Cancer Crusade Begins March 26

Once again there is a hopeful theme for the American Cancer Society's April Crusade: "We want to wipe out cancer in your lifetime." This will be made possible through the efforts of every individual. Lynn County residents have been responsive to the ACS Crusade volunteers in past years and are urged to help when called upon this year. The Lynn County Crusade will begin March 26 and will end April 5.

The trend over the last four decades shows that there is a real basis for cautious optimism. In the late thirties less than one in five cancer patients was being saved. Twenty-five years ago it was one in four. And today one of three who get cancer is saved.

Medical experts believe that with present methods of treat-

ment one out of two cancer patients could be saved, providing detection and treatment come in time.

Advances in the treatment of cancer have come from research and improvement of surgical and radiation therapy. In a slow but steadily growing number of cancers, drugs have been effective.

But there can be little difference of opinion about what is needed for the final conquest of this ancient enemy of mankind. The scientific effort has to be broadened and stepped up. This means more money is needed for brain power and manpower, more equipment and research facilities.

When an ACS volunteer comes to your home, remember the goal: "We want to wipe out cancer in your lifetime."

Robert Harvick Receives Award

Robert Harvick of Tahoka, agency manager, Garza and Lynn County Farm Bureau, received a Master Agent award from the Texas Farm Bureau Insurance Companies at a recognition program February 25-26 at the Green Oaks Inn in Fort Worth.

To be selected as a Master Agent is the highest honor and recognition the Texas Farm Bureau Insurance Companies can bestow upon a member of their sales force according to company officials. B.C. Jones, Waco, is executive vice president and Austin Crowover, Waco, is state sales director for the companies. The criteria for determining Master Agent is rigid and selective, requiring the maintenance of high professional standards, they said.

Jones and Crowover said the following criteria is used in determining recipients of the Master Agent award:

Production must rank high in life, fire and casualty insurance sales throughout the year.

The agent must have been with the Companies two years or more, participate in company schools and follow company guidelines.

Professional status must be maintained as full time Career

Agents or Agency Managers.

A Master Agent must maintain a good business record on underwriting risks and handling claims.

The Master Agent must adhere to Company and Farm Bureau procedures and policies. He must cooperate, be loyal and maintain a cooperative personal attitude with members and County and State Farm Bureau personnel.

This was the first year for the Master Agent program. A total of 27 agents received the award at the Fort Worth meeting. There are 310 agents serving Farm Bureau members in Texas.

Clean Up Your Own Mess Week Begins Tomorrow

"Clean Up Your Own Mess" week starts tomorrow and runs through Sunday, March 16. Many citizens have been observed getting a start on the project.

The program was started by the Lions Club and has received endorsement from the City of Tahoka, the Chamber of Commerce, and the Chamber of Commerce. A poster contest for children in the 4th and 5th grades is being sponsored by the Chamber. Posters will go on display tomorrow Saturday.

The city sanitary landfill will be open Sunday for people who do not normally use the facility during normal hours of operation. City men and equipment may be used on a very limited basis depending on each individual situation. A lack of manpower and equipment that next week is metering out will prevent the city from taking a very active part. Requests for assistance should be

directed to the office of City Manager, Milt Uzzle.

Each citizen is asked to participate by cleaning up the mess that most of us have at home. Trash, debris, abandoned cars, littered alleys are the targets of the campaign. Businessmen are asked to take care of the areas around their establishments.

City Election Set For April 6

The Tahoka City Election will be held April 6. The terms of Johnny Valentine, Bob Haney and John Ed Redwine expire. Those having filed for the three places are E.T. Cloe, Charlie Mack Holland, Jesse Dorman, John Ed Redwine, re-election, James F. (Sonny) Roberts, and Isidro (Shor-ty) Fuentes.

"Big Textile Push in Texas" is the title of an article in the February issue of "America's Textiles Reporter - Bulletin" which ties in perfectly with the theme of our upcoming annual meeting," notes Donald A. Johnson, Executive Vice President of Lubbock-based Plains Cotton Growers, Inc.

The "big push" is exactly what we have in mind on the High Plains, Johnson said, "and while the move is already underway we expect it to gain additional momentum with the full airing of the area's textile potential at our annual meeting on March 19." The meeting is to be held at Van's Catering Service just east of Lubbock on the Slaton Highway. The program is built around the creation of new markets for High Plains cotton, primarily in open-end spinning mills both on the High Plains and elsewhere.

