion barrow at the San Angelo show.

A former Gold Star winner in Lynn County, Billy Jack claimed the Texas Cotton Ginner's Association Award for his outstanding records in cotton production in 1969. That same year he was named winner of the State Agricultural Award. He was also one of four Texas delegates to the National 4-H Congress. The veteran 4-H'er claimed first place in the Cooperative Contest at State 4-H Roundup in 1969.

Lion Governor Presents Pins

District 2T-2 Lion Governor Bob Levo was a surprise guest at Lions last Wednesday. Purpose of the visit was to present the new official District pin to the club.

Levo made the first presentation to the pin designer, Ed Redwine, then presented pins to the Club Sweetheart, Staci Short, to the club President Jack Jaquess Jr. Levo then announced that each club member would receive one of the new pins at no charge.

The entire affair was the result of a contest between clubs of District 2T-2 to come up with a pin designed around the Coaches All America Game. Fourteen designs were submitted. The pin will be used by the Lions of the district as trade items at the International convention in Mexico City this summer.

The pin design is round, slightly bigger than a quarter and gold in finish. The words "Home of the Coaches All America Game" appear around the outside. Within the inner circle are the Lions emblem, the outline of a football and our state plus a red white, and blue 2T-2 entwined. The surface is covered with a plastic coating that serves to protect the face.

The remainder of last week's

meeting was taken up by an auction of supplies left over from the Volleyball Tournament.

New Lion members are Jim-

my McMillan, Connie Eagle, and James Murray.

Guests and prospective members are welcome at the Wednesday meetings.

Last Minute Appeal For Easter Seal

A last minute appeal for support of the Easter Seal Society for Crippled Children and Adults and its program of services to the handicapped was issued today by Mr. J. M. Small who is the Easter Seal Representative in Lynn County.

The Easter Seal Society provided treatment and services for over 22,000 physically handicapped children and adults in Texas last year, he said, and this program needs to be expanded. Many people are going without services that would increase the productivity of their lives and make them happier. With increased growth of the Easter Seal Society, more and more of these people will be reached, he added.

The Society is carrying out a continuing program to seek out the disabled who are do-

ing without services and see that they receive the help they need. As Easter Seal Representative, Mr. Small, is the person to contact for services from the Easter Seal Society.

The Easter Seal Society of Texas helps support 19 treatment facilities in Texas where crippled children and adults are treated, regardless of their ability to pay. Physical, occupational and speech therapy are offered to help the handicapped overcome their disabilities. A complete referral program to ensure equal rehabilitation services to every person in Texas is included in Easter Seal Society services.

The Easter Seal Appeal will close Easter Sunday, April 2, and full support should be given the Easter Seal Society by every citizen of Lynn County, he added.

STATE Capital NEWS

By BILL ROYKIN

State lawmakers polished off billboard control and primary election finance legislation in a three-day special session -- and added far-reaching procedural reform rules for good measure.

They will be back to work in June on budget and tax matters.

In their "mini-session", the legislators -- many anxious to get back to the campaign trails -- logged these accomplishments:

They provided for emergency state financing of the May and June primary

elections and set aside \$2 million to pay the bills. Another long-term primary finance measure will be necessary next year.

They moved to meet federal highway beautification requirements by outlawing billboards within 660 feet of major highways and providing for screening of junkyards. The measure will cost the state about \$5 million a year in condemnation costs for five years. But it will prevent a \$24 million loss of federal highway construction funds for non-compliance with regulations.

Both House and Senate adopted joint rules including sharp limitations on powers of conference committees to write new legislative matters without majority permission. The House also accepted rules installing a limited seniority system for committee assignments, reducing the number of committees from 46 to 25 and providing for electronic recording of House and committee proceedings.

Legislators also made Texas the eighth state to ratify a proposed federal constitutional amendment guaranteeing equal legal rights for women.

Highlight of the opening day was election of Rep. Rayford Price, 35, of Palestine as new speaker of the House. Price won 77-65 over Rep. L. De-Will Hale of Corpus Christi. He succeeds Rep. Gus Mutschler of Brenham who resigned after his conviction for bribery conspiracy.

ALLOWABLE ADJUSTED -- Texas Railroad Commission decided to hold the oil allowable for the big East Texas Field to 66 per cent during

BLACK BASS -- Pictured above are J. G. (Ted) Rogers and grandson, Bruce Lester, with about half of their catch of black bass, ranging from 1 1/2 to 6 pounds. They caught these at Sugar Lake. Also going on the fishing trip were Mr. H. L. Webb and Virgil Adams.