The Reporter-Bulletin article points out "... an influx of textile mills, to locate cheek by jowl with the sprawling cotton fields, would provide encouragement and solidity to the cotton growing community as well as some very real advantages to the mills themselves." It goes on to say that Texas growers, particularly in the High Plains area around Lubbock, have been most anxious to develop additional end uses for the particular type cotton that flourishes in the High Plains.

Recent research information has found that High Plains low

micronaire cottons produce a stronger more uniform yarn when processed by open-end spinning than when processed by conventional ring spinning, and the yarn from High Plains cotton is said to be especially suitable in denim production.

In agreement with what PCG has been saying all along, the textile magazine article stated "Confirmation of these findings could open the door to huge new markets for High Plains cotton in coming years."

Market demand for denim fabric for use in jeans is expected to continue strong both in the U.S. and abroad for some time to come. Textile analysts have projected there will be a 42 percent growth in the sales of jeans and jeans-cut trousers between 1971 and 1977.

One textile mill using open-end machinery, Southwest Textiles, is already in operation at Abernathy, and two other such mills are in advanced planning stages.

The Reporter-Bulletin article singled out labor availability, proximity of suitable raw materials, availability of less expensive natural gas, the Texas Right to Work Law, and nominally priced real estate and tax concessions from local governmental authorities as a few of the assets which will attract additional textile industry to the High Plains.

"PCG hopes to exploit all of these advantages plus the advantages of our kind of cotton in open-end spinning mills," Johnson said, "to the end that within not too many years a significant volume of textile production will be located on the Texas High Plains."

Speakers for the PCG annual meeting March 19 will include Nick Hahn, Vice President in Charge of Sales and Marketing for Cotton Incorporated, with headquarters in New York City; James S. Parker, Director of the Textile Research Center at Texas Tech University, and Paul P. Cook, President of Feather Fabrics Incorporated, which is now in the

process of installing an open-end spinning plant in Lubbock.

The meeting will begin at 2:00 p.m. with adjournment contemplated at about 5:30.

BILL GRIFFIN SAYS

Pork supplies should remain tight through 1974, and producers can expect prices to hold generally steady, forecasts a livestock marketing specialist for the Texas Agricultural Extension Service.

Smaller red meat and poultry supplies coupled with increased demand sent pork prices to new heights during 1973. Barrows and gilts at seven markets averaged \$40.61 per hundredweight last year, up 52 percent from the 1972 average.

Increasing exports to Japan may also keep the pressure on pork supplies.

Hog numbers increased slightly from 1972 to 1973, and inven-

tories during the first half of 1974 should be similar to those during the first six months of last year.

With current high prices, why aren't producers expanding their operations?

Taking into account the high price of sorghum for feed, producers need to receive about \$44 per hundredweight for gilts and barrows. Since this is above current prices, many pork-grain producers are holding down their swine herds and marketing their sorghum directly.

A specialist foresees barrow and gilt prices at \$41 to \$40 per hundredweight during the January-March quarter and a bit higher during the April-June period due to continued short supplies and high beef prices.

Prices are expected to soften some during the July-September quarter to go along with the expected decline in slaughter cattle prices. If fed cattle marketing take a big jump during the last few months of 1974, as some predictions indicate, hog prices could take a sharp plunge to the \$33-36 level.

He was a member of the O'Donnell Church of Christ.

A SHORT REPORT

By REPRESENTATIVE E. L. SHORT

Federal student loans for Education has problems--upgrading needed--1973 showed defaulted loans of 116 million. Officials estimate current budget will see 100 million more added--matters such as this I believe could be handled through local lending agencies and cut inequities by two-thirds (the Government could guarantee the loans).

Some invitations are just too good to pass. School Finance Reform Conference panel will be in Maury, Rep. Kublak and Senator Bernal--all liberals. This is possible by a grant by Ford Foundation.

AFL-CIO President predicts there will be "no right to work" in the new Constitution because they have the support of President Daniel and other high state officials. . . Don't bank on it . . . They haven't got control yet. A proposal - "Initiative and referendum" - Initiative allows citizens, upon petition, to propose laws; referendum allows rejection of laws enacted.

Representative Clayton of Spring Lake is ahead in the Speaker's race. Close to 50 pledged.

Senator Blanchard, Senator Sherman and I were very pleased with recent manpower and statistical data by the Texas Industrial Commission we requested.

Seminole's Dottie Dan Manufacturing and Levelland's Japanese Cotton Mill -- South Plains College has been approved for

training courses for employees. Finance Committee voted 12-11 to remove the ceiling on welfare.

On issues to be decided--is to prohibit a State Income Tax in the new Constitution. The Committee on Finance voted instead to remain silent on the issue--"anything silent can be enacted by the Legislature." Another--"That County Valuations will be used for all purposes" (schools, hospital districts, etc.); Also--"wages garnished for child support."

Many questionnaires are sent by the members to their districts--all ask about annual sessions - over 60 percent say (yes)--75 percent said the 31-member Senate should not be increased, but a committee voted to permit it anyway.

Need a Lawyer?--Texas had 19,074 in 1970--1 for every 587 people.

A report released by the U.S. Senate Agriculture Committee indicates the county's agricultural transportation system is "near a complete collapse" because--rail abandonment and reduced rural road construction had created the "transportation crisis".

Rights and Suffrage Cmte adopted a section that says "elections shall be by unsigned secret ballots". This was passed in the House last session--Failed in Senate--without a signature on the stub of the ballot the purity of the ballot box would be destroyed--signed stubs are the

only way to positively recount each ballot.

Licensing of religious facilities such as schools run by Evangelist Lester Roloff will evidently still be the same--"They will still be licensed".

Legislative--decided to give the Legislature the right to call itself into special session--"with two-thirds of each House approving the question."

Attorney General John Hill ruled that --"chiropractors don't practice medicine."

Brenda Kuehler and Anne Hatla, Seniors at Pep High School, were in the Capitol this past week working on the Austin staff.

Mrs. Ramsey's Brother Dies

R.L. Pirtle, 79, of 2219 - 16th St. died at 7:40 a.m. Tuesday in Methodist Hospital.

Services were held at 2 p.m. Wednesday in the Broadway Church of Christ in Lubbock with Joe Barnett and Horace Coffman, ministers, officiating. Burial was in Tahoka Cemetery under direction of Rix Funeral Directors of Lubbock.

Pirtle was a member of the Broadway Church of Christ in Lubbock. He moved to O'Donnell in 1922 from Comanche County, Texas, and farmed in that area several years before moving to Lubbock in 1947.

Survivors are the wife, Kate; a son, Julian of O'Donnell; a daughter, Mrs. Sibyl Morrison of Lubbock; a sister, Mrs.

Oran Ramsey of Tahoka; a stepson, Robert H. Davis of Slaton; a stepdaughter, Mrs. Vera Nell Ewers of Cincinnati, Ohio; seven grandchildren; and four great-grandchildren.

Easter Seal Appeal Letters

Easter Seal Appeal letters are being delivered this week in Lynn County according to W.H. Eudy, the Easter Seal Representative of the Easter Seal Society for Crippled Children and Adults of Texas. As Representative, Eudy serves as contact representative for disabled persons needing Easter Seal rehabilitation services and also serves as Treasurer of the Easter Seal Appeal in Lynn County.

The Easter Seal Society offers physical and occupational therapy, speech and hearing programs, and special equipment loans to enable disabled persons to make the best use of their abilities to overcome handicaps. These services are financed by the annual Easter Seal Appeal.

The Society also finances public education programs, provides scholarships for training of professional personnel to staff rehabilitation centers, and helps provide for national research into the causes and cures of crippling conditions.

Eudy pointed out that all these programs are important if Texas is going to continue to provide the best in rehabilitation services for its own disabled citizens.

During 1973, the Texas Easter Seal Society provided treatment and services for 20,570 children and adults who were in need of assistance. Easter Seal services are available to any disabled person who can benefit from help provided by the Easter Seal Society, and who do not qualify for any other assistance, Eudy added.

The Easter Seal Campaign will continue through Easter Sunday, April 14.

Because of the fact that the flu bug bit me, and I was under the weather for a couple of weeks, we got quite a bit behind on our work, and our inside sidewalk sale sort of fizzled out. So because we fizzled out too, we have set aside Friday, March 22, and we are going to have a good 'ole fashioned sidewalk sale, even if it snows. We have a mess of display pictures and they will all be on sale ONE DAY ONLY, Friday, March 22, in good 'ole Tahoka.

Nursing Home News

March 4th, Colonial Nursing Home, Corine Izard writing.

I'll start off the news by giving our March birthday people. They are Leola Lee, March 15; William Foster, March 26; J.B. Oliver, March 28. Our February birthday party was on February 27 of last month. We all enjoyed the beautiful birthday cake and ice cream.