April instead of the 100 per cent fixed for the rest of the state.

An increase for the East Texas Field was postponed pending completion of a study.

Chairman Byron Tunnell said the nation has "far too much at stake" in East Texas "to risk reservoir damage through excessive production rates."

For the first time since 1948, the Commission fixed a 100 per cent production factor for this month.

COURTS SPEAK -- Major sections of Texas vagrancy laws were held unconstitutional by the State Court of Criminal Appeals which said the act makes it a crime to be unemployed or poor.

Texas Supreme Court declined to order two aspiring candidates' names placed on the May primary ballots. One failed to post a filing fee or petition of candidacy. Another was refused a ballot position because he was already a member of a utility district board.

The High Court set for May 10 a hearing on an appeal involving the City of Amarillo's power to tax a Masons' Lodge building and three lots owned by the order.

AG OPINIONS -- Texas Air Control Board can pay court costs in civil penalty pollution-control suits from its operating expense fund, Atty. Gen. Crawford C. Martin held.

In other recent opinions, Martin concluded: It is unlawful to hunt deer

with dogs in Shelby County.

Texas National Guardsmen from other states are eligible for resident student tuition status in state-supported colleges and universities.

A person who holds a voter registration certificate is eligible for a junior college district trustee office if he lives in the district.

A criminal conviction for traffic violations would not qualify as a "hearing" subjecting a person to requirements of the Texas Motor Vehicle Act.

The legislature cannot appropriate funds to pay primary election expenses incurred by local political parties in the past.

INSURANCE HEARING PUT OFF -- A scheduled March 29 hearing by the State Insurance Board on a proposed

increase in home insurance was indefinitely postponed amid talk of compromise.

Board Chairman Larry Teaver sought a year's delay in applying a rating factor providing for rate additions due to inflation and rising construction costs. He had been out-voted by two other Board members on postponing use of the inflation factor.

"The Board is taking a thorough look at all of the factors involved with rating and working toward solutions to complex and complicated problems that arise when considering rate adjustments," Teaver said.

Teaver contended the Board's refusal earlier to suspend the inflation trend factor would cost Texans an additional \$27 million in premiums next year, when a \$14 million

reduction could have been made under his own recommendations.

TRAFFIC TOLL REVEALED -- A total of 3,594 persons died in Texas motor vehicle accidents during 1971, according to Texas Department of Public Safety tabulations.

DPS Director Col. Wilson E. Speir said the death toll represents a one per cent increase over 1970, when 3,560 died on the streets and highways.

Speir noted that vehicle miles driven increased from 68 billion in 1970 to more than 70.7 billion for 1971 -- a four per cent rise in driving. At the same time, the number of licensed Texas drivers rose by nearly 324,000 to a total of almost seven million.

The death rate per 100 million miles of travel actually decreased three per cent from 5.2 in 1970 to 5.1 in 1971, Speir said. The death rate in 1966 was 6.2. Of the 3,594 deaths in 1971, 2,184 occurred on rural roadways and 1,410 in urban areas. There were 2,993 fatal accidents and 394, 166 total accidents last year. Speeding and driving while intoxicated were listed as primary violations in fatal mishaps.

EVENTS CALENDAR PUBLISHED -- Texas Highway Department lists nearly 950 "happenings" in its Calendar of Events from April 1 - September 30.

Old and new events include the 104th Washington County Fair in Brenham the First Annual Howdy-Roo Festival at Marble Falls and the First Annual State Arts and Crafts Fair at Kerrville.

Tourist bureaus of the Highway Department reported that many of the 1.35 million tourists who stopped for services in 1971 requested information on events.

Among new listings are the First Statewide Folklife Festival at the Institute of Texan Cultures in San Antonio; the annual slingshot championships at Carrizo Springs; the

state frog-jumping contest at Refugio and the Spring-Ho Festival at Lampasas.

FIRE ANT ON RAMPAGE -- Imported fire ants are migrating from East Texas west to the Dallas - Fort Worth area and south as far as Corpus Christi, warns State Agriculture Commissioner John C. White.

The fire ant is now found in 55 Texas counties and infests 16 million acres, White reported. White said future of the only bait used to control the ants -- Mirex -- is pending before the Environmental Protection Agency. The Agriculture Department now distributes the bait to designated officers in infested areas.

SHORT SNORTS -- Comptroller Robert S. Calvert estimates \$711.1 million in general revenue will be available for certification toward 1973 budgeting.