Mr. and Mrs. William Owens are both patients in the Lynn Co. Hospital. They were admitted on February 26. Reports are they are improving. Gertie McFadden can't seem to get over her flu bug, but is feeling some better. Lillian Corbin was also admitted to the hospital for a couple of days yesterday.

Corine spent a couple of days in the hospital having her 6-weeks check up. Her ulcers are doing very well so she can eat anything she likes now, so look out because her favorite food is fried chicken and tacos.

A couple of little boys spent most of Saturday cleaning out our flower beds and picking up trash in the yard. It sure looked good after they got through. It won't be very long before we can start our flower beds again this year. Ruth Edwards from Denver City spent the weekend looking in on her mother, Mrs. Mattie McCord. Mrs. Short and Mabel Smith are here often and also Mrs. Willie Thomas. Mrs. Thomas is in Dallas with her husband now.

Bro. Jones and several members were here Sunday to bring our Sunday services. He read scriptures from Isaiah, Chapter 41, verses 10 through 14, where the Lord told his people "Fear thou not, for I am with

Thee, be not dismayed, for I am thy God, I will strengthen thee, yea, I will help thee, yea I will uphold thee with thy right hand of my righteousness. He brought our attention that this verse had the word I written five times. It was a very good sermon.

Roy Moreman spent the weekend in Brownfield with his son and family. He reported a very good time.

It's time for our Gospel singing. We had some first time helpers with the singing this Monday. They were Mittie Walker, Mrs. Tankersley, Mrs. Skip Taylor, and Mrs. Connally was once again back with us. We sure enjoyed the singing as we always do on Mondays.

Mrs. Veta Ford brought a beautiful gladiola flower arrangement which was sent by the First Baptist Church. Thank you so much. The arrangement is lovely. We put it on the TV in the lobby so everyone could see it and enjoy it.

Bye for now, see you next week.

John Wells Presents Program

Phebe K. Warner Study Club met at the First National Bank meeting room Tuesday, February 26 with Mrs. G.W. Grogan and Mrs. Cecil Robinson serving as hostesses.

A very interesting and informative program was brought by Mr. John Wells of Tahoka. Mr. Wells related events in the life of James Pinckney Henderson, first governor of Texas.

A blood drive will be held in Tahoka March 11 from 4-8 p.m. at the First United Methodist Church Fellowship Hall. Anyone interested in donating a pint of

blood to Blood Services of Lubbock should come to the church during these hours or contact a Phebe K. member for further information. Mrs. Elmer Owens is chairman of the drive.

Sacred Music

Festival March 16

In an effort to bring to the citizens of Lubbock and the surrounding area the best in gospel music, "Let the Sun Shine Through" will be presented by the Lubbock Symphony Orchestra on March 16 at 8:00 p.m. The second annual Sacred Music Festival, with its all new theme and some of the best gospel performers around, has been relocated in the Lubbock Municipal Auditorium and will be emceed by Eddy Nicholson.

Audience participation is a major feature of the Festival in its attempt to bring back the old feeling of community found when people sing together. Featured performers will be Dino, gospel pianist, Richard Campbell, and the Oral Roberts University Singers. The Lubbock Symphony Orchestra will accompany the performers and audience sing-along and conducting will be shared by William A. Harrod, conductor of the Symphony, and Tony Catanzariti, Music Director at Oral Roberts University.

Dino, who last name is impossible to pronounce and consequently seldom used, comes to Lubbock with a reputation established through repeated appearances with Kathrine Kulhman on her T.V. show. He has recorded several sacred albums, including "The Greatest of Miracles", which was awarded as the best religious instrumental album of 1970. A graduate of Julliard, Dino left the field of classical concert performance to concentrate his talent in the gospel area.

Along with Dino will be featured the Oral Roberts University Singers, a group of 40 college students who travel around the country singing gospel music. Their youth and vitality will be well reflected in the Ralph Carmichael arrangements planned as part of their repertoire here. Lubbock and area citizens already know Richard Campbell who has been singing and directing choirs in Lubbock for several years. He appeared in the 1973 Sacred Music Festival and is back by popular demand.

Tickets for the Festival may be ordered by mail through March 9. If ordering by mail, please send check, self-addressed and stamped envelope to Lubbock Symphony office, 1721 Broadway, 79401, being sure to specify number of tickets and price range. All tickets must be paid for before they will be mailed. Ticket prices are \$4.00, \$3.00 and \$2.00 (second tier of the balcony only) with children under 12 one half price. After March 9, tickets may be purchased at the Symphony office. For further information call 762-4707.

Carolyn Haley Says...

With the energy shortages becoming an important factor to everyday living, we are all seeking ways and means of saving as much of it as possible. This we must do. One thing we must not do during a crisis is sacrifice the health of our families. The automatic dishwasher has long been recognized as a contributor to good health. There are ways of conserving some of the energy it uses without losing the sanitizing of dishes, which prevents the spread of colds and flu through a family. The following suggestions are ways that a dishwasher can be used and yet conserve energy.

Accumulate your dishes until you have a full load. If you have too many dishes for good washing results, remove any pans or large bowls and wash them by hand.

If your dishwasher has a short cycle, use this instead of the regular full length cycle. Check your dishwasher Use and Care booklet and review the loading procedures recommended by the manufacturer to get the best possible results.

Another energy saver is eliminating the drying portion on the dishwasher. Be sure the water temperature is at the specified 140 to 160 degrees. When the dishwasher reaches the end of the rinses, open the door and the dishes will dry from the residual heat built up inside. With this method it is important to use one of the commercial wetting agents that help prevent spotting and streaking. The drying portion is the longest time in automatic dishwashing and with the heating element on consumes more power than the other portion of dishwashing.

When there is flu or colds in the household, it is wise not to eliminate the drying portion of your automatic dishwashing. Use the regular cycle with the full drying time until the possibility of transferring germs to the rest of the family has passed.

A water temperature of 140 to 160 degrees Fahrenheit is recommended generally, and under normal circumstances should be the rule in every household. However, when soft or softened water is used in the dishwasher, the temperature can be dropped a little.

Do not use the dishwasher for a plate warmer. This would be extravagant misuse of energy. Plates can be warmed by allowing them to set on top of the range during cooking, or if the oven is being used for a meal, place the plate in the oven for a few minutes immediately after turning off the heat. This does not apply to old fine china because of the possibility of crazing due to the change in temperature. Newer china has a better glaze and should be safe.

RECIPE OF THE WEEK
Peanut Butter Muffins--A great way to start the day.
1 cup milk
1 egg, slightly beaten
1/4 cup oil or melted fat
2 cups flour, unsifted
1 tablespoon baking powder
1 teaspoon salt
1/4 cup sugar
1/2 cup peanut butter

After preheating oven to 400 degrees F. (hot) and greasing muffin tin, blend milk into egg and add fat. Mix dry ingredients thoroughly; mix in peanut butter only until mixture is crumbly.

Add liquid and mix slightly, leaving batter lumpy. Half fill muffin tin with batter and bake 20 to 25 minutes, or until golden brown. Makes 12 muffins.

These muffins should please every member of the family, and they are a great way to start the day.

Basing his talk on "what happens before and after football season," Tucker told of the intensive program of training for the many contests during the learning process, high cost instruments, and the outstanding progress being made by students during the two years he has been here.

V.F. Jones, who introduced the speaker, said Tucker was a member of the Texas Aggie band transferred to North Texas State to major in music, and came here from Fort Worth. He has 10 years experience as a band director.

President Johnny Wells read a letter of thanks from Pete Hester for the honor bestowed on him by the club, and urged Rotarians to cooperate in the blood drive here on March 11.

SANCAP. BECAUSE YOU HAVE ENOUGH SOIL PROBLEMS ALREADY.

If the soil in West Texas was the same as the soil everywhere else maybe the herbicides they use would be good enough for you. But you've got different soil. Sandy soil. And different problems. You need an herbicide specifically made for sand, loamy sands and fine sandy loam soils. You need Sancap*.

If you used it when we introduced it last season, you know what it can do. **STOP CARELESSWEED AND RUSSIAN THISTLE COLD.** Without hurting your cotton. With just ordinary rainfall or irrigation. And all you have to do is broadcast Sancap over your field at planting or within two days after. No incorporation, either. Sancap. The only herbicide made for sandy soil. We made it especially for your soil and problems. And not anybody else's. Agricultural Division, CIBA-GEIGY Corporation, P. O. Box 11422, Greensboro, NC 27409. **CIBA-GEIGY**

The only herbicide made for sandy soil.
**YOU DON'T HAVE TO USE A

SOMEONE ELSE'S SOIL.**