Texas Air Control Board will have air sampling personnel on duty for the next several months in the area of the American Smelting and Refining Company's Amarillo Plant.

Texas Civil Liberties Union filed suit to knock out the one year - six months state-local residency requirement for voting.

The Federal Pay Board authorized retroactive per diem allowances for state employees from September 1 to November 14, 1971.

Sen. Barbara Jordan of Houston is new state senate

president pro tempore -- the black woman in the U. S. chosen to such a post.

State and local task forces are helping veterans find jobs.

SOIL CONSERVATION NEWS

BY A. V. SHEPPARD

Have you seen a Texas pistachio tree, an Attwax prairie chicken, or a Texas wild-rice plant lately?

Probably not, because they are scarce. But they are some of the rare and endangered species that will be discussed at an interagency conference in Austin April 5.

Called by the USDA Soil Conservation Service, the meeting will be attended by representatives of state and federal agencies, univer-

sities, and various organizations interested in preserving Texas plants and wildlife.

Clyde W. Graham, state conservationist for SCS in Temple said the purpose of the meeting will be to prepare a correlated Texas watchlist of rare and endangered species of plants, animals, fishes and birds to discuss the kinds of measures important to their habitat and to discuss the possibility of setting up a monitoring program.

An Open Letter To The People Of Texas

Dear Voter:

I'm a candidate for attorney general of Texas because I believe it's time for a change in the office.

Crawford Martin is seeking a fourth term. It's the first time in the history of Texas an attorney general is running for a fourth term.

Campaigns should be run on the issues and I don't like to inject personalities and personal relationships into a political campaign. But, the relationship between Frank Sharp and Atty. Gen. Crawford Martin cannot be swept under the rug.

The new book about the Texas stock fraud scandal, "Texas Under a Cloud," tells about that relationship. On page 128 the book says:

"Atty. Gen. Crawford Martin... got some free newspaper publicity when it was revealed in October, 1971, that he received a 'stock tip' from Frank Sharp — while Martin and his family were Sharp's ranch guests late in 1969 and again at Sharp's Houston office early in 1970."

"Sharp was trying personally to sell National Bankers Life stock to Martin, although the attorney general said that Sharp never mentioned the possibility of Sharpstown Bank loans to buy the stock. Martin said that he turned the stock offer down because it would have cost too much, because NBL was in 'shaky' condition, and because he did not buy 'speculative' stocks."

"He did not comment on the ethical aspects of a state official's accepting a stock tip of that sort — perhaps, because Martin, as attorney general, had ruled in favor of Sharp on a key legal issue about Sharpstown State Bank only two and one-half years before Sharp made the stock offer to Martin."

"Martin's ruling had the effect of increasing the bank's capitalization dramatically and thus its ability to make large loans, ultimately giving Sharp the financial resources he used in the manipulations charged by the SEC."

As you know, hundreds of Texans lost their life savings because of Sharp's stock manipulations and it probably wouldn't have happened but for Atty. Gen. Martin's legal opinion.

Don't you agree, it's time for a change in the office of attorney general of Texas?

Just so you'll know what you'd be changing to, I'd like to tell you a little about John Hill. I'm a native Texan, grew up in Wink and Kilgore, was national debate champion at Kilgore Junior College and graduated from the University of Texas Law School. I served in the Navy during World War II, practiced law (much of the time in courtrooms) in Houston, and was secretary of state from 1966 to 1968.

I certainly would appreciate your support.

It is time for a change.

John Hill

P.S. If you want to help in our campaign, please write John Hill, 408 Brown Building, Austin, Texas 78701 or call 512-474-1991.

Repeat applications at regular intervals according to label directions. Direct sprays so that both surfaces of the leaves are covered. "The degree of black spot control will be no better than the coverage obtained."

Effective spray materials include Benlate, Daconil 2787, Dithane M-45, Phaltan and Zineb. Other fungicides may also be available at your local garden or supply store. Sulphur dust, an old "stand-by" fungicide, is still used by many growers and is an effective material. However, its use should be discontinued after temperatures reach 85 degrees F. or the leaves will bronze.

COTTON TALKS

The Texas Association of Cotton Producer Organizations (TACPO) at a recent meeting in Austin recommended that U. S. Department of Agriculture officials "consult with grower representatives before issuing farm program regulations and then make any new or revised rules known to producers at the earliest possible dates."

And Johnson has commented "We are grateful that USDA saw fit to revise its original decision, but the confusion and delays in farming operations could have all been avoided if USDA had sat down last Fall with producers or producer representatives and discussed the matter in advance."
